COLLECTION 2022

We consider our job to be the best in the world. Miracles and happiness are part of our workdays and our customers' language is made of smiles.

With our products, we accompany parents and their offspring from the first day of their new life together. We create closeness and security, bring special moments of happiness, contribute to a pleasant feeling of safety and facilitate family's everyday life.

We are well aware of the high level of responsibility we bear in our work. Parents from all over the world place their trust in us and our products.

This is what makes us feel committed. To deal with this trust in a responsible way is both a requirement and an obligation for us. From the first sketch on a blank piece of paper to the last grip in manufacturing, our ideas, every thought and action are inspired by and oriented towards satisfying the needs of babies.

To discern and understand what is best for baby's well-being and their healthy development is our motivation.

Starting from this responsibility and conviction, our products are designed and developed.

Home Set | braid

Home Set.

Pure eye candy: the Salsa 4 Air Home Set in the „braid“ design comes with a woven wicker carrycot in retro style. Made of light-coloured wicker, it flatters the design with its naturalness. A new feature is the carrycot stand with the character of a Moses basket. So you can put your child in the basket next to your bed or in the living room and always be close to your little one.

The new carrycot.

Maximum comfort for parents and child: the new memory function allows you to unlock the carrycot mount one after the other, so you always have one hand available for the carry handle.

Another highlight is the new panorama ventilation window at the head end of the carrycot. In combination with the familiar ventilation window, ideal air circulation is ensured. To prevent baby's sensitive skin from resting directly against the mesh material of the ventilation window, the mattress has an extra-soft and enhanced protective edge.

Ping Two.

Discover the world with the small and manoeuvrable Ping Two buggy. Thanks to its extra-small folding size, you can easily take it with you wherever you go. It fits easily in the car, bus or train and you can even take it with you on the plane. You can also easily convert it into a practical travel system with your baby seat and use it from birth onwards.

Highlights Collection 2022

**Timeless.
Aesthetic.
Pure.**

These designs have what it takes to become classics. Simple beauty that stands out. The Classic Edition impresses with its clear, linear silhouette and restrained elegance: the perfect art of understatement.

Design „cream“

Fashion

**Modern. Bold. Unique:
the new Fashion Edition designs!**

Make a statement with the new Fashion Edition designs! The light grey outer fabric of the „mineral“ design is elastic and extra soft. A special feature of the fabric is its structuring, which creates a fine and multi-coloured look.

Our two Salsa 4 Air starter sets are available in two brand-new looks: the „cream“ design will delight young and old alike. The cute hedgehog pattern inside the carrycot fills the design with love down to the smallest detail. For the love of nature, the fabrics are made from recycled materials.

Salsa 4 | tin

DIAMOND
E D I T I O N

Look out: the new Diamond Edition designs are here!

Discover the new look of the stylish Diamond Edition now: with a modern grey, the „bubble“ design sets new trends. The pale pink fabric inside the carrycot harmonises perfectly with the grey design and breathes lightness and elegance into it.

The „herb“ design looks naturally beautiful with its dark olive tone. The light leather elements on the handlebar, carrycot and protective bar, which have a filigree diamond stitching sets the scene for the classy design.

The all-rounder

Stylish. Luxurious. Exclusive. A new definition of aesthetics. High-quality materials, expressive styling and elegant designs combine for a stunning up-to-the-minute look.

The Diamond Edition stands for pure elegance and high design standards down to the last detail. The Salsa 4 Air combines the benefits of the trusty Salsa 4 with the positive characteristics of pneumatic tyres. Enjoy life with the Salsa 4 Air.

The Salsa 4 Air is dynamic, lightweight and extremely easy to manoeuvre. A pushchair with personality which will be a reliable companion to you and your baby from your very first day together, wherever life may take you.

It has a surprisingly compact folding size and folds down very easily, even with the stroller attachment.

At the toddler stage you can swap the carrycot for the comfortable convertible seat unit which reclines right back so your youngster can lie flat. Swivel front wheels enhance its agility. Ball bearings, integrated suspension and large air-filled tyres also add to the smoothness and quietness of the ride, even on the biggest adventures.

Enjoy exciting moments with the Salsa 4 Air and build memories to treasure for life.

The combination pram Salsa 4 Air with matching accessories.

Enjoy pure zest for life with the 3in1 Salsa 4 Air pram. It is dynamic, agile and light.

A pram with personality that will reliably accompany you and your baby from day one. It features a very compact folding size as well as a transport-friendly carrying weight. As soon as your baby learns to walk, you switch from the carrycot to the comfortable and reversible seat unit. Swivelling front wheels give the pushchair its manoeuvrability. High-quality bearings, the integrated suspension and the large air wheels ensure a smooth and quiet walk even during the biggest adventures. Enjoy vivid moments with the Salsa 4 Air and create memories for life. Experience the Salsa 4 Air in practical combo-sets with great accessories and a fantastic look.

The “cream” design puts a smile on your face, whether you are young or old. The cute hedgehog textile pattern on the inside of the carrycot shows love down to the smallest detail. The cream coloured belt elements of the seat unit highlight the look with warm natural tones.

The design is topped off by different shades of brown on the outer fabric and leather applications, as well as on the protective bar and handlebar. The black frame complements the style of the cute hedgehog design.

The Salsa 4 Air. The complete and comfortable home set.

Eye-catching: a unique & natural look with woven carrycot in retro style.

Dynamic, versatile and lightweight. The Salsa 4 Air 2in1 pram is perfect for you and your baby from the very first day together. It works well on public transport with its comfortable carrying weight and a very compact folding size.

As soon as your toddler can sit you can switch from the comfortable carrycot to the convertible sport seat. Its large pneumatic tyres and integrated suspension ensure a smooth and quiet ride on any surface. The swivelling front wheels make the Salsa 4 Air extra versatile.

With the practical combination set, the Salsa 4 Air not only makes everyday family life easier when you are out and about, but also in your own home and lets you experience home in a new way.

One of the special features: the carrycot base frame with wicker basket character. You can place your child in the carrycot next to your bed or in the living room making sure you are always close to your little one.

Discover the Salsa 4 Air as part of the comfortable home set with great accessories in matching designs.

**For our
environment,
for our
children,
for our
future!**

**Future-
oriented
recycling of
PET bottles.**

Empowering change: for the love of nature

450 years. That's how long it takes for a PET bottle to decompose in nature where it remains as microplastic. In Europe alone, every year millions of tonnes of plastic are thrown away as a matter of course.

According to estimates 4.8 to 12.7 million tonnes of plastic waste end up in our oceans every year, which is the equivalent to about one truckload per minute. By 2050 there will be more plastic swimming in the sea than fish if things stay as they are. But it requires change and action. For our environment, for our children, for our future.

Prams made from PET bottles

With our „nature“, „midnight“ and „cream“ designs, we are taking a stand against plastic waste. The high-quality fabrics of these designs are based on the future-oriented recycling of PET bottles.

For the production of one single pram up to 100 PET bottles are being recycled. But how does a simple plastic bottle become a chic fabric for the pram?

PET bottles
are cleaned,

shredded and melted
down into granules.

The granules are then pro-
cessed into polyester fibres

which then will be
woven into our fabrics.

To produce the fabrics, the collected PET bottles are first thoroughly cleaned, shredded and melted down into granules. The granules are then processed into polyester fibres and spun into a high-quality yarn. This is then woven into the fabrics that make up our sustainable designs.

Small, light, compact - your ideal companion for every adventure.

The ABC Design Samba 2 in 1 leaves nothing to be desired, and offers maximum flexibility and comfort. The height-adjustable handlebar with extra legroom while walking and the integrated suspension ensures maximum comfort for you and your partner. Thanks to the ergonomic overnight sleeping mattress, your baby will always be comfortable not matter where you are. The integrated air holes in the mattress assure optimal ventilation and prevent heat accumulation within the carrycot.

Very clever: The perfect space saver you can quickly fold the carrycot and store it in the boot of your car. The new memory function of the carrycot release buttons offers ease of use for parents. You unlock the release buttons one after the other which assures you always have one hand available to hold the carrying handle on the hood.

This makes it even easier and safer to remove the carrycot from the frame of your pushchair. You can adjust the backrest and the footrest for maximum comfort, especially when your child wants to have a relaxing nap after an adventurous walk in the complete layflat position. Whether in the city, in the park or on stable ground - your new ABC Design Samba pram with its air chamber wheels masters any terrain. Thanks to its practical swivel wheels, the Samba literally dances around tight bends and can be navigated easily.

The parking brake and the 5-point harness system ensure optimal safety for your baby. This sophisticated travel system: with the optional adapter you can easily clip your baby car seat onto your pushchair. Thanks to the small folding size, you can store the pram in the boot of your car to save space or take it with you on the bus or train without any difficulty. Also a huge help: If you need to get moving fast, the Samba folds down very quickly, even with the seat unit attachment.

The perfect travel companion

Are you ready for a city adventure? The plan is to negotiate the streets of the urban jungle effortlessly with your loved ones. Regardless of where you might end up, the Limbo stroller is your perfect companion at any time.

This pushchair is extremely narrow and lightweight. It can go anywhere and you will be impressed by its extremely compact folded size, allowing it to fit into the tiniest of spaces. Its compact frame can be folded down easily and safely for transporting, using its handy trolley function. The stroller cuts an attractive figure visually as well. The whitewall tyres are manoeuvrable and funky, ensuring a stable ride with good manoeuvrability and flexibility.

Your child will enjoy travelling in the comfortably padded seat which grows with them and can be turned around, extended and laid completely flat with just a few clicks. It's your choice – use the pushchair as a stroller or you can add the Limbo comfy carrycot with its generously-sized mattress, with a seat unit or as a compact travel system with a Group 0+ car seat.

The joy at the birth of twins or of a little brother or sister is simply indescribable.

But the double bundle of joy holds new challenges. The role of the pushchair in family life becomes more important than ever. The Zoom allows you to keep the freedom and flexibility which you cherish.

The seat, carrycot and car seat can be combined in any way depending on age. The Zoom is easy to manoeuvre with its swivel wheels, and its compact design is a boon in confined spaces. It can be converted to a travel system in just a few clicks and folded away to a minimum.

For your children the Zoom is the nicest place to discover the world together. They can look at each other as they are pushed along, laugh together, look up at you or just sit and watch the world go by.

Handy and compact travel buggy for active families.

Discovering the world begins right outside the front door. But for those families who are always on the go or love to travel, the world of adventure also continues far away from home.

Travelling with a toddler requires the right equipment. A lightweight and small buggy is of course an essential. The handy and practical Ping Two buggy is ideal for parents and their offspring who love to be on the move. Its extra compact folding size down to hand luggage size and its very light weight are impressive when travelling by car, plane, bus or train. The manoeuvrable travel buggy can be steered, folded and unfolded effortlessly with just one hand.

Especially when travelling, comfort for your child is more important than ever in addition to practical handling. Thanks to the padded seat with completely flat reclining position and generous sun canopy with UPF 50+, your child will enjoy the trips and journeys relaxed and full of comfort.

Another plus: you can easily combine your ABC Design car seat with the travel buggy and use it from birth. Whitewall wheels and trendy designs make the practical travel companion also an eye-catcher with a unique character.

Little dolly's parents will be thrilled to bits with the Migno doll's travel system

The Migno is every bit as good as the big version in both quality and function, offering everything a child could wish for.

The doll's pram is very popular thanks to its stylish design, just like the bigger models. The pushbar grip and bumper bar have high-quality imitation leather handles. Your child will set trends with the sophisticated aluminium frame. The smart whitewall wheels give the doll's pram an impressive and elegant look.

Thanks to the swivelling front wheels, this stylish doll's pram is child's play to steer. You can adapt the hinged push handle to suit your child's individual needs. This is particularly important to ensure a comfortable and healthy pushing experience.

You can simply click the carrycot onto the nifty frame – just like the “grown-up” pushchairs from ABC Design. When dolly gets a bit bigger, you can swap the carrycot for the stroller seat. The bumper bar on the doll's pram is easily removable. This makes it easy to lift dolly out of the stroller.

The stroller seat and carrycot can be attached either facing the direction of travel, or with dolly looking at mummy or daddy. Ideal for adventures: The large shopping basket provides enough storage space for dolly's things or shopping. You can easily fold the doll's pram up to transport it.

Recommendation	from 3 years

The Tulip car seat offers optimum protection at all times.

The integrated seat cushion provides good support for your baby while you are out and about, and the slightly rounded base adds a gentle rocking motion. The Tulip car seat boasts a simple attachment mechanism for rapid conversion to a travel system, requiring only a few hand movements to be mounted on the ABC Design pushchair models, or it can be fitted securely into your vehicle using the Tulip Isofix Base.

The car seat Tulip is suitable for children from 0 to 15 months, 45 - 85 cm or weighing up to 13 kilograms. Its adjustable headrest can be easily adapted to the child's individual size. The removable cover is washable.

Isofix Base Tulip | black
Art.-No. 12001611000

The Isofix Base Tulip combined with the Tulip car seat achieves optimum protection through the use of Isofix fittings.

The base unit is fixed into the vehicle with the Isofix anchor points. The car seat is then simply attached onto this base unit. While the car seat can be flexibly removed, the base unit remains fastened in the vehicle.

ISOFIX: Isofix is a standardised fitting system which is safe and simple.

Please refer to the user manual of your vehicle to find out whether it is compatible with Isofix.

R129 (i-Size) is the new European standard for child car seats. The i-Size regulations are designed to provide children with additional protection and safety in the car. There is increased support for the child's head and neck and better protection in the event of both frontal and side-impact.

2in1 child's seat with long service life for children from 76 – 150 cm (15 months - 12 years)

Safety and stability: i-Size standard, 5-point harness system, Isofix and Top Tether attachment.

Outstanding comfort: soft seat cushions & integrated ventilation system for a pleasant ride.

The 2in1 i-Size child's seat Aspen brings your child safely & comfortably to its destination and is characterized by its long service life.

You can adjust the car seat optimally to the needs of your child. In the beginning, you fasten your little one in with the 5-point safety belt. The child's seat is firmly connected to the car thanks to the Isofix connector system. In addition, the Top Tether attachment ensures even more safety.

- 7-way adjustable and comfortable headrest
- 4 sitting and resting positions
- side-collision protection

You can easily adjust the angle of the seat with one hand into a comfortable resting position. If your child is older, you can simply remove the seat minimizer and use the 3-point harness system from your car to strap your child. The clever belt guide system prevents the belt from slipping and twisting. You can perfectly adjust the headrest to your child's height thanks to 7 different height positions. The soft, breathable seat cushions and the integrated ventilation system ensure a pleasant sitting feeling even on the hottest days. In case of a side crash, the side-collision protection distributes the resulting forces evenly and thus reduces them. The head, upper body and pelvis are therefore even more protected.

- integrated ventilation system
- removable seat minimizer

Dimension (L x W x H)	52 cm x 44 cm x 82 cm
Weight	12,8 kg

R129 (i-Size) is the new European standard for child car seats. The i-Size regulations are designed to provide children with additional protection and safety in the car. There is increased support for the child's head and neck and better protection in the event of both frontal and side-impact.

Universal child's seat group 2/3 with long service life - for children from 15 - 36 kg (approx. 3 - 12 years), ideal for cars with and without Isofix

Growing system: the seat can be individually adjusted in height and width.

Your new ABC Design child's seat Mallow adapts to the needs of your child and is super comfortable. Ideal for cars with or without Isofix: you attach the car seat with the 3-point harness system in your car. The additional Isofix-system provides even more safety and stability. The 4-way adjustable backrest with headrest can be easily adjusted in height and width to the size of your child. Like this the child's seat Mallow grows with your kid for a long time.

- height-adjustable backrest
- integrated energy absorbent

The clever belt guide system prevents the belt from slipping and twisting. Like that the belt is always in the right position. Thanks to the extra-soft cushioning and the comfortable armrest of the seat, your child enjoys high comfort even on longer journeys. In case of a side crash, the side-collision protection distributes the resulting forces evenly. This provides even more protection for the head, the upper body and the pelvis. You can attach the child seat in two ways: either with the 3-point harness system of your car or additionally with the Isofix system.

- side-collision protection
- leaning-adjustable backrest

Dimension (L x W x H)	45 cm x 55 cm x 80 cm
Weight	7,2 kg

ISOFIX: Isofix is a standardised fitting system which is safe and simple.

Please refer to the user manual of your vehicle to find out whether it is compatible with Isofix.

ECE R44/04 is an EU safety standard for car seats. It is based on the weight of the child and is divided into the following groups. Group: 0 (from birth to 10 kg), 1 (9 to 18 kg), 2 (15 to 25 kg) and 3 (22 to 36 kg). There are also mixed groups that cover several groups, such as 0+ or 2/3.
