LIEBHERR

Quality, Design and Innovation

WTes 5972

1 Know-how that matters!

Liebherr-Hausgeräte has specialised in developing and manufacturing first class refrigerators and freezers of premium quality and cutting edge design for 60 years. Innovative ideas are constantly added to the products for enhancing freshness, improving ease-of-use and saving even more energy to raise customer product value.

2 Premium product quality

To ensure the renowned Liebherr quality, only first class components are used. For example, accurate electronic control systems are used in conjunction with optimised refrigeration components. During the manufacturing process the appliances undergo comprehensive testing and inspection to ensure perfect workmanship and flawless functionality. This means Liebherr appliances have a long service life.

3 Innovative ideas

Liebherr appliances boast a compelling array of innovative ideas. Take, for example, the freestanding Premium appliances with the electronic control system and user-friendly Touch feature, or the PremiumPlus models with the innovative LED lighting, convenient IceMaker with TwistTray, or GlassLine shelves for versatile use.

4 Classical design

The combination of classical, timeless design with high quality materials like glass and stainless steel makes Liebherr appliances the focal point in any kitchen.

5 Environmentally friendly

For Liebherr, being actively green starts at the very beginning of the design process. In keeping with this ethos, Liebherr uses high quality components for its appliances to provide long and safe operation and top energy efficiency. All plastics are marked for recycling. The manufacturing processes are also geared to efficient use of resources. To give one example: the heat naturally generated during manufacture of the appliances is recycled as heating energy. Further, all Liebherr production sites are certified to the international quality standard ISO 9001, and to the international environmental management standard ISO 14001.

6 Energy Saving Trust Recommended

By deploying state-of-the-art, precision electronics combined with finely tuned, highly efficient refrigeration systems, Liebherr offers a wide range of energy saving appliances. All the product groups feature models securing great savings in the top energy efficiency classes. Only the most energy-efficient products carry the **Energy Saving Trust Recommended** label, making it quick and easy to find products that will cost you less to run, contribute to savings on your energy bill and help you protect the environment.

7 BioFresh – proven to be healthier

BioFresh guarantees the perfect climate for extra long freshness. A temperature slightly above 0°C and ideal air humidity maintain the delicate aroma and appetising appearance of fruit and vegetables, meat, fish and milk products significantly longer than in a standard refrigerator.

8 NoFrost – professional quality freezing performance

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

9 Perfect climate for fine wines

Liebherr's wine storage cabinets and multi-temperature wine cabinets are designed specifically to store wine in its optimum environment. These appliances feature state-of-the-art electronic control systems, special vibration free compressors and a host of features such as tinted glazed doors, FreshAir activated charcoal filters or stable, hand crafted wooden shelves on telescopic rails.

10 Awards given to the range

The outstanding product and design quality of Liebherr appliances is confirmed time and time again by independent institutions. The Plus X Awards recognized Liebherr as 'Specialist Trade Brand of the Year 2012' and 'Most Innovative Brand 2013'. In 2013, several models received the GDC's 'Interior Innovation Award' and the 'Kitchen Innovation Award'. In addition, Liebherr appliances are regular winners of 'reddot design award' for the large food storage centres CBNes 6256 and SBSes 7165.

CBPesf 4043

Innovative ideas combined with outstanding design and superior quality

Super savings in energy consumption

Many Liebherr fridges and freezers come in the best energy efficiency classes A++ and A+++ and are therefore the top energy savers in any home.

Using state-of-the-art electronic control units in conjunction with optimised refrigerating systems has achieved a further significant reduction in energy consumption in comparison with previous economical models.

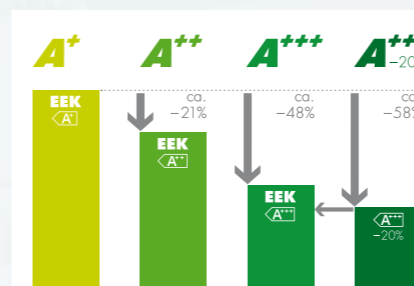

Only the most energy-efficient products carry the **Energy Saving Trust Recommended** label, making it quick and easy to find products that will cost you less to run, contribute to savings on your energy bill and help you protect the environment.

Certification mark

20% more energy efficient than the level required for A+++*

Ultra-energy-efficient highlights

The fridge-freezers CBP 4043 and CBPesf 4043, which already fall into best energy efficiency class, are now about 20% more energy efficient than the base level required for class A+++. Liebherr is setting new standards again.

* Energy efficiency index 20% below (EEI 17.6) the level required (EEI 22) for energy efficiency class A+++ according to Delegated Regulation (EU) 1060/2010

The **BioFresh** drawers extend on smooth running **telescopic rails**. The drawers are integrated almost flush into the fridge compartment and can be pulled out and removed with a door opening angle of 90°.

In the **PremiumPlus** appliances the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

The **humidity control plates** allow the humidity to be set individually in both compartments, enabling each one to be used as a **HydroSafe** or as a **DrySafe**.

DrySafe – for fish, meat and dairy products

HydroSafe – for fruit and vegetables, adjustable humidity level

biofresh.liebherr.com

BioFresh – Maximising the life of fresh produce

Creative cooking with family and friends is a new trend in modern cuisine. And nowadays enjoying healthy meals is simple to achieve as fresh food provides all the vitamins, mineral nutrients and trace elements our bodies need everyday. It is important not only to buy really fresh food, but also to ensure it's perfectly stored at home. Since not all types of food need the same temperature and humidity conditions, Liebherr has come up with the additional temperature zone – BioFresh – where many types of food can be kept fresh significantly longer than in a traditional refrigerator compartment.

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.

Each drawer can be used individually and provides ideal humidity – **HydroSafes** with high humidity or **DrySafes** with low humidity – for a versatile storage solution.

BioFresh – Take a fresh look at healthy eating

Liebherr's BioFresh technology gives your quality of life a decisive boost by keeping your food significantly longer than in a conventional fridge compartment.

Salad + 8 days

Prawns + 1 day

Raspberries + 2 days

Artichokes + 7 days

Grapes + 17 days

Asparagus + 8 days

Apple + 30 days

BioFresh-Plus fridge-freezer

Bio Fresh Plus

At a temperature of just above 0°C, the humidity of both drawers can be set for DrySafe or HydroSafe use. The low humidity for the **DrySafe** is ideal for storing meat, fish and dairy products. Fruit and vegetables are best kept in the **HydroSafe** with a high level of humidity.

The **BioFresh-Plus** technology provides yet more flexibility for tailored storage. The separate BioFresh-Plus electronic control system allows the temperature in the top drawer to be lowered to **-2°C** for storing fish. Together with the DrySafe setting, fish is kept fresh even longer.

Exotic fruits find ideal storage conditions in the top adjustable safe at **+6°C** and a high level of humidity.

In the PremiumPlus appliances the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

The **HomeDialog system** allows you to control a NoFrost premium freezer from the LCD display pane in your fridge-freezer. Interconnection is possible with the Power-Line Module, available as a chargeable optional extra (HomeDialog-ready). The only requirement is that both appliances are connected by the same electrical ring main.

The **electronic LCD display** is an innovative design feature. Clear menu navigation and a Touch-electronic control system provides yet more information for tailored storage conditions. The **Touch-electronic navigation** ensures easy selection and use of the numerous control functions.

The **SoftSystem** feature provides added safety and convenience. Integrated in the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded. The door closes automatically from an opening angle of approximately 45°.

Electronic control system

- LCD display in door with LCD Touch-electronic display
- DuoCooling: Separate temperature regulation for refrigerator compartment and freezer compartment
- Automatic SuperCool function
- Automatic SuperFrost function, quantity-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- HomeDialog system
- Control lamps for mains, alarm, SuperCool, SuperFrost, FrostControl, child lock and holiday mode

Fridge compartment

- Automatic defrosting
- Forced air cooling with fan
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- Premium GlassLine door racks with bottle and can holders
- Smooth, easy-to-clean compartment liner with elegant holding columns for rearrangement of the glass shelves
- LED light columns
- Integrated bottle shelf
- Rearrangeable, removable Vario boxes
- Egg tray

BioFresh compartment

- Automatic defrosting, forced air cooling
- BioFresh-Plus, adjustable temperature range
- LED interior light
- Pull-out BioFresh safes mounted on telescopic rails with flexible humidity control for use as DrySafes or HydroSafes for longer freshness of fruit, vegetables, meat and dairy products

Freezer compartment

- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- IceMaker with fixed water connection 3/4"

Features

- SwingLine design
- Stainless steel slimline door handles with integrated opening mechanism
- SoftSystem: cushioned door closure
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

- SoftSystem: cushioned door closure with CBNPgb 3956
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

Featuring a glass front in cool white or elegant black, the **GlassEdition** appliances are the highlight of any kitchen. The handle is incorporated at the side of the appliance for full visual impact of the glass front and for complementing the design scheme of handle-free kitchens. The glass is scratch-resistant.

Liebherr raises the standards in energy efficiency: by saving approx. 20% more energy than the upper threshold of the current highest energy efficiency rating of A+++. Liebherr show this energy class as **A+++ /-20%**.

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide even illumination.

BioFresh refrigerators

With **BioFresh** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – **HydroSafes** with high humidity or **DrySafes** with low humidity.

The elegant, high precision **MagicEye** control unit featuring the innovative **Touch-electronic control** concept ensures that the selected temperatures are kept to the exact degree required. The Touch-electronic panel makes the control of all the functions easy and convenient to use.

Nearly all the stainless steel doors come with a SmartSteel surface. **SmartSteel** significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

Dual purpose storage with the **integrated glass shelf** and bottle shelf. One conveniently stores

beneath the other when not in use. When using the bottle shelf, move the door rack upwards allowing taller bottles to be stored.

The high performance **forced air system** ensures rapid cooling of food and an even temperature throughout the entire internal space. Door contact switches turn off the fan when the door is opened, which saves valuable energy and prevents warmer external air from entering the refrigerator.

NoFrost

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The transparent vegetable bins running on rollers are designed to provide a clear view of the stored food – sliding out effortlessly on the roller system.

The bottle shelf is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

Fridge-freezers

The **MagicEye control** keeps the temperature at exactly the level you select. It is simple and convenient to use. The **automatic SuperFrost** function quickly reduces the temperature to freeze your food while preserving the vitamins.

The **bottle shelf** is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

With the **SmartFrost technology**, ice build-up is greatly reduced. This makes defrosting rarely necessary. The interior walls of the freezer compartment are very smooth and easy-to-clean. Freezer drawers and glass shelves made of safety glass can be removed easily.

Fridge-freezers

Electronic control system

- MagicEye with LED temperature display
- DuoCooling: Separate temperature regulation for refrigerator and freezer compartment (except CUN 3033)
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm with CUN 3033
- Control lamps for mains, alarm, SuperFrost

Fridge compartment

- Automatic defrosting
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- Comfort GlassLine door racks with bottle and can holders
- Smooth, easy-to-clean compartment liner with columns for rearrangement of the glass shelves
- LED ceiling light (except CUN 3033)
- LED lighting with CUN 3033
- Fruit and vegetable bins
- Bottle shelf
- Egg tray

Freezer compartment

- NoFrost: Automatic defrosting with CUN 3033
- Forced air cooling (except CUN 3033)
- SmartFrost: Easy defrosting with smooth and easy-to-clean interior with CP(esf) models
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- Ice cube tray

Features

- SwingLine design
- Slimline door handles with integrated opening mechanism (except CUN 3033)
- Ergonomic handles (with CUN 3033)
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Innovative freezers from Liebherr in a new energy-saving dimension: In the best **A+++** energy efficiency class, the appliances are approximately 48% more energy efficient than the top limit of class A+.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

NoFrost
 The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Automatic SuperFrost
 The SuperFrost function makes freezing simple by quickly reducing the temperature in the freezer compartment ensuring fast freezing of your fresh produce, preserving vitamin and mineral content in the process.

LED interior light provides optimal illumination of the refrigerator compartment.

GlassLine interior
 The distinctive Premium GlassLine equipment puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Bottle shelf
 The bottle shelf is the practical and elegant answer for storing drinks. As many as five bottles can be chilled and stored neatly.

Vegetable compartment
 The practical and easy-to-clean vegetable compartment provides plenty of space for storing fruit and vegetables.

The elegant and precise **MagicEye control** with its visual temperature display keeps the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use. **The SuperCool** function lowers the refrigerator temperature down to as far as +2°C – ideal for rapidly cooling freshly stored food.

The high performance **forced air system** ensures rapid cooling of food and an even temperature throughout the entire internal space. Door contact switches turn off the fan when the door is opened, which saves valuable energy and prevents warmer external air from entering the refrigerator.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **bottle shelf** is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

The distinctive **GlassLine equipment** in Comfort models puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Liebherr have redefined energy saving with the innovative **A+** and **A++** fridges. Use of the latest electronics combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced. This super energy-saving solution actively contributes to environmental conservation.

¹ To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

Upright fridges

Electronic control system

Table-height fridges

Table-height appliances with manual controls come with a **removable worktop** so that, if necessary, they can be seamlessly integrated beneath existing worktops.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **slimline door handle** is aesthetically pleasing and ergonomically designed for ease of opening.

A++. Using the latest technology combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced.

Ergonomically designed, the extra deep transparent **vegetable compartments** are easy-to-clean and provide ample storage for fruit and vegetables.

The distinctive **GlassLine equipment** in Comfort models puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

- SwingDesign with TP models
- Stainless steel slimline door handle with TPesf models
- Ergonomic slimline door handle with TP models
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet
- Reversible doors

The **CoolPlus function** reduces the temperature in the freezer compartment for several hours so that food can be frozen quickly and safely. This function also ensures that the temperature in the freezer compartment is kept constant in room temperatures as low as + 10°C.

Table-height appliances with manual controls come with a **removable worktop** so that, if necessary, they can be seamlessly integrated beneath existing worktops.

You can freeze fresh food and store frozen food for long periods in appliances with the **4-star freezer compartment**. Temperatures of -18°C and lower ensure food is stored with all the vital vitamins and minerals preserved.

NoFrost
The CBNes 6256 NoFrost food centre from Liebherr is a highly energy efficient A++ rated appliance. The two pull-out freezer drawers are mounted on high-quality telescopic rails and can be effortlessly extended to provide a perfect view of ideal storage conditions.

Precision controls
The elegant MagicEye control system with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the refrigerator compartment and freezer compartment is kept to exactly the degree chosen. All the functions can be simply and conveniently operated at the touch of a finger.

Automatic IceMaker
The automatic IceMaker from Liebherr provides perfect ice cubes for every occasion. Whether you fancy a quick drink or you're having a big party, the extra-large drawer holds an ample supply of ice cubes. An integrated water filter ensures perfect water quality at all times. The electronic display indicates when the water filter needs replacing.

LED lighting concept
The PremiumPlus interior features LED light columns integrated on either side of the compartment liner, ensuring that the interior is evenly bathed in light to create a unique and dramatic effect within the appliance. At the same time the light columns provide freedom for rearranging the glass shelves to suit your storage needs. The integrated LED ceiling light guarantees a perfect illumination of the interior.

GlassLine equipment
The elegant, high quality GlassLine interior is adaptable to suit individual requirements. The extra-strong, satin-finish shelves and door racks with solid aluminium trims are height adjustable. The door interior accommodates tall bottles and wide containers.

Both **BioFresh-Safes** are mounted on telescopic rails which extend effortlessly providing a full view of produce, which is easily accessible. The lateral LED light spots ensure perfect illumination of the drawers. The versatile glass/bottle shelf can be used depending on your personal preference. The glass on top gives you shelf space, moving the glass underneath gives you bottle space.

Side-by-Side fridge-freezer		SBSes 8283 PremiumPlus	
Total net capacity	Fridge compartment	354 litre	
	Including BioFresh compartment	110 litre	
	Freezer compartment	237 litre	
Energy efficiency class	energy cons. in 365 days/24 h	489/1.338 kWh	
Climate rating		SN-T	
Exterior dimensions	in cm (h/w/d)	185.2/121/63	
Adjustable cooling circuits		2	
Door/Side walls		Stainless steel with SmartSteel/stainless steel	

The **BioFresh-Plus** technology provides greater flexibility and control for ideal food storage conditions. With its independent electronic control system the temperature in the top compartment can be adjusted from -2 °C (fish), to + 6 °C (exotic fruits).

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **IceCenter** is a highlight for any kitchen, supplying ice cubes, crushed ice and chilled water, the IceCenter provides a myriad of options for serving cool drinks. The ice cubes and water are dispensed using the contact-sensitive paddles, which are lit by LED light either when in operation or optionally on a permanent basis.

The PremiumPlus interior features **LED light columns** integrated on either side of the compartment liner, ensuring that the interior is evenly bathed in light to create a unique and dramatic effect within the appliance. At the same time the light columns provide freedom for rearranging the glass shelves to suit your storage needs.

The **SoftSystem** ensures that the door closes gently even when fully loaded. The door automatically closes from an opening angle of approximately 45 °.

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

When operating without water filter, the water pressure must be between 1.5 to 6.0 bar, with water filter between 2.8 to 6.2 bar.

Side-by-Side fridge-freezers

Large capacity food storage centres

The SBSes 7165 Side-by-Side fridge-freezer with **six different climate zones** boasts an array of innovative solutions. The multi-temperature wine cabinet has two zones for storing wine at the exact temperature required, ranging from +5 °C and +20 °C.

The **BioFresh-Plus** technology provides greater flexibility and control for ideal food storage conditions. With its independent electronic control system the temperature in the top compartment can be adjusted from -2 °C (fish), to + 6 °C (exotic fruits).

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **IceMaker** provides you with a constant supply of ice cubes for every occasion. Whether you fancy a cold drink or you're having a big party, the IceMaker automatically keeps your supplies topped up.

The **SoftSystem** ensures that the door closes gently even when fully loaded. The door automatically closes from an opening angle of approximately 45 °.

The **BioFresh** drawers extend on smooth running **telescopic rails**. The drawers are integrated almost flush into the fridge compartment and can be pulled out and removed with a door opening angle of 90°.

Stainless steel with SmartSteel/stainless steel

With **BioFresh** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – **HydroSafes** with high humidity or **DrySafes** with low humidity.

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **IceMaker** provides you with a constant supply of ice cubes for every occasion. Whether you fancy a cold drink or you're having a big party, the IceMaker automatically keeps your supplies topped up.

The transparent vegetable bins extend on smooth running **telescopic rails** and can be conveniently removed at a door opening angle of 90°.

Premium GlassLine door shelves with stainless steel trim. Curved stainless steel rods secure bottles and jars.

N +16 °C to +32 °C **T** +16 °C to +43 °C

⁴ ★★★★★ freezer compartment with -18 °C or colder

⁶ **IceMaker** – automatic ice-cube maker (can be switched off) with fixed water connection 3/4" and solenoid valve (needs to be plumbed in)

Upright freezers

NoFrost
The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Precision controls
The elegant and accurate MagicEye control system, incorporating an LCD display and temperature indicator, keeps the temperature at the exact level you select. And, thanks to the clearly arranged function keys, the system is easy and convenient to operate. The automatic SuperFrost function quickly reduces the temperature to freeze your food while preserving the vitamins.

A+++
Using the latest technology combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced.

The drawers
Attractively designed, the robust removable transparent drawers with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food. Freezer drawers and glass shelves can be removed. VarioSpace – the practical storage solution for larger produce.

Vario Energy-Saving Panel
If you are not using the entire freezer space, unused drawers can be switched off with the optional Vario Energy-Saving Panel. Energy consumption can then be reduced again by up to 50%.

VarioSpace
Freezer drawers and glass shelves can be removed. VarioSpace – the practical storage solution for larger produce.

Scan the code with your Smartphone to find out more about NoFrost.

NoFrost freezers

Electronic control system

- MagicEye control with LED temperature display
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- Control lamps for mains, alarm and SuperFrost

Freezer compartment

- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- Interior light
- VarioSpace: removable drawers and intervening glass shelves

Features

- SwingLine design
- Slimline door handle with integrated opening mechanism
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

FrostSafe

The removable, extra-deep drawers with transparent front are closed all the way round. They provide a perfect view of the contents and the best storage conditions for the frozen food.

The elegant and precise **MagicEye control** with its visual temperature display lets you keep the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use. The automatic **SuperFrost function** quickly reduces the temperature to freeze your food while preserving the vitamins.

A+++

Using the latest technology combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced.

SuperFrost function

With the automatic SuperFrost function, temperatures down to as low as -32°C are reached in no time. Food can be frozen quickly to preserve the vitamins, taste and appearance. After the freezing operation is over, the appliance switches back automatically to the normal mode.

Electronic control system

- MagicEye control with LED temperature display
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- Control lamps for mains, alarm and SuperFrost

Freezer compartment

- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- Interior light
- VarioSpace: removable drawers and intervening glass shelves

Features

- SwingLine design
- Slimline door handle with integrated opening mechanism
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

Table-height freezers with SmartFrost

GP 1486

With the **SmartFrost technology**, ice build-up is greatly reduced. This makes defrosting rarely necessary. The interior walls of the freezer compartment are very smooth and easy-to-clean. Freezer drawers and glass shelves made of safety glass can be removed easily. The whole interior can be used as **VarioSpace** for large produce.

Innovative freezers from Liebherr in a new energy-saving dimension: In the best **A+++** energy efficiency class, the appliances are approximately 48 % more energy efficient than the top limit of class A+.

Attractively designed, the robust removable **transparent drawers** with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food.

The elegant and precise **MagicEye** control with its digital temperature display lets you keep the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use. The **automatic SuperFrost** function quickly reduces the temperature to freeze your food while preserving the vitamins.

The **slimline door handle** is aesthetically pleasing and ergonomically designed for ease of opening.

The **top** of the table-height freezer is extremely robust, with a scratch and heat resistant surface.

Table-height freezers with SmartFrost

Electronic control system

- MagicEye with LCD digital temperature display with Premium-models
- MagicEye control with LCD and visual temperature display with GX 823 and G 1213
- Automatic SuperFrost function (Premium: quantity-controlled; Comfort: time-controlled)
- Visual temperature alarm in case of malfunction
- Audible temperature alarm in case of malfunction with Premium-models
- Control lamps for mains, alarm and SuperFrost

Freezer compartment

- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves

Features

- SwingDesign (except GPesf 1476)
- HardLine with GPesf 1476
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front
- Reversible doors

The elegant and precise **MagicEye control** with its digital temperature display lets you keep the temperature at exactly the level you select. N +16 °C to +32 °C **T** +16 °C to +43 °C

Chest freezers

All operating and control functions are clearly and practically integrated into the ergonomically designed **chest freezer handle**. The temperature can be set using the easy-to-operate control knob. The automated SuperFrost system freezes food quickly to optimally preserve vitamins. As soon as the food is completely frozen, the automated SuperFrost function switches back to normal mode.

Frosting over of the freezer and frozen food is reduced, reducing the number of times you need to defrost the freezer. **StopFrost** prevents a vacuum from building up, ensuring the lid opens easily.

Chest freezers in the premium range benefit from the **SoftSystem closing mechanism**, a convenient and highly desirable feature for everyday use. Integrated into the hinge on the freezer lid, SoftSystem gently and reliably cushions movement when the appliance is closed – even if done so forcibly or abruptly.

Electronic control system

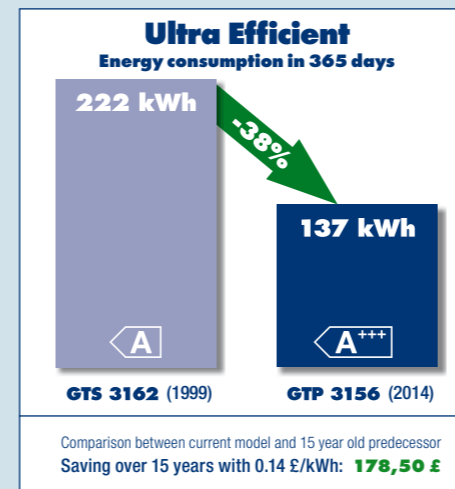

- MagicEye with digital temperature display
- Automatic SuperFrost function, quantity-controlled
- Visual and audible warning signal in case of malfunction
- Control lamps for mains, alarm, SuperFrost, FrostControl and child lock

Freezer compartment

- Low-vibration, quiet and easy to clean due to condenser embedded in foam
- Interior light
- StopFrost function
- Water drain
- Divider consisting of a removable freezer tray – can also be used as a water collection tray

Features

- SoftSystem
- SwingDesign
- Ergonomic chest handle
- Lock available

Vinidor range

The Vinidor range offers ultimate flexibility and combines the advantages of both wine storage cabinets and multi-temperature wine cabinets in a single appliance. Appliances in the range come with either two or three temperature zones, which can be set independently to the required temperature between +5°C and +20°C. Accordingly, an appliance with three temperature zones can simultaneously store red wine, white wine, and champagne all at their optimum serving temperature. Vinidor appliances also offer the perfect climate for long-term wine storage. The varying sizes of the temperature zones, together with the fully adjustable temperature controls, make these appliances suitable for just about any collection of wines.

WTes 5872

The electronic LCD display is an innovative design feature. Clear menu navigation and a **Touch-electronic control system** provides yet more information for tailored storage conditions. The digital temperature display can be read from the outside of appliances with glass doors. The Touch-electronic navigation ensures easy selection and use of the numerous control functions.

The **LED lighting in the wine cooling compartments can be dimmed** to give a pleasing ambient light inside the appliance. All Vinidor appliances are equipped with this innovative, no-heat LED lighting concept.

The **tinted safety glass** in the Liebherr wine cabinets guarantees the essential UV protection for your fine wines. The practical aluminium door handle, with integrated opening mechanism, allows the door of the appliance to be opened conveniently with a minimum of effort.

The Vinidor appliances are equipped with solid **wooden shelves mounted on telescopic rails**. The handcrafted shelves made from untreated wood are ideal for storing Bordeaux bottles safely, providing a clear view and easy access. Storing the bottles in opposite directions permits full use of the capacity. The clip-on labelling system provides a quick and clear overview of your wine store.

The practical **presentation shelf** of the Vinidor models fulfills both bottle storage and bottle presentation functions. The bottles can be stored horizontally at the rear.

The **SoftSystem** feature provides added safety and convenience. Integrated on the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded inside. The door automatically closes from an angle of approximately 45°.

Wine storage cabinets GrandCru and Vinothek

Wine storage cabinets can be set to the exact temperature required within the range of +5 °C to +20 °C. This ensures that the selected temperature is maintained constantly and uniformly throughout the interior. Our wine storage cabinets are ideal for storing wines for long periods of time to allow them to mature to perfection. Depending on what temperature the appliances are set to, they can also be used for keeping white wine or red wine at exactly the right temperature for serving.

The precision **electronic control system** is clearly arranged in the insulation plate. The digital temperature display can be read from the outside of appliances with glass doors. The door and temperature alarm alerts the user to any irregularities, e.g. a door that has been left open. The child lock prevents any inadvertent changes to the control system.

The **bottle shelves, made of untreated wood** are variably height-adjustable to provide an optimum overview and a clear storage layout. The bottles can be stored in opposite directions to make full use of the capacity. The wooden shelves are designed to safely hold Bordeaux bottles.

Multi-temperature wine cabinets Vinothek

These appliances incorporate a climate control system which graduates the temperature. In the upper zone, for example, red wine can be kept at +18 °C while the lower zone, set at +5 °C, will be particularly suitable for sparkling wine or champagne.

The wine cabinets are equipped with an accurate **electronic control system** with digital temperature display. These appliances incorporate a special climate control system that can layer the temperatures. In the upper zone, for example, red wine can be kept at +16 °C to +18 °C while the lower zone is set at +5 °C to +7 °C.

Ideal humidity via Lava stone. The humidity in the Vinothek models can be increased by using Lava stone.

02 Water filter

Replacement for the integrated water filter. Provides perfect water quality every time in appliances with an IceMaker and IceCenter. The electronic control unit indicates when the water filter needs to be replaced.

CBNes 6256; SBSes 8283	7440 002
-------------------------------	----------

03 Three-metre hose for IceMaker/IceCenter

Reinforced flexible hose (1m long) for appliances with a 3/4" plumbed-in connection.

Plumbed-in appliances	6030 785
------------------------------	----------

04 Vario energy-saving panel

The Vario energy saving plate can shut off unused drawers in NoFrost upright freezers and the full space BioFresh refrigerator. Energy consumption can be reduced by up 50%.

60 cm wide: GNP; GN; SBS	9363 210	70 cm wide: GNP; GN	9363 372
---------------------------------	----------	----------------------------	----------

05 Cold storage accumulator

Freezers, and the freezer compartments of fridge-freezers are protected in the event of a power failure by the cold storage accumulator. This acts as an additional 'cold reserve' to prevent the temperature from rising in such circumstances, and thereby protects the frozen produce.

CBP(est) 4013, 4043	7430 458	Chest freezers	7412 053
Fridge-freezers	7422 838		

06 Freezer tray

The innovative freezer tray is perfect for freezing fruits, berries and herbs individually. Not only does this prevent them from sticking together, but it also ensures they retain their shape, and makes them easier to vacuum pack, and to divide into portions later on. When defrosting chest freezers, the freezer tray can be used to collect water. When not being otherwise used, it can be used as a space-saving partition wall.

07 Additional baskets for chest freezers

Versatility is increased by the use of additional baskets. These make it easier to sort small frozen food items, and facilitate easier access to stored produce.

GT 2132, GT 2632	7112 725	GTP 2356	7112 317
GT 3632	7113 557		
GT 6122	7112 727		
		GTP 3156	7113 555

08 Lock

The lock prevents unwanted access. Simply assemble on the housing with chest freezers and Vinothek wine cabinets. If two wine cabinets are set up side by side, the operation of the sideways lock is limited. In this case an additional lock can be fitted below.

Chest freezers	9590 835	Vinothek	9086 415
-----------------------	----------	-----------------	----------

09 FreshAir active carbon filter

During prolonged storage, wines and cigars are sensitive to any odours that contaminate the storage environment. Liebherr appliances benefit from optimum air quality and freshness thanks to the easy-to-replace FreshAir active carbon filter which is integrated into the wine compartment of the SBSes 7165 Side-by-Side fridge-freezer, into all wine cabinets, and into the humidor. Annual replacement is recommended.
