# QUBIQ 30

*The alternative to a goldfish bowl.*

*The QubiQ aquarium is the alternative to a goldfish bowl. A goldfish bowl lacks a filter and water circulation so that the fish live in a polluted and unhealthy environment. The QubiQ has an integrated filter which ensures clear and healthy water. The QubiQ filter cartridge can easily be changed, making maintenance easy and time-consuming.*

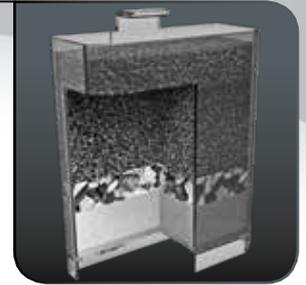

### Smart cable support

Cables are hidden through smart cable support on the back.

### Biological filter

Biological filter white Crystal Clear cartridge, for clean and healthy water. Easy maintenance, just change the cartridge.

### Glass cover

Glass cover included to prevent fish from jumping.

### Colour

Available in Black and White.

Model	QubiQ 30
Content	30 Liter
Size	32 x 32 x 42,5 cm
Lighting	none
Filter	Biological filter with Crystal Clear cartridge
Heater advice	SF Nano Heater 50W

# QUBIQ 30 LED

*Equipped with efficient LED lighting.  
Perfect for keeping tropical fish.*

*With its beautiful design, the QubiQ aquarium fits into any interior. The QubiQ is designed for ease of use and suitable for people with little or no experience in keeping fish. Ideal for people who are looking for a beautiful aquarium and want to spend little time on maintenance. The modern filter system of the QubiQ keeps the aquarium water clean, is easy in use and ensures less water changes.*

### **Filter housing**

Suitable for tropical fish due to integrated space for optional heater.

### **Smart cable support**

Cables are hidden through smart cable support on the back.

### **Biological filter**

Biological filter white Crystal Clear cartridge, for clean and healthy water. Easy maintenance, just change the cartridge.

### **Glass cover**

Glass cover included to prevent fish from jumping.

### **LED Lighting**

2-Colour lighting (white and blue) in 3 steps dimmable.

### **Colour**

Available in Black and White.

AQUASCAPING AQUARIUM

*SuperFish Home aquariums make an eye-catching addition to any home or office environment. These modern plug and play aquariums are very easy to install and maintain.*

*They include a built in filter system as well as a two colour (white & blue) energy efficient sunrise LED light. The light simulates a natural sunrise, by intensifying the light level slowly to a maximum over a 30 second period.*

### **Filter**

The built-in Aqua-Flow internal filter is easy use and to maintain. The filter box has extra space which can be used for a SuperFish heater if required.

### **Cable tray**

A cable tray behind the cover of the Home keeps the filter and heater (if used) cables out of sight.

### **Lighting**

Two colour energy efficient LED Sunrise light (white and blue). The light simulates a natural sunrise, by intensifying the light level slowly to a maximum over a 30 second period.

### **Glass cover**

A stylish glass cover prevents fish from jumping out of the aquarium.

### **Remote control**

The Home 80 and 110 are equipped with a handy remote control for controlling the light.

### **Colour**

Available in Black and White.

**Simply replace your existing fluorescent lighting by this energy-efficient LED lighting!**

The SuperFish Retro LED lighting fits seamlessly into T8 or T5 aquarium armatures and they can also be used as additional lighting or above home built aquariums. As well as having a longer life span than traditional fluorescent lamps the LEDs use up to 50% less energy.

### Advantages of Retro LED lighting

- Plug and play, seamless upgrade.
- Fits T8 and T5 hoods seamlessly without any modification of the aquarium.
- Also suitable as J-Line T5 replacement.

- Complete kit including ballast and waterproof end caps.
- Safe with low voltage.
- Available in 4 colours, Bright (daylight), Colour, Combi and Multi.
- Save up to 50% on your electricity costs.
- Long life span, 30,000 burning hours.

#### Light properties

The Retro LED Multi has 8 different colors of light, the brightness of which can be adjusted with the remote control. Because this lighting is only intended for ambience, Lux, Par and Kelvin do not apply.

Just click the RetroLED lamps into its place.

Slide the left and right bracket to the appropriate width.

Eyelets so the luminaire can also be suspended.

### **OTL Retro LED Overtank Luminaire**

Matt black slimline design luminaires for open aquariums. Specially developed for Retro LED lighting with space for three Retro LED T8 lamps (lamps not included). The lamps are easy to snap into the lightweight aluminium luminaire. The luminaire can be installed on to the aquarium or the luminaire can be suspended above the aquarium with a set of cables. Available in four different sizes, suitable for open aquariums: OTL 60 (50-62 cm), OTL 80 (70-82 cm), OTL 100 (95-107 cm) and OTL 120 (110-122 cm).

### **Retro LED Hanging clips**

Suitable for Retro LED T8 and T5 lighting.

### **Retro LED End caps**

Waterproof end caps for Retro LED T8 and T5 lighting.

### **SuperFish Retro LED+ Controller**

Controller for Retro LED lighting, automatically switch the lights on and off at the desired times. The Retro LED+ Controller simulates both sunrise and sunset and you have the choice to execute this in 30 seconds or in 10 minutes. The Retro LED+ Controller is suitable for all Retro LED lightings, except Retro Multi LED lighting.

**NEW!**

# Underwater Multi-Colour LED stick for a colourful aquarium atmosphere

## Multi LED Stick 20 en 40

The Multi LED Stick has 7 different light colours (red, green, blue, yellow, purple, light blue and white) and a colour changing (demo) mode.

- Suitable for use above and under water.
- Waterproof (IP68) and 100% safe.
- Energy-efficient LEDs (12 Volt, 4 Watt).
- Easy to attach to the aquarium glass by using suction cups.
- Length: 40 cm.

## Easy colour changing switch

Simply press the button to change the light color and hold for 3 seconds for demo mode.

## Nano LED

LED light kit for open Nano-aquariums with a maximum glass thickness of 4 mm. Low power consumption (0.6 Watt). Available in Black and White.

# Slim design LED light with high output for great plant growth

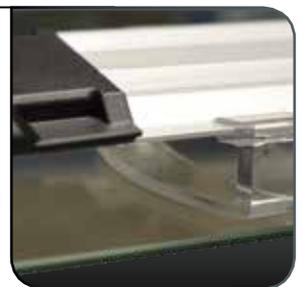

Waterproof

Open aquarium

Closed aquarium

### SLIM LED 45, 55, 74 en 93

*Slim design LED light unit for open and closed aquariums.*

- Designed for perfect plant growth and Aqua Scaping.
- PAR 230 ( $\mu\text{mol}/\text{m}^2/\text{s}$ ), Kelvin 7300 (K°), measured at 20 cm distance.
- PAR means photosynthetically active radiation, this is the light that we cannot see and makes your plants grow.
- Complete kit including 275 cm cable, switch, ballast and support legs plug & play.
- Safe through low voltage and IP67 waterproof.
- Long life span, 30.000 burning hours.

### SLIM LED Controller

*Sunrise, sunset and autostart controller.*

- Switch light automatic on and off at your desired times.
- Default setting, light on at 07.00 hour and off at 21.00 hour.
- Easy programming to personalise the time setting.
- The controller simulates natural sunrises and sunsets by dimming the lights over a period of your choosing. This allows your light to go from full brightness to off or off the full brightness over a 10 minute period. Allowing your fish to adjust to the change just as they would in the wild.

# Aqua-Flow internal filters

*Aqua-Flow internal filters are compact and perfect for small and mid-sized tropical and cold-water aquariums. These filters remove the contaminants from the water and ensure healthy and clean water. The Aqua-Flow filters are easy to install, equipped with a spray bar, adjustable flow (except Aqua-Flow 50) and an easily replaceable Easy-Click cartridge. Replace the filter cartridge once a month for optimal filter performance.*

The Aquaflow filter 300 is provided with an additional chamber with Crystal max filter media.

## Filter Cartridge

The Aqua-Flow filter has a Easy-Click Cartridge as standard. This cartridge consists of filter foam with a fully open-structure and Activated Carbon to remove organic contamination, chemicals and dyes from the water. The Easy-Click system makes filter cleaning easy, you can replace the filter cartridge in a snap.

## Crystal Clear Cartridge

For even better results you can replace the cartridges with Crystal Clear cartridges. It consists of filter foam and Crystal Clear, a combination of SuperFish® Activated Carbon and Zeolite. It removes all coloration and ammonia from the water and helps to prevent Nitrate and Phosphates. The result is crystal clear healthy water with less algae growth.

Effective skimming of the water surface

Adjustable flow by oxygen intake

Float height is easy to adjust

## Surface Skimmer

Dirt, fats, proteins and micro-organisms form an oily film at the surface of the aquarium. With the Surface Skimmer this dirt is continuously extracted, so that the water surface remains clean and clear. This ensures a better oxygen exchange at the water surface and the light can penetrate deeper into the aquarium. The Surface Skimmer is easy to install and the sponge is easy to clean.

## Aqua-Power Circulation pumps

Aqua-Power pumps are ideal for pumping or circulating water in aquariums, indoor fountains, biological filters and other applications. Aqua-Power circulation pumps are designed for fully submerged use.

# Biological filter media

*Filter media needs to be replaced from time to time! It becomes saturated, or it loses its performance. SuperFish Filter media is available in 500 ml, 1 litre and 2 litre tubs.*

## Super Activated Carbon, biological filter media

Super Activated Carbon is top-quality filter carbon, phosphate free and guarantees optimal results. Super Active Carbon quickly absorbs dyes and toxic substances from the water without altering the neutral pH. The result is clear, healthy water. Suitable for freshwater and salt water aquariums and ponds. With free filter bag for simple handling and cleaning of the Super Activated Carbon.

## Crystal Clear, biological filter media

Crystal clear and healthy water without algae. This unique filter media is a combination of SuperFish® Activated Carbon and Zeolite. It removes all coloration and ammonia from the aquarium and pond water, this helps to prevent Nitrate and Phosphates. The result: Crystal clear healthy water with less algae growth. With free filter bag for simple handling and cleaning of the Crystal Clear.

## CrystalMax, biological filter media

With CrystalMax, you achieve the best performance per litre of filter volume! Extremely porous filter media made from sintered glass, with unique characteristics. Extremely large colonisable area for micro-organisms (275m<sup>2</sup> per litre CrystalMax). Gives a quick filter start-up, CrystalMax acts like a sponge for micro-organisms. Harmful substances will be decomposed thanks to aerobic (high oxygen) and anaerobic (low oxygen) filter processes. With free filter bag for simple handling and cleaning of the CrystalMax.

# Filter pads

## SuperFish Micro Pad

Micro filter, removes fine dirt particles, ideal as pre-filter. It improves water quality and is suitable for both freshwater and marine aquariums.

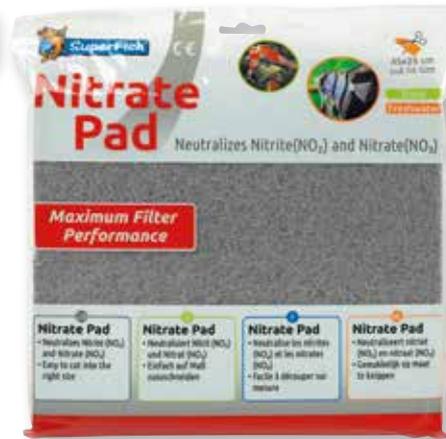

## SuperFish Carbon Pad

Absorbs coloration and toxic substances from the water without affecting the pH. The result is clear, healthy water.

## SuperFish Ammonia Pad

Absorbs ammonium and other toxic substances from the water. Prevents ammonia poisoning (ammonium change into ammonia if pH > 7).

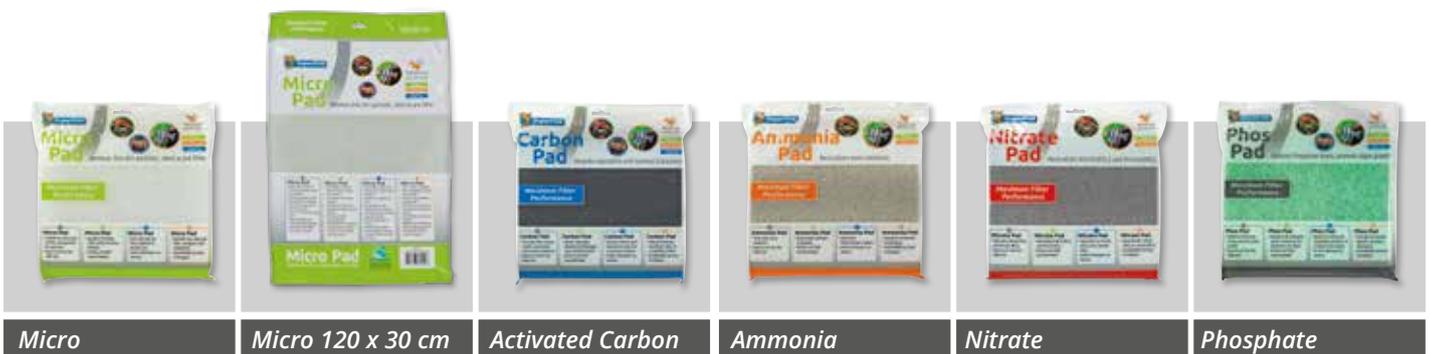

## SuperFish Nitrate Pad

Absorbs nitrite (NO<sub>2</sub>) and nitrate (NO<sub>3</sub>) by utilizing natural aerobic bacteria. Nitrite is toxic for fish and nitrate causes algae growth.

## SuperFish Phos Pad

Reduces phosphate (PO<sub>4</sub>) levels and prevents algae growth. High phosphate levels stimulate algae growth.

## Deco PosterGel

PosterGel is a special liquid which can be used to attach posters, without bubbles, onto aquarium glass. Creating a striking background with a three-dimensional effect.

# Aquarium aeration

**2** YEAR WARRANTY  
JR-ANS GARANTIE

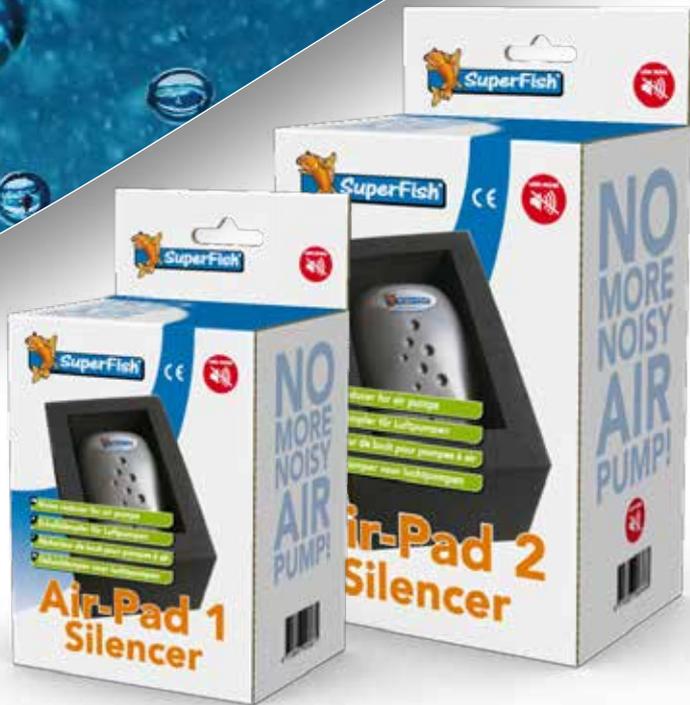

Adjustable  
airflow 

## Air-Flow Air pumps

Safe air pumps for oxygen enriched water, designed for aquarium use. Each pump comes with a free replacement membrane to ensure longer usage. The Air-Flow Mini and Air-Flow 1 have one outlet, while the Air-Flow 2 has two and Air-Flow 4 has four outlets and have adjustable air flow.

Model	Air-Flow mini	Air-Flow 1	Air-Flow 2	Air-Flow 4

Luchtdruk	0,015 MPA	0,015 MPA	0,020 MPA	0,012 MPA
Uitlaten	1	1	2	4

## Air-Pad Silencer

Most airpumps work with a diaphragm that's constantly vibrating to produce the airflow. This vibration is accompanied by a soft humming sound. Rubber feet assist but do not always eliminate the sound for some people. Superfish have got this covered. The air-pad silencer prevents any remaining noise by acting as sound insulator around your pump.

Available in two sizes; the Air Pad 1 is suitable for Air-Flow Mini and 1, the Air Pad 2 is tailored for the Air-Flow 2.

## BioAir

This airlift biological filter provides effective filtration of the aquarium water. The box contains a layer of filter wool, a sponge for biological filtration and maifan stones, these absorb toxic substances (i.e. heavy metals) from the water and ensure that the pH remains neutral.

## Air hose

Special transparent tubing for connecting air stones and air pumps. Available in lengths of 2.5, 25 and 200 metres.

Model	Length	Colour
Air hose Roll	2,5 meter	
Air hose Roll	25 meter	
Air hose Reel	200 meter	Green
Air hose Reel	200 meter	Transparant
Silicone Air tube	5 meter	

## Air Sponge Filter

A simple but very effective biological filter for small aquariums - simply connect the filter to an air pump. Useful bacteria attaches to the sponge providing biological filtration.

# Aquarium aeration

## Air-Set

Complete Air-set with 2.5 meter air tube with tube connectors (Y-L-T), two air valves for trimming or closing air supply and a non-return valve for the safe installation of the pump below water level.

## Air hose accessories

Air accessories for connecting air tube.

Air hose valve

2 pcs.

Air hose Y piece

2 pcs.

Air hose elbow

2 pcs.

Air hose connector

2 pcs.

Non return valve

2 pcs.

Air hose suction cup

4 pcs.

## Smart-Air, the quiet air pump

The Smart-Air is the most innovative quiet air pump in the world. So you can enjoy your aquarium hobby without annoying sounds, because the noise is less than 38 dB. The Smart-Air is easy to install on the side of your aquarium with the integrated suction cup. Due to the design the membrane cannot be replaced (the life span is about 1-year). The Smart-Air is maintenance free and designed for small aquariums up to 50 litres. The Smart-Air 1 has one outlet, the Smart-Air 2 has two outlets. Both air pumps are very energy efficient. Enjoy the silence...

## Air stones

SuperFish Air-Stones are available in different sizes, forms and shapes. Air stones degrade over time clogging up with dirt and grime so your air pump will struggle to function properly. It is advisable to replace air stones every year.

SF STAINLESS STEEL PLANT TWEEZERS 27 cm

SF STAINLESS STEEL PLANT SCISSORS 25 cm

SF STAINLESS STEEL PLANT SCISSORS WAVE

## Plant Scissors and Tweezer

Stainless steel scissors and plant tweezer to care for aquarium plants. Simple and effective in use. The scissors cut the plant stem without squeezing it flat.

## Plant Tong with Cutter

60 cm long tongs with cutter to care for aquarium plants without getting your hands wet.

## Gravel Scoop

Handy scoop for aquarium gravel and soil.

## Aquarium Glue

Super Glue for Aquascaping. Easy to use for driftwood, coral, stone, ceramics etc. Safe for fish and water..

## Breeding Box

Breeding boxes ensure eggs and newborn fish are safely separated from other aquarium inhabitants. Breeding boxes are also suitable for isolating diseased, weakened or aggressive fish. The Easy Breeding Box (1.2 L and XL 2 L) hangs on the edge of a tank on the outside. The other Breeding Boxes are placed inside the aquarium.

SF EASY BREEDING BOX externe kweekbak

SF EASY BREEDING BOX XL externe kweekbak

SF INTERNAL BREEDING BOX

SF BREEDING BOX

## Breeding Net

Fine mesh net which safely separates new-born fry from the mother and other fish. Can also be used to isolate injured or aggressive fish. Suitable for freshwater and marine aquariums.

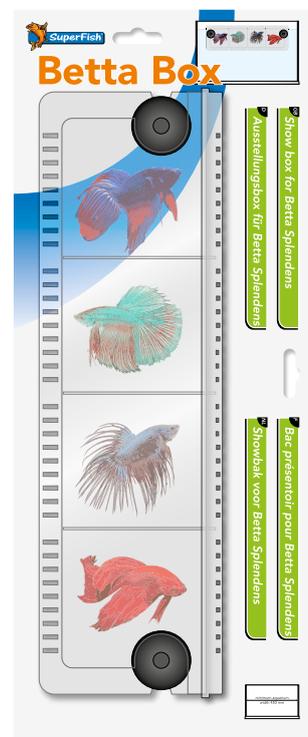

## Spawning Cone

Special spawning cone for breeding Discus and Angelfish. The shape of the cone is designed to remain stable even during the most intensive spawning.

## Aquarium Divider

Two clips with suction cups to divide the aquarium into 2 sections with a glass plate.

## Betta Box

Show box for Betta Splendens.

## Aqua-Feeder

Computer-controlled automatic fish feeder, suitable for both flake and pellet food. The easy way to feed your fish everyday, even if you are not at home. Up to 4 feeding times per day. Over 200 feedings on 1 set of batteries (batteries not included).

## Grazing Pod Feeder

The Grazing Pod Feeder simulates the natural behaviour of fish to hunt for their food. Suitable for live fish food, frozen fish food and sinking pellets and feeds all genre of fish.

## Feed blocks

These feed blocks dissolve slowly in the water, releasing food particles. The Weekend Food is sufficient food for about 15 fish, for 3 to 4 days and the Holiday Food lasts 2 weeks.

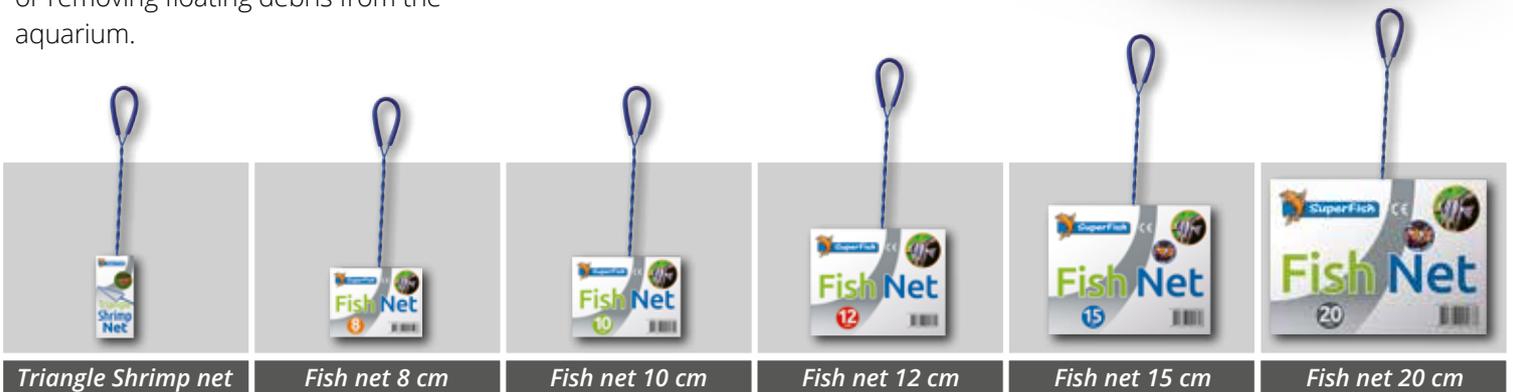

## Snail Trap

The easiest and safest way to catch snails from the aquarium. With the bait, the snails are trapped and can then be easily removed.

## Fish net

Fish nets are ideal for catching fish or removing floating debris from the aquarium.

# Aquarium maintenance

Useful accessories for easy maintenance of your aquarium. SuperFish develops various tools to help you clean your aquarium. With these tools you can enjoy a successful aquarium hobby.

## AquaVac

Remove dirt from the bottom of your aquarium with this handy tool. Can also be used in Nano-aquariums (20 cm high). Includes a hose for easy water changing. Works with 2 batteries (C/ LR14), not included.

## Siphons

Handy water siphon for water changes and removing dirt from the bottom of your aquarium.

The Nano Siphon is ideal for small aquariums up to 30 litres and has an auto start system.

## Hose Brush Cleaner

Cleaning brush for aquarium hoses and tubes (ø 9-30 mm).

- 2 nylon brushes.
- Stainless steel tension spring (length: 155 cm).

## Mag-Clean

Indispensable magnet allows you to keep the aquarium glass clean without getting your hands wet.

Mag Clean Nano

Mag Clean Mini

Mag Clean Small

Mag Clean Medium

Mag Clean Large

## AquaTools

Complete aquarium cleaning sets with a range of accessories including net, plant fork, glass sponge, gravel rake and algae scraper. Makes aquarium cleaning easy. Nano Tools is a 4-in-1 set for small aquariums. The AquaTool XL has a telescopic handle (50/74cm) and can be used for big-size aquariums. XL-Spare parts are available.

## Gravel Clean S en L

2 in 1 aquarium cleaner, ideal for carrying out water changes and cleaning substrate and glass. The auto start system ensures this is an easy to use gravel cleaner.

## Power Glass Clean

Aquarium cleaner, effortlessly removes algae deposits and dirt from the aquarium glass.

# DecoLED ornaments

*19 different decorative ornaments for the aquarium. All items are handpainted and eco friendly produced. These DecoLED ornaments have a space for a DecoLED Multi-Colour Spot or a DecoLED Bubble Kit.*

### DecoLED Multi-Color Spot

Underwater LED spot for a colourful atmosphere in your aquarium. The spot fits exactly in the bottom of a decoLED ornament. 7 colours (red, green, dark blue, yellow, purple, light blue and white) and 9 different light effects.

### DecoLED Bubble Kit

This airstone and airline kit enables you to take the air produced by your pump and turn it into bubbles and oxygen inside your aquarium.

# Aquascape Rock

*Rocks make the most beautiful decoration in any aquarium.*

## Aquascape Rock

Rocks form a beautiful decoration in any aquarium, whether you have a simple tropical aquarium or want a Japanese-style rock landscape. SuperFish Aquascape Rocks are carefully sorted out, cleaned and hand packed in a 3 or 5 kg bag.

**Aquascape Layered Rock**

5 kg

This light stone is, as the name implies, constructed from several layers. This attractive stone can harden the water in your aquarium.

**Aquascape Black Rock**

5 kg

These rocks will harden the water over time, great for use in Rift Valley biotopes!

**Aquascape Dragon Rock**

3 kg

An attractive argillaceous rock great for aquascaping. The warm earth tones and holey structure make for an interesting display. It almost resembles dragon skin!

**Aquascape Slate Rock**

5 kg

Slate is an easily stackable flat stone with a beautiful grey colour.

**Aquascape Mountain Rock**

5 kg

The shape and grey colour of these stones resemble rock formations, which makes it easy to create a natural rock landscape.

**Aquascape Cliff Rock**

5 kg

Granite with an orange red colour with white quartz. Beautiful cliffs can be built with these rough stones.

# Easy Plants Carpet

Foreground plants on mats which are easy to link together, creating natural looking ground cover.  
Easy to cut to size, the weighted base ensures they remain on the ground.
