Agenda

- **Project Overview**
- **Organic *INTEGRITY* Database**
 - Home Page Basic Search
 - Advanced Search
 - Search Results Export and Other Reports
 - Web Services for App Developers
 - Certifier Locator and Certifier Profile
 - Organic Certificates Module
 - How Data is Being Used
- **Looking Ahead**

*Visit **INTEGRITY** at apps.ams.usda.gov/INTEGRITY*

Vision: The Organic Integrity Database

The NOP is responsible for the integrity of the USDA organic seal.

The Organic *INTEGRITY* Database is a modernized certified organic operations database that:

- Contains up-to-date and accurate information, deterring fraud
- Increases supply chain transparency
- Promotes market visibility for organic operations

Key questions team regularly asks:

- What do we build to meet both near-term and long-term expectations for success?
- What do we build to accommodate diverse certification systems across certifiers?

Big Picture Project Timeline

Spring – Fall 2014	Farm Bill funding allocated for Database; Convened team and completed acquisition strategy
Fall 2014 – Spring 2015	Convened certifier user group; public webinar and feedback session with certifiers; formalized release plan
March 2015	Contract awards to Intact and Harmonia
March-July 2015	5 meetings with certifier user group; system design and development
August - September 2015	Public Webinar Update; Memo to Certifiers on launch; certifier training presentation and feedback; launch of public-facing system (Release 1)
October-November 2015	Certifier outreach and technical assistance with new template format, volunteer certifier user testing, feedback
December 2015	Public Webinar Update; launch of NOP and Certifier section of system (Release 1.1)
January 2016	Launch of updated search functionality and new reports; certifier training; finalization of 2016 list (Release 2)
March 2016	Launched web services for certifier data submission; basic certifier profile; operation history tracking status changes at operation and scope level (Release 2.1)
May-June 2016	Public Webinar Update; launch of Certifier Locator and full certifier profile; updated search functionality; new comprehensive search results export (Release 3)
September-October 2016	Public Webinar Update; launched web services for public data access; certificate module; improved system navigation; improved data exports to template for certifier updates (Release 4)

Meet the Award Winning Team! AMS: NOP & ITS, Intact, Harmonia, and Certifiers

2015-2016 Fall and Winter Releases:

Certifier User Account Management	Expanded Set of Information About Operations	New Product List and Classification
Data Upload & Download (Excel)	Screens Supporting Certifier Interaction	Public Search and Monthly Data Reports

USDA Agricultural Marketing Service | National Organic Program 7

2016 Spring and Summer Releases

Advanced Public Search Capabilities	Automated Connections (Web Services)	Certifier Profile Updates and Searches
Operation Reinstatement and History Tracking	Adjustments to User Navigation/Experience	Operation Certificate Module

USDA Agricultural Marketing Service | National Organic Program 8

In Other Words, Because of INTEGRITY...

- Certifiers can login to the database, and regularly update the list of organic operations they certify
- Certifiers can track the history of an operation to support certification and compliance activities
- Industry and the public can conduct searches and access standard reports more easily and with greater precision than with the old posted list
- Certifiers are increasingly using our more structured listing of commodities and services, a significant improvement over the previous listing

In Other Words, Because of INTEGRITY...

- Industry and the public can perform increasingly sophisticated advanced searches by operation status effective date, exact product name, and other criteria
- Certifiers and third party app developers can access data through automated data feeds (web services)
- Industry and the public can find a Certifier based on office and certified operation locations
- Certifiers can avoid recertifying suspended operations that have not been reinstated by NOP
- Certifiers can produce and operations can verify federated organic certificates through *INTEGRITY*

Home Page (Basic Search)

The screenshot shows the USDA Organic Integrity Database home page. At the top, there is a navigation bar with 'Home', 'Search', and 'Reports' links. Below this is a search bar and a table of search results. The table has columns for 'Operation', 'Certifier', 'Status', 'City', 'State/Province', 'Country', and 'Certified Products'. A red circle highlights the 'Export To Excel' button in the top right corner of the table area.

Operation	Certifier	Status	City	State/Province	Country	Certified Products
VERMEREBOODZSAVY PMPZ LTD.	[ECO] EcoCert S.A.	Certified	HERSON		Uruguay	HANDLING: Other: Sunflower, espalite, oil

Operations Advanced Search - Organic INTEGRITY Database webinar on October 26, 2016 at 11 am Eastern Time. More details are available in the Organic Insider at <http://archive.org/details/1126149818334.html>

[Certifier Locator](#)

Welcome to the Organic INTEGRITY Database!

Find a specific certified organic farm or business, or search for an operation with specific characteristics. Listings come from USDA-Accredited Certifying Agents. Historical Annual Lists of Certified Organic Operations and monthly snapshots of the full data set are available for download on the Data History page. Only certified operations can sell, label or represent products as organic, unless exempt or excluded from certification.

Advanced Search...Tips

Search Tips

Downloading Data: You can export all the operation, scope and certified product information for your search results to a single spreadsheet. Full data snapshots in the combined search results export and data submission template formats are provided monthly on the Data History page.

Using Downloaded Data: When product lists are very long, you may need to customize the Find (Ctrl-F) function in Excel by clicking the Options button in the Find and Replace window and selecting Look in: Values. Please use the search interface to narrow down your operation list as much as possible before exporting it.

Returning to Search Results from an Operation or Certifier Profile: If you right-click on the Operation or Certifier Name link, you can open the profile in a new tab or window. You can close the tab/window with the Operation Profile or switch back to the tab/window with your Search Results to return.

Reporting Data Problems: If you find data you believe is incomplete or incorrect, contact the responsible Certifier.

Getting Help: Send questions about how to use the Organic INTEGRITY Database, and/or any system errors to INTEGRITY@ams.usda.gov. An NOP Team Member will contact you within two business days.

Using the Organic INTEGRITY Database Search Engine:

- Adding more search terms will generally return fewer results.
- Once you have entered all your search criteria, click the Search button at the top or bottom of the page.
- To filter organic operations by the Certifier that issued the organic certificate, choose a Certifier from the dropdown list.
- To filter organic operations by business name, enter full or partial information in the Operation Name box.
- To select an organic operation by the NOP Operation ID, enter the 10-digit number in the box.
- To select an organic operation by the Certifier Client ID, enter the ID in the box.
- To filter organic operations by Contact Name, enter part or all of a name in the box.

Reports... Search Results Export Tips

- Narrow your search results as much as possible before exporting.
- Combine physical and mailing addresses when performing location analysis. *INTEGRITY* reports use physical address when both are provided.
- When product lists are very long, you may need to customize the Find (Ctrl-F) function in Excel by clicking the *Options* button in the Find and Replace Window and selecting *Look in: Values*
- Web services for public data sharing are now available!

USDA Agricultural Marketing Service | National Organic Program 22

Reports...

Web Services for Public Data Sharing

- Organizations can automatically get a download of all publically available (Certified, Surrendered, Suspended and Revoked) organic operations in the system
 - REST API, data is in XML format
- Developer's page:

<http://apps.ams.usda.gov/integrity/Developer/APIHelp.aspx>

Data History Certified Operation Counts

Each month we publish **Data History** public data set, usually by the fifth day of the month. The data is captured at the beginning of the month.

Monthly Snapshots

Data Submission Template Format:
Operations/Scopes and Products on Separate Sheets

- January 2016
- February 2016
- March 2016
- April 2016
- May 2016
- June 2016

Search Results Export Format:
Operations, Scopes and Certified Products on the Same Sheet

- June 2016

Historical Data

You can also download Microsoft Excel workbooks with annual operation lists from:

- 2015
- 2014
- 2013
- 2012
- 2011
- 2010

Disclaimer: For more up-to-date information about certified organic operations, please contact their certifying agent directly. To find a certifying agent's contact information, visit our [Certifier Locator](#) page.

For information on Canadian certified operations, see the [Canadian Food Inspection Agency](#) website. Since products certified to the USDA organic regulations and the Canadian Organic Regime may be sold as organic in both countries, Canadian operations no longer need to maintain certification to the USDA in order to sell organic products in the U.S. The only Canadian operations listed here are those which produce products that are not eligible for Canadian certification, such as pet food.

Operations certified under international trade agreements, also known as Recognition Agreements, do not appear on this list.

ORGANIC INTEGRITY DATABASE

Home Search Reports Log In Register

The National Organic Operations Advanced Search - Organic INTEGRITY Database webinar on October 26, 2016 at 11 am Eastern Time. More details are available in the Organic Insider at <http://archive.ams.usda.gov/operations-advanced-search/>

Welcome to the Organic INTEGRITY Database!

Find a specific certified organic farm or business, or search for an operation with specific characteristics. Listings come from USDA-Accredited Certifying Agents. Historical Annual Lists of Certified Organic Operations and monthly snapshots of the full data set are available for download on the Data History page. Only certified operations can sell, label or represent products as organic, unless exempt or excluded from certification.

New Certificate Module

- Goal: Deploy an operator-level certificate that complies with regulations and NOP's Certificate Instruction
- Benefits:
 - More harmonization across the industry
 - More frequent data updates to INTEGRITY
 - Increased market security
 - Increased use of standardized look-up potential offered by the new and permanent NOP ID (10 digits)
- Some certifiers have expressed hesitation about using the system for certificates, preferring to generate directly from their systems. We will continue to engage stakeholders as we move forward!

Sample Certificate

The sample certificate is a rectangular document with a green border. At the top left, it says "Sample Certificate". On the right side, there are two circular "USDA ORGANIC" logos. The main content is enclosed in a large, faint "USDA ORGANIC" watermark. The text is as follows:

Certifier Name
 Phone – Email
 Website
 Street 1
 Street 2
 City, State/Province ZIP/Postal Code

certifies that

Organic Operation Name
 Phone – Email
 Website
 Street 1
 Street 2
 City, State/Province ZIP/Postal Code
 Country

is certified to the USDA organic regulations, 7 CFR Part 205, for the categories of
Crops, Wild Crops, Livestock, Handling/Processing

Once certified, a production or handling operation's organic certification continues in effect until surrendered, suspended, or revoked. Status of this certification and specific certified organic products covered may be verified at
<https://www.usda.gov/integrty/CFR/CFR.aspx?id=0400000213>

USDA Agricultural Marketing Service | National Organic Program 39

Using the Data

- Trends analysis for outreach – where is the number of certified organic operations declining or increasing, in a particular sector?
- Help connect buyers and sellers to support growth and emergence of new supply chains
- Identification of producers to provide pricing information for new Market News organic reports
- **Questions about the data?** If you have questions about an operation's profile in the *INTEGRITY* database, contact the Certifier. They have the most up to date and detailed information.

USDA Agricultural Marketing Service | National Organic Program 40

Coming Soon

- Print to PDF for Operation Profile
- Item certification status and effective date will be added to operation profile – product details tab and item level tab of monthly data snapshot in data submission template format
- Report automation
- Top organic commodity reports

Questions?

Please enter your questions into the chat box!

Next Steps:

- We continue to work closely with certifiers to encourage regular data submittals and accurate data
- This webinar can be streamed from <http://cc.readytalk.com/play?id=stdzj>
- **Contact the Team Anytime!**
