

TEXAS HEREFORD

The Official Publication of the Texas Hereford Association

June/July 2021

In a storm about your next breeding decision?

Let us help you make it easy with the Predictable, Proven Performance of a Barber Ranch bull!

Our Annual Bull Sale is a spectacular offering of the Hereford breed's most exciting genetics from one program...thoughtfully designed to add profit and peace of mind to your breeding program.

Progressive cattlemen appreciate the true value of sale day when their calves bring top dollar, as evidenced by Coby Schacher's baldies that recently topped the Texhoma Livestock Exchange with a set of calves sired by Barber Ranch bulls. Manager and auctioneer Ashley Noland averages 1,500 head per week at Texhoma and stated that since Coby has been consigning calves to this auction the past two years, they have consistently topped the market. Noland credits advertising these Barber-sired calves with consignors' names has gained buyers' attention and said Schacher's pens topped all classes sold in this late spring sale at \$1.62 for 590 lb. steers and \$1.52 for their 550 lb. heifer mates. Noland's Texhoma location sold the highest feeder cattle in the nation two weeks after this sale (as evidenced by Corbitt's Feeder Flash data) and has not sold anything higher since then. Let us help you get top dollar for your next calf crop!

Customer Coby Schacher

**To simplify your next breeding decision,
mark your calendar to join us in San Saba
Wednesday, November 10**

With all the uncertainties in today's environment,
can you afford not to?

Live at Jordan Cattle Auction near San Saba & on Superior

Near 100 lots of cutting-edge Hereford genetics...horned & polled

High performance bulls as well as calving ease bulls. Videos online prior to sale day.

One Family. One Passion. Since 1904.

Review by Asher Karnes

Departments

- 32 Letter from the President
- 34 Letter from the Editor
- 36 Letter from the Auxiliary President
- 38 Letter from the TJHA President
- 72 Calendar of Events
- 73 THA Officers, Directors and Members
- 74 Regional Associations/County Listings
- 100 Honorary Members/Leadership
- 101 Auxiliary Officers, Directors and Members
- 104 TJHA Officers, Directors and Members
- 112 Index of Advertising

On The Cover

This little calf was hidden by its mother and finally found among the flowers on the Dangelmayr Brother's Ranch in Muenster, Texas. Cover photo submitted by Jessica Dangelmayr. For the photo chosen from all the submissions, Ms. Dangelmayr will receive a check for \$100 from Park Place Enterprises.

THE TEXAS HEREFORD (ISSN 0744-4761) (USPS 616-680) is published monthly except for the month of July by the Texas Hereford Association. POSTMASTER: Please send change of address notices to The Texas Hereford, 4609 Airport Frwy., Ft. Worth, TX 76117. Periodical postage paid at Ft. Worth, TX, and additional mailing offices. Subscription rate: One Year, \$15.00. Advertising rates on request. Contributions to the editorial pages are welcome, but the magazine cannot be responsible for the return of unsolicited material.

30-year Our [^]passion.

It's what we do...YEAR. AFTER. YEAR.

Breeding heifers like these.

That make cows like these.

And raise bulls like...

Thank you to
Donn Jibbens and
John Delin for purchasing
5 donor females.

Butcher Steers

Our top 15 butcher steers will be available for beef portions (1/4, 1/2 and wholes), and will be grass fed and grain finished till this fall.

Order your O H Triangle Beef Online!

ohtriangleranch.com

We have reserved butcher dates in October, November and December 2021.

Contact us for details on prices and reserving your beef. They go fast.

Don't miss out on filling your freezers this year.

QUARTERS | HALVES | WHOLES

PREPARING TO BUY A
QUARTER OF BEEF

HOW MUCH MEAT IS A QUARTER OF BEEF?

Meat from a typical quarter of beef with a live weight of 1200 lbs:

- 6-8 RIBEYE STEAKS
- 5-6 T-BONE STEAKS
- 3-4 SIRLOIN STEAKS
- 3-4 SIRLOIN TIP STEAKS
- 4-5 ROUND STEAKS
- 6+ ROASTS 35 TO 50 POUNDS OF GROUND BEEF

THE CUTS AND QUANTITIES ARE DEPENDENT UPON THE SIZE OF THE ANIMAL, THE PROCESSOR, AND THE CUTS SELECTED.

HOW MUCH COOLER/FREEZER SPACE DO YOU NEED?

Live Weight of 1200 lbs.

~110 POUNDS

P&R Advancer L 765E is a new home raised herd sire that we purchased back from our longtime friend and customer Brandon Webb of Webb Farms. The Webb family purchased this herd sire for \$5,500 in our 2018 Production Sale. He stood out among their herd bull battery and we thank the Webb family for letting us bring him back home last year. 765E speaks for himself phenotypically. You don't have to feed 765E any supplement. He is easy fleshing enough to get what he needs from just forage. 765E is a complete, totally balanced, “range cattle efficiency” herd sire with balanced genomic enhanced EPDs combined with that distinct range bull look with time tested practical and predictable genetics backing him up under the hood.

The Cover Story

The three inquisitive youngsters on the cover this month are thoroughly engrossed in studying whatever is hidden by Brett and Terri Barber's hands. The composition of this photograph relays an expression of love not unlike the warm feelings that overcome everyone at Christmas.

Brett and Terri are the children of Mary Ann and Dale Barber, Channing, Texas, and Mary Ann was the photographer.

by Terri Barber, President • Texas Hereford Association

On behalf of the THA board and executive committee, thank you for continually supporting our efforts and goals during my tenure serving as president. Like those before them, these visionary Hereford breeders have dedicated much time, resources and leadership that continues to enhance our breed's robust growth. From the newest junior members to multi-generational family breeders, we are beyond blessed to be in this enviable position today.

We are truly grateful to those who continue to advertise with us, support our activities and contribute donations from quality genetics to silent auction items to time and energy for the betterment of our Association. Thank you to the countless enthusiasts, donors, sponsors, and buyers who support our efforts on an annual basis. A very special thank you to our generous Heritage Pen donors and buyers this year who went above and beyond to ensure THA was well represented at the special Commercial Heifer sale held in Fort Worth when all other events were postponed. My good friend and TALL alumni, Mike Kuck, introduced me to this year's buyer who was beyond proud to own that set of elite females. It was especially rewarding seeing your heritage brands on these females while personally thanking Mr. Breitschopf at his south Texas ranch. With today's optimistic feeder calf prices and beef's perpetual demand, supplying customers with Hereford genetics can only help them gain premiums and you more business!

Getting right down to business, juniors took full advantage of the premier State Show in Belton where attendees were treated to an epic event and tribute to service like no other. Our very own distinguished General Paul Funk addressed event goers highlighting the important things in our lives – those that will make us, shape us, and prepare us to serve our communities and our families no matter where we find ourselves within life's journeys. What an honor to be in his presence and hear General Funk's message to those with such a bright future ahead. Reflecting back well before I was old enough to know how influential Herefords were and

the journey that would keep me connected, Jack Chastain was diligently showcasing our breed, assisting with elevating Herefords to unparalleled popularity and helping ensure the generational longevity we continue to enjoy today. This pivotal role as our all-encompassing Texas Hereford manager has continued to expand our breed's footprint today. To continue this momentum, I encourage you to assist your customers in realizing their operation's value by utilizing the red and white influence on their cowherds. Thanks to neighbors and their beef customers alike we all continue to be rewarded by Hereford's heterosis as evidenced by top selling lots across the country.

To all advertisers and buyers: thank you for utilizing our most influential selling tool, the *TEXAS HEREFORD* magazine. For the past 25 years, our printing partner, GG Park, has been our go-to for print prep and production needs bringing you an exceptional magazine eleven times a year. Thank you, Team GG!

Many of us have benefited from the gift of a mentor or more, whose words and actions coupled with a personal relationship have guided and inspired our lives and our course over time. We are fast approaching a changing of the guard as Jack prepares to retire next year. The gratitude I, along with fellow Hereford enthusiasts, extend to Jack and Lyn and their family is shared amongst all who have been involved in raising cattle, kids and everything related to our enjoyable livelihood. Of the countless mentors, supporters, and donors within our gracious THA family, Jack has played an influential role in helping me and countless others achieve the accolades and scholarships availed to us as Hereford breeders. Jack and Lyn's contributions along with our own Penni Hiles' dedication to Texas Hereford will be celebrated during the 2022 Fort Worth Stock Show. Make plans now to attend this historic tribute to honor Team Jack and his lifelong dedication to Texas Hereford. Please join us in Cowtown the last weekend in January for the greatest show on earth...Texas Hereford style. ★

THA and TJHA Members Only

A picture is worth... well, one-hundred dollars *exactly!*

More than 25 years ago, Jack Chastain asked me to help with the production of *Texas Hereford* magazine – just until he could hire a new in-house graphic artist. After all these years, there are no words to adequately express my appreciation for this long-term outsourcing relationship which is the mainstay of my business.

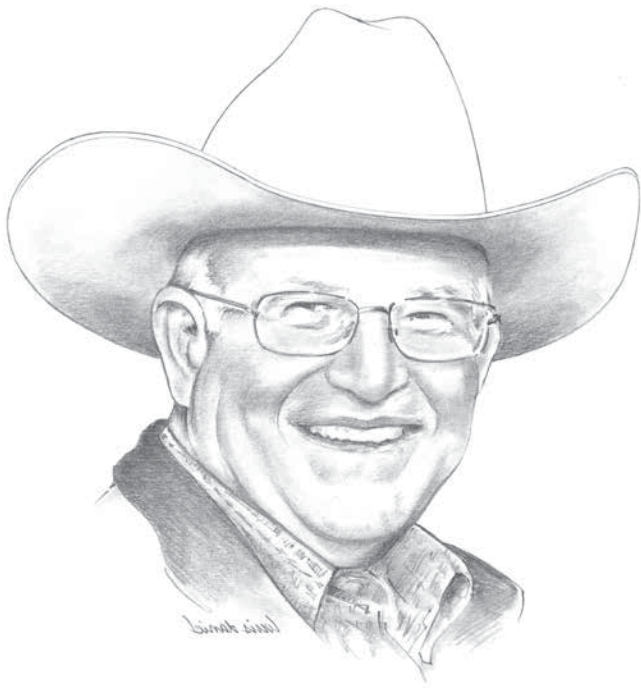

However, I can offer something tangible as a way of saying, “Thanks guys, for helping me stay in business.”

Beginning with the June/July 2021 issue of *Texas Hereford* magazine (excluding August) through May 2022, Park Place Enterprises will pay **\$100 directly to any THA or TJHA member** whose photo is chosen to run on the front cover.

– g.g. park

Submit your high-resolution (300 dpi) digital image (jpg, approximately 10" x 12") for consideration directly to the Texas Hereford Association office via e-mail – texashereford@sbcglobal.net. Please use the subject line: Cover Submission. Deadline is the 15th of each month.

Jack Chastain, Manager/Editor
Texas Hereford magazine

Another year has passed since we published the 2020 Membership directory issue. Texas Hereford Association has been providing service and promotion to the members since its founding in 1899. I salute all past, current and future members, advertisers and subscribers who support this organization, magazine and breed of cattle. Your perseverance and dedication to Herefords is a true test of your grit and love for a breed that has far too many traits sorely needed by our beef industry to be put on an endangered breed list by so many “experts” in our business; notwithstanding the many honest, hard-working people associated with our breed. I challenge you as members and breeders to “Take control of the Market.” The product is here today. The demand is here today. It is up to you to merchandise and sell.

Your officers have pushed and challenged your staff to make our organization with its publication and website a stronger voice for Herefords in the southwest as well as a key marketing tool for members and advertisers. We have updated our website to make it cell phone and laptop friendly. We are able to place banner ads on this version. We persuaded the Fort Worth Stock Show to reinstate a pen

of three bull show, which was such a success that we plan to add additional classes for older bulls. We have made significant changes to our sales at the Fort Worth Show. Refer to the ads elsewhere in this issue. Our Facebook page has over 4700 followers. We have some lofty goals for both membership and advertising, but must have support and approval from the entire membership to succeed. We utilize a small army of volunteers each month to get the magazine printed; in addition to all other projects undertaken by THA or TJHA. We have the “Hereford Youth Foundation’ approved and registered with the IRS. We hope you like the new version of our magazine utilizing more color throughout. We still sponsor the premier whiteface replacement female sale, which will celebrate 52 years in January 2022. We assist the other consignment sales. All of these sales need consignments as well as buyers. THA hopes to be a source of information to these events. Our “Cattle for Sale” listing for members in the magazine and on the website continues to provide results. I have had numerous calls saying they sold to the first caller but could have sold ten times over what they advertised for sale. Please help yourself by utilizing this service. Our junior scholarship program is attracting more participants each year in both sponsors and exhibitors.

Please save the date of October 27, 2021 for our eleventh annual THA Fall Classic Hereford Bull and commercial female Consignment sale at the Buffalo Livestock Auction facility. We are accepting consignments of no more than 75 Hereford bulls aged 18 months to 26 months, a few Red Angus bulls, plus registered Hereford and Red Angus and commercial female consignments. Please let the THA office know by July 15 if you wish to participate.

Before closing, I wish to express my heartfelt thanks and gratitude to Penni Hiles for all she does for THA above and beyond her normal duties. She certainly is a huge part of the smooth operation of THA.

I wish to thank every member, advertiser, subscriber and reader for the role they play in providing and using this issue. I trust you will avail yourself to the vast amount of information assembled for your use. We are here to help sellers SELL and buyers BUY. ★

Hereford Beef, It's What's For Dinner.

*By Ilissa Nolan
Texas Hereford Auxiliary President*

Talk about a year! Since the global pandemic hit and our entire world shut down over a year ago, I know we all as Hereford breeders reevaluated our priorities. How lucky are we to be in an industry where we can raise and process our own beef? I never realized how unique that was until I moved to the big city of Austin, Texas. Having meals prepared with Hereford beef from my family's ranch, Nolan Herefords, is truly a blessing that many individuals do not get to experience.

As this year has passed, I have really reflected on my time during this pandemic and what stood out to me the most concerning the agriculture industry, especially the Hereford industry as a whole. As the restaurants started to reopen in my city and across our country, I started to really inquire waiters where they were sourcing their beef. Most didn't know and others would say they got it from a "farm" outside of the state at an organic beef operation. It really concerned me that many establishments were not aware of what they were providing to consumers. As well, that they were not sourcing from local ranchers.

As we saw grocery stores become picked over in the meat department and restaurants closed, I quickly noticed that fellow Hereford breeders were opening up their deep freezers to share their home-grown Hereford beef with their community. The entrepreneurial spirit of our fellow breeders and the promotion of their ranch raise beef became what many individuals seemed to prefer during these tough times. What a great way to promote our breed and program by selling your beef to your neighbors.

As we go into this summer and fall, let's remember that our job is not done as Hereford breeders and advocates. It has only just begun. It is time to remind our local communities and nation that it is important to support their local cattle breeders to source their restaurants and grocery stores. Maybe take the time to share your favorite recipes including Certified Hereford Beef with friends and restaurants to spark their interest. Hey, they may want to purchase some beef from your operation!

It is important to teach our youth and future Hereford breeders that they need to continue to advocate for our breed to see that Certified Hereford Beef is in every meat market in the nation. It takes a team and that is #TeamHereford. Hereford Beef, It's What's for Dinner!★

Texas Junior Hereford Association

*by Mason Allan, President
Texas Junior Hereford Association*

I'm Mason Allan, your 2021-2022 Texas Junior Hereford Association President.

I am a senior at Prairie Valley High School in Nocona, Texas. My family has Bar A Cattle Co. and Genesource. I have been active in the Texas Junior Hereford Association since I was 7 years old and haven't missed a state show yet. My passion is Hereford cattle. When I'm not working on our cattle, I enjoy livestock judging and running track.

I would like to welcome all the new members to our Junior Association. We recently held our combined Texas Hereford State Show "Hereford Heroes" in Belton, Texas, and it was incredible. We had a record number of entries, and it was great to see so many new faces. I was so proud of how many of our members participated in all the activities and contests. I would like to thank all our state show sponsors, we could not have such an incredible event without their support. We will be having our next Texas Junior Hereford Association meeting in Fort Worth during the Fort Worth Stock Show, and we hope you can all join us. If anybody has any questions, please reach out to us. We would love to help. I am excited to lead this great organization into the next year. ★

We will be having our next Texas Junior Hereford Association meeting in Fort Worth during the Fort Worth Stock Show, and we hope you can all join us.

Chowing Down

at the Feedstore

by Asher Karnes

Over the years, we've all seen restaurants come and go. Some stay open for a couple of years while others are just a flash in the pan. But, whether through hard work, the grace of God, or a generous helping of both, there are a few establishments that have what it takes to remain popular for decades. One such eatery is just a short drive from Southlake Town Square. And the best part, they proudly serve Certified Hereford Beef.

When I arrived at Feedstore BBQ & More on a recent Sunday, lunch was already in full swing. It was a beautiful day, and the outdoor picnic tables were crowded with smiling families. Smoke wafted from the pit, and as I approached the front door, I felt genuinely excited for the meal to come. Once inside, I joined the fast-moving line at the cafeteria-style counter and started to take in my surroundings.

The giant menu posted over the

register displays all the traditional smokehouse favorites as well as burgers, fried catfish, and even some nice-looking salads. There's a reasonably priced kid's menu, a very tempting dessert list, and a selection of beers and wine to wash it all down with.

The counter staff were very friendly and quick to offer recommendations. They explained all the meats and specials on offer and walked me through each of the side dishes. And after I paid, the cashier reminded me to take some free hot rolls from the hotbox next to the condiments. In the end, I had a traditional sliced brisket sandwich, mac and cheese, turnip greens, and two steaming hot dinner rolls.

The seating area is broken into four, good-sized rooms, each with plenty of tables for large and small gatherings, televisions for local sports, and tons of unique Texas memorabilia

adorning the walls. And as I mentioned before, there is additional outdoor seating overlooking a lovely pasture behind the parking lot.

The sliced brisket sandwich was served on a toasted sesame seed bun, piled high with perfectly smoked and unbelievably tender Certified Hereford Beef. The seasoning rub used to create the brisket's crisp bark paired well with the sweet heat of the house-made barbeque sauce.

The al dente macaroni and cheese was covered in an extra creamy sauce that harkened back to my grade school lunches. It was very good, but it wasn't great. The turnip greens on the other hand were a homerun. Braised to perfection and boasting plenty of onion, garlic, black pepper, and bacon, they elevated eating my daily vegetable from a chore to a joy.

As I leaned back in my seat and loosened my belt, one of the attentive bussers swung by my table and offered to take away my tray. Before he left with it, I asked him why the restaurant had decided to serve Certified Hereford Beef. Apparently, the owners, who raised Hereford cattle at one time, decided to do a beef taste test with the staff and customers. When the votes were tallied, everyone overwhelmingly chose the big beefy flavor of Hereford.

All and all, you can't go wrong with this time-tested, family restaurant. The staff are friendly, the beef is Hereford, and there are free hot rolls. For a simple man like me, that's as good as it gets! ★

THE BUZZ-KILL

THE BUZZ-KILL

Flies are a problem. They bite and stress livestock, spread disease through the herd, and cause stress and downtime during treatment. **UNTIL NOW...**

INTRODUCING THE BUZZ-KILL
 The wireless, active fly control system sprays for flies easily with low stress for you and your livestock.

- No matter how big the herd or how spread out your fields are, we have a system to fit your needs.
- Our panel/power pack system has been designed so multiple panels can be set up semi-permanently at multiple locations and the power pack moved to where it's needed.
- Operation is simple with an on/off key fob and IR beam motion activation.

Pitching the Horseshoe

for CFS

by Asher Karnes

My undying love for chicken fried steak is well known to my family and friends. I order it whenever I see it on a menu. I've eaten it in 14 different states. I even skip the ice cream at Dairy Queen and go straight for The Dude sandwich. But never in my wildest chicken-fried dreams did I imagine a restaurant serving six different varieties of my favorite entree.

Horseshoe Hill Cafe is located in a squat, one-story building on the eastern side of the Fort Worth Stockyards. With weathered wood paneling and the obligatory washtub planters, the facade perfectly fits the neighborhood's wild west theme.

When I arrived for lunch on a recent Saturday, I was enthusiastically greeted by the staff and shown to a table. The space is small, consisting of two small dining areas, a bar, and a large backyard full of casual seating.

There are quite a few mounted hunting trophies and

western sculptures that catch the eye. And the walls are lined with paintings and articles about celebrity chef Grady Spears who is involved with the operation.

The menu is a collection of chef Spear's signatures, including deviled eggs, rocky mountain oysters, and many of his famous sides. But the real standout is an entire section of 100% Hereford beef, chicken fried steaks.

Was this a dream? I was so overwhelmed that I asked

my server, Hannah, for help.

She calmed me down, pointed out her favorites, and explained that no matter what I chose, the 100% Hereford cubed steak that chef Spears used was so delicious, I really couldn't go wrong. In the end, I decided on The Vaquero Way, served with two red-chili cheese enchiladas and mashed potatoes.

A short time later, Hannah returned with one of the most enormous portions of chicken fried steak I'd ever seen. The Hereford beef was melt-in-your-mouth tender, perfectly complemented by the crispy breading, which was well-seasoned and had a nice spicy bite. The mashed potatoes were creamy but still firm enough to stand up to the velvety black pepper gravy. And although the red chili cheese enchiladas were a bit sweet on their own, they balanced the whole dish wonderfully when combined with the other ingredients.

Although I thoroughly enjoyed the ambiance, food, and service, I wouldn't be doing my job if I failed to mention a glaring issue that came up during my experience. The Horseshoe Hill Cafe website is out of date.

The brunch menu displayed on the site no longer exists. During my visit, two parties walked in for brunch and walked out disappointed.

Do not be fooled by the wine bottle menu on the site, or the promise of "bottomless mimosas". There is currently no alcohol being served at the restaurant.

The hours on the site are wrong. It shows a 10 AM opening on Saturdays but Google shows 11 AM. I left a voicemail

to confirm the hours but never received a call back. When I arrived, the hostess confirmed that the restaurant now opens at 11 AM.

The menu pricing on the website is not accurate. Based on my research, I expected to pay \$20 for a chicken fried steak. Instead, the menu I was handed when I sat down listed them at \$27. I know that \$7 won't break the bank, but a 35% price increase isn't something most customers enjoy being surprised by.

All and all, Horseshoe Hill Cafe is a great place to enjoy a variety of unique Hereford beef chicken fried steaks. The management just has a few online kinks to work out. ★

Free Radio Frequency Identification (RFID) Tag Information

1. The USDA is providing a limited number of official 840 RFID tags to each state for distribution. Once the Texas tag allotment is depleted, no additional tags will be provided to the state.
2. Only Texas accredited veterinarians and cattle producers may order the free RFID tags from the Texas allocation.
3. These RFID tags are only intended for use in replacement stock.
4. There are both white "840" button tags and orange "840" calfhood vaccination (OCV) button tags available. All RFID tags are low frequency tags. Veterinarians may receive both white and orange tags, while cattle producers may only receive white tags.
5. RFID tag inventory may include more than one brand of tags. A specific brand cannot be requested.
6. Tag order requests must be in multiples of 100.
7. The delivery date cannot be guaranteed and is dependent on inventory and logistics. When RFID tags are in stock, orders will be made available for pick up at a TAHC regional office.
8. A Premises Identification Number (PIN) or Location Identification Number (LID) is required to order the free RFID tags. To obtain a PIN or LID, email animal_id@tahc.texas.gov or call 512-719-0733.
9. A universal tagger is recommended for applying RFID tags.
10. Only one official RFID tag (white or orange) is allowed on any one animal. RFID tags should be applied near the middle of either the animal's left or right ear. See diagram for reference.
11. Accredited veterinarians who receive free RFID tags must keep record of the tags they distribute and the records must be submitted to the TAHC monthly. Records must include tag numbers, distribution dates, names, and addresses of the individual cattle owners that received the tags.

Exceptions:

- Veterinarians who are AIN device managers and enter their records directly into the AIMS system.
- Veterinarians applying RFID tags as part of regulatory testing or calfhood vaccination will enter their records on official test or vaccination charts to submit directly to the TAHC.

To request free RFID tags contact the

A groundbreaking, genetically verified female program for the commercial beef industry.

Qualifications

Premium Red Baldy is a female-only program, capitalizing on hybrid vigor. No steers will be tagged in this non-PVP tagging program.

To qualify for Premium Red Baldy, females must be sired by bulls in the top 50% of the breed for Baldy Maternal Index (BMI\$) or Herdbuilder Index (HB).

Breed percentages on qualified females will range from 25%-75% Red Angus and Hereford, with a small allowance for other breeds.

Females must be red-bodied with either a bald or brockle face. No black-hided cattle will be admitted, regardless of genetic makeup.

Benefits

Premium Red Baldy is a tagging program designed to take advantage of hybrid vigor by maximizing the best traits of both Red Angus and Hereford and providing commercial producers with premium replacement females.

The program will help producers access genetically verified females that have the best combination of longevity, fertility and adaptability to incorporate into producers' herds.

The Premium Red Baldy program has the ideal balance of maternal and carcass traits, which will yield cattle poised to increase the profitability of the commercial producer.

Premium Red Baldy uses genetics supported by the only two beef breed associations backed by whole herd reporting.

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

Understanding Hereford EPDs

The American Hereford Association (AHA) currently produces expected progeny differences (EPDs) for 17 traits and calculates three profit indexes. AHA's genetic evaluation makes use of a Marker Effects Model that allows the calculation of EPDs by incorporating the pedigree, phenotypic and genomic profile of an animal. Animals that have a genomic profile will be denoted with a GE-EPD logo.

The current suite of Hereford EPDs and profit indexes includes:

Calving Ease — Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average, if comparably mated, sire A's calves would have an 8 percent more likely chance of unassisted calving when compared to sire B's calves.

Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average, if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

Dry Matter Intake (DMI)

The DMI EPD predicts the daily consumption of pounds of feed. For example, if sire A has a DMI EPD of 1.1 and sire B has a DMI EPD of 0.1, you would expect sire B's progeny, if comparably mated, to consume on average 1 pound of feed less per day.

Scrotal Circumference (SC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a 0.7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm.

Sustained Cow Fertility

The AHA's new SCF EPD is a prediction of a cow's ability to continue to calve from three years of age through 12 years of age, given she calved as a two-year-old. The EPD is expressed as a deviation in the proportion of the 10 possible calvings to 12 years old expressed as a probability. For example, the daughters of a bull with a 30 EPD would have the genetic potential to have one more calf by age 12 than the daughters from a bull with a 20 EPD. In other words, the daughters from the 30 EPD bull would have a 10% greater probability of having one more calf than the bull with a 20 EPD. This is equivalent to saying that the daughters are 10% more likely to remain in the herd to age 12.

Maternal Milk (MM)

The MM EPD of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sires' daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

Maternal Milk & Growth (M&G)

The M&G EPD reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability. It is an estimate of the daughter's progeny weaning weight. A bull with a 29 lb. M&G EPD should sire daughters with progeny weaning weights averaging 19 lb. heavier than progeny of a bull's daughters with a M&G EPD of 10 lb. (29 minus 10 = 19 lb.). It is equal to one-half the sire's weaning weight EPD, plus all of his MM EPD. No accuracy is associated with this since it is simply a mathematical combination of two other EPDs. It is sometimes referred to as "total maternal" or "combined maternal."

Maternal Calving Ease (MCE)

MCE EPD predicts how easily a sire's daughters will calve at two years of age and is measured on a percentage. For example, if sire A has a MCE EPD of 7 and sire B has a CE EPD of -3, then you would expect on average if comparably mated, sire A's daughters would calve with a 10% more likely chance of being unassisted when compared to sire B's daughters.

Mature Cow Weight (MCW)

The MCW EPD was designed to help breeders select sires that will either increase or decrease mature size of cows in the herd. The trait was developed after years of cow weight data collection and the EPD relates directly to the maintenance requirements of a cow herd. For example, if sire A has a MCW EPD of 100 and sire B has an EPD of 85, then you would expect the females of sire A, if comparably mated, to be 15 lb. heavier at mature size.

Udder suspension (UDDR)

UDDR EPDs are reported on a 9 (very tight) to 1 (very pendulous) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a UDDR EPD of 0.4, and sire B has a UDDR EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score better udder suspension in daughters of sire A, compared to sire B.

Teat size (TEAT)

TEAT EPDs are reported on a 9 (very small) to 1 (very large, balloon shaped) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

Carcass Weight (CW)

CW EPD is a beneficial trait when considering the impact that pounds have relative to end product value. At the same age constant endpoint, sires with higher values for carcass weight will add more pounds of hot carcass weight compared to sires with lower values for carcass weight. For example, if sire A has a CW EPD of 84 and sire B has a CW EPD 64, then you would expect the progeny of sire A, if harvested at the same age constant endpoint, to have a 20-lb. advantage in terms of hot carcass weight.

Rib Fat (FAT)

The FAT EPD reflects differences in adjusted 365-day, 12th-rib fat thickness based on carcass measurements of harvested cattle. Sires with low, or negative FAT EPDs, are expected to produce leaner progeny than sires with higher EPDs. Ultrasound measures are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Baldy Maternal Index (BMIS)

The BMIS is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

Brahman Influence Index (BIIS)

The BIIS is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef® does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

Certified Hereford Beef Index (CHBS) The Certified Hereford Beef Index (CHBS) is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for Certified Hereford Beef after the finishing phase. This index has significant weight on Carcass Weight and Marbling to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. In addition, there is a positive weighting for Rib-eye Area and a negative weighting for Back Fat to maintain desirable Yield Grades. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

Call for entries.
Deadline: November 1, 2021.

52nd Annual

POWERHOUSE HEREFORD
Sale
a new force within the Hereford industry

Featuring our Premium Whiteface Replacement Female Show & Sale

SUNDAY, JANUARY 30, 2022

Our Powerhouse Sale will be a great event. The demand for Hereford females is at an all-time high and this should be the source for some of the best Hereford genetics offered in the State of Texas. Make "Super Hereford Weekend" an educational and entertaining event by attending the Annual Meeting and social of Texas Hereford Association, & the National Hereford Show.

Special Rules:

1. All consignors must be active or associate members of the Texas Hereford Association.
2. Animals must be in their pens not later than 6:00 p.m. Friday, January 28, 2022.
3. All animals will be shown in pens of ten (10) by classes and placed by judges at 9:00 a.m., Saturday, January 29, 2022.
4. All females entered will be sold in the Hereford Sale at 1:00 p.m., Sunday, January 30, 2022.
5. Pen and Sale Fees: an entry fee of \$18.00/head is due on November 1, 2021. A seven (7) percent sale fee will be assessed at the sale. This fee includes all Stock Show pen fees and sale costs. No refunds after entries close.
6. Health requirements: all females entered in this division must meet regulations of the Texas Animal Health Commission and must be accompanied by an official health certificate.
7. If animals are to be sold as registered, papers must be provided to sale manager with health papers. Minimal grooming is encouraged.

Make Fort Worth a MUST DO event in 2022

Send us your best Hereford heifers...
2022 Premium Whiteface Replacement Female Show & Sale

Hereford Spoken Here

That's exactly the message that this sizable sign projects!

- Constructed of sturdy 16 gauge steel and finished with a baked porcelain enamel, it will stand up to all weather conditions!
- Printed on both sides.
- The bull is on a green background, and the name panel is maroon with white lettering.
- Each one is a rich display of the Hereford breed.

The sign is available in two sizes:

- 30" tall x 38" wide or
- 38" tall x 60" wide

Name panel is available in two sizes:

- 10" tall for one or two lines
- 14" tall for three lines

Yes!

Send me:

Application for Membership in the Texas Hereford Association

Advantages of THA Membership

SERVICE – The Texas Hereford Association is a service organization to benefit the Hereford breed and the breeder.

Members are assisted in buying and selling cattle at private treaty and by auction.

The Texas Hereford Association sponsors the Powerhorse Hereford Female Show and Sale, the Powerhouse Halter Sale, and the THA Fall Classic. These sales promote the use of better Hereford bulls and females. The Texas Hereford Association is also actively engaged in the promotion of Texas Herefords and in sponsoring seminars, field days, and other events to encourage educational opportunities for members.

ASSOCIATION – The Texas Hereford Association was organized in 1899. Its membership has included the elite of the Texas Hereford industry since its inception. Membership dues are \$125.00 per year. Associate memberships are available for \$100.00 per year.

DIRECTORY ISSUE – Every active member of the Texas Hereford Association has a free listing in the Directory issue of *The Texas Hereford*. This Directory is used by thousands of Hereford breeders the year round. Information pertaining to your herd such as herd sires, bloodlines, location of farm or ranch, telephone numbers, etc., will be listed in this widely used reference book. This herd listing alone is worth the price of membership. Associate members are also listed.

THE TEXAS HEREFORD – Monthly publication of the Texas Hereford Association. It is the only publication in Texas devoted solely to Herefords. It includes news about the association, news about Herefords and timely editorial features. Active members can list Herefords for sale **FREE** in the Cattle For Sale column. This service has been responsible for selling thousands of Texas Herefords all over the nation. Texas Hereford Association members may advertise in *The Texas Hereford* at low livestock rates – a considerable savings for your marketing program. Sale catalogs, brochures, flyers, and other marketing aids designed are produced by our professional staff at considerable savings. (Advertising rates will be sent on request).

The Most Important Investment You Can Make as a Registered Hereford Breeder is a membership in the Texas Hereford Association.

ACTIVE Membership Application

I hereby make application for membership in the TEXAS HEREFORD ASSOCIATION.

Upon becoming a member, I will abide by the constitution and By-Laws of the Association and also the rules of the American Hereford Association.

I am the owner of _____ head of registered Herefords and _____ head of commercial cattle.

Attached hereto is remittance of One Hundred and twenty-five dollars. (\$125.00 covers active membership for one year). Dues include a subscription to the *Texas Hereford* magazine and a one year free listing in the “Cattle for Sale” on the THA website and monthly magazine.

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.
