TRIGANO

More than 90 years' experience

designing new and innovative solutions for the leisure and holiday home industry. Our products are made in France, in our Sarthe, Drôme and Loiret factories.

Technical adaptations

to optimise canvas treatment and ease of use (assembly/disassembly).

Life-size testing.

Our models are assembled and tested over several years in outdoor locations on our production sites.

A strict quality policy

that remains consistent over every part of the production process, guaranteeing your investment over the long term.

All of our tents are protected by a 5-year guarantee if you choose the TRIGANO installation service.

Expertise

The Floor

We source our wood from sustainably managed Scandinavian forests.

The Class 4 pine treatment provides crucial longevity for our lodges and bungalows

The Structure

Whether wood or steel, our structures are weather-resistant and can stay up all year round.

Our structures are made from galvanised steel and Class 4 autoclave-treated pine.

The Canvas

The outer canvas layer is made from PVC M2 or Tencate M1 fire-resistant fabric.

These canvases are water-proof, UV-resistant, tear-proof and mould-resistant.

World-class canvas quality

CampShield Fabric

This technology offers several advantages:

- ✓ Extra safety and protection from fire (M1 class fire resistance)
- ✓ A more resistant canvas
- ✓ A striking, cotton-finish appearance
- ✓ Only for the Kenya and Balearic lodges

Prestressed

Used particularly for our roofs, PVC fabrics ensure:

- ✓ Additional safety and protection thanks to M2 flame retardant properties
- ✓ Lifespan and resistance
- ✓ Easy maintenance

The Trigano Group is committed to preserving our natural surroundings and protecting the environment. Our company ethos and 80 years of business in the open-air leisure industry depend on it.

An environmentally friendly solution

The very concept of canvas habitat is ecological and in harmony with nature.

Wood is a natural material par excellence. Its use in the terraces of Trigano canvas bungalows and its origin from sustainably managed forests ensure integration into the environment.

Trigano ensures the recovery of materials for their reprocessing (recyclable - 95%) in their manufacturing process.

Trigano is attentive - limiting the impact on the environment: use of aqueous adhesives without VOCs (Volatile Organic Component).

Trigano encourages its suppliers - to set up waste sorting and recovery channels.

Trigano an You

Trigano provides a free service that promotes your page on our website.

The Internet is today an essential medium for campsites. But having a website doesn't mean being on the net. For this, you need a good SEO so that your customers find you more easily.

Our site www.trigano-hpa.com benefits from exceptional natural referencing, particularly on internet search engines, and we want you to benefit from it.

To do this, we have implemented an interactive map system allowing - your customers to be directed with a few clicks on your home page.

Videos and photos of each Lodge and Bungalow are at your disposal to make your brochures and websites even more attractive.

We are also talking about you on our social networks!

When our customers send us pictures of our lodges being installed or in service, we share the information on our social networks. On Facebook, over 25,000 people are subscribed to our page and like to see where they are our lodges.

We mention the page of the partner campsite, thus offering visits to its page as well as to potential subscribers.

Do not hesitate any longer - make people talk about you on our social networks, share your photos - your Trigano HPA contact!

You can also integrate videos from our Youtube channel into your site to offer your customers a better view of our products. Videos offer a better customer conversion rate.

Find us on our social networks:

TIPIHOME

Unusual holidays in the TIPIHOME

Find your childhood dreams with our new atypical accommodation equipped with a parental bedroom and a child's bedroom upstairs.

For optimal comfort, a bathroom with toilet and sink is integrated.

Increase the outdoor space with our terrace on stilts and its awning.

Rapidity, Simplicity and Charm

The original design of the Tipihome allows an assembly suitable for many plots due to its pile soil.

Due to the strength of its treated wood structure and the quality of the canvas, no dismantling is necessary in winter.

Tipihome technical data

Safari Journey

The Safari atmosphere of this lodge will take guests on an adventure that is really out of the ordinary, charmed by the wood frame and the cotton-like appearance of the Tencate fabric.

Our furniture kits in acacia or pine blend in perfectly with the wood frame and the Tencate fabric.

The Kenya can remain assembled throughout the entire year (with an optional Altitude Kit for snow-covered areas).

A foolproof **structure**

Made up of sturdy materials, class IV autoclave pine frame, steel connectors, CampShield® fabric exterior partitions tensioned by straps stainless steel ratchets, the Kenya structure is resistant. Kenya can stay ridden all year round (with the Altitude Kit option for snowy areas).

Stilts adjustable from 18 to 200 cm allow the ground to adapt to any terrain, without damaging it. (maximum height = 150 cm in front of the Lodge)

1 staircase 1 - 7 steps with 2 ramps included for floors on stilts max height 200 cm which is installed in front of or on one side of the Lodge.

1 staircase 1 - 4 steps with optional ramps for floors on stilts max height 100 cm which is installed at the front or on one of the sides of the Lodge.

Vintage Glamping

The Kenya range is now offered with vintage pine furniture embellished with a trendy aged iron touch.

The electric kit is equipped with high quality equipment and a fan with integrated lighting in the living room.

New options have been adapted for more comfort: air conditioning, dishwasher, television, etc.

This furniture has been specially designed for intensive use and is climate resistant under canvas.

A functional **Kitchen**

Furniture with significant storage capacities – a 4 ring gas stove – An anthracite kitchen sink equipped with a stylish set of taps.

Create a **cosy** space

Lodges for the whole family

The Kenya lodges are designed with 2 bedrooms located at the rear or on the right depending on the model.

The main bedroom features a double bed, while the second bedroom has a bunk bed with room for 3 children or 2 adults.

The Kenya 46 model has an optional double sofa bed in the lounge/living room area, with a TV optional as well.

Enjoy all the comfort of a spa break On your own front porch

Our four-seater Nordic bath can be installed right onto the terrace of the lodge. This heated bath is great for your health and well-being, offering your clients a chance to unwind in the open air.

STØRVATT®
ESTABLISHED 1997

Storvatt have been manufacturing Nordic baths in France since 1997. They've created a custom made Nordic bath that blends seamlessly with the terraces of our canvas-roofed lodges.

Storvatt take pride in their mastery and craftsmanship with Red Cedar, a high-quality and exceptionally durable wood.

The solid wood components are meticulously assembled. The bands around the baths are made from curved, threaded stainless steel bars and the wood is finely sanded for an exceptionally smooth texture. The electrical heating and filtration system are connected to our power shedding system, meaning there's no need to increase the power to the bath.

Technical specifications

Structure

Frame	Autoclaved class 4 pine, Ø 80mm + galvanised steel connectors and rust-brown polyester paint

Kenya Event

Restaurant - Meeting - Reception

3 Dimensions : 23m², 34m², 46m²

The Lodge **Event**

the creation of a glamping party space

Available in its Lodge version, the KENYA Event will allow you to have an ideal and glamping space for games, parties or a catering area that will delight your guests.

Very pleasant to live in, these new spaces will harmonize perfectly with the nature of your campsite.

Equipped with 2 accesses at each gable, this Lodge opens easily thanks to its removable covers to get outside

Interconnected TRIGANO floors for large clean and common spaces.

The **Altitude** option enables the Kenya to climb to the summits

The altitude option of our KENYA range allows our Lodges to be installed in snow-covered areas. The ultra-strong wooden frame withstands snowfall and strong winds, making the Kenya resistant to testing situations.

The Glamping Ecolodge

The new BALI range, designed to be the entry-level of the TRIGANO Glamping range will allow your customers with small budgets to discover a journey under canvas with exceptional comfort.

A large living area with a good class of amenities will make a stay very pleasant. The TRIGANO Acacia furniture kit goes perfectly with the wooden frame and PVC sheeting of the BALI.

- Frame:** Class 4, Ø 80mm autoclave pine + galvanized steel connectors and antique iron colour polyester painted
- Optional guardrails:** Guardrails with Batyline Ferrari protective textile mesh.
- Exterior fabric:** Periphery / perimeter 640g/m² M2 mat PVC, Ceiling lining, M1 Polyester 205 g/m² - for thermal insulation.
- Roofing canvas:** 640g/m² M2 matt PVC, Polyplan mat.
- Fabric tension:** On the ground with a rail/trim strip - and the roof on the frame with stainless steel ratchet straps.
- Front panel** 1, a 2-part large door with a zip fastener and padlock (not supplied)

A pleasant rest area

Two well-insulated bedrooms with their interior fabric linings allow you to relax even in the middle of the day.

These bedrooms can be equipped with a double bed in the parents' bedroom and a mezzanine bed that can accommodate 3 children or another couple. The bedrooms are positioned on the left of the Lodge if it is fitted with our new more spacious monobloc bathroom unit.

Acacia Glamping

The Bali range is now offered with Acacia wood furniture designed specifically for our models. The reversible air conditioning or heating options give users more comfort.

The electrical kit comprises high quality appliances and a fan with integral lighting in the living room. This furniture stands up to the weather under canvas and heavy use.

More autonomy

The Bali 32 Lodge can be laid out with the 2 bedrooms on the left and the monobloc bathroom at the back on the right.

This configuration provides more autonomy for families with a shower, sink and toilet.

A **friendly** living room and patio

Enjoy a clear space on the patio of our Bali 32 which can be extended (+9m²) in the XL version. For the Bali 20 we can supply you a patio on the ground with a sun awning. The Acacia kitchen and its optional storage units optimize the space and create harmonization between the canvas and the wood frame of the lodge.

A barbecue party, right on your terrace

A holiday just isn't a holiday until you fire up the barbecue. That's why we're offering an optional barbecue kit for your lodge, complete with a stainless steel 3-burner gas grill featuring an additional hob at the side. It's the perfect way to cook a whole barbecue dinner, from the meat, fish and vegetables to all the side dishes you need. Turn your terrace into the ideal al fresco kitchen!

Technical specifications

MARQUISES

The institutional bungalow from the range

The good quality / price ratio.

Made of PVC, the Marquises emanates from our historic Caribbean bungalow. Completely redesigned, the awning offers more space and can remain mounted all year round (excluding snowy areas).

Able to accommodate 4 people in 2 spacious bedrooms, Les Marquises is the ideal bungalow to discover the holiday experience in canvas accommodation and rediscover the pleasures of the colonies of our childhood by combining them with more comfort.

Mounted on a stilted floor with a 2-step staircase, you can add an optional terrace for more space.

Bubble Suite

BubbleSuite

Experiential tourism for an all-season offer attractive and atypical.

The BubbleSuite is made up of 3 parts:

- A "dressing room" access airlock.
- A "room" bubble Ø 4m.
- A second "bathroom" bubble Ø 2.7m.

The whole is modular.

Quick and easy assembly and disassembly

High-end accommodation with all the comforts inside a very cocooning bubble.

The bubbles are delivered with access locks - wooden frame, door partitions, floor fixing system, self-adapting silent turbine, connection kit, ventilation grilles and washable filtration membranes.

Numerous technical zips, allowing the passage of cables, ventilation, etc., are fitted to each module.

Pile floor mounting

To equip your bubble, BubbleSuite offers many options including toilets, shower cubicle furniture, washbasin, heating, air conditioning and many more.

anchor kit

Adjustable floor from 18 - 200 cm and equipped with 90 x 90 mm posts to adapt to the configuration of your grounds. The stilt floors fit in perfectly without distorting the landscape.

Piloti flooring in pre-assembled panels

TRIGANO flooring offers top class strength and robustness, relying on the finest wood sourced from certified Scandinavian forests.

They are composed of wooden slats treated European standards

autoclave class 3 and 4.

Piloti flooring provides a great product lifetime and adaptability across all sorts of terrain without needing to excavate or level off your plot.

Positioned on **slabs gravelled**, the floor frame is composed of 95 x 45 mm joists and 120 x 45 mm sleepers. Option: anchor kit.

A **staircase**, from 1 to 7 steps for floor height from 18 to 200 cm, including a maximum height of 150 cm at the front of the lodge. Optional stair railing.

Pre-cut terrace planks (27 x 145mm) ensure quick and convenient installation, and tarpaulin insulation under the floor prevents cold draughts entering the structure.

NB: Only the posts require cutting to adjust to the ground level.

**Screws
stainless steel**

Ground-level flooring

This is independent of the piloti-based floorings. It comprises 95 x 45mm strips and 27 x 145mm terrace floor planks. The ground-level terrace can be fitted with a canvas shade.
