OrthoPAC at a Glance

Letter from the Chair

Our PAC is the driving vehicle for our legislative successes. Orthopaedic PAC opens doors and offers unprecedented access to lawmakers. We invest heavily in candidates that support our cause and base our giving on a three-tiered system, weighted by members on committees of health jurisdiction, leadership, and issues of importance laid forth by our Advocacy Council. We are extremely disciplined in our giving, only delivering our support in-person, and only based on causes relevant to our specialty.

In the 2020 election cycle (2019 - 2020)

1,200+ political events attended	135 in-district events	234 events hosted in Washington DC	58 Political retreats attended
\$3.75M raised (hard and soft dollars combined)	5,000+ OrthoPAC contributors	2.7M Disbursed to physician-friendly candidates and incumbents	21 Congressional Candidates supported for Challenger/Open Seats
242 Incumbent members supported	#OrthoVotes GOTV Campaign	92% Win Rate in the House	85% Win Rate in the Senate

2020

\$1.8M raised (hard and soft dollars combined)	3,300+ OrthoPAC Contributors (up 6% from 2019)	360+ resident contributions	26 group practices and specialty societies in the Advisor's Circle
--	--	---------------------------------------	--

- PAC Executive Board Retreat
- PAC Resident Specialty Speed Dating
- OrthoVotes GOTV Campaign
- OrthoPAC Donor Appreciation Event with David Wasserman

- August In-District Peer to Peer PAC Out the Map Challenge
- Capitol Club Election Update with DSCC and NRSC Political Directors
- Capitol Club Evening with Manny Sethi, Orthopaedic Surgeon & Candidate for US Senate

MOVING FORWARD: ENSURING OUR VOICE IS HEARD ABOVE THE FRAY

Dear Colleague,

I am pleased to present the 2020 AAOS Orthopaedic PAC Annual Report. We publish this report as an update on the political program of AAOS, and as an educational tool for our members. As you flip through these pages, you will find a summary of our recent activity, and learn how you can get involved in the year ahead.

For the past 22 years, the AAOS Orthopaedic PAC (OrthoPAC) has played a crucial role in helping AAOS advance the interests of orthopaedic surgeons and their patients, by engaging with numerous influential lawmakers on a host of issues and by helping elect and reelect candidates that are knowledgeable about our profession. The relationships formed by OrthoPAC helped us fight for big wins in 2020, when we needed it the most. Together we were able to achieve:

- Providing 1,760 orthopaedic practices across the country with over \$300,000,000 in grants from the Provider Relief Fund from the CARES Act
- Worked with Congress to mitigate Medicare payment cuts to specialty that are slated for 2021
- Found a solution to surprise billing including an independent dispute resolution (IDR) process
- Repealed the McCarran-Ferguson antitrust exemption for health insurance companies
- And much more! See a full summary of our accomplishments on page 28 - 32

Our work is far from done - from educating lawmakers on the burdensome prior authorization process to emphasizing the importance of repealing the ban on physician owned hospitals - OrthoPAC needs to continue its strong voice for members in all the important policy debates affecting our industry.

With so many crucial issues up for debate in Washington, it is now more important than ever that we continue that work - and reinforce our efforts to build and maintain strong relationships with lawmakers.

A special thank you to all of our members who supported OrthoPAC in 2020 - a year that was so difficult to many of us both professionally and personally. I'm particularly proud that OrthoPAC participation grew 6% from 2019 - it's not about the amount you can contribute, it's having skin in the game - and we had a lot of skin in the game in 2020. Thank you.

I hope this report will inspire you to join the over 5,000 members that joined OrthoPAC in the 2020 election cycle. The more members invested in the policy debates facing our profession, the better the outcomes can be for our profession and our patients.

Thank you,

John T. Gill
Chair, Orthopaedic PAC
Capitol Club Member

Orthopaedic PAC Executive Committee 2020

The Orthopaedic PAC is fortunate to have dedicated leaders throughout the AAOS who govern the direction of the PAC. We thank them for their ongoing support and leadership.

The PAC Executive Committee meets one to two times face-to-face annually and meets many times by conference call throughout the year. The PAC executive Committee sets our giving strategy and political priorities. Priorities for the 2019-2020 cycle included increasing our soft/corporate dollars, increasing resident participation in the PAC, and increasing specialty participation, as well as further development of a peer-to-peer solicitation program. The 2021-2022 cycle promises unique challenges that will require creativity, teamwork and accountability to persevere.

OrthoPAC Q&A with Dr. Gill

The past year has put an increased spotlight on OrthoPAC. Below are the most common questions we received. Have any others questions? Feel free to reach out to pac@aaos.org.

Why does AAOS have a political program?

To answer this question, it is important to first understand that our advocacy efforts come from the Association arm of the AAOS in Washington, D.C., not from the Academy in Rosemont. In addition, The OrthoPAC is funded by voluntary individual contributions, irrespective of Academy dues or membership.

Next, comes the ‘Why.’ Conversations about U.S. healthcare policy will occur whether we are in the room or not, and while it’s cliché to say, our priority is to be at the table and not on the menu. The government decides:

- how we’re paid (Medicare Access and CHIP Reauthorization Act, Merit-based Incentive Payment System, bundled programs)
- how we practice (private, employed, academic, government, telemedicine)
- what we can do (scope, prior authorization)
- who we can treat (in network, out of network, Medicare beneficiaries)
- what we can own (hospital, imaging, ambulatory surgery center)
- how we’re insured (liability, medical)

Too much is at stake for musculoskeletal care to not be a part of these policy discussions. Sitting out is not an option. If we’re not involved or at the table, someone else will tell our story—it could be another physician group, health insurer, or healthcare organization altogether. No one should be telling our story or speaking to our experiences except for us. Not only that, but it would be a disservice to our profession and our patients.

Our political program allows us that opportunity to be heard and have our voices amplified. It lets us support our champions and share our message all at the same time, in tandem with traditional advocacy efforts on Capitol Hill and with regulators. While OGR staff meets and works with congressional staff, the face-to-face time with congressional members is crucial and even more effective when the message is delivered by orthopaedic surgeons that live in their respective district or state.

Who does the OrthoPAC support?

OrthoPAC supports the campaigns of members of Congress and candidates for federal office who understand the issues orthopaedic surgeons face daily and who will be sensitive to those concerns while making policy in office. OrthoPAC is a nonpartisan PAC, contributing to the campaigns of Democrats, Republicans, and Independents. We like to say you can’t spell “orthopaedic” without an R, D, or I. The perspectives and concerns of both Democrats and Republicans are important to our specialty, often on different issues.

OrthoPAC Q&A with Dr. Gill

At the beginning of every election cycle, the AAOS Orthopaedic Political Action Committee (OrthoPAC) Executive Committee reassess its contribution criteria. The importance of this critical step was heightened in 2021 and involved making recommendations that were later approved by the Advocacy Council and Board of Directors. The new contribution criteria is as follows:

- The AAOS Orthopaedic PAC (OrthoPAC) makes political contributions to candidates based on their character, integrity, and respect for human dignity as supported in the AAOS Code of Ethics and Core Values of Leading to Serve, Shaping our Future, and Excellence Together.
- Positive input from the AAOS OrthoPAC members and stakeholders (BOC, BOS, State Societies, Capitol Club Members, Advisors Circle) in the specific district of state
- Electability to the specified office.

These new criteria are in addition to existing criteria for assessing candidates, including:

- Views on issues of importance to the care of musculoskeletal patients and the maintenance and betterment of the profession of orthopaedic surgeons
- Position on a committee with jurisdiction over policy issues important to the care of musculoskeletal patients and betterment of the profession of orthopaedic surgeons
- Members in elected leadership position
- History of working well with the AAOS Office of Government Relations (OGR) staff and sponsoring or co-sponsoring legislation deemed important to AAOS
- Fellow orthopaedic surgeons and physicians running for office

OrthoPAC will apply this contribution criteria to all 435 House and 100 Senate members of Congress. The updated, full contribution criteria can be viewed at www.aaos.org/advocacy/pac.

Is OrthoPAC a SuperPAC? What is a PAC?

While we think we’re super, the answer is “no;” OrthoPAC is not a SuperPAC. SuperPACs are political committees that can receive unlimited contributions from individuals, corporations, labor unions, and other PACs.

OrthoPAC is a traditional PAC, which is a group of like-minded people who come together to pool their resources and advocate for their shared interests.

Traditional PACs then fall into three buckets: association PACs (like OrthoPAC), corporate PACs, and ideological PACs. PACs have been around since the 1940s after it became illegal for corporations to contribute to federal candidates. Traditional PACs, like OrthoPAC, are the most transparent vehicle of political contributions. For example, all contributions that OrthoPAC receives that are over \$200 can be viewed at www.fec.gov, and all of OrthoPAC’s disbursements can be publicly viewed as well. Individuals can only contribute up to \$5,000 per year to OrthoPAC, and OrthoPAC is limited in the amount it can contribute to federal campaigns (\$5,000 per election).

OrthoPAC Q&A with Dr. Gill

Who serves on the PAC Executive Committee?

The Orthopaedic PAC Executive Committee is made up of 18 dedicated members through a mix of slotted seats and appointments through the Committee Appointment Program (CAP).

THROUGH CAP	SLOTTED
<ul style="list-style-type: none"> • Chair • Treasurer • Secretary • Two At-Large Members • Resident Fellow • Early Practice Member 	<ul style="list-style-type: none"> • Chair, Board of Specialties • Chair, Advocacy Council • Chair, Board of Councilors • Chair-Elect, Board of Councilors • Second Vice President • Chair-Elect, Board of Specialty Societies • Chair, Advocacy Resource Committee • Chair, State Legislative and Regulatory Issues Committee • LFP Representative (LFP program phasing out) • Advisors Circle Representative • AAOS CEO (ex-officio)

What's next for 2021?

Our OrthoPAC Executive Committee has been working behind the scenes to ensure our political strategy aligns with our AAOS values. We've updated both our contribution criteria and our candidate questionnaire and we're excited to put them into action. We'll be calling on our AAOS OrthoPAC members and stakeholders for their input as we assess candidates in their respective districts and states.

Additionally, we'll be making information about OrthoPAC easier to find at www.aaos.org/advocacy/pac. Members will be able to easily find our governing documents, contribution criteria, PAC Executive Committee members, and our contributions (updated on a quarterly basis).

We're also taking this opportunity to educate our members on the mission of OrthoPAC and the important part it plays in our advocacy for our profession and our patients. Members of the OrthoPAC EC and AAOS staff would be happy to do a presentation for your practice, sub-specialty group or state.

At the end of the day we must be part of the policy discussions affecting us—our profession and our patients deserve it.

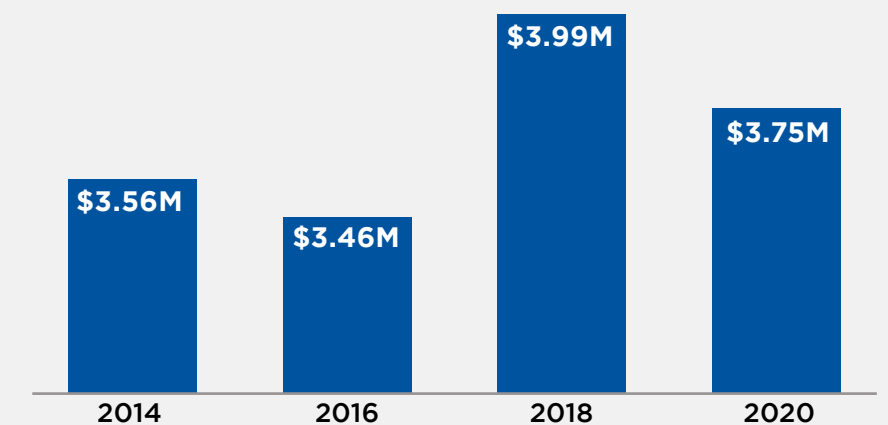

Orthopaedic PAC 2020 Financial Highlights

While receipts are annual, elections are reported on a two-year cycle. It is critical that our members support on an annual basis.

Together we raised over \$3.75M from over 5,000 orthopaedic surgeons across the country in this past election cycle. This unity allowed us to have a seat at the table for the crucial discussions affecting musculoskeletal care, especially during the pandemic.

Total Contributions made per election cycle

OrthoPAC maintains a high performing election cycle despite pandemic

THE ORTHOPAEDIC PAC CLOSED OUT 2020 HAVING RAISED OVER \$1.82M, AND \$3.75M FOR THE CYCLE, DOWN ONLY 3% IN HARD DOLLARS FROM THE PREVIOUS YEAR.

How it Works

Individuals can contribute up to \$5,000 to a PAC per calendar year. Corporate contributions (soft receipts) include checks and credit cards processed on a physician's business account including LLC, PC, or Inc. Personal contributions (hard receipts) are checks and credit cards from a physician's personal account. All contributions to the Orthopaedic PAC—whether written on a personal or business (corporate) check—are welcome and important. However, corporate contributions can only be used for PAC-related operational expenses, independent expenditures and state activities. Only those contributions written on a personal check can be used to support federal political candidates—and it is these contributions that help make the Orthopaedic PAC powerful.

Disbursements

In the second year of the 2019-2020 election cycle, the PAC disbursed over \$1.2M to 273 Members of Congress and candidates for office supportive of orthopaedic issues. Overall, in the 2020 cycle, the OrthoPAC disbursed \$2.3M. By both dollars and number of candidates supported, our giving rounds out to 54% Republicans and 46% Democrats. Our giving fluctuates as seats of power shifts. We support members of Congress not by the letter after their name, but rather their record and ability to support musculoskeletal matters. Priorities for the 2019-2020 election cycle were based on the PAC Executive Committee Criteria for giving, as noted below. These priorities as discussed and reaffirmed annually by the PAC Executive Committee and are weighted by committee type and issue relevance to the orthopaedic community.

Orthopaedic PAC 2020 Financial Highlights

This election cycle, the pandemic impacted everything, from the way we fundraise to how we interacted with member of Congress and our members. Despite the pandemic, we remained the second largest health care PAC by total dollars raised, and the largest PAC by total disbursements. We thank everyone who helped us finish strong!

Election Cycle	07-08	09-10	11-12	13-14	15-16	17-18	19-20
Hard Receipts	\$2,277,000	\$2,951,100	\$2,738,200	\$2,508,800	\$2,565,600	\$2,532,100	\$2,346,300

2012	\$1.45M	2,830	2012	\$483,000	1,031

Orthopaedic PAC 2020 Financial Highlights

Over \$1.2M disbursed to members of Congress and candidates

54%
Republicans

46%
Democrats

Nearly every PAC in the Medical and Dental Community raised less money in 2020 than 2019 due to lack of in-person events and a divisive political environment. The average PAC in the physician community lost an average of 17.7% from 2019. In contrast, OrthoPAC receipts were down by just 2.7%.

Orthopaedic PAC 2020 Financial Highlights

OrthoPAC Contribution Strategy

The Orthopaedic PAC carefully considers many factors before contributing to federal candidates and legislators. The PAC executive committee is guided by a specific document edited each election cycle outlining criteria for making political contributions. Please see page 9 For the 2021 updated criteria. The 2020 criteria are listed below:

TIER ONE includes orthopaedists running for Congress and incumbent members of Congress on key health care related committees	TIER TWO includes incumbent members of Congress on other committees which may handle important healthcare issues.	TIER THREE includes all other members of Congress and PAC requests
<ul style="list-style-type: none"> • Orthopaedic surgeons running for Congress • House and Senate leadership • Key Healthcare related committees: <ul style="list-style-type: none"> - House Ways and Means Committee - House Energy and Commerce Committee - House Appropriations Committee - House Armed Services - Senate Finance Committee - Senate Health Education Labor and Pensions Committee • Physician members of Congress (LFP program phasing out) • Party Organizations 	<ul style="list-style-type: none"> • House Veterans Affairs Committee • House Judiciary Committee • Senate Judiciary Committee • House Education and Workforce Committee 	<ul style="list-style-type: none"> • Special requests from the orthopaedic community/PAC contributors • House Science and Technology Committee • House Small Business Committee • Senate Special Committee on Aging • Other Leadership PACS • Independent Expenditures

Among these criteria are committee assignments, leadership positions, accessibility in Washington and in the state/district and most importantly, positions on orthopaedic issues. Candidates that fall outside of the established criteria are carefully reviewed by the PAC Executive Committee ensuring PAC money is put where it will best represent the profession. In addition to the established criteria the PAC Executive Committee reviews open seats and challenger races. As a PAC member, we value your input on these decisions. The insights and viewpoints of our contributors are always welcome and play a vital role in the decision to support a candidate or officeholder.

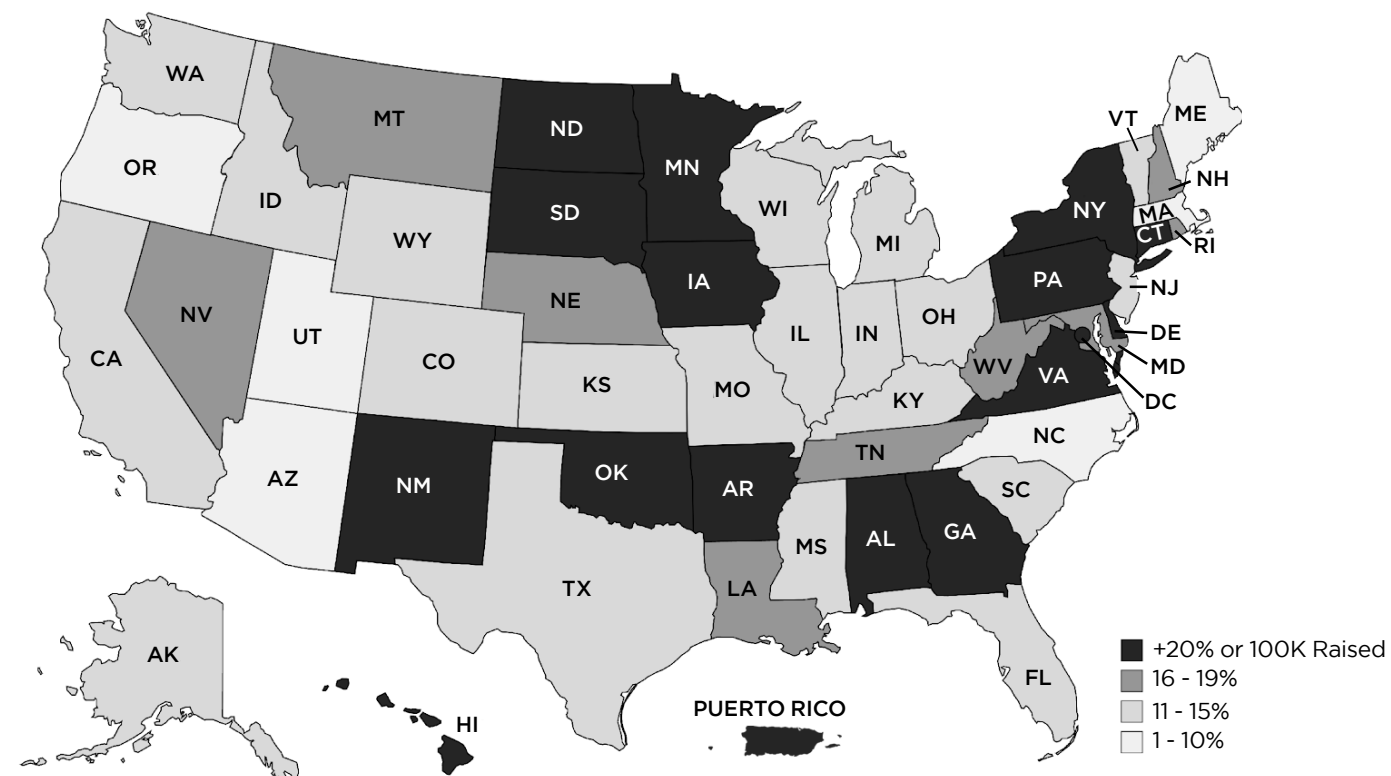

Orthopaedic PAC 2020 Financial Highlights

General Principles

The PAC will encourage orthopaedic surgeons who are members of the PAC to attend local political events, so that not all checks are presented in Washington, DC. PAC members who host in-district events can request up to \$5,000 for Members of Congress on before mentioned key committees. Up to \$2,500 can be requested for members of Congress on non-key committees. The leadership of the AAOS, including BOD, BOC, BOS, Advocacy Council, Council and Committee Chairs, as well as Orthopaedic PAC Capitol Club and Advisor's Circle members are encouraged to attend events in their own states and congressional districts (to facilitate open communications with elected officials). Participation in both the Republican and Democratic convention activity. (The PAC does not endorse or contribute to Presidential candidates.) Communication with the State Orthopaedic Society leadership as appropriate. OGR staff will always solicit PAC Executive Committee approval on any race that is contested, where a candidate is seeking an open seat, or where a candidate is challenging an incumbent.

THANK YOU TO THE STATES THAT ACHIEVED OVER 20% PARTICIPATION IN 2020!

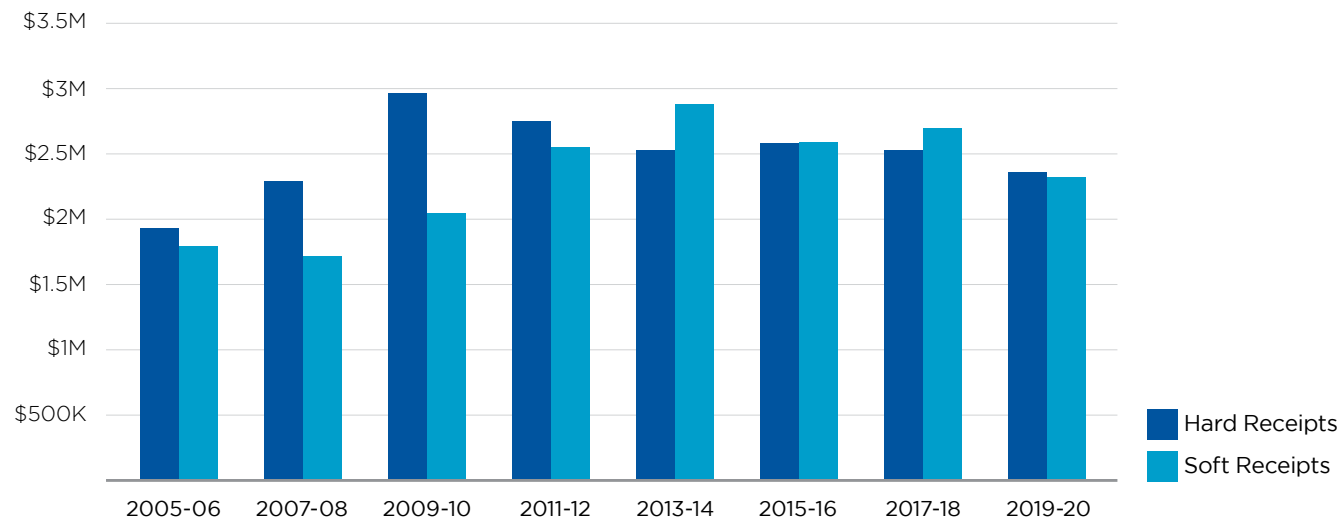

PAC Disbursements: The 2020 Election Cycle

The below chart represents total Orthopaedic PAC disbursements to federal candidate committees ranging from the 2005 - 2006 election cycle through December 31, 2020. 2019-2020 election cycle, the Orthopaedic PAC supported 278 incumbents and candidates, leadership PACs, and party committees in the US House and Senate. OrthoPAC also invested in our own, having supported 32 physician candidates this cycle. We were also members of both the Republican and Democrat Governors Associations to increase Orthopaedic PAC's reach and access in the states. Although AAOS PAC is a federal PAC, we also recognize the battles taking place in the states. We are always working to increase our political footprint and have invested in giving through the gubernatorial committees, and the state party committees. The policy conversations will occur whether we are in the room, or not, and we have made it our priority to be at the table and not on the menu.

This election cycle we have shifted our participation into virtual gear, attending 1170 events, 125 which were hosted. This year we have also increased our political footprint throughout the country. Every dollar we spent was an investment for the future of musculoskeletal care.

Orthopac Political Disbursements

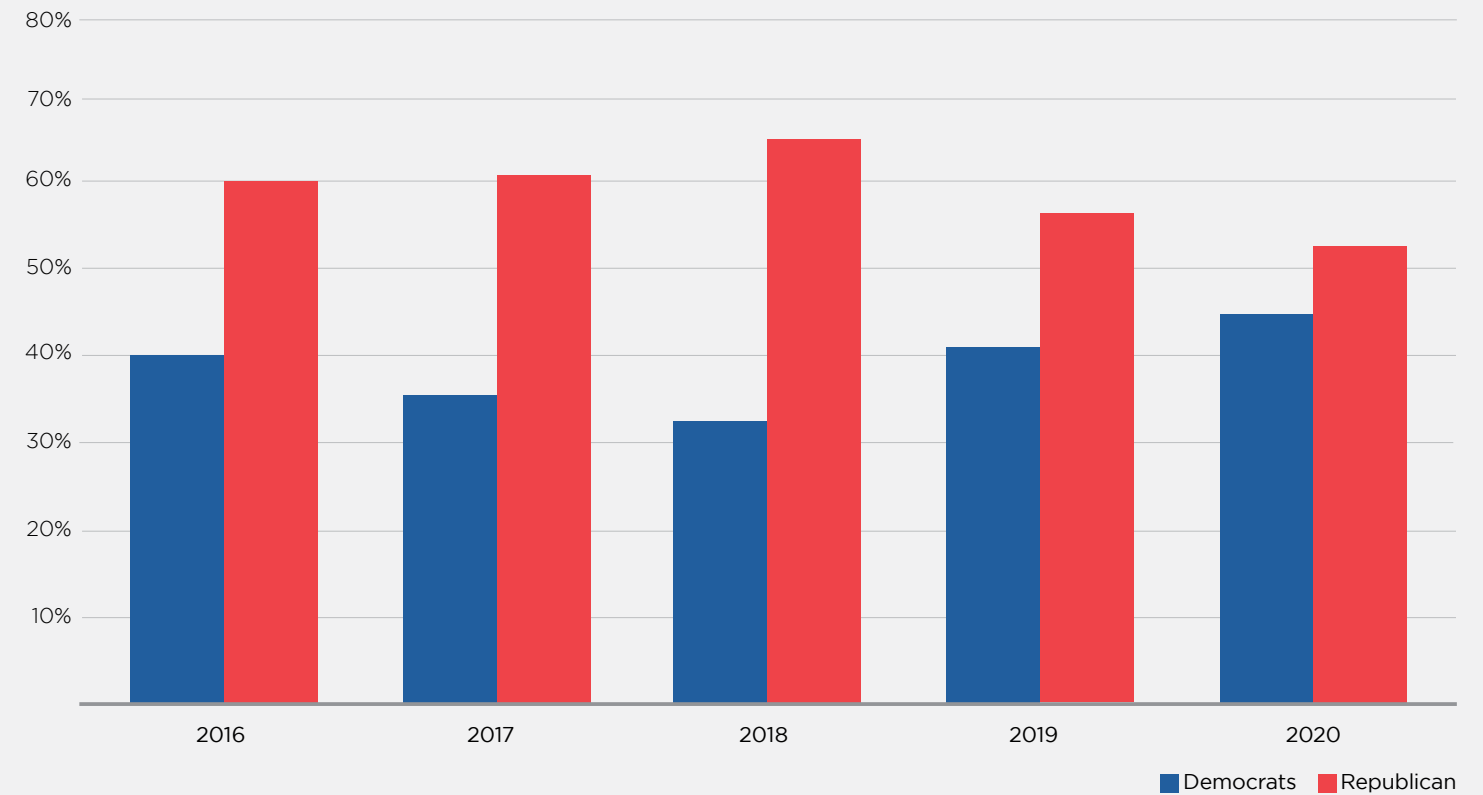

Election Cycle	07-08	09-10	11-12	13-14	15-16	17-18	19-20
Hard Receipts	\$2,277,000	\$2,951,100	\$2,738,200	\$2,508,800	\$2,565,600	\$2,532,100	\$2,346,300
Disbursements	\$1,016,087	\$880,473	\$951,049	\$1,018,804	\$895,000	\$1,462,500	\$1,409,500

PAC Disbursements: The 2020 Election Cycle

The Orthopaedic PAC supports members of Congress and candidates for federal office who understand the issues orthopaedic surgeons face on a daily basis, and who will be sensitive to these concerns in office. The PAC is a nonpartisan entity that contributes to Democrats, Republicans and Independents. You can't spell "orthopaedic" without an R, D, or I!

Relationship Building Across the Nation

Orthopaedic PAC Awards

2020 Orthopaedic PAC Hall “O” Fame

At the 2017 NOLC, the Orthopaedic PAC unveiled its newest donor recognition program: the Hall O Fame. The Hall of Orthopaedic Fame, or the “Hall O Fame”, is a program geared at recognizing individuals or groups that go above and beyond to make sure our Orthopaedic PAC is fully funded by initiating and developing PAC awareness, education and participation campaigns. Inductees are recognized by having their picture placed on the Wall O Fame in the AAOS office of government relations in Washington, DC. The Orthopaedic PAC was excited to induct its fourth class of Hall O Famers, at the 2020 In-District Advocacy Event Symposium in August. Our Hall O Fame inductees are recognized by lifetime achievement: dollars raised, peer to peer fundraising, resident involvement, and group practice engagement.

1

Our first 2020 inductee was **Stuart L. Weinstein**, MD, FAAOS. Dr. Weinstein served as the second Chair of the Orthopaedic PAC, growing our political program by leaps and bounds, even increasing our participation rate to an all-time high of 30%. He led the charge for medical liability reform and repealing the SGR and continues to be an amazing advocate for the house of orthopaedics. OrthoPAC has been incredibly lucky to have a champion like Dr. Weinstein guiding our efforts.

2

Another inductee, **Robert Slater**, MD, FAAOS, is a former Chair of the BOC’s Medical Liability Committee. While serving as Chair, Dr. Slater consistently worked to get his committee to 100% PAC participation. He would take the time to call every last member to encourage that they contribute to the OrthoPAC and would express the importance of investing in advocacy.

3

Our third inductee was **Jacob Calcei**, MD, who served as our second PAC Resident Fellow, a new addition to the PAC Executive Committee. During his tenure, Dr. Calcei grew PAC participation to unprecedented heights, reaching a 78% increase in resident participation and close to 400 resident PAC donors. He was also the lead author on a JAAOS article about the growth and influence of the Orthopaedic PAC, which was written and published in the OrthoPAC’s 20th anniversary year.

4

Finally, Dr. Gill recognized **OrthoAtlanta**, as our fourth inductee into the Orthopaedic PAC’s Hall O Fame. OrthoAtlanta has been a member of the PAC’s Advisor’s Circle program since 2017, but in 2019, not only did they contribute corporate dollars towards the Advisor’s Circle, they also increased their advocacy investment in personal dollars too. Every single orthopaedic surgeon at OrthoAtlanta contributed personal dollars to the PAC, another end of year miracle coming from the state of Georgia, as the Georgia BOC representatives are famous for their New Year’s Eve OrthoPAC shakedown in 2018!

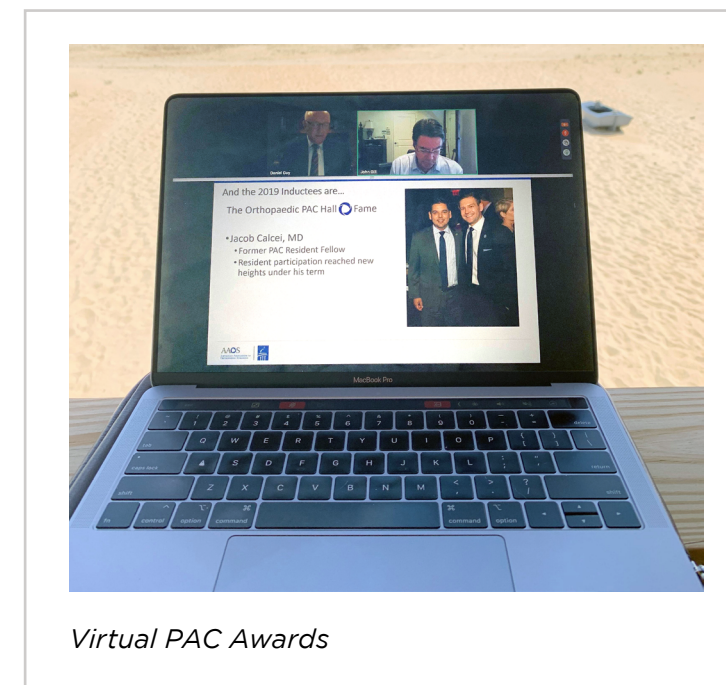

Orthopaedic PAC Awards

Stuart L. Weinstein Awards

On August 22, 2020 at the virtual NOLC Symposium during the August In-District Advocacy Event, PAC Chairman, John T. Gill, MD presented the Stuart L. Weinstein Awards. These annual awards, established in 2013, recognize the individual state with the highest PAC participation rate, as well as the state that demonstrates the greatest improvement in PAC participation from one year to the next. The states that are honored have emphasized the importance of Orthopaedic PAC membership through their state leadership, coordinating efforts with their state societies and BOC representatives to achieve widespread PAC participation. The Orthopaedic PAC was excited to recognize Delaware as the state with the highest PAC participation in 2019, coming in at 75%. This was Delaware’s fourth year in a row receiving this award. South Dakota was honored as the state with the most improved PAC participation, with a 23% increase from 2018 to 2019. Huge thank you to these two states for their investment in advocacy, as well as all of our states who reached 20% PAC participation or \$100,000 raised to help PAC OUT THE MAP in 2020!

Dr. Gill led the awards, saying “Peer-to-peer fundraising is one of the most significant ways to continue the growth of the Orthopaedic PAC and expand our political reach and clout. The states honored here today have emphasized the importance of Orthopaedic PAC membership throughout their state leadership, coordinating efforts between their state societies and BOC representatives to achieve widespread PAC participation.”

Virtual PAC Awards

The Advisor's Circle

THE ORTHOPAC ADVISOR'S CIRCLE IS THE AAOS' PREMIER PAC COPROPRATE DONOR PROGRAM.

The Orthopaedic PAC Advisor's Circle is a corporate* donor program designed to provide AAOS Members' group practices and specialty societies with a leadership role within the Orthopaedic PAC. Membership in the Advisor's Circle maximizes political and legislative opportunities for each group on a personalized basis. When the program launched four and a half years ago, we could not have imagined the success it would foster or the positive impact it would have on our political, legislative, and regulatory advocacy efforts. Today, the Advisor's Circle is 26 groups strong and represents over 9,000 orthopaedic surgeons across the country.

Advisor's Circle members are privy to a number of benefits. Benefits vary by commitment level and can be tailored to suit your group or specialties needs. Benefits include:

- Increased state and federal political access and opportunities, including attendance to exclusive governor and party committee retreats
- Increased presence in our nation's capitol, including lobby days
- Increased advocacy involvement, including customized legislative strategy and implementation
- Personal legislative updates by email, conference call, and webinar
- Other unique political opportunities, such as attending the convention, inauguration, etc.

Regardless of whether your practice is a member or not, the Advisor's Circle helps all orthopaedists by unifying the specialty. We are only as strong as we are unified!

The Advisor's Circle

Thank You to our 2020 Advisor's Circle Members

*Corporate donations from orthopaedic group practices and specialty societies will be deposited into our PAC general treasury account and used to offset the PAC's administrative and fundraising expenses. There are no limitations on the amount of the donation made by an orthopaedic group practice or specialty society.

** In addition to these generous supporters, AAOS also extends thanks to the American Orthopaedic Foot and Ankle Society (AOFAS) for increasing their investment and support in our advocacy efforts.

The Advisors Circle has a dedicated AAOS Staff Member, Meredith Allison.

For more information or to join, contact her at pac@aaos.org.

On the Issues, On the Hill

Medicare Cuts

Worked with Congress to mitigate Medicare cuts to specialty care slated for 2021. Language to partially prevent Medicare cuts was included in the combined \$900 billion COVID-19 aid package and \$1.4 trillion omnibus spending bill signed into law by the president on December 27.

Contributing action items:

- Led the orthopaedic community in supporting H.R. 8702, the Holding Providers Harmless from Medicare Cuts during COVID-19 Act of 2020.
- Joined with healthcare organizations in offering support for the [Senate companion bill](#) (S. 5007) to halt pending Medicare payment cuts slated for January 1 and provide two years of much-needed payment stability for physicians.
- Worked with the American Association of Hip and Knee Surgeons on [congressional letters](#) encouraging the Centers for Medicare & Medicaid Services to value pre-optimization time appropriately in its reimbursement of total knee and hip arthroplasty global codes.
- Joined with the Surgical Coalition in sending a [letter of support](#) for the Medicare Reimbursement Equity Act introduced by Senator Rand Paul (R-KY).

Surprise Billing

Worked with Congress to protect patients from surprise medical bills and avoid a federal benchmark for out-of-network bills. A solution containing an independent dispute resolution (IDR) process and other AAOS priorities was included in year-end legislation.

Contributing action items:

- Provided comments to the House Ways and Means Committee in February 2020 on the Consumer Protections Against Surprise Medical Bills Act.
- Joined the physician community in Fall 2020 in a letter to Congress advocating for our [preferred solution](#) to address surprise medical billing and to advocate for compromise legislation.
- On December 17, AAOS wrote to congressional leadership advocating for improvements to the newly announced No Surprises Act to reduce the administrative burden to physicians. Several of these suggestions were included in the final version.
- Thanked Congress for rejecting the insurer-favored benchmark approach and instead choosing a process for independent dispute resolution to finally resolve surprise medical billing.

On the Issues, On the Hill

COVID Relief

Worked with Congress to provide relief for physicians and practices impacted by COVID-19. This includes but is not limited to physician access to the paycheck protection program, prior authorization and telehealth relief, medical liability protection for volunteers, and relief from regulations limiting hospital bed supply.

Contributing action items:

- In March, voiced our strong support for the Immediate Relief for Rural Facilities and Providers Act, [legislation](#) to alleviate the unexpected and extreme strain on physician practices caused by the pandemic.
- Wrote to Congress to urge adoption of AAOS priorities including regulatory burden relief and support for physician practices in any legislative response to COVID-19.
- Signed onto a surgical coalition letter asking Congress for several [provisions](#) to be considered in draft legislation to help with COVID-19 challenges, including protection of frontline physicians, funding of military-civilian partnerships, and relief of unnecessary prior authorization.
- Expressed [support](#) for the Increasing Hospital Capacity to Fight the Coronavirus Act of 2020 which would ensure that states are not penalized for suspending certificate of need programs to increase their hospital bed supply.
- Following passage of the CARES Act, urged congress to [work urgently and responsibly](#) to pass a subsequent package that will ensure the safety and well-being of those caring for vulnerable populations during the global pandemic. AAOS highlighted further funding for the provider relief fund, telehealth flexibilities, and medical liability protections as priorities for Congressional intervention.
- Urged Congress to ensure immediate financial relief for surgeons nationwide by allocating additional [Provider Relief Fund](#) resources for offsetting Medicare payment cuts.
- Expressed our [support](#) for the Creating Capacity for Communities in Need Act, which would allow physician-owned hospitals to expand capacity and access to address the COVID-19 emergency.
- Expressed support for the Coronavirus Provider Protection Act which would protect healthcare workers and facilities at the front lines of the COVID-19 pandemic from frivolous lawsuits.
- Supported the Protecting Access to Innovation During COVID-19 Act to help ensure the access and flexibilities needed to adopt innovative technologies during and beyond the COVID-19 pandemic.

On the Issues, On the Hill

Anti-trust

Actively supported legislation to repeal the McCarran-Ferguson antitrust exemption for health insurance companies, empowering the federal government to enforce the full range of federal antitrust laws against health insurance companies engaged in anticompetitive conduct, including collaboration on pricing. This legislation was signed into law by the president on January 13, 2021.

Contributing action items:

- Supported the Competitive Health Insurance Reform Act of 2020, building the cosponsor list to 51 supporters in the House of Representatives and leading to House passage on September 21.
- Worked with our Congressional Ambassadors to clear Senate objections leading to Senate passage by unanimous consent on December 22.

In-District Advocacy Event

AAOS fellows spent the month of August meeting with their congressional representatives in person, by video call or by telephone to advocate for high-priority issues of importance to the musculoskeletal community. Although fellows are annually encouraged to meet with their representatives in-district at this time of year--when Congress is typically in recess--this is the first time that AAOS, in partnership with state orthopaedic societies, coordinated a nationwide campaign of this scale. Despite the many challenges presented as a result of COVID-19, the virtual nature of the event allowed for more orthopaedic voices to be heard at a time when physician leadership on healthcare policy is critical.

Advocates spoke with members of Congress about Medicare cuts, medical liability reform, prior authorization reform, and lifting restrictions on physician-owned hospitals. The August In-District Advocacy Event involved 1,400 orthopaedic surgeon advocates, 4,200 letters to policymakers, and more than 150 meetings with members of Congress during the month of August.

Grassroots

In 2020, AAOS saw great growth and engagement through the grassroots program including:

- 18,400 total grassroots messages sent – a 490% increase from the 3,120 messages sent in 2019.
- The top issues members engaged on were:
 - Evaluation and Management Code Issues – 13,200 messages
 - Surprise Medical Billing – 1,800 messages
 - Prior Authorization – 477 messages
- We sent a total of 12 grassroots alerts to the AAOS membership asking them to take action.

On the Issues, On the Hill

State Legislative and Regulatory Issues

Actively monitored nearly 2,000 pieces of state legislation on dozens of issues, along with a host of state regulatory activity, with the potential to impact orthopaedic surgeons across the country.

- Despite the significant impact of COVID-19 on state legislatures, allocated \$90,000 in AAOS State Health Policy Action Fund grants to support state orthopaedic society advocacy efforts on issues ranging from scope of practice to prior authorization to medical liability reform.
- Tracked and worked to ameliorate the impact of dozens of pandemic-related state executive orders that targeted medical procedures considered elective, and also ones that instituted new telemedicine flexibilities.
- Minnesota adopted legislation reforming the prior authorization (PA) requirements in the state. Specifically, the new law included reforms to shorten the times for a PA decision, provide continuity of care for patients who have received a PA, mandate adverse determinations be made by an in-state physician of the same or similar specialty, and require increased reporting and transparency of the criteria used by health plans for PA decisions.
- Supported the advancement of state-level solutions to unanticipated medical bills that include robust independent dispute resolution processes, such as a measure passed in Georgia in 2020.

Other Key Legislative Initiatives Supported

- Built support for legislation to reform prior authorization in the Medicare Advantage program, attracted 280 cosponsors, representing a clear majority of the House of Representatives, to the Improving Seniors' Timely Access to Care Act.
- Urged Congress to oppose the [Medicare Mental Health Access Act](#), which jeopardizes the safety of patients and would create silos in the delivery of care by changing the program definition of "physician" to include clinical psychologists.
- Urged congressional leaders, in coordination with more than 60 health care associations and specialty societies, to include the [Resident Physician Shortage Reduction Act of 2019](#) in any moving legislative package.
- Secured the [support of 77 members of Congress](#) for our requested \$35 million for the peer-reviewed orthopaedic research program in the FY 2021 Defense Appropriations legislation. The program received \$30 million, consistent with past levels of funding.
- [Expressed](#) our appreciation for introduction of the Medical Education for a Diverse America Act, which encourages cultural sensitivity for diverse patient populations.

2020 Capitol Club Donor Thank You

2020 Capitol Club Donor Thank You

In 2014 the Orthopaedic PAC unveiled its Capitol Club donor levels honoring the PAC's highest donors for those contributors that contribute \$1,000 or more on an annual basis.

Residents in Action

Resident involvement is crucial in strengthening the stature and influence of the AAOS and the Orthopaedic PAC in our nation's capital. Despite the challenges that 2020 posed, over 360 residents, across 64 residency programs, supported our PAC in 2010, totaling close to \$10,000 raised.

2020 Residency Program Challenge

We encourage all residency programs to reach Gold status with 100% participation in the Political Action Committee of the AAOS (Orthopaedic PAC) as part of the annual Orthopaedic PAC Residency Challenge. Programs that reach 100% participation will be recognized at the Resident Leadership Reception at the 2021 AAOS Annual Meeting in San Diego.

Congratulations to the following Gold, Silver, and Bronze orthopaedic residency programs in 2020:

GOLD (100% PAC Participation)

- Atlanta Medica Center
- Columbia University
- Mayo Clinic
- University of Connecticut
- University of Hawaii
- University of Iowa
- University of Puerto Rico

SILVER (70%+ PAC Participation)

- Maimonides Medical Center

BRONZE (50%+ PAC Participation)

- Albany Medical Center
- New York University

Residents in Action

Futures Capitol Club

The Orthopaedic PAC Capitol Club was established as a way for the AAOS PAC to recognize those individuals who have shown a strong commitment to advocacy. The Capitol Club has grown yearly since its inception, but it has largely been unattainable for residents because of financial constraints.

In an effort to help recognize those residents who have also shown a strong commitment to the PAC, the AAOS PAC Executive Committee recently approved the Futures Capitol Club. This club is exclusively for residents and will provide them with the same benefits bestowed upon members of the Capitol Club. Some of these benefits include:

- Complimentary entry and drink tickets to the resident reception that will be held at the Annual Meeting in 2021;
- A ribbon signifying Futures Capitol Club participation at the Annual Meeting and NOLC in 2021; Invitation to Capitol Club events such as the reception at NOLC, as well as virtual events throughout the year;
- Each individual's name will be listed in the PAC Annual Report, on the PAC website and at the PAC booth at the Annual Meeting.

Residents are eligible for inclusion into the Futures Capitol Club by meeting any of the following criteria:

- \$100 donation in one calendar year
- \$250 in total contributions during residency
- Donation of any amount to the PAC for four years in a row during residency
- A donation of \$25 and a 'grand rounds' talk to your residency about advocacy
- Coordinating the donations of at least 10 other residents from your program to the PAC (please contact us to set this up using our program-specific mobile donation platform)

For more information on resident PAC involvement and tools you can use to increase education efforts, please visit the Orthopaedic PAC Resources for Residents page at www.aaos.org/pac.

GET INVOLVED IN ADVOCACY

YOUR ADVOCACY TEAM

Exciting things are happening in Washington, D.C., and the nation for orthopaedists in every community. Many of these initiatives are the direct result of orthopaedists getting involved and making their voices heard. There is no better time than now to become involved in shaping the political landscape for the betterment of our patients. We invite you to join us in this effort!

READ ADVOCACY NOW

Advocacy Now is an email newsletter produced bi-weekly by the Office of Government Relations to keep AAOS members on top of important health care policy issues as well as supporting advocacy efforts. Questions or concerns about related content can be emailed to staff at dc@aaos.org.

LISTEN TO THE BONE BEAT PODCAST

"The Bone Beat" podcast covers health policy issues affecting musculoskeletal health. Through conversations with experts, each episode features insights on the changing landscape of orthopaedic surgery, plus advocacy efforts to advance quality and access to care. You can listen to the podcast at aaos.org/thebonebeat or through any of the popular listening apps. Be sure to subscribe to the show to receive updates when new episodes are released.

BECOME A CONGRESSIONAL AMBASSADOR

AAOS has a Congressional Ambassador program for fellows who are willing to be a part of the orthopaedic community's efforts to educate government officials and their staff about legislative and regulatory health policy issues. An Ambassador may help provide access to legislators and serve as a respected and knowledgeable voice on orthopaedic issues and those affecting the larger musculoskeletal community. AAOS members who are interested in joining the Ambassador program should email Madeline Kroll at kroll@aaos.org.

PARTICIPATE IN GRASSROOTS

Grassroots advocacy is a powerful tool for strengthening the voice of the orthopaedic community on critical health policy issues. With just a few clicks, you can send or customize pre-written letters to your legislators and ensure that your concerns and the interests of your patients are heard by lawmakers at the federal, state and regulatory level. Get involved today by participating in an ongoing initiative in the AAOS Advocacy Action Center.

JOIN THE ADVISOR'S CIRCLE

The Orthopaedic PAC Advisor's Circle is the AAOS' premier PAC Corporate Donor Program. The Advisor's Circle is designed to provide AAOS Members' group practices and specialty societies with a leadership role within the Political Action Committee of the American Association of Orthopaedic Surgeons (Orthopaedic PAC). A donation allows orthopaedic group practices to work together to maximize political opportunities on issues of importance to the orthopaedic community.

Based in Washington, D.C., with additional staff at the Academy's headquarters in Rosemont, Illinois, the Advocacy team identifies, analyzes, and directs all health policy activities and initiatives.
