					55. 55p	deep blue flowers.
	napellus 	0.	24.25"	- DI		Dedichles flavores that deals are a finite form
	napellus	G. -	24-36"	Blue	Aug - Sep	Dark blue flowers atop dark green glossy foliage.
	OPODIUM (Bishop's V					v-on-the-Mountain)
	ds quickly, so allow plenty of ro	oom for growth	n. Once thoug	nt to cure	gout.	
	podagraria 'Varianatum'	0 0- 📤	0.13"	///b:+-	Mar. 3	Chouse variagated foliago. Vame visavena ana distriction
	'Variegatum'		0-12"	White	May - Jun	Showy variegated foliage. Very vigorous groundcover.
	STACHE (Anise Hysso					
	rflies and hummingbirds love th	ne late summei	r blooms on A	gastacne.		
	Hybrid	0 0-	26.40"	Dlue	lua Can	Purplish-blue spikes on fragrant foliage. Long-blooming.
	'Blue Fortune'		36-48"	Blue	Jun - Sep	
	'Pink Panther'	0 0-	24-36"	Pink	Jun - Sep	Spikes of light rosy-pink with aromatic spicy-scented foliage.
	rupestris (Rock Anise Hy					
	rupestris	0 0-	12-24"	Orange	Jun - Sep	Rosy-orange flowers and grayish foliage. Shrubby habit. Benefits from go drainage.
	urticifolia (Dwarf Hysso	p)				•
w	urticifolia	0 0-	24-36"	Blue	Jun - Sep	Cornflower-blue spikes above fragrant minty foliage. Compact.
JU	GA (Bugleweed)					
	plant Ajuga in moist but very	well-drained so	oil to prevent	crown rot	and wilt.	
	Hybrid					
	'Chocolate Chip'	0 0-	0-12"	Blue	Apr - Jun	One of the nicer Ajuga varieties. Small, oval leaves that are chocolate-bro
	rontans					in color. Compact grower.
	reptans 'Bronze Beauty'	0 0-	0-12"	Blue	May - Jun	Metallic, shiny bronze foliage. Can be aggressive.
	'Burgundy Glow'	0 0-	0-12"	Blue	May - Jun	Attractive green, white and dark pink foliage. Keep well drained.
	'Catlin's Giant'	0 0-	0-12"	Blue	,	One of the largest bronzed Ajuga. An excellent contrast plant.
		0 0-	0-12 0-12"		May - Jun	One of the deepest colored Ajugas, with deep purple to black leaves. Blue
W	'Mahogany'	0 G —	0-12	Blue	May - Jun	flower spikes.
ΚE	BIA (Chocolate Vine,	Fiveleaf)				
	quinata					
w	'Fruitful Combo'	0 0-	Climber	Mix	May - Jun	A. quinata and A. quinata 'Alba' are combined in a single pot to give both
ı Cı	EA (Hollyhock)					burgundy-purple and white flowers, along with pollination to produce frui
		means to cure	due to man	/ snecies'	medicinal pror	perties. Taller varieties benefit from staking.
	Hybrid	means to care	, due to man	species !	medicinal prop	refrees. Functivarieties benefit from staking.
	'Summer Memories'	0 0-	48"-Higher	Mix	Jul - Aug	Single flowers in a wide range of colors. Grows to 6'. More rust-resistant.
	rosea				3a. 7.ag	
	'Crème de Cassis'	0 0-	48"-Higher	Pink	Jul - Aug	Large clusters of single flowers. Centers are bright fuchsia pink with edge
	Creme ue Cassis	J J	TO THIGHE	i IIIK	Jui - Aug	lighter pink.
	'Peaches n' Dreams'	0 0-	48"-Higher	Pink	Jul - Aug	Apricot, peach and pink blended flowers on tall stems.
	'Powderpuffs Mix'	0 0-	48"-Higher	Mix	Jul - Aug	A mix of colors with larger flowers than any other double hollyhock.
	'Salmon'	0 0-	48"-Higher	Pink	Jul - Aug	Salmon-pink blooms. Double, lacy flowers.
	'Scarlet'	0 0-	48"-Higher	Red	Jul - Aug	Large pom-pom flowers in bright red.
	'Single Mix'	0 0-	48"-Higher	Mix	Jul - Aug	Old-fashioned single hollyhocks in red, pink, white and yellow.
	'Yellow'	0 0-	48"-Higher	Yellow	Jul - Aug	Showy, bright yellow flowers which are doubled.
	rugosa (Russian Hollyho	ock)	-		_	
	rugosa	0 0-	48"-Higher	Yellow	Jul - Aug	Single, pale yellow flowers with deeply lobed leaves. Less rust than most
	-		5	-	- 3	Alcea.

	HEMILLA (Lady's Man	tle)				
,	moist if planted in sunny areas,		age has a te	ndency to s	corch.	
1	mollis					
	mollis	0 0-	0-12"	Yellow	Jun - Jun	Yellow-green flowers atop lush, light green foliage.
	UM (Ornamental Chiv	/es)				
. <u>/</u>	maximowiczii 'Alba'	0 0-	0-12"	White	May - Jun	Clump forming grass-like foliage produces white globes that stay white for
: W	Albu		0 12	Willie	riay - Jan	long time instead of turning brown.
-	schoenoprasm					
W	'Forescate'	0 G-	12-24"	Pink	May - Jun	Rose and light pink bicolored blossoms. Another spring-flowering alternation
S	senescens (Mountain Ga	orlic)	0-12"	Diele	7l Aa.	Pink-purple florets above grassy foliage.
L CT	montanum			Pink	Jul - Aug	Filik-pul ple notets above grassy tollage.
	<mark>「ROEMERIA (Inca Lily</mark> Hybrid	, Peruvian	LIIY)			
•	'Sweet Laura' PP10030	0 0-	24-36"	Yellow	Jun - Jun	One of the hardiest Peruvian lilies with yellow flowers splotched with
						burgundy.
	ELOPSIS (Monk's Hoo	od Vine, Po	rcelain V	(ine)		
L	brevipedunculata 'Elegans'	0 0-	Climber	White	Jul - Aug	Attractive multi-color foliage. Berries maturing to blue, insignificant white
	Elegalis	0 0-	Cililibei	wille	Jui - Aug	flowers. More sun=more berries.
	ONIA (Bluestar, Blue					
I	hubrechtii (Arkansas An		0.4.05"			
	hubrechtii	0 0-	24-36"	Blue	May - Jun	Sky-blue flowers with narrow-leafed foliage. Foliage turns gold in fall. Slow growing, be patient.
I	Hybrid					
w	'Blue Ice'	0 0-	12-24"	Blue	May - Jul	Deep blue flower buds first, then gentian-blue flowers above attractive tou foliage.
NA	CYCLUS (Mt. Atlas Da	isv)				Tollage.
	ine plant that is resistant to dr	• •	r, it does be	nefit from i	noisture in ful	l sun.
C	depressus					
	'Silberkissen'	0 0-	0-12"	White	May - Jun	Slightly longer blooming than the regular depressus species.
	HUSA (Bugloss, Forge					
	moist but well-drained to preve	ent crown rot.				
C	capensis		0.40"			
	'Blue Angel'	0 &	0-12"	Blue	Jul - Aug	Electric-blue flowers. Needs some winter mulching.
	MONE (Windflower)

PETASITES (Giant Butterbur)

Needs a moist area to grow well, especially if planted in full sunlight. Can spread, but only at a moderate pace.

-			
ıa	DO	nı	cus

'Giganteus'	G-	36-48"	White	Apr - Apr	Large kidney-shaped leaves with white to purple flower stalks in early spring. Grows 3-5'.
'Purpureus'	G- 🕿	24-36"	Yellow	Apr - Apr	Similar to P. 'Giganteus,' but with a purplish tint to the leaves and stems. Smaller in form, too.
'Variegatus'	G 📥	24-36"		Apr - Apr	Smaller in size than P. 'Giganteus' but foliage is striking with splotches and streaks of white.

PHLOX (Phlox)

Tall varieties will get some mildew, which is normal. Watering at the base and not over the foliage will help.

maculata (\	Wild Sweet	William)

	'Franz Schubert'	0 0-	24-36"	Lavender	Aug - Sep	Lilac-lavender flowers. Very durable and sturdy.
	'Laura'	0 0-	24-36"	Purple	Aug - Sep	Clusters of purple flowers with white center. Mildew-resistant and one of our favorites. $ \\$
NEW	'Magic Blue' PPAF	0 0-	36-48"	Purple	Jul - Sep	Flowers open up as lavender-blue with a light center, and then fade to pale lavender with a lavender-blue eye.
	'Miss Elie'	0 0-	36-48"	Pink	Aug - Sep	Mildew-resistant strain with rosy-pink flowers. Another one of our favorites.
	'Nicky'	0 0-	24-36"	Purple	Aug - Sep	Truly striking, and one of the darkest purple tall phlox.
	'Orange Perfection'	0 0-	12-24"	Orange	Aug - Sep	Unusual color of salmon-orange. Bright and very showy.
NEW	'Purple Eyes' PPAF	0 0-	12-24"	Purple	Aug - Sep	Blue-purple flower heads with white eyes. Fragrant, and butterflies and hummingbirds love them!
	'Rainbow'	0 0-	12-24"	Pink	Aug - Sep	Compact and cute. Full fuchsia-pink clusters.
	'Red Riding Hood'	0 0-	12-24"	Red	Aug - Sep	Cherry red flowers, slightly more mildew-resistant.
	'Sandra'	0 0-	12-24"	Red	Aug - Sep	Good form and performance. Bright scarlet to orange colored clusters.
NEW	'Shorty White' PPAF	0 0-	12-24"	White	Aug - Sep	Perfect for containers or the front of any garden. Compact habit and fragrant white flowers. $ \label{eq:containers} % \begin{subarray}{ll} \end{subarray} % \begin{subarray}{ll} $
	'Starfire'	0 0-	24-36"	Red	Aug - Sep	One of the best and brightest of all red tall phlox.
	'The King'	0 0-	12-24"	Purple	Aug - Sep	Rich royal purple flowers, fragrant, stately, beautiful.
	subulata (Moss Creeping	Phlox)				
	'Atropurpurea'	0 0-	0-12"	Red	Apr - May	Very rich colored, wine-red flowers.
	'Candy Stripe'	0 0-	0-12"	Pink	Apr - May	Bicolored flowers of pink and white. Hard to find.
	'Emerald Blue'	0 0-	0-12"	Blue	Apr - May	Sky-blue flowers smother the low-growing foliage.
	'Emerald Pink'	0 0-	0-12"	Pink	Apr - May	Bright and numerous flowers cover the light green foliage.
	'Fort Hill'	0 0-	0-12"	Pink	Apr - May	Deep pink blossoms and somewhat fragrant.
	'White Delight'	0 0-	0-12"	White	Apr - May	Low-growing and popular. Looks great with other colors.
	x arendsii					
NEW	'Babyface'	0 0-	12-24"	Pink	Jun - Aug	Loads of fragrant red-centered pink flowers.

PHYSOSTEGIA (False Dragonhead, Lion's Heart, Obedient Plant)

The common name Obedient Plant comes from its flowers' ability to be twisted on the stem and still remain as they are arranged.

VII	rgı	n	ıa	na

'Miss Manners' PPAF	0 0-	24-36"	White	Jun - Aug	Non-spreading form with good clumping habit. Pure white snapdragon-like flowers.

PLATYCODON (Balloon Flower)

Balloon Flower gets its name from its bud and flower shape. Platycodon will sometimes go dormant after flowering, and it breaks dormancy quite late in the spring.
