# TEXAS HEREFORD

Official publication of the Texas Hereford Association

June/July 2022 • Vol. 71, No. 8

## Mission Statement

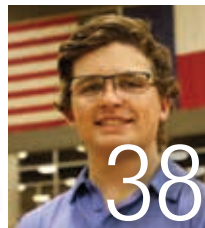

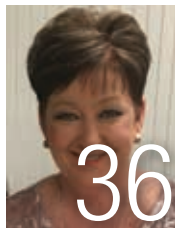

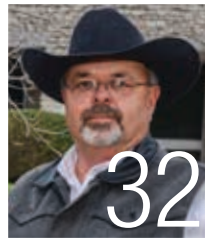

The Texas Hereford Association will provide the leadership to unite, foster and protect the interest of the Hereford breed; and promote fairly the production and consumption of Hereford beef universally.

## Features

42 85 Years and Counting  
*South Texas Hereford Association  
to Celebrate 85th Annual Sale*

## Departments

- 32 Letter from the President
- 34 Letter from the Editor
- 36 Letter from the Auxiliary President
- 38 Letter from the TJHA President
- 73 THA Officers-Directors
- 74 Regional Associations/County Listings
- 100 Honorary Members/Leadership
- 101 Auxiliary Officers-Directors
- 104 TJHA Officers-Directors
- 111 Calendar of Events
- 112 Index of Advertising

## On The Cover

This month's cover was submitted by Austin Breeding of B&C Cattle Co. of Miami, Texas. The bull is B&C Sensation 8141F, sired by Churchill Sensation 028X and out of a daughter of C Stockman 2059 ET. He is one of Bill Breeding's favorite herd bulls with low birth weight and outstanding carcass and maternal numbers.

THE TEXAS HEREFORD (ISSN 0744-4761) (USPS 616-680) is published monthly except for the month of July by the Texas Hereford Association. POSTMASTER: Please send change of address notices to The Texas Hereford, 4609 Airport Frwy., Ft. Worth, TX 76117. Periodical postage paid at Ft. Worth, TX, and additional mailing offices. Subscription rate: One Year, \$25.00. Advertising rates on request. Contributions to the editorial pages are welcome, but the magazine cannot be responsible for the return of unsolicited material.

# Wherever they go... *they thrive!*

## Pasture Herd Bulls

**ATLAS 69W Texan 6692 96F • 44104601**

The most consistent breeding bull we have used. Calves are high performers with extra muscle shape and very easy to look at.

**ATLAS 84X HIGHROLLER 3009 84E • P43887811**

We sold this polled bull as a yearling to CMH Cattle. After seeing his commercial calves, we bought him back. We will offer 84E for sale after this spring breeding season.

His sire was high selling bull in ECR sale and his dam is an impressive 12 year old 57G daughter we found as a calf in ANL herd in Canada.

**Let's Hereford**

with Atlas Farms

## Newest Addition to our Herd Bull line up.

**NJW 160Z 254G Ridge 158J ET • P44276465**

Our pick in the 2022 NJW bull sale. Out of their top dam, 160Z and 254G, sire of their top sire group this year.

We expect him to improve weaning, yearling, milk and maintaining good udders while adding pigment and darker color. Semen available from NJW.

*It is imperative at ATLAS Farms that all bulls and females are early slickers and short haired to thrive in hot and humid Texas heat.*

Top replacement females are always for sale at ATLAS Farms

**Atlas Farms**

**Since 1898**, we've been continuously working to improve both our registered and commercial horned Herefords. By developing the classic west Texas Hereford using 21<sup>st</sup> century genetics, we produce rugged, sturdy, sound cattle that will get the job done in any operation.

The upshot – docile, easy fleshing cattle that are accustomed to all vehicles and trailers, as well as being worked with a horse, on foot and with dogs.

Whether it's beef on the hoof, or beef for your freezer, we are your best source for high quality.

Visit our website for more information: [ohtriangleranch.com](http://ohtriangleranch.com)

At Rocking Chair Ranch we raise bulls to go work in your registered or commercial operation. They come from a GE-EPD cow herd that is analyzed every step of the way. Call or come by today and visit to learn more about our program.

A 70-day spring and fall calving season, provides a year round inventory of Rocking Chair raised bulls.

Backed by a cowherd with Genomically Enhanced EPDs.

Bulls come with performance data, EPD's, and ultrasound information.

Fertility tested and guaranteed.

## CL 1 DOMINO 710E 1ET

Registration #43800218

Sire: CL1 Domino 215Z • Dam: HH Miss Advance 9119W

710E has proven himself to be one of the best udder fixing sires in the Hereford breed with Udder and Teat scores in the top 1% of the breed. As you can see with all of the blue on his EPD's he is a breed leader in many traits. We are working to get him into most of the pedigrees on the ranch and we think he is a true herd changer. His daughters are beautiful, productive, and were the most popular set of females at Cooper Hereford Ranch last spring. We will have a super set of sons in our sale this fall. Owned with Coates Ranch and Cooper Hereford Ranch.

## IMR L1 5047C ADVANCE 8099F ET

Registration #43911800

Sire: HH Advance 5047C • Dam: IMR 396N L1 Miss Advance 828U

We are more excited than ever about 8099F! He has his first big calf crop this spring and they are superb. Dark red, pigmented, thick and really attractive. His EPD's should improve, but 8099F has plenty of power and growth for the Southwest or any part of the country. He is straight Line 1 and out of one of our most proven donor cows. Come and look at his calves and we think you will want to get his

115	1.10	1.30	76	0.057	0.42	0.18	409	486	128

A home-raised herd sire that is as easy keeping as they come. P&R Advancer L 765E sold in our 2018 production sale and we purchased him back from Webb Farms last spring. We call him "Freckles" because of his freckled face. A deep sided, high volume, super easy fleshing bull with jaw dropping body mass but with exceptional calving ease. 765E's first calves have been on par or even better than Sensation for calving ease, and they are rapidly growing into their sire's phenotype, with great rib and mass. Maternally 765E stems from one of our very best cow families, a grandson of our all-time top nursing indexing cow, P&R Ms Advancer 712T. This bull is simply one of the easiest keeping bulls we have ever had on the place and he is poised to pass on his "range cattle efficiency" onto his progeny. 765E is a futuristic herd sire with balanced genomic EPDs whose fleshing ability and efficiency will help combat high feed costs.

We purchased 7166 as the high-selling bull in Copeland & Son's 2018 production sale. 7166 is an outcross sire for us that doesn't compromise maternal value with two of Copeland's all-time top Royalty daughters anchoring his pedigree, enabling 7166 to trace back to the legendary maternal and marbling sire, GK Genetic Explosion, 8 times. 7166 is siring great calves that carry his exceptional length along with tremendous muscle and body mass. We expect 7166's bull calves to be in high demand in upcoming sales over the next few years. 7166 was raised in Copeland's harsh dry short grass New Mexico rangeland, and he has just thrived on our tough rangeland as well. We will likely retain two 7166 sons from this year's calf crop.

# ★ Letter from the **PRESIDENT**

*by Larry Johnson, President  
Texas Hereford Association*

To say I've been honored to serve during such a pivotal moment in our association would be an understatement. This year, like all of the rest, seems to be flying by. The board and executive committee support has been more crucial than ever.

How do you fill a position, that for so many years, has been held by a person that has tirelessly championed the Hereford breed? He wears so many hats, tackling any and everything the industry could throw our way. Jack Chastain has adapted to the many years of changes not only facing the Hereford breed, but Agriculture as a whole. Think back, and I'm sure there are countless show memories we can reminisce on that wouldn't have been possible without his work. Having been tasked with finding his replacement is a perfect reminder of why I have worked for myself all of these years. It truly has taken the full support and effort of this board to ensure we find the perfect fit - and I can't say

---

... we are happy to see the  
cattle market bouncing back.

---

'Thank You' enough. We hope to finish the year with the announcement of his successor. It will be vital that the Association has member support during this transition period.

I would also like to say thank you to the donors and buyers of the Heritage Pen during this year's Fort Worth Stock Show. Their generosity is so appreciated and will further our association's service and promotion. Another thank you to the contributors of our Fort Worth High Placing Junior program. This increases our numbers in the open show of the Fort Worth Stock Show. We are once again amazed and so proud of our Texas juniors for their hard work in putting on another great state show. They are truly building an amazing future for our Hereford industry.

Following the effects of covid, we are happy to see the cattle market bouncing back. We've had to be tough and more efficient than ever while fighting the rising costs of feed, fertilizer, and fuel. Promoting the Hereford breed is an everyday priority. As always, we encourage and welcome your communication and feedback. ★

Jack Chastain, Manager/Editor  
*Texas Hereford* magazine

**T**his issue is a milestone for me as it is the 50<sup>th</sup> Membership directory that I have been responsible for producing. Our archives have a copy of a membership directory printed in 1943 and news-letters printed occasionally from then until a monthly magazine was started in 1951. In one of the first issues was a president's message written by J. M. North, entitled "It is time for Hereford breeders to stop whispering and talk about their cattle". How revelent is this today. Texas Hereford Association has been providing service and promotion to the members since its founding in 1899. I salute all past, current and future members, advertisers and subscribers who support this organization, magazine and breed of cattle. Your perseverance and dedication to Herefords is a true test of your grit and love for a breed that has far too many traits sorely needed by our beef industry to be put on an endangered breed list by so many "experts" in our business; notwithstanding the many honest, hard-working people associated with our breed. I challenge you as members and breeders to "Talk about your cattle in the various means we have available today; social media, advertising, shows, sales and various cattlemen gatherings." The product is here today. The demand is here today. It is up to you to merchandise and sell.

Your officers have pushed and challenged your staff to make our organization with its publication and website a stronger voice for Herefords in the southwest as well as a key marketing tool for members and advertisers.

We have updated our website to make it cell phone and laptop friendly. We are able to place banner ads on this version. We persuaded the Fort Worth Stock Show to reinstate a pen of three bull show, which was such a success that we plan to add additional classes for older bulls. We have made significant changes to our sales at the Fort Worth Show. Refer to the ads elsewhere in this issue. Our Facebook page has over 5000 followers. We have some lofty goals for both membership and advertising, but must have support and approval from the entire membership to succeed. We utilize a small army of volunteers each month to get the magazine printed; in addition to all other projects undertaken by THA or TJHA. We have the "Hereford Youth Foundation" approved and registered with the IRS. We hope you like the new version of our magazine utilizing more color throughout. We still sponsor the premier whiteface replacement female sale, which will celebrate 53 years in January 2023. We assist the other consignment sales. All of these sales need consignments as well as buyers. THA hopes to be a source of information to these events. Our "Cattle for Sale" listing for members in the magazine and on the website continues to provide results. I have had numerous calls saying they sold to the first caller but could have sold ten times over what they advertised for sale. Please help yourself by utilizing this service. Our junior scholarship program is attracting more participants each year in both sponsors and exhibitors.

Please save the date of October 26, 2022 for our twelfth annual THA Fall Classic Hereford Bull and commercial female consignment sale at the Buffalo Livestock Auction facility. We are accepting consignments of no more than 50 Hereford bulls aged 18 months to 26 months, a few Red Angus bulls, plus registered Hereford and commercial female consignments. Please let the THA office know by August 1 if you wish to participate.

Before closing, I wish to express my heartfelt thanks and gratitude to Penni Hiles for all she does for THA above and beyond her normal duties. She certainly is a huge part of the smooth operation of THA.

I also want to express my thanks to all who participated in and contributed to my 50<sup>th</sup> Anniversary of employment and pending retirement party. It was truly humbling. I still plan to be available to assist THA when asked.

I wish to thank every member, advertiser, subscriber and reader for the role they play in providing and using this issue. I trust you will avail yourself to the vast amount of information assembled for your use. We are here to help sellers SELL and buyers BUY. ★

# Why be a Texas Hereford Auxiliary Member?

*By Briss Mann  
Texas Hereford Auxiliary President*

The purpose of the Texas Hereford Auxiliary is to provide opportunities for women involved in the Hereford industry and support youth activities for the Texas Junior Hereford Association.

It is imperative that each of our voices be heard locally and nationally as part of a united group to promote the Hereford breed. We share a common passion for our breed as well as friendships. We support challenges and successes that our Hereford community presents. We all come from different backgrounds, have different occupations, and are from different regions across this great state of Texas. We are advocates of Hereford cattle and the youth that represent our breed.

---

It is imperative that each  
of our voices be heard  
locally and nationally...

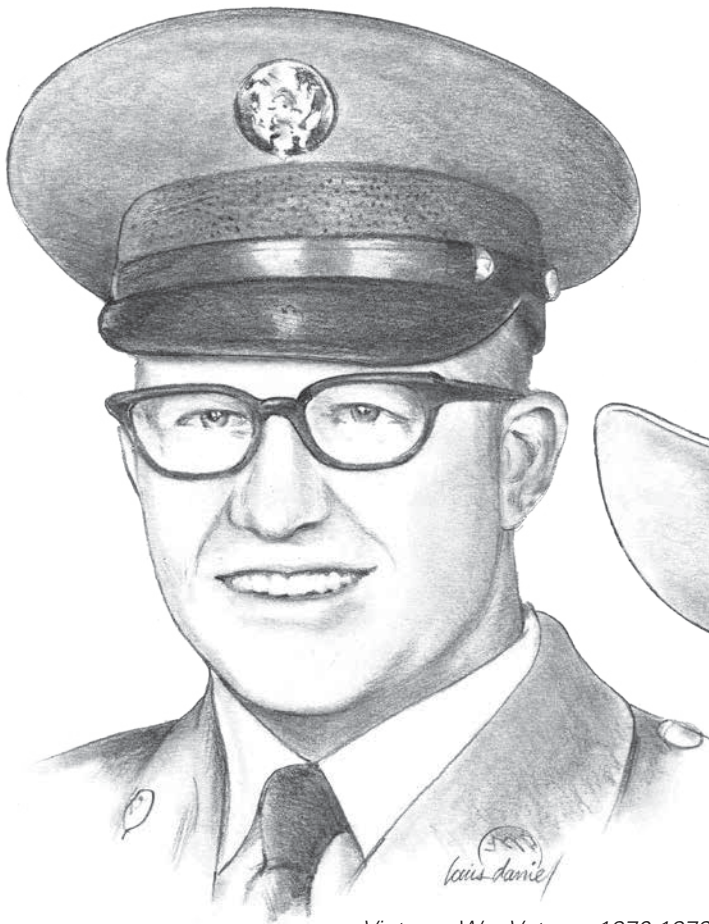

---

The Texas Hereford Auxiliary was organized in 1969. From the beginning the goal has been to provide encouragement, fellowship, knowledge, and scholarship opportunities for our members and junior members.

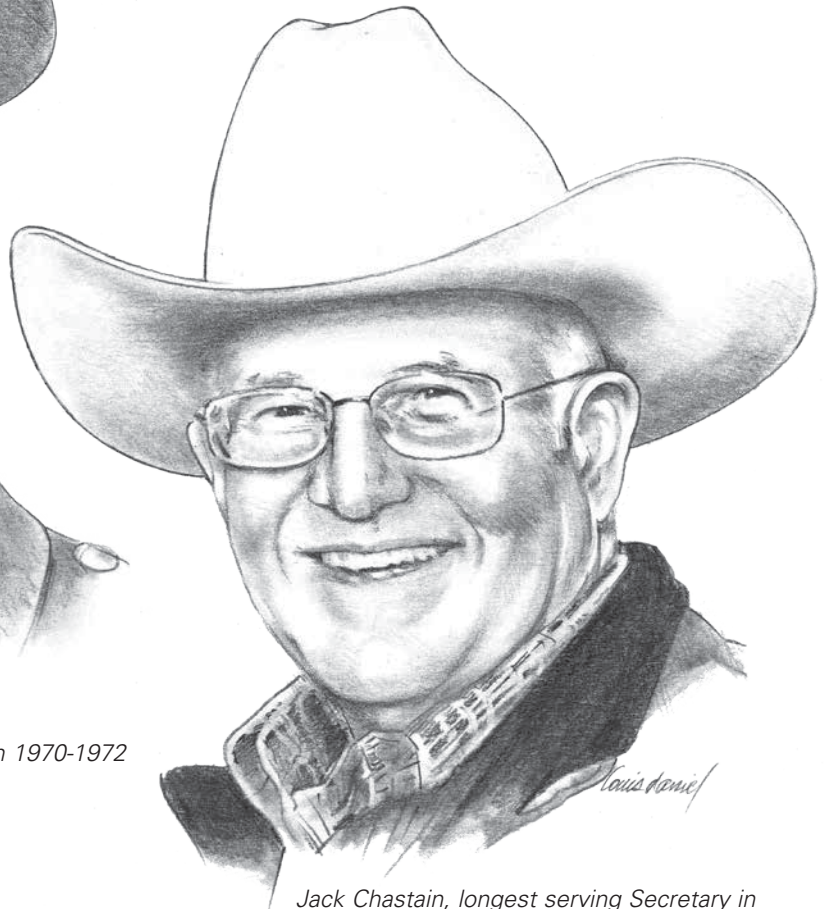

The auxiliary members have the opportunity in providing support of the Hereford breed that is looked to throughout the cattle industry as a great breed by themselves and the absolutely most sought after for their heterosis benefits to all other breeds of cattle.

The Texas Hereford Auxiliary will always work hard to promote the women in this industry and the young men and ladies who are our future. As we reorganize this coming year, I look forward to working with the new officers, board of directors, and members. We plan to build on our grassroots foundation to increase our membership and awareness of this great breed of cattle!

Come join our organization! There is a place for everyone! ★

## Texas Junior Hereford Association

*by Judd Daniels, President  
Texas Junior Hereford Association*

**H**owdy, I am Judd Daniels, your 2022-2023 Texas Junior Hereford Association President.

I am an incoming sophomore at Dalhart High School in Dalhart, Texas. My family has been involved in the Hereford business for fourteen years. My twin brothers, Luke and Eric Daniels got their first Hereford show heifers when I was just four years old. It has since grown into a three hundred and fifty head seedstock and commercial operation. I have experienced a multitude of leadership, responsibility, and personal growth that I never would have imagined at such a young age, not to mention what I have retained from this junior association. With that said, I have been active in the Texas Junior Hereford Association since I was eligible to show and have been to every Hereford state show since. My passion is the Hereford breed, and the Hereford breed alone. When I'm not in the show barn getting cattle ready for the next show, I enjoy checking cattle horseback, helping make breeding decisions,

---

My passion is the Hereford breed,  
and the Hereford breed alone.

---

calving out two breeding seasons every year, all in hopes to improve the overall quality of my herd. There is not one day that goes by that I don't think about the opportunities that this breed has provided me. I would like to welcome any new members to this amazing association, and I hope to meet you all over the course of this next year.

We recently held the 2022 combined Texas Hereford State show, "Bet on Red & White" in Belton, Texas. With approximately 630 entries this past year with around 250 exhibitors present to join in good company and cattle, I am excited to see all that the future of this breed and our state encompasses. It is refreshing to see such an empowering association join as one to accomplish so much in a short period of time. I would be remiss if I did not thank our sponsors, who do such a selfless job to make sure we can provide the opportunities we often take for granted.

I would like to thank everyone involved for trusting me to uphold this prestigious role, and invite anyone interested, to join us in Fort Worth for our annual TJHA meeting at the Fort Worth Stock Show and Rodeo. If the need does arise, I would love to talk to anyone and help answer any questions. Thank you all again, and God bless. ★

# 85 Years & Counting

**South Texas  
Hereford Association  
to Celebrate Its 85th  
Annual Sale in October**

1992 STHA President  
Gene Spaniel, Alice, TX

1987 South Texas Hereford Association Officers - Billy Smith, George West; Weldon Winsauer, Beeville; Henry Hausmann, Goliad and Louis Fromme, Goliad.

Ed Brown

Since 1937, the South Texas Hereford Association (STHA) has been offering quality Hereford genetics to cattlemen across the Southwest. This year's sale on October 29, 2022, will mark the association's 85th annual, and is the Hereford breed's longest running consecutive bull sale.

"This sale offers opportunities for both small and large operators to select any number of Hereford-influenced cattle they need, whether it's a registered Hereford bull, a pen of registered heifers or a truckload of quality F-1 heifers," says Larry Schmidt, STHA's first vice president.

## **From Humble Beginnings to A Hereford-Centric Celebration**

On April 19, 1937, a group of 32 representative cattlemen from Bee County and surrounding counties met at the courthouse in Beeville for the purpose of organizing an association to build up the cattle industry in South Texas. With the assistance of Jack Turner from the Texas Hereford Association, the group organized an association to be called the South Texas Breeder-Feeder Association. The association elected a slate of officers and a board of directors, which included a man from each county represented: Bee County, DeWitt County, Duval County, Goliad County, Gonzales County, Jim Wells County, Karnes County, Live Oak County, Refugio County, San Patricio County and Victoria County. Each of the 32 men paid \$5 for a one-year membership.

According to the minutes from the first meeting, "It was agreed that the first undertaking of the association would be to hold an annual Fat Stock Show and Auction Sale and an Annual Registered Breeder Show and Sale." Prominent Hereford breeder and cattleman Claude Heard of Beeville donated \$100 "to be used in the building of a

sales pavilion, or other necessary improvements."

On Nov. 5, 1937, that first sale became a reality with 17 Hereford bulls and five Hereford females selling. The top selling and first place bull was bred and consigned by R.J. Roeder of Yorktown and sold for \$385 to Sidney Smith of Beeville. The show and sale were the basis for a larger event highlighting the agricultural and western heritage of the area, complete with a horse show and a parade.

"I remember when it was a week-long affair and it was a big, big celebration," says Charles Smith, whose father Leonard, and grandfather Sidney, were charter members of the association. Smith recalls watching large ranches bring in dozens of lively cowboys who would let loose, giving parade-goers and spectators a "real cowboy show."

By 1940, the name of the organization changed to the South Texas Hereford Breeder-Feeder Association and it held sales twice a year - in the early spring and fall. Sales were scaled back in the 1950s to only the fall sale, but consignments had increased dramatically with pens of range bulls being sold. Total sales topped \$100,000 for the first time at the 1952 event, as 242 bulls were sold, averaging \$396 per head. In 1953, the organization changed names again, becoming the current South Texas Hereford Association.

An article from the Beeville Bee-Picayune dated Oct. 29, 1959, remarked that "With the streets ablaze with flags and bunting, all plans have been completed for the 23rd annual show and sale of the South Texas Hereford Association... More than 60 entries will march in the parade, including bands, floats, walking and motorized units. A total of 275 Hereford cattle are to be sold at the STHA's big sale scheduled to begin at noon Wednesday at the Fair Grounds." A new 250-300 capacity auditorium was added to the fair grounds that year—just in time for the sale.

**Hereford Genetics for Every Kind of Cattleman**

Bull consignments held steady throughout the next few decades, with anywhere 100-250 marketed annually. A record 276 bulls sold in 1960 and as the decade went on, the annual fall show and sale was recognized as the largest Hereford show and sale in the Southwest.

While the show was very successful and in its prime, the association also knew it needed to be reflective of the local cattle market it served. Crossbreeding had long been a common practice in South Texas, with the Hereford-Brahman cross proving to be the most popular. In 1969, STHA held its first F-1 female sale in conjunction with its Hereford bull and female sale. The organization was now able to offer its commercial buyers not only quality Hereford bulls in volume, but also true F-1 females that would do the job under harsh South Texas range conditions.

“The South Texas Hereford Association’s 33rd annual sale at Beeville on November 1 was one of the best if not THE best in the

1992 STHA Directors – Louis Fromme, Goliad; Danny Williams, Sequin; Charles Moscatelli, Victoria; Weldon Winsauer, Beeville and Marty Harris, Tilden.

Ed Roeder Family

Spring Sale 1983 Champion Pen of Bulls exhibited by R.J. Roeder, Jr. with William Smith, President STHA.

history of the Association,” reported the Texas Hereford Magazine about the year’s event. “The sale was held at the new facilities of the Bee County Livestock Market. Having three acres under one roof, with handling facilities and an auction arena, this is one of the finest in America.”

The venue’s addition of air-conditioning was also mentioned in sale ads.

The sale has many longtime consignors, including several families who were part of establishing the association. STHA member Eddie Roeder, whose grandfather consigned the first-place bull in the inaugural 1937 fall

sale, says that his family has consigned to every annual sale and his son Don is now president of the association. Roeder recalls former STHA president and prominent cattleman Charles Moscatelli of Victoria pushing for the sale “have something for everyone” which encouraged everyone to put quality work into all of their consignments.

“There is no better advertisement than a good, inexpensive bull,” Roeder says. “If you take all your good bulls home and you don’t sell anywhere, you’re going to lose customers at that sale because they’re going to say, ‘well, you have a high sale and people won’t want to come back.’”

Repeat customers have never been a problem for the sale, and Smith calls it the ultimate compliment as a cattleman. His son, STHA Second Vice President Ward Smith, says that lasting relationships between the consignors and buyers is one of the things that makes the annual sale so special. The Smith family has raised Hereford cattle since 1904.

“STHA prides itself in having integrity and transparency between consignors and buyers—before, during and after the sale,” he says. “Viewing of cattle is open to the public throughout the two-and-a-half-day event, so there is ample time for communication between consignors and buyers to discuss background information of every bull and pen of heifers offered. Allowing time to solidify those relationships is vital.”

Today, the association also hosts a spring sale and offers Agricultural Pesticide Applicator Continuing Education Unit (CEU) opportunities for its members annually.

### A Lasting Legacy in South Texas

Over the years, it’s estimated that more than 8,000 bulls have gone through the fall sale. And while the additional fanfare around the event may be a fond memory, the 2022 sale is just as important—and high quality—as ever. The association is also still taking Hereford and F-1 female consignments.

“We’ve outlasted a lot of other Hereford sales around the state because of the continued need for Hereford genetics in South Texas,” Roeder says.

Many STHA members are confident about the Hereford breed’s legacy on the cattle herds of the region.

“Hereford cattle have always had a profound impact on South Texas,” says STHA Director Ralph Stubenthal. “They bring so much to the table as farm as increased performance traits in feedlots in terms of quality and yield, they offer a positive increase in reproductive traits in a cowherd, and contribute to the F1 Hereford-Brahman crossbreed that is so important to the cowherd in South Texas.” ★

## INTRODUCING OUR NEW HERD SIRE

**C 8086** *Sancho* **1084 ET**

[DLF,HYF,IEF,MSUDF] • 44257610 • CALVED: 1/7/21 • TATTOO: BE 1084

Our newest lineup to our Herd Sire battery is this great Sancho son. He was the Grand Champion Horned Bull at the 2022 National Western Stock Show as well as the Horned Champion Junior Bul Calf at the 2022 Cattlemen's Congress and 2021 Western States Hereford Show in Reno. He's a true powerhouse and his pedigree is stacked with maternal excellence.

**POWERHOUSE** HEREFORD  
*Sale*  
*a new force within the Hereford industry*

Featuring our Premium Whiteface Replacement Female Show & Sale

**SUNDAY, JANUARY 29, 2023**

Our Powerhouse Sale will be a great event. The demand for Hereford females is at an all-time high and this should be the source for some of the best Hereford genetics offered in the State of Texas. Make "Super Hereford Weekend" an educational and entertaining event by attending the Annual Meeting and social of Texas Hereford Association, & the National Hereford Show.

**Special Rules:**

1. All consignors must be active or associate members of the Texas Hereford Association.
2. Animals must be in their pens not later than 6:00 p.m. Friday, January 27, 2023.
3. All animals will be shown in pens of ten (10) by classes and placed by judges at 9:00 a.m., Saturday, January 28, 2023.
4. All females entered will be sold in the Hereford Sale at 1:00 p.m., Sunday, January 29, 2023.
5. Pen and Sale Fees: an entry fee of \$18.00/head is due on November 1, 2022. A seven (7) percent sale fee will be assessed at the sale. This fee includes all Stock Show pen fees and sale costs. No refunds after entries close.
6. Health requirements: all females entered in this division must meet regulations of the Texas Animal Health Commission and must be accompanied by an official health certificate.
7. If animals are to be sold as registered, papers must be provided to sale manager with health papers. Minimal grooming is encouraged.

**Make Fort Worth a MUST DO event in 2023**

**Send us your best Hereford heifers...**

**2023 Premium Whiteface Replacement Female Show & Sale**

**HEREFORD WEEKEND • Jan 28-30, 2023**  
 Southwestern Exposition and Livestock Show

**Hereford Division**

- Class 1 \_\_\_\_\_ Heifers calved after Sept. 1, 2021
- Class 2 \_\_\_\_\_ Heifers calved from 1-1-21 to 8-31-21, Bred, No Calves
- Class 3 \_\_\_\_\_ Heifers calved 1-1-20 to 12-31-20 Bred, No Calves
- Class 4 \_\_\_\_\_ Heifers calved 1-1-20 to 8-31-21, Any Or All With A Calf At Side

**Red or Black White-faced English Cross Division**

- Show fee: \$35 per head to Texas Hereford Association.
- Bulls will be weighed prior to show.
- Bulls may be stalled with either Hereford Breeding Cattle or with Whiteface Replacement Sale Cattle. If stalled with Hereford Breeding Cattle, exhibitor must pay additional \$35 per head fee to Stock Show to receive a stall.
- Exhibitors are subject to all rules and regulations of the Southwestern Exposition & Livestock Show and Texas Animal Health Commission.
- Bulls may be Horned, Polled or mixed.

### Qualifications

Premium Red Baldy is a female-only program, capitalizing on hybrid vigor. No steers will be tagged in this non-PVP tagging program.

To qualify for Premium Red Baldy, females must be sired by bulls in the top 50% of the breed for Baldy Maternal Index (BMI\$) or Herdbuilder Index (HB).

Breed percentages on qualified females will range from 25%-75% Red Angus and Hereford, with a small allowance for other breeds.

Females must be red-bodied with either a bald or brockle face. No black-hided cattle will be admitted, regardless of genetic makeup.

**A groundbreaking, genetically verified female program for the commercial beef industry.**

### Benefits

Premium Red Baldy is a tagging program designed to take advantage of hybrid vigor by maximizing the best traits of both Red Angus and Hereford and providing commercial producers with premium replacement females.

The program will help producers access genetically verified females that have the best combination of longevity, fertility and adaptability to incorporate into producers' herds.

The Premium Red Baldy program has the ideal balance of maternal and carcass traits, which will yield cattle poised to increase the profitability of the commercial producer.

Premium Red Baldy uses genetics supported by the only two beef breed associations backed by whole herd reporting.

## The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

\* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

# Understanding Hereford EPDs

The American Hereford Association (AHA) currently produces expected progeny differences (EPDs) for 17 traits and calculates three profit indexes. AHA's genetic evaluation makes use of a Marker Effects Model that allows the calculation of EPDs by incorporating the pedigree, phenotypic and genomic profile of an animal. Animals that have a genomic profile will be denoted with a GE-EPD logo.

The current suite of Hereford EPDs and profit indexes includes:

## Calving Ease — Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average, if comparably mated, sire A's calves would have an 8 percent more likely chance of unassisted calving when compared to sire B's calves.

## Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average, if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

## Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

## Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

## Dry Matter Intake (DMI)

The DMI EPD predicts the daily consumption of pounds of feed. For example, if sire A has a DMI EPD of 1.1 and sire B has a DMI EPD of 0.1, you would expect sire B's progeny, if comparably mated, to consume on average 1 pound of feed less per day.

## Scrotal Circumference (SC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a 0.7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm.

## Sustained Cow Fertility

The AHA's new SCF EPD is a prediction of a cow's ability to continue to calve from three years of age through 12 years of age, given she calved as a two-year-old. The EPD is expressed as a deviation in the proportion of the 10 possible calvings to 12 years old expressed as a probability. For example, the daughters of a bull with a 30 EPD would have the genetic potential to have one more calf by age 12 than the daughters from a bull with a 20 EPD. In other words, the daughters from the 30 EPD bull would have a 10% greater probability of having one more calf than the bull with a 20 EPD. This is equivalent to saying that the daughters are 10% more likely to remain in the herd to age 12.

## Maternal Milk (MM)

The MM EPD of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sires' daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

## Maternal Milk & Growth (M&G)

The M&G EPD reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability. It is an estimate of the daughter's progeny weaning weight. A bull with a 29 lb. M&G EPD should sire daughters with progeny weaning weights averaging 19 lb. heavier than progeny of a bull's daughters with a M&G EPD of 10 lb. (29 minus 10 = 19 lb.). It is equal to one-half the sire's weaning weight EPD, plus all of his MM EPD. No accuracy is associated with this since it is simply a mathematical combination of two other EPDs. It is sometimes referred to as "total maternal" or "combined maternal."

## Maternal Calving Ease (MCE)

MCE EPD predicts how easily a sire's daughters will calve at two years of age and is measured on a percentage. For example, if sire A has a MCE EPD of 7 and sire B has a CE EPD of -3, then you would expect on average if comparably mated, sire A's daughters would calve with a 10% more likely chance of being unassisted when compared to sire B's daughters.

## Mature Cow Weight (MCW)

The MCW EPD was designed to help breeders select sires that will either increase or decrease mature size of cows in the herd. The trait was developed after years of cow weight data collection and the EPD relates directly to the maintenance requirements of a cow herd. For example, if sire A has a MCW EPD of 100 and sire B has an EPD of 85, then you would expect the females of sire A, if comparably mated, to be 15 lb. heavier at mature size.

## Udder suspension (UDDR)

UDDR EPDs are reported on a 9 (very tight) to 1 (very pendulous) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a UDDR EPD of 0.4, and sire B has a UDDR EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score better udder suspension in daughters of sire A, compared to sire B.

## Teat size (TEAT)

TEAT EPDs are reported on a 9 (very small) to 1 (very large, balloon shaped) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

## Carcass Weight (CW)

CW EPD is a beneficial trait when considering the impact that pounds have relative to end product value. At the same age constant endpoint, sires with higher values for carcass weight will add more pounds of hot carcass weight compared to sires with lower values for carcass weight. For example, if sire A has a CW EPD of 84 and sire B has a CW EPD 64, then you would expect the progeny of sire A, if harvested at the same age constant endpoint, to have a 20-lb. advantage in terms of hot carcass weight.

## Rib Fat (FAT)

The FAT EPD reflects differences in adjusted 365-day, 12th-rib fat thickness based on carcass measurements of harvested cattle. Sires with low, or negative FAT EPDs, are expected to produce leaner progeny than sires with higher EPDs. Ultrasound measures are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

## Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

## Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

## Baldy Maternal Index (BMIS)

The BMIS is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

## Brahman Influence Index (BIIS)

The BIIS is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef® does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

**Certified Hereford Beef Index (CHBS)** The Certified Hereford Beef Index (CHBS) is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for Certified Hereford Beef after the finishing phase. This index has significant weight on Carcass Weight and Marbling to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. In addition, there is a positive weighting for Rib-eye Area and a negative weighting for Back Fat to maintain desirable Yield Grades. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

# Application for Membership in the Texas Hereford Association

## Advantages of THA Membership

**SERVICE** – The Texas Hereford Association is a service organization to benefit the Hereford breed and the breeder.

Members are assisted in buying and selling cattle at private treaty and by auction.

The Texas Hereford Association sponsors the Powerhorse Hereford Female Show and Sale, the Powerhorse Halter Sale, and the THA Fall Classic. These sales promote the use of better Hereford bulls and females. The Texas Hereford Association is also actively engaged in the promotion of Texas Herefords and in sponsoring seminars, field days, and other events to encourage educational opportunities for members.

**ASSOCIATION** – The Texas Hereford Association was organized in 1899. Its membership has included the elite of the Texas Hereford industry since its inception. Membership dues are \$125.00 per year. Associate memberships are available for \$100.00 per year.

**DIRECTORY ISSUE** – Every active member of the Texas Hereford Association has a free listing in the Directory issue of *The Texas Hereford*. This Directory is used by thousands of Hereford breeders the year round. Information pertaining to your herd such as herd sires, bloodlines, location of farm or ranch, telephone numbers, etc., will be listed in this widely used reference book. This herd listing alone is worth the price of membership. Associate members are also listed.

**THE TEXAS HEREFORD** – Monthly publication of the Texas Hereford Association. It is the only publication in Texas devoted solely to Herefords. It includes news about the association, news about Herefords and timely editorial features. Active members can list Herefords for sale **FREE** in the Cattle For Sale column. This service has been responsible for selling thousands of Texas Herefords all over the nation. Texas Hereford Association members may advertise in *The Texas Hereford* at low livestock rates – a considerable savings for your marketing program. Sale catalogs, brochures, flyers, and other marketing aids designed are produced by our professional staff at considerable savings. (Advertising rates will be sent on request).

**The Most Important Investment  
You Can Make as a  
Registered Hereford Breeder  
is a membership in the  
Texas Hereford Association.**

## ACTIVE Membership Application

I hereby make application for membership in the TEXAS HEREFORD ASSOCIATION.

Upon becoming a member, I will abide by the constitution and By-Laws of the Association and also the rules of the American Hereford Association.

I am the owner of \_\_\_\_\_ head of registered Herefords and \_\_\_\_\_ head of commercial cattle.

Attached hereto is remittance of One Hundred and twenty-five dollars. (\$125.00 covers active membership for one year). Dues include a subscription to the *Texas Hereford* magazine and a one year free listing in the “Cattle for Sale” on the THA website and monthly magazine.

"DESERT ★ PRIME" IS CREATING AN EXCITING NEW MOVEMENT  
AMONG SO MANY CATTLE PRODUCERS; HERE'S WHY

- ✓ A STRAIGHT HORNED BULL THAT OFFERS AS MUCH OR MORE CARCASS EXCELLENCE AS ANY BULL.
- ✓ A LOW BIRTHWEIGHT SIRE SAFE TO USE ON HEIFERS YET WITH TRAIT LEADING PERFORMANCE.
- ✓ VERY FERTILE WITH STOUT COW STAYABILITY.
- ✓ POPULAR AND RIGHT FOR HIS TIME, HE IS THE MAIN REASON WE HAVE ADDED OVER **40** NEW CUSTOMERS IN JUST THE LAST TWO YEARS!

OVER 45 SONS WIL SELL  
ON NOVEMBER 17, 2022
