

1966 IRIS CATALOG

HIGH ESTEEM

Fleur De Lis Gardens

Chet W. Tompkins, Hybridizer, Grower and Introducer

Greetings 1966...

As we approach a new Iris season and begin this catalogue, we express our thanks to you for your continued and ever increasing patronage. It is with pleasure that we serve you and we are glad you like our plants so well and enjoy our extras so much. Our stock is as fine as ever, and again, don't forget to whomp up a big fat "Wishing List" for you will find us even more generous than before. We find we simply must cut our listing. We hadn't actually realized it until last year's digging and packing became almost impossible to keep up with, but our listing had somehow crept up to 1291 varieties, a quantity just too large to cope with. Something had to give, especially since we had taken up roses in place of the Daylilies we had eliminated and again this work with the roses was taking up as much time as the Iris, even if at an entirely different time of year. So to once more control the Iris we are forced to cut to a listing more easily handled. Thus you will find three new SALE groups in the rear of the catalogue. These MUST go, if there are any you want, it is now or never. A planned study of varieties this year should permit a final cut to some 400 varieties next year, enabling us to return to a balanced color spread of our own varieties and to a more workable list.

We are particularly proud of our introductions for this year, so if you find the opportunity to visit here, please feel welcome to do so, I am sure you will enjoy these, our new fields, plots of seedlings, selections and Guest plants.

Also to the many of you who have acquired our Rose list, thanks for receiving it so kindly and making this, our first year in Roses, such a fine one. Your orders now arriving for spring are greatly appreciated. If you have the chance, stop during the summer. I am sure you will enjoy our beds of hundreds of Exhibition Roses as well as our growing fields of over 100,000 new bushes.

Thanks again for your many many fine orders and letters. May your season be the best ever and may every Iris stalk you bloom be a sweepstake winner.

Sincerely,

Chet Tompkins

NEW IRIS FOR 1966

BRIGANTINE (Tompkins '66) E. VL. 48 in. (Sib. to Fleet Admiral). A true Giant among Iris, this is as different from its sisters as night is from day, in both form and color. It has excellent form and exceedingly broad, heavily substanced petals. A real Color Blast, this is a blended self of vivid Amethyst violet, Petunia blue and Mulberry rose, a color further accented by a smooth chocolate red haft and a blazing blue beard. The stalks are very tall, wind resistant and are beautifully branched. Its so big and loud that it should be classed as a Louisville slugger.
No. 61-135D **Net 20.00**

CLOUD COUNTRY (Tompkins '66) M.L. 45 in. (Rumbling Thunder x Galilee). A majestic new Iris of white, or near white, this is a magnificently formed and finished flower of ultra thick substance and smooth icy finish with every petal of the precisely domed standards and flaring falls perfectly and beautifully ruffled. The color is pearly, cloud white with just a hint of pale greenish blue throughout. A heavy beard of pale lime yellow accents its beauty. Strong, wonderfully branched stalks with perfect placement make this cool beauty a sure fire bet for the showbench as well as the garden.
No. 63-8 **Net 25.00**

DIPLOMAT (Tompkins '66) EM. VL. 40 in. Salem x Mountain Music. We bloomed 678 sdgls. from this cross and there wasn't really a poor one in the whole group. It was quite a task, deciding which to keep for the color range ran from Flax blue through deep Navy and also through the Lavender blue range and the form and style as well as size varied greatly. Of those we did keep, Diplomat has from the first been one of my two top favorites and a favorite with visitors. It is very large and beautifully formed with extra broad petals, the stands being perfectly domed and the falls just flaring enough to show their great size and ultra broad hafts to perfection. The heavily ruffled flowers are completely clean and the dark but glowing Hayes blue color is intensified by a bright Ultramarine beard. Tall, wonderfully branched Mt. Music type stalks show the huge ruffled flowers to fine advantage.
No. 63-26L **Net 25.00**

EASY STREET (Tompkins '66) E.L. 36 in. (((Full Circle x ((New Hope x Dark Halo) x Full Circle))) x Roccoco. A real eyecatcher, this new plicata is such a spectacular showoff that just to own it is sure to make you feel as if you were living on Easy Street. It is a glistening snowy white with beautifully stitched border of midnight blue around both the standards and the falls. The flowers are very large and broad with heavy substance and have such a heavy ruffling that the ruffles appear to be re-ruffled. A real good grower producing many rhizomes and stalks per plant. Well branched with lots of buds and a long season of bloom. Picture on inside cover.
No. 63-25C **Net 25.00**

GRAND RAPIDS (Tompkins '66) M.L. 38 in. (57-55 x Allaglow) x War Bonnet. Another giant, this is fully as large as Brigantine and quite as spectacular. A brilliant, near self of orange, it is in reality a blend of sleek glistening Caramel, Orange Copper and Sandalwood Orange with an undertone of mingled Amber rose and Fulvous Orange. A highlight of shimmering, frostylike Lilac at the tip of a full orange beard accents its brightness. It is beautifully formed with broad rounded petals. In cool seasons, a sudden day of extra warm sunshine invariably brings out a deep Grass green plicata-like stitching around both the standards and the flaring falls, giving it a most exotic appearance. This is probably due to the 57-55 parentage as this came from blends, plics and the greenish Desert Flower. Wonderfully branched stalks.
No. 61-61B **Net 25.00**

HALLELUJAH TRAIL (Tompkins '66) M. VL. 36 in. ((Copper Halo x Rimfire) x (Rimfire x Full Voltage)). This plicata carries enough fire, copper and full voltage to make it Torchy enough to light up any trail. Little wonder that its been such a favorite here. Its large, excellently formed flowers are very heavily substanced sleekly finished and have delightfully fluted petals. It has a ground color of enamel white and a broad, bold, half inch border of heavily stitched and sanded Starburst red, a color that seems to be a blend of Fire orange, Burnished copper and Sunset flame. Strong, well branched stalks with lots of buds and a long blooming season. One of the brightest spots in the garden.
No. 62-1C **Net 25.00**

HIGH ESTEEM (Tompkins '66) E. VL. 44 in. High Note x Apple Valley. A huge, beautifully formed flower with broad ruffled petals of very heavy substance and a lustrously rich finish, accented by a heavy Rose coral beard; our cover picture should well describe this vivid new pink. A good grower, this has tall, excellently branched stalks that carry many buds and show each lovely flower to perfection. Having seen it here and bloomed it in England, Mr. Randall writes us that it is the best he has seen in this class.
No. 62-37E **Net 35.00**

PIPE DREAM (Tompkins '66) M. V.V.L. 44 in. Herald Angel x (((Apple Valley x (Clarion Call x Gaulters F. Kent x Palomino))). A massive flower of sparkling Chamois pink, better described perhaps as a medium shade of Baby Ribbon pink completely and smoothly undertoned with sparkling creamy buff. The flowers have the extra large size and broad petals of all Clarion Call progeny as well as the ruffling of Herald Angel and the luscious creaminess and lovely roughed haft brushing of the DeForest 'F. Kent and Apple Valley' lines. Very tall, excellently branched stalks of huge size are produced on extra large rhizomes. A great favorite with visitors, this may be seen with others of our new ones at the Luihn, Gaulter, Miller, Ballard and Hamner Gardens.
No. 63-52 **Net 25.00**

SCARLET RIBBON (Tompkins '66) E.L. 38 in. From a W. S. Snyder red sdg. involving Souv. Michaud, Tenebrae, Geo. Tribolet, Sturtevant, Nene, Nishnabotna x Ossar, x Campfire Glow, x Moulin Rouge x Manana, x Milepost. A huge, well formed, very broadly petaled red, probably the most vivid in the Scarlet red class. Shows its pink blood too, in having a bright pinkish orange undertone that makes its scarlet coloring fairly shout. So huge and bright that it immediately becomes a focal point for every visitor. Tall, strong, well branched stalks. Seems to perform well most anywhere. Mr. Gaulter and Mr. Luihn say it performs extra well there in California and we have had fine reports from Texas, Arizona, Alabama, etc., so it appears that here is one more red that will perform well throughout the southern states, where reds as a rule do rather poorly.
No. 61-117A **Net 25.00**

SILENCE (Tompkins '66) M.L. 38 in. (From Comforting Thought, Fancies Flight and Kashmir Lace Lines). I consider this to be the most beautiful yellow I have produced or even seen. We haven't as yet found it lacking in any quality. It has large size, perfect form, heavy substance and wide, elegantly ruffled petals with equally wide, delightfully pleated hafts. A brilliantly rich, deep yellow with a trueness of color we have not seen since the hey-day of Guiding Star. This lively rich color is accented even more by a self-colored beard and a slightly lighter Canary yellow glow over the central part of the falls. It is a good grower with tall wonderful branched stalks that carry many buds and flowers in perfect placement. We want to thank Jake Scharff for naming this, as well as for his efforts and those of Mr. Watkins in getting the name (registered but never used) released to us.
No. 63-83 H.C. 1965. One to a customer please. **Net 35.00**

OTHER 1966 INTRODUCTIONS

ANGEL CAKE (M. Framke 1966) M.L. 36 in. (Cameo Coral x Apple Valley) x (Herald Angel x High Note). A majestically huge flower of excellent form with unbelievably broad petals, this is one of the most luscious looking Iris in the garden. In color it ranges from a velvety creamy white over the central part of the falls to a pale shell pink tinted swansdown over the outer edges and on up to a smooth apple blossom pink haft and beard. The standards have the same coloring with an added bit of lipstick pink along their edges and a delicate touch of gilt accents this pink. Its a real beauty that looks good enough to eat.
No. 64-165B **Net 30.00**

RIVER QUEEN (M. Framke '66) M.L. 36 in. (Galilee x Salem) x (((Rehobeth x ((Irma Melrose x Sass' Desert Flower, Ivory Petal Sdlg.))). A distinctly different blue, this is more in the reverse bicolor class than any other. It is very large and nicely formed with domed standards of Milky lilac faintly tinted coppery blue and has semi-flaring falls of milky white with an infusion of orchid. A wide, full beard of orchid Amethyst accents it unusual coloring. It is quite different and everyone seems to like it extremely well.
No. 63-49A-F **Net 20.00**

SUNLIT MEMORIES (M. Framke 1966) M. VL. 36 in. Comforting Thought x ((Gentle Star x Techny Chimes) x Primrose Path)). A delightful flower of large size and beautiful form with domed standards and horizontal falls. Its extra broad petals are heavily ruffled and the hafts are so broad they nestle over each others edges in ruffled pleats. In color it is a self of creamy Canary deep-

ening to vivid Lemon over the ruffling and across the hafts under the deep gold beard. A real beauty on strong well branched stalks.
No. 63-16F **Net 25.00**

BORDER IRIS

HOOD RIVER SKIES (C. Wells '66) E.M. 18 in. (Chivalry x Blue sdlg.). Here is a most fascinating new Border iris. A good grower with nearly normal size rhizomes and stalks as well as wide, full foliage. For all of this the flowers are very small. Almost like miniature blooms of Chivalry. Exotically strange and different, its as if the whole thing might be the result of a complete mutation in an otherwise normal plant. I had thought it sterile, but last year it podded and produced some pollen.
#W. 5-60 **Net 15.00**

LITTLE NELL (Tompkins '66) E.M. 17 in. ((Savage x (Brigadoon x Rampage))). This is about the brightest Border Iris we have seen. It is practically a miniaturized version of Brigadoon except that it has wide flaring falls and seems to have a bit more cardinal red in its makeup. Its a real stunner.
#61-40 **Net 15.00**

VALSE PETITE (Tompkins '66) E.M. 19 in. (Dale Dennis x Echoette). A lovely little plicata of snowy white with a vivid border of orchid that is applied in stitching rather than sanding. Very fine form with wide petals and flaring falls. A lovely and graceful little Iris.
No. 62-151 **Net 10.00**

This one pleased us so much last year that we just about didn't care whether we sold it or not. It is perhaps the most exciting red we have had and seems to get better and better and we continue to think of more and more crosses to make with it for future reds. Chic and tailored with broad, perfectly domed standards and widely flaring falls. A self of glowing "Blood Ruby" red. Clean and absolutely unblemished. Shimmering finish with thick substance and non-burning. A rich chocolate brown beard adds to its beauty as well as its perfectly branched, tall strong stalks. **20.00**
