

Arto ARTO

HANDCRAFTED IN SOUTHERN CALIFORNIA SINCE 1966

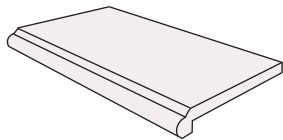

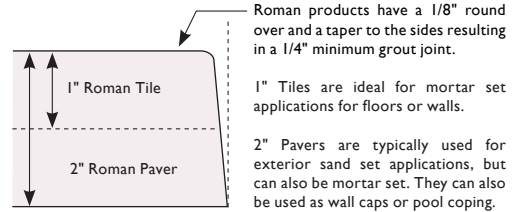

CONCRETE

Walls, Floors & Hardscapes | Tiles, Bricks & Pavers

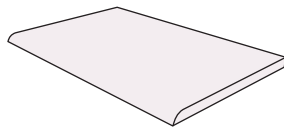

ARTO is known for making rustically elegant, handmade concrete tiles, bricks, and pavers. Our products are made with locally sourced materials at our Southern California factory. ARTO products are available throughout the United States, Canada, and the world.

ROMAN SERIES

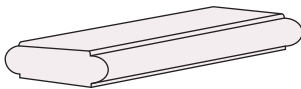

Roman tiles and pavers have flat surfaces with crisp, square edges for a more precise look and tighter grout joints. Roman Tiles are 1" thick and can be mortar set in interior and exterior applications including walls, floors, and vehicular applications. Roman Pavers are 2" thick and can be sand set for patios, walkways, plazas, pool decks, and even driveways using sizes 12" x 12" or smaller. The Roman series features a wide range of accessories including coping, curbing, bull noses, mouldings, wall and pier caps, and balustrade systems. Visit ARTO.com/roman-tile for additional shapes, sizes and patterns. Contact ARTO about custom sizes, shapes, and colors.

15" x 18" Roman San Felipe

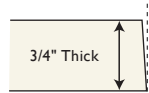

24" x 24" Roman Octagon

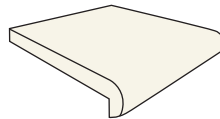

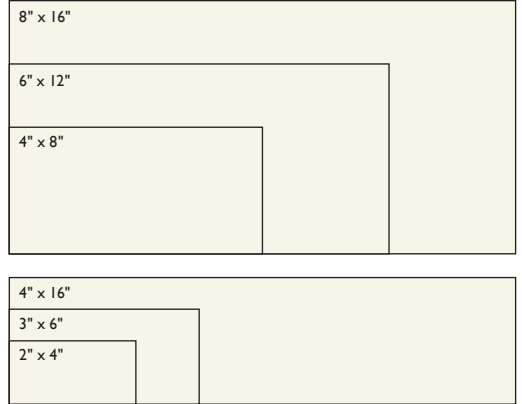

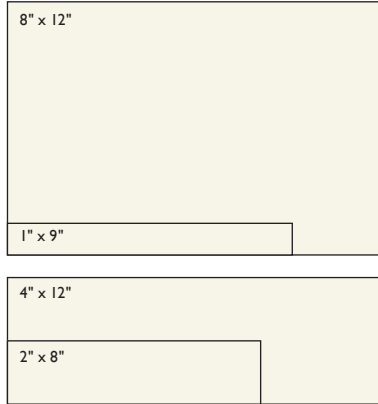

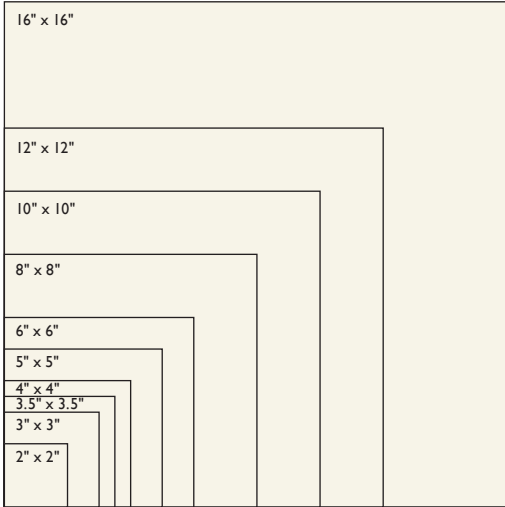

12", 18" & 24" Roman Rounds

ARTILLO SERIES

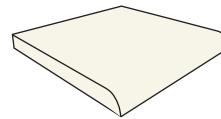

The Artillo series is ARTO's original and most extensive collection. The look is slightly rustic with a natural undulating surface and straight edges. Artillo tiles are 3/4" thick for mortar set installation on floors and walls. They are individually handcrafted and strong enough for freezing and thawing climates, yet warm enough to showcase inside your home. The Artillo series offers a wide range of decos, liners, chair rails, stair treads, copings, surface bull noses, and base covers to complete your installation. Corners are available for most styles. Visit ARTO.com/artillo for additional shapes, sizes, and patterns. Contact ARTO about custom sizes, shapes, and colors.

THIN BRICK VENEER

ARTO's Thin Brick Veneer is lighter and easier to install than full-size brick. The concrete composition is durable enough for freezing and thawing climates while allowing for a nearly unlimited color selection utilizing all of our concrete color options. We offer a wide range of styles from classic 2" x 8" in standard and tumbled edges to oversized styles. Our Thin Brick Veneer can be used for both walls and floors, and we also offer various corner pieces in most styles to give your project a complete look from all angles. Visit ARTO.com/brick for additional styles, sizes, and colors.

Antik Brick Veneer
Tumbled, broken edges with a reclaimed feel.

Normandy Cream - Vintage

CONCRETE TEXTURES

ARTO offers four different textures for our concrete products as shown below. We also offer a fifth option we call Vintage Texture. Vintage features a blend of Limestone, Luna, Standard, and Travertine textures to create unique looks ranging from distressed terracotta to natural stone. Order any color in our Vintage texture to receive a combination of pieces made in all four surface textures.

Standard

The Standard texture varies from item to item and does not need to be specified. Some items may feature rough or textured surfaces already, while others may have a smooth, flat surface.

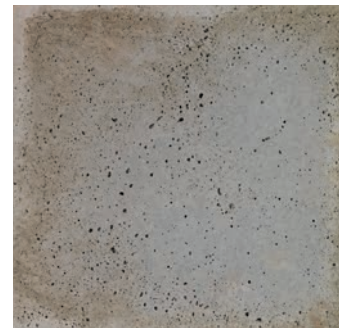

Luna

Our most distressed texture, Luna is inspired by the craters, seas, valleys, and other topographical features of the moon's surface for the ultimate expression of rustic elegance.

Limestone

The Limestone texture features an organic, weathered appearance. This generally lightens the original color and is a great option for pools and where extra slip resistance is desired.

Travertine

Selecting the Travertine texture adds a rustic, pitted surface to any ARTO color that can be used to complement other materials or create your own distinctive appearance.

Disclaimer: The variation and elegance of ARTO's products are achieved with the use of natural materials and enhanced by handcrafting each unit. The images shown are representative of our products, but may differ in color and appearance from actual pieces delivered. We recommend getting samples before you place an order.

3D IMPRESSIONS

Available in a variety of patterns, 3D Concrete Impressions add dramatic relief to vertical surfaces. Backsplashes, feature walls, planters, and fireplaces are just a few of the potential applications, and due to their durable concrete composition, they can even be installed indoors and outdoors in freezing and thawing climates.

3D Concrete Impressions are individually handcrafted and available in any of ARTO's wide range of concrete colors. The Buckle, Compton, Compass Star, and Target tiles are available in standard (6" x 6") and large (16" x 16" to 18" x 18") formats to fit any scale.
