Nedis Vacuum Cleaner Bags

The Nedis vacuum cleaner assortment covers 95% of the types of vacuum cleaner bags used today. All our vacuum cleaner bags are made from 5 layer high filtration synthetic materials. This ensures a higher dust absorption and suction power of the vacuum cleaner. The fleece material with a special fiber structure filters, through a unique combination of the different layers, considerably more dust particles. Furthermore, the vacuum cleaner bags have a good fit and are of a very high quality.
