Wisconsin Libraries

Strengthen Communities

Communities Need

- Reliable, affordable resources
- Access to information
- Learning opportunities
- Gathering spaces

Libraries Offer

- Cost-effective sources for books, digital resources, and technology access
- Free and reliable access to the Internet and published materials
- Resources, programs, and expertise to increase individual, business, and community knowledge
- Places for gathering to learn and connect

The Benefit of Wisconsin Public Libraries

Literacy

- Offering early literacy programs such as 1000 Books Before Kindergarten to help ensure children are ready for school
- Participating in partnerships with schools to help improve student literacy by expanding resources, increasing reading comprehension, teaching research skills, helping develop information and financial literacy
- Providing important resources for homeschool families

Workforce Development

- Partnering with the state's Workforce Development Centers to extend resources and services to job seekers in 381 communities throughout Wisconsin
- Offering online classes and other learning opportunities designed to increase skills of people seeking employment opportunities or other career advancements
- Providing meeting spaces to conduct interviews both in-person and via technology

Information Technology

- Providing technology training to residents who need assistance
- Offering reliable, hi-speed internet access and wi-fi hotspots to ensure residents have reliable broadband access
- Offering spaces for innovation centers and creative learning labs designed to maximize in-person learning opportunities using technology not readily accessible to individual residents
- Offering spaces for community meetings designed to bring residents together to solve problems and create stronger relationships

The Benefit of Wisconsin Specialized Libraries

Knowledge, Creativity, & Learning

- Access to creative application of information and data
- Ability to efficiently acquire, analyze, manage, and apply information and data
- Access to cutting-edge research, consultation services, and learning spaces to experiment and innovate
- Support for business development in biotechnology, engineering, computer science, agriculture, biofuels, health care, and more

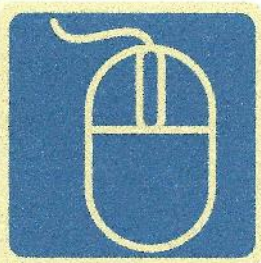

State aid invested in library systems improves the ability to provide important library services statewide!

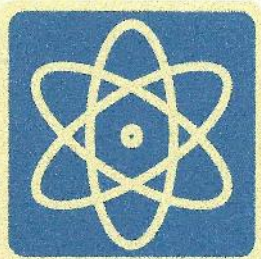

Hundreds of **online classes** offered free to residents

Technology support staff and **technology improvement** initiatives

Workforce development specialists in libraries

Science, Technology, Engineering, and Math (STEM) **programming kits** for children

Every dollar invested in libraries makes a difference.
Thank you for supporting Wisconsin libraries!

PARTNERS FOR EXCELLENCE

Public Library Systems and Local Public Libraries

Background

The goal of library systems is to provide all Wisconsin residents with access to the high-quality library service needed to meet personal, work, educational, and community goals. Before the development of public library systems, many state residents had no legal access to any public library; many more only had access to substandard library service.

The Wisconsin legislature approved legislation in 1971 enabling the creation of public library systems to address the limitations of relying solely on local support and local coordination of library service. The actual organization and development of public library systems in Wisconsin was a voluntary and gradual process. No county or public library is required to be a member of a library system, yet all of Wisconsin's 72 counties and 381 public libraries are library system members.

The creation of public library systems fostered the establishment of a strong network of resource sharing and mutually beneficial interdependence among community public libraries. Wisconsin's sixteen public library systems developed in distinct ways in response to the needs of their member libraries and area residents. They continue to evolve and respond as changes in society, resources, and technology create new demands and opportunities.

Benefits to local library service

Local public libraries appear “on the screen” as the public face of community service while public library systems “run in the background” as the underlying operating system. System support rarely steps out from behind the curtain in the public consciousness; it is designed to allow local libraries to occupy center stage.

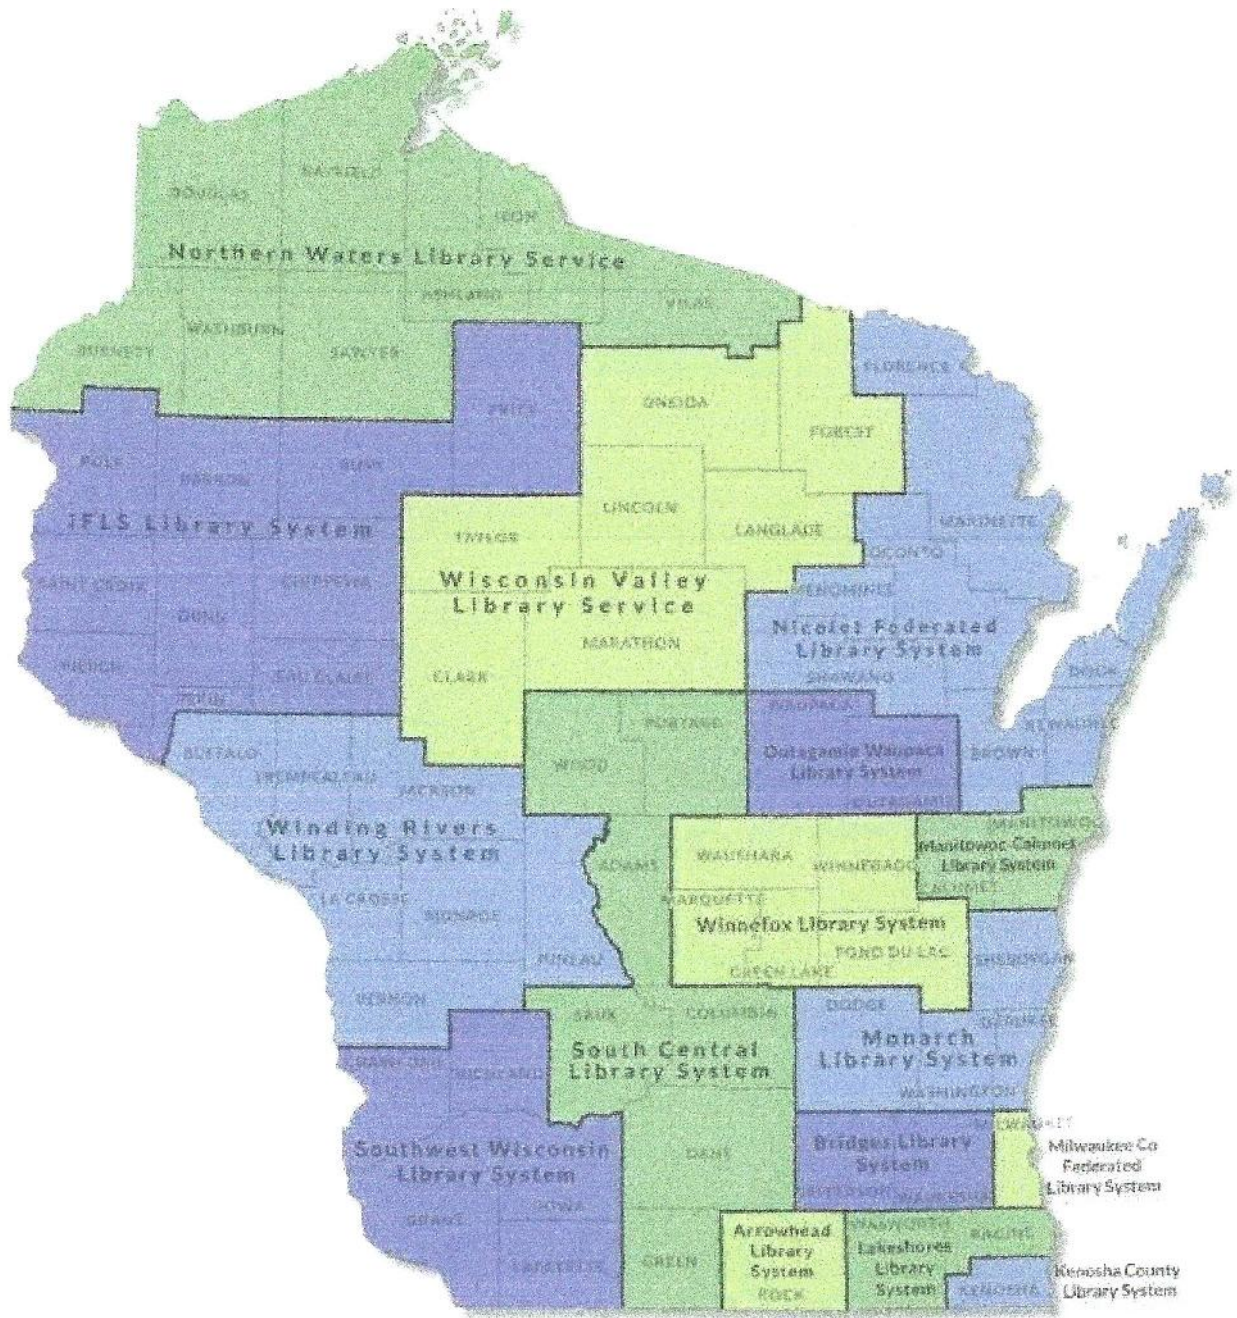

The basic dynamic of library system membership is simple. A **public library** agrees to certain membership requirements, including the commitment to serve all system residents equitably. In return, the **library system** provides a wide range of primarily state-funded services, tailored to regional needs that enhance local library service. This relationship provides all residents of the state with improved library service, as well as the ability to use whichever library or libraries best serve their needs. Municipal libraries participate in library systems because their communities' residents benefit from this arrangement.

In return for agreeing to the membership requirements, local libraries and their patrons benefit from system membership because state aid enables systems to:

- expand and improve the interlibrary loan network through management of automated, shared catalogs
- provide specialized staff assistance and continuing education opportunities to local library staff and trustees
- facilitate delivery services and communications
- guarantee mutual borrowing privileges and monitors reimbursement for service to residents across county lines
- expand the use of new technologies
- support other cooperative services and projects in response to regional needs
- encourage enhanced, regional networking opportunities among public, school and academic libraries

*NOTES: Local and county figures do not include dollars originally appropriated for capital projects. Local support includes financial support from the primary municipalities which support the library. Gifts, donations, endowments, federal grants, federal revenue sharing funds, contract income or any other special operating income are not included in either the Local or County Support columns, but are included in the "Total Operating Income" columns.

Also, the "County Support" column represents only the county dollars that were given directly to libraries and does not include payments to WVLS for service. Following are the county appropriations made to WVLS in 2021:

County	Appropriation	County	Appropriation
Clark	3,888	Marathon	18,727
Forest	1,381	Oneida	7,807

*Under the leadership of Director Dominic Frandrup, the Antigo Public Library transferred its separate digital library collection into the WVLS OverDrive Advantage account from a different platform. The Antigo Public Library donated six audiobooks and 255 ebooks for all WVLS digital library users to enjoy.

2021 V-Cat TOP 10 ACCOMPLISHMENTS

STANDARD CHECKOUT PERIODS

Agreed on standard loan periods and rolled them out at all V-Cat libraries.

ASPEN DISCOVERY

Selected Aspen Discovery and began implementation of customized user experience and design for each library.

NEW DUAL VOTING METHOD

Enacted a new dual voting method with both representative and proportionally weighted votes.

SUBJECT HEADINGS PROJECT

Addressed approximately 14,000 records and added headings to ensure that V-Cat materials are more discoverable in the library catalog.

STANDARDIZED CIRCULATION NOTICES

Changed circulation notice messages to be consistent across libraries for better service to library users.

See page 47 for each library's cost per circulation. Boxes highlighted in yellow indicate when libraries joined V-Cat. Elton Branch closed in 2021.

Percent Change in Annual Circulation 2013-2021 by Location (page 1 of 2)

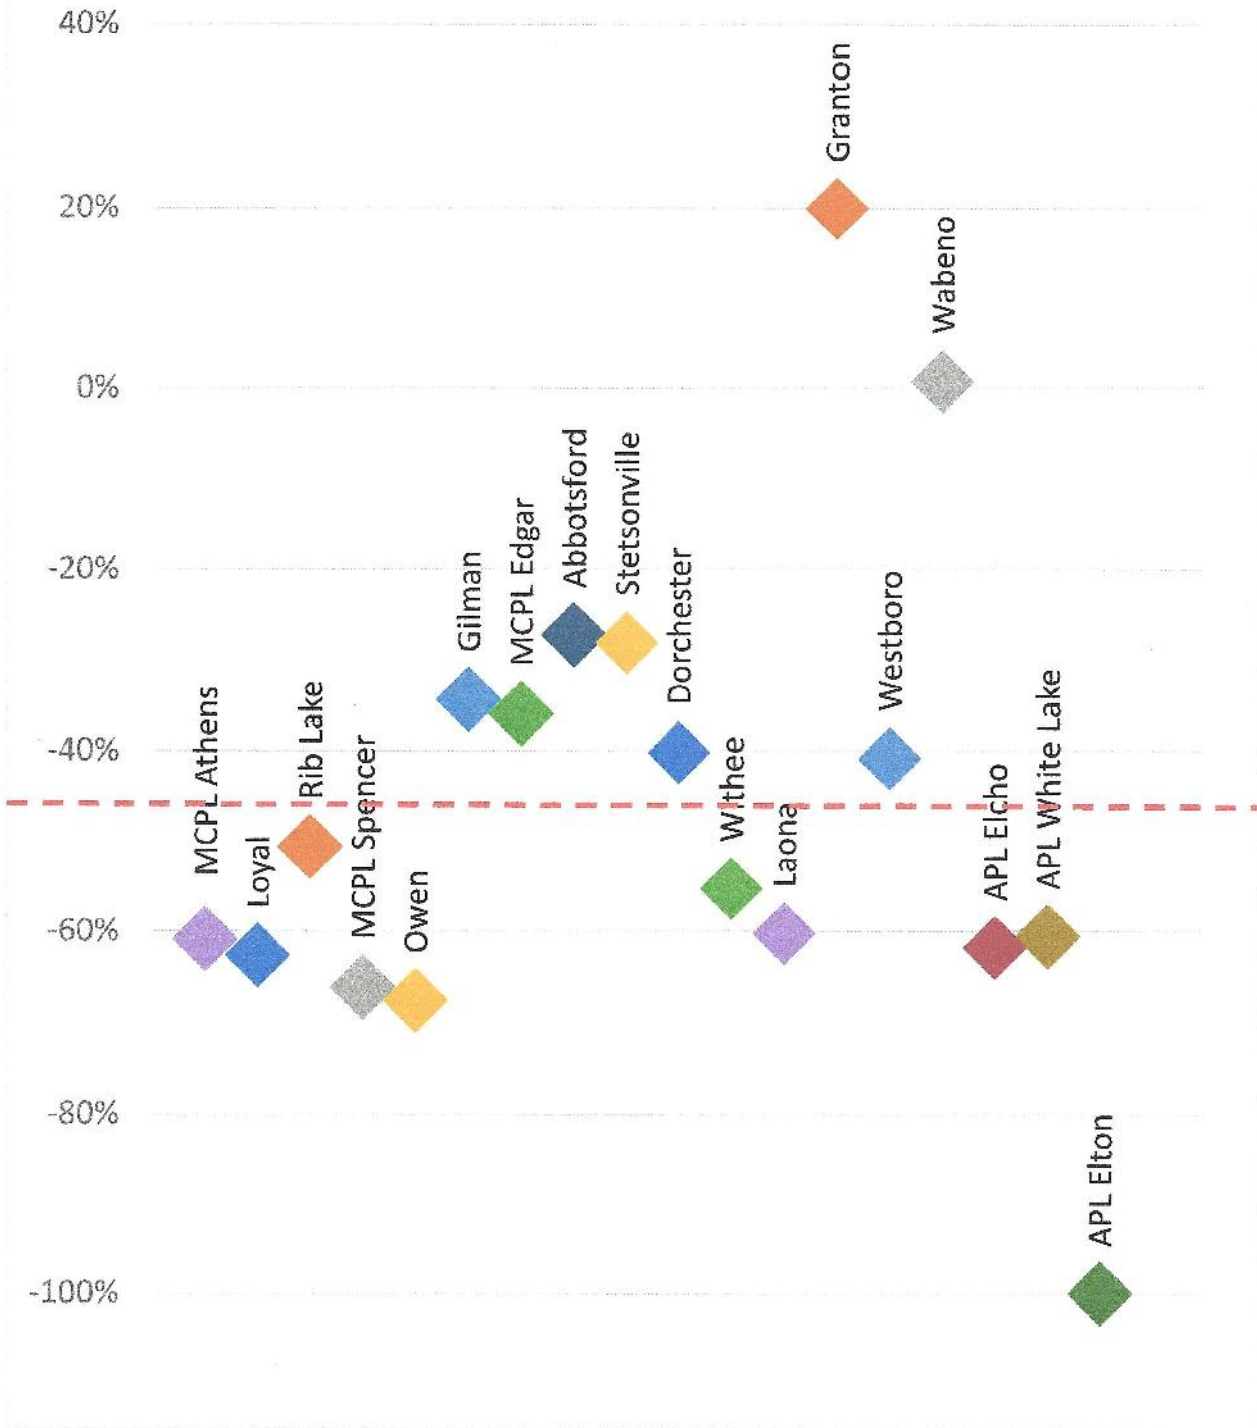

The graph on this two-page spread displays the percent change in circulation for member libraries from 2013 to 2021. The red dashed line is the average percentage change in circulation across all member libraries (-47%).

If a library is below the red dashed line it is below the average percent change in circulation for member libraries from 2013 to 2021. If a library is above the red dashed line it is above average percent change in circulation for member libraries from 2013 to 2021.

*The numbers reported are the total number of on-site circs to residents of each of the other WVLS counties.

These numbers are only intended to provide a pattern of cross-border borrowing within the WVLS area - a pattern which might prove useful as a county library board or county board of supervisors looks at the potential need to reimburse libraries from other WVLS counties.

Note: Cost per circ for Wisconsin's public libraries is based on the formula stated in WIS. STATS 43.12 (1), which is total expenditures minus capital and federal expenditures divided by total circ.

Increases or decreases in cost per circ from year to year are a direct result of increases or decreases in either expenditures or circulations from one year to another.

Notes of Appreciation

2021 Annual Report Comments

Owen Public Library

"WVLS staff are always helpful, professional and friendly. We enjoy working with them and feel able to talk with them about any library issue. We are sure of their support in meeting challenges of serving our community."

~Owen Public Library Board of Trustees

"...the Wisconsin Valley Library Service is very responsive to our needs, their staff is very professional, and they provide excellent service."

~Crandon Public Library Board of Trustees

"We would like to thank WVLS, Wisconsin Valley Library Service, for their support of the Antigo Public Library and the branches in Elcho and White Lake. Without their support, our circulation system, wireless internet, email, internal file sharing, website, etc., would not be possible. Their enthusiastic and driven work ethic enables us to offer many more services to our patrons than we could possibly do on our own."

~Antigo Public Library Board of Trustees

Demmer Memorial Library

"... In addition to the day-to-day routine, WVLS continues to be forward-thinking. WVLS staff developed a new website for the Demmer Library in 2021 and continues to train and support Demmer staff in maintaining and enhancing it. Despite ongoing challenges brought by the pandemic, WVLS has continued to keep long-term needs in their focus, from the legislative groundwork to establish necessary funding to reviewing products that could enhance library services [and] recruiting and coordinating member library participation in developing those services."

~Edward U. Demmer Memorial Library Board of Trustees

"WVLS provides thoughtful, detailed assistance in all areas where help is needed. We always know they provide a great support system to our library and the other libraries in our system. The collaboration they are forming with other systems in Wisconsin are for the benefit of the greater good."

~Loyal Public Library Board of Trustees
