## Our History

When you trace it all the way back, it comes down to three individuals: Frederick Stanley, Duncan Black, and Alonzo Decker.

For 175 years, we've been proud to continue their legacies and proud to carry their names forward.

Frederick Stanley

In 1843, Frederick Stanley started a small shop in New Britain, Connecticut to manufacture bolts, hinges, and other hardware from wrought iron. With superior quality, consistent innovation, and rigorous operational improvement, Stanley's company defined excellence, and so did his products.

Duncan Black and Alonzo Decker

In 1910, S. Duncan Black and Alonzo G. Decker started their shop, similar in size at first, in Baltimore, Maryland. Six years later they changed the world by obtaining the world's first patent for a portable power tool, and the company they built has been changing the world ever since.

Both companies grew in parallel over the ensuing decades, amassing an unparalleled family of brands and products and an even more impressive wealth of industry expertise.

In 2010, the two companies combined to form Stanley Black & Decker, Inc. to deliver the tools and solutions that industrial companies, professionals, and consumers count on to be successful when it really matters.

Today we continue to build on the momentum of outperformance on which we have built our reputation, propelling Stanley Black & Decker into future centuries with breakthrough innovation, a passion for our end-users, and an unparalleled operations infrastructure driving world-class customer fulfillment.

## Our Numbers

- 1843: STANLEY® is Founded
- #1 in Tools and Storage
- #2 in Commercial Electronic Security
- #2 in Engineered Fastening
- 52,000+ Employees in 50 Countries
- 500,000 Products
- 150 Million Shares Outstanding (NYSE)
- 140+ Years of Consecutive Dividend Payouts
- 13,000+ Registered and Active Global Patents

## A Globally Recognized Leader

“ We see a great and growing need for responsible businesses on the global stage, and we intend to be a leader in this respect. ”

**Jim Loree**  
President and CEO  
Stanley Black & Decker, Inc.

## Our ECOSMART™ Advantage

ECOSMART signifies our commitment to a sustainable future and is embedded in everything we do, across our entire value chain. We continue to improve the sustainability of our operations, our products and our communities while helping our suppliers and our customers to do the same. This value has led to consistent recognition as a standout company with respect to our environmental, health and safety practices.

1843

Frederick Trent Stanley founds The Stanley Works, a small factory making bolts and hinges.

1865

James Sargent and Halbert Greenleaf become partners and establish a manufacturing facility to make high-security locks for safes, vaults, and SCIFs.

1906

PORTER-CABLE® founded by R.E. Porter, G. G. Porter and F. E. Cable to manufacture power lathes for woodworkers.

1915

LENOX® American Saw was founded by John Swanson, Carl Ericson, and Carl Davis to manufacture Hacksaw Blades in Springfield, MA.

1917

Black & Decker acquires patent for the pistol grip and trigger switch on its drill.

1920

The Stanley Works & The Stanley Rule & Level Company merge to become a powerhouse in both hand tools and hardware.

1924

Raymond E. DeWalt invents the radial arm saw and founds his namesake company DEWALT INDUSTRIAL TOOLS.

1931

STANLEY® introduces the STANLEY® Magic Eye, the world's first swinging automatic door operator.

1938

The Mechanics Tools and Forge Company is founded to manufacture the finest tools in the world, and would become Mac Tools®.

1957

Black & Decker enters the outdoor market with the first electric lawn edgers and hedge trimmers designed for consumers.

1961

Black & Decker introduces the world's first cordless electric drill powered by nickel-cadmium cells.

1962

Vidmar® cabinets become part of the first photocopiers made by Xerox Corporation.

1963

STANLEY® introduces the iconic PowerLock Tape Measure.

1966

The Stanley Works is officially listed on the New York Stock Exchange as SWK.

1968

Lista® establishes U.S. operations to manufacture high-quality custom storage systems.

1979

Black & Decker introduces the DustBuster®, the world's first handheld vacuum.

1980

STANLEY® designs and fabricates Platform Screen Doors for Orlando International Airport.

1992

CribMaster is established as a software company under the name WinWare.

1998

CribMaster introduces its first industrial vending solution into the market.

2006

HSM is added to the STANLEY® Security business to provide advanced monitoring capabilities.

2010

The Stanley Works and Black & Decker merged to become the world's largest tools and storage company, the world's second largest commercial electronic security business and the world's second largest engineered fastening company.

2011

CribMaster inventory and asset management solutions added to Stanley Black & Decker's growing advanced technology portfolio for industrial environments.

2013

Stanley Black & Decker adds Infastech to its Engineered Fastening Business, growing its presence in the electronic fastening market.

2016

DEWALT launches FLEXVOLT, a highly innovative voltage-changing battery and a lineup of groundbreaking 60V MAX\* and 120V MAX\* tools.

## A FORMIDABLE LEGACY.

1857

Frederick Stanley's cousin, Henry Stanley, founds the Stanley Rule & Level Company to manufacture measuring and layout tools.

1885

Charles Irwin patented the auger bit and formed the IRWIN Auger bit company.

1896

Thomas Briggs founds The Boston Stitch Wire Company (BOSTITCH®) to manufacture industrial staplers.

1907

Proto Tools is founded, making chisels and punches from the axles of Model T automobiles.

1910

S. Duncan Black & Alonzo G. Decker found Black & Decker in a small shop dedicated to manufacturing the world's first portable power tool.

1918

Louis Moses founds the Société Franco-Américaine de Construction d'Outils Mécanique (Franco-American Mechanics' Tool Production Company). It would subsequently be known by its initials: FACOM.

1930

Proto® introduces the first line of combination wrenches to the market.

1933

CRC-Evans founded as a leading oil and gas pipeline contractor.

1958

Weidemar cabinets begin manufacturing in the United States under the name Vidmar®.

1962

Black & Decker introduces the world's first cordless outdoor product, a cordless hedge trimmer.

1964

Sonitrol® is founded, with an integrated audio sensor designed by a police officer.

1974

STANLEY® begins its longstanding partnership with Habitat for Humanity, which has grown into one of the world's largest nonprofit homebuilding organizations.

1975

STANLEY® introduced their first automatic sliding entrance door.

1985

InnerSpace® begins providing supply/procedure carts cabinets and casework, small carts open storage, heavy-duty storage, and inventory management systems to medical facilities around the world.

1996

CribMaster introduces its first inventory management software platform into the market.

1998

Inspired by the design of the computer mouse, the easy-to-use and ergonomic Black & Decker Mouse® Sander is launched.

2004

CribMaster introduces its first RFID point-of-use solution into the market.

2008

Building on 100 years of quality tool craftsmanship, PORTER-CABLE® launches a new line of professional grade power tools for the tradesman.

2011

STANLEY® continued to grow its security businesses by expanding into Europe with its acquisition of Niscayah.

2012

Powers® Fasteners, a worldwide pioneer in the fastening industry and leading supplier of masonry anchors and fastening systems in North America, was acquired by Stanley Black & Decker.

AeroScout

AeroScout® end-to-end location and telemetry solutions added to Stanley Black & Decker to further expand its growing suite of advanced tool and asset tracking systems.

## A POWERFUL FUTURE.

# STANLEY®

## PERFORMANCE IN ACTION™

Since 1843, we've provided the tools that built and repaired the world. Today, every true professional is equipped with STANLEY® tools because they deliver industry-leading innovation, precision, safety and strength.

### CONSTRUCTION

Performance on the job site. STANLEY® Tools deliver innovation where it matters. Whether it makes a job easier or faster, we're consistently improving on the industry's best.

### INDUSTRIAL AND AUTOMOTIVE REPAIR

Performance in the garage. With a limited lifetime warranty on some of the strongest forged tools in the world, STANLEY® extends our legacy of innovation into a comprehensive line of mechanics tools.

### STORAGE

We believe innovation should apply not only to your tools, but also to how you carry and store them. That's why we offer storage that is waterproof. Light-weight. Stack-able. Rack-able. Lock-able. Roll-able. Whatever your needs, STANLEY® offers tool storage for you.

# DEWALT®

## GUARANTEED TOUGH.®

Nothing means professional like DEWALT®. We are the world's leading provider of tools and equipment designed specifically for the construction professional and tradesman, with good reason. When the world's professionals need to get the job done, they reach for DEWALT®.

### PROFESSIONAL POWER TOOLS

It is our mission to deliver the best performance on the toughest job site conditions. So we make our DEWALT® Power Tools smaller, yet more powerful, lighter, yet longer lasting and stronger.

### HAND TOOLS AND STORAGE

DEWALT® hand tools and storage systems are built to withstand the most punishing jobsites. Professionals rely on our products to provide performance in every circumstance, and we're proud to say that we deliver.

### ACCESSORIES

To keep power tools performing their best, smart users choose accessories manufactured to DEWALT's exact specifications. From drilling and screwdriver bits to saw blades, abrasives, and hammer bits, our accessories are as tough as our tools.

[WWW.DEWALT.COM](http://WWW.DEWALT.COM)

# BLACK+DECKER™

BLACK+DECKER™ makes a house your home. Whether that's as simple as brewing a cup of coffee or as advanced as installing a new ceiling fan, BLACK+DECKER™ products empower you to do more.

### POWER TOOLS

We invented the portable power tool and we've been empowering the homeowner to conquer projects ever since. From inspiration to a job well done, BLACK+DECKER™ tools provide a lifetime of proud moments.

### LAWN + GARDEN

Curb appeal, delivered to your door. Cut, trim, edge, sweep, and more. Make your yard as inviting as your home.

### HOME CLEANING

From the DustBuster® to the Steam-Mop™, BLACK+DECKER™ has the innovative cleaning technology to ensure your home stays clean from top to bottom. Whether it's a quick pick-up or a deep clean, you can rely on BLACK+DECKER™ to get the job done.

### SMALL APPLIANCES

From coffee makers + toaster ovens to juicers + irons, BLACK+DECKER™ appliances help keep your life moving.

### Extending Capabilities of Tradesmen

At IRWIN®, our end-user obsession and world-class product development enables us to develop high quality hand tools and accessories that never let users down. And we don't just focus on the tool; we understand professionals and the difference they make in society. That is why we created National Tradesmen Day, a national day of recognition to honor the hard-working men and women who build the world around us and keep it running strong.

#### Hand Tools

IRWIN is recognized as a global leader in hand tools with category-leading products like VISE-GRIP® locking pliers and QUICK-GRIP® one-handed bar clamps. Day in and day out professional tradesmen depend on these and our other top-performing hand tools to get the job done.

#### Power Tool Accessories

Beginning in 1885 with our first auger bit, IRWIN has been at the forefront of the industry, creating new products and powerful brands. From SPEEDBOR® spade bits to MARATHON® saw blades, IRWIN continues to provide the accessories professionals depend on to overcome the toughest jobsite challenges.

## A CUT ABOVE

Just like the tradesmen who use our tools, LENOX® is an established leader who is driven to succeed through unmatched category knowledge and unrivaled cutting performance. For over 100 years, LENOX has built its legacy by leveraging product and manufacturing innovation to help professionals separate themselves from the pack.

### Industrial Saw Blades

LENOX band saw blades cut faster and last longer to make our customers' operations more competitive. When you combine the highest performing blades with our industry leading technical expertise, our users spend more time cutting and less time changing blades.

### Power Tool Accessories

LENOX delivers superior products that are guaranteed to cut through the toughest materials. From reciprocating saw blades to hole saws, LENOX draws on a century of expertise to establish the gold standard in cutting, helping professionals unlock their full potential and deliver work that stands out on the job.

## Retool and Conquer

At hilmor®, we're revolutionizing the HVAC/R world by creating tools that are a step ahead. Every tool we make is designed to give you all the features you need and none of the ones you don't. We're determined to deliver smart, innovative solutions when and where you need them most hilmor ensures you'll be fully equipped to retool and conquer.

### Tube Working Tools

Copper tubing is the artery of an HVAC/R system. And bending, flaring and swaging it is a jobsite necessity. Unfortunately, so are the headaches that come with it. Not anymore. hilmor Tube Working Tools are intelligently designed to give you more power and more control, resulting in precise bends and flares you're proud to show off. Convenience and comfort both come standard throughout hilmor's full line of bending, flaring and swaging tools.

### Manifolds & Gauges

Manifolds operate as your sidekicks on every job. They need to be durable. They need to not leak. They need to excel in even the most extreme conditions. The hilmor line of Manifolds is ready to be put to work with rugged gauges and durable construction. The list of features goes on and on, but the one that matters most is their ability to withstand all the pressures you encounter — day in and day out.

### Service Equipment

When it's time to service HVAC/R systems, the pile of tools needed can really add up, requiring multiple trips to the truck. hilmor's Vacuum Pumps feature hoist points for hands-free carry and our Valve Core Removal Tools have an integrated magnet for on-the-job storage. These tools have been retooled to make system evacuation as easy as possible.

[hilmor.com](http://hilmor.com)

# BOSTITCH®

As the inventor of much of the pneumatic fastening technology that you see on the job site today, we constantly challenge ourselves to get better.

## CONSTRUCTION & INDUSTRIAL

Demanding job sites require powerful fastening tools, and BOSTITCH® is up for the challenge. From heavy-duty industrial assembly to residential roofing, BOSTITCH® has the professional pneumatic or cordless fasteners that professionals trust.

## HANDTOOLS & POWER TOOLS

We've transferred our history of innovation into a new line of hand tools and power tools that are strong enough to carry the BOSTITCH® name. These innovative and durable tools are ideal for anyone's toolbag.

## FASTENERS

Sometimes the secret to success is in the least likely of places. While our pneumatic tools are packed with innovation, our nails and staples are specifically designed to make jobs fast and easy; we've even got nails that can help minimize hurricane and earthquake damage to your home.

## GREAT TO WORK WITH™

MacTools® is an industry leader in products and services for professional technicians, delivering products against which all others are judged. We pay meticulous attention to serving both our end-users and franchisee's needs by delivering the tools that define quality, selection, and support.

### AUTOMOTIVE TOOLS

We specialize in the professional mechanic's garage, and we've got the comprehensive line of automotive tools to prove it. From wrenches and ratchets to diagnostics and shop equipment, a true professional can find everything in one place.

### STORAGE

MacTools® toolboxes are more than highly durable, functional steel boxes, with high-end features like no-skid drawers liners and synchroglide drawer retention systems. They're veritable works of art, and the symbol of a true professional.

### POWER TOOLS

Powered by DEWALT's advanced battery and switch technology, our automotive power tools offer power and productivity that no other tools can. We've got best-in-class ergonomics and special features like anti-marring bumpers to protect the vehicle you're working on.

[WWW.MACTOOLS.COM](http://WWW.MACTOOLS.COM)

Three miles down in the earth at the bottom of a coal mine. An oil rig in the Indian ocean. Our customers work tough industrial jobs in extreme environments and the impact of injury or work stoppage can be catastrophic and costly. That's why they demand highly durable and safe tools.

**TOOLS**

Proto® provides customized master sets of tools so that professionals always have the right tool for the right job. Our comprehensive line of tools for some of the world's toughest industries means there's always a set with a range of tools that meets any professional's requirements.

**INDUSTRIES**

Proto® goes where most tools are afraid to go. You'll find us on oil rigs, in mines, in a hangar, or power plant. Where things like precision, durability and safety truly matter, that's where you'll see Proto®.

**SAFETY**

Proto® Tethered Tools Systems are designed to protect workers from the potential dangers of unsecured tools while allowing them to perform efficiently in any job capacity. With just a few simple steps, various wrenches, hammers, screwdrivers, punches, chisels, and hex keys can be retrofitted for use at height or in work areas requiring foreign material exclusion (FME).

WE ARE  
**INDUSTRIAL STRENGTH.**

WE ARE  
**SAFETY OBSESSED.**

WE VALUE  
**OUR HERITAGE.**

For nearly 100 years FACOM<sup>®</sup> has set the standard for quality and innovation in Industrial and Automotive repair tools. As a leading hand tools brand in Europe, FACOM<sup>®</sup> is fueled by a mission to help industrial professionals improve their performance and the quality of their work.

**FACOM<sup>®</sup> WARRANTY**

Backing up its quality, FACOM<sup>®</sup> offers a free replacement or repair warranty without any time limit.

[WWW.FACOM.COM](http://WWW.FACOM.COM)

**AUTOMOTIVE**

The company that invented the adjustable spanner wrench has continued to make an indelible impact on the world of automotive repair. Known for their durability and innovative features, FACOM<sup>®</sup> tools have helped professional mechanics consistently improve their abilities for decades by fulfilling their promise to be the highest quality, most innovative tools with the best service in the industry.

**AEROSPACE**

As aerospace technology grew in parallel with the automotive industry, FACOM<sup>®</sup> kept pace with groundbreaking tools and unequalled expertise. Today, FACOM<sup>®</sup> is partnered with the world's leading airline and aerospace manufacturers to deliver the unique solutions that professionals demand.

**FOD SOLUTIONS**

Foreign Object Damage (FOD) causes more than \$11 billion in damage every year. FACOM's proprietary RFID technology helps control FOD by helping locate lost or forgotten tools in an airline hangar or a mechanics garage. Automated detection and traceability make safety and productivity the priority on any job.

## STORAGE AND WORKSPACE SOLUTIONS

Whether you work in a manufacturing facility or a hospital, your storage and workspace has to function at peak efficiency. Lista® and Vidmar® products are built around your specific needs.

Lista® and Vidmar® products serve multiple industries including Government and Military, Automotive, Medical, Institutional, and Industrial just to name a few, and have over 120 years of combined experience in the storage and workspace solutions industry.

### MODULAR CABINET SOLUTIONS

When choosing a modular cabinet, think first about the space you are in and we'll do the rest! A Storage & Workspace Systems Territory Sales Manager will work with you to identify the best cabinet for your needs.

### WORKSTATION SOLUTIONS

Custom-configure your Lista® or Vidmar® workstation to the exact setup that will best suit your heavy-duty day-to-day needs! You choose your cabinets, drawers, work surfaces, and accessories—you can always add on to your workstation when expansion becomes necessary.

### SPECIALTY SOLUTIONS

What do casinos, museums, and your home garage have in common? The need for workspace solutions that work hard. When it comes to configurability, productivity, security, and optimization of every square inch, Lista® and Vidmar® are the industry leaders.

Engineered Fastening

From automotive assembly and industrial construction to computers, mobile telecommunications and appliance manufacturing, we deliver the right engineered fastening and assembly solution, every time. We partner with some of the world's leading manufacturers to develop unique, customized solutions for the most complex fastening and assembly challenges in the world.

## INDUSTRIAL

Fasteners are everywhere, and when they're done right, you don't even think about them. From solar panels to implantable pacemakers, our solutions are integral to more of life's essential products than you realize.

## AUTOMOTIVE

Inside and out, automobiles of all styles and purpose benefit from high-performance fastener and assembly solutions from STANLEY® Engineered Fastening. When a vehicle needs to run at peak performance, it needs the power of STANLEY® Engineered Fastening equipment.

## ELECTRONICS

The fasteners and assembly systems that hold together today's smart phones, tablets and laptops are no less sophisticated than the systems we build for cars and airplanes; they're just a bit smaller. We create the standards and innovations that enable cost effective, enhanced product performance in consumer electronics devices, telecommunications and networking equipment.

# CRIBMASTER

CribMaster is the leader in advanced technologies for inventory and asset management in industrial environments. Our solutions provide real-time intelligence to ensure that the right assets go to the right workers at the right time, reducing operational costs, increasing productivity and improving safety compliance.

## TECHNOLOGY THAT DRIVES RESULTS

Driving every CribMaster solution is a powerful software platform that provides real-time visibility into indirect material usage across manufacturing facilities and enables optimal inventory control.

## FLEXIBLE SOLUTIONS THAT MEET BUSINESS NEEDS

To provide workers with continuous access to a wide range of inventory and ensure safety compliance, CribMaster's comprehensive portfolio of vending machines and asset management technologies can be configured to meet the business needs of each manufacturing environment.

## PARTNERING WITH OUR CUSTOMERS

CribMaster develops long-term partnerships with customers to plan, design, configure, implement, operate, and manage each CribMaster solution. Our team is comprised of industry-specific experts with extensive, real-world experience.

## Infrastructure

When you need to demolish and rebuild a high-traffic on-ramp to one of the world's busiest bridges in 24 hours or deconstruct a historic baseball stadium without causing peripheral damage, STANLEY® Hydraulic Tools are the right solution.

STANLEY® Hydraulic Tools produces an extensive line of products for use in construction, demolition, scrap processing, recycling, utilities, municipalities, railroads, industry, landscaping, underwater construction and specialty trades. Today we offer dozens of tools that can operate dependably off a single power source and professionals around the world are turning to the power of STANLEY® Hydraulic Tools for their most powerful jobs.

LaBounty® heavy duty attachments are made to handle the world's toughest construction, demolition and scrap metal recycling projects. Located in Two Harbors, Minnesota, LaBounty® produces shears, concrete pulverizers, and universal processors that crush and devour reinforced concrete, slice through steel reinforced bars and operate in tight corners and crevices with surgical finesse. Pairing the LaBounty® shears with Horst Sprenger blades and accessories provides the ultimate performance.

Precision engineered to the most exacting standards, the Dubuis line of tools – more than 1,000 products in all – serves special application needs in industries as diverse as aerospace, electrical and rail.

The world's pipelines count on STANLEY® Oil & Gas to get the job done. Our onshore and offshore pipeline equipment and services ensure higher quality welds and lower downtime from start to finish. STANLEY® Oil & Gas delivers the infrastructure and resources needed to serve pipeline contractors anywhere on earth.

**ONSHORE**

STANLEY® Oil & Gas helps customers around the world build better pipelines and reduce costs with our proprietary, world's-best beveling and welding technology and our highly-skilled, safe and productive workforce.

**OFFSHORE**

Our offshore experts have developed cutting edge technology that directly addresses the enormous challenges of building offshore pipelines. Our innovative equipment has enabled us to tackle the world's most difficult projects, including welding more than five miles of complex pipe and loading it onto a barge from our own mobile spoolbase.

**COATING**

Each of our coating methods, which protect and insulate the pipes, is highly specialized yet consistent in that it conforms to our goal of providing a high speed, efficient joint coating application.

**INSPECTION**

Our expertise in the area of quality assurance is unrivaled, and our inspectors now stand ready around the world, armed with the strong expertise and advanced equipment to help you meet your productivity goals.

Security

## COMPLEXITY MADE SIMPLE

STANLEY® Convergent Security Solutions is all around. Throughout schools, hospitals, government facilities, retail stores, financial institutions and more. Why? No other company delivers solutions, services and monitoring like STANLEY®. When you choose to partner with us, we'll evaluate your needs and develop an integrated solution that brings together the best products for your environment. The result is an integrated and holistic solution that is intuitive to use, monitor and support.

### COMMITTED TO MEETING YOUR NEEDS

Whatever your security needs are, from intrusion, video, access, fire and integration, we'll provide a comprehensive security consultation and then design, install and maintain a proactive, forward-thinking solution that exceeds your expectations.

### REAL - TIME EFFICIENCY

Our eServices™ allows real-time visibility on all your security systems via a secure web-based portal. Imagine improved efficiency, business intelligence and security insight so you know what's going on even when you're gone.

### THE PEOPLE - THE PROGRESS

In our technological world, people still make the difference. Our professionals deliver an unwavering commitment to customer response, service and satisfaction 24/7, whenever you need us.

SARGENT AND GREENLEAF®

## TAKING HIGH SECURITY EVEN HIGHER

In 1860 the U.S. Treasury adopted James Sargent's Magnetic Bank Lock as its standard. Over 150 years later, Sargent & Greenleaf® continues to be the go-to resource for securing the most sensitive environments and valuables. Sargent & Greenleaf® leads not only with the most innovative locking systems, but with responsive technical support.

### GOVERNMENT SOLUTIONS

Sargent & Greenleaf® has long been a trusted global partner for governments. We empower personnel and defense contractors with advanced mechanical and electronic solutions. The result? Security for high-level environments such as military bases and foreign embassy SCIFs—where breach is not an option.

### COMMERCIAL SOLUTIONS

Sargent & Greenleaf's reputation in the commercial industry is rock solid. For years, we have been helping a broad range of establishments such as banks, cash-in-transit, retail, pharmacies and utilities. Wherever the highest security is a necessity on safes and vaults, odds are you will find a Sargent & Greenleaf® lock protecting the contents.

## ACCESS TECHNOLOGIES

The inventor of the automatic door is still the leader. Since 1931, our heritage, large geographic footprint, passion for innovation and low total cost of ownership make STANLEY® Access Technologies the North American industry leader in automatic doors.

### OUR TECHNOLOGY

We've come a long way since we introduced the first automatic door. Advances in technology and value-driving innovation form the backbone of our business, and we haven't stopped enhancing the automatic door since. That's why our customers are some of the world's largest retailers, airports and transportation centers in the world.

### OUR PEOPLE

In addition to manufacturing the finest automated doors in the industry, STANLEY® Access Technologies offers comprehensive service and maintenance programs that are customizable to meet the needs of your business or organization. We take pride in our role as the original manufacturer of automatic doors, and we have remained the recognized leader in the industry through dependability, visionary thinking and constant innovation.

## RETAIL SOLUTIONS

In any retail environment, the main focus of a security system is to prevent loss due to theft, returns and errors. But what if your security solution could do more? What if it could provide real-time people counting, remote services and video monitoring? STANLEY® is taking security to the next level, leading the way with innovative advances in big data and analytics, providing unparalleled visibility into your organization's activities and operations and delivering real savings to your bottom line.

### RETAIL INSIGHTS™ ANALYTICS

Cutting-edge analytics software solutions, dashboards and reporting pull together data from multiple disparate systems including video analytics, EAS, intrusion, weather, POS and more onto a single dashboard. Report on key metrics for any retail operation, creating actionable intelligence across all locations to optimize business performance.

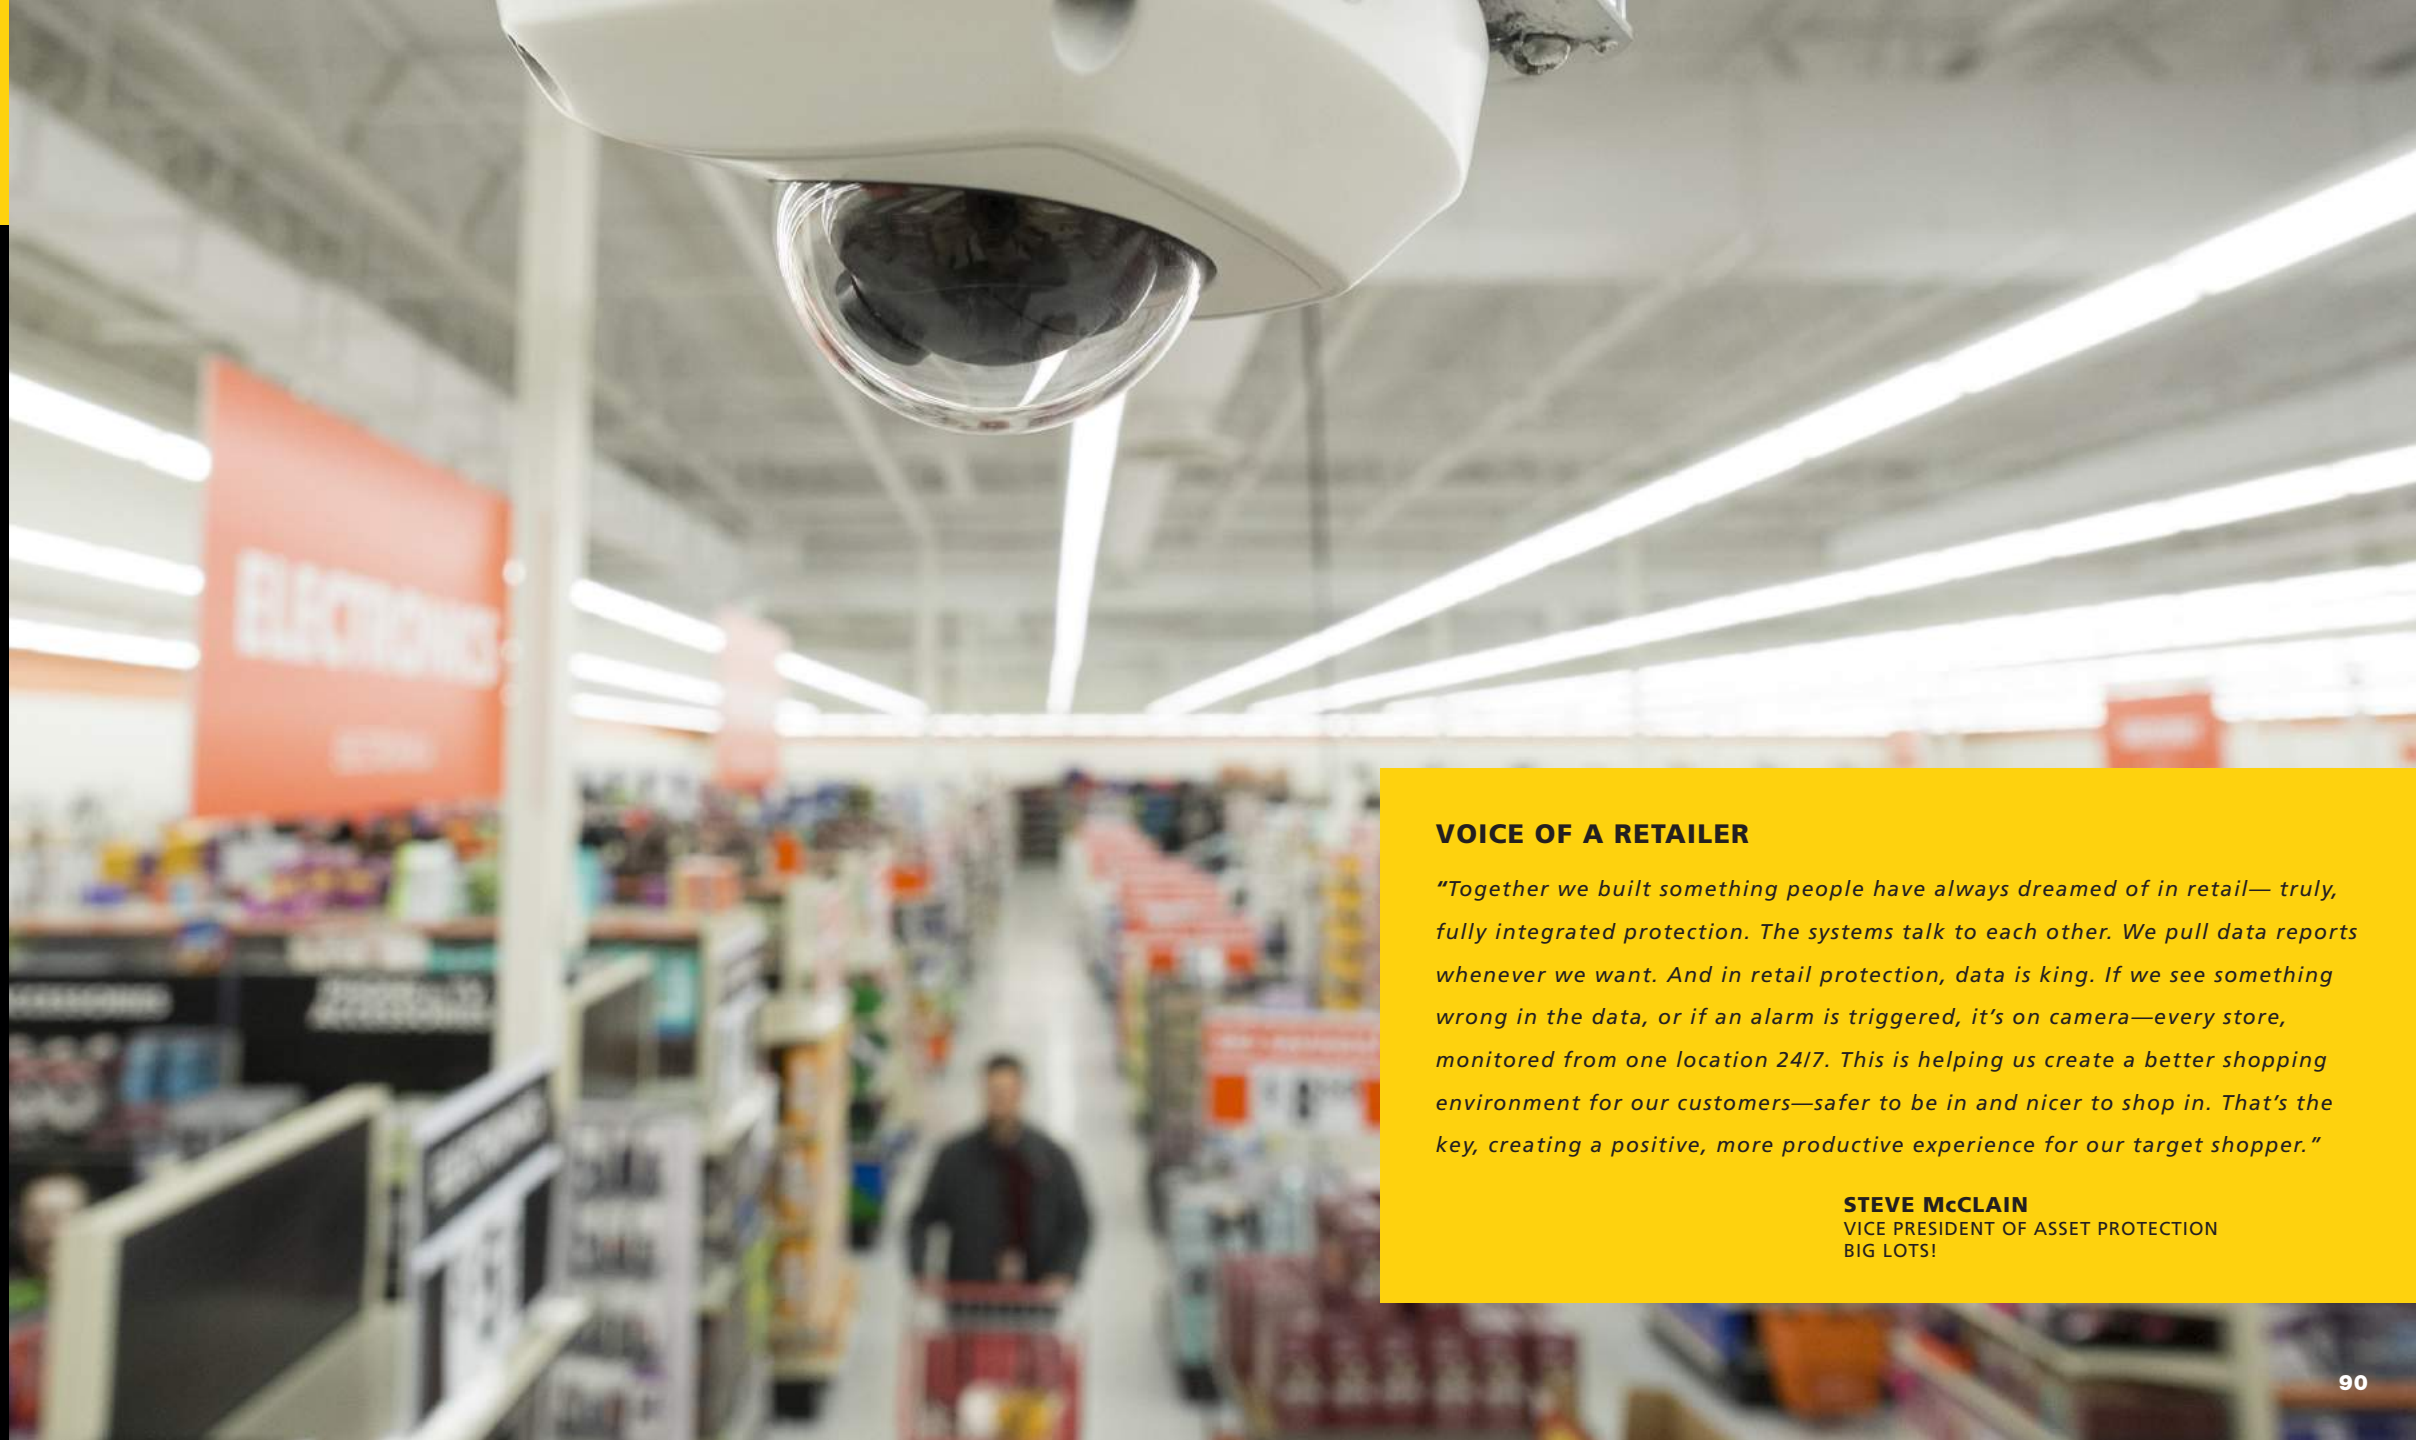

### ELECTRONIC ARTICLE SURVEILLANCE (EAS)

Incorporating either AM or RF technologies, our flexible and innovative IP-based EAS systems can provide business intelligence for security, store operations and marketing. With remote system management and reporting, STANLEY® can troubleshoot, diagnose and tune EAS systems saving time and money by enabling less shrink and fewer service visits.

### PROTECTING WHAT'S IMPORTANT TO YOU™

As a true full service electronic security provider, STANLEY® delivers innovative technologies with a high return on your investment. We design, install, monitor, service and maintain security solutions, partnering on all your unique security and loss prevention needs. We serve thousands of retail customers globally, providing 24/7 monitoring, intrusion, video surveillance, access control, fire detection & inspections and more.

### VOICE OF A RETAILER

*"Together we built something people have always dreamed of in retail— truly, fully integrated protection. The systems talk to each other. We pull data reports whenever we want. And in retail protection, data is king. If we see something wrong in the data, or if an alarm is triggered, it's on camera—every store, monitored from one location 24/7. This is helping us create a better shopping environment for our customers—safer to be in and nicer to shop in. That's the key, creating a positive, more productive experience for our target shopper."*

**STEVE McCLAIN**  
VICE PRESIDENT OF ASSET PROTECTION  
BIG LOTS!

Sonitrol® is the industry leader in verified electronic security and provides customers with a single source of integrated security solutions for intrusion, video, access and fire. Sonitrol's ability to verify intrusion, through patented technology in real-time, offers unrivalled credibility with law enforcement. This advantage means local law enforcement responds faster, and has resulted in over 172,000 apprehensions since 1977.

**INTRUSION**

Sonitrol's verified audio intrusion detection system, unlike conventional alarms, are sound-based not motion-based. When an alarm is triggered, monitoring professionals can listen-in to determine whether an incident is taking place or if a false alarm has occurred.

**VIDEO**

Video verification solution utilizes both audio and video verification technologies to verify alarms. When using this combination, monitoring professionals can hear and see, in real-time, the intrusion incident taking place providing clear, relevant information for law enforcement.

**ACCESS**

Sonitrol's Central Station Managed Access Control Solution provides the ability to track and limit entry to buildings and sensitive areas, 24 hours a day. It is uniquely integrated with Sonitrol's audio intrusion detection system allowing a building to regulate a security system with a programmed access credential.

**FIRE**

Sonitrol® has extensive experience with installing and maintaining fire protection systems and works closely with local fire departments on plan submittals, permitting and inspections. With Sonitrol® technology, monitoring professionals can differentiate between an intrusion alarm and a fire signal, and can promptly dispatch the proper emergency personnel to a location.

STANLEY® Healthcare is a leading provider of visibility and analytic solutions that empower healthcare and senior living professionals to ensure patient and staff safety and security, improve patient and resident experiences and outcomes, optimize a facility's workflow, and increase operational efficiency.

These solutions include our MobileView Platform, the world's "Number One Real Time Location System" according to the healthcare research firm KLAS (January 2015) for the fourth consecutive year. MobileView integrates STANLEY® Healthcare's comprehensive suite of patient and facility monitoring systems to not only truly connect a healthcare facility to the Internet of Things (IoT), but to provide useful, actionable, real-time data to the facility's administration and leadership.

In this way, STANLEY® Healthcare is revolutionizing the healthcare and senior living care industries by helping empower leadership teams to use information to lower costs while improving outcomes.

**WE BUILD COMMUNITIES.**  
We support emergency and disaster relief services around the world.

We're committed to building a better tomorrow.

**WE BUILD HOMES.**  
We support the construction of safe, decent, and affordable housing for those in need.

**WE BUILD MIRACLES.**  
We assist in safety, security, and operating support for medical institutions, particularly children's hospitals.

**WE BUILD SKILLS.**  
We encourage math, science, engineering, and technical education.

**WE BUILD PRIDE.**  
We provide veteran support to thank those who have served.

## Brand Support

Our diverse portfolio of brands can be seen across the globe on the track, on the diamond, on the court, on the pitch, and in the arena. Our brand support drives more than 200 Billion brand and 2 Billion social media impressions yearly, and reaches as far as the Chengdu Panda Breeding and Research Center, where we committed to sponsoring a young panda throughout her life. Wherever you are in the world, Stanley Black & Decker brands are hard to miss.
