LIEBHERR

Design, Quality and Innovation

1 Know-how that matters!

Liebherr-Hausgeräte has specialised in developing and manufacturing first class refrigerators and freezers of premium quality and cutting edge design for over 50 years. Innovative ideas are constantly added to the products for enhancing freshness, improving ease-of-use and saving even more energy to raise customer product value.

2 Premium product quality

To ensure the renowned Liebherr quality, only first class components are used. For example, accurate electronic control systems are used in conjunction with optimised refrigeration components. During the manufacturing process the appliances undergo comprehensive testing and inspection to ensure perfect workmanship and flawless functionality. This means Liebherr appliances have a long service life.

3 Innovative ideas

Liebherr appliances boast a compelling array of innovative ideas. Take, for example, the freestanding Premium appliances with the new electronic control system and user-friendly Touch feature, or the PremiumPlus models with the innovative LED lighting, convenient IceMaker with twist tray, or GlassLine shelves for versatile use.

4 Classical design

The combination of classical, timeless design with high quality materials like glass and stainless steel makes Liebherr appliances the focal point in any kitchen.

5 Environmentally friendly

For Liebherr, being actively green starts at the very beginning of the design process. In keeping with this ethos, Liebherr uses high quality components for its appliances to provide long and safe operation and top energy efficiency. All plastics are marked for recycling. The manufacturing processes are also geared to efficient use of resources. To give one example: the heat naturally generated during manufacture of the appliances is recycled as heating energy.

6 Super energy efficiency

By deploying state-of-the-art, precision electronics combined with finely tuned, highly efficient refrigeration systems, Liebherr offers a wide range of energy saving appliances. All the product groups feature models securing great savings in the A+ and A++ top energy efficiency classes.

7 BioFresh feature

In the BioFresh compartments food retains its healthy vitamins, aroma and appetising appearance up to three times longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – HydroSafes with high humidity or DrySafes with low humidity – for a versatile storage solution.

8 NoFrost-professional quality freezing performance

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

9 Perfect climate for fine wines

Liebherr's wine storage cabinets and multi-temperature wine cabinets are designed specifically to store wine in its optimum environment. These appliances feature state-of-the-art electronic control systems, special vibration free compressors and a host of features such as tinted glazed doors, activated charcoal filters or stable, hand crafted wooden shelves on telescopic rails.

10 Awards given to the range

The design quality of Liebherr appliances is confirmed by independent institutions. The CBNes 3967 with BioFreshPlus technology was awarded the reddot design award 2009. Liebherr also won the PlusX 2007 title as the Most Innovative Brand of large appliances.

Innovative ideas combined with outstanding design and superior quality

Bringing a personal touch to the look and feel of your home is more than just a trend; it is part of a modern lifestyle. Your own kitchen is just the right place to realise your ideas and fulfil your dreams. An imaginative combination of materials, colours and shapes creates a place of pleasure and distinctive charm.

Innovative ideas from Liebherr

As a specialist in refrigerators and freezers, Liebherr is consistently developing new and innovative solutions to boost freshness, enhance ease-of-use and save even more energy.

BioFresh from Liebherr - the healthy option

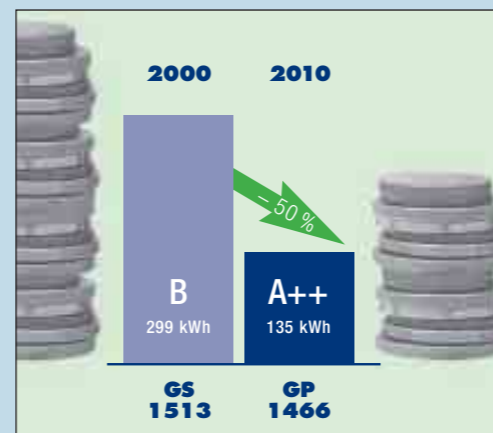

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance up to three times longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – HydroSafes with high humidity or DrySafes with low humidity – for a versatile storage solution. Independent studies confirm, for example, that there is even an increase in the vitamin C content of many types of food when they are stored in the **BioFresh safe**. The natural loss of moisture in fruit and vegetables is significantly reduced.

Environmentally friendly and efficient

Back in 1993, Liebherr was the first manufacturer in the world to change across to environmentally-friendly CFC- and FC-free refrigerants for our entire range of freestanding appliances. And by bringing together highly efficient refrigeration circuits and state-of-the-art precision electronic controls, Liebherr offers almost its entire range in the top energy efficiency classes A+ and A++.

NoFrost - professional quality freezing performance

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

For instance, with the automatic **SuperFrost** function, temperatures as low as -32 °C are reached quickly and efficiently. This means food can be frozen at its highest quality to best preserve the vitamins, taste and appearance. After the SuperFrost function is over, the appliance automatically switches back to its normal mode.

For discerning connoisseurs

Perfect conditions are essential for a good wine to mature into a premium vintage and to ensure that its long-term value is upheld. Liebherr's wine storage cabinets and multi-temperature wine cabinets are the perfect solution. Incorporating the latest climate technology, they provide the ideal conditions for wine to mature in peace and reach the peak of flavour.

Fruit/vegetable bin on telescopic rails

The transparent vegetable bins provide a clear view of the stored food and slide out effortlessly on the roller system. The roller plates integrated in the floor of the liner are easy to remove for cleaning.

In the PremiumPlus appliances the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

The **humidity control plates** allow the humidity to be set individually in both compartments, enabling each one to be used as a HydroSafe or as a DrySafe.

BioFresh - Maximising the life of fresh produce

Creative cooking with family and friends is a new trend in modern cuisine. And nowadays enjoying healthy meals is simple to achieve as fresh food provides all the vitamins, mineral nutrients and trace elements our bodies need everyday. It is important not only to buy really fresh food, but also to ensure it's perfectly stored at home. Since not all types of food need the same temperature and humidity conditions, Liebherr has come up with the additional temperature zone – “BioFresh” – where many types of food can be kept fresh for up to three times longer than in a traditional refrigerator compartment.

In the BioFresh compartments food retains its healthy vitamins, aroma and appetising appearance up to three times longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – HydroSafes with high humidity or DrySafes with low humidity – for a versatile storage solution.

BioFresh - Take a fresh look at healthy

Liebherr's BioFresh technology gives your quality of life a decisive boost by keeping your food much fresher for much longer.

Broccoli + 8 days

Prawns + 1 day

Raspberries + 2 days

Artichokes + 7 days

Grapes + 17 days

Carrots + 30 days

Asparagus + 8 days

Apple + 30 day

BioFreshPlus fridge-freezer

At a temperature of just above 0°C, the humidity of both drawers can be set for DrySafe or HydroSafe use.

The low humidity for the **DrySafe** is ideal for storing meat, fish and dairy products. Fruit and vegetables are best kept in the **HydroSafe** with a high level of humidity.

The new **BioFreshPlus** technology provides yet more flexibility for tailored storage. The separate BioFreshPlus electronic control system means, for example, that the temperature in the top drawer can be lowered to -2°C for storing fish. Together with the DrySafe setting, fish is kept fresh even longer.

Exotic fruits find ideal storage conditions in the top adjustable safe at +6°C and a high level of humidity.

In the PremiumPlus appliances the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

Illustration:
CBNes 3967

The **HomeDialog system** allows you to control a NoFrost premium freezer from the new LCD display panel. Interconnection is possible with the Power-Line Module, available as a chargeable optional extra (HomeDialog-ready). The only requirement is that both appliances are connected by the same electrical ring main.

The new **electronic LCD display** is an innovative design feature. Clear menu navigation and a Touch-electronic control system provides yet more information for tailored storage conditions. The **Touch-electronic navigation** ensures easy selection and use of the numerous control functions.

The **SoftSystem** feature provides added safety and convenience. Integrated on the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded. The door closes automatically from an opening angle of approximately 45°.

Electronic control system

- LCD display in door with Touch-electronic
- Separate temperature regulation for refrigerator compartment and freezer compartment using buttons
- Automatic SuperCool function
- Automatic SuperFrost function, quantity-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- HomeDialog system
- Control lamp for mains, alarm, SuperCool, SuperFrost, FrostControl, child lock, holiday mode, power failure

Fridge compartment

- Automatic defrosting
- Forced air cooling with fan
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- GlassLine storage racks with bottle and can holders
- Smooth, easy-to-clean compartment liner with elegant holding columns for rearrangement of the glass shelves
- LED light column on either side for even, high-class illumination of the interior
- Integrated bottle shelf for versatile use
- Rearrangeable, removable Vario boxes ready for serving
- Egg tray

BioFresh compartment

- Automatic defrosting, forced air cooling
- BioFreshPlus, adjustable temperature range -2° C for fish and seafood, 0° C for fruit, vegetables, meat and dairy products, +6° C for tropical fruits to ensure ideal, longer storage
- Pull-out BioFresh safes mounted on telescopic rails with flexible humidity control for use as DrySafes or HydroSafes for longer freshness of fruit, vegetables, meat and dairy products
- LED interior light

Freezer compartment

- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace due to removable drawers and intervening glass shelves
- IceMaker with fixed water connection

Features

- SwingLine design
- Stainless steel slimline door handles with integrated opening mechanism
- SoftSystem to cushion door closure
- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Adjustable-height feet at the front, transport castors and transport handles at the back
- Reversible doors

- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Adjustable-height feet at the front, transport castors and transport handles at the back
- Reversible doors

DuoCooling uses two separate cooling circuits to independently control fridge and freezer compartment temperatures. With DuoCooling there is no air exchange between fridge and freezer compartments so odour transfer is prevented and food is stored in optimum conditions.

The **integrated glass shelf** can be used as a storage area. Alternatively, the bottle shelf can be used by stowing the glass shelf underneath. Should you need to store very tall bottles, the bottle rack in the inner door can be moved upwards allowing the entire depth of the appliance to be used.

The elegant, high precision **MagicEye control unit** featuring the innovative **Touch-electronic control** concept ensures that the selected temperatures are kept to the exact degree required. The Touch-electronic panel makes the control of all the functions easy and convenient to use.

⁴ IceMaker – automatic ice-cube maker (can be switched off) with fixed water connection and solenoid valve (needs to be plumbed in)

NoFrost and SmartFrost fridge-freezers

Illustration:
CUNesf 3513

NoFrost
The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Electronic control system
The **MagicEye control** keeps the temperature at exactly the level you select. It is simple and convenient to use. The **automatic SuperFrost function** quickly reduces the temperature to freeze your food while preserving the vitamins.

Comfort ceiling lighting
The Comfort ceiling lighting bathes the entire interior in bright light. This gives you an unparalleled view of the inside of the appliance and allows easy access to stored food.

Comfort GlassLine
Models in the Comfort range come with Comfort GlassLine: high-quality glass equipment for the door interior. Comfort GlassLine features a base made of satin-finish safety glass, railings and an elegant plastic surround. The can and bottle racks have an adjustable holder for the secure storage of containers in the door interior.

Bottle shelf
The bottle shelf is a practical and elegant solution to storing drinks. As many as five bottles can be chilled and stored neatly.

VarioSpace
Freezer drawers and glass shelves can be removed. VarioSpace – the practical storage solution for larger produce.

NoFrost fridge-freezers

Electronic control system

- MagicEye with LED refrigerator temperature display
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- Control lamp for mains, alarm, SuperFrost

Fridge compartment

- Automatic defrosting
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- Comfort GlassLine door rack with glass shelf and plastic frame
- Smooth, easy-to-clean compartment liner with elegant holding columns for rearrangement of the glass shelves
- Fruit and vegetable bins
- Interior light
- Bottle rack (except CUN 3103)
- Egg tray

Freezer compartment

- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace due to removable drawers and intervening glass shelves
- Ice cube tray

Features

- SwingLine design
- Slimline door handles with integrated opening mechanism (except CUN 3033)
- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Adjustable-height feet at the front, transport castors and transport handles at the back
- Reversible doors

The **MagicEye control** keeps the temperature at exactly the level you select. It is simple and convenient to use. The **automatic SuperFrost** function quickly reduces the temperature to freeze your food while preserving the vitamins.

The **Comfort ceiling lighting** bathes the entire interior in bright light. This gives you an unparalleled view of the inside of the appliance.

The **vegetable compartment** provides plenty of room for storing fruit and vegetables. It is practical and easy-to-clean.

SmartFrost fridge-freezers

Electronic control system with 60 cm model

- MagicEye with LED refrigerator temperature display
- Automatic SuperFrost function, time-controlled
- Control lamp for mains, SuperFrost

Fridge compartment

- Automatic defrosting
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- Comfort GlassLine door rack with glass shelf and plastic frame
- Interior light with CUP models
- Smooth, easy-to-clean compartment liner with elegant holding columns for rearrangement of the glass shelves
- Fruit and vegetable bins
- Bottle shelf (except CUP 2221)
- Egg tray

Freezer compartment

- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace due to removable drawers and intervening glass shelves
- Ice cube tray

Features

- SwingLine design
- Stainless steel slimline door handles with integrated opening mechanism (with CUPesf 2721/CU(esf) 3503)
- Ergonomic slimline handle (with CUP 22/27/30)
- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Adjustable-height feet at the front, transport castors and transport handles at the back
- Reversible doors

Compared to other static freezers, Liebherr's **SmartFrost technology** freezes food faster, and reduces ice build-up by 50%, making defrosting simpler and quicker. It also provides a more flexible storage area with greater capacity and improved energy consumption for lower running costs.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

Top mount fridge-freezers

No Frost
The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Automatic SuperFrost
The SuperFrost function makes freezing simple and saves energy. It quickly reduces the temperature and creates the cold air required to preserve vital vitamins.

Forced air system
The high-performance forced air system ensures rapid cooling of food and an even cooling temperature throughout the entire internal space. Door contact switches turn off the fan when the door is opened, which saves valuable energy and prevents warmer external air from entering the fridge.

GlassLine interior
The distinctive GlassLine equipment in Premium models puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Bottle shelf
The bottle shelf is the practical and elegant answer for storing drinks. As many as five bottles can be chilled and stored neatly.

Vegetable compartment
The practical and easy-to-clean vegetable compartment provides plenty of space for storing fruit and vegetables.

You can freeze fresh food and store frozen food for long periods in appliances with the **4-star freezer compartment**. Temperatures of -18°C and lower ensure food is stored with all the vital vitamins and minerals preserved.

Liebherr have now redefined energy saving with the innovative **A+** top mount fridge-freezers. Use of the latest electronics combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced. This super energy-saving solution actively contributes to environmental conservation.

The **SwingLine** models with side profile are presented in timeless elegance, with the embossed Liebherr logo on the doors adding one more harmonious detail. The slimline handle is fitted at a convenient height for easy opening.

Upright fridges

Premium electronic control system

The elegant, high-precision MagicEye control unit featuring the innovative Touch-electronic control concept ensures that the selected temperatures are kept to the exact degree required. The Touch-electronic control panel gives easy and convenient control of all the functions.

Forced air system

The high performance forced air system ensures rapid cooling of food and an even temperature throughout the entire internal space. Door contact switches turn off the fan when the door is opened, which saves valuable energy and prevents warmer external air from entering the refrigerator.

Premium ceiling lighting

The elegant Premium ceiling lighting with satinized glass cover is integrated in the ceiling to form a harmonious synthesis with the appliance design. It provides pleasant, bright lighting conditions, illuminating the entire interior with a high intensity of light.

GlassLine interior

The distinctive GlassLine equipment in Premium models puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

VarioBoxes

The removable VarioBoxes, designed for convenient storage, can be rearranged in the door interior to suit your requirements. VarioBoxes hang on a steel rod and are detachable.

Fruit/vegetable bin on telescopic rails

The transparent vegetable bins provide a clear view of the stored food and slide out effortlessly on the roller system. The roller plates integrated in the floor of the liner are easy to remove for cleaning.

- Reversible doors

The **MagicEye control** on Premium models keeps the temperature at exactly the level you select. It is simple and convenient to use. The **SuperCool function** reduces the temperature of the fridge to +2°C for 6 hours. This is ideal if you want to chill fresh food quickly.

You can freeze fresh food and store frozen food for long periods in appliances with the **4-star freezer compartment**. Temperatures of -18°C and lower ensuring food is stored with all the vital vitamins and minerals preserved.

The automatic **SuperCool** function lowers the refrigerator temperature down to as far as +2°C ideal for rapidly cooling freshly stored food.

Table-height fridges

Fridge compartment

- Automatic defrosting (except KX 1021)
- Comfort GlassLine door rack with glass shelf and plastic frame
- Interior light
- Fruit and vegetable bins
- Egg tray

Features

- SwingDesign
- Ergonomic slimline handle
- Flush with wall
- Height-adjustable feet at the front
- Reversible doors
- Front ventilation, detachable top, suitable for installation in a row of kitchen units (except KX 1021)

The **CoolPlus** function reduces the temperature in the freezer compartment for several hours so that food can be frozen quickly and safely. This function also ensures that the temperature in the freezer compartment is kept constant in room temperatures as low as + 10°C.

Ergonomically designed, the extra deep transparent **vegetable compartments** are easy-to-clean and provide ample storage for fruit and vegetables.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The new BioFreshPlus technology

The BioFreshPlus technology provides greater flexibility and control for ideal food storage conditions. With its independent electronic control system the temperature in the top compartment can be adjusted from -2 °C (fish), to +6 °C (exotic fruits).

NoFrost

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Light columns

Unique to the PremiumPlus range of appliances are two LED light columns, integrated into either side of the interior. The special satin-finish light cover creates a pleasant lighting atmosphere and provides uniform illumination of the interior.

IceCenter

The new IceCenter is a highlight for any kitchen, supplying ice cubes, crushed ice and chilled water, the IceCenter provides a myriad of options for serving cool drinks. The ice cubes and water are dispensed using the contact-sensitive paddles, which are lit by LED light either when in operation or optionally on a permanent basis.

SoftSystem

The SoftSystem ensures that the door closes gently even when fully loaded. The door automatically closes from an opening angle of approximately 45°.

Integrated bottle shelf

An innovative and unique detail is the integrated bottle shelf, as an alternative storage solution the glass shelf which is stored underneath can be used. Taller bottles can be stored in the door shelves which can be adjusted to give more height.

Side-by-Side fridge-freezers

Electronic control system

- LCD temperature display
- Quantity-controlled automatic SuperFrost
- Automatic SuperCool function
- Control lamps for mains, alarm, SuperCool, SuperFrost, FrostControl and Child Lock function
- Audible and visual temperature alarm
- Audible door alarm

Fridge compartment

- Forced air cooling
- GlassLine storage shelves – one sectioned, one half can slide underneath the other
- GlassLine storage racks with dividers

BioFreshPlus compartment

- Automatic defrosting, forced air cooling
- BioFreshPlus, adjustable temperature range -2° C for fish and seafood, 0° C for fruit, vegetables, meat and dairy products, +6° C for tropical fruits
- BioFresh-Safe on telescopic rails with adjustable humidity, for use as DrySafe or HydroSafe

NoFrost freezer compartment with IceCenter

- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace with removable drawers and intervening glass shelves

Features

- Stainless steel slimline door handle with integrated opening mechanism
- Flush with side wall and with front ventilation
- Height adjustable feet at front
- Castors at rear – adjustable from front

The new **IceCenter** from Liebherr is a highlight for any kitchen. Supplying ice cubes, crushed ice and chilled water, the IceCenter provides a myriad of options for serving cool drinks. The ice cubes and water are dispensed using the contact-sensitive paddles, lit by LED light either when in operation or optionally on a permanent basis.

The **HomeDialog** system allows you to control a NoFrost premium freezer from the new LCD display panel. Interconnection is possible with the Power-Line Module, available as a chargeable optional extra (HomeDialog-ready). The only requirement is that both appliances are connected by the same electrical ring main.

Side-by-Side fridge-freezer

The **IceMaker** provides you with a constant supply of ice cubes for every occasion. Whether you fancy a cold drink or you're having a big party, the IceMaker automatically keeps your supplies topped up.

The SBSes 7155 Side-by-Side fridge-freezer with **five different climate zones** boasts an array of innovative solutions. The multi-temperature wine cabinet has two zones for storing wine at the exact temperature required, ranging from +5 °C and +20 °C. The NoFrost freezer with automatic IceMaker provides expert refrigeration technology for long-term freshness.

CBNes 6256 PremiumPlus

Bio Fresh	No Frost	A+	Duo Cooling	Ice Maker	Home Dialog	LED lighting
-----------	----------	----	-------------	-----------	-------------	--------------

NoFrost
The professional NoFrost technology from Liebherr makes defrosting a thing of the past. The CBNes 6256 NoFrost food centre from Liebherr is a highly energy efficient A+ rated appliance. The two pull-out freezer drawers are mounted on high-quality telescopic rails and can be effortlessly extended to provide a perfect view and ideal storage conditions.

Precision controls
The elegant MagicEye control system with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the refrigerator compartment and freezer compartment is kept to exactly the degree chosen. All the functions can be simply and conveniently operated at the touch of a finger.

Automatic IceMaker
The automatic IceMaker from Liebherr provides perfect ice cubes for every occasion. Whether you fancy a quick drink or you're having a big party, the extra-large drawer holds an ample supply of ice cubes. An integrated water filter ensures perfect water quality at all times. The electronic display indicates when the water filter needs replacing.

LED lighting concept
The PremiumPlus interior features LED light columns integrated on either side of the compartment liner, ensuring that the interior is evenly bathed in light to create a unique and dramatic effect within the appliance. At the same time the light columns provide freedom for rearranging the glass shelves to suit your storage needs.

GlassLine equipment
The elegant, high quality GlassLine interior is adaptable to suit individual requirements. The extra-strong, satin-finish shelves and door racks with solid aluminium trims are height adjustable. The door interior accommodates tall bottles and wide containers.

Both BioFresh-Safes are mounted on telescopic rails which extend effortlessly providing a full view of produce, which is easily accessible. The lateral LED light spots ensure perfect illumination of the drawers. The versatile glass/bottle shelf can be used depending on your personal preference. The glass on top gives you shelf space, and the glass underneath gives you bottle space.

Side-by-Side fridge-freezer

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance up to three times longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.

The removable **VarioBoxes**, designed for convenient storage, can be rearranged in the door interior to suit your requirements. The VarioBoxes hang on a steel rod and are detachable.

NoFrost

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

SuperFrost

The SuperFrost function makes freezing simple and saves energy. It quickly reduces the temperature and creates the cold air required to preserve vital vitamins. As soon as the food is completely frozen, the Automatic SuperFrost switches back to normal operating temperature and therefore saves energy.

Vario Energy-Saving Panel

If you don't require the entire freezer space for stocking up with frozen goods, unused drawers can be switched off with the optional Vario Energy-Saving Panel. Energy consumption can then be reduced again by up to 50%.

Transparent drawers

Attractively designed, the robust removable transparent drawers with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food.

VarioSpace

Freezer drawers and glass shelves can be removed. VarioSpace – the practical storage solution for larger produce.

A++

Using the latest technology combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced.

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

If you don't require the entire freezer space for stocking up with frozen goods, unused drawers can be switched off with the optional **Vario Energy-Saving Panel**. Energy consumption can then be reduced further by up to 50%.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

The **SuperFrost** function makes freezing simple and saves energy. It quickly reduces the temperature and creates the cold air required to preserve vital vitamins. As soon as the food is completely frozen, the Automatic SuperFrost switches back to normal operating temperature and therefore saves energy.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Compared to other static freezers, Liebherr's **SmartFrost technology** freezes food faster, and reduces ice build-up by 50%, making defrosting simpler and quicker. It also provides a more flexible storage area with greater capacity and improved energy consumption for lower running costs.

Electronic control system

- MagicEye with LED temperature display
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- Control lamps for mains, alarm and SuperFrost

Freezer compartment

- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace due to removable drawers and intervening glass shelves

Features

- SwingDesign
- Slimline door handle with integrated opening mechanism
- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Adjustable-height feet at the front, transport castors and transport handles at the back
- Reversible doors

Table-height freezers with SmartFrost

Electronic control system with Premium table-height freezers

- MagicEye with digital temperature display
- Automatic SuperFrost function, time-controlled
- Audible and visual temperature alarm

Electronic control system with Comfort table-height freezers

- Automatic SuperFrost function, time-controlled
- Control lamps for mains, alarm and SuperFrost

Freezer compartment

- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace due to removable drawers and intervening glass shelves

Features

- SwingDesign (except GPesf 1466)
- Flush with wall and with front ventilation, suitable for installation in a row of kitchen units
- Height-adjustable feet at the front
- Reversible doors
- Ergonomic slimline handle

The **Automatic SuperFrost** with Premium table-height freezers makes freezing a simple and energy-saving task. It quickly reduces the temperature and in the process creates the cold air required to preserve vital vitamins. **FrostControl** provides a new safety feature; after a power failure, the MagicEye will display the warmest temperature that was reached in the freezer compartment.

Attractively designed, the robust removable **transparent drawers** with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Chest freezers

Digital temperature display in chest handle
The digital temperature display in the handle allows for a quick and easy view of the current temperature within the freezer compartment (with GTP 2356).

Interior light
The bright interior light allows a clear view of all your stored products even in low ambient lighting conditions. All Liebherr chest freezers are equipped with sturdy steel hinges, ensuring reliable opening of the lid. Thanks to the retaining springs, the lid conveniently stays open and keeps the tension when closing.

StopFrost
This innovation has two distinct advantages: frosting up of the freezer and frozen food is reduced by over 70%, reducing the number of times you need to defrost the freezer. The StopFrost system prevents a vacuum from building up after the lid has been opened and closed.

Jointless foam insulation
The heat-exchange condenser is embedded in foam along the exterior wall, minimising vibration and promoting quieter operation. No condensation forms on the outside and the smooth outside walls are easy-to-clean.

Steel Hinges
All Liebherr chest freezers are equipped with sturdy steel hinges, ensuring reliable opening and closing of the lid. Thanks to the retaining springs, the lid is conveniently kept open and keeps the tension when closing.

Freezing chart
The freezing chart on the inner lid gives information on how long different types of food can be kept in frozen storage.

Chest freezers

Electronic control system with GTP 2356

- Digital temperature display in chest handle
- Quantity-controlled automatic SuperFrost
- Control lamps for mains, alarm, SuperFrost, FrostControl and Child Lock
- Audible and visual temperature alarm
- Audible door alarm

Mechanical control system with GTS models

- Time-controlled automatic SuperFrost
- Control lamps for mains, SuperFrost and alarm

StopFrost freezer

- One piece, distortion-proof, pressed steel lid
- Condenser embedded in side walls
- Freezing chart on inner lid
- Dividing wall – also suitable for use as a water collection tray

limit of class A.

In the new **A-60% efficiency class** (from 2011) the appliances are 60% more economical than the top

StopFrost

This innovation has two distinct advantages: frosting over of the freezer and frozen food is reduced by 70%, reducing the number of times you need to defrost the freezer. The StopFrost system prevents a vacuum from building up after the lid has been opened and closed.

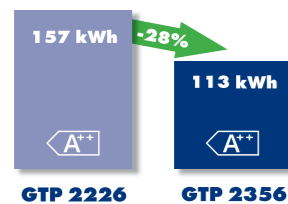

Jointless foam insulation

The heat-exchange condenser is embedded in foam along the exterior wall, minimising vibration and promoting quieter operation. No condensation forms on the outside and the smooth outside walls are easy-to-clean.

Multi-temperature wine cabinets

The Vinidor series optimally combines the advantages of wine storage cabinets and multi-temperature wine cabinets in one appliance. This series offers two or three wine zones in which the temperature can be set separately for each zone to exact degrees. These appliances also ensure optimum temperature setting options when large amounts of wine need to be stored for long periods.

The solid **wooden pull-out shelves** offer convenient access to bottles. Charcoal air filtration, low vibration and a quiet compressor help to create the perfect environment for wine storage.

The **LED lighting** in the wine cooling compartments can be dimmed to give a pleasing ambient light inside the appliance. All Vinidor appliances are equipped with this innovative, no-heat LED lighting concept.

Illustration: WTes 4677

Wine storage cabinets

Wine storage cabinets are the ideal choice for storing large quantities of wine for longer periods. These appliances are also perfect for keeping wine, ready to drink at optimum drinking temperatures. The set temperature is kept constant and even throughout the cabinet.

The **lever handle** in the GrandCru range is ergonomically adapted to the respective door height. This practical door handle, with integrated opening mechanism, allows the door of the appliance to be opened conveniently with a minimum of effort.

The wine storage cabinets of the GrandCru range are equipped with an accurate **electronic control system** with digital temperature display. With this control system the temperatures can be set to the degree required from a range of 5 °C to 20 °C. The Vinothek range can be set between 5 °C and 20 °C using a rotary control button.
