IN CASE OF EMERGENCY CALL X3333

DIRECT INWARD DIALING

The telephone systems listed below have a special feature called Direct Inward Dialing. Outside callers can reach you directly (without switchboard assistance) by dialing a three-digit prefix plus your extension.

Location and Telephone System:	Dial:	
Beaverton Campus	AT&T	627 – Extension
Walker Road	Danray	629 – Extension
Wilsonville	AT&T	685 – Extension
Twin Oaks	Mitel	690 – Extension

Prefixes are the same for Direct Inward Dial as Interplant Calls. Interplant callers should use appropriate access digits as indicated on the back cover of the Communications Directory.

NOTE: Forest Grove (F-1) does not have Direct Inward Dialing available.

PLEASE USE THE NETWORK SERVICES REQUEST FORM FOR ALL SERVICES

(TELEPHONE, DATA, BROADBAND, X.25, VOICE MAIL and EQUIPMENT)

Installing or relocating telephone or data lines requires a detailed map be submitted with this request.

Prior to submitting this request, it is essential you notify Building Management when **relocating** or **installing** lines to ensure any required Facilities work is scheduled.

If someone other than the requestor is to be notified, please include that person's name, telephone number and mail stop as the requestor.

The requestor will be notified of order number and scheduled date once Network Services has processed the request. **Changes will not be made to a schedule order.** If changes must be made, the order will be rescheduled.

Please list alternate contact in case requestor is unavailable at time work is to be done.

USE THE DIRECTORY COPY AS YOUR COPY MASTER.
