Come August, Come Freedom Gigi Amateau,2012-09-11 An 1800 insurrection planned by a literate slave known as Prosser's Gabriel inspires a historical novel following one extraordinary man's life. In a time of post-Revolutionary fervor in Richmond, Virginia, an imposing twenty-four-year-old slave named Gabriel, known for his courage and intellect, plotted a rebellion involving thousands of African- American freedom seekers armed with refashioned pitchforks and other implements of Gabriel's blacksmith trade. The revolt would be thwarted by a confluence of fierce weather and human betrayal, but Gabriel retained his dignity to the end. History knows little of Gabriel's early life. But here, author Gigi Amateau imagines a childhood shaped by a mother's devotion, a father's passion for liberation, and a friendship with a white master's son who later proved cowardly and cruel. She gives vibrant life to Gabriel's love for his wife-to-be, Nanny, a slave woman whose freedom he worked tirelessly, and futilely, to buy. Interwoven with original documents, this poignant, illuminating novel gives a personal face to a remarkable moment in history.

Ghetto Cowboy G. Neri,2011-08-09 A street-smart tale about a displaced teen who learns to defend what's right-the Cowboy Way. He may not know much about cowboys, but what he knows for sure is that cowboys aren't black, and they don't live in the inner city. But in his dad's 'hood, horses are a way of life, and soon Cole's days of skipping school and getting in trouble in Detroit have been replaced by shoveling muck and trying not to get stomped on. At first, all Cole can think about is how to ditch these ghetto cowboys and get home. But when the City threatens to shut down the stables-- and take away the horse Cole has come to think of as his own-- he knows that it's time to step up and fight back. Inspired by the little-known urban riders of Philly and Brooklyn, this compelling tale of latter -day cowboy justice champions a world where your friends always have your back, especially when the chips are down.

Two for Joy Gigi Amateau, 2015-06-09 When an adored—and very independent—aunt suffers a fall and comes to live with them, Jenna and her mom discover what makes a family bond unbreakable. Eight-year-old Jenna is dreaming of playing Olympic soccer when the phone call wakes her. Great-Great Aunt Tannie has broken her ankle, and Jenna's worried mom decides Tannie should move in with them. Tannie is no delicate old lady—she does heavy chores on her Virginia farm, drives a huge pickup, and even rides her own motorcycle. Plus she's full of joie de vivre, given to kicking a soccer ball and teaching Jenna all about the birds she's collected on her life list. Jenna's excited to have her favorite aunt and cat, Butt, come to stay, but with so many changes to get used to, tempers around the house soon start to flare. Maybe with all the caring and being taken care of, they've forgotten what Tannie is still so good at—and neglected to have any fun. In a familiar story told through a child's eyes, Gigi Amateau reminds us that everyone needs help sometimes, especially those who least expect it.

The Geology of the Atlantic Ocean Kenneth O. Emery,Elazar Uchupi,2012-12-06 The explosion of interest, effort, and information about the ocean since about 1950 has produced many thousand scientific articles and many hundred books. In fact, the outpouring has been so large that authors have been unable to read much of what has been published, so they have tended to concentrate their own work within smaller and smaller subfields of oceanography. Summaries of information published in books have taken two main paths. One is the grouping of separately authored chapters into symposia type books, with their inevitable overlaps and gaps between chapters. The other is production of lightly researched books containing drawings and tables from previous publications, with due credit given but showing assembly-line writing with little penetration of the unknown. Only a few books have combined new and previous data and thoughts into new maps and syntheses that relate the contributions of observed biological, chemical, geological, and physical processes to solve broad problems associated with the shape, composition, and history of the oceans. Such a broad synthesis is the objective of this book, in which we tried to bring together many of the pieces of research that were deemed to be of manageable size by their originators. The composite may form a sort of plateau above which later studies can rise, possibly benefited by our assembly of data in the form of new maps and figures.

Matewan Before the Massacre Rebecca J. Bailey, 2008 On May 19, 1920, gunshots rang through the streets of Matewan, West Virginia, in an event soon known as the Matewan Massacre. Most historians of West Virginia and Appalachia see this event as the beginning of a long series of tribulations known as the second Mine Wars. But was it instead the culmination of an even longer series of proceedings that unfolded in Mingo County, dating back at least to the Civil War? *Matewan Before the Massacre* provides the first comprehensive history of the area, beginning in the late eighteenth century continuing up to the Massacre. It covers the relevant economic history, including the development of the coal mine industry

and the struggles over land ownership; labor history, including early efforts of unionization; transportation history, including the role of the N&W Railroad; political history, including the role of political factions in the county's two major communities--Matewan and Williamson; and the impact of the state's governors and legislatures on Mingo County.

The Snow Fell Three Graves Deep Allan Wolf,2020-09-08 In powerful, vivid verse, the master behind *The Watch That Ends the Night* recounts one of history's most harrowing—and chilling—tales of survival. In 1846, a group of emigrants bound for California face a choice: continue on their planned route or take a shortcut into the wilderness. Eighty-nine of them opt for the untested trail, a decision that plunges them into danger and desperation and, finally, the unthinkable. From extraordinary poet and novelist Allan Wolf comes a riveting retelling of the ill-fated journey of the Donner party across the Sierra Nevadas during the winter of 1846-1847. Brilliantly narrated by multiple voices, including world-weary, taunting, and all-knowing Hunger itself, this novel-in-verse examines a notorious chapter in history from various perspectives, among them caravan leaders George Donner and James Reed, Donner's scholarly wife, two Miwok Indian guides, the Reed children, a sixteen-year-old orphan, and even a pair of oxen. Comprehensive back matter includes an author's note, select character biographies, statistics, a time line of events, and more. Unprecedented in its detail and sweep, this haunting epic raises stirring questions about moral ambiguity, hope and resilience, and hunger of all kinds.
