On behalf of the participating societies, we welcome you to Phoenix and JAM 2012. This year, in addition to the American Society of Animal Science (ASAS) and the American Dairy Science Association® (ADSA®), we welcome the participation of the Canadian Society of Animal Science (CSAS), Western Section of the American Society of Animal Science (WSASAS), and the Asociación Mexicana de Producción Animal (AMPA), making this a truly international meeting. We encourage all attendees to take fullest advantage of this great opportunity to share ideas across species and societies, visit with each other in person, and make new acquaintances.

Many opportunities exist for interaction among society members, starting with the opening session and reception on Sunday, July 15, when a live interview with Dr. Temple Grandin will be the focus of the opening session. Other special events include the Triennial Reproduction Symposium, our second ASN-ADSA-ASAS pre-conference, the late-breaking abstract session, and close to 40 other symposia addressing topics of relevance to our diverse memberships. ASAS invites you to participate in several new and exciting events, including our inaugural National ASAS Academic Quadrathlon Championship, our one-year Animal Frontiers anniversary, the launch party for AnimalSmart.org, and an amazing overall beef program (5 symposia) hosted by WSASAS. This year, the Production and Dairy Foods divisions of ADSA have collaborated on a new symposium: the ADSA Multidisciplinary and International Leadership Keynote (MILK) Symposium: How Dairy Exporters Can Provide Food Security. In addition, ADSA will be exploring the creation of ADSA World Regions, starting with South America. Check the program schedule for time and place. In addition to their graduate student competitions, CSAS will be hosting a symposium titled "Are We Experiencing a Paradigm Shift in How We Feed Livestock As Industrial Agriculture Evolves in the 21st Century?"

The meeting program offers many educational and professional development opportunities. Over 2,200 abstracts were accepted for presentation and over 40 scientific symposia are scheduled. The program committee has produced an outstanding integrated program across species. See page 43 in this program for the full schedule of symposia at JAM 2012.

We are grateful to the many people involved with making this meeting a success, starting with our sponsors. Their support is essential to the quality program that makes JAM unlike any other meeting. A list of sponsors of this year's meeting is available in this program book. Please take time to thank them during the meeting. The program committee has worked long and hard to organize an excellent program. Our thanks to the overall program committee of Clint Krehbiel (chair), Jack Whittier, Tony Capuco, Geoff Dahl, Katharine Knowlton, and Alan Iwassa. We also thank the many others who contributed to this huge undertaking, including the FASS staff and staff of ADSA and ASAS.

Finally, thank you, our attendees, for participating in JAM 2012 and making it a grand success!

## Important Message

In the event that protestors interrupt the meetings, please ignore them. Their goal is to attract attention and any attention you give them will only help their cause. Convention staff have a plan in place to handle these situations, and they depend on our cooperation. If members of the media approach you for an interview, please politely decline and direct them to the convention's media room, where spokespersons will be available.

*Thank you for your cooperation.*

## Oral and Invited Speakers

Oral sessions will begin at 9:30 am on Monday and Tuesday, 10:30 am on Wednesday, and 8:30 am on Thursday.

## Onsite Upload Information

**Onsite upload:** Onsite presentation upload will be available; files can be delivered to the Preload Room (Room 221B) at the convention center (Sat: 3:00 to 5:00 pm; Sun-Wed: 7:00 am to 5:00 pm; Thur: 7:00 am to noon). **Presentations must be uploaded by 5:00 pm on the day before your scheduled presentation. Files will not be accepted via e-mail. No presentations will be loaded while the session is in progress or between presentations.**

## Poster Presentations

We have dedicated a two-hour block each morning to poster presentations. The “open poster” sessions will be from 7:30 to 9:30 am Monday, Tuesday, and Wednesday in the Convention Center, North Hall A-B.

Each poster presentation will be available for public viewing for the entire day, with the presenting authors present during the open posters time (7:30–9:30 am). All posters must be mounted on the board 30 minutes before the beginning of the day's session (**poster sessions begin at 7:30 am so posters must be mounted on boards by 7:00 am**) and must list the paper number and corresponding day. The exhibit hall will open at 6:30 am, Monday through Wednesday. **Posters must be removed after 5:00 pm each day.** Any posters remaining after 5:30 pm will be removed by the convention center staff and discarded.

Each poster board area is **48 inches high and 96 inches wide**. Use of this space is dictated by the presenter, with the following exceptions: the top of the poster space must include the abstract number with corresponding letter of the day it is being presented, title, authors, and affiliations. The lettering for this section should be at least 1 inch high.

## Locating the Correct Poster Board

Each poster board number corresponds to the abstract number as noted in the program. For Monday posters an "M", Tuesday posters a "T", and for Wednesday posters a "W" precedes the board number.

## Camera, Video Camera, and Cell Phone Policy

Use of cameras, video cameras, and cell phones (for calls or as cameras) is prohibited during oral and poster presentations to minimize disruption and unauthorized dissemination of data. Anyone found in violation of this policy will be asked to leave the session.

Job seekers may upload their CVs and cover letters for potential employers to peruse.

## Wi-Fi and Cyber Café

The Phoenix Convention Center has free wi-fi in the North Building's Metro Marche area (food court) and the West Building's Metro Lounge area (food kiosk area), so you can keep in touch with work, family, and friends during JAM. ## Welcome to Phoenix

### Transportation in Phoenix

The JAM hotels and the convention center are approximately five miles from Phoenix Sky Harbor International Airport (PHX). The taxi ride will take approximately 15 minutes. The one-way fare for a taxi from the airport to the Phoenix Convention Center area will be approximately \$20.00. A shuttle service (Airport Shuttle) is also available; go online to book a shuttle in advance (<http://www.airportshuttle.com>). The standard rate is \$24.00 round-trip. A shuttle bus connects the airport to the the METRO Light Rail system, which runs to the downtown area.

While you're in Phoenix, you can get around with the METRO Light Rail, which runs from central Phoenix through downtown, Tempe and the ASU campus, to Mesa in the east. Stations are close to and run right by some of the area's top attractions, such as the Heard Museum, Phoenix Art Museum, the Arizona Science Center, Chase Field, US Airways Center, Sun Devil Stadium, and many more. A one-way pass costs \$1.75 and an all-day pass is \$3.50. Passes can be purchased at the ticket vending machines at each station. During the week, trains generally run every 12 minutes from 5 am to 11 pm. On weekends, they run about every 15 minutes from 5 am until 2 am. More information on routes, stops, and prices can be found on their website, [http://routes.valleymetro.org/timetables/785/transit\\_route?type=1](http://routes.valleymetro.org/timetables/785/transit_route?type=1).

### Phoenix Sightseeing Options

From the Phoenix Convention and Visitors Bureau (CVB):

"Desert character. It can't be conjured, landscaped or kindled with twinkling bulbs. John Ford knew that. So did Frank Lloyd Wright and Louis L'Amour. Spend a few days in Greater Phoenix and you'll understand, too. America's sixth-largest city still has cowboys and red-rock buttes and the kind of cactus most people see only in cartoons. It is the heart of the Sonoran Desert and the gateway to the Grand Canyon, and its history is a testament to the spirit of Puebloans, ranchers, miners and visionaries. This timeless Southwestern backdrop is the perfect setting for family vacations, weekend adventures or romantic getaways. Each year, 13 to 15 million leisure visitors travel to Greater Phoenix. They enjoy resorts and spas infused with Native American tradition, golf courses that stay emerald green all year, mountain parks crisscrossed with trails and sports venues that host the biggest events in the nation. The best way to learn about America's sunniest metropolis, of course, is to experience it firsthand."

Visit the CVB (<http://www.visitphoenix.com/>) for ideas on what to do for fun in Phoenix!

## Workshop on Genomic Selection in Livestock

### July 9-13, 2012

***Sheraton Hotel, Phoenix, AZ***

***Course instructors: Dorian Garrick, Rohan Fernando, and Jack Dekkers (Iowa State University).***

The purpose of the course is to provide graduate students and professionals in animal breeding and genetics with the basic theory and practical application of using whole genome SNP data for genetic evaluation and genome-wide association studies, using mixed linear and Bayesian methods. This course contributes to a graduate-level distance delivery curriculum in animal breeding and genetics, which is being developed with funding from the USDA-NIFA Higher Education Challenge Grants Program. Over the next three years, a consortium of seven universities (Virginia Tech, Colorado State, Iowa State, North Carolina State, and Kansas State Universities, and Universities of Nebraska-Lincoln and Georgia) will be engaged in the design and delivery of a series of asynchronous online courses, and several summer short-courses, focused on the integration of quantitative and molecular aspects of genetics. For information about the curriculum, contact Ron Lewis (rmlewis@vt.edu) or visit the website: <http://jtmgtg.org/2012/genomic.asp>

# Author Index

Numbers following names refer to abstract numbers; a number alone indicates an oral presentation, an M prior to the number indicates a Monday poster, a T indicates a Tuesday poster, and a W indicates a Wednesday poster.

The author index is created directly and automatically from the submitted abstracts. If an author's name is typed differently on multiple abstracts, the entries in this index will reflect those discrepancies. Efforts have been made to make this index consistent; however, error from author entry contributes to inaccuracies.
