API:	Integration into VMS Software using manufacturers "Application Programming Interface" (API)
http:	Integration into VMS Software using "http" request
rtsp:	Integration into VMS Software using "rtsp" video stream
OnVIF	Integration into VMS Software using "OnVIF"
Scan:	Camera is recognized after network search is performed in VMS software
uPnP:	Camera is recognized by Microsoft Universal Plug and Play
+:	Function is supported
-:	Function is not supported
