# hp designjet 500 and 500ps

Demanding large-format users depend on HP Designjet printers for clear, crisp images with rich, true colors and uncompromising image quality—print after print. HP Designjet 500 Series printers are the perfect choice for graphics and technical professionals who want a smart, affordable system for a personal office or small workgroup.

## hp designjet 500

Architects, engineers, and technical professionals rely on the HP Designjet 500 printer for fast, accurate illustrations, precise line drawings, and high-resolution renderings.

## hp designjet 500ps

The HP Designjet 500ps printer, with a full-featured PostScript RIP, provides detailed illustrations, accurate proofs, and powerful presentations for small advertising agencies, designers, and graphic artists.

Exclusive HP Designjet imaging technology delivers uncompromising image quality at top speed. Smart printing tools provide customers with low cost of ownership, simple-to-use interface, and a high degree of unattended printing.

## high speed

- color images at 85 ft<sup>2</sup>/hr (D-size fast mode)
- line drawings in just 90 seconds (D-size fast mode)

## uncompromising image quality

- rich, brilliant colors from print to print, regardless of ink levels or printhead usage
- precise ink placement ensures crisp, sharp lines and text
- hp's color layering technology combines ink drops on a single dot to create smooth color transitions and photo-quality results—even up close
- up to 1200-dpi resolution

## smart printing

- high-capacity hp no. 82 ink cartridges and long-life hp no. 11 printheads mean fewer supplies changes, unattended printing, and low cost of ownership
- built-in smart chips identify low ink levels and worn printheads

The **hp** designjet printing system—**hp** printers, ink systems, and printing material—developed and tested together to ensure uncompromising image quality, performance, and reliability.
