

The Amateur Entomologists' Society Trading Certificate

Trader Name

Stand Number (*Office Use*)

All traders selling livestock/deadstock should complete and return this document to the AES Exhibition Secretary no later than **14th September 2010**. Traders not trading in specimens or who are not trading in any species on this trading certificate list can complete the delaration below and return only this page.

DECLARATION (NIL RETURNS ONLY)

I hereby certify that I have read the list of species listed on the AES Trading Certificate and certify that I will not be offering any specimens listed for sale. Failure to declare any species listed may result in you being asked to remove all items for sale and if applicable details may be forwarded to the relevant authorities.

Concerns/Comments

--

This document lists those species which are covered by legislation and therefore have restrictions concerning their trade in any circumstances, **not just at the AES Exhibition.**

We would like to remind you that around 100 species were added to this list in 2007 as a result of the UK's adoption of the European Habitats Directive.

More information, if required, can be obtained from:

<http://www.defra.gov.uk/wildlife-pets/wildlife/protect/documents/habitat-speciesprotectchange.pdf>

Information regarding licences (for England) can be obtained from:

<http://www.naturalengland.org.uk/conservation/wildlife-management-licensing/default.htm>

Postal address: Wildlife Management and Licensing Unit, Natural England, Northminster House, Peterborough PE1 1UA
Telephone 0845 601 4523

Information about importing species listed under CITES can be obtained from:

<http://www.defra.gov.uk/animalhealth/about-us/contact-us/wildlife.htm>

Postal address: Wildlife Licensing and Registration Service (WLRS), Animal Health, 1/17 Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6EB
Telephone 0117 372 8774

We would also like to remind all traders that we require caresheets to be available for livestock of ALL species that are sold. We will be requiring traders to remove livestock from sale if a caresheet is not provided.

Sale of Species Protected by Law

The AES is required to uphold the law when providing facilities for trade at its Annual Exhibition and elsewhere. The sale of every species listed below is restricted by law; i.e. the Wildlife and Countryside Act 1981 (WCA) for native species¹, and UK regulations which implement the EU Habitats Directive or CITES for mostly non-native species on international lists². **If you intend to offer or display for sale any specimens of any of the listed species at the Exhibition, whether living or dead, you must do the following:**

1. Obtain all the necessary **licence(s), export/import permits, trading certificate(s) or official letters.**
2. Fill in this trading certificate so as to show –
 - a. Which, if any, of the listed species you intend to offer for sale;
 - b. Any specimens (e.g. captive-bred³ livestock of a species listed in Appendix II of CITES) for which you are claiming exemption from the need to have a licence or other documentation;
 - c. The licence-number(s) (or permit / certificate number(s) in the case of CITES species).
3. Send this certificate, completed and signed, to the relevant officer (e.g. Exhibition Secretary or Wants and Exchange editor).
4. At the exhibition, please be **ready to show on request all the relevant licences, permits, certificates or official letters** which prove that you are allowed to sell the specimens concerned. Also, space allowing, please **display all these documents prominently** next to the specimens concerned. You **must display at least the number(s)** of the licence(s), certificates or permits and you **must also label the specimen(s)** so as to show which ones are licensed or otherwise certified. All captive-bred³ specimens should be labelled as such.

NB. Vertebrate species, irrespective of their legal status, must not be traded in any way at the AES Exhibition

At our Annual Exhibition, failure to comply with ANY of the above conditions will lead to action by our stewards and perhaps by the authorities. You would, at the very least, be asked to remove specimens from sale if you were unable to show relevant documents and you could be required to cease trading and to leave the exhibition immediately. If the law clearly appears to have been broken, the authorities may have to be informed.

Various laws in the UK restrict trade in specified invertebrate species. The following table summarises the licensing requirements for protected species in England, where the AES currently holds its exhibitions. The table is not necessarily comprehensive and must be treated only as a guide. **Also, please observe the AES trading policy regarding venomous species and scheduled alien pests.** If in doubt, consult the relevant authorities.

Category of legal listing of protected species	Requirement(s) for legal trade in England
Wildlife & Countryside Act 1981, Schedule 5	Natural England licence ⁴
CITES Appendix I	WLRS trading certificate ⁵ ♣
CITES Appendix II	Written proof of legal export and of legal import into UK ♠
CITES Appendix III	No certification required
European Habitats Directive Annex IV	Natural England licence ⁴

NOTES

- ♣ For CITES Appendix I species and for *Parnassius apollo*, a fresh trading certificate is required for each successive transfer of the specimen(s). The authorities rarely permit the sale of these species but if you have such permission, please enter the details using the blank lines at the end of the species-table below.
- ♠ Written proof will usually consist of import and export permit(s) or the original importer's signed notification of the permit numbers. For CITES-listed species captive-bred³ in the UK, the AES requires only that the specimens are **clearly labelled** as such.

¹ Please note that the WCA 1981 applies to specimens of a foreign origin as well as to those from Great Britain.
² Within the UK, species listed under CITES are covered by COTES [Control of Trade in Endangered Species (Enforcement) Regulations 1997.] Species listed in the Habitats Directive are covered by the Conservation Habitats and Species Regulations 2010
³ Under UK law, 'captive-bred' means derived from parents which were **both** obtained legally.
⁴ Applications for sale in England should be submitted to Natural England on form WML-A38. [Contact: Wildlife Management and Licensing Unit, Natural England, Northminster House, Peterborough PE1 1UA (tel. 0845 601 4523; e-mail: wildlife@naturalengland.org.uk)]
⁵ Applications should be submitted to Wildlife Licensing and Registration Service (WLRS), Animal Health, 1/17 Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6EB (tel. 0117 372 8774; e-mail: wildlife.licensing@animalhealth.gsi.gov.uk)

⁶ The sale of species on Sch. 5 of WCA 1981 is normally illegal without a licence, even for specimens obtained after the scheduling of the species concerned. If a licensing authority has, however, informed a trader that a licence is not required, the trader must display an official letter as evidence. For captive-bred³ livestock of species on Appendix II of CITES (e.g. *Brachypelma* spp.), the trader may insert the year when he or she legally obtained the breeding colony, if unable to state exactly when the wild progenitors were taken.

Unio nickliniana
Unio tampicoensis tecomatensis
Villosa trabalis

APPENDIX 2: Other invertebrates which must not be offered for sale as living specimens

1. All venomous spiders and scorpions scheduled under the Dangerous Wild Animals Act 1976
2. All species listed in the Plant Health (England) Order 2005 (No. 2530)

DECLARATION

I hereby certify that neither I nor my agent, if any, will sell or display for sale any specimens or livestock of those species listed above, except where I have indicated either that I have valid licence(s), permit(s) or trading certificate(s) to offer them for sale (I will ensure that all such valid documents are available and displayed as instructed in this trading certificate), or that they qualify for a statutory exemption which applies to specimens not taken from the wild after a specified date. If I have indicated that any specimens are captive-bred³, I hereby certify further that I take full responsibility for the truth of any such statement. I hereby also declare that I will remove from sale any specimens which may be found not to be licensed, certified or exempted as above.
