Lock in small format

XL size

Lock in large format

Lighted key

Lighted key included

Manual locking

Active locking with a key required

Automatic locking

No active locking with a key required

Robust webbing

High-tech mesh, durable and hydrophobic

Combo

Combination code is factory set

Individual code

Combination code can be freely selected

Rechargeable

Rechargeable battery

Battery

Including battery

Bordo 6-bars

Folding lock with 6 bars
The classic

Bordo 8-bars

Folding lock with 8 bars offers even more flexibility due to greater length

SmartX

Innovative locking system, controlled via smartphone

XPlus

Picking-resistant disc cylinder „XPlus“

Plus

Picking-resistant disc cylinder „Plus“

Keyed alike

Multiple locks can be operated with a single key

Magnetic bracket

Innovative bracket with magnetic function

Lightweight

Lightweight lock, ideal for sports use

Alarm

Lock with 100 dB alarm function

OEM

Locks are delivered without sales packaging so they can be mounted more quickly. Ideal for use in workshops

Helmets

ABS hard shell

Robust helmet made of EPS foam and injection molded outer shell

In-Mold

Lightweight, durable helmet with a long-lasting combination of EPS core and Polycarbonate shell

In-Mold/ABS

Combination of robust hard shell and In-mold

High visibility

High visibility due to reflectors

Bug mesh

Full protection from insects

Ponytail compatibility

Perfect fit for people with long hair

Half-ring

Adjustable ring connected to adjustment system enclosing half of the head

Full-ring

Adjustable ring connected to adjustment system enclosing all of the head

Lower edge protection

Provides the helmet with additional protection from external damage

ActiCage

Structural reinforcement integrated into the EPS to optimize stability

XL Size

Large helmet sizes available (62+ cm)

Ventilation

Number of air intakes and outlets

Forced Air Cooling

Innovative ventilation system using intelligently arranged air channels in the EPS

Multi Position Design

Optimized aerodynamics – regardless of head position and wind angles

Multi Speed Design

Honeycomb structure in the helmet, which doses the ventilation as needed

Discover the new 2019 catalog!

We're happy that you're holding the new 2019 ABUS catalog in your hands. The purpose of this catalog is not only to inform you of our product innovations, but also to present our new catalog concept:

An easy-to-understand organisation with quick access to each chapter as well as a list of all product novelties at the start of each chapter make it easy for you to find our new products. For an even better overview, you'll find a summary of all helmet models and colors behind each chapter entry page.

Clear product icons instead of long texts make it a breeze to compare products, and our new technology pages keep you informed about our unique technologies.

Another new feature: The icons at the side provide you with an overview of all of the specifications of our products. Just fold out the additional page of the cover and you've got all the relevant information at your fingertips at any time.

We hope you enjoy daily use of this catalog and that it offers you a better basis for your work.

Your mobile security team

ABUS - Made in Germany

When August Bremicker and his sons founded ABUS in 1924, they had a lot of experience with craftsmanship – and a clear vision: They wanted to create products that protected human life and property. It was a far-sighted corporate guideline – paired with an expectation for quality right from the start. It was the start of a continuous success story. The ABUS brand became a synonym for security.

High-quality materials

To be able to offer consistently high quality and security, we use high-quality materials at every price level. Complex hardening processes guarantee the best attack resistance in our materials. Our internal quality management processes all materials before and during the production process and ensures that every product has the high quality you expect.

The key to success

At ABUS, we produce and build many of our machines ourselves and all the tools we use in the production of our security products in-house. That bundles know-how, guarantees jobs, and strengthens identification. Our own engineering and toolmaking department concentrates exclusively on the development of bicycle and motorcycle locks.

This ensures that we meet the tough requirements you place on your bicycle or motorcycle lock every day.

Ensuring continuity

In our own ABUS test laboratory, we routinely carry out tests and attacks on our products to ensure that we offer consistently high quality.

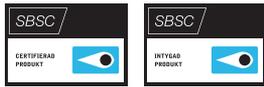

Among others we make sure our locks are resistant to:

- Ice spray attacks and freezing conditions thanks to a -40°C chamber
- Twisting, pulling, hammering and sawing attacks with help of our manual or mechanical tests
- Rust by simulating highly corrosive weather conditions

Approvals

ABUS locks are tested and approved by independent, neutral testing institutions in a number of European countries. The following seals of approval confirm the outstanding security of ABUS cycle locks:

Svenska Stöldskyddsföreningen
Stockholm, Sweden

Norges Forsikringsforbund
Oslo, Norway

Dansk Varefakta Naevn
Copenhagen, Danmark

Finanssiala
Helsinki, Finland

ART ANWB, RAI, TASS
Helmond, The Netherlands

THATCHAM VEHICLE SECURITY

ABUS OEM

Strong service partner, reliable supplier ABUS as OEM partner – your first choice

In the bicycle market, the factors of success are added value, differentiation, flexibility, availability, fast service and high capacity. Suppliers that work with bicycle manufacturers have to meet the corresponding requirements. ABUS does meet them.

As a globally experienced specialist in mobile security, we offer you the best possible support and a high level of reliability.

For years, ABUS has been a synonym for security, and has earned a leading position in the bicycle accessory market.

Quality „Made in Germany“ and „Just in time“ deliveries: concentrating on these core competences has made us an important partner for many bicycle manufacturers worldwide.

We are also a strong partner on the OEM market, offering a wide selection of frame locks, integrated security solutions, and many individual products. Among others, we offer keyed alike locks and battery cylinders for e-bikes.

Allow us to take advantage of mutual synergy and implement it to our shared success!

Our OEM team looks forward to hearing from you at: oem@abus.de

We hope to continue our good cooperation with leading bicycle manufacturers!

ABUS OEM

Custom security

Custom security solutions are not just a trend, but also a very convenient way for cyclists to secure their beloved bicycles. Take advantage of our more than 90 years of experience, and set yourself apart from the masses with a customized security solution.

Giant

LOCKING TECHNOLOGY

SECURITY MADE IN GERMANY

... for us, this is more than just an ad copy. It's a philosophy we live and breath every day. From high-quality materials to patented security solutions to innovative locking technologies. ABUS locks "Made in Germany" have been manufactured with high precision and many years of experience for over 90 years in Germany.

Materials

Special hardened steel makes our products extremely hard at the material surface and extremely tough in the core of the material. The best solution against brutal attacks – from sawing and cutting attacks to ice sprays.

Power Cell technology

The ABUS Power Cell technology offers highest protection against hitting and pulling attacks. It is built into selected chain locks, Steel-0-Flex, and U-Shackle locks.

Power Link technology

To provide extreme resistance against highest pulling forces, ABUS offers the Power Link technology. The chain is highly fixed in the ABUS Power Cell, making it far more difficult to pull the chain out of the lock body.

XPLUS AND PLUS CYLINDERS

The high-quality cylinders XPlus and Plus from ABUS offer extremely high protection. They resist picking attempts just as well as brutal drill attacks.

As disk cylinders, they are the most secure ABUS currently offers.

Link Protection Shield

The ABUS Link Protection Shield technology makes the BORDO GRANIT XPlus™ 6500 even more secure.

The special links are both flexible as well as extremely robust against sawing attacks.

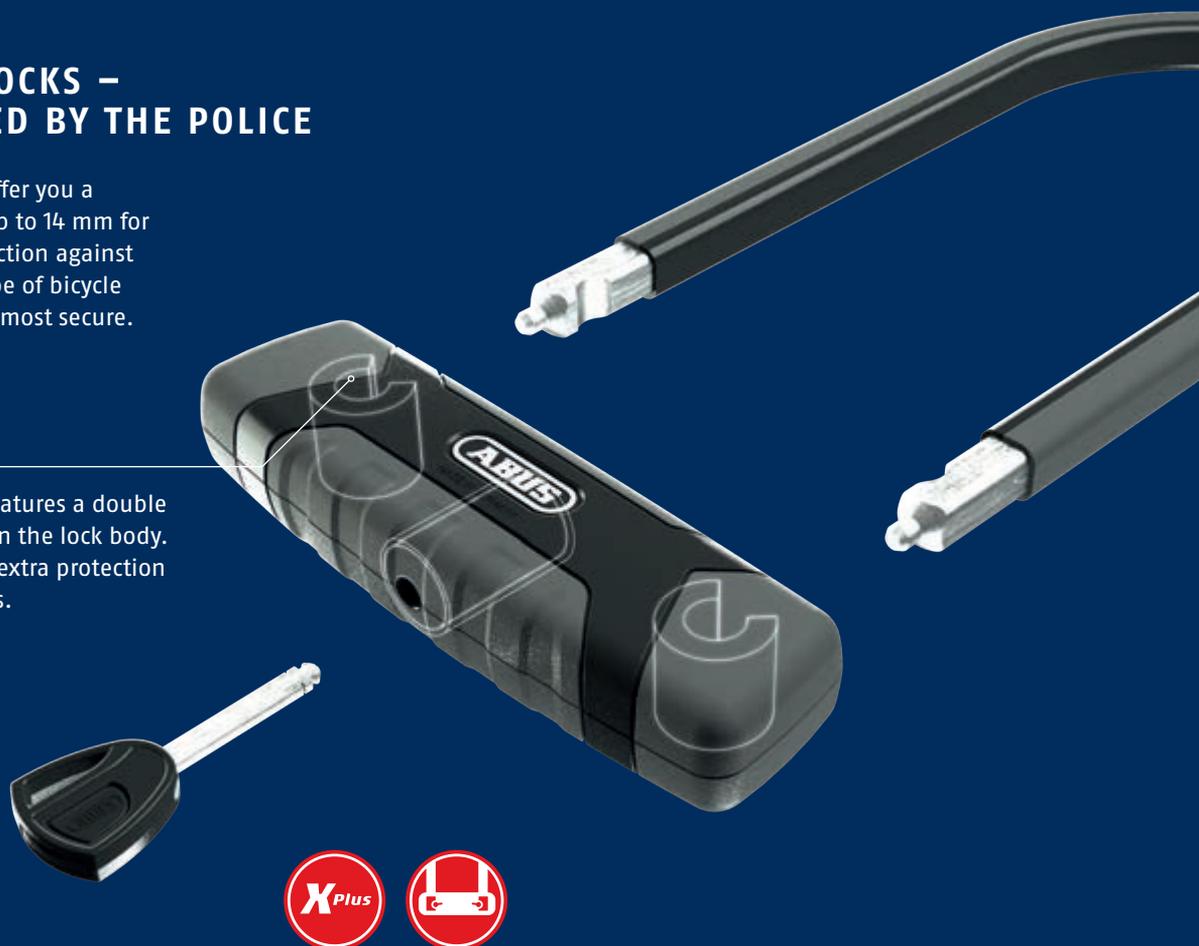

U-SHACKLE LOCKS – RECOMMENDED BY THE POLICE

ABUS U-Shackle locks offer you a material thickness of up to 14 mm for the best possible protection against bicycle thieves. This type of bicycle locks is considered the most secure. The police agree.

Double Locking

ABUS U-Shackle locks features a double locking of the shackle in the lock body. This mechanism offers extra protection against twisting attacks.

CONVENIENCE

PRACTICAL FEATURES

At ABUS, we haven't simply made it our task to make life a little more secure, but also to make security a little more convenient. Below, you'll get an overview of the practical details that make the daily use of our products easier.

Lighted digits

Like a lighted key, the lighted digits of our Combo locks make day-to-day use a lot easier. Simply press the button and the digits light up, making it easy to set your combination even in bad lighting conditions or even in the dark.

High-quality

2-component digits

Some Combo digits become illegible after long-term use, as the digits are just printed.

That's why we fabricate our 2K digits from two long-lasting components that guarantee you long-lasting legibility.

Automatic cylinder

For even easier operation of the lock, some ABUS products have an automatic cylinder. This ensures that you don't need to actively use a key to lock up your bike. Just press the locking bolt into the lock body. A quiet click assures you that your lock is now locked.

Lighted key

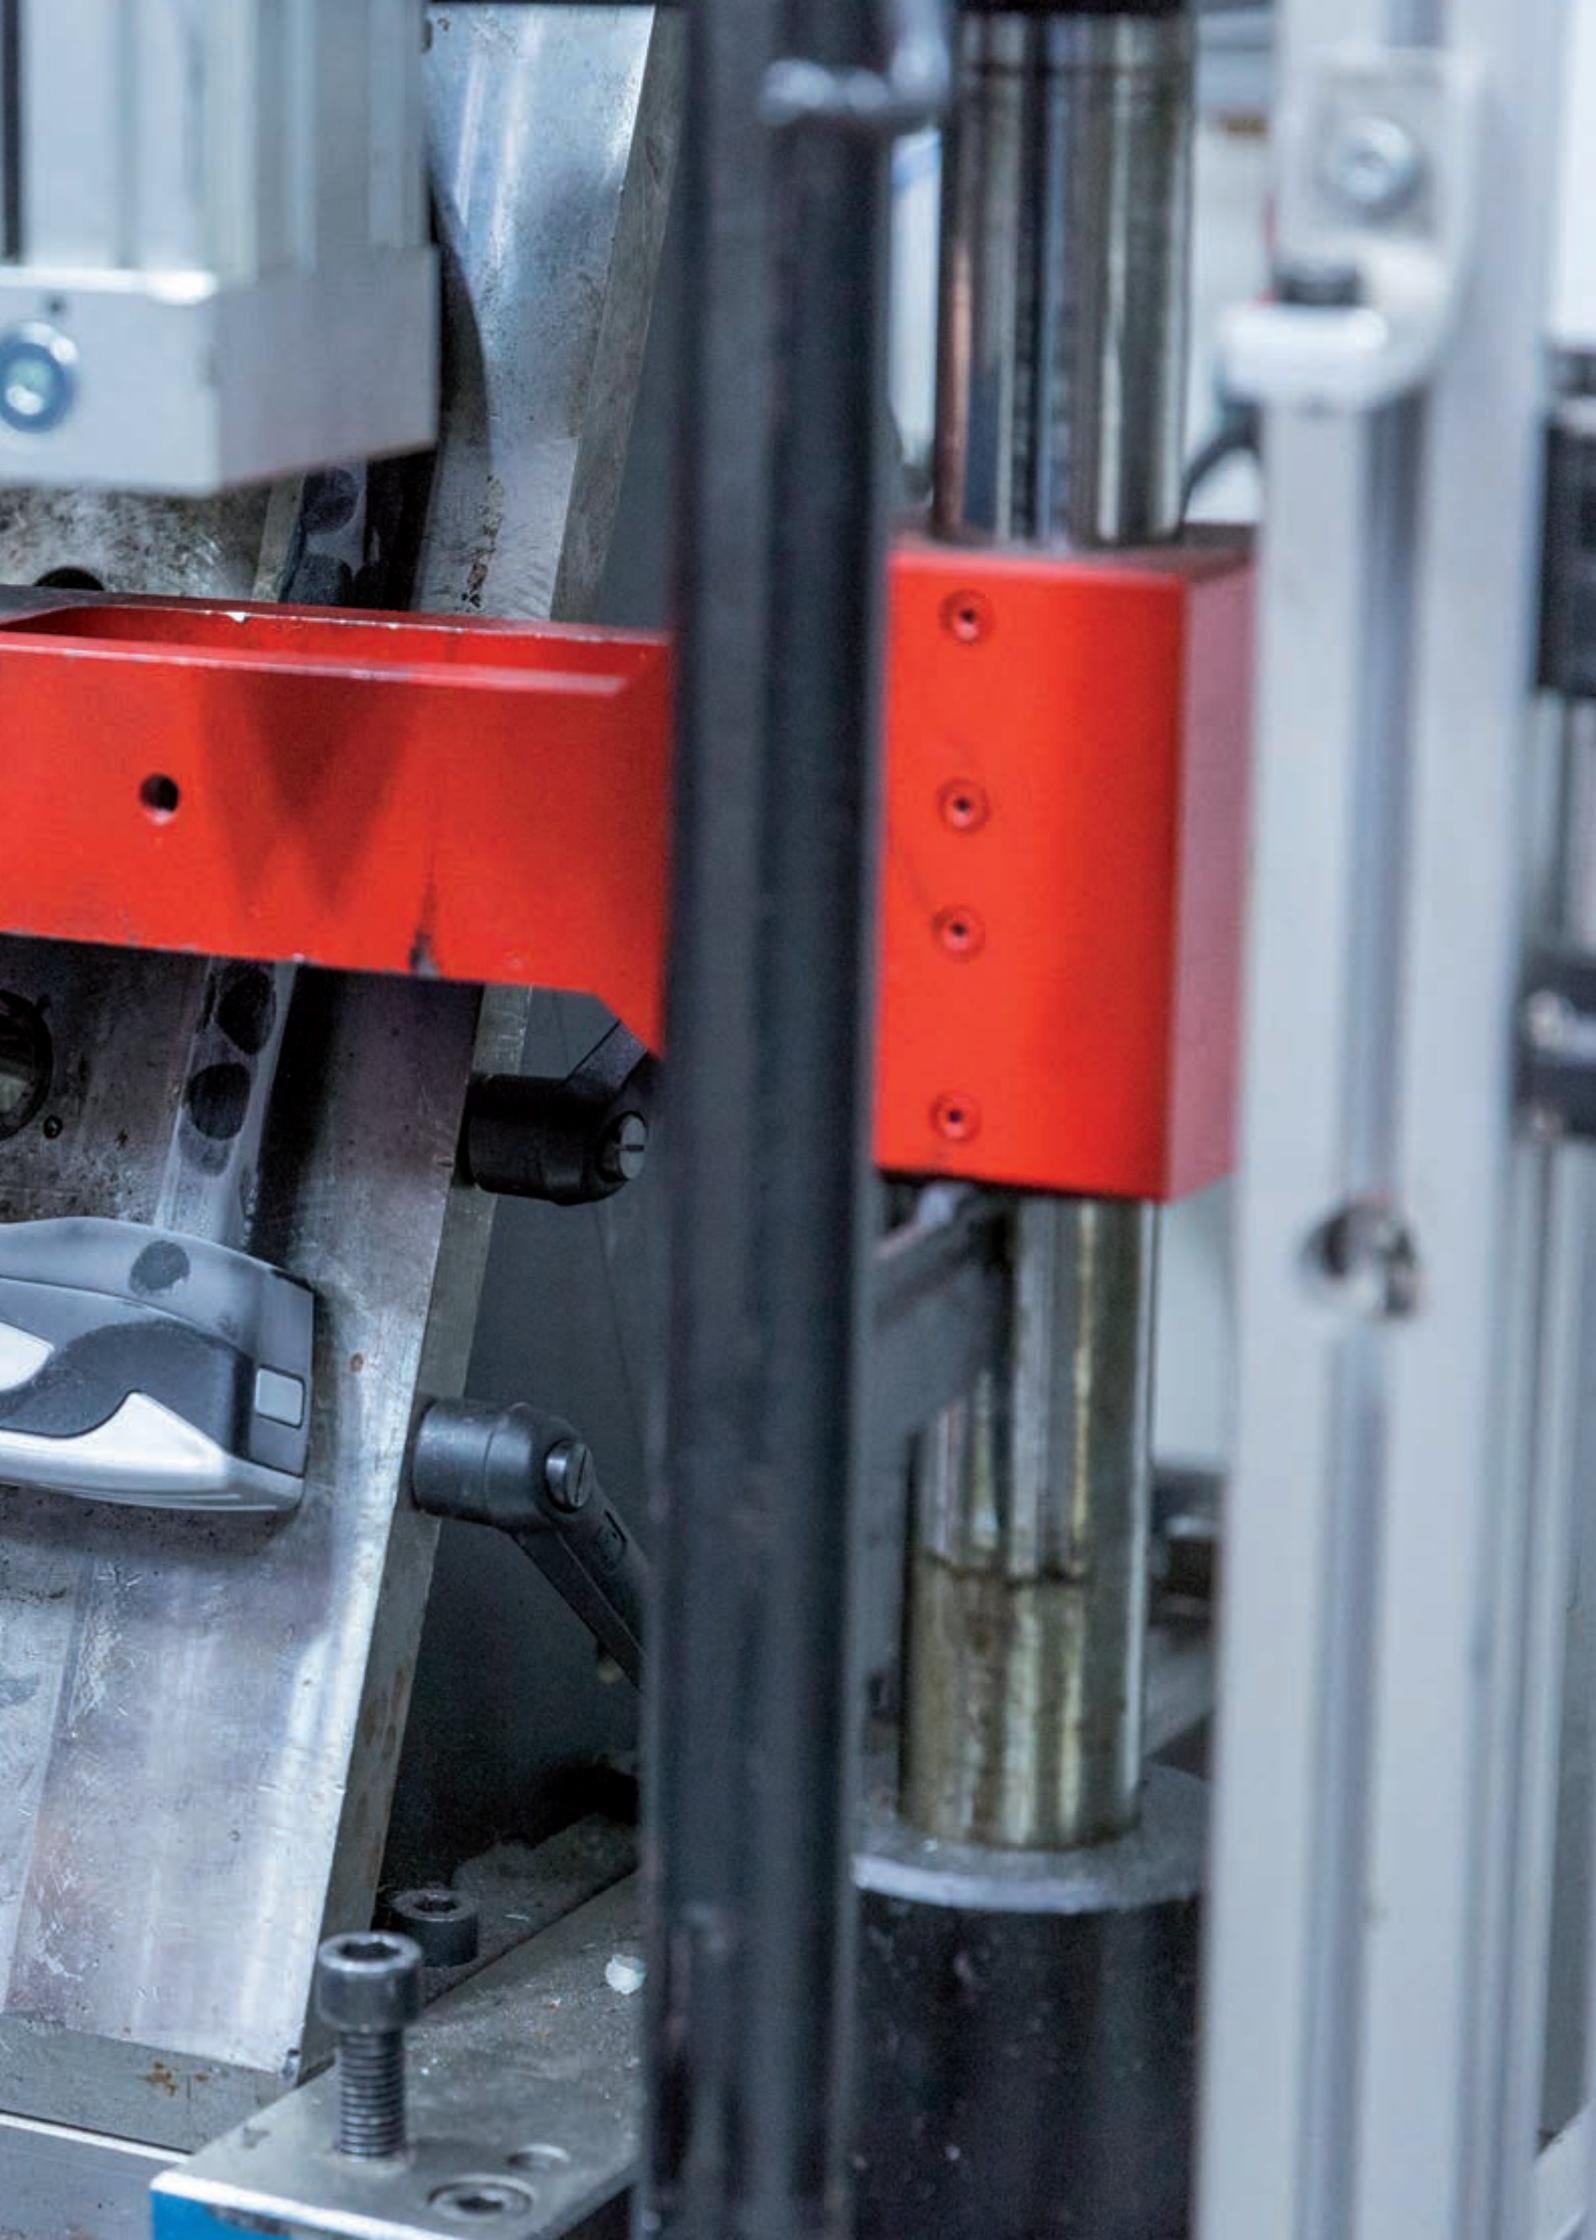

Some of our high-quality ABUS locks are delivered with an additional LED key. This helps you with easy opening and locking of the lock even during bad lighting conditions or even after dark.

Brackets and bags

A bicycle lock protects best when it is actually used. To be sure it has a place on your bicycle on every trip, ABUS offers different brackets and transport solutions. So your lock is always there when you need it.

Keyed alike

Multiple locks – a single key

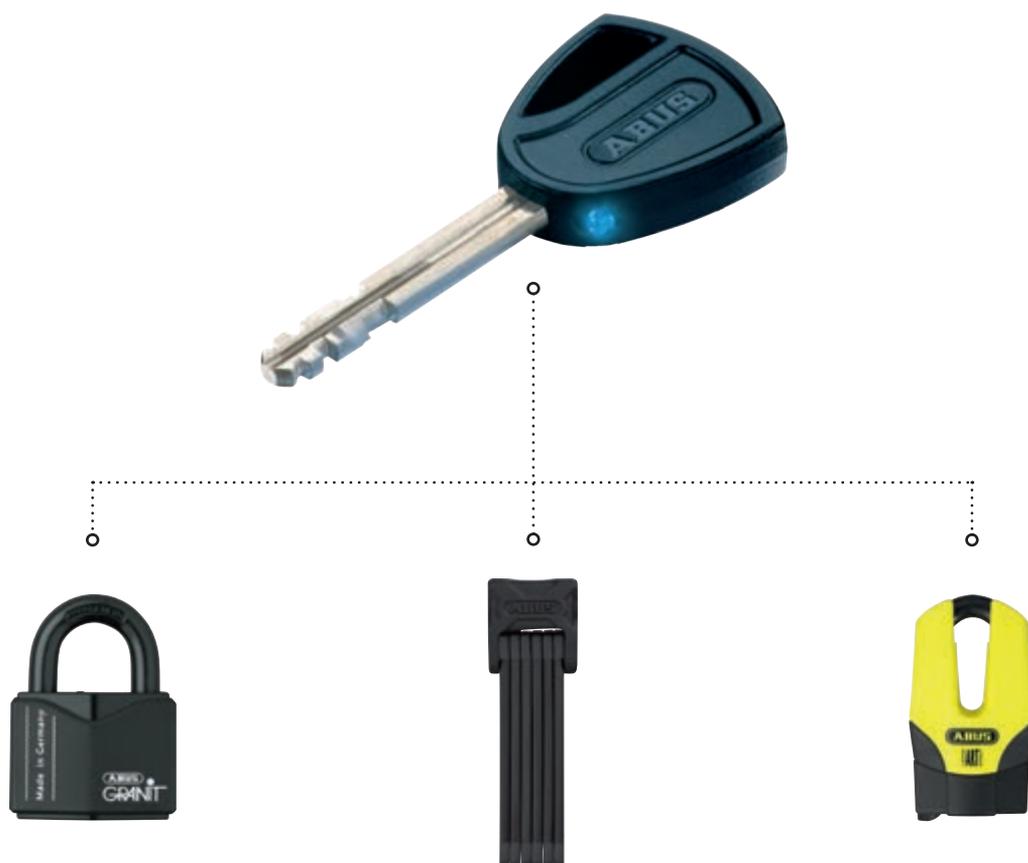

We are frequently asked whether you can use a single key to open multiple ABUS locks. No problem!

Our keyed alike service makes it possible and easy. Many ABUS locks can be ordered keyed alike. That means that two or more locks can be fabricated with identical keys.

For example, both the padlock in your basement and your bicycle and motorcycle locks can all be operated with just a single key.

Keyed alike locks offer convenience for families, couples, friends, companies, rental companies, etc.

Advantage: More space on your key ring, and always a full overview.

YourPlus™ – The plus in convenience for the single-key solution!

With YourPlus™, you can convince your customers with more convenience and added value – and you'll have an excellent additional business! The YourPlus™ concept includes a whole range of services related to locks with the ABUS Plus cylinder. We provide the added value program for your customer that only ABUS can provide in this form.

OEM-SERVICE

The ABUS Plus cylinder is already part of many OEM products. And additional keyed alike locks can also be produced. That's additional convenience for your customers.

A LOCK FOR EVERY KEY

Need another lock that can be opened with an existing key? No problem! We can build a new lock around the key. That makes it possible to create completely keyed alike systems – for example a rental bike fleet.

EASY FOR THE E-BIKE

To completely secure an e-bike, you often need one key for the battery lock, another for the frame lock and then a third to lock the bike to a fixed object. That's a thing of the past! With YourPlus™, It's possible to use multiple locks with just a single key.

FOR EVERY NEED

Products from different lock categories offer the right security for every need: U-Shackle locks, folding locks, frame locks, chain locks, padlocks. Combinations of different locks from any category can be produced keyed alike.

SECURE AND SIMPLE

The ABUS Plus cylinder – Made in Germany. This proven disc cylinder offers top security and additional protection against picking.

PLUS CODE CARD

The code card delivered with every YourPlus™ lock „saves“ your key identification, so that even years after purchasing your lock you can order new keys or keyed alike locks.

VARIETY OF APPLICATIONS

YourPlus™ offers convenience for a variety of different applications. Keyed alike locks for families, couples, friends, companies, rental businesses, etc.

VISIBLE AT THE FIRST GLANCE

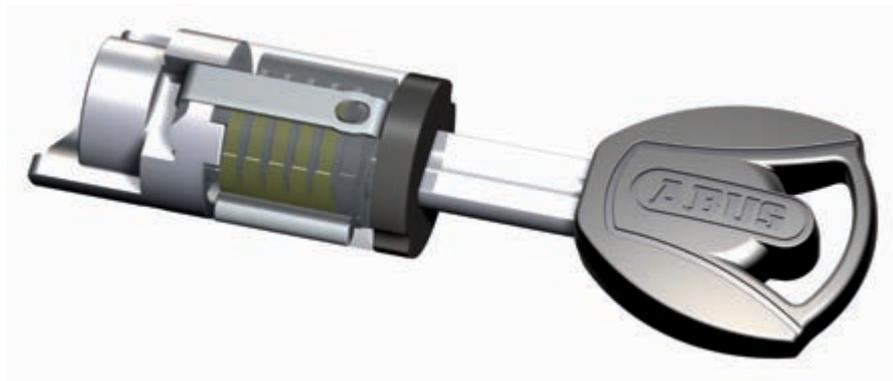

All products labeled with the YourPlus™ logo on the packaging can be ordered and produced keyed alike – in any quantity.

More informations at abus.com/yourplus

Plus cylinder

The Plus cylinder – Made in Germany – is among the top cylinders in our product line. The popular disk cylinder offers top security and additional protection from picking. Its easy operation makes opening and locking a pleasure.

The ABUS level system

Level: 1 - 4

These locks provides basic protection against theft and best suited for areas of low risk.

Often intended for use on children's bikes, as a secondary locking option or as an accessory lock such as a helmets or bags.

STANDARD SECURITY

Level: 5 - 9

Locks in this security level offer an extra level of security and are most appropriate for areas of medium to low theft risk and for use on good to entry level adult bikes. Also recommended as secondary locking options in areas of high-theft risk when used with a higher rated lock for added security.

EXTRA SECURITY

Level: 10 - 15

These locks offers the maximum protection and are intended for use with higher-end bicycles, bikes locked in urban areas and for use in areas of high-theft risk. Fifteen is the maximum bicycle security and is represented by a completely red dial.

BORDO™ Alarm 6000A

Our classic is going mechatronic. With the first alarm folding lock in the world, we are relying not only on high mechanical security but also an alarm of up to 100 dB, which has already become popular in motorcycle security applications. Any attempt to defeat it will warn you and frighten the thief off.

Technical Data

- 5 mm steel bars, with extra soft 2-components coating to prevent damage to the bicycle's paintwork
- The bars, the case, the links as well as supporting elements of the locking system are made of special hardened steel
- Alarm of at least 100 dB for 20 seconds
- Alarm function on basis of the ABUS 3D detection system that means, that every movement is detected
- Intelligent alarm – In case of small and short movement, e. g. the bike gets hit by a football, the lock only gives a short warning tone
- Different acoustic signals inform about battery, activation and alarm status
- Bars are linked with special rivets
- ABUS Plus cylinder for high protection against manipulations, e.g. picking

1) Only for UK-version (Art.-No. 78304 and 78305)

BORDO CENTIUM™ 6010

This refined workpiece will be a statement for any style-conscious urban biker. The benchmark for folding locks, tested under the toughest of conditions, with the finest workmanship, fabricated in craftsman quality with loving attention to detail. 1,250 grams of pure recognition of tasteful individualism.

GRANIT CityChain XPlus™ 1060

High-quality bicycles are best secured with this 10 mm hex chain. In the highest security category, this lock offers reliable protection for the strictest security needs. The double locking in the lock body makes this chain outstandingly secure, and at up to 170 cm long, it is extremely flexible to use.

- ABUS Power Cell Technology offers highest protection against hitting and pulling attacks
- ABUS Power Link Technology offers a direct locking of the chain to the Power Cell and increases its effect
- Interlocked lock body cover to protect against brutal opening methods
- The chain, the case as well as supporting elements of the locking body are made of special hardened steel
- ABUS XPlus cylinder for extremely high protection against manipulations e.g. picking
- Automatic keyhole cover against dirt and corrosion

1) Class C

IVY Chain 9100

The IVY Chain 9100 is the perfect lock for intensive daily use. The long-lasting, highly flexible high-tech mesh is weather-resistant and hydrophobic. That means that liquids like water or oil aren't absorbed by the fabric so the lock stays clean.

Frame- and battery locks

Product novelties

★ SHIELD™ Plus 5750L
Page 129

PRO SHIELD™ Plus 5950

Can a frame lock be secure and practical? The PRO SHIELD Plus 5950 certainly can! Its high-quality materials and Made in Germany machining perfection secure any bicycle from theft. And the refined Plus system offers practical added value: Just one key not only locks the lock, but also the e-bike battery and other locks – from the chain lock to a padlock.

Versions

Operation and use

- 145/30 and /20: To secure valuables/goods of lesser value or at a low risk of theft
- 145/40: To secure valuables/goods of medium value or at an average risk of theft
- E.g. to secure luggage, lockers in schools and sports centres, cash boxes, jewel cases, cupboards, tool boxes, switchboards, etc.

Technical Data

- Solid aluminium lock body with anodized coating
- 145/20 and 145/30: Individually resettable 3-digit code
- 145/40: Individually resettable 4-digit code
- Handy operation without key, low weight, high value of recognition by intensive colours

70 & 70IB

Versions

Operation and use

- To secure valuables/goods of medium value or at an average risk of theft
- Ideal for use in severe weather conditions (e.g. in coastal regions or ports, to secure goods on vehicles and boats in outdoor use)

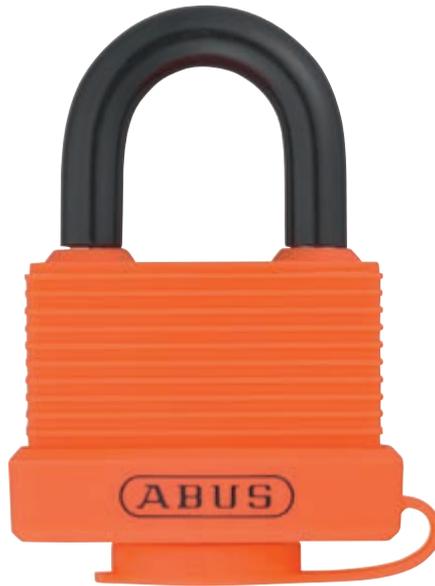

Technical Data

- Lock body made of solid brass
- Sealed lock body with drainage channels and cover to protect the cylinder against water and dirt
- Shock absorbing vinyl casing prevents sensitive surfaces from damage
- Shackle made from hardened steel with vinyl jacket
- Inner components made from rust-free materials
- Double bolted
- Precision pin cylinder
- Self-locking: locking without key by pushing down the shackle
- Paracentric keyway for increased protection against manipulation
- IB Aqua Safe: stainless steel shackle

Versions

Operation and use

- To secure valuable/goods of medium value or at an average risk of theft
- Ideal to secure objects in various areas of application:
- Signal Yellow: at construction sites and in the building trade
- Outdoor Green: outdoor use, unobtrusive look for forests, garden and forest work
- Life Vest Orange: eye-catching, to warn or attract attention
- Machine Silver: for use around machines and buildings

Technical Data

- Solid aluminium body
- Encapsulated lock body with special cover and drainage channels to protect the locking mechanism from water and dirt
- Tough vinyl jacket protects sensitive surfaces
- Shackle made from hardened steel with vinyl jacket
- Inner components made from rustfree material
- Double bolted
- Precision pin cylinder
- Paracentric keyway for increased protection against manipulation
- Self-locking by pushing down the shackle, no key needed

Diskus® 24IB

Operation and use

- To secure valuables / goods of greater value or at a high risk of theft
- Ideal for use in severe weather conditions (e.g. in coastal regions or ports)
- To secure lorries, doors, gates, cellar doors, cupboards etc.
- Ideally used with ABUS Diskus® hasp No. 140: virtually impossible to attack shackle

Technical Data

- Body, inner parts and shackle made from stainless steel for extreme corrosion resistance
- Cylinder cover - maximum protection against dirt and moisture (60 and 70 mm)
- Cylinder nickel plated for enhanced corrosion resistance
- Original Diskus® design: 360° protection
- Diskus® Deep-Welding Technology - maximum strength
- Precision pin tumbler cylinder with anti-pick pins
- Key retaining: locking only with the key (lock retains key until locked)
- Made in Germany

Diskus® 20

Operation and use

- To secure valuables/goods of great value or at a very high risk of theft
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
- Ideally used with ABUS Diskus® Hasp 140, virtually impossible to attack shackle

Technical Data

- Stainless steel - outside and inside
- Additional protection against sawing
- Shackle made from high quality stainless steel
- ABUS-Plus disc cylinder: highest protection against manipulation, extremely high number of key differs
- Sophisticated Diskus® welded seam for highest break resistance
- Original Diskus® design: 360° protection
- Key retaining: key is needed for locking (lock retains key until locked)
- Made in Germany
- 2 keys

Shackle Clamp 13mm	27348 3	Ø 13 mm		for 64	1
Shackle Clamp 12mm	25604 2	Ø 12 mm		for 46, 47, 460, 470	1
Shackle Clamp 11mm	25580 9	Ø 11 mm		for 64	1

IVERA RBU

Operation and use

- Transport of chain, cable and Steel-o-flex locks of the Ivera series
- For mounting on round and non-round frame profiles with a diameter of 15-45 mm or for practical mounting on the seat clamp
- Easy mounting with a metal sleeve or LL bracket

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Ivera RBU bracket	58497 8		100	for 7200, 7210, 7220 Ivera	1

QuickSnap RBU

Operation and use

- Transport of cable and Steel-0-Flex locks
- Mounting on round and non-round frame profiles with a diameter of 15-45 mm
- Flexible metal sleeve for mounting
- Mounting within the frame or at the side possible
- Simple and time saving mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
QuickSnap RBU	31487 2			for 860, 870	6

QuickSnap

Operation and use

- Transport of cable and Steel-0-Flex locks
- Mounting on all common seat post bolts (diameter 5-8 mm)
- Simple mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
QuickSnap	31488 9			for 860, 870	1

KF

Operation and use

- Transport of cable, coil cable and Steel-0-Flex locks
- Mounting on all common seat post bolts (diameter 5-8 mm)
- Simple mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
KF	12433 4			for 896, 895, 894, 885, 875, 1350, 1355, 1340, 1440, 1450, 1460	6

URB (universal frame bracket)

Operation and use

- Accessory for transporting locks with the LL carrier
- Enables transporting the lock on the seat post or on the frame (diameter 25-35 mm)

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
URB	23312 8	Ø 25-35 mm			12

Snap Cage

Operation and use

- Transport of Steel-0-Flex, cable- and coil cable locks
- Enables transporting the lock on the seat post, on the frame and on the rack stays
- With a diameter of 15-55 mm
- Simple mounting without tools

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Snap Cage MU 6K	20079 3			for 6415K, 6512K, 6615K	1
Snap Cage MU 4K/5K	20080 9			for 4508, 5510K, 5412K	1
Snap Cage MU 4C/5C	20111 0			for 4508C, 5412C, 5510C	1
Snap Cage MU 6C	20113 4			for 6415C, 6512C, 6615C	1

Clutching Strap LH adaptor

Operation and use

- Mounting of frame locks to the bike frame

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Clutching Strap LH adaptor	56240 2			for 5850, 5650, 565, 4960, 496	6

Bracket SH 6500 BORDO XPlus™

Operation and use

- Easy transport for BORDO™ 6500, 6500 BIG and 6510
- Simple mounting due to practical clutching straps
- The lock can be easily removed forwards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6500/85	78071 4			replacement bracket	6
Bracket SH 6500/110	78072 1			replacement bracket	6

Bracket SH 6000 BORDO™

Operation and use

- Easy transport for Bordo 6000, 6015 and 6100
- Simple mounting due to practical clutching straps
- The lock can be easily removed forwards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6000/90	72900 3			replacement bracket	1

Bracket SH 6000 BORDO™ Big

Operation and use

- Easy transport for BORDO™ 6000 BIG and BORDO™ Alarm 6000A BIG
- Simple mounting due to practical clutching straps
- The lock can be easily removed forwards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6000/120	78074 5			replacement bracket	1

Bracket SH 6055 BORDO™ Lite

Operation and use

- Easy transport for BORDO™ 6055 Lite
- Simple mounting due to practical clutching straps
- The lock can be easily removed forwards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6055	78066 0			replacement bracket	6

Bracket SH 6010 BORDO CENTIUM™

Operation and use

- Flexible mounting with non-slip velcro straps
- Mounting on nearly every part of the frame possible, the lock can be easily removed
- Easy transport thanks to practical holder

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bordo Centium bracket	20155 4				6

Bag BORDO XPlus™

Operation and use

- Flexible mounting with non-slip velcro straps or screws for the bottle holder device
- Easy transport thanks to practical holder

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
ST 6500/85 black	55325 7			replacement bag	1

Bag ST 6000 BORDO™

Operation and use

- Flexible mounting with non-slip velcro straps or screws for the bottle holder device
- Easy transport thanks to practical holder

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
