FOUNDED 60 YEARS AGO by John Shalam, ***VOXX ELECTRONICS CORPORATION*** began in 1965 as Audiovox and has carried on the tradition of innovation for over five decades. For years, we have been the #1 supplier of in-vehicle rear-seat entertainment systems, vehicle remote start & security systems, distracted driver solutions, and telematics in the North American aftermarket. We have a diverse brand and product portfolio, a vast distribution network, and significant manufacturing and engineering capabilities. Today, we are proud to bring to market brands such as: Advent, Audiovox®, Movies2Go, Invision®, ADAS, Prestige, Pursuit, Code Alarm®, Omega, CarLink, and Flashlogic.

With the acquisition of Rostra® and the majority of Directed's automotive aftermarket business, consisting of Viper®, Autostart®, Astrostart®, Clifford®, Python®, Automate®, Avital, and Install Essentials we have become the unquestioned #1 supplier of remote start and security systems, while significantly enhancing our telematics offering. To round out our business we are the exclusive North American distributor of SiriusXM® products as well as Gentex® mirrors. Our focus has always been on innovation and exceeding customer needs.

Through our world-class manufacturing facilities and technology solution centers in Auburn Hills, MI and Orlando, FL, we provide a comprehensive suite of services.

Our 115,000 sq. ft. facility in Lake Nona houses our OEM engineering, quality, manufacturing, supply chain and operations teams, and the majority of OEM production and assembly for our security, keyless entry and remote start systems, as well as our award-winning rear-seat entertainment solutions. Both facilities house design and development, engineering and sales and program management teams, with full test and validation labs to oversee vehicle and systems integration. Throughout each stage, we maintain our international status in quality management systems to supply the very best in product applications to the broadest range of automotive partners all while being ISO 9000, ISO 14001, and TS16949-certified.

Today, ***VOXX ELECTRONICS CORPORATION*** services a distribution network of aftermarket specialists, wholesalers and distributors, consumer electronics & auto aftermarket retailers, car dealerships, and expeditors.

HomeLink®

HomeLink is the most widely used and trusted car-to-home automation system that uses RF and wireless cloud-based transmission to operate gates, garage doors, home lighting, thermostats, locks, security systems, and other compatible home automation devices.

- » **AUTO-DIMMING:** Automatically darkens to eliminate glare
- » **FRAMELESS DESIGN:** Enhanced aesthetics to complement any vehicle interior
- » **CAR-TO-HOME AUTOMATION:** Control garage doors, gates, home lighting, and more
- » **INTEGRATED HOMELINK 5:** 99% compatibility with garage door openers and security gates
- » **COMPATIBILITY:** Compatible with any wedge mount vehicle along with others using adaptors (GENMM1, GENMM2, GENMM3, GENMM4)

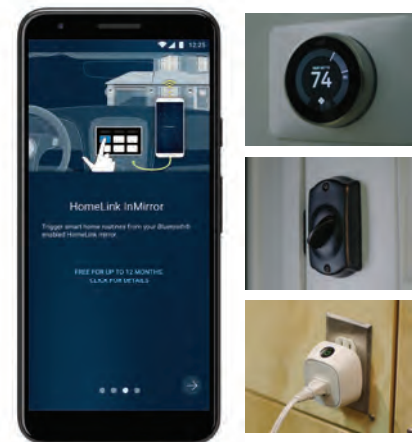

HomeLink Connect™

Drivers can take advantage of cloud-based wireless communication with the HomeLink Connect app — a new home automation app that grants drivers access to an increasing array of cloud-based home automation devices.

Once configured, the app pairs with your Bluetooth-enabled rearview mirror, allowing you to activate compatible home automation devices with your vehicle-integrated HomeLink buttons.

REMOTE START DATA MODULES WITH CUSTOM T-HARNESS

The Flashlogic Data Start Modules with custom t-harness will allow you to remote start vehicles from the OEM keyless entry transmitter to create an affordable "factory like" remote start system, eliminating the need for a traditional remote start system. Please note that some systems require the optional RF kit to control remote start functions. Optional RF kits or Carlink can also be added for increased operating range. For a complete list of vehicle applications go to www.flashlogic.com.

DATA START SYSTEMS

- Enables remote start from factory key fob (3XLOCK) on most models
- Advanced, fully integrated remote start technology
- No need to relinquish or purchase a costly key
- 'Plug & Play' wiring harness for non-invasive installation
- Compatible with long range remote controls and smart phone solutions sold separately
- 3 Year Warranty

FLASHLOGIC TRANSPONDER AND DOOR LOCK INTERFACE MODULES AND EXCLUSIVE DBI PORT ARE THE GATEWAY TO THE VEHICLE'S ELECTRONIC SYSTEM-THE ULTIMATE IN INTEGRATION.

Our Smartphone App or long range transmitter kits can be paired with the FLCAN or Data Start Modules when long range operation is needed.

FLCAN

CAN Door Lock & Transponder Interface with KLon Technology

The FLCAN is a CAN BUS interface control module that has all of our Flashlogic Applications built into one programmable module. The FLCAN also enables remote start from the factory key fob (3XLOCK) for many vehicles. Compatible with long range remote controls and smart phone solutions sold separately. For a complete list of specific vehicle applications, go to www.flashlogic.com.

FLCART

CAN Door Lock & Transponder Interface with KLon Technology - Plug-in Cartridge

The FLCART is a CAN BUS interface control module that has all of our Flashlogic Applications built into one slide in cartridge. This solution allows for a cleaner installation, and is only compatible with Prestige, Pursuit or Code Alarm products with FLCART port. For a complete list of specific vehicle applications, go to www.flashlogic.com.

FLTB1

Transponder Data Interface

Data Transponder interface module that is programmable with specific Transponder Interface firmware from the FlashLogic library.

FLDL1

Door Lock / Convenience with GM & Honda Transponder Interface

Door lock interface module programmable with specific Door Lock firmware from the FlashLogic library. It also controls various convenience features and supports transponder interface where applicable.

ADSTBSLVW1

VW/AUDI Immobilizer Bypass

Web-programmable Immobilizer Bypass for multiple VW/Audi vehicle models from 2006 to present.

FLASHLOGIC by VOXX **ACCESSORIES**

MBTOOL

Mercedes Benz Ignition Switch Removal Tool

This tool allows for easy removal of the Mercedes Benz Ignition Switch for installation of our Mercedes Data Start Remote Start Systems.

KITB

Universal Transponder Interface Kits

Universal Remote Start Transponder Interface with key sense shut-off for most vehicles (key required). New larger case capable of holding larger key-headed transmitters.

FLCL6HAR

ASCL6 to FLCAN Harness

Required when adding the ASCL6 to the FLCAN in a stand alone FLCAN 3X lock to start application for Smartphone Control.

CADATA

RF to Data Converter

Required when adding Code Alarm transmitter kits to the AS9234E, FLCAN or FLRS Data Start Systems. The CADATA is NOT required for the Flashlogic FLRSBA system, and is NOT compatible with Prestige or Pursuit transmitter kits.

MBS

The MBS is a compact Multi-tone siren designed for vehicles with limited space in the engine compartment. The built-in Back Up battery provides additional protection to your vehicle in the event the vehicle's battery becomes disconnected or discharged.

DA1

Single Door Lock Actuator. Standard 2 wire door lock actuator for adding power door locks to most vehicles.

DA2

Clutch type heavy duty Door Lock Actuator

PROPDL45

Four Door Heavy Duty Power Door Lock Kit. Includes everything you need to add power door locks to a four door vehicle.

DLRKP

Door Lock Relay Kit. Pre-wired door lock relays designed for easy, time saving installations.

NCTM

Simplifies door trigger connections on Ford, Lincoln and Mercury vehicles. 5 Normally closed trigger inputs. 1 Negative Trigger output. Connect to trailer wiring and detect trailer disconnect. Small compact housing - 55mm x 35mm x 13 mm.

AS9903E

Ultra Mini Alarm Siren.

PROPDA1

Single Door Lock Actuator. Deluxe 2 wire door lock actuator for adding power door locks to most vehicles.

PROPDL25

Two Door Heavy Duty Power Door Lock Kit. Includes everything you need to add power door locks to a two door vehicle.

CLBK

Cable Lock Bracket Kit. Interfaces with door actuator and cable operated latch mechanism to provide door lock / unlock operation.

DLVI

Door Lock Voltage Inverter. Converts a negative input to a positive 1A output. Ideal for switching a (-) alarm door lock / unlock output to a (+).

DTD11

Door Trigger diode interface

DUB1

The DUB1 Digital Tilt Sensor is activated by the armed output of your vehicle's alarm system. Once activated, the DUB1 integrated microchip nanomechanics and a digital signal processing micro-processor to instantly and continually analyze all pitch, yaw and motion data. The result is a tilt sensor that, regardless of conditions, detects less than one degree of lifting or any motion of the vehicle without error.

CAGBS

The CAGBS provides protection against entry to the vehicle when the security system is armed by detecting the breaking of vehicle glass. The remote microphone is designed to analyze the frequency of breaking glass to eliminate false trigger conditions.

AS9492A

Dual Stage Piezo Shock Sensor. This dual stage sensor sounds the siren on "light touch" impact to the vehicle and instantly triggers the security system upon a harder "full" impact.

ASRLY

30/40 AMP S.P.D.T. Relay

MRLY

20 AMP Mini Relay. The MRLY is designed for low current applications.

AVXDATA

RF TO DATA CONVERTER

Required when adding any NON "Z" series Prestige/ Pursuit transmitter kits to the AS9234E, FLCAN or FLRS Data Start Systems.

MV3

The MV3 is the most reliable vehicle intrusion sensor on the market today. Detects moving objects within the vehicle using a unique RF technology. Ideal for convertibles.

AS94954P

Dual Stage infrasonic shock sensor. This dual stage sensor sounds the siren on "light touch" impact to the vehicle and instantly triggers the security system upon a harder "full" impact

CPT2

ADD ON INTERIOR THEFT & DIGITAL TILT SENSOR

The CPT2 sensor picks up where your factory (OEM) security sensor leaves off. If you don't know, most OEM security systems simply offer a device that prevents the vehicle from starting, and does little to protect the contents, wheels & tires and your personal belongings.

ASRLYH

Universal 5 wire relay socket with 12" wires. 5-pack - Price is for a package of 5.

CADATA

RF TO DATA CONVERTER

Required when adding Code Alarm transmitter kits to the AS9234E, FLCAN or FLRS Data Start Systems. The CADATA is NOT required for the Flashlogic FLRSBA system, and is NOT compatible with Prestige or Pursuit transmitter kits.

PBLED

Push button LED / valet button / combination blue LED light and valet switch designed for quick, easy accessibility.

1361287

Remote start valet toggle switch.

ASWRP

The ASWRP allows the operation of two windows in both directions. The system also can roll up two power windows when the security system is armed. Windows can also be vented or rolled down completely by remote control.

VEPROG

Computer programming tool used for feature programming on compatible Prestige / Pursuit "E" Series models and Code Alarm "5" Series Models. Also Includes harness to update the Code Alarm CADATA.

FLPROG

FlashLogic Programmer / Updater

FlashLogic PC to Module USB interface cable. Required to program / upgrade FlashLogic transponder/ door lock interface kits, and new Prestige/Pursuit "z" series models.

CAVL1

Module to program the CASEC, CARS or CASECRS component module when not using a transmitter kit.

PRLED

Push button LED / valet button / combination red LED light and valet switch designed for quick, easy accessibility.

1541090

Push button valet / override switch.

CAVHAR

Interface cable to program / update the Code Alarm CADATA using the VEPROG.

LCHAR

Low Current 22GA 6 Pin Remote Start Harness. Some new vehicles today are using smaller gauge wires at the ignition switch, and trying to connect a 14GA wire can be a hassle. Compatible with most Code Alarm models that use the 6 Pin Starter Harness.

ENHANCE YOUR DRIVING EXPERIENCE WITH THE ULTIMATE IN COMFORT AND WARMTH

These SEAT HEATER SYSTEMS can be installed in most vehicles to add warmth and comfort to either cloth or leather seats. They do not change the look of the seat and includes everything you need for one vehicle seat. All of our seat heaters come with a 3 Year Nationwide Travelers Warranty, or 4 Years if installed at a New Car Dealer.

REPLACEMENT GUIDE

The following transmitter replacement guide has been developed to guide you through the various replacement transmitters. Each section has been broken down into Group Types, any transmitter within these groups are interchangeable with each other. The transmitters marked "obsolete" are no longer available and should not be ordered. Please note, the transmitters shown on the following page, Transmitter Cross Reference Chart, are the actual transmitters that came with the kit shown. A specific transmitter may now be obsolete or discontinued and replaceable with a similar transmitter within the same "type" section.

We supply our products to a diversified customer base consisting of automotive OEMs, specialty CE-retailers, mass merchandise and power retailers, 12-volt specialists, and other commercial entities.

We hold market-leading positions across many categories within our Automotive Electronics and Consumer Accessories segments. For years, we have been the #1 provider of rear-seat entertainment systems and believe we are the #1 supplier of vehicle security and remote start systems to domestic OEMs and to the automotive aftermarket. We are the #1 premium loudspeaker company in North America and believe we are the #1 supplier of antennas and TV remote controls at retail (also in North America). Our other brands typically hold top 5 or top 10 market positions within the categories we operate.

Vision Zero Automotive Network is a 501(c)(3) non-profit entity dedicated to educating and encouraging the saving of lives through the addition of life saving technologies in existing vehicles.

VOXX International and all of its family of brands are committed to helping save our environment. To that end, all printed materials produced by us are printed on recyclable paper using only biodegradable ECO friendly coatings. We use soybean rather than petroleum based inks. Our printing presses have "Purge on Press" capability; use no alcohol and therefore result in no vapor pollutants in the air.

IMPORTANT SAFETY NOTICE

It is unlawful in most jurisdictions for a person to drive a motor vehicle which is equipped with a television viewer or screen that is located in the motor vehicle at any point forward of the back of the driver's seat, or that is visible, directly or indirectly, to the driver while operating the vehicle. This product should only be installed to the rear of the back of the driver's seat where it will not be visible, directly or indirectly, to the operator of the motor vehicle. In addition, the state of Rhode island forbids the installation of such a device in a motor vehicle.
