

Biosecurity And Agriculture Management Regulations 2013

Quarantine Areas Notice

Kununurra and Wyndham

Citrus canker (*Xanthomonas citri* subsp. *Citri*)

- Under regulation 60 of the *Biosecurity and Agriculture Management Regulations 2013* (Regulations) the two areas described below are declared to constitute quarantine area until 18 May 2019:
 - the area within a 50 km radius of the Kununurra Post Office (Kununurra Quarantine Area); and
 - the area within a 50 km radius of the Wyndham Post Office (Wyndham Quarantine Area).
- These quarantine areas are declared because the bacterium *Xanthomonas citri* subsp. *citri* (syn. *Xanthomonas axonopodis* pv. *citri*) (the causal agent of citrus canker) is present within the areas.
- Persons other than an inspector must not move, or cause or allow to be moved, any citrus canker host plants, listed below, or any parts of those plants, including the fruit, or any machinery or equipment used in association with those plants from a place within a quarantine area to any other place except in accordance with:
 - this notice; or
 - an approval under regulation 67 of the Regulations; or
 - a general exemption under regulation 71 of the Regulations.
- A thing referred to in clause 3 is moved in accordance with this notice if:
 - it is fresh fruit moved for the purpose of human consumption within a quarantine area; or
 - it is moved as authorised or directed by an inspector.
- Each person who is the owner or occupier of land in a quarantine area is taken to have been given a quarantine notice that applies to that land in the terms of this quarantine area notice.
- Failure to comply with this quarantine area notice could result in a fine, the Director General taking remedial action under section 133 of the *Biosecurity and Agriculture Management Act 2007*, or both.

Host plants of citrus canker

Common Name	Scientific Name
orange, lemon, lime, mandarin, citron, grapefruit, kumquat, satsuma	<i>Citrus</i> spp.
lemon aspen	<i>Acronychia acidula</i>
bael fruit	<i>Aegle marmelos</i>
	<i>Aeglopsis chevalieri</i>
	<i>Atalantia ceylonica</i>
	<i>Atalantia citrioides</i>
	<i>Atalantia disticha</i>
	<i>Atalantia monophylla</i>
white sapote	<i>Casimiroa edulis</i>
	<i>Chaetospermum glutinosum</i>
	<i>Chalcas exotica</i>
	Citrange × <i>Poncirus trifoliata</i> (cicitrangle)
	<i>Citropsis schweinfurthii</i>
wampee or wampi	<i>Clausena lansium</i>
	<i>Eremocitrus glauca</i>
	<i>Evodia latifolia</i>
	<i>Evodia ridleyi</i>
	<i>Feroniella crassifolia</i>
	<i>Feroniella lucida</i>
	<i>Fortunella hindsii</i>
round kumquat	<i>Fortunella japonica</i>
limequat	<i>Fortunella japonica</i> × <i>Citrus aurantiifolia</i>
oval kumquat	<i>Fortunella margarita</i>
citranglequat	<i>Fortunella margarita</i> × citrange
orangequat	<i>Fortunella margarita</i> × <i>Citrus sinensis</i>
	<i>Hesperethusa crenulata</i>
	<i>Lansium domesticum</i>
elephant apple	<i>Limonia acidissima</i>
	<i>Lunasia amara</i>
	<i>Melicope triphylla</i>
lime berry	<i>Micromelum minutum</i>
native mock orange	<i>Murraya paniculata</i> var. <i>ovatifoliolata</i>
	<i>Paramignya longipedunculata</i>
	<i>Paramignya monophylla</i>
trifoliolate orange	<i>Poncirus trifoliata</i>
	<i>Xanthoxylum clava-herculis</i>
	<i>Xanthoxylum fagara</i>
