# NCIS: SYDNEY

A New Multinational Task Force Comes To CBS.

TM & © 2023 CBS Studios Inc. Credit: Daniel Asher Smith/Paramount+

Remember when you knew that putting on CBS on a Tuesday meant a new episode of *NCIS*? Well, it's time for that once again. *NCIS: Sydney*, the first international edition of the hit franchise, is coming our way beginning Tuesday, Nov. 14.

In a uniquely Australian twist, rising international tensions in the Indo-Pacific require a brilliant and eclectic team of U.S. NCIS agents and the Australian Federal Police (AFP) to serve on a multinational task force to keep naval crimes in check in the most contested patch of ocean on the planet. Led by NCIS Special Agent Michelle Mackey (Olivia Swann, *DC's Legends of Tomorrow*) and her 2IC AFP counterpart, Sgt. Jim "JD" Dempsey (Todd Lasance, *Without Remorse*), this team of Americans and Aussies must quickly learn to trust each other, overcoming and harnessing their differences to solve each case. Though jurisdictional tussles and culture clashes make for a rocky start, Mackey will eventually come to respect JD's nose for the truth, as he does her maverick style.

Meanwhile, sassy AFP Constable Evie Cooper (Tuuli Narkle) and endlessly curious Special Agent DeShawn Jackson (Sean Sagar) form a fast friendship, while curmudgeonly forensic pathologist Dr. Roy Penrose (William McInnes) meets his match in the brilliant young forensic scientist Bluebird "Blue" Gleeson (Mavournee Hazel). — *Meredith Jacobs*

## JFK REMEMBERED — Gripping New Docuseries Marks Six Decades Since President John F. Kennedy's Assassination.

Nov. 22, 2023, marks the 60th anniversary of the assassination of President John F. Kennedy. To commemorate that national tragedy, and to remember the man at its center, Nat Geo is airing programming that looks back at that day.

*JFK: One Day in America*, premiering all three of its episodes on Sunday, Nov. 5, is the second installment of the network's *One Day in America* anthology docuseries franchise (the first was the Emmy-winning *9/11: One Day in America*). The series forensically explores momentous events in our history — in this case, chronicling in real time

not only the day that Kennedy was assassinated, but also the days surrounding it, in hourlong episodes titled "Assassination," "Manhunt" and "Revenge."

*JFK: One Day in America* was produced in official collaboration with the Sixth Floor Museum at Dealey Plaza in Dallas and received exclusive permission to colorize the museum's news footage archives for the first time, including film of suspected assassin Lee Harvey Oswald when he is in police custody, and when he is shot by Jack Ruby while being transferred to the county jail. Weaving footage like that and other archival elements — including police radio recordings, live broadcasts and footage from dozens of television crews — together with new and archival testimony from those who were there, the series offers what it says will present a "comprehensive oral history" of that tragic day. Some of the eyewitnesses who are sharing their stories for the first time in a documentary here include Peggy Simpson, the only female Associated Press reporter working in Texas in 1963 and an eyewitness to Oswald's shooting; Rusty Robbins, a Dallas police officer who knew Ruby; and Bill Mercer, a local reporter who was the first to inform Oswald that he had been charged with the president's murder.

## LOST WOMEN OF HIGHWAY 20

Oscar Winner Octavia Spencer Narrates New Docuseries.

"I think I'm a decent detective," says lifelong true-crime aficionado Octavia Spencer, "but my friends and family might beg to differ, because sometimes I can't find my reading glasses or phone." Nevertheless, the Oscar winner has devoured whodunits since childhood, played a true-crime podcaster on *Truth Be Told* and has even deemed herself "an encyclopedia of crime." Now she exec produces and narrates the three-part docuseries *Lost Women of Highway 20*, airing Sunday, Nov. 5, on Investigation Discovery. The series starts with a 13-year-old girl gone missing in 1990 and snowballs into multiple unsolved murders spanning two decades along a highway in the Oregon wilderness.

### What fuels the supremely sweet-faced Octavia Spencer's obsession with dark deeds?

**Octavia Spencer:** As a child, I read age-appropriate mysteries, but when I was 11, I accidentally read *Helter Skelter*. After being mentally marred by the violence those victims endured, I think my passion became fueled by the inclination to seek justice for victims.

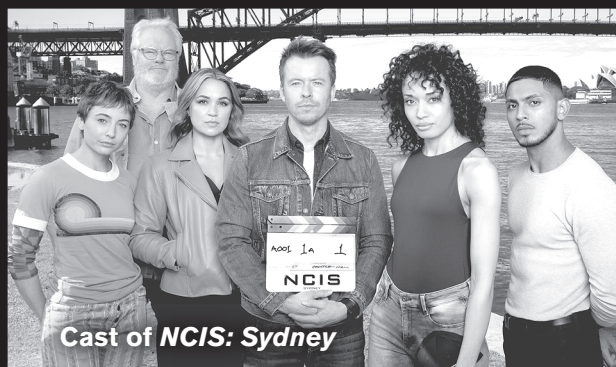

**What caught your interest here?** What intrigued me about this story is that I hadn't heard of it: A serial killer was allowed to operate in plain sight, unchecked, along this corridor of Highway 20 [for years]!

**Why do you think it's important to shine a light on stories like these?** To ensure they're not repeated. These women mattered. They had lives and loved ones, who still miss them. Hopefully, their stories can effect change and allow more women to come forward and be believed. — *Brantley Bardin*

BUDDY VALASTRO

By Jeff Pfeiffer

November marks the start of the holiday season for many, and that also means a time for great food and sweet desserts. So, it is fitting that celebrity baker Buddy Valastro comes back to TV this month with two new series on A&E: *Legends of the Fork* and *Buddy Valastro's Cake Dynasty*. The series air back-to-back Saturday nights beginning Nov. 11.

*Legends of the Fork* follows Valastro across the country as he uncovers the recipes and people behind some of the most popular restaurants. "It's basically a show where I go and meet people, see the 'secret sauce' to what makes their place legendary," he says.

Valastro describes *Cake Dynasty* as "basically a reality show of my life. It is where we are now with the evolution of my business [Carlo's Bake Shop in Hoboken] and my family. ... [It] gives a really different dynamic of the business. It's not only about making one giant cake. Today we're making 7,500 cakes."

The very busy Valastro had literally just taken something out of the oven before kindly taking the time to answer our "5 Questions."

**1. Do you have a favorite sports team?** Yeah, I'm a New York Giants fan in football and a New York Yankees fan [in baseball]. Those are my two main ones, and then hockey would be the [New Jersey] Devils. Basketball, I would say probably the [Brooklyn] Nets; even though they left New Jersey, we forgive them.

**2. Do you have any pets?** I do. I have three dogs: Duke, a German shepherd, and two Yorkies, Bella and Baci.

**3. Have you ever been starstruck?** I was starstruck by Oprah Winfrey and Lawrence Taylor. Two weird spectrums, right? Oprah was like a dream, to be able to meet and make a cake for her ... and she was so nice off- and on-camera. Then Lawrence Taylor — growing up being a Giants fan, I was just so psyched to meet him. I told him I wanted to tackle him, and he looked me dead in the eye, and he was like, "You [can] try; I don't think it's going to work. Take [the] ball." I was excited; I was like a little kid.

**4. Do you have a favorite travel spot?** Yes; depends on who I'm with. If it's me and my wife, we love St. Barts. If it is me, my wife and my kids, I would say probably the Bahamas.

**5. Are there certain pastries/cakes that are more fun to make than others?** I would say the pastry that gives me the most pride that we make is our lobster tail, because it is the hardest Italian pastry to make and we're probably one of the only places that make it ourselves from scratch, the old-fashioned way. And then when you take a bite of that crispy shell, it just makes everything so worth it.

Joe Mantegna, a Scorpio (born Nov. 13), of "Criminal Minds: Evolution"

**ARIES** (March 21 - April 19)  
Relationships are set to get a little bit sweeter this week. This could help a lot, especially if things have turned rather sour in the recent past. Focus on moving forward, rather than dredging up the past. Do you want to be happy or do you want to be right?

**TAURUS** (April 20 - May 20)  
It's time to start a fresh in a key partnership. Whether you move ahead or you realize it's time to go your own way, things are likely to move quickly. Diplomacy counts, but not at the expense of your hard work. Don't let others determine your value, professionally or personally.

**GEMINI** (May 21 - June 20)  
If you've been contemplating turning over a new leaf in terms of your health and wellness routines, this is a good week to start. With health and fitness in focus, organize your social events with that in mind. Take small steps that your future self will thank you for.

**CANCER** (June 21 - July 22)  
It might be time to reveal your true feelings in a romantic situation. If things are feeling a little bit combustible, that could be just the spice level you need now. If it's more than you can handle, then be honest. The ball is in your court regarding the direction this takes.

**LEO** (July 23 - Aug. 22)  
As you move into this new Pluto cycle, you're going to need to start to control your passions a little bit. Attempts to manipulate the people in your life are going to full flat or even have something like a comic backlash! Yes, you're special. Everybody else is special!

**VIRGO** (Aug. 23 - Sept. 22)  
Sweet Venus enters your Cash Flow Zone, providing the much-needed cosmic honey that will support all your financial dealings and help boost your confidence too. Whether you need to attract more cash or enter into fi-

ancial negotiations, you have luck onside. Be diplomatic and direct when it comes to money.

**LIBRA** (Sept. 23 - Oct. 22)  
At last, Venus, your guiding star arrives in your sign. This will be some sweet relief after what has been quite the steep learning curve for you in recent months. That being said, don't be afraid to give up tired habits. A new you is waiting to emerge, so prepare for that.

**SCORPIO** (Oct. 23 - Nov. 21)  
This is quite a spectacular week for you. Your proverbial sword has been sharpened and you're ready to tackle a new challenge or embark upon a new phase of personal growth. As you do, be prepared for the unexpected. If you want change, then be willing to change yourself first.

**SAGITTARIUS** (Nov. 22 - Dec. 21)  
Curious Mercury arrives in your sign, signalling a time where you're willing to get to know yourself a little bit better. There's a lot to learn in terms of you, your career and those in your life. Do you want success? Be prepared to listen twice as much as you speak.

**CAPRICORN** (Dec. 22 - Jan. 19)  
Sweet Venus arrives in your Career Zone, help smoothing any diplomatic issues that may have been lingering from the past few weeks. Use this time to win over friends and influence people at work is a wise strategy. You'll discover who really is on your team and who isn't.

**AQUARIUS** (Jan. 20 - Feb. 18)  
If you've found yourself caught between a rock and a hard place, call a friend! With social Mercury now in your Friends Zone, it's time to catch up with your social groups and networks. Catch up with a friend now. A problem shared with a trusted friend is a problem halved.

**PISCES** (Feb. 19 - March 20)  
If you've felt the pressure that serious Saturn has placed on you since March, then key negotiations can happen now. If you feel like you've been doing all the giving and not getting anything back, speak up. If you want more appreciation at work or in love, then ask for it!

## Lara Parker, Who Played Angelique On "Dark Shadows," Dead At 84

By Michael Maloney

Actress Lara Parker, born Mary Lamar Rickey in Knoxville, Tennessee, on Oct. 27, 1938, appeared in TV shows and films, but she was best known for bringing to life the beautiful and diabolical witch Angelique Bouchard Collins on the ABC daytime supernatural soap opera *Dark Shadows*, which ran from 1966 to 1971.

Parker passed away in her sleep at her Los Angeles home on Oct. 12 after a battle with cancer.

The actress starred alongside Peter Fonda in the 1975 film *Race With the Devil*, in episodic television series *The Six Million Dollar Man* and *The Incredible Hulk* (as David Banner's wife), and in the miniseries *Washington: Behind Closed Doors*. But she'll be best remembered for her portrayal of Angelique, the spurned lover of Barnabas Collins (Jonathan Frid). So devastated by his betrayal and love for Josette du Pres (Kathryn Leigh Scott), Angelique cursed Barnabas. She commanded a bat to bite him, turning him into TV's most famous vampire.

"We met as 'Josette' and 'Angelique' on *Dark Shadows*," Scott posted on Facebook. "That's how many knew us, but we knew each other as friends and confidantes. For more than 50 years, our lives were intertwined through our mutual love of literature, writing and acting. While getting on with the ordinary stuff of life, we sought each other out for encouragement, support and a trusted sounding board. We could not have been more unlike, and therein lay the magic of our enduring friendship. My thoughts are with her family in this sad time of grief and remembrance."

Parker's connection to Angelique and *Dark Shadows* continued throughout her career. She reprised Angelique in the 1971 feature film *Night of Dark Shadows*. She became an author, writing *Dark Shadows: The Salem Branch* (in 2006) and *Dark Shadows: Wolf Moon Rising* (in 2013). In 2012, Parker, Scott, Frid and David Selby (Quentin Collins) made cameo appearances in Tim Burton's *Dark Shadows* film, which starred Johnny Depp as Barnabas.

"I've been recognized everywhere all over the world and in every situation — I still wear my hair the same way," Parker said in an interview with Craig Hamrick in the late 1990s about being spotted as Angelique. "It could be in the grocery store [or] on the ski slope. The last time was in F&S Fabrics in Century City [California] at Christmas. I'm always surprised."

# ASK MATT

## WHEN IS RESIDENT ALIEN COMING BACK?

@TVGMMattRoush

**Question:** What do you know about *Resident Alien's* Season 3 return? –Vee

**Matt Roush:** Though it has been more than a year since Season 2 of the sci-fi comedy concluded in September 2022, this hasn't been a normal year for TV production. And given *Resident Alien's* post-production challenges in a year of industry strikes and production shutdowns, I'd expect we'll see this return sometime in early 2024. (The first two seasons premiered in January.)

**Question:** There are too many game and reality shows which we don't like. Why? Also, why is *Jeopardy!* on twice a day on our CBS station? –Karen

**Matt Roush:** This patchwork fall season is as confusing as it is frustrating. Obviously, if networks could be airing their regular schedule, they wouldn't be falling back on shows like *Buddy Games* and *Loteria Loca*. As for doubling up on *Jeopardy!*, I've received several questions about that this fall – leading me to conclude that more markets are introducing repeats as Daytime *Jeopardy!* into their syndicated lineup, in addition to the first-run episodes that air in their regular time periods.

**Ghosts**

**Series Premiere**

Alison (Charlotte Ritchie) inherits the vast, but crumbling, Button House from a distant relative. It seems the property is haunted by a few neurotic and squabbling ghosts from throughout history who died on its grounds and are only visible to Alison.

**The Haunted Museum**

When his ailing grandfather dies, a teenager finds two vintage puppets in his attic. Once released, the puppets begin to haunt the house, looking for a victim to control. Inspired by a pair of 1800s wooden marionettes that haunted a California doll shop.

## CHEERS TO THE IRRATIONAL

for getting into our heads. NBC's new procedural starring Jesse L. Martin (below) as a hyper-intuitive professor applies proven theories about human behavior to each week's Forensic Psych 101 class and a lively showcase for the *Law & Order* legend!

## CHEERS TO THE GOLDEN BACHELOR

for winning our hearts. Sweetly sincere and perfectly seasoned, 72-year-old Gerry Turner (below) is just what the ABC franchise needs after so many bad

follow Cheers & Jeers

## JEERS TO DANCING WITH THE STARS

for eliminating the Judges' Save in Season 32. After four seasons, ABC has ditched the option that allowed Carrie Ann Inaba (above) and the other judges to rescue the talented low-ranking couples who deserved a second chance, giving fans even more voting power to make it a popularity contest.

## JEERS TO THE MORNING SHOW

for spacing out. We're not rocket scientists, but Bradley (Reese Witherspoon, above) would have needed actual training before going into literal orbit aboard a test rocket owned by Jon Hamm's bazillionaire on the Apple TV+ drama. And where has Nicole Beharie's character been since her huge interview in the third episode?!

## Americans can finally grow thick, lustrous hair

### “This will help your thinning hair and receding hairline in just 30 days” says top US Doctor

*Clinical trials show a new hair loss breakthrough can help both men and women naturally regrow a thick, full head of hair – without drugs, surgery, or side effects*

Thousands are rushing to get a new hair restoration method based on surprising new studies from the University of California.

It is the world's first and only hair loss solution that revives dead hair follicles. And studies confirm it helps men and women regrow a thick, full head of hair, even after years of balding.

Now, with news of this breakthrough spreading like wildfire — the manufacturers are struggling to keep up with overwhelming demand.

That's because, unlike other methods, it is prescription-free, drug-free, and has no side effects. And while hair transplants can cost \$4,000 or more, this new approach costs pennies on the dollar and doesn't involve going to the doctor's office.

Instead, it leverages cutting-edge technology to prevent hair loss, fills in embarrassing bald spots, and **Re-Nourishes** thinning hair — with results you can see and feel in 30 days or less.

As Jeanne F. from San Diego, CA reports: “When my husband began to use this product, all he had on top of his head was fuzz. His hair began to grow after 30 days and now it is about 2 to 3 inches long!”

#### Surprising Truth About Hair Loss

It is commonly believed that hair loss is hereditary.

Unfortunately, most people think there is nothing they can do to stop it. However, while many doctors will tell you that thinning hair, a receding hairline, and bald spots are due to your genetics, this is not the whole story.

“While genetics play a role, it's not the main reason you lose hair,” says Dr. Al Sears, the nation's top anti-aging doctor. “And surprisingly it's not just your age, thyroid, hormones, stress, or a vitamin deficiency, either.”

The latest scientific research reveals that hair loss is primarily

caused by the stem cells in your hair follicles dying.

“This discovery is a true breakthrough because by reviving these stem cells on your scalp, you can stop hair loss dead in its tracks and trigger new hair growth, even in areas that have been thinning for years,” explains Dr. Sears.

Now, at his world-famous clinic, the Sears Institute for Anti-Aging Medicine in Palm Beach, FL, Dr. Sears and his team have used this game-changing discovery to develop a brand-new hair restoration formula that is taking the country by storm.

Sold under the name **Re-Nourish**, it is flying off the shelves with men and women of all ages raving about the results it delivers.

**Breakthrough research proves this discovery helps fill in bald spots, re-nourishes thinning hair, and leads to noticeable growth in as little as 30 days.**

“I have seen a significant improvement in hair growth. Previously, you could see thinning areas at the back of my head and now hair has grown over it,” says Peter W. from Ontario, Canada.

And Susan D. from Fort Pierce, Florida reports, “My hair was thinning. So, I began to use **Re-Nourish** every day on the front part of my scalp. Now I have thicker hair.”

#### Regrows Hair In Just 30 Days

Scientists now know that stem cells are the lifeblood of your hair follicles.

Research from the University of California shows they're the reason you're able to grow hair. However, these stem cells aren't always active. In fact, studies reveal they're only active during certain phases of the hair growth cycle.

“Your hair grows in three phases,” explains Dr. Sears. “First, you have the anagen phase, the hair growing phase. Then the catagen phase, when hair gets ready to shed. And finally, the telogen phase, where your hair is pushed from the follicle and falls out.”

As you get older it becomes harder for your hair follicles to complete this three-phase cycle. The results? Your hairs get stuck in the telogen phase. This is when they start falling out and stop regrowing, no matter what you try.

This process doesn't happen overnight, says Dr. Sears.

“At first, your hair dries out, becoming brittle, thin, and harder to style. Then, you start finding hairs on your pillow and down the drain. Finally, you're left with bald spots that age you prematurely.”

Fortunately, **Re-Nourish** puts a stop to this. It revives the dead stem cells in your hair follicles and reactivates your hair's three-phase cycle, triggering new growth in as little as 30 days — even in areas that've been balding for years.

#### Reawakens Dead Hair Follicles

For years, scientists couldn't figure out why hair follicle stem cells died.

However, a study from the University of California finally found the answer.

It has to do with T-cells — an important immune cell in your body. The researchers discovered these T-cells are the only way to command hair follicles to grow new hair.

More importantly, they showed that T-cells helped revive the stem cells in your hair follicles — spurring new growth, filling in bald spots and natural hairline.

**Re-Nourish** uses a unique blend of all-natural ingredients. By spraying it on your hair once per day, scientific studies show you can revive dead stem cells

and improve the appearance of thicker, fuller hair.

For example, the key nutrient of **Re-Nourish** was tested on a group of severely balding women.

After 6 months, nearly 70% of the women saw significant improvement in hair growth. Their hair was noticeably fuller, thicker, and healthier looking. Most exciting of all, they grew new hair on parts of their scalp that had been bald for years.

In another study, Italian researchers gathered a group of both men and women with thinning hair and applied the core ingredient of **Re-Nourish**. After 12 weeks, they reported a staggering 74% increase in hair growth.

“It's really mind-boggling that my hair started growing back,” says Zan R., another **Re-Nourish** customer.

With results like this, it's no surprise that demand for **Re-Nourish** is soaring. Thousands of men and women are scrambling to get their hands on the limited supply available.

**Re-Nourish** is not currently available in any store at any price. But we've secured a small batch for our readers.
