COPYRIGHT OFFICE - THE LIBRARY OF CONGRESS
WASHINGTON : 1964

Removal of Deposits From Copyright Office

NOTICE is given to authors, copyright proprietors, and other lawful claimants that they may claim and remove before January 1, 1967, any article of the following named classes of published works deposited for copyright between January 1, 1961, and January 1, 1962, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the *United States Code* and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number, and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington, D.C. 20540.

L.C. card 6—35347

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are separately listed at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Current Registrations	Page 1
Renewal Registrations	69

Introduction

PART 11B lists prints and labels, published in connection with the sale or advertisement of articles of merchandise or of services, which were registered in class K under the symbol KK.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants and authors and from variant forms of names. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section. The copyright symbol © following the name under which the entry is listed signifies that the form of name used is that appearing on the application as claimant. The name is not repeated following the copyright symbol © in the entry proper unless it is necessary to record additional information from the application not included in the heading; e.g.:

FARRELL, JAMES EDWARD. ©
Bowl a word, a fascinating word game. © 20Mar63;
KK173383.

FRANKONIA PRODUCTS, INC.
Rambler Classic stationwagon. (License-plated model cars) © Frankonia, a.a.d.o. Frankonia Products, Inc.;
8Jan63; KK171377.

Each main entry for currently registered works includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, amplified if necessary by a brief description of the pictorial content of the work, and followed by any variant title.
- 2) Names of contributors to the work.
- 3) Series statement.
- 4) Special descriptive data, limited to registrations which appeared in a newspaper or periodical, giving the name and issue date of the publication, the number of the page on which the item will be found, and the place of publication, if published abroad.
- 5) Names of authors given in the application which do not appear elsewhere in the entry.
- 6) Name of the employer in the case of a work made for hire, if so named in the application.
- 7) Information contained in the application which relates to the registration of an earlier version of the work.
- 8) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
- 9) Copyright symbol ©.
- 10) Name of the copyright claimant when it is necessary to record information given in the application which is not included in the heading.

- 11) Date of publication as given in the application.
- 12) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Feb63 (in notice: 1962); KK172000.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable.

- 1) Title.
- 2) Copyright symbol.
- 3) Date of original copyright.
- 4) Original registration number.
- 5) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant, e.g., "John Doe & Co. (P)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor.
- 6) Date of receipt of the renewal application or the fee, whichever is later.
- 7) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

a.a.d.o.	accepted alternative designation of
a.k.a.	also known as
appl.	application
©	copyright symbol
d.b.a.	doing business as
NM	new matter
p.	page, pages

(P)	proprietor of a commercial print or label
pseud.	pseudonym
pub.	published, publishing
(R)	renewal registration
rev.	revised
t.a.	trading as
v., vol., vols.	volume, volumes
(W)	widow of the author
(Wr)	widower of the author

Registrations January-June 1963

Commercial prints and labels published in the United States	3,609
Commercial prints and labels published abroad	0
Total	3,609
Renewals	37

These figures represent the number of registrations for commercial prints and labels for January-June 1963, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

COMMERCIAL PRINTS AND LABELS

CURRENT REGISTRATIONS

A list of prints and labels published in connection with the sale or advertisement of articles of merchandise or of services, registered during the period covered by this issue. Arrangement is alphabetical under the name of the copyright claimant. References from the names of joint claimants and authors and from variant forms of names are interfiled.

COPYRIGHT OFFICE - THE LIBRARY OF CONGRESS
WASHINGTON : 1964

Removal of Deposits From Copyright Office

NOTICE is given to authors, copyright proprietors, and other lawful claimants that they may claim and remove before January 1, 1967, any article of the following named classes of published works deposited for copyright between January 1, 1961, and January 1, 1962, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the *United States Code* and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number, and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington, D.C. 20540.

L.C. card 6—35347

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are separately listed at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Renewal Registrations	135

Introduction

PART 11B lists prints and labels, published in connection with the sale or advertisement of articles of merchandise or of services, which were registered in class K under the symbol KK.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants and authors and from variant forms of names. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section. The copyright symbol © following the name under which the entry is listed signifies that the form of name used is that appearing on the application as claimant. The name is not repeated following the copyright symbol © in the entry proper unless it is necessary to record additional information from the application not included in the heading; e.g.:

FARRELL, JAMES EDWARD. ©

Bowl a word, a fascinating word game. © 20Aug63; KK175000.

FRANKONIA PRODUCTS, INC.

Rambler Classic stationwagon. (License-plated model cars) © Frankonia, a.a.d.o. Frankonia Products, Inc.; 8Sep63; KK176383.

Each main entry for currently registered works includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, amplified if necessary by a brief description of the pictorial content of the work, and followed by any variant title.
- 2) Names of contributors to the work.
- 3) Series statement.
- 4) Special descriptive data, limited to registrations which appeared in a newspaper or periodical, giving the name and issue date of the publication, the number of the page on which the item will be found, and the place of publication, if published abroad.
- 5) Names of authors given in the application which do not appear elsewhere in the entry.
- 6) Name of the employer in the case of a work made for hire, if so named in the application.
- 7) Information contained in the application which relates to the registration of an earlier version of the work.
- 8) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
- 9) Copyright symbol ©.
- 10) Name of the copyright claimant when it is necessary to record information given in the application which is not included in the heading.

- 11) Date of publication as given in the application.
- 12) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Aug63 (in notice: 1962); KK174999.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable.

- 1) Title.
- 2) Copyright symbol.
- 3) Date of original copyright.
- 4) Original registration number.
- 5) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant, e.g., "John Doe & Co. (P)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor.
- 6) Date of receipt of the renewal application or the fee, whichever is later.
- 7) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

a.a.d.o.	accepted alternative designation of	(P)	proprietor of a commercial print or label
a.k.a.	also known as	pseud.	pseudonym
appl.	application	pub.	published, publishing
©	copyright symbol	(R)	renewal registration
d.b.a.	doing business as	rev.	revised
NM	new matter	t.a.	trading as
p.	page, pages	v., vol., vols.	volume, volumes
		(W)	widow of the author
		(Wr)	widower of the author

Registrations, July-December 1963

Commercial prints and labels published in the United States	3, 445
Commercial prints and labels published abroad	0
Total	3, 445
Renewals	121

These figures represent the number of registrations for commercial prints and labels for July-December 1963, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

COMMERCIAL PRINTS AND LABELS

CURRENT REGISTRATIONS

A list of prints and labels published in connection with the sale or advertisement of articles of merchandise or of services, registered during the period covered by this issue. Arrangement is alphabetical under the name of the copyright claimant. References from the names of joint claimants and authors and from variant forms of names are interfiled.
