Physic teacher David Caldwell, center, made physics fun (almost) when he introduced his NCHS class to a generator. Students got a "shock" of what it would do! Students gathered in a circle for the circuit display.

**State sets 1995 hunting season**

FRANKFORT - Hunters who carry a junior hunting license will get a special you deer hunting day next year on the fourth Saturday in October following action by the Kentucky Department of Fish and Wildlife Resources (KDFWR) Commission.

The KDFWR Commission recently met in Frankfort to set deer and small game hunting season dates for 1995-96. The commission approved the

October for counties in Zones 1-4 for entries deer to encourage youngsters to try the sport of hunting.

Deer hunters under age 16 who hunt with a firearm must be accompanied by an adult and must have completed a free hunter education course provided by the KDFWR.

Except for this addition, ordinary muzzle loading and modern gun deer seasons remained unchanged for 1995.

Muzzle-loading season will be Oct. 21-22 and Dec. 15, 1995.

The Youth-Only Hunt Day will be Oct. 28, 1995.

Modern gun season with the Nov. 11-16, 1995.

County zone designations and all other deer season regulations will be discussed during the next quarterly commission meeting March 3, 1995 in Frankfort.

In other action, the commission approved small game hunting seasons for next year. Squirrel, quail, rabbit and grouse seasons and bag limits remain unchanged for 1995. All KDFWR-owned or managed wildlife areas will be open for squirrel hunting on the third Saturday in August (same as state-wide) and will also be open June 1-14 for spring squirrel hunting.

A quail season will be opened on the Pennyroyal Forest and Tradewater Wildlife Management Areas in Dec. 1995. The commission modified the raccoon and opossum hunting season to open at 12:01 a.m. Nov. 1 and run through noon, Feb. 1. During the modern gun deer season, raccoon and opossum hunting will be permitted only at night by hunters using only 22 caliber firearms. Hunting and trapping seasons for other fur-bearing game species remain unchanged.

Lastly, new regulations on personal watercraft, such as Jet Skis and Wave Runners were approved. The KDFWR plans to submit laws including personal watercraft to be used in the use of engine cut-off lanyards to be operated only by persons trained and tested and to operate in a manner that is not reckless and to operate at side speed in "No Ski" zones.

**ASK JUDGE**  
Answers to your environmental questions

ASK: Q: Why are there so many kinds of plastics? Why don't we make just one kind that can be recycled?

A: Different kinds of plastics exist because they perform different functions. The plastic keeping your hamburger fresh is quite different from the plastic soft drink bottle keeping your soda fresh.
