INDEX

VOLUMES I-XV

1970-1984

This index has been compiled in the hope that it will be a more resource for those people looking for information about the Adirondack region of New York State. The form and basic subject headings have been borrowed from the premier reference work on the region, the ADIRONDACK BIBLIOGRAPHY by Dorothy Plann (Blue Mountain Lake, N.Y., The Adirondack Museum, 1973). Where needed, additional subject headings have come from SEARS LIST OF SUBJECT HEADINGS, 11th Edition (New York, H.W. Wilson, 1977) and the card catalogue of the Frank L. Cubley Library, Paul Smith's College.

The credit for getting this index started goes to the students of Paul Smith's College. The reference questions they asked about the politics, history, recreational possibilities and a myriad of other Adirondack related topics made it necessary to develop a systematic approach for getting information out of ADIRONDACK LIFE magazine.

How to use this index: Every article in ADIRONDACK LIFE magazine has been given its own number. These are the numbers following the subject and author entries. They refer you to the issue and page where the article you want can be found.

Example: If you suspect it is a man, you then look up and read in the index just listed. The number following the listing "Paul Cain" refers to article number 890. When you find entry 890 in the back journal of the book, you will find "The seal race" by Tom Baker p. 26-29, March/April, 1977.

INTRODUCTION

Titles

Vol. 1, No. 1 - Winter 1970

This index has been compiled in the hope that it will supply one more resource for those people looking for information about the Adirondack region of New York State. The form and basic subject headings have been borrowed from the premier reference work on the region, the *ADIRONDACK BIBLIOGRAPHY* by Dorothy Plum (Blue Mountain Lake, N.Y., The Adirondack museum, 1973). Where needed, additional subject headings have come from *SEARS LIST OF SUBJECT HEADINGS*, 11th Edition (New York, H.W. Wilson, 1977) and the card catalogue of the Frank L. Cubley Library, Paul Smith's College.

The credit for getting this index started goes to the students of Paul Smith's College. The reference questions they asked about, the politics, history, recreational possibilities and a myriad of other Adirondack related topics made it necessary to develop a systematic approach for getting information out of *ADIRONDACK LIFE* magazine.

How to use this index: Every article in *Adirondack Life* magazine has been given its own number. These are the numbers following the subject and author entries. They refer you to the issue and page where the article you need can be found.

Example: If your subject is acid rain, you first look up acid rain in the subject list. The number following the listing "Acid rain" refers to article number 390. When you find article 390 in the front section of the book, you will find "The acid rains" by Tom Butler p. 26-29, March-April, 1977.

Titles

Vol. I No. 1 — Winter 1970

1. Everyone can ski X-C by Caldwell, John p. 4-7+
2. Measuring the mountains by Colvin, Verplanck p. 8-9+
3. They started a store by Byrne, Peggy p. 10-12
4. Urgent news from Pea Soup Lake by MacDougal, Harry p. 12
