DWL-6610AP

Dual-Band 802.11AC Unified Wireless Access Point

Beamforming technology enables the DWL-6610AP to have even greater reach than its predecessor, allowing even more flexibility in any deployment scenario.

- Blazing performance, reaching up to 1 Gbps of network throughput
- Up to 32 virtual access points may be created using a single access point
- UL2043 certified Plenum rated housing for placement in air passageways
- Flexible Wi-Fi QoS schemes, allowing for controlled and balanced access
- 802.3at Power over Ethernet (PoE) enables installation in hard-to-reach locations
