The following list is a continuation of that compiled by Dr. A. G. Huntsman and Dr. C. McLean Fraser, entitled "List of publications based on results obtained at the Biological Stations of Canada, 1901-1921," published in "Contributions to Canadian Biology" 1921 (12) 167-183, 1922.

These lists contain in addition to the papers published by the Biological Board of Canada all papers published elsewhere in connection with the work of the Board of which record could be obtained. The abbreviations used in the present list for publications of the Board have the following significance:—
Contr.—"Contributions to Canadian Biology", New Series, and "Contributions to Canadian Biology and Fisheries", New Series. (The title of this publication was extended at the beginning of volume 3).

Bull.—"Bulletins of the Biological Board of Canada."

Canad. Atl. Fauna—"Canadian Atlantic Fauna."

Stud.—"Studies from the Biological Stations" (reprints of papers appearing in journals other than those of the Board).

Prog. Rept. Pac.—"Progress Reports of Pacific Biological Station, Nanaimo, B.C., and Fisheries Experimental Station, Prince Rupert, B.C."

The assistance of the Directors of the Stations and of investigators who have sent in lists of papers published is gratefully acknowledged.
