

## Capture Pro Software

Getting Started

Installing the software: <i>Kodak</i> Capture Pro Software and Network Edition	1
Installing the software: Kodak Capture Pro Software Limited Edition	4
Using Kodak Capture Pro Software	5
Quick start	6
Using the pre-defined job setups	7

This guide is intended to provide simple procedures for getting started quickly, including installing and launching *Kodak* Capture Pro Software and procedures for scanning using the default pre-defined job setups. Complete information and procedures can be found in the User's Guide for *Kodak* Capture Pro Software (www.kodakalaris.com/go/CaptureProUserGuide).

For information about configuration and advanced job setup, see the *Kodak* Capture Pro Software Administrator's Guide (www.kodakalaris.com/go/CaptureProAdminGuide).

- If you are installing *Kodak* Capture Pro Software or *Kodak* Capture Pro Software Network Edition, follow the installation procedures in the next section.
- If you are installing *Kodak* Capture Pro Software Limited Edition, see the section entitled, "Installing the software: *Kodak* Capture Pro Software Limited Edition" later in this guide.

## Before you begin:

- Be sure your PC is suitable for Capture Pro Software (see the User's Guide, Appendix B, *System Requirements*).
- Verify that your scanner is on and working.

#### What you need:

- The scanner driver CD provided by the scanner manufacturer if you will be connecting a scanner.
- The license notification email PDF attachment file that contains your serial number.
- Download the application from the Capture Pro Software website at www.kodakalaris.com/go/CaptureProDownload or the optional Kodak Capture Pro Software Installation DVD.
- If the computer on which the Capture Pro Software is to be installed does not have internet access, you will also need to download the License Manager tool found on the Capture Pro Software website. The License Manager will be installed on a computer with internet access.
- Optional hardware key (USB dongle) if purchased.
- Administrator rights on the PC where you are installing the software.

Installing the software: *Kodak* Capture Pro Software and Network Edition

### Installation procedures:

If you have a *Kodak* Scanner, the *Kodak* Scan Validation Tool will automatically be installed with the scanner driver. This tool will be used to test that the scanner is connected properly and working.

1. Install the scanner drivers by inserting the scanner driver CD into the CD drive and follow the prompts.

When you install the *Kodak* Scanner driver, the *Kodak* Scan Validation Tool will automatically be installed. This tool may be used to test that the scanner is connected properly and working.

NOTE: For non-Kodak manufactured scanners, follow the manufacturer's recommendations for installing and testing the scanner on your PC.

- 2. Connect the scanner and test the connection using the *Kodak* Scan Validation Tool. See your scanner's User's Guide for more information.
- 3. Start the installer by running the CapProSW\_x\_x.exe file you downloaded or insert the *Kodak* Capture Pro installation Software DVD into the CD drive. Before installing, check the Release Notes for any additional information. The Release Notes are available in the root folder of the installation DVD or go to www.kodakalaris.com/go/kcsdownloads and select the Capture Pro Software Upgrade for the Version X.X link.
  - NOTE: If the installation process does not start automatically, navigate to the drive where the DVD is installed and double-click **Setup.exe** which is found in the root folder of your *Kodak* Capture Pro Software installation DVD.
- If installing from the optional DVD, the Installation Menu screen is displayed. Select the desired language and click the Install Kodak Capture Pro Software option.
- Click I accept the terms of the license agreement after you have read the License Agreement and click Next. The Hardware License Key screen will be displayed.
- 6. Select I will not be using a USB Hardware Key and click Next.

NOTE: If you purchased the optional USB Hardware Key, select I have inserted my USB Hardware Key and click Next.

The Installation Type screen will be displayed.

- NOTE: Only check **Install as Kodak Capture Pro Network Edition Client** if you purchased *Kodak* Capture Pro Software Network Edition and are installing a client.
- 7. Click Next. The Software Serial Number screen will be displayed.
- 8. Enter your software serial number and click **Next**. The Product Registration screen will be displayed.

 Enter your registration ID as shown in the license notification email you received. If you do not have a registration ID, select **Register Now** and complete registration. Click **Next**. The Get License screen will be displayed while the license is being obtained from the Kodak License server.

NOTE: If your computer does not have internet access, see Appendix F, *License Manager* for information on how to obtain a license.

- 10. At the Setup Type screen, select **Typical** and click **Next**. The Installation Summary screen will be displayed.
- 11. Click Next. The Ready to Install the Program screen will be displayed.
- 12. Click **Install** to start the installation. Progress screens will be displayed. Follow any prompts.
- 13. Click Finish.
- 14. If prompted, select the option to restart your computer.

## Installing the software: *Kodak* Capture Pro Software Limited Edition

NOTES:

- When using *Kodak* Capture Pro Limited Edition, many of the advanced features of the Capture Pro Software are not available. To purchase the full-featured version of Capture Pro Software, visit www.kodakalaris.com/go/CapturePro or contact your local Kodak reseller.
- If you want to try the full-featured version of Capture Pro Software, select Try full-featured Capture Pro after launching Capture Pro Software Limited Edition.
- For help installing, configuring and using Capture Pro Software Limited Edition, see Limited Edition FAQs (www.kodakalaris.com/go/CaptureProLE FAQ).

## Before you begin:

- Be sure your PC is suitable for Capture Pro Software (see the User's Guide, Appendix B, *System Requirements*).
- Verify that your scanner is on and working.

## What you need:

- The scanner driver CD provided by the scanner manufacturer if you will be connecting a scanner.
- Insert the Installation CD into the CD-ROM drive and follow the prompts to install the software.
- Administrator rights on the PC where you are installing the software.

## Installation procedures:

*Kodak* Capture Pro Software Limited Edition works with select *Kodak* Scanners only.

1. Install the scanner drivers by inserting the scanner driver CD into the CD drive and follow the prompts.

When you install the *Kodak* Scanner driver, the *Kodak* Scan Validation Tool will automatically be installed. This tool may be used to test that the scanner is connected properly and working.

- 2. Connect the scanner and test the connection using the *Kodak* Scan Validation Tool. See your scanner's User's Guide for more information.
- 3. Insert the *Kodak* Capture Pro Software Limited Edition CD into the CD drive and start the installer by running the setup.exe file.
- 4. Click **I accept the terms of the license agreement** after you have read the License Agreement and click **Next**. The Hardware License Key screen will be displayed.
- 5. If prompted, select I will not be using a USB Hardware Key and click Next.
- 6. Fill out the registration form and select **Submit**.
- 7. At the Setup Type screen, select **Typical** and click **Next**. The Installation Summary screen will be displayed.
- 8. Click **Next**. The Ready to Install the Program screen will be displayed.
- 9. Click **Install** to start the installation. Progress screens will be displayed. Follow any prompts.
- 10. Click Finish.
- 11. If prompted, select the option to restart your computer.

## Using *Kodak* Capture Pro Software

## To launch the software:

If you are not using the *Index Only* or *Auto Import* editions, be sure your scanner is turned on and is attached properly to the PC. If you purchased an optional hardware key, make sure it is inserted into a USB port on your computer.

- Double-click the *Kodak* Capture Pro Software icon on your desktop, or
- go to: Start>Programs>Kodak>Kodak Capture Pro Software.

NOTES:

- Network Edition clients will alert you that they are obtaining a license.
- *Kodak* Capture Pro Software Network Edition clients will perform the initial synchronization with the *Kodak* Capture Pro Server Software.

#### To select your scanner:

The first time you start Capture Pro Software the message, **Your scanner has not been selected. Do you want to set it up now?** is displayed. Click **Yes** to display the Workstation Setup screen. From this screen you can select the scanner you will be using from the list of available scanners. Subsequent launches of the software will bypass these steps.

Workstation Setup		? 🗙
Workstation		
ID:	1	
Name:	Capture_1	
Quick Start View		
Scanner		
Scanner family:	KODAK Scanner: i1310/i1320	Select
Scanner model:	i1320	
Disk		
Disk warning level:	20	МВ
Batch		
Enable Job level batch	numbering	
Display confirmation n	nessage before batch output	
		OK Cancel

1. Click **Select**. The Select Scanner screen will be displayed.

- 2. Select the scanner you have installed on your PC and click **OK**. The Quick Start screen will be displayed
- 3. Click **OK** on the Workstation Setup screen.

## **Quick Start**

The Quick Start screen provides a menu of commonly used functions and Job tiles.

The Job tiles page displays the job setups that have been created. The tiles are displayed in alphabetical order and may change color if other job tiles are added or deleted.

AK Capture Pro			
atch Manager Main Me	enu Logout	<u>Exit</u>	
Ready to Scan	Scan to P	DF	Scan to e-mail
Yeauy to Scall	Scall to P		Scall to e-ma

NOTE: Longer Job names will not fit on the button and will be truncated. Moving the mouse over the button will display the full Job name. It is recommended that the first few words of the Job name be unique and descriptive.

**Batch Manager** — allows you to open existing document batches, create new batches or view the status of any existing batch.

**Main Menu** — displays the Capture Pro Software main screen. You can manually open or create a new batch, initiate document capture, edit job setups, edit Users and Groups and perform many system configuration tasks.

Logout — logs out the current user.

Exit — exits the Capture Pro Software.

When you click on a Job tile, a new batch will be created and scanning will begin as defined by the job setup. After outputting a job, the Quick Start screen will be redisplayed.

NOTES:

- If you are an experienced user or you do not want to use the Quick Start Job tiles, you can disable the Quick Start screen by unchecking the Quick Start View on the Workstation Setup dialog box. To access the Workstation Setup dialog box, select File>Workstation Setup from the main screen.
- The "Quick Start" icon found in the "View" toolbar may be used to navigate back to the "Quick Start" screen from the "Main Menu"
- "Quick Start" is disabled for the Index Only or Auto Import editions.

# Using the pre-defined job setups

*Kodak* Capture Pro Software is shipped with three pre-defined job setups. Do not change the default options on these pre-defined job setups; simply use them as they are. When you create new job setups, you can use these pre-defined job setups as a base and save them with a new name that is meaningful to you.

**Ready to Scan** — allows you to start scanning documents using default settings. *Ready to Scan* does not have any indexes defined.

**Scan to PDF** — this is similar to *Ready to Scan*, except when you scan your document(s) the first page will be displayed in the Image Viewer and you will be prompted for a **Document name** to be entered as index data. The index data is used as the file name when you output the documents.

**Scan to E-mail** — similar to the *Scan to PDF* except a PDF file will be created and will be included as an attachment to an email. When the scan is complete, your email software application will be opened with your scanned attachment and be ready to send to an email address from your email account.

Depending on what you want to do, you can select one of these job setups to use as a starting point to setup your own jobs.

## **Ready to Scan**

The Ready to Scan job allows you to start scanning documents without having to create or modify any setups. This job does not have any indexes defined and places all scanned images after they are output into C:\BatchesPro.

When a batch is output, each image will be moved from the scanned image location and output in a single-page TIFF format.

1. From the main screen, select **Batch>New**. The New Batch screen will be displayed.

New Batch	<u>? ×</u>
Job name:	Ready to Scan 💌
Batch name:	Batch001
Starting document ID:	1
	OK Cancel

- Select a job setup that you want to use as a starting point for your scan job from the *Job name* drop-down list. In this case, **Ready to Scan**. The Batch name and Starting document ID are automatically filled in.
- 3. Click OK.
- 4. Place the documents you want to scan in the feeder of the scanner.
- 5. Click **Scan/Start** . The images will be displayed in the Image Viewer.

- Review your images to be sure they are as you want them. If you need to make some adjustments, editing tools are available from the Tools menu. Some of the more commonly used editing functions include: rotating images, deleting images, cropping images, etc.
- 7. When finished, click the **Output Batch** icon images will be output and saved in the BatchesPro folder.

## Scan to PDF

Scan to PDF is similar to *Ready to Scan*, except when you scan your document(s) the first page will be displayed in the Image Viewer and you will be prompted for a Document Name to be entered as index data. The index data is used as the file name when you output the documents. All scanned images are output into C:\PDF Files.

When a batch is output, each image will be output as a searchable PDF.

1. From the main screen, select **Batch>New**. The New Batch screen will be displayed.

New Batch	<u>? ×</u>
Job name:	Scan to PDF
Batch name:	PDF003
Starting document ID:	1
	OK Cancel

- 2. Select **Scan to PDF** from the *Job name* drop-down list. The Batch name and Starting document ID are automatically filled in.
- 3. Click OK.
- 4. Place the documents you want to scan in the feeder of the scanner.
- 5. Click **Scan/Start** . The images will be displayed in the Image Viewer.

- 6. Enter a **Document Name** to be used as index data.
- Review your images to be sure they are as you want them. If you need to make some adjustments, editing tools are available from the Tools menu. Some of the more commonly used editing functions include: rotating images, deleting images, cropping images, etc.
- 8. When finished, click the **Output Batch** icon <sup>120</sup>. Your images are saved in the PDF Files folder.

## Scan to Email

Scan to Email will display the first page in the Image Viewer and you will be prompted for a Document Name to be entered as index data. When the documents are scanned, PDF files will be created and automatically attached to an email for sending to an email recipient. Your email software must be setup and open for Scan to Email to be successful.

When you select **Scan to Email** an email message will be generated for each batch of documents scanned.

1. From the main screen, select **Batch>New**. The New Batch screen will be displayed.

New Batch	<u>? ×</u>
Job name:	Scan to e-mail 💌
Batch name:	Mail005
Starting document ID:	1
	OK Cancel

- 2. Select **Scan to Email** from the *Job name* drop-down list. The Batch name and Starting document ID are automatically filled in.
- 3. Click OK.
- 4. Place the documents you want to scan in the feeder of the scanner.
- 5. Click **Scan/Start** . The images will be displayed in the Image Viewer.
- Review your images to be sure they are as you want them. If you need to make some adjustments, editing tools are available from the Tools menu. Some of the more commonly used editing functions include: rotating images, deleting images, cropping images, etc.
- 7. When finished, click the **Output Batch** icon  $\mathbb{P}$ .
- 8. After scanning, your email software will open a new email with the PDF file attached. Enter the email address of the person you are sending the file to and send it as you normally send your email messages.
