Surfaces

Stretched Canvas - 1.8cm Depth

Using medium grain 100% cotton, the primed canvas weighs 13oz/375gsm having been coated with acid-free sizing and two coats of highly pigmented primer. The result is a canvas with tooth, adhesion and absorbency, which prevents the sinking of colour.

Available in standard and Deep Edge which has deeper sides and thicker stretchers and can be hung unframed for extra impact.

Product code	Size	MOQ	PQ	RRP
GDASCS88	1.8cm x 20 x 20cm (8" x 8")	1	6	£8.50

Oil & Acrylic Painting Surfaces

Winton Oil Colour Paper - by Winsor & Newton

Winton Oil Colour Paper is produced using a fine quality, neutral sized paper to provide maximum stability and resistance to ageing. Winton Paper is made from TCF (totally chlorine-free) pulp produced from sustainable forests. The paper is specially formulated with reduced absorbency to ensure the perfect holdout for oils and acrylics. The paper is 230gsm/108lb and has been embossed with a unique canvas texture which provides an attractive surface for the application of oils and acrylics.

Product code	Size	MOQ	PQ	RRP
GCFWOCP	31.5" x 21.5"	10	10	£4.65

Winton Oil Colour Pads - by Winsor & Newton

These gummed pads each contain 10 sheets of Winton Oil Colour paper.

Product code	Size	MOQ	PQ	RRP
GCFWP107	10" x 7"	1	6	£7.15
GCFWP129	12" x 9"	1	6	£9.90

Fabriano Artistic Paper

Fabriano Artistic watercolour paper is mould-made, produced with 100% cotton, chlorine and acid-free, guaranteeing long conservation and inalterability over time. The paper is sized both internally and externally, making it ideally absorbent and retaining its nature, unaltered even if scratched.

Ideal for watercolour, tempera, gouche, acrylic, ink, charcoal, graphite and drawing. It is also suitable for printmaking.

Watercolour Painting Surfaces

Saunders Waterford Paper

Saunders Waterford® is an exquisite watercolour paper, traditionally made on a cylinder mould machine. This is the superior quality watercolour paper made by St Cuthberts Mill and comes with the Royal Watercolour Society's endorsement. Made using 100% cotton, to high archival standards. Each sheet is buffered with calcium carbonate to help defend finished pieces of work from discolouration caused by acids present in atmospheric pollution.

The surface is created using natural woollen felts that give it a distinctive random texture. The surface is sized in gelatine, making it strong and resilient to scrubbing, and other rough treatments.

Bockingford Paper

Bockingford® is a beautiful English watercolour paper, traditionally made on a cylinder mould machine at St Cuthberts Mill. This is a high quality paper made using pure materials to archival standards.

Its attractive surface is created using natural woollen felts that give it a distinctive random texture. Appreciated for its excellent colour lifting abilities, it is an extremely forgiving watercolour paper valued by professional and amateur artists.

In addition to watercolour the paper accepts pastel, gouache, acrylic, pencil, charcoal and pen and ink. The paper can also be used for certain print techniques and bespoke cartons.

Watercolour Painting Surfaces

Tinted Bockingford Paper

This Bockingford paper has the same qualities as the standard white paper but comes in five different tints. These are excellent for artists to create instant mood and atmosphere to a painting. The warm shades of Cream and Oatmeal give instant warmth to the picture, whilst Blue, Grey and Eggshell produce a cooler feeling.

Acid free, mould-made, wood-free, internally sized, trimmed 4 edges. 140lb/300gsm. Size 30" x 22" (760 x 560mm). Not surface.

Arches Paper

Made the traditional way, on a cylinder mould, this paper has a harmonious natural grain. The fibres are evenly distributed, making the paper more stable, with very limited deformation.

Made of long 100% cotton fibres, ARCHES® Watercolour paper can absorb a lot of water without warping or causing the colours to bleed. It is sized to the core with natural gelatin, which means it can be scratched without tearing or linting. It also preserves the lustre and transparency of the colours whilst preventing paints penetrating into the thickness of the paper..

Bockingford Inkjet Paper

Bockingford® Inkjet is the answer for artists who wish to create their own limited edition prints. Fantastic prints can be reproduced to look like the original, when using a good inkjet printer.

Artists familiar with the original Bockingford® watercolour paper will recognise the same beautiful surface on Bockingford® Inkjet. It is made in the same time-honoured fashion as Bockingford® watercolour paper using a traditional mould machine. Unlike some fine art inkjet papers, it has an ink receptive coating on both sides of the sheet, allowing limited edition books and portfolios to be created.

Product code	Description	MOQ	PQ	RRP

Pastel Surfaces

Ingres Pastel Sketch Pads - by Daler Rowney

24 Sheets, 160gsm. Ingres - a type of paper named after the Neoclassical French painter Jean-Auguste-Dominique Ingres. Its unique texture is formed on a cylinder mould machine by pressing the paper fibres between the cylinder mesh and the marking felt. This surface texture is known as a chain and laid line surface. Daler Rowney's Ingres paper provides excellent tooth for traditional pastel work.

Canson Mi-Teintes Paper

Canson® Mi-Teintes® is a pulp-dyed colour paper that has won worldwide recognition for its qualities. It is gelatine stock-sized which limits the absorption of pigments in order to show colours at their best.

It has the highest cotton content (more than 50%) on the market, combining mechanical resistance and a sensuous feel.

Furthermore it has the advantage of having a different texture on either side, a honeycombed side characteristic of Canson® Mi-Teintes®, and fine grain on the other. It boasts the richest range of colours on the market, with 50 light-resistant tones.

Tracing & Transfer Paper

Imagetrace

Imagetrace is easy to use

Use Imagetrace like carbon paper to transfer a design, sketch, pattern or template onto any surface. Place a sheet of Imagetrace, colour side down, on to the surface you wish to transfer your design to. Next, place a design or template on top of the sheet of Imagetrace and using a stylus or tracing wheel, follow the outline of the design to create a fine, crisp line. You may have to experiment and adjust the pressure to obtain the desired result.

Advantages of using Imagetrace

- Traced lines on ceramics and pottery products disappear completely in the firing, whether the piece is green, bisquefired or glazed.
- Traced lines can be erased like pencil with no smearing or smudging.
- Traced lines can be sponged, washed out or brushed off fabric – a hot iron will not set the trace lines.
- Traced lines can be inked or painted over with no skipping or bleeding.
- Available in 5 colours, Black, Blue, Red, White, Yellow and Assorted.

Use on: paper, fabrics, canvas, ceramics, glass, wood, metal - over and over again.

Product code	Description	MOQ	PQ	RRP
GANITA4**	Imagetrace - A4 5 sheet pack	1	5	£6.50
GANITA3**	Imagetrace - A3 5 sheet pack	1	5	£12.99

Mounting Board

Mountboard - Cream Core Mountboards by Daler Rowney

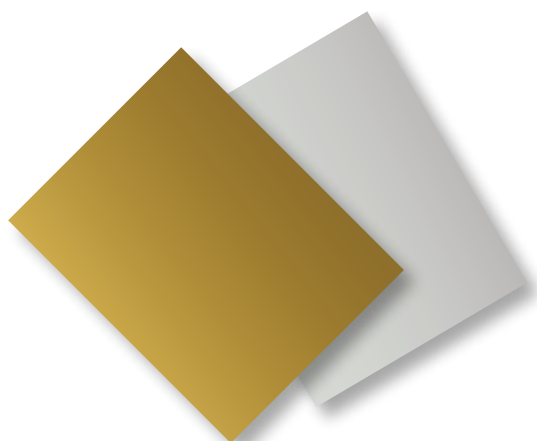

The core is made from virgin wood pulp with a characteristic pale ivory colour. Each board is alkaline-sized and pH neutral. The range meets FATG specifications for standard mountboard. Manufactured in the UK. Colours and surfaces have been carefully selected to offer a wide choice of shades for professional framing and presentation, and are superb for washlining and mount decoration. Surface paper, core and backing are specially treated to minimise the effect of atmospheric pollutants and enhance their useful lifespan. 1400 Micron

Crepe Paper

Crêpe paper is tissue paper that has been sized and then creased. Popular for streamers and other party decorations. Props and costume accessories can be made of crêpe paper. It can be soaked in a small amount of water to create a dye for Easter eggs, white cardstock, and other materials. Can also be used to make paper flowers, appliqué, and paper sculpture. 40% Stretch, 28gsm crepe paper. Acid-free.

Clear Cellophane

Cellophane is made from a renewable resource (wood pulp) and possesses deadfold and twist characteristics. For arts and crafts projects, nothing compares to the appearance of real cellophane. This product is bio-degradable and widely accepted for recycling. A glossy cellulose film ideal for many activities such as basket-filling or wrapping, gift wrap, crafts etc. Its low permeability to air, oils, greases and bacteria makes it useful for food packaging.

Palette Knives

Palette Knives - by Daler Rowney

- Daler Rowney Palette Knives have a special electrolytic coating that is unique in the fine art market. This additional coating results in a product that is more resistant to rust than all other carbon steel palette knives (which until this innovation has been the industry standard).
- All Daler Rowney Palette Knives are a perfect blend of quality and elegance for the discerning artist. The polished blade is complemented with a brass ferrule and a beautiful polished hardwood handle.
- Guaranteed for the lifetime of an artist.
- Made in Italy by the most accomplished manufacturer of palette knives in the world.

Product code	Description	MOQ	PQ	RRP
CDAPK****	Metal Palette Knife	1	1	£5.75

When specifying the size, quote the number after the code.

Palette Knives

Straight Blades

Due to the special low-friction coating:

- Colours are easier to spread than with other conventional carbon palette knives.
- The blade is easier to clean even if the colour has already dried (however, cleaning after use is always recommended).
- After cleaning, there is no residue left behind (residue is often left behind on carbon steel).

Cranked Blades

Metal Palette Knife Sets

Product code	Description	MOQ	PQ	RRP
CAKPKS	Metal Set - 5 Assorted sizes	1	6	£22.99

Plastic Palette Knife Sets

These flexible, plastic knives are ideal for all arts and crafts projects. Useful for mixing paints, painting on canvas and all creative texture applications.

CSQPPKS	Plastic Set - 5 Assorted sizes	1	12	£2.50

Colour Shapers

The unique silicone tipped artists' painting tool. Available in five tip shapes offering excellent control of colour and unrivalled 'wipe-clean' qualities. Ideal for use with pastels, oils and acrylics, watercolour, glass paints and monoprinting. Especially recommended for applying masking fluid.

Taper Point

Apply and carve paint, blend charcoal and pastel, create clean linear strokes, make broad forceful marks

Cup Round

Move heavy paint, control thicker colour, create soft edges, blend pastel and charcoal.

Cup Chisel

Adjust contours and edges, carve paint, remove paint.

Flat Chisel

Blend paint, mix paint on the palette, create flat even strokes of colour.

Angle Chisel

Create expressive strokes, work from thick to thin, make precise marks.

Product code	Description	MOQ	PQ	RRP
WKDM	Large Diameter Multi-purpose Sharpener	1	1	£2.25

Automatic Pencil Sharpener - by Jakar

Single hole battery/mains operated sharpener for regular pencils up to 8mm diameter. Includes 2 blades. Requires 4 x AA batteries. Batteries and AC Adapter NOT included. Individually boxed.

Product code	Description	MOQ	PQ	RRP
WJB5154	Automatic Sharpener	1	10	£8.99

Pencil Sharpeners

Kum sharpeners are distinguished for their quality and precise sharpening results. The blades are produced with ultra-hard high-carbon steel which can cut stone, they are razor sharp and do not move, held in place by a screw. Blades are also curved, not flat, which acts like a spring and holds the pencils tight whilst sharpening. The 'metal' sharpener bodies are made from magnesium which allows pencils to be held and the leads to be shaped correctly. To reduce movement while turning the pencil, the sharpening hole is prolonged by an extra sleeve.

Even the 'plastic' sharpeners are made with the same precision and quality.

Kum Metal Sharpeners

Metal sharpeners with all the Kum benefits and precision.

Product code	Description	MOQ	PQ	RRP
WKDSMPS	Single Hole Sharpener	1	28	£0.99
WKDDMPS	Double Hole Sharpener	1	24	£1.75

Kum Lefty Metal Pencil Sharpener

A two hole metal sharpener for left-handers only, with 2 spare blades.

Product code	Description	MOQ	PQ	RRP
WKDLMPS	Single Hole Sharpener	1	12	£4.99

Kum Colour Combi Sharpener with Container

Special container sharpener for colouring pencils. One hole makes a rounded-off pencil tip - for soft pencils such as pastel pencils, the other produces a normal tip.

Product code	Description	MOQ	PQ	RRP
WKDCCPS	Colour Combi Sharpener	1	12	£3.99

Pencil Sharpeners

Kum Maxi Two Hole Sharpener with Container

2 Hole metal sharpener with shatter-proof container for sharpenings.

Product code	Description	MOQ	PQ	RRP
WKDMPS	Maxi Two Hole Sharpener	1	12	£3.80

Kum Automatic Long Point Sharpener

The famous KUM Automatic sharpener, sharpens pencils to an extra-long point in two stages. One hole is used to shape the wood, the second shapes the lead. An automatic brake prevents oversharpener. The flip-top case has a small waste container and two spare blades. Suitable for all round, hexagonal and triangular shaped pencils. It has an additional lead pointer function, suitable for sharpening 2mm and 3.15mm leads.

Product code	Description	MOQ	PQ	RRP
WKDALPS	Long Point Sharpener	1	10	£6.50

Erasers

Soft Putty Rubber - by Daler Rowney

Kneadable rubber for improving and brightening pastel, chalk or charcoal drawings, and obtaining special effects. Can be moulded into a fine point or for a broad sweep.

Product code	Description	MOQ	PQ	RRP
TDAPRS	Soft Putty Rubber - Small	1	36	£2.55
TDAPRL	Soft Putty Rubber - Large	1	12	£5.05

Putty Rubber - by Winsor & Newton

Kneadable rubber for improving and brightening pastel, chalk or charcoal drawings, and obtaining special effects.

Product code	Description	MOQ	PQ	RRP
TCFPRM	Putty Rubber - Medium	1	36	£2.00

Kneadable Putty Eraser - by Factic

Factis putty erasers are very soft kneadable erasers that remove and blend all charcoal, pastel and pencil drawings and sketches without bruising the surface. Being pliable, they are particularly useful for erasing small areas as you can shape it into a point, create highlights or perform detailed work. Putty rubbers are used to remove light charcoal or graphite marks and in subtractive drawing techniques.

Product code	Description	MOQ	PQ	RRP
WMNK20	Ink Eraser (K20)	1	20	£1.50

Kneadable Eraser - by Derwent

The Kneadable Putty Eraser is particularly useful for highlighting, stippling and ghosting. Simply mould the eraser in your fingers until soft, pull into a point and carefully remove layers of graphite or colour pigment as required.

Product code	Description	MOQ	PQ	RRP
TAADAKE	Kneadable Eraser	1	8	£1.99

Erasers

Griffin Eraser - by Winsor & Newton

Finest quality soft, non-smear eraser. The wedge shape makes it useful to erase tiny details and for highlighting. Suitable for pencil, graphite and charcoal.

Product code	Description	MOQ	PQ	RRP
WCFGE	Griffin Eraser	1	24	£2.00

Plastic Eraser - by Derwent

The Plastic Eraser cleanly removes areas of graphite or unwanted marks. The well defined corners and edges give total control and can be re-cut with a sharp knife if required. To achieve a crisp line simply lay a straight edge piece of paper over your work and erase right up to the edge.

Product code	Description	MOQ	PQ	RRP
TAADAPE	Plastic Eraser	1	12	£1.15

Pencil Eraser & Brush - by Derwent

The Eraser Pencil with Brush is invaluable for cleaning up the white paper surrounding an image, including faint grid lines. Drawings can also be made lighter with the pencil eraser which is particularly useful when creating reflections. It can be sharpened to any shape using a craft knife giving you more control than if you had cut slivers from a plastic or soft eraser. The brush is a great additional feature which means you can gently sweep away debris ensuring your drawing stays as clean as possible.

Product code	Description	MOQ	PQ	RRP
TAADAPEB	Pencil Eraser & Brush (2 Pack)	1	8	£4.49

Battery Operated Eraser - by Derwent

The Battery Eraser is ideal for creating unusual effects and for experimenting with different drawing techniques. It can of course be used to rub out unwanted marks too. When the eraser is switched on, the spinning action of the eraser lifts pigment from the paper. The precise control offered by the eraser makes it suitable for highlighting and refining marks and amending small areas of work. The operating button is positioned on the top of the eraser which means it is ideal for left and right handed people and is very comfortable to use. The battery eraser comes on a blister card complete with 8 spare erasers (batteries not included).

Product code	Description	MOQ	PQ	RRP
TAADABE	Battery Operated Eraser	1	8	£5.50
TAADABER	Eraser Refills (1x30)	1	18	£1.25

Erasers

Unwind Colouring Books - by Derwent

Focussing on the patterns of nature, Unwind in the Wilds Colouring Book give instructions on how to draw animals with character in their natural habitat.

Printed on artist quality 150gsm paper suitable for use with dry drawing media such as Derwent Coloursoft Pencils, the book features 89 illustrations inspired by the Cumbrian countryside. From stags to owls, and badgers to birds, some of the UK's most beautiful creatures have been captured in all their natural beauty, with some intricate touches needed to bring them all to life.

Unwind in the Wilds also includes helpful tips and techniques on how to use colouring pencils, layering and blending colour so you get the most out of your colouring-in journey.

Long Handled Filbert

Galeria Long Handled Brushes

Galeria brushes have been specifically developed for use with acrylic colour. The versatility of acrylic colour places heavy demands on the brush and so Galeria brushes are developed to be strong and resilient whilst offering flexibility and sensitivity.

The unique mix of polyester filaments provides perfect control and responsiveness, rinses out easily and has excellent shape retention.

The specially tapered heads of the flat brushes prevent splaying and ensure a perfectly controlled width of mark.

The distinctive appearance of Galeria brushes features seamless, corrosion resistant ferrules and dark burgundy stained handles.

Winton Hog Brushes - (Long handled)

A natural bristle brush developed for use with oil, fast drying oil and acrylic colours. Made from good quality Chinese hog bristles, Winton Hog brushes are interlock constructed and hand-set into seamless corrosion-resistant ferrules. The bristles' natural curve is retained even after heavy use, allowing more control and accuracy, whether painting with oils or acrylics.

Sable Watercolour Brushes (Series 7)

Series 7 Kolinsky Sable Brushes are made from only the finest Kolinsky Sable hair in rust-proof, seamless nickel plated ferrules with black polished handles. Series 7 brushes are hand-made in England.

Each brush comes to a crisp point and snaps back into shape during use, with the right degree of spring to allow superior control between the brush and surface.

The colour flows evenly and consistently from the point, with enough colour carrying capacity in the belly of the brush to allow flowing gestural strokes.

Cotman Synthetic Brushes (Series 111)

Short Handle Round brushes designed specifically for watercolour and water based media. Cotman Water Colour Brushes are very popular, due to their blend of differing thickness fibres. The thicker fibres give strength and spring whilst the thinner fibres improve colour carrying capacity. Together they retain a perfect point, time after time. The handles are designed to provide balance and comfort when painting. The ferrules are made from high quality nickel-plated brass which helps to prevent corrosion, clogging of hair and enables easy cleaning. The range features a wide selection of head shapes and sizes to suit all water colour techniques.

Sceptre Gold Brushes

Sceptre Gold II is a range of high quality brushes made from a mix of sable and synthetic fibres. Ideal for working with water colour and fluid oil colour, they are also suitable for use with acrylic, water mixable oil and alkyd fast drying oil colour.

Sceptre Gold II is a perfect combination, giving a performance close to sable at a price close to synthetic. The Sable hair has excellent spring, whilst the high quality synthetic filaments ensure the brushes are soft enough to work the colour but with a strong snap to return to the original shape.

Daler Rowney Georgian Brushes

Oil painting calls for resilient, durable and sturdy hog bristle brushes that have good colour retention and are easy to use. Georgian brushes have extra-fine quality Chungking bristle with a high percentage of natural flags for maximum colour-holding and smooth flexible strokes.

They are handmade using traditional interlocked construction for durability and control. Sized from 1 upwards they come in a variety of head shapes for different strokes.

Daler Rowney Brushes

Daler Rowney Graduate Brushes

The Graduate Brush range has been created to perfectly meet the needs of students and hobbyists alike. The range features a wide variety of traditional, open stock brushes complimented by single and multi-brush wallets, all of which offer excellent value for money.

The open stock offers a choice of 54 brushes with 16 different head shapes in a range of sizes, both with short and long handles. The range features brushes with a variety of hair types to suit acrylic, oil or watercolour techniques. But uniquely, the complete open stock range is offered at a single price!

Synthetic: Resilient, durable, excellent snap and edge, great for all types of paint
 Dark Tip Synthetic: Greater holding capacity, perfect spring and point for watercolour
 Interlocked Bristle: Flexible natural flags, ideal for oils, and heavy-bodied acrylics
 Pony/Synthetic Mix: Carrying capacity of natural hair, with the spring and durability of synthetics. Perfect for watercolour.

Black Goat: High absorption rate and good spring, ideal for fluid colour washes.

White Goat: Hand-cupped natural points, great for wet or dry techniques

Cryla Brushes

Designed for acrylic painting, the Cryla range now includes more brush shapes and larger sizes. All brushes have natural-look synthetic fibres that offer good even performance and strong levels of durability. They also feature a smoked finish, seamless ferrule and a coloured handle that retain the Cryla marbled finish. The synthetic bristles are useful with all heavy bodied paints. Holds its spring with acrylics and comes to a fine point and chisel edge every time.

Daler Rowney Brushes

Dalon Brushes

Dalon was the first real rival to the sable brush. It is a remarkable man-made brush imitation of natural sable hair. Each Dalon filament is extruded and tapered to a point, just like natural hair, and the brush head is meticulously hand-crafted with exactly the same care and attention as the brush it is designed to rival.

Dalon's high resilience and durability ensures excellent shape retention and long life in use for oils, watercolours and acrylics alike.

Hake Brushes by Collins & Davison

Collins & Davison Hake brushes are made from superior materials to produce an outstanding, soft brush for wetting surfaces or applying large areas of colour. The soft, white goats' hair is gentle enough for delicate Japanese papers and tissues. Can also be used for dusting, washing, sizing, mounting, gluing or spreading any thin media. Natural wooden handles with no metal ferrule to rust - the bristles are sewn securely between flat wooden sections.

Chinese Painting

Chinese Painting Sets

Chinese and Japanese painting techniques tend to have very simple compositions but create outstanding works of art. Eastern art is known to be highly meticulous and detailed as well as very gestural, simple and understated. If you visit a Shinto shrine in Japan you will find the interior decorated with creatures such as dragons, where every scale has been painstakingly rendered or you find Chinese and Japanese screens decorated with bamboo motifs made up of just 1 or 2 simple brush strokes, made with a long haired goat brush.

The materials and sets below will help you explore the fascinating and fun world of Chinese and Japanese painting.

Product code	Description	MOQ	PQ	RRP
FSQ577036	Chinese Painting Set - Small Contains: 2 brushes, ink stone, stick & water bowl.	1	3	£19.99

Masking Film

Grafix Frisket Film is a self-adhering film with a removable adhesive that leaves no residue. This durable film will allow clean cuts and reusable masking.

Product Features:

- Easy to cut
- Repositionable
- Translucent backing
- Moisture and wrinkle proof

Great for airbrushing, retouching, stencils, rubber stamping, watercolors and masking. All Purpose Low Tack – A .002" film in clear or matte with an ultra-removable adhesive on a polypropylene base. The adhesive sticks when needed and removes without leaving a residue. Excellent for use on hot press (smooth) surfaces including illustration board, photographs, watercolour and drawing paper and with most airbrush techniques.

Aerosol Cleaners

Product code	Description	MOQ	PQ	RRP
EABAACWB	Foaming Airbursh Cleaner 150ml - Water Based	1	1	£8.99

Premi Air Foaming Cleaner is a highly recommended end-of-session airbrush cleaner for extra thorough cleaning away of water-based products, such as alkali soluble acrylics.

You can use the straw to direct the aerosol spray at the airbrush nozzle and front parts of your airbrush, up into where the bottle attaches on a bottom-feed airbrush or down into the cup of a gravity feed airbrush. The cleaner foams up to thoroughly get into all of the parts inside. Then spray through with warm water.

EABAACXB	Liquid Reamer 150ml - Solvent Based.	1	1	£8.99
----------	---	---	---	-------

Premi Air Liquid Reamer is a highly recommended end-of-session airbrush cleaner for extra thorough cleaning away of solvent-based and oil-based products.

You can use the straw to direct the aerosol spray at the airbrush nozzle and front parts of your airbrush, up into where the bottle attaches on a bottom-feed airbrush or down into the cup of a gravity feed airbrush. The cleaner softens and dissolves hardened paint deposits. Then flush through with your usual thinners or cleaner.

The Liquid Reamer cleaner contains Xylene and Acetone. Avoid contact with the skin and eyes, do not breathe the vapour and keep away from sources of ignition.

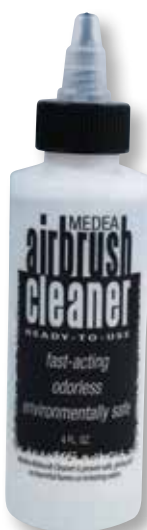

Airbrushing

Zest-It Airbrush Cleaner

Use for thinning paint, when colour changing and for thoroughly cleaning or soaking Airbrushes clogged with paint and ink. Restores the airbrush back to working order.

Product code	Description	MOQ	PQ	RRP
TZAC125	Zest-It Airbrush Cleaner 125ml	1	3	£5.29
TZAC250	Zest-It Airbrush Cleaner 250ml	1	3	£6.89

Cleaning Fluid

Medea Airbrush Cleaner is a high strength cleaner for acrylics, water-based products, gouache, inks or dyes. It is ready to use and environmentally safe.

Uses:

Cleans airbrushes and synthetic or natural-haired paintbrushes.

Spray through the airbrush between colours and at the end of the day, then rinse through with water.

Soak parts in the cleaner for an hour or overnight to remove build up of paint.

Use in ultrasonic cleaners.

Artists' Quality Oil Paint

Artists' Oil Colour - by Daler Rowney

Artists' Oil Colours are professional-quality paints, designed for durability and permanence and made using only the very best materials available.

Only the best pigments are used regardless of cost, to ensure absolute perfection for the discerning artist. The distinctive buttery consistency of Daler-Rowney Artists' Oils derives from the use of linseed oil and wax, which acts as a plasticiser, helping to prevent even heavy impasto from becoming brittle and cracking over time.

Artists' Quality Oil Paint

Artists' Oil Colour - by Winsor & Newton

Our Artists' Oil Colour is the best in traditional oil colour, with a spectrum of 117 colours.

We use only the purest pigments with the most suitable drying oils. Each colour is individually formulated to optimise and enhance the pigments' natural characteristics to provide covering power, tinting strength and stability.

Pigments

With 80 single pigment colours, this range offers infinite colour possibilities and brighter secondary mixes.

Consistency and Texture

The buttery, stiff consistency of Artists' Oil Colour is ideal for retaining brush or palette knife strokes and can be thinned to a very fine glaze.

Surface Sheen

The sheen reflects the pigments used and the different levels of oil in each formulation, so the gloss level varies across individual colours. This can be controlled through the selection of surface, the addition of solvent and the mediums used.

For colour range see next page >>

Student Quality Oil Paint

Georgian Oil Colour - by Daler Rowney

Georgian Oil Colours from Daler-Rowney enrich contemporary artistic expression through modern and brilliant colours, optimal pigment loads and a very satisfying feel under both brush and knife.

Traditionally crafted and triple-milled in England, Georgian Oil Colours provide colour consistency from wet to dry and even performance and finish across all colours. Due to their careful formulation, Georgian Oil Colours generally require very limited quantities of mediums so can be used freely straight from the tube allowing the artist to concentrate on spontaneous creativity.

- Available in 54 colours
- Exceptionally permanent and brilliant colours
- Colours are intermixable and consistent from wet to dry
- Surface dry in 4 to 5 days
- Smooth and buttery consistency, ideal for experimenting different brush and knife techniques
- Easy mixing with mediums provides endless creative possibilities

Student Quality Oil Paint

Winton Oil Colour - by Winsor & Newton

Winton is ideal for artists requiring large volumes of colour and looking for affordable quality.

A traditional range of 47 colours, each individually formulated to enhance the natural characteristics of each pigment.

Pigments

Winton Oil Colour offers quality and affordability by using moderately priced pigments, rather than reducing the pigment load and compromising colour performance. The high level of pigmentation provides good covering power and tinting strength. The 31 single pigments in the range allow cleaner, brighter mixes and infinite hues.

Consistency and Texture

With a stiff, uniform consistency, Winton Oil Colour offers excellent retention of brush and palette knife strokes.

Surface Sheen

The sheen of Winton is largely due to the pigments used so the gloss level varies across individual colours. This can be controlled through the selection of surface, the addition of solvent and the mediums used.

Product code	Description	MOQ	PQ	RRP

Pebeo XL Oil

XL Studio fine oil is suitable for all techniques, from glazes to thick layers, and can be used in conjunction with the mediums and auxiliaries. This is the only range of oil paint that offers such a diverse palette of colours and effects. Traditional colours, light or pastel colours, bright modern colours without forgetting the ready-to-use unique transparent glazing colours and iridescent Dyna colours. All these colours are compatible with each other and offer a multitude of sumptuous mixtures.

The 200ml tube packaging and formulation makes it a product suited for larger works.

For painters who seek a good quality, but affordable oil. Traditional oil painters will enjoy the many classic colours of the range. Painters who are looking for modernity will not be disappointed.

There are 64 colours, including 7 dyna and 5 glazes. Its fast drying properties make it possible to add subsequent coats after only four days.

Fast Drying Oil Paints

Griffin Alkyd Fast Drying Oil Colour - by Winsor & Newton

A range of 48 colours. Griffin has a faster drying time than traditional oil colour. Both impasto and glazing techniques can be done in considerably less time, and a painting can be completed in a single session. Griffin is also ideal for working outdoors.

Fast Drying Formulation

In Griffin Alkyd Fast Drying Oil colour, the oil binder is modified to create an alkyd resin. This makes Griffin dry faster, enhances colour transparency and provides a more fluid consistency than traditional oils. Each colour takes advantage of the natural characteristics of each pigment and ensures colour stability.

Pigments and Binder

Griffin Alkyd Fast Drying Oil Colour has a high proportion of single pigments for brilliance of colour and clean colour mixing. Of the 48 colours in the range, 35 are single pigment colours.

The binder in Griffin Alkyd Fast Drying Oil Colour has slightly different physical properties from those of traditional oils and requires different pigment levels. There is a slightly greater level of transparency, allowing increased depth and clarity for glazing.

Consistency and Texture

Griffin Fast Drying Oil Colours have a slightly more fluid consistency than traditional oil colour.

Surface Sheen

Griffin Fast Drying Oil Colours dry to a more even reflective surface than traditional oil colour.

Oil Painting Mediums

Alkyd Flow Medium - by Daler Rowney

Slightly thinner than Alkyd Gel, it increases the transparency and flow of oil colour, allowing paint to be brushed out more smoothly. Reduces drying time.

Product code	Description	MOQ	PQ	RRP
RDAAF75	Alkyd Flow Medium - 75ml	1	6	£6.75

Painting Medium - by Daler Rowney

An ideal all-purpose painting medium made of Linseed Stand Oil, White Spirit and Oil of Spike Lavender, which dries to a tough elastic film. Easy to handle it is a perfect oil painting medium for beginners, and creates an excellent glaze.

Product code	Description	MOQ	PQ	RRP
RDAPM75	Painting Medium - 75ml	1	6	£6.75

Linseed Stand Oil - by Daler Rowney

Reduces the consistency of oil colours and enhances flow. It is viscous and dries slowly to a tough elastic film. Faster drying than pure Linseed Oil. Reduces brush marks.

Product code	Description	MOQ	PQ	RRP
RDALSO75	Linseed Stand Oil - 75ml	1	6	£6.75

Oil Painting Mediums

Purified Linseed Oil - by Daler Rowney

Reduces the consistency of oil colour and slows down drying time. In its raw state, it gives colour a high gloss. Diluted 50/50 with Turpentine or Low Odour Thinners, it creates an excellent medium for most types of painting.

Product code	Description	MOQ	PQ	RRP
RDAPLO75	Purified Linseed Oil - 75ml	1	6	£4.85

Purified Poppy Oil - by Daler Rowney

A clear oil medium to mix with and reduce white and lighter colours. Less inclined to yellow than Linseed Oil, but slower drying. Enhances gloss and flow, but too high a proportion retards thorough-drying of colour.

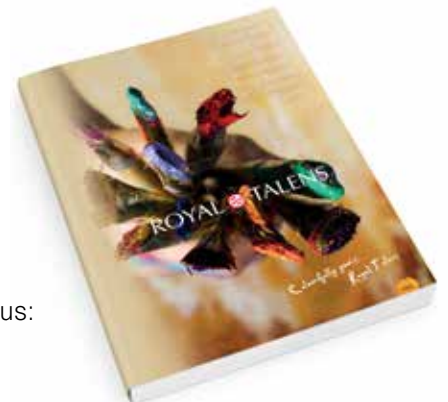

Product code	Description	MOQ	PQ	RRP
RDAPPO75	Purified Poppy Oil - 75ml	1	6	£6.75

Mediums - by Royal Talens

Oil Painting Mediums

Zest-it Oil Paint Dilutant & Brush Cleaner

Oil Paint Dilutant and Brush Cleaner. A safe, non-flammable, non-toxic, environmentally friendly alternative to white spirit and turpentine, with a pleasant citrus smell. Made in the UK.

Product code	Description	MOQ	PQ	RRP
CCZ125	Zest-it Oil Paint Dilutant 125ml	1	1	£6.50
CCZ250	Zest-it Oil Paint Dilutant 250ml	1	1	£9.99
CCZ500	Zest-it Oil Paint Dilutant 500ml	1	1	£13.99
CCZ1L	Zest-it Oil Paint Dilutant 1 Litre	1	1	£21.99
CCZ25L	Zest-it Oil Paint Dilutant 2.5 Litre	1	1	£49.99

Zest-it Solvent

Ideal for those oil painters who prefer a non-citrus smell, a stronger action, slightly faster drying and a little more bite to their solvent than the original Oil Paint Dilutant and Brush Cleaner.

Zest-it Solvent is a much safer solvent for oil painters than Gum Turpentine and makes an excellent replacement.

Product code	Description	MOQ	PQ	RRP
TZAS125	Zest-it Solvent 125ml	1	1	£5.29
TZAS250	Zest-it Solvent 250ml	1	1	£7.69
TZAS500	Zest-it Solvent 500ml	1	1	£11.50

Zest-it Clear Painting Medium

Enhances the flow and reduces the consistency of oil paint.

Product code	Description	MOQ	PQ	RRP
TZCPM250	Zest-it Clear Painting Medium 250ml	1	1	£12.99

Oil Painting Mediums

Refined Linseed Oil - by Winsor & Newton

Our most popular oil offers many of the same qualities as Cold Pressed Linseed Oil, but is slower drying. It is an alkali-refined oil of pale colour that reduces oil colour consistency and increases gloss and transparency.

Product code	Description	MOQ	PQ	RRP
RCFRLO75	Refined Linseed Oil - 75ml	1	3	£4.95
RCFRLO250	Refined Linseed Oil - 250ml	1	1	£9.85
RCFRLO500	Refined Linseed Oil - 500ml	1	1	£17.65
RCFRLO1	Refined Linseed Oil - 1 Litre	1	1	£31.00

Linseed Oil - by Winsor & Newton

A pale viscous oil that can be mixed with Turpentine or White (Mineral) Spirit to improve the flow and levelling of oil colour. Retards drying but imparts a tough, elastic finish. Use in conjunction with Turpentine or Artists' White Spirit to improve colour flow. It is well suited for glazing and for fine detail and is resistant to yellowing while increasing the durability of the film. It slows drying and is the best oil to choose as an additive medium.

Product code	Description	MOQ	PQ	RRP
RCFLSO75	Linseed Stand Oil - 75ml	1	3	£6.75
RCFCPLO75	Cold Pressed Linseed Oil - 75ml	1	3	£6.75
RCFDLO75	Drying Linseed Oil - 75ml	1	3	£6.75
RCFTLO75	Thickened Linseed Oil - 75ml	1	3	£6.75

Drying Poppy Oil - by Winsor & Newton

A drying oil used to increase the drying rate. Made from poppy seeds, it is the palest of the oils and is resistant to yellowing which makes it well suited for whites and pale colours.

Product code	Description	MOQ	PQ	RRP
RCFDPO75	Drying Poppy Oil - 75ml	1	3	£6.75

Oil Painting Mediums

Liquin Original - by Winsor & Newton

This reliable favourite is a general purpose semi gloss medium which speeds drying, improves flow and reduces brush stroke retention.

Halves the drying time of conventional oil colour (touch dry in 1-6 days depending on colour and film thickness).

Resists yellowing.

Not suitable as a varnish or final coat.

Product code	Description	MOQ	PQ	RRP
RCFLO75	Liquin Original - 75ml	1	3	£6.75
RCFLO250	Liquin Original - 250ml	1	1	£12.50
RCFLO500	Liquin Original - 500ml	1	1	£22.50
RCFLO1	Liquin Original - 1 Litre	1	1	£36.00

Liquin Impasto Medium - by Winsor & Newton

A semi-gloss medium that retains crisp textures and brushstrokes without any visible levelling. It extends colour and provides bulk. When dry, it forms a flexible, tough film that can be varnished in the normal way. Safely thickens oil colour for heavier brush or palette knife work.

Product code	Description	MOQ	PQ	RRP
RCFLIM60	Liquin Impasto Medium - 60ml	1	3	£8.85

Oil Painting Mediums

Liquin Fine Detail - by Winsor & Newton

A fluid gloss medium ideal for fine detailed work. It is also perfect for use in smoothly blended areas with no brush marks. Produces a smooth surface picture.

Product code	Description	MOQ	PQ	RRP
RCFLFD75	Liquin Fine Detail - 75ml	1	3	£6.75

Liquin Light Gel - by Winsor & Newton

A light, thixotropic gel which breaks down on brushing and flows out to give a non-drip effect when mixed with colour. It dries to a gloss film, and is ideal for glazing.

Product code	Description	MOQ	PQ	RRP
RCFLLG75	Liquin Light Gel - 75ml	1	3	£6.75

Artists' Painting Medium - by Winsor & Newton

A flammable pale yellow thinning medium for oil colours, which improves flow and wetting, thereby facilitating fine detail work. Dries to a flexible film with minimal tendency to yellow, wrinkle or crack. Slows the drying time of the oil colour.

Product code	Description	MOQ	PQ	RRP
RCFAPM75	Artists' Painting Medium -75ml	1	3	£6.75
RCFAPM250	Artists' Painting Medium - 250ml	1	1	£12.50

Artists' Picture Cleaner - by Winsor & Newton

A liquid which dissolves linseed oil oxidation and cleans soiled oil paintings. Emulsified mixture of Copaiba balsam, dipentene, and pine oil with ammonia. The liquid settles out in two layers. Shake well before use. Thinning is not recommended.

Product code	Description	MOQ	PQ	RRP
RCFAPC75	Artists' Picture Cleaner - 75ml	1	3	£4.95
RCFAPC250	Artists' Picture Cleaner - 250ml	1	1	£15.65

Oil Solvents (Diluents)

Artists' White Spirit - by Winsor & Newton

A volatile, flammable diluent for oil colours and brush cleaning.

Product code	Description	MOQ	PQ	RRP
RCFAWS75	Artists' White Spirit - 75ml	1	3	£4.95
RCFAWS1L	Artists' White Spirit - 1 Litre	1	1	£15.65

English Distilled Turpentine - by Winsor & Newton

A highly refined essential oil used as a diluent for oil colours and brush cleaning. It is a water white, volatile, flammable liquid with a characteristic odour and greater wetting properties than white spirit. Store in the dark in full bottles as exposure to air and light causes thickening.

Product code	Description	MOQ	PQ	RRP
RCFEDT75	Distilled Turpentine - 75ml	1	3	£4.95
RCFEDT250	Distilled Turpentine - 250ml	1	1	£8.85
RCFEDT500	Distilled Turpentine - 500ml	1	1	£15.00
RCFEDT1L	Distilled Turpentine - 1 Litre	1	1	£27.50

Turpentine - by Daler Rowney

Dilutes oil colour to create thin, quick drying washes in the early stages of painting. Also used to clean brushes.

Product code	Description	MOQ	PQ	RRP
RDAT75	Turpentine - 75ml	1	6	£4.85

Low Odour Thinners - by Daler Rowney

A low odour alternative to turpentine, ideal when working in a confined space or for those artists who find turpentine to have too strong an odour. Also used to clean palettes and brushes.

Product code	Description	MOQ	PQ	RRP
RDALOT75	Low Odour Thinners - 75ml	1	6	£4.85

Oil Solvents (Diluents)

Sansodor (Low Odour Solvent) - by Winsor & Newton

A low odour diluent alternative to Artists' White Spirit. It is slow to evaporate and therefore useful in controlling oil and alkyd colours. Low flammability.

Product code	Description	MOQ	PQ	RRP
RCFS75	Sansodor - 75ml	1	3	£4.95
RCFS250	Sansodor - 250ml	1	1	£8.85
RCFS500	Sansodor - 500ml	1	1	£15.00
RCFS1L	Sansodor - 1 Litre	1	1	£27.50

Oil Varnishes

Artists' Clear Picture Varnish - by Daler Rowney

A removable picture varnish for a clear, even gloss, which will not yellow or bloom. May be used on both oil and acrylic paintings.

Product code	Description	MOQ	PQ	RRP
RDAACP75	Clear Picture Varnish - 75ml	1	6	£6.75
RDACPU150	Clear Picture Varnish Aerosol - 150ml	1	6	£7.25
RDACPU400	Clear Picture Varnish Aerosol - 400ml	1	6	£13.25

Artists' Gloss Varnish - by Winsor & Newton

A modern general purpose gloss varnish. It is a clear flammable liquid, which dries to a non-yellowing glossy film. It is removable with Artists' White Spirit or Distilled Turpentine, quick drying and does not bloom or crack. Do not use until painting is completely dry (6-12 months).

Product code	Description	MOQ	PQ	RRP
RCFVAG75	Artists' Gloss Varnish - 75ml	1	3	£6.75
RCFVAG500	Artists' Gloss Varnish - 500ml	1	1	£22.50

Artists' Matt Varnish - by Winsor & Newton

A superior quality artists' matt varnish. Readily removable over a long period of time with white spirit or turpentine. Dries quickly to a non-yellowing film, does not crack or bloom.

Product code	Description	MOQ	PQ	RRP
RCFVAM75	Artists' Matt Varnish - 75ml	1	3	£6.75
RCFVAM250	Artists' Matt Varnish - 250ml	1	1	£12.50
RCFVAM500	Artists' Matt Varnish - 500ml	1	1	£22.50

Oil Varnishes

Artists' Retouching Varnish - by Winsor & Newton

Winsor & Newton Artists' Retouching Varnish provides temporary protection for recently completed oil paintings. This versatile varnish is used to bring back the original paint quality of dry or dull oil. Retouching Varnish is reduced with solvents and is much thinner than final top coat varnish. This means that it can be used as a preliminary varnish as soon as the oil paint is touch dry, since the paint can continue to dry out through the film.

Retouching Varnish can be removed with Turpentine or White Spirit prior to final varnishing, or it can be left underneath. It dries to a non-yellowing glossy film.

Product code	Description	MOQ	PQ	RRP
RCFVAR75	Retouching Varnish - 75ml	1	3	£6.75
RCFVAR250	Retouching Varnish - 250ml	1	1	£12.50
RCFVAR500	Retouching Varnish - 500ml	1	1	£22.50
RCFVAR150	Retouching Varnish - 150ml Gloss (Aerosol/Removable)	1	6	£7.55
RCFVAR400	Retouching Varnish - 400ml Gloss (Aerosol/Removable)	1	6	£13.50

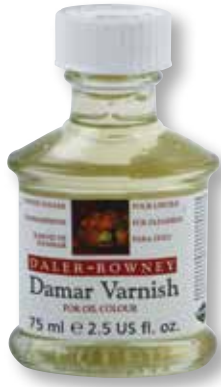

Artists' Picture Varnish Aerosol - by Winsor & Newton

A final clear, non-yellowing varnish for the protection of oil, alkyd and acrylic paintings. Removable with White Spirit or Turpentine.

Product code	Description	MOQ	PQ	RRP
RCFVAP150G	Picture Varnish - 150ml - Gloss	1	6	£7.55
RCFVAP150M	Picture Varnish - 150ml - Matt	1	6	£7.55
RCFVAP150S	Picture Varnish - 150ml - Satin	1	6	£7.55
RCFVAP400G	Picture Varnish - 400ml - Gloss	1	6	£13.50
RCFVAP400M	Picture Varnish - 400ml - Matt	1	6	£13.50
RCFVAP400S	Picture Varnish - 400ml - Satin	1	6	£13.50

Oil Varnishes

Damar Varnish - by Daler Rowney

A removable picture varnish. When applied thinly will give a low gloss. Damar dries hard and clear within a few hours. Removable with Turpentine or White Spirit.

Product code	Description	MOQ	PQ	RRP
RDADV75	Damar Varnish - 75ml	1	6	£6.75

Dammar Varnish - by Winsor & Newton

A pale yellow flammable varnish which dries quickly to a high gloss for use on oil and alkyd paintings, prints, maps and drawings. Tends to darken with age.

Product code	Description	MOQ	PQ	RRP
RCFVD75	Dammar Varnish - 75ml	1	3	£6.75
RCFVD150	Dammar Varnish - 150ml Aerosol	1	6	£7.55
RCFVD400	Dammar Varnish - 400ml Aerosol	1	6	£13.50

Japan Gold Size - by Winsor & Newton

A dark, thin liquid, which acts as a quick drying adhesive for gilding. Can also be used for exterior varnishing.

Non removable.

Not suitable as a picture varnish.

Product code	Description	MOQ	PQ	RRP
RCFJGS75	Japan Gold size - 75ml	1	4	£6.75

Oil Varnishes

Matt Varnish - by Daler Rowney

A removable varnish that dries to a matt finish. It can be mixed with Artist's Clear Picture Varnish to give a range of semi-gloss surfaces. It is non-yellowing. Removable with Turpentine or White Spirit, and can be used to varnish oils or acrylics.

Product code	Description	MOQ	PQ	RRP
RDAMV75	Matt Varnish - 75ml	1	6	£6.75

Retouching Varnish - by Daler Rowney

This versatile varnish is used to bring back the original paint quality of dry or dull oil. Retouching Varnish is reduced with solvents and is much thinner than final top coat varnishes.

Product code	Description	MOQ	PQ	RRP
RDARV75	Retouching Varnish - 75ml	1	6	£6.75

Water Mixable Oils

Georgian Water Mixable Oil Sets - by Daler Rowney

Georgian Water Mixable Oil colours offer artists the possibility of experiencing oil painting without the need for solvent-based mediums. An alternative to traditional oils, the balanced range of 40 vibrant colours can be thinned, mixed, and washed using water, and as such is ideal for use indoors and in a classroom environment.

All Georgian Water Mixable Oil colours offer high levels of lightfastness, pigment load, and durability. The viscosity and smooth texture of the colours out of the tube mirror traditional oil colours and can be used for impasto techniques, or thinned down with water they can create wash effects similar to watercolours. Surface-dry between 5 and 7 days, and no colour shift from wet to dry.

Product code	Description	MOQ	PQ	RRP
RDAGW150	Georgian Water Mix Oil Starter Set (6x20ml)	1	1	£14.95
RDAGW050	Georgian Water Mix Oil Introduction Set (10x20ml)	1	1	£19.95

Water Mixable Oils

Artisan Water Mixable Oil Colour - by Winsor & Newton

Unlike traditional oils, this range can be thinned and cleaned up with water, and all brushes and equipment can be cleaned up with soap and water.

With a balanced spectrum of 40 colours, Artisan includes 25 single pigment colours for colour brilliance and clean colour mixing.

Since it does not need hazardous solvents, Artisan is ideal for artists who share a work space, for those in education or at home, those looking for a safer painting environment and for travel.

There is no water within the Artisan formulation. The linseed and safflower oils have been modified to allow the colour to accept water. This creates a stable emulsion, and retains the working characteristics of conventional oil colour.

The pigments, together with the most suitable oil, bring out each colour's individual characteristics, from opacity to natural transparency.

With a buttery, thick consistency, a broad variety of techniques can be achieved and the colour can be thinned as required.

Artisan has its own range of thinners, oils, mediums and varnishes to allow all oil painting techniques. Created specifically for Artisan they ensure the best performance and a painting experience very close to traditional oils.

Product code	Description	MOQ	PQ	RRP

Water Mixable Oil Mediums

Artisan Impasto Medium - by Winsor & Newton

An impasto and texturing medium for use with Artisan colours. Speeds drying.

Product code	Description	MOQ	PQ	RRP
RCFAWIM60	Impasto Medium - 60ml	1	3	£4.45

Water Mixable Oil Mediums

Artisan Safflower - by Winsor & Newton

Product code	Description	MOQ	PQ	RRP
RCFAWSAF75	Safflower - 75ml	1	3	£4.95

Artisan Linseed Oil - by Winsor & Newton

Reduces the consistency and improves the flow of Artisan colours whilst increasing gloss and transparency.

Product code	Description	MOQ	PQ	RRP
RCFAWLO75	Linseed Oil - 75ml	1	3	£5.75

Artisan Painting Medium - by Winsor & Newton

Thins the consistency of Artisan colours and aids fine detail work. Also improves the flow and wetting of the colour. Dries slowly to a flexible film and is good for "oiling out".

Product code	Description	MOQ	PQ	RRP
RCFAWPM75	Painting Medium - 75ml	1	3	£5.75

Artisan Stand Oil - by Winsor & Newton

Improves the flow and levelling of Artisan colours. Excellent for glazing and fine detail as it smoothes brushwork. Slow drying.

Product code	Description	MOQ	PQ	RRP
RCFAWSO75	Stand Oil - 75ml	1	3	£5.75

Artisan Thinners - by Winsor & Newton

Artisan Water Mixable Oil Colour has a specific Thinner for the range. The purpose of Artisan is to be able to avoid the use of hazardous solvents. Although water is suitable as a diluent for the colour, its speedy evaporation can make the colour thicken upon the palette much quicker than conventional oil colour would when used with turpentine. To help with this Winsor & Newton have developed a Thinner to dilute Artisan colours. This can be used instead of water or combined with it to provide a more oily consistency.

Product code	Description	MOQ	PQ	RRP
RCFAWT75	Thinners - 75ml	1	3	£5.75

Water Mixable Oil Mediums

Artisan Varnish - by Winsor & Newton

Artisan Matt Varnish is a water based varnish which does not contain any hazardous solvents. The varnish provides finished paintings with protection from dirt and grease and when dirty itself, can be removed with Artisan Varnish Remover. Artisan paintings should be allowed to dry completely before varnishing, at least 6-12 months for thin films, longer for impasto paintings. Varnishes should not be used within the paintings as mediums. These varnishes should not be used over absorbent or damaged paint films. Stir well before use.

Product code	Description	MOQ	PQ	RRP
RCFAWMV75	Matt Varnish - 75ml	1	3	£5.75
RCFAWGV75	Gloss Varnish - 75ml	1	3	£5.75
RCFAWSV75	Satin Varnish - 75ml May be applied over Gloss Varnish.	1	3	£5.75

Artisan Fast Drying Medium - by Winsor & Newton

This fast drying medium improves the flow and speeds the drying of Artisan colours, smooths brushwork and increases gloss and transparency. Excellent for glazing and fine detail. Resistant to yellowing.

Product code	Description	MOQ	PQ	RRP
RCFAWFDM75	Fast Drying Medium - 75ml	1	3	£5.75

Artisan Varnish Remover - by Winsor & Newton

Artisan Gloss, Matt and Satin varnishes can be removed with Artisan Varnish Remover when dirty. With all mediums always shake the bottle well before use and mix the medium thoroughly into the Artisan colour (gradually adding small amounts of water only if required).

Product code	Description	MOQ	PQ	RRP
RCFAWVR75	Varnish Remover - 75ml	1	3	£5.75

Artists' Quality Acrylic

SEE PAGE 184
FOR THE
CRYLA SETS

Cryla Artists' Acrylic - by Daler Rowney

Cryla Artists' Acrylic was introduced by Rowney & co. in 1963 and pioneered the use of artists' acrylics in Europe; it is one of the significant milestones in the company's development. Cryla Artists' Acrylic colour is a very heavy-bodied colour with a high loading of permanent, lightfast pigments. The unique heavy, buttery feel under the brush and knife is popular with artists wanting to achieve a wide variety of impasto effects.

Product code	Description	MOQ	PQ	RRP

Artists' Quality Acrylic

Professional Acrylic - by Winsor & Newton (Previously Finity)

Professional Acrylic combines Winsors' colour making expertise with the latest developments in resin technology. The 80 colours are brilliant when wet and remain as bright when dry. What you see is really what you get.

There is no colour shift from wet to dry - many acrylic paints darken in tone as they dry. This affects colour richness, intensity and depth and makes colour matching difficult. With our new unique binder, translucent when wet and drying clear, there is virtually no colour shift at all. This makes it easier to match Professional Acrylic colours from palette to canvas, and delivers superb colour brilliance every time.

Acrylics dry quickly, which allows you to overpaint within minutes and build up multiple layers during one painting session. For some artists acrylics can dry a little too quickly, so we have formulated the range to have a longer working time on the palette without compromising the drying time. Depending on the thickness of the paint, the working time is approximately 20-30 minutes.

The Professional Acrylic range offers a smooth, thick, buttery consistency with no stringiness. The colour blends easily, can be mixed with mediums and thinned with water for water colour techniques. It also retains brushstrokes for excellent impasto effects.

Reeves Acrylic Colour

Reeves Fine Artist Quality Acrylic Colours have a high pigment concentration to give excellent lightfastness and strong vibrant colours. Reeves acrylic paints offer outstanding coverage. The superior acrylic resin used ensures excellent adhesion and a free flowing consistency. Acrylics can be used straight from the tube to create impasto effects and build volume, like oil colour, or diluted with water to use for watercolour or poster colour techniques.

Student Quality Acrylic

Graduate Acrylic - by Daler Rowney

Graduate Acrylics offer an affordable range of acrylic colours. They can be used on any paper surface, primed board or canvas, used indoors or outdoors and are so versatile they can also be used with a variety of acrylic mediums. There are 48 colours in the range, including metallic colours, having a good pigment strength. Colours are water-based and contain no solvents.

The advantage of acrylic colours to schools and hobbyists, is that artwork can be dried and stored away shortly after an art class has been completed, and will not smudge if water is spilled on the surface of the painting. The colours are fast-drying, durable and flexible, so paintings will last a long time.

System 3 Original Acrylic - by Daler Rowney

With Original and Heavy Body versions, System 3 acrylics are highly versatile, water-based acrylic colours. They offer an excellent painting experience at an economical price. Only high-quality pigments are used in the manufacture of the System 3 acrylic ranges, offering significantly greater loading than in other acrylic ranges available in this class. System 3's comprehensive range of colours offers excellent lightfastness, permanence, durability and covering power.

All colours can be thinned with water to pale washes, or used directly from the pot or tube. Each form dries quickly to create an insoluble film. The quick drying properties of the range enable the artist to work quickly, superimposing or juxtaposing colours without unnecessary fuss.

All System 3 Original and Heavy Body colours are fully intermixable and suitable for interior use. As they are not lightfast, fluorescent colours are not recommended for exterior use. All other colours are both lightfast and durable.

Heavy Body Acrylic

System 3 Heavy Body Acrylic - by Daler Rowney

With its exceptional heavy body consistency, System 3 Heavy Body acrylic paint is ideal for artists wanting to achieve textured effects and using impasto techniques. It retains brush marks, holds its shape, allows the creation of motion and adds volume to your artwork. It is mixable with water and dries quickly.

Galeria Acrylic Colour

Vibrant colours, good brush stroke retention and quality at an affordable price, the Galeria Acrylic range has a spectrum of 60 colours.

With a high level of pigmentation Galeria offers brilliant colours and good covering power. The range also has opaque versions of some naturally transparent colours, for example Raw Sienna Opaque and Burnt Sienna Opaque.

In comparison to oil, acrylics generally have less body. We have worked hard to create a good buttery consistency for quick and easy coverage, while making sure that the brush marks you want remain.

Student Quality Acrylic

Pebeo Studio Acrylic - by Pebeo

This acrylic paint from Pebeo has a thick consistency particularly suited to work in dimension. It retains the traces of the brush or spatula and can be used pure or with acrylic mediums or Studio auxiliaries, allowing for the further expansion of creative possibilities.

The colours are vivid and deep, richly pigmented with matt satin finish and very good lightfastness. They are very adherent and permanent once dry, mixable and suitable for most surfaces. Resistant and flexible to distortion film. Pebeo also produce 'Dyna' colours which are obtained from pigments, rendering pearlescent effects.

Acrylic Painting Mediums

Decoupage Medium - by Daler Rowney

Specially formulated as a clear gloss medium with adhesive properties for papier mache, collage and decoupage or as a final water resistant sealant for all manner of craftwork including stone, wood, card and paper.

Product code	Description	MOQ	PQ	RRP
ADADM	Decoupage Medium - 75ml	1	6	£5.75

Flow Enhancer - by Daler Rowney

A colourless liquid that is added to acrylic colour to reduce its viscosity and enhance its flow. Flow Enhancer is best added directly to colour in small quantities until the desired flow characteristics are achieved.

Product code	Description	MOQ	PQ	RRP
ADAFE75	Flow Enhancer - 75ml	1	6	£6.50

Glaze Medium Gloss - by Daler Rowney

A white translucent cream which increases the flow and transparency of acrylic colour to facilitate the production of fine glazes which will dry to a gloss finish. Drying times will be retarded and transparency and gloss will develop fully as the colour dries.

Product code	Description	MOQ	PQ	RRP
ADAGMG	Glaze Medium - Gloss - 75ml	1	3	£5.75

Glaze Medium Matt - by Daler Rowney

Performs in exactly the same manner as Glaze Medium (Gloss) but dries to the same eggshell matt finish as the pure acrylic colour.

Product code	Description	MOQ	PQ	RRP
ADAGMM	Glaze Medium - Matt - 75ml	1	3	£5.75

Acrylic Painting Mediums

Impasto Gel Medium Gloss - by Daler Rowney

As with Impasto Gel Medium (Matt) it provides a cost effective alternative for large area coverage. The colours become more transparent and glossy as more medium is added to the colour. Drying times will be slowed down, but not significantly, and it may take a day or more for the full gloss to develop.

Product code	Description	MOQ	PQ	RRP
ADAIGMG75	Impasto Gel Medium - Gloss 75ml	1	3	£5.75
ADAIGMG500	Impasto Gel Medium - Gloss 500ml	1	1	£19.50

Impasto Gel Medium Matt - by Daler Rowney

This white translucent heavy bodied gel provides a cost effective means of covering large areas with impasto colour when mixed with pure acrylic colour. Mixtures of Impasto Gel (Matt) with acrylic colour will dry to an eggshell matt finish. The marks of brush and knife will be retained with gel mixed just as with the pure colour, and the same bodied buttery texture is preserved.

Product code	Description	MOQ	PQ	RRP
ADAIGMM75	Impasto Gel Medium - Matt 75ml	1	3	£5.75
ADAIGMM500	Impasto Gel Medium - Matt 500ml	1	1	£19.50

Pearlescent Tinting Medium - by Daler Rowney

Gives a shimmering pearlescent metallic lustre when mixed with pure acrylic colour.

Product code	Description	MOQ	PQ	RRP
ADAPTM75	Pearlescent Tinting Medium 75ml	1	3	£5.75

Slow Drying Gel - by Daler Rowney

Slows down the drying time of acrylic colour. Slow Drying Gel is added directly to the paint and thoroughly mixed on the palette.

Product code	Description	MOQ	PQ	RRP
ADASDG	Slow Drying Gel - 75ml	1	3	£5.75

Acrylic Painting Mediums

Shimmering Colours - by Daler Rowney

Used straight from the tube and applied to a black surface they produce a magical shimmering metallic transparent lustre. The most dramatic effects are on black where colour shows with electric intensity.

Product code	Description	MOQ	PQ	RRP
ADAIM75***	Interference Medium - 75ml (All Shimmering Colours)	1	3	£7.75
When specifying the colour, quote the colour number after the code.				
ADASCS	Shimmering Colours Set	1	1	£27.25
Contains 4 x 75ml tubes of shimmering medium in red, green, blue & gold, 1 x 75ml tube of System 3 Black.				

Colour Range:

Code		Code	
709	Shimmering Gold	712	Shimmering Copper
710	Shimmering Violet	713	Shimmering Red
711	Shimmering Blue	714	Shimmering Green

Gesso Primer - by Daler Rowney

Gesso Primer is a unique formulation which needs no dilution. Highly adhesive, ideal for directly sealing all semi-absorbent surfaces before applying colour – both acrylics and oils. Suitable for both interior and exterior applications. It dries quickly to produce a matt white surface, with a slight tooth, which is easily sanded for highly detailed work.

Available in white and black. Black Gesso Primer has the same characteristics as White Gesso and is applied in the same way. If used as a ground for acrylics, one coat is normally sufficient, but up to three coats may be required for oil colour.

Product code	Description	MOQ	PQ	RRP
ADAWGP250	Gesso Primer - White - 250ml	1	1	£10.50
ADAWGP500	Gesso Primer - White - 500ml	1	1	£16.00
ADAWGP1L	Gesso Primer - White - 1L	1	1	£24.50
ADABGP250	Gesso Primer - Black - 250ml	1	1	£10.50
ADABGP500	Gesso Primer - Black - 500ml	1	1	£16.00
ADABGP1L	Gesso Primer - Black - 1L	1	1	£24.50

Acrylic Painting Mediums

Graduate Gesso Primer - by Daler Rowney

This student-quality Graduate Gesso Primer has been specially formulated to provide a good value option, and is ideal for use to prime large surfaces in internal environments. For indoor use only.

Product code	Description	MOQ	PQ	RRP
ADAWGP1L	Graduate Gesso Primer 1 litre	1	1	£24.50
ADAWGP5L	Graduate Gesso Primer 5 litre	1	1	£43.50

System 3 Gesso Primer - by Daler Rowney

Specially developed as a low-cost primer for use as a ground for acrylic and oil painting. It is ideal as a base for any large-scale work where primer is required – for example large paintings, scenery and murals. System 3 Primer may be used on masonry, but not exterior wood surfaces.

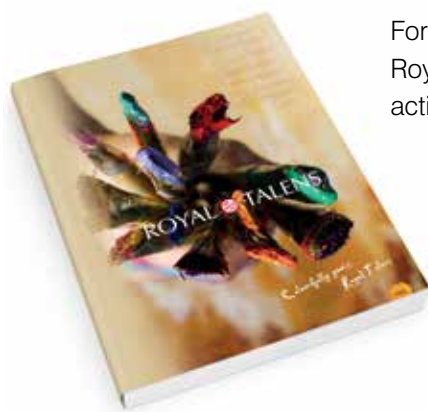

Product code	Description	MOQ	PQ	RRP
ADA127100012	System 3 Gesso Primer 1 litre	1	1	£17.55

Mediums - by Royal Talens

Product code	Description	MOQ	PQ	RRP
	Royal Talens Mediums

Acrylic Painting Mediums

Gesso Primer - by Winsor & Newton

This primer is made from the highest quality acrylic resin and has a superior level of pigmentation. It is fast drying and opaque and is ideal for use on a whole variety of surfaces. It is good for one coat application, and is suitable for acrylic, oil and alkyd painting.

Product code	Description	MOQ	PQ	RRP
ACFAWG237	Gesso Primer - 225ml	1	1	£9.85
ACFAWG474	Gesso Primer - 450ml	1	1	£18.75
ACFAWG1L	Gesso Primer - 946ml	1	1	£24.95

Clear Gesso Base - by Winsor & Newton

A unique product which provides tooth but no colour, hence you can make your own coloured gesso primers by the addition of acrylic colours to the base. This unique product contains no white pigment but still provides texture and absorbency. It is particularly recommended that opaque colours are used for the purpose of creating coloured gesso primers. It is also suitable for making a pastel surface on paper and for oil and alkyd painting.

Product code	Description	MOQ	PQ	RRP
ACFACG237	Clear Gesso Base - 225ml	1	1	£9.85
ACFACG474	Clear Gesso Base - 450ml	1	1	£18.75
ACFACG1L	Clear Gesso Base - 946ml	1	1	£24.95

Galeria Gesso Primers

Galeria Gesso Primer (White) - by Winsor & Newton

Made from high quality acrylic resin with a good level of pigment strength, it can be used straight from the pot and has excellent tooth for film adhesion. To reduce absorbency and to boost the integrity of the film a minimum of two coats is required if working with oils.

Product code	Description	MOQ	PQ	RRP
ACFGGP1L	Gesso Primer - White - 1Litre	1	1	£15.65
ACFGGP25	Gesso Primer - White - 2.5Litre	1	1	£27.50

Galeria Gesso Primer (Black) - by Winsor & Newton

This gesso has a matt black finish for maximum colour contrast and can be used straight from the pot. To reduce absorbency and to boost the integrity of the film a minimum of three coats is required if working with oils.

Product code	Description	MOQ	PQ	RRP
ACFGBGP1L	Gesso Primer - Black - 1Litre	1	1	£16.65

Texture Paste - by Daler Rowney

A thick paste which is used to build up heavy layers of texture. It dries to a matt white finish which is ideal for overpainting with acrylic colour.

Product code	Description	MOQ	PQ	RRP
ADATP250	Texture Paste - 250ml	1	1	£10.50
ADATP500	Texture Paste - 500ml	1	1	£20.00
ADATP1L	Texture Paste - 1L	1	1	£36.50

Acrylic Painting Mediums

Acrylic Gloss Medium - by Winsor & Newton

Acrylic gloss medium increases the flow of acrylic colours, and adds depth and transparency. It also enables control and working characteristics without colour shift or loss of depth. Dries to an even gloss finish.

Product code	Description	MOQ	PQ	RRP
ACFAGM250	Acrylic Gloss Medium - 250ml	1	1	£12.50
ACFAGM500	Acrylic Gloss Medium - 500ml	1	1	£20.00

Acrylic Matt Medium - by Winsor & Newton

This medium improves the flow of acrylic colour, making it ideal for blending or fine detail work. It provides an even matt finish and increases the water resistance of the colour when dry. Contains clear binder and matting agents giving you no loss of colour depth.

Product code	Description	MOQ	PQ	RRP
ACFAMM250	Acrylic Matt Medium - 250ml	1	1	£12.50
ACFAMM500	Acrylic Matt Medium - 500ml	1	1	£20.00

Acrylic Painting Mediums

All Purpose Varnish - by Winsor & Newton

Product code	Description	MOQ	PQ	RRP
HCFAPV150HG	All Purpose Varnish - High Gloss 150ml	1	1	£7.55
HCFAPV400HG	All Purpose Varnish - High Gloss 400ml	1	1	£13.50
HCFAPV150M	All Purpose Varnish - Matt 150ml	1	1	£7.55
HCFAPV400M	All Purpose Varnish - Matt 400ml	1	1	£13.50

Acrylic Soluble Varnish - by Daler Rowney

Specially developed for the protection of acrylic works from environmental pollutants which can cause surface degradation. Sealing the surface with varnish provides a barrier film which can be cleaned or removed, but leaves the paint itself unblemished.

Product code	Description	MOQ	PQ	RRP
ADASGV75	Soluble Gloss Varnish - 75ml	1	6	£6.50
ADASMV75	Soluble Matt Varnish - 75ml	1	6	£6.50

Galeria Acrylic Texture Gels

Structure Gels

Structure Gels are made from acrylic resin and are formulated for greater body and structure than the more fluid Gloss and Matt Mediums. They enable you to create surface texture and high peak retention of brush marks.

Galeria Acrylic Texture Gels

Acrylic Gels can be divided into three groups; **Structure Gels**, **Modelling Pastes** and **Texture Gels**.

Galeria Structure Gel - by Winsor & Newton

Add to acrylic colour to create high peak retention. Smooth and flexible. Provides a gloss finish with good clarity.

Product code	Description	MOQ	PQ	RRP
ACFGSG250	Galeria Structure Gel - 250ml	1	1	£8.85
ACFGSG500	Galeria Structure Gel - 500ml	1	1	£13.50

Galeria Heavy Structure Gel - by Winsor & Newton

This is the heaviest gel available in the Galeria range. Ideal for creating strong surface texture and very high peak retention. Smooth and flexible. Heavy layers are easily and quickly built. Satin finish to prevent thick layers from looking too plastic.

Product code	Description	MOQ	PQ	RRP
ACFGHSG250	Heavy Structure Gel - 250ml	1	1	£8.85
ACFGHSG500	Heavy Structure Gel - 500ml	1	1	£13.50

Modelling Pastes

Modelling Pastes are the heaviest of all mediums and are suited for carving and sanding and are ideal for building extreme textures.

Galeria Flexible Modelling Paste - by Winsor & Newton

A lighter-weight modelling paste for use on canvas (to minimize sagging). Finely textured with a soft sculptural consistency. Suitable for building multiple layers. Matt finish. May be overpainted. Colour may be added directly to modelling pastes (note that colour will become lighter and more 'chalky' and the resulting paste will have reduced body).

Product code	Description	MOQ	PQ	RRP
ACFGFMP250	Flexible Modelling Paste - 250ml	1	1	£8.85
ACFGFMP500	Flexible Modelling Paste - 500ml	1	1	£13.50

Galeria Acrylic Texture Gels

Galeria Heavy Modelling Paste - by Winsor & Newton

This is the do-it-all version that is tough and fully carvable. It remains flexible on a variety of surfaces. Suitable for multiple layers. Formulated to have the least effect on colour change from wet to dry. May be overpainted. Colour may be added directly to modelling paste (note that colour will become lighter and more chalky and the resulting paste will have reduced body).

Product code	Description	MOQ	PQ	RRP
ACFGHCMP250	Heavy Modelling Paste - 250ml	1	1	£8.85

Galeria Medium Grain Gel - by Winsor & Newton

When mixed with acrylic colour, Medium Grain Gel forms a moderately granular texture. It may be used alone as a clear, textured film, or with added colour. It may also be overpainted. Medium Grain Gel has been formulated to ensure that the texture is evenly distributed.

Product code	Description	MOQ	PQ	RRP
ACFGMGG250	Medium Grain Gel - 250ml	1	1	£8.85

Galeria Large Grain Gel - by Winsor & Newton

A more pronounced textural grain effect than the Medium Grain Gel, providing more visible structure and effect to the colour.

Product code	Description	MOQ	PQ	RRP
ACFGLGG250	Large Grain Gel - 250ml	1	1	£8.85
ACFGLGG500	Large Grain Gel - 500ml	1	1	£13.50

Galeria Acrylic Texture Gels

Texture Gels

Texture Gels offer a range of aggregate textures within heavier acrylic gels. These are suitable for any application in which highly unique surface textures are desired.

Galeria Black Lava Texture Gel - by Winsor & Newton

A granular paste containing fine particles of black flint allowing the artist to achieve a heavier and more pronounced effect than can be achieved with Mineral Texture Gel.

Product code	Description	MOQ	PQ	RRP
ACFGBLTG250	Black Lava Texture Gel - 250ml	1	1	£8.85
ACFGBLTG500	Black Lava Texture Gel - 500ml	1	1	£13.50

Galeria Glass Beads Texture Gel - by Winsor & Newton

This medium is composed of small, spherical glass beads suspended in a thick, clear acrylic gel. When used with a transparent colour, the effects are arresting and jewel-like.

Product code	Description	MOQ	PQ	RRP
ACFGGBTG250	Glass Beads Texture Gel - 250ml	1	1	£8.85
ACFGGBTG500	Glass Beads Texture Gel - 500ml	1	1	£13.50

Galeria Sand Texture Gel - by Winsor & Newton

A finer and more consistent texture than the pumice in Mineral Texture Gel. Whilst natural or environmental sand can be added to acrylic colour, any impurities can seriously compromise the chemistry of the paint film. Galeria Sand Texture Gel has been formulated with refined and purified sand to ensure the most interesting possible texture as well as security and durability.

Product code	Description	MOQ	PQ	RRP
ACFGSTG250	Glass Sand Texture Gel - 250ml	1	1	£8.85
ACFGSTG	Glass Sand Texture Gel - 500ml	1	1	£13.50

Galeria Acrylic Mediums

Galeria Gloss Medium - by Winsor & Newton

High clarity and even flow. Boosts the brilliance and transparency of the colour as well as improving adhesion and durability. Ideal for glazing or applying thick, highly transparent layers of brilliant colour for depth and stained-glass effect.

Product code	Description	MOQ	PQ	RRP
ACFGGM250	Gloss Medium - 250ml	1	1	£8.85
ACFGGM500	Gloss Medium - 500ml	1	1	£13.50

Galeria Matt Medium - by Winsor & Newton

This medium creates a flat, even finish. It maintains brilliance of colour while boosting transparency, adhesion and durability.

Product code	Description	MOQ	PQ	RRP
ACFGMM250	Matt Medium - 250ml	1	1	£8.85
ACFGMM500	Matt Medium - 500ml	1	1	£13.50

Galeria Iridescent Medium - by Winsor & Newton

Suitable for a variety of surfaces and developed to provide pearlescent effects when added to colour. Most effective when used with transparent colours over dark under layers.

Product code	Description	MOQ	PQ	RRP
ACFGIM250	Iridescent Medium - 250ml	1	1	£8.85
ACFGIM500	Iridescent Medium - 500ml	1	1	£13.50

Galeria Fluid Retarder - by Winsor & Newton

For extending the drying and working time of acrylic colours. Small amounts (a few drops) will allow for extended blending and manipulation. Fluid Retarder does not contain sufficient acrylic resin to act as additional binder and should be used only in the amount needed to achieve the desired effect.

Product code	Description	MOQ	PQ	RRP
ACFGFR250	Fluid Retarder - 250ml	1	1	£8.85

Galeria Acrylic Mediums

Galeria Extender - by Winsor & Newton

A highly economical medium, Galeria Extender increases the volume of paint and maintains opacity. Colour will dry to a matt finish. A great product for those with limited budgets.

Product code	Description	MOQ	PQ	RRP
ACFGE250	Galeria Extender - 250ml	1	1	£8.85
ACFGE500	Galeria Extender - 500ml	1	1	£13.50

Galeria Flow Improver - by Winsor & Newton

This is an additive that loosens the surface tension of water within the acrylic film. It increases flow, allowing the artist to apply areas of flat colour evenly without changing the colour strength. The increased flow is also ideal for masking applications (as the colour lays more smoothly and evenly against the taped edge) and for flowing, gestured watercolour techniques. Flow Improver is also the best medium for staining applications. Flow improver should be used only in the amount needed to achieve the desired effect.

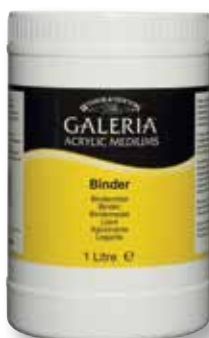

Product code	Description	MOQ	PQ	RRP
ACFGI250	Flow Improver - 250ml	1	1	£8.85

Galeria Screen Printing Medium - by Winsor & Newton

Galeria colours are lightfast and offered within a fine-art spectrum, making them highly attractive for printmaking. By themselves, however, acrylic colours dry too rapidly to be used for screen printing. Adding Galeria Screen Printing Medium to the colours will improve flow and slow the drying time, allowing for successful printing.

Product code	Description	MOQ	PQ	RRP
ACFGSPM1L	Screen Printing Medium - 1 Litre	1	1	£16.65

Galeria Binder - by Winsor & Newton

A soft, gloss-finish gel formulated to allow the adhesion or addition of additive materials, objects or aggregates (like sand, stone, wood, tiles and more). Suitable for combined use with acrylic colour on a variety of surfaces. Provides flexibility and will not yellow over time. Ideal for collage, craft and home decoration applications.

Product code	Description	MOQ	PQ	RRP
ACFGB1L	Galeria Binder - 1Litre	1	1	£16.65

Galeria Acrylic Varnishes

Galeria Acrylic Varnish - by Winsor & Newton

Varnishes are the final coatings which protect finished pictures from the build-up of dirt and grease. Galeria varnishes have been specially formulated to work with Galeria colours to provide superior long-lasting protection.

Galeria Gloss Varnish - by Winsor & Newton

A unique removable gloss varnish for the protection of finished artwork. This product can also be mixed with Galeria Matt varnish to vary the final finish.

Product code	Description	MOQ	PQ	RRP
ACFGAV75G	Galeria Varnish - Gloss - 75ml	1	3	£4.95
ACFGAV250G	Galeria Varnish - Gloss - 250ml	1	1	£8.85
ACFGAV500G	Galeria Varnish - Gloss - 500ml	1	1	£13.50

Galeria Matt Varnish - by Winsor & Newton

A unique removable matt varnish for the protection of finished artwork. This product can also be mixed with Galeria Gloss varnish to vary the final finish.

Product code	Description	MOQ	PQ	RRP
ACFGAV75M	Galeria Varnish - Matt - 75ml	1	3	£4.95
ACFGAV250M	Galeria Varnish - Matt - 250ml	1	1	£8.85
ACFGAV500M	Galeria Varnish - Matt - 500ml	1	1	£13.50

Galeria Satin Varnish - by Winsor & Newton

A unique removable satin varnish for the protection of finished artwork.

Product code	Description	MOQ	PQ	RRP
ACFGAV75M	Galeria Varnish - Matt - 75ml	1	3	£4.95
ACFGAV250M	Galeria Varnish - Matt - 250ml	1	1	£8.85
ACFGAV500M	Galeria Varnish - Matt - 500ml	1	1	£13.50

Galeria Varnish Remover - by Winsor & Newton

Winsor & Newton acrylic varnishes are readily removable with this product, allowing pictures to be cleaned and re-varnished in the future without fear of damage.

Product code	Description	MOQ	PQ	RRP
ACFGVR75	Varnish Remover - 75ml	1	3	£4.95

Student Quality Watercolour

Cotman Watercolour - by Winsor & Newton

This 40 colour range is made to the same quality standards as Artists' Watercolours, but costs are kept to an economical level by replacing some of the more costly pigments with less expensive alternatives. Available in tubes and pans, Cotman colours possess good transparency with excellent tinting strength and good working properties.

Product code	Description	MOQ	PQ	RRP
XCFCWCHP***	Cotman Half Pan - (40 Colours)	1	3	£2.20
XCFCWC8***	Cotman - 8ml Tube (40 Colours)	1	3	£2.60

12 half pans of Aquafine water colours & brush. The box features a thumb ring.				
XDAA888	C Whole Pan Set	1	1	£23.25
Contains: 12 whole pans of Aquafine water colours & brush. The box features a thumb ring.				
XDAA555	D Intro to Watercolours	1	1	£26.95
Contains: 12 x 8ml tubes of Aquafine water colour.				
XDAA333	E 12 Half Pan Metal Box	1	1	£34.95
A fine selection of Aquafine water colour half pans. The metal box also features 2 mixing palettes.				
XDAA444	F 24 Half Pan Metal Box	1	1	£46.25
A metal box set containing 24 Aquafine quality half pans.				
XDAA027	G Tube & 18 Half Pan Set	1	1	£34.75
A selection of 18 Aquafine half pans and 2 x 8ml Aquafine tubes (Chinese White & Ivory Black) and brush.				
XDAA026	H 20 Half Pan Slider Set	1	1	£34.75
Contains a selection of 20 Aquafine half pans & brush.				
XDAA025	I 10 tube Slider Set	1	1	£34.75
This set contains 10 x 8ml Aquafine tubes & brush.				
All Aquafine Slider Sets are plastic and contain three integral palettes. Two palettes slide out of the base and one removable palette is stored in the lid.				

Artists' Quality Watercolour

Professional Artists' Watercolour - by Winsor & Newton

With 96 colours, the Winsor & Newton Professional watercolour range offers bright, vibrant colours and unrivalled performance.

Watercolour, more than any other medium, relies upon the variable characteristics of the pigments used. Winsor & Newton Professional Water Colours use only the purest pigments, and are known for their brilliance, permanence and strength of colour.

With 75 single pigment colours in the range, this is the widest range of modern and traditional pigments for superb colour mixing.

The transparency of Professional Water Colour is due to the way the pigment is dispersed during manufacture. In thin washes, the colour is present but the reflective white of the paper can still be seen. The colours provide brilliance and clean mixing and the natural characteristics of pigments mean that some will be more transparent than others.

93 out of 96 colours in this range are classed as "permanent for artists' use", rated AA or A for permanence to ensure that the colours used today will appear the same for generations to come. Available in 2 forms - tubes or pans come.

XKCWS4T	4 Tier Watercolour Set 24 Colours	1	6	£6.85

Koh-i-Noor Anilinky Disc Sets

Sets of dye based watersoluble pans which provide very intense colour suitable for watercolour painting and textile (fabric) applications. Since the pans are dye-based, the colours bleach out beautifully creating stunning effects. Suitable for silk painting.

Product code	Description	MOQ	PQ	RRP
XKC174503	12 Watercolour Disc Set	1	10	£4.99
XKC174506	24 Colour Brilliant Watercolour Disc Set	1	6	£9.99

Student Quality Watercolour

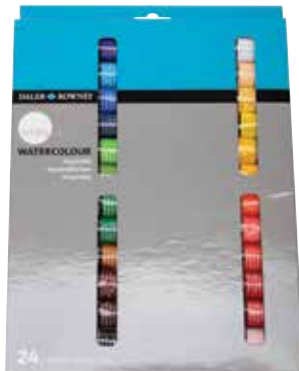

Red Watercolour Tin - by Reeves

The Reeves Watercolour Metal Tin contains 12 watercolour pans, and is perfect for taking out and about. The watercolour paint is made with pure, finely ground pigments to give beautiful transparent effects. This attractive set gives excellent value for money and is ideal for getting started with watercolours.

The 12 colours are Gamboge, Carmine, Vermillion, Ultramarine, Prussian Blue, Leaf Green, Hookers Green, Yellow Ochre, Burnt Sienna, Vandyke Brown, Black and White.

Product code	Description	MOQ	PQ	RRP
XSQRTS	Red Watercolour Tin 12 Whole Pans	1	12	£8.00

Simply Watercolour Set - by Daler Rowney

Simply Watercolours are affordable, basic colours that can be used to paint on all conventional watercolour surfaces.

Product code	Description	MOQ	PQ	RRP
XDASIM12X12	12 x 12ml Tube Set	1	6	£9.25
XDASIM24X12	24 x 12ml Tube Set	1	6	£15.25

Brusho Watercolour Paint

Brusho is a form of transparent watercolour available in an extensive range of exciting colours, supplied in small drums containing dry, crystalline powder. They mix instantly with cold water to produce a painting medium which is renowned for its versatility. The colours lend themselves ideally to the production of a variety of hues, tints and shades by mixing, dilution or concentration, or by the superimposition of washes.

Brusho is unique and many of the effects can be achieved in no other way. Even after many years of Brusho painting, new possibilities will still be found for this highly interesting product.

Product code	Description	MOQ	PQ	RRP
XCGB12	Assorted Pack of 12 Colours	1	1	£39.99
Contains colours: Brilliant Red, Black, Dark Brown, Emerald Green, Leaf Green, Lemon, Orange, Purple, Scarlet, Turquoise, Ultramarine & Yellow.				
XCGB24	Assorted Pack of 24 Colours	1	1	£59.99
Contains the 12 colours listed above plus: Cobalt Blue, Crimson, Gamboge, Grey, Light Brown, Ostwald Blue, Ostwald Red, Prussian Blue, Sea Green, Vermilion, Violet & White.				

Watercolour Auxiliaries

Art Masking Fluid - by Winsor & Newton

Art Masking Fluid enables artists' the freedom to apply broad colour washes across painting surfaces without the colour wash covering key details within a composition.

Unlike Permanent Masking Medium, which is intermixable with water colours, Art Masking Fluid is applied directly onto the paper. It can be applied to white paper or previously coloured areas, and it acts like skin over those areas you want to protect from the colour wash. Once the colour wash is applied, simply remove the Art Masking Fluid. Art Masking Fluid has a slight yellow tint making it easier to see where it has been used. If a softer sized paper is used or there is any risk of yellow staining the paper, Colourless Art Masking Fluid should be used.

Product code	Description	MOQ	PQ	RRP
XCFAMF75	Art Masking Fluid - 75ml	1	3	£6.75
XCFAMF250	Art Masking Fluid - 250ml	1	1	£12.50

Here are some helpful tips to get the best results when using Masking Fluid.

1. Shake the bottle before use.
2. Do not use on wet or damp paper.
3. Use gelatin surface sized paper, this helps to prevent the fluid from adhering too strongly to the paper.
4. Wash brushes in soapy water immediately after use.
5. Ensure fluid is dry before applying colour wash.
6. Do not leave fluid on paper for long periods of time.
7. Once dry, the latex can only be removed by picking at it or rubbing with an eraser.

Colourless Art Masking Fluid - by Winsor & Newton

A colourless liquid for masking areas of work which need protection when colour is applied in broad washes. Specifically designed for soft sized papers to avoid staining. For best results remove as soon as possible after application.

Product code	Description	MOQ	PQ	RRP
XCFCAMF75	Colourless Art Masking Fluid	1	3	£6.75

Aquapasto - by Winsor & Newton

A translucent gel medium for reducing flow and giving an impasto effect to watercolour and gouache.

Product code	Description	MOQ	PQ	RRP
XCFA60	Aquapasto - 60ml	1	3	£8.85

Gum Arabic Solution - by Winsor & Newton

A pale-coloured solution which increases the gloss and transparency of water colour. Thins with water.

Product code	Description	MOQ	PQ	RRP
XCFGAS75	Gum Arabic Solution - 75ml	1	3	£6.75

Watercolour Auxiliaries

Ox Gall Liquid - by Winsor & Newton

A wetting agent used to improve the flow when mixed directly with watercolours. Also used on very hard sized papers to reduce surface tension.

Product code	Description	MOQ	PQ	RRP
XCFOGS75	Ox Gall Liquid - 75ml	1	3	£6.75

Granulation Medium - by Winsor & Newton

This medium gives a mottled or granular appearance to colours which usually give a smooth wash. By adding Granulation Medium to colours which already granulate the effect is further enhanced.

Product code	Description	MOQ	PQ	RRP
XCFGM75	Granulation Medium - 75ml	1	3	£6.75

Lifting Preparation - by Winsor & Newton

Lifting preparation allows dry washes, including staining colours, to be more easily lifted from paper with a wet brush or sponge.

Product code	Description	MOQ	PQ	RRP
XCFLP75	Lifting Preparation - 75ml	1	3	£6.75

Watercolour Auxiliaries

Permanent Masking Medium - by Winsor & Newton

This medium is used to mask specific areas of paper, making them resistant to water. It can also be mixed with watercolours and is ideal for isolating areas of fine detail. Unlike Art Masking Fluid, Permanent Masking Medium is not removable.

Product code	Description	MOQ	PQ	RRP
XCFPMM75	Permanent Masking Medium	1	3	£6.75

Blending Medium - by Winsor & Newton

This medium is used to slow the drying rate of watercolours allowing more time for blending.

Product code	Description	MOQ	PQ	RRP
XCFBM75	Blending Medium - 75ml	1	3	£6.75

Texture Medium - by Winsor & Newton

Texture Medium contains fine particles and can be used to give the impression of depth and structure to watercolour paintings.

Product code	Description	MOQ	PQ	RRP
XCFM75	Texture Medium - 75ml	1	3	£6.75

Iridescent Medium - by Winsor & Newton

This medium gives pearlescent or glitter effect to your watercolours.

Product code	Description	MOQ	PQ	RRP
XCFIM75	Iridescent Medium - 75ml	1	3	£6.75

Watercolour Auxiliaries

Art Masking Fluid - by Daler Rowney

Used to create striking highlights or areas for over-painting at a later time. Forms a fast drying water-resistant film on watercolour paper or board, easily removed when dry by rubbing with an eraser, soft tissue or cotton bud.

Product code	Description	MOQ	PQ	RRP
XDAAMF75	Art Masking Fluid - 75ml	1	6	£6.75

Gum Arabic Solution - by Daler Rowney

Improves the gloss and transparency of watercolours.

Product code	Description	MOQ	PQ	RRP
XDAGAS75	Gum Arabic Solution - 75ml	1	6	£6.75

Ox Gall Solution - by Daler Rowney

Improves the flow of watercolour. Only add a few drops to the mixing water.

Product code	Description	MOQ	PQ	RRP
XDAOGS75	Ox Gall Solution - 75ml	1	6	£6.75

Paper Varnish - by Daler Rowney

A clear varnish ideal for prints, maps, decoupage and other papercrafts. The intensity of the gloss depends on the type of paper - the more absorbent the paper the lower the gloss finish.

Product code	Description	MOQ	PQ	RRP
XDAPV75	Paper Varnish - 75ml	1	6	£6.75

Poster & Watercolour Varnish - by Daler Rowney

Apply one coat for a gloss surface on watercolours, poster or gouache painting and designs.

Product code	Description	MOQ	PQ	RRP
XDAPWCV75	Poster & Watercolour Varnish - 75ml	1	6	£6.75

Watercolour Auxiliaries

Humbrol Maskol

A rubber solution which can be applied to surfaces to prevent them being painted. Maskol dries in 15-20 minutes and then can be painted over. When the paint has dried, the Maskol can simply be peeled off or rubbed off with a damp cloth.

Product code	Description	MOQ	PQ	RRP
HHKM28	Humbrol Maskol - 28ml	1	6	£3.99

Pebeo Drawing Gum (Masking Fluid)

This removable liquid frisket for watercolour and airbrush is water soluble when wet, but dries waterproof. Drying takes about 15 minutes depending on quantity used and surface. Apply with a brush, colour shaper or pen on parts of the design to hide. The colouring is done after complete drying of the Drawing Gum. To discover the parts that have been hidden, simply remove the Drawing Gum with a finger or an eraser, when the colours are perfectly dry.

Product code	Description	MOQ	PQ	RRP
XPADG45	Pebeo Drawing Gum - 45ml	1	5	£3.50

Art Masque Pen

The Masque Pen draws straight lines or curves, thick or thin lines, small dots, stamens, snowflakes, flowers. No mess, no waste. The pale blue water-based latex solution is easy to see and apply. It peels off easily and does not damage the paper. Can be used both under layers and on top of inks, watercolours and acrylic washes.

No more ruined paint brushes. No more hunting for an applicator. The stainless steel prong in the cap seals the 0.8 mm nylon nib so the fluid won't dry out. Comes in a lightweight 30ml (1oz) non-breakable bottle to go anywhere.

Product code	Description	MOQ	PQ	RRP
XCQAMP	Art Masque Pen - 30ml	1	6	£8.85
XCQAMPR	Art Masque Pen Refill - 30ml	1	6	£5.95
XCQAMPS	Art Masque Pen 0.5 Supernib	1	6	£6.75

Watercolour Auxiliaries

Brush Tip

Silicone Tip

Masking Fluid Applicator - by Colour Shaper

This double ended tool has a no.2 silicone tip, perfect for applying masking fluid and a high quality nylon brush at the other end, offering the artist even more flexibility from a single tool.

Gouache Colours

Designers' Gouache 14ml - by Winsor & Newton

Winsor & Newton Designers Gouache is a range of opaque watercolours, used by designers, illustrators and commercial artists to create vibrant illustrations.

With 82 colours, chosen for their colour bias (undertone), colour strength and relative opacity, the range includes bright and lightfast colours.

All Designers Gouache colours are fully intermixable and an opaque watercolour can be used with Winsor & Newton watercolours for a matt, flat colour effect.

The opacity of Designers Gouache is due to the exceptionally high levels of pigmentation in the formulation, which results in both covering power and clean colour mixing. The natural attribute of each pigment adds to the level of opacity and contributes to covering power.

As a result of the high level of pigmentation and the Gum Arabic binder, Designers Gouache dries to a matt finish. This reduces reflection when photographing gouache art work.

Gouache Colours

Designers' Gouache 15ml - by Daler Rowney

Designers' Gouache is a brilliant, opaque, artist-quality body colour, developed for professional designers working on illustrations for graphic reproduction. It is also widely used in fine art painting, both on its own and with transparent watercolours.

The high-quality pigments and reflective qualities of the fine calcium carbonate specified by Daler-Rowney ensure that Designers' Gouache retains its pure bright colour across all the glowing shades in the range.

Designers' Gouache is characterised by its fine flowing texture, tinting strength and excellent covering power. Apply with confidence, using a brush, ruling pen or airbrush.

Ready Mix Poster Paint

Ready Mix Poster Paint - by Scola

Scola Artmix Ready Mixed paint is wheat and gluten free, washing off children and most fabrics.

This paint may be used straight from the bottle or diluted to give a fabulous, rich colour lay down. The colours are fully intermixable with other Artmix colours or PVA to achieve a glossy finish. Dries to a matt finish.

Non-toxic, safe for children over 3 years of age.

Inks for Calligraphy

Drawing Inks 14ml - by Winsor & Newton

Winsor & Newton drawing inks are formulated from a series of soluble dyes in a superior shellac solution. They can be applied with brush, pen or airbrush. The range comprises 26 colours including Liquid Indian Ink, a solution of traditional Chinese stick ink, which is not water resistant.

The drawing inks allow overlaying of different colours for attractive colour mixes. All the colours are water resistant except Liquid Indian Ink, Gold and Silver. All the colours are intermixable. Gold and Silver should be added to other inks in small quantities to avoid thickening. Mixtures of Gold and Silver should not be stored together due to an adverse chemical reaction.

Inks for Calligraphy

Calligraphy Ink - by Winsor & Newton

These inks have been formulated with carefully chosen pigments to ensure maximum colour brilliance. Single pigments have been used where possible to enable clean colour mixes.

14 colours (blue capped bottles) are suitable for dip pens, fountain pens, technical pens and airbrushes. These colours are transparent, thinner in formulation, fully intermixable and have a satin finish. Four colours (red capped bottles) are thicker, opaque and should be used with a dip pen or brush. This also applies to any mixtures using these colours. The black and white inks have a matt finish.

Winsor & Newton Calligraphy Inks have a permanence rating of AA or A, but are not waterproof.

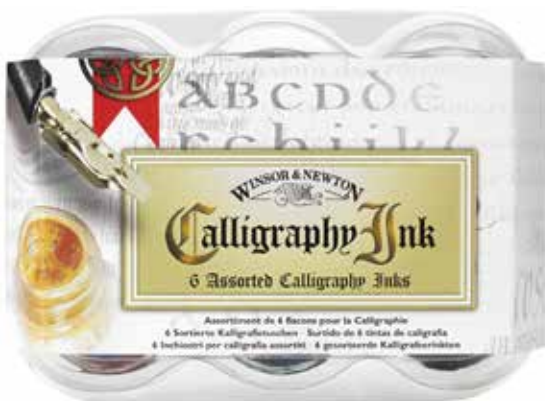

The Inks are non-clogging and have good flow characteristics when used in fountain or dip pens. We recommend that you test the inks with your chosen pen to ensure optimum performance.

Product code	Description	MOQ	PQ	RRP

Higgins liquid pen cleaner removes dried waterproof ink from pens, lettering instruments and brushes in an instant.

Product code	Description	MOQ	PQ	RRP
UWAHPC	Pen Cleaner - 2.5oz	1	12	£8.25

Inks for Calligraphy

Calli Ink - by Daler Rowney

Calli is an acrylic-based range of pigmented, water-resistant inks, designed specially for use in calligraphy, where optimum flow characteristics from the pen or brush are essential. They are non-clogging.

Calli Inks have excellent colour strength and are produced in a range of six colours. Each colour is fully intermixable with the others. Should the inks become dry in the pen or on the nib they can be cleaned with airbrush cleaning fluid.

Kandahar Black Ink - by Daler Rowney

Kandahar Ink is a brilliant light-fast colour that flows easily from pen, brush and airbrush. Ideal for line drawing, manuscript and design work.

Product code	Description	MOQ	PQ	RRP
JDAKAN28	Kandahar Black Ink - 28ml	1	6	£5.50

Drawing Inks

Indian Ink - by Creative House

Creative House Indian Ink is suitable for drawing, calligraphy and airbrush work. It is based on highly lightfast pigment and shellac, giving an attractive deep black result through a maximum pigment concentration. Can be thinned with water. Waterproof once dry.

Suitable for many types of grounds such as drawing paper, layout paper, board, polyester film and tracing paper. Can be applied using drawing pens, airbrush, brush or waterbrushes.

- Ideal for technical drawing and dip pens.
- Can be diluted with water or intermixed with other colours.

Product code	Description	MOQ	PQ	RRP
JCAII600	Indian Ink - 600ml	1	3	£15.99
JCAII250	Indian Ink - 250ml	1	3	£8.99
JCAII28	Indian Ink - 28ml	1	6	£3.25

Acrylic Inks

FW Pearlescent Ink - by Daler Rowney

These acrylic based inks are water soluble when wet but dry to a water resistant film, producing a shimmering pearl effect. Ideal for artists, card makers and calligraphers as the colours can give a raised letter appearance. Not suitable for airbrushes.

Product code	Description	MOQ	PQ	RRP

Acrylic Inks

FW Artists' Acrylic Ink - by Daler Rowney

FW Artists' Ink is an acrylic based pigmented water resistant ink in a range of 30 colours, giving a high degree of light fastness. Colours can be substantially diluted to achieve subtle tones, very similar to watercolour. Such washes will dry to a water resistant film and successive layers can then be made. This ink works well through airbrushes, technical pens (except metallic colours), dip pens, ruling pens and brushes.

Product code	Description	MOQ	PQ	RRP
JDAFW***	FW Artists' Acrylic inks 29.5ml (38 Colours)	1	3	£5.75

When specifying the colour, quote the colour number after the code.

Scrapercraft Accessories

A high quality product, hand made to the highest specification for over 40 years, used extensively by illustrators all over the world. All scraperboard materials provide an extremely high level of contrast which is difficult to obtain with wet materials, and can be reproduced with confidence. Black surface on blank white sheet.

No. 1 cutter
Gives medium to fine lines.

No. 2 cutter
Gives medium to broad lines.

No. 3 cutter
Useful for producing small dots and circles when spun vertically between the fingers to lightly drill the surface.

No. 4 cutter
For clearing large areas and broad single shapes.

Acrylic Paint for Craft

Crafter's Acrylic - by DecoArt

Crafter's Acrylic is a high quality, economical acrylic paint for craft projects. Designed to brush out smoothly and evenly, it covers in 1 or 2 coats. It is versatile and can be used in general arts and crafts, stenciling, ceramics, school projects, home decorating, and decorative painting. There are 108 colours, so the spectrum and possibilities are endless.

The paint can be used on:

Wood • Papier mache • Fabric • Plaster • Clay pots • Ceramic bisque • Candles
Canvas • Resins • Polymer clay • Styrofoam • Posterboard • Paper • Tin • Cards
Gift bags.

The Features and Advantages:

Colours can be intermixed • Brushes on smoothly and evenly • Basecoating is quick and easy • Consistent two-coat coverage • Permanent • Lightfast pigments
Non-toxic • Soap and water clean-up • Made in the USA • Fast drying

Additional Decorating Ideas:

Create a fabric paint by mixing with Fabric Medium to create a washable fabric paint for decorating fabrics. Once painted, allow to dry 24-48 hours. Heat set. Create crackle finishes by painting a basecoat of Crafter's Acrylic and then applying Weathered Wood. Then paint a contrasting color of Crafter's Acrylic over the Weathered Wood. For air brushing, thin with 30% water. For stenciling, use Crafter's Acrylic as is. Apply with a stencil brush or other preferred stenciling technique.

Acrylic Paint for Craft

Dazzling Metallics - by DecoArt

Dazzling Metallics is an acrylic paint made from finely ground metal flakes. These flakes make Dazzling Metallics the brightest, best covering paint for adding metallic accents to most projects. Dazzling Metallics are available in a palette of bright, glimmering colours from delicate translucent pastels to deep rich, shades and can be used on virtually any craft surface, like frames, lamps, vases, figurines, candles and candle holders, and fabric. The paint is water-based and non-toxic.

Acrylic for Craft

Americana Decor® Chalky Finish - by DecoArt

Quickly and easily refurbish flea market finds with Americana Decor® Chalky Finish paint. This ultra-matte chalk paint requires no priming or sanding before using. No special skills required to achieve looks from shabby chic to bohemian modern. Customize with waxes or varnishes to finish and protect the paint surface. Americana Decor wax does not need to be reapplied to upkeep the protective finish.

Features:

- Ultra-matte, chalky finish. Water-based for easy clean-up
- Available in 29 vintage, intermixable colors
- No priming or prep needed. Adheres to even the slickest surfaces
- Easier to distress than other acrylic paints
- One-coat coverage with most colours on most surfaces
- Durable due to unique cross-linking feature of paint resin system
- Made in the USA

Mediums for Craft Painting

Weathered Wood - by Americana (formerly Crackle Medium)

Weathered Wood is a crackling medium which, when used with Americana Acrylics or Crafter's Acrylic, will achieve an aged, cracked, antiqued or distressed wood finish on most hard craft surfaces.

Painting surfaces are:

Wood • Papier mache • Plaster • Ceramic bisque • Cardboard • Paper • Resin

Features and Advantages:

Dries quickly • Once the crackling process is completed, no further cracks will appear and the finish will not lift off after it is sealed. • Can be brushed onto almost any surface that will hold acrylic colour • Can be antiqued and varnished
Non-toxic.

Product code	Description	MOQ	PQ	RRP
ADGCM59	Weathered Wood - 59ml	1	6	£2.89

Fabric Medium - by DecoArt

Fabric Painting Medium, when mixed with acrylic paint, produces a washable, permanent paint for fabrics. It improves penetration and bonds to the fabric while helping to prevent cracking, peeling, and fading. Fabric painting medium is suitable for clothing and home décor fabric projects.

Painting Surfaces:

Denim • Polyester-blend fabrics • Cotton fabrics

Features and Advantages:

Improves adhesion of acrylic paints • Washable • Will not dilute the colour
Will not flake, crack, peel, bleed or fade • Non-toxic

Product code	Description	MOQ	PQ	RRP
ADGCA59048	Fabric Medium - 59ml	1	6	£2.65

Pearlizing Medium - by Americana

Pearlizing Medium, when mixed with acrylic paints, gives a pearl look to home decor accessories, jewellery, and holiday decorations such as ornaments and Easter eggs. Pearlizing Medium must be mixed with the paint appropriate for the chosen surface.

Painting Surfaces:

Wood • Canvas • Styrofoam • Resins • Polymer clay • Walls • Candles • Tin
Plaster • Ceramic bisque • Papier mache • Poster or watercolour paper

Helpful Hints:

Mix 1:1 or 2:1, depending on desired pearl intensity.

Use Pearlizing Medium straight from the bottle to add shimmering highlights to artificial flowers, fruits, etc.

Product code	Description	MOQ	PQ	RRP
ADGPG59	Pearlizing Medium - 59ml	1	6	£2.89

Mediums for Craft Painting

Varnishes - by Americana

A brush-on, tough, flexible, clear finish. This is a non-yellowing polyurethane varnish suitable for both exterior and interior. Brush-on polyurethane, non-yellowing varnishes form a tough, flexible, clear finish that dries quickly. Can be used on most hard craft surfaces, both interior and exterior. Available in gloss and matt.

Painting Surfaces:

Wood • Plaster • Tin • Resins • Ceramic bisque
Papier mache • Terra cotta • Plastic

Features and Advantages:

Durable, non-yellowing, non-toxic.
Brush strokes won't show
No smelly fumes
Clean up with soap and water
Can be used for decoupage.

Product code	Description	MOQ	PQ	RRP
ADGGV59	Gloss Varnish - 59ml	1	6	£2.65
ADGMV59	Matt Varnish - 59ml	1	6	£2.65

Triple Thick 59ml & 118ml

Triple Thick Gloss Glaze is ideal for adding a glazed ceramic look to a variety of hard craft surfaces. Because it is extra-thick, only one coat is needed for most surfaces.

Painting Surfaces:

Wood • Wicker • Plaster • Papier mache • Resins • Painted china
Pre-primed meta • Pinecones • Jewellery • Bisque • Artificial Flowers

Features and Advantages:

Goes on smoothly with no stroke marks and adds the illusion of depth. Creates a glazed ceramic look.

Product code	Description	MOQ	PQ	RRP
ATG01-3	Triple Thick Gloss Glaze - 59ml	1	6	£2.50
ATG01-10	Triple Thick Gloss Glaze - 118ml	1	3	£3.99

Americana Fabric Stiffener 236ml

Americana Fabric Stiffener quickly shapes and stiffens silk flowers, needlework, appliques, lace, fabric bows, doilies and more. It gives fabric projects a lasting, hard finish that dries clear.

Product code	Description	MOQ	PQ	RRP
ADS113-64	Fabric Stiffener Americana - 236ml	1	6	£6.99

Mediums for Craft Painting

Luminous Paint

Glo-It paint contains particles that absorb light and allow the paint to glow in the dark. Glo-It can be used to create high energy glow-in-the-dark effects on fabric and craft surfaces.

Painting Surfaces:

Fabric • Wood • Plastic • Paper • Styrofoam • Candles • Walls
Pumpkins • Ceramic bisque

Features and Advantages:

Non-toxic • Permanent • Washable • Recharges with exposure to light
One-step application

Fishing Floats.

Paint stars and moons on the ceiling of a child's room with Glo-It. Add glow-in-the-dark features to Halloween costumes as a safety feature, to make them easy to see in the dark. Ideal for light switches, to mark children's clothing or to add a luminescent effect to craft projects. May be used alone or mixed 1:1 with light, transparent acrylics.

Specialty Decou-page - by Americana

The Americana Decou-Page™ family is three products in one. This versatile line can be used as a glue, sealer and finish. It is low-odour and dries quickly to a clear, hard and durable finish. There is a Decou-Page product for every craft situation whether it be photographs or outdoor terracotta pots. All specialty Decou-Page available in 8-oz wide-mouth jars.

Photo Transfer Medium 236ml

Transfers black and white or color copies to wood, glass, plastic, fabric, and more. Ideal for use with laser copies.

ADS112-64

Dishwasher Safe 236ml

Dishwasher Safe Decou-Page provides an extremely durable, glossy finish which is top rack dishwasher safe. This indoor/outdoor decoupage provides excellent adhesion to slick surfaces such as glass, making decoupage projects practical and not just decorative.

ADS132-64

Outdoor 236ml

Outdoor Decou-Page has a water-resistant, gloss finish and will protect outdoor projects from the elements. It is ideal for use on terracotta, wooden birdhouses, stone pavers, tin, slate, wall art and more.

ADS117-64

Crystal Glitter 236ml

Crystal Glitter Decou-Page adds sparkle to any project. It contains ultra-fine, iridescent glitter flakes for a subtle, sparkling accent. Multiple coats will produce even more sparkle and shine.

ADS120-64

Antique 236ml

Antique Decou-Page has a matte finish and is the perfect formula for achieving a vintage, aged look. The subtle brown tint easily transforms craft and home décor projects into heirlooms. The more coats applied, the more intense the aged appearance will be.

ADS121-64

Fabric 236ml

Fabric Decou-Page has a matte finish that blends seamlessly into fabric. It is also great for preparing fabric to decoupage to other surfaces because it prevents edges from fraying and is machine washable.

ADS116-64

Paper 236ml

Paper Decou-Page has a matte finish and is great for paper crafters and scrapbookers since it was formulated to be acid-free to prevent photos and papers from yellowing over time.

Fabric Paints

DecoArt SoSoft Ultra-soft Fabric Paint

SoSoft Fabric Paints are supersoft fabric paints which are opaque and give excellent coverage and washing durability on fabric. They are soft and flexible, like fabric dyes, but do not require the addition of a medium or heat setting. SoSoft Fabric Acrylics are permanent and can be brushed, stamped, sponged, or stenciled on.

Painting Surfaces:

Clothing
Lampshades
Pillows
Bed linen
Curtains
Quilts
Sneakers/canvas shoes
Fabric purses and totes

Features and Advantages:

Excellent coverage
Need no heat setting or medium
Need no special brushes
Non-toxic
Colours dry soft and permanent.
Bonds to most fabrics, even silks
Can use for silk painting
Soap and water clean-up

Additional Decorating Ideas/Applications:

Thin SoSoft Fabric Paint with water or transparent medium for translucent paint.

For silk painting: Wash and dry fabric. Lay a paper towel under the layer of silk to be painted. Apply SoSoft Fabric Paint as desired. Moisten the brush with water for detail and line work. No resist medium is necessary. Remove paper towel and allow 24 hours for paint to cure.

It is the ideal paint for quilters because it doesn't gum up the needles. SoSoft paint becomes part of the fabric when applied correctly. Apply the Transparent Medium onto the fabric. Then wet on wet, apply the paint to the wet area. By corner loading the brush you can achieve three values of colour: light, medium, dark values with a very small amount of pigment. Therefore, you reduce the amount of highlighting and shading on fabric and avoid paint build-up. The heavier the paint is applied the more washings it takes before the paint softens. Paint will be soft once dry. The paint colours are bold and can be blended together while keeping the quilt supersoft.

For watercolour technique:

Use a spray bottle filled with cool water to dampen an area slightly larger than the paper. Do not dry clean.

Glitter Paint

Glamour Dust Glitter Paint

Deco Art Glamour Dust Paint is a premium all-purpose, ultra-fine glitter paint that adds subtle sparkle and shimmer.

Painting Surfaces:

Wood • Canvas • Paper • Terra cotta • Unglazed Ceramic • Styrofoam • Most porous surfaces

Features and Advantages:

- Ultrafine elegant appearance
- Easy to brush and apply
- Great sparkle and shimmer
- Eliminates sprinkle-on glitter mess
- Base dries clear
- Safe and non-toxic
- Waterbased
- Soap and water clean-up while wet

Helpful Hints:

Easy to use brush-on formula. Shake well. Apply 2-3 thin even coats as desired - allow to dry between coats. Apply over a similar Americana colour for a more intense shimmer. Shorten dry time by using a fan or hairdryer on low setting.

Fabric Paints

The Shimmer colours are sparkling tints that give subtle glints of light which change with the movement of the light.

Setacolor Opaque - by Pebeo

Setacolor is a range of concentrated heat fixed colours for decorating fabrics. Particularly vivid and bright, Setacolor colours can be used to paint, stain or print natural or synthetic fibres. After fixing with an iron, they are perfectly resistant to washing and dry cleaning and the fabric retains all of its suppleness.

Setacolor colours can be used on all fabrics, fine or heavy: cotton, wool, velvet, non-woven and even leather. Ready to use, intense and concentrated, they can be used pure, or diluted with water to obtain watercolour effects.

Dylon Hand Dyes

DYLON Fabric Dyes for hand use are perfectly suited for smaller items like shorts, vests or socks, and for delicates you would rather not put in a washing machine like wool and silk. There are a rainbow of beautiful colours to choose from, and whether refreshing an army of black socks or adding uplifting hit of colour with vibrant tights you can be sure of beautiful colour and permanent results you will be happy to show off. Choose from our range of 24 colours.

DIRECTIONS

1. Weigh dry fabric. Wash thoroughly. Leave damp
2. Using rubber gloves, dissolve dye in 500ml warm water
3. Fill bowl/stainless steel sink with approx 6 litres warm water (40°C)
4. Stir in 250g (5tbsp) salt. Add dye and stir well
5. Submerge fabric in water
6. Stir for 15 mins, then stir regularly for 45 mins
7. Rinse fabric in cold water. Wash in warm water and dry away from direct heat and sunlight

HELPFUL HINTS

- Needs 250g salt
- 1 pack dyes up to 250g fabric (e.g. shirt) to full shade or larger amounts to lighter shade
- Suitable fabrics: Cotton, linen and viscose. Wool, silk, polyester/cotton and polyester/viscose mixes will dye to lighter shade
- Not suitable: Pure polyester, acrylic, nylon and fabric with special finishes
- Wash separately for first few washes to remove any excess dye
- Please note. Colour mixing rules apply (e.g. blue on red gives purple)

MICROWAVE DYING

- Hand dye can be used in a microwave to create special effects.
- For cotton, linen, silk and polyester/cotton mixes only.
- Micro-Dyeing is not suitable for wool, viscose or synthetic fabrics.
- DO NOT USE ON VISCOSE, AS FABRIC CAN GIVE OFF HARMFUL FUMES.
- Remove all metal on fabric (zips, studs, etc).

HOW TO USE

1. Wash the fabric and leave damp.
2. Select a special effect and prepare the fabric by scrunching, knotting, twisting or folding – tie all fabrics tightly.
3. Wearing rubber gloves, empty the dye carefully into the bowl and gradually add 250 ml / ½ pint of hot water. Stir thoroughly to ensure dye is dissolved. Add a further 250 ml / ½ pint of water.
4. Place the fabric in the bowl and work into the dye.
5. Put the bowl into a plastic bag or plastic wrap and place in the microwave. Set on high for 4 minutes.
6. After 4 minutes remove the bowl from the oven – remember to protect hands from the heat.
7. Tip away the dye solution and rinse the fabric in cold water. To protect the pattern do not undo any knots, twists, or folds., until the water runs clear.
8. Rinse, wash and dry as for the hand method.

Fabric Painting

Dylon Machine Dye

From all colours bright and beautiful to rich and intense shades, with Dylon Machine Dyes there are 25 colours to choose from. If you feel like a change, you can wake up your wardrobe, revive a faded top or brighten some cushion covers with colour and ease. With our innovative formulation you no longer need to add salt so it is even easier to add some colour to your world.

DYLON Machine Dyes come with full instructions. The shade you achieve will depend on 3 things:

1. FABRIC TYPE

- Cotton, linen and viscose will dye to full shade
- Polyester/cotton and polyester/viscose mixes will dye to lighter shade
- Wool, silk, polyester, acrylic, nylon and fabric with special finishes e.g. 'dry clean only,' cannot be dyed

2. FABRIC AMOUNT

- One pack will dye up to 600g of fabric (e.g. jeans, bath towel, double sheet) to the full shade and up to 1.2kg of fabric (e.g. double duvet) to lighter shade
- Multiple packs will dye larger amounts to full shade, e.g. 2 packs for 1200g (e.g. double duvet) or 4 packs for 2kg (e.g. curtains)

3. ORIGINAL FABRIC COLOUR

- You can change one strong colour to another (or dye it to a lighter shade) by using DYLON PRE-DYE which lightens before you dye, ready for colour change.
- Otherwise colour mixing rules apply, e.g. blue dye on red fabric gives purple
- Patterned fabric will often still show through.

Fabric Painting

Dylon Fabric Paint

Unlike other fabric paints, DYLON remains soft even when dry, and is easy to use. You don't need to be an artist to create fantastic designs. Just use a stencil, a paintbrush or even a stamp. Whatever you decide, just iron once dry for a design which will last as long as your T-shirt.

Instructions

- Suitable for all washable fabrics.
 - Gives permanent colour.
 - All paint colours are fully intermixable.
 - Fabric returns to original softness after washing.
 - Dylon Fabric Paints are available in three different effects: Standard, Metallic and Colours for Dark Fabrics.
1. Wash and dry chosen garment.
 2. Place a protective backing underneath the design area.
 3. Shake bottle. Paint onto fabric using a soft brush.
 4. Allow to dry.
 5. To fix the colour, cover the painted area with a clean cloth and iron on a very hot setting for 1-2 minutes. Fix between layers if you painting more than one coat.
 6. The fabric returns to its original softness after washing.

Tips for using Fabric Paints:

- The basic colour range works best on light coloured fabrics. If using on dark fabrics, apply one or two layers or white paint first, fixing between each layer.
- The 'Fabric Paints for Dark Fabrics' are especially formulated to give bright colours on dark fabrics.
- Metallic colours give excellent results on both dark and light-coloured fabrics.
- For an unlimited range of lighter shades mix with white paint.

Fabric Painting

Dylon Fabric Painting Pens

These chisel nib marker pens are excellent for illustrations on natural and synthetic fabrics. Iron to fix.

Instructions

1. Wash and dry chosen garment.
2. Place a protective backing underneath the fabric.
3. Draw your design and leave to dry.
4. To fix the colour, cover the designed area with a clean cotton cloth and iron on a very hot setting for 1-2 minutes.

Tips for using Fabric Pens:

- For fine outlines pin the fabric so it is stretched taut.
- The shaped tip gives variable line widths for colouring and detail work.
- Practice first on a spare piece of fabric.
- For best results use on light-coloured fabrics only.
- Store in a horizontal position.

Fabric Painting

Pebeo Setaskrib+ Fabric Markers

Pebeo Setaskrib+ Fabric Markers are perfect for T-shirt painting or making a custom tea towel, with a selection of 18 colours to choose from including 6 fluorescent shades. They have a lovely brush tip to draw and write with.

All of the colours in the Pebeo Setaskrib+ range offer excellent brightness and transparency, can simply be used straight onto fabric, left to dry and then cured with a hot iron to get a fully customised, washable fabric.

Used in conjunction with Pebeo Setacolor and Pebeo Setasilk, you can achieve a wide range of effects.

Instructions

SURFACES: for application on most fabrics.

SETTING: 5 minutes on the reverse side of the fabric using an iron on a cotton setting. No steam.

DRYING TIME: air dry for 2 hours.

WASHING THE DECORATED PIECE: 48 hours after fixing, the colours are resistant to hand washing and machine wash up to 40°C (100°F).

STORAGE: Store flat away from cold and heat.

Pentel Fabricfun Pastel Dye Sticks

Fabricfun will bring colour into you wardrobe. Paint or decorate almost any kind of fabric with Fabricfun crayons. Design individual products such as cloth, bags or pillow covers with a few strokes which can easily change a pattern or add colour. Crayons can be used to touch up faded colours on furniture and clothes. If you are unhappy with a design, just wash the material and start again. Once the colour is fixed with an iron it will be permanent and will not fade.

We recommend bright fabrics made from cotton, silk or linen. The colours will complement every kind of natural, absorbent fabric.

Product Features:

Handy crayons for fabric

Length: 60mm, Diameter 8mm

Acid-free

Available in two box sizes (7 or 15 crayons per box)

Ideal for creating bright, eye catching designs on natural, absorbent fabrics

Colours can be washed out as long as they haven't been fixed

To make permanent place a tea towel over design and press with a hot iron.

NAQBC350.5	Brass Cup Tjanting Tool 35mm Diameter 0.5mm Nozzle	1	6	£11.99

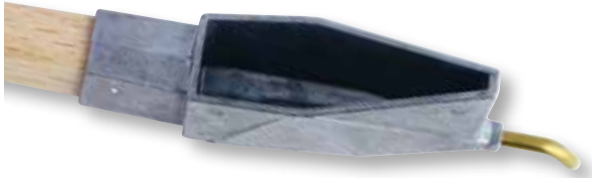

Abig Tjanting Tools are used for applying wax to fabrics. Made of cast brass the spherical bowl keeps the wax liquid. The moment the spout touches the working surface, the wax will flow, preventing the wax from dropping onto undesirable places. The 1 mm-spout results in middle-fine lines.

Technical information:

- Brass wax bowl, spherical, Ø 25 mm,
- Die-cast-aluminium spout, curved, Ø 1mm
- Beechwood handle - polished
- Total Length: approx. 215 mm
- Weight: 24g

Batik Wax & Accessories

Abig Aluminium Tjanting Tool

This larger capacity Tjanting Tool is ideal for working on large batik designs where larger quantities of wax are required. Light weight and moderately priced.

Technical information:

- Small can - die cast aluminium tjanting
- Elongated shape - 50x15x24 mm
- Curved spout Ø 1.0 mm
- Total length: 200 mm
- Weight 30g

Silk Painting

Pebeo Setasilk Diluent

Allows the creation of clearer tones without reducing the quality of the colour or making it more fluid.

Product code	Description	MOQ	PQ	RRP
NPASS4530	Pebeo Setasilk Diluent - 45ml Lightening Medium	1	5	£4.45

Pebeo Setasilk Kit

Product code	Description	MOQ	PQ	RRP
NPASSDC	Discovery Collection Kit	1	4	£9.95

Contains 6 x 20ml assorted bottles.

Silk Painting

Pebeo Setasilk

Setasilk is used as a traditional colour and used on all types of silk including twill, pongee, crêpe de chine, georgette and damask. Very easy to use, fixed by simply ironing. Setasilk colours can be used for all silk painting techniques such as outlining, salt dusting, watercolour on dry or damp silk, crackling wax or drawing wax batik and mahaju. The Setasilk thinner can be used to lighten shades. Setasilk colours can be mixed with each other.

- **Diluent:** Setasilk thinner.
- **Cleaning the tools:** soapy water.
- **Surfaces:** all types of silk.
- **Drying:** air dry in few minutes.
- **Fixing:** 3 to 4 minutes on the reverse side of the fabric with a hot iron.
- **Caring:** 48 hours after fixing, colours resist to hand washing and dry cleaning.

Product code	Description	MOQ	PQ	RRP
NPASS45**	Pebeo Setasilk - 45ml	1	5	£4.45

When specifying the colour, quote the colour number after the code.

09 Plum	19 Moss Green	29 Ebony
10 Iris Violet	20 Caramel	

Silk Painting

Water based gutta has a thick texture which stops Setasilk colours from flowing out.

- No need for dilutant
- Cleaning the tools: soapy water
- Surfaces: all types of silk
- Drying: air dry in 30 minutes
- Fixing: 3 to 4 minutes on the reverse side of the fabric with a hot iron
- Curing: 48 hours after fixing, resistant to hand washing and dry cleaning

Pebeo Water Based Gutta

Thick-textured water-based Setasilk guttas, can be used for outlining. Pearllized, they are applied directly with a tube or an applicator bottle. They pass perfectly through the fibre of the fabric and stop Setasilk colours, which can be then applied. Once fixed with an iron, water based guttas resist washing except for the clear gutta, which is especially formulated to be removable by washing.

Product code	Description	MOQ	PQ	RRP
NWFTM60	Fibreglass Tape Measure With Brass Tips - 60"	1	10	£1.50

Marbling Inks

Marbling Ink - by Pebeo

Marbling is a method of decorating paper or fabric through the manipulation of floating colours. Colour is applied to the surface of a thickened liquid and fashioned into artistic patterns. Paper or fabric is then briefly laid down upon the surface to print. The paint adheres upon contact and the design is transferred.

Pebeo Marbling consists of 9 colours and 1 thickening powder to carry out the art of marbling easily on fabric, paper or any other light base. The technique of marbling used with Pebeo colours is a simplified and modernised bath technique.

Preparation of the bath

Sprinkle 2 heaped tablespoons of thickener into 1 litre of cold water. Mix vigorously with a beater and then allow to stand for at least 2 hours. Next, spread a layer of gel 1 to 2 cm thick into a flat tray or a container larger than the objects to be painted.

Carrying out marbling

Using a dropper, carefully place the selected Marbling colours on the surface of the bath. Let the drops spread for a few seconds before working them with a wooden stick, to get various patterns and marblings.

When the marbling is complete, gently place the side of the fabric or the paper to be painted, on the surface of the coloured bath. Leave it lying for 10 to 15 seconds before pulling it out. Quickly rinse it under running water to remove the excess of gel. Put the painted base on a flat surface and allow to dry before fixing by ironing if necessary.

Glass Painting

Pebeo Vitrail

Pébeo's Vitrail colours are applied with a brush to all carefully degreased transparent surfaces - glass, acetate, polyester, plexiglas. The 26 Vitrail colours are dense, very transparent and air drying. The decorated surface has good hardness.

To imitate stained glass, use the Vitrail colours with the Cerne Relief outliners. They are applied directly from the tube with nozzle before applying the Vitrail colours. Vitrail colours may also be used with the bath technique.

Vitrail paints can be mixed together for intermediate shades. Use lightening medium to produce a more transparent appearance or glitter sparkling medium or crackling kit for special effects.

Vitrail colours are transparent, intense and very bright. Solvent based colours can be mixed together. Good light solidity.

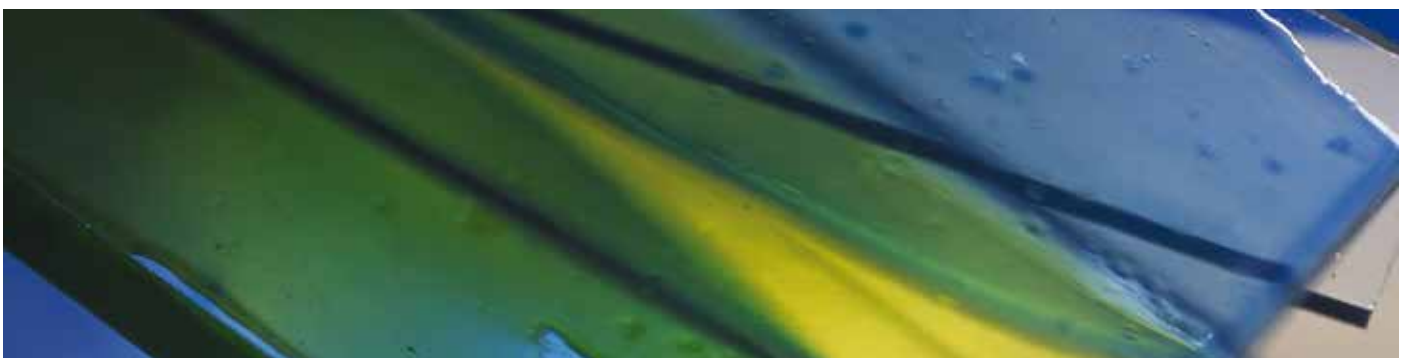

- Thinner: mineral spirit or white-spirit.
- Cleaning the brushes: mineral spirit or white-spirit.
- Surfaces: glass, polyester, acetate.
- Caring: once dry, colours stand a light wash, but not soaking. Resistant to glass cleaner

Product code	Description	MOQ	PQ	RRP

Glass Painting

Pebeo Vitrea 160

30 water based transparent colours and 5 shimmer shades for magnificent decorations on glass. Available in glossy or frosted, the Vitrea 160 colours combine professional quality and ease of use. After baking at 160°C (325°F) in a domestic oven, the depth of the colour is enhanced.

Colours can be mixed together, in gloss or frosted version, remarkably transparent and bright colours. Excellent lightfastness.

- Dilutant: Vitrea 160 thinner.
- Cleaning the brushes: soapy water.
- Surfaces: glass, crystal.
- Drying: tack-free in a few minutes, fully dry in minimum 24 hours.
- Baking: all colours in the range 40 minutes at 160°C (325°F) (steady temperature) in a domestic oven, after minimum 24 hours drying.
- Caring: remarkable resistance to use in dishwashers and to normal solvents and detergents.

Pebeo Vitrea 160 Mediums

An interesting range of mediums to be used with Vitrea 160 paint. These mediums must be baked in the oven to make dishwasher safe.

Thinners

Use Pebeo Vitrea 160 Diluant to thin down Vitrea 160 colours and make them more fluid without altering their technical characteristics.

Iridescent Medium

Add shimmer and sheen by adding Iridescent medium to any standard colour. You can also use by itself to create subtle effects.

Gloss Medium

Lightens colours and gives a gloss finish to paint. Used on its own, Pebeo Vitrea 160 gloss medium can create highlights.

Frosting Medium

Add opaqueness and a frosting effect by adding Frosted medium to any standard colour.

Product code	Description	MOQ	PQ	RRP
PPAV16050	Thinners - 45ml	1	5	£4.45
PPAV16051	Iridescent Medium - 45ml	1	5	£4.45

61 Paprika	66 Black
62 Pimento Red	67 Pearl
63 Turquoise	68 Gold
64 Lapis Blue	69 Pewter

Pebeo Vitrea 160 Markers

The Vitrea Marker is best when applied to glass or crystal but will work on other surfaces which can withstand a temperature of 160°C, such as porcelain, china, glazed earthenware, terra cotta, metal, enameled sheet steel and copper.

For best results, apply the marker directly to a clean base. Allow the colour to dry (minimum 24 hours) then place the decorated object in a cold oven. Allow the oven to heat to 160°C. Bake for 40 minutes. Remove after the oven has cooled back to room temperature. Colours have a real enameled look and resist dishwashing. To maintain the colour and texture, avoid abrasive cleaners and scouring pads. The Vitrea 160 marker is not recommended for surfaces which come into direct contact with food.

Product code	Description	MOQ	PQ	RRP
PPAV160M**	Pebeo Vitrea 160 Markers - Glossy / 9 colours	1	4	£3.95

88 Ink Black	98 Neutral

4Artist Markers

Pebeo 4Artist Markers

The 4Artist Marker pen is the multi-technique oil-based "paint marker" by Pébéo that will revolutionize your approach to the marker pen and to traditional painting!

The range is available in 18 colours in a glossy, highly pigmented finish which offers this range an excellent lightfastness across the chart. The 4 types of nib offer genuine versatility of use. They are ideal for applying on smooth and non-porous surfaces, they are quick-drying and the colour can be diluted even after several weeks to obtain shades, gradients and tones.

As a result of the special way it is formed, it will bring you a completely different vision of the oil technique (glazes, turpentine dilutions) retaining the properties of a paint marker (accuracy of the lines, colour overlays).

Lastly, the extremely versatile 4Artist Marker integrates perfectly with Mixed Media. In Vitrail paint, Prisme, Moon, Gédéo resin, acrylic, oil, ink: there are benefits to all combinations! Amateurs and enthusiasts have found their new favourite tool to reveal their work.

Ceramic Painting

Pebeo Porcelaine 150

Deep, brilliant colours with a superb enamelled look after baking. These water-based paints can be air dried for a decorative finish or baked in a domestic oven for a dishwasher resistant finish.

Porcelaine 150 can be applied to porcelain, earthenware and most bases which can withstand a temperature of 150°C (300°F). The choice of base and tools allows for producing numerous effects, transparencies and intensities of colours. Porcelaine 150 makes professional enameling available to all, with a generation of colours glazed by simply baking at 150°C (300°F) in any domestic oven.

In bottle, tube or marker, they can be mixed together, deep and glossy, transparent or opaque, with a superb enameled appearance after baking.

Stir the product with a mixing stick before use. Colours can be applied directly to a grease-free base, cleaned with alcohol or soap and water. After 24 hours drying, place the project in a cold oven. Once a temperature of 150°C (300°F) is reached, bake for 35 minutes. The colours then take on a real enameled aspect and become dishwasher resistant. Only surfaces which do not come in contact with food should be decorated.

HHKHSP150135	Satin Varnish - 150ml	1	6	£5.29

Hobby Paints

Crystal Clear - by Humbrol

An acrylic spray coating which goes on clear and stays clear. Humbrol Crystal Clear protects wood, metal, plastic, ceramic, fabric and paper surfaces permanently. Seals porous surfaces with a clear finish which will not yellow with age. Adds strength and water resistance - helps to prevent tarnish and rust.

Application: Aerosol spray. Spray light coats, allowing 5-10 minutes between each coat.

Product code	Description	MOQ	PQ	RRP
HHKCC150	Crystal Clear Coating - 150ml	1	6	£5.99

Enamel Tinlets No. 1 Size 14ml - by Humbrol

A solvent-based, fast-dry paint developed for use on plastic model kits but can also be used on wood, glass, ceramics, metal, cardboard, sealed plaster, sealed hardboard and more. Matt, satin, gloss, metallic, metalcote and clear finishes are available (finish varies by colour).

Coverage

14ml tin covers approx. 0.3m² depending on thickness of application. Brush straight from the tin or Airbrush with a suitable thinner such as Humbrol Enamel Thinners. Two thin coats are preferable to one thick coat. The usual thinning ratio is 2 parts paint to 1 part thinner. Note that Metalcote colours are designed to be polished when fully dry.

Drying time

Gloss: 1-2 hours

Matt & Satin: 20-40 minutes touch dry, up to 24 hours for hard dry.

Metallics: hard dry in approximately 10 days.

Recoat: 6 hours minimum - preferably overnight.

Enamel Washes 28ml - by Humbrol

Humbrol Enamel Washes are the perfect way to enhance models to the next level. Add effects such as grime, dust, rust to those areas exposed to the elements and general day-to-day wear and tear. Designed for a wide range of modelling subjects such as armour, vehicles, planes, figures, buildings, locomotives, wagons... the list is endless. Humbrol Enamel Washes can be mixed together to create additional shades to achieve the desired effect. The washes can be applied to Humbrol Enamel and Acrylic paints. If using non-Humbrol product we always recommend testing before applying to your model.

Maskol - by Humbrol

A rubber solution that can be applied to surfaces to prevent them being painted. When the paint has dried the Maskol can simply be peeled off.

Product code	Description	MOQ	PQ	RRP
HHKM28	Maskol - 28ml	1	6	£3.99

Decalfix - by Humbrol

A water-based solution for softening decals and securing them into position.

Decals are usually applied onto painted surfaces. Care should be taken to avoid silvering over matt paints.

Brush Decalfix on to decals or immerse decal in Decal fix for approx. 45 seconds or until softened. Slide off using a brush and dab dry with tissue paper. **Drying Time** 20-30 minutes. Do not force dry decals as they may crease or shrivel.

Product code	Description	MOQ	PQ	RRP
HHKDF28	Decalfix - 28ml	1	6	£3.49

Modelcote Clear Varnish - by Humbrol

A brush on solvent-based varnish that goes on clear and dries clear, overcoming the yellowing effect associated with traditional varnishes. The product dries to a smooth, high-shine gloss finish. Surface dry in 1 hour. Fully dry after 24 hours. Drying times will vary according to ambient temperature and humidity. Recoat after 24 hours.

Ageing & Cracking Products

Crackleglaze - by Applicraft

A water-based glaze, which when sandwiched between two coats of paint, causes the top layer to crack, revealing the base colour, giving a peeling effect. Ideal for applying onto decorative accessories eg: trays, boxes, frames, and small pieces of furniture.

Product code	Description	MOQ	PQ	RRP
HAECG125	Crackleglaze - 100ml	1	3	£7.50

Craquelure - by Applicraft

A simple water-based two part application, which produces an irregular crazed pattern on most decorated or non-porous surfaces to give the delicate effect of hairline cracks like old porcelain. The top coat can be applied either as soon as the base coat is dry or later – hours or days. Foolproof – anyone can do it.

Product code	Description	MOQ	PQ	RRP

Transfer Products

Lazertran Textile

This special paper allows the transfer of images using your computers inkjet printer. It must not be used with laser printers.

Printing: Print in mirror image mode onto the white side of the transfer paper.

Printer driver settings: Transfer paper mode, if available, if not, use normal paper mode using best quality. We recommend allowing the printout to dry for about 30 minutes before continuing to apply to fabric. Do not worry that the image may appear a little pale as the colours will be restored to their original brightness after application.

Preparation and Ironing:

1. Switch your iron high and pre-heat. Place the transfer paper with the image side down onto the fabric, which must be wrinkle free and pre-ironed.
2. Place a smooth cloth, for example, 2 or 3 kitchen towels or a folded pillowcase between the fabric and a flat solid surface such as a tabletop.
3. Iron the image onto the fabric by applying consistent circular pressure distributing the heat evenly.
4. Concentrate on using the centre of the iron during transfer, paying particular attention to the edges of the image. Do not use steam. Heat for 60-90 seconds for small images and 90-120 seconds for larger images.
5. Let the transfer paper cool then peel off the backing paper from one corner using steady firm and pressure.

If the image starts to pull away from the cloth iron a little more or increase the temperature of the iron.

To transfer more than one image ally them all but do not remove the backing sheets until you have finished applying all the images.

A heat press can also be used. Set the temperature to 160°C and press for approx 40 seconds.

Wash at max 40°C turning the garment inside out. Do not bleach and do not tumble dry.

Protect the image with kitchen parchment paper when ironing.

Product code	Description	MOQ	PQ	RRP
NLFTL	Lazertran Textile - 5 Sheets for White or Light Coloured Textiles	1	6	£15.99
NLFTD	Lazertran Textile - 5 Sheets for Dark Coloured Textiles	1	6	£15.99

Transfer Products

Lazertran Silk

A simple iron-on transfer for silk giving fantastic detail. It will not stiffen the silk around the image, allowing the cloth to flow naturally. Can also be used to put images on polymer clay, Fimo, Sculpey, etc and metal foil. There is not a temperature issue with Lazertran Silk as it does not have a decal and can be used in a laser printer.

Print image onto Lazertran Silk in reverse or mirror on the shiny side.

1. Iron silk flat. Habutai Silk works really well.
2. Lay silk over your image and iron until the silk is stuck to the image. Use a hot iron.
3. Place the silk in clean water, paper side down and leave until the paper falls off.
4. Lift the silk carefully from the water and lay face down onto a cloth. Allow the iron to cool and iron gently from the back to dry the silk.
5. When dry return the iron to hot, turn the silk over and place a sheet of baking paper/parchment, (not waxed or old-fashioned greaseproof), over the image.
6. Iron through the paper then allow to cool. Peel off. This method produces a beautiful result for surface pattern. The silk can be rinsed in warm water but will not take a vigorous wash.

Lazertran Waterslide Decal Paper - for Inkjet Printers

This special transfer paper allows you to transfer images using your computer inkjet printer. N.B. It is not suitable for transfer to cloth. For this use lazertran Inkjet Textile paper.

Printing

1. Print your image on the smooth, chalky white side of the paper. Do not use too much ink and click off any high speed options.
2. Allow to dry for 30 minutes.
3. Cut to size, soak in water until the decal releases, (about 60 seconds).

For smooth non-absorbent surfaces such as glass, ceramics, plastic and metals there is enough gum on the back of the decal to give good adhesion although a little alcohol (methylated spirits) on the receiving surface improves adhesion.

For more absorbent surfaces such as wood use the method below.

Using real turpentine to melt the decal to the surface.

1. Paint the wood etc with a good coat of real turpentine (white spirits or any substitute will not work).
2. Apply the decal onto the turpentine-painted surface image side upwards and carefully remove any air bubbles.
3. Leave to dry for several hours. The decal will dry with a white background.
4. To finish apply a few coats of any oil/spirit based varnish to protect and make the decal transparent.
5. If you wish the decal to remain white then apply and water-based varnish.

ADGCA59048	Fabric Medium - 59ml	1	6	£2.65

Gilding Materials

Liquid Leaf

Liquid Leaf is an easy-to-use way of adding an effective metallic finish to many surfaces or objects including carved and ornamental furniture, frames, mouldings, decorative ceilings, lamps figurines.

Liquid Leaf combines a red primer together with a film of lustrous metal particles pre-mixed into a single spirit-based liquid which creates a beautiful, vibrant finish with a brilliant sheen that resembles traditional gilded work.

To use simply shake the paint thoroughly to ensure the metallic particles are evenly distributed then apply. Liquid Leaf flows easily onto the surface with no brush marks, forming a beautiful, lustrous finish. It is so controllable that it can be used with striping brush or ruling pen for fine lines and scrolls. After applying Liquid Leaf allow it to dry and, if required, seal the painted surface.

Product code	Description	MOQ	PQ	RRP
VCJLL**	Liquid Leaf - 35ml Bottle	1	10	£10.35

When specifying the colour, quote the colour number after the code.

Treasure Gold

Treasure Gold is a metallic wax that is very effective at restoring gold finishes and for the finishing touches when antiquing. The colours can be freely blended to create the right shade. Apply with fingers or a cloth and buff lightly to create a metal lustre that does not fade or tarnish.

Treasure Gold is easy to use on furniture, frames, ceramics and many other surfaces adhering to contoured surfaces without cracking or peeling. Touch dries immediately to a permanent, non-tarnishing finish.

This product can be used on wood, metal, glass, ceramics, wax, leather, paper, cardboard, plastic, plaster and resin. It can also be used for a number of applications, such as stencilling, marbling or staining wood by thinning with white spirit. It is ready to be polished in ten minutes and can be varnished with a Sealer after fully drying for twelve hours. Treasure Gold is highly concentrated and is to be used sparingly. A 25g jar will cover approximately 2m².

Goldfinger - by Daler Rowney

A unique product developed by Daler-Rowney. The all purpose rub-on metallic paste is for:

- the restoration of antiques
- plaster, clay or wood decoration
- stenciling
- picture frame gilding
- leather
- textiles
- model making
- plastics
- mouldings for ormolu furniture
- greeting cards

Easy to use, Goldfinger is simply applied with a soft cloth or finger and after a short time can be buffed to a fine lustre. It produces a really professional finish with no signs of metallic particles or smears. For intricate work, Goldfinger can be thinned with white spirit or turpentine and used with a brush.

To preserve the lustre, Goldfinger can be treated with Goldfinger Varnish. It is very economical in use - a little Goldfinger goes a long way. Takes best on porous or slightly abraded surfaces.

Gilding Materials

Genuine Gold Leaf

Genuine Gold Leaf is extensively used for multi-purpose gilding. Loose leaf books have a thin tissue paper between each leaf. Each leaf may be fitted with a gilder's tip without disturbing the next leaf.

Transfer leaf is leaf which is bound to tissue paper by pressure. The leaf is released from the backing tissue when pressure is applied. Best for outdoor work on flat surfaces, so gold leaf doesn't fly away.

- 8cmSquare
- 23½ Carat
- Hand beaten

Product code	Description	MOQ	PQ	RRP
VWCGGLT	Genuine Gold Leaf 25 Transfer Leaves	1x25	1x25	£46.99
VWCGGLL	Genuine Gold Leaf 25 Loose Leaves	1x25	1x25	£42.99

Schlag Dutch Metal

Imitation gold leaf (also known as schlagmetal or Dutch metal) is a metal leaf made from a brass alloy that has been hammered into very fine sheets for use in gilding. Imitation gold leaf is a cost-effective alternative to genuine gold leaf, offering much the same colour and lustre for less money.

This product is supplied as transfer leaf in booklets of 25. Each leaf in the book has been pressed firmly to specially treated tissue paper which is separated by sheets of rouge paper. The leaf will stay adhered to backing paper when removed from the book making it suitable for outdoor work or any other situation where loose leaf would be unmanageable or at risk of blowing away. To apply the leaf, it is pressed to the sized surface face down before peeling away the backing paper to leave the leaf on the surface. Transfer leaf is best suited for gilding flat areas.

Imitation gold leaf will tarnish over time and requires sealing to protect it, especially if the leaf is to be used outdoors or if the gilding is to be touched or handled regularly. Imitation Gold Leaf 5½" x 5½".

Artists' Soft Pastels

Artists' Soft Pastels - by Daler Rowney

Daler Rowney Artists Soft Pastels have a soft, creamy mark providing the most consistent coverage. All colours come in tints of 1-4 (4 being the deepest) with each vibrant colour derived from precise blending of finest quality pigments.

Each colour has the same pigment combination, which is then mixed with superior quality chalk and china clay to produce the different tints which are non-hazardous with minimal tendency to crumble and dust. The Soft Pastels are 63mm in length with a 12mm diameter and encased in a paper wrapper.

Charcoal & Charcoal Pencils

Willow Charcoal - by Coates

The finest willow charcoal in the world.

A consistently high quality charcoal made from willows grown on the Somerset Levels, which produce very soft, deep black charcoal as favoured by artists. It can be used on its own to create strikingly atmospheric impressions, with paint or pastels where colour is required, for initial outlines, roughs and shading, and for the preparation of larger works. The boxed charcoal is packaged in custom-made containers.

Compressed Charcoal - by Derwent

Solid sticks of pure reformed wood charcoal for extra rich tones and broad sweeping strokes. It produces deep, dense tones with a completely different texture from graphite. It can be used on its edge for broad strokes of colour or on the ends for fine lines. Available in three different strengths to give a range of sketching tones.

Charcoal Blocks - by Derwent

Derwent XL Charcoal gives you the versatility of a high-quality charcoal in a lovely chunky ergonomic block.

Each stick measures 20mm x 20mm x 60mm, fitting nicely into the hand. The large size makes it easy to create a range of strokes, using the long side for really strong, bold marks, or using an edge or corner for finer details.

They have a smooth texture, similar to that of a chalk pastel, and can be used to blend colours or for layers.

Product code	Description	MOQ	PQ	RRP
TAAXLC6	Derwent XL Charcoal Blocks Tin of 6	1	6	£20.95

Charcoal Pencils - by Derwent

Made from natural charcoal particles mixed with the finest clays. Round cedar wood barrel. Light, Medium or Dark provide a wide tonal range from the deepest of blacks to the lightest of greys. Distinctive red stripe on barrel. Naturally water-soluble.

TAACPT	Charcoal Pencils Tin of 6	1	6	£7.99

Tinted Charcoal Pencils - by Derwent

All the benefits of a traditional charcoal pencil but with a gentle hint of colour. Smudgeable and blendable to produce rich tones. Naturally water-soluble. The pencils are ideal for covering large areas quickly and smoothly. Unwanted colour can be lifted out quickly with a kneadable putty eraser or plastic eraser while the pencil's natural water solubility creates delicate wash effects.

Coloured Pencils

Watercolour Pencils - by Derwent

Derwent Watercolour can be used wet or dry on wet or dry paper to create a wide range of exciting effects. Combining the control of a pencil with the natural beauty of watercolours, the smooth 3.5mm colour strip retains its full intensity whether applied wet or dry. Dip the pencil in water or wet the paper to produce strokes of intense colour. Mix as for standard watercolours. They have a beautifully soft texture, and are easy to blend and layer. Derwent Watercolour is also ideal for mixed media work. Available in 72 colours, the same as Derwent Studio Pencils.

Inktense Pencils - by Derwent

This fabulous pencil from Derwent combines the brilliant intensity of pen and ink with the versatility of line and wash. Inspired by the traditional painting styles of the East, Derwent Inktense can be used dry for rich, intense colour or washed out with a little water to create a vivid translucent effect. Once dry, the colour is permanent and can be worked over with other media. For a vibrant line and wash effect, draw a sketch with the non-soluble Inktense Outliner, add colour with Inktense then apply a light wash. Can also be used on fabrics such as cotton and silk. Available in 71 strong, vibrant colours plus an outliner. As versatile as watercolour pencils, but with a firmer texture, Inktense performs like traditional ink.

Coloured Pencils

Artists Pencils - by Derwent

Derwent Artists is a traditional, large diameter colour pencil, available in a full range of 120 fabulous colours. The smooth round barrel and the generous 4mm wide colour strip encourages natural broad strokes and free, expressive drawings. Slightly waxy in texture, the pencils are easy to mix and blend. A superb choice for all drawing styles.

Pastel Pencils - by Derwent

Derwent Pastel Pencils can be mixed and blended like conventional pastels, but offer greater control for more detailed work. They can be used wet or dry and work beautifully with other Derwent media. The soft, powdery texture of Derwent Pastel Pencils produces a velvety-smooth finish. They are particularly good for fine, detailed work and the pencil form makes them easy to control without smudging.

Blending Pencils

Blender Pencil - by Derwent

The Blender pencil is a soft colourless pencil made from the binder used for coloured pencils. Blend two or more colours together to create a new colour. The Blender Pencil mixes and smooths the colours so individual strokes and hard edges are softened.

Product code	Description	MOQ	PQ	RRP
TAABLP	Derwent Blender Pencil	1	6	£1.90

Burnisher Pencil - by Derwent

The Derwent Burnisher is a hard colourless pencil which, when used over layers of pigment, provides a rich polished finish. Burnishing pushes the pigment into the paper and leaves a well blended, photo-like finish. Sealing an image with a heavy layer of colourless wax gives it a polished or reflective look and makes the colours appear brighter.

Derwent Accessories

Paper Stump - by Derwent

Ideal to blend or smudge colours together when working with pastel, charcoal or other dusty media. This is a tight spiral of fibrous paper rolled into a long point which can be used to blend, smudge or spread applied colour. The end can be cleaned by sharpening it in a standard sharpener.

Product code	Description	MOQ	PQ	RRP
TAADAPS	Paper Stump	12	12	£1.50

Erasers - by Derwent

Product code	Description	MOQ	PQ	RRP
TAADAKE	Kneadable Eraser	8	8	£1.99

The Kneadable Putty Eraser is particularly useful for highlighting, stippling and ghosting. Simply mould the eraser in the fingers until soft, pull into a point and carefully remove layers of graphite or colour pigment as required.

TAADAPE	Plastic Eraser	12	12	£1.15
---------	----------------	----	----	-------

The Plastic Eraser cleanly removes areas of graphite or unwanted marks. The well defined corners and edges give total control and can be re-cut with a sharp knife if required. To achieve a crisp line simply lay a straight edge piece of paper over your work and erase right up to the edge.

Pencil Eraser & Brush - by Derwent

Pack of two eraser pencils. Perfect for controlled erasing and correcting. Includes brush to remove eraser dust from artwork. For use with all graphite, coloured and charcoal pencils. Can also be used for blending.

Product code	Description	MOQ	PQ	RRP
TAADAPEB	Pencil Eraser & Brush (Pack of 2)	1	8	£4.49

TUT-80 Twin Tip Pen - by Zig

Art & Graphic Twin is an extensive range of twin-tip markers for hobbyists and professional artists alike. The 0.8mm fine tip and the flexible brush tip make work or play with recreational rubber stamps, cartoons, sketches or graphic illustrations a real pleasure. Not only can you use them with water brushes to create endless watercolour style paintings but with the flexible rubber tip, they are ideal for working directly on rubber stamps. The rubber tip does not leave fibres on rubber stamps, and, unlike most fibre-tip markers, the tip does not split. The Kuretake Art & Graphic Twin is a water-based dye ink, xylene free and odourless twin-tipped marker which is versatile in use. The rubber tip does not leave fibres on rubber stamps, and, unlike most fibre-tip markers, the tip does not split.

Twin-tips

- Dual tipped markers must be stored in a horizontal position.
- If they are not positioned correctly this will result in one of the tips becoming dry and un-useable.

Brush Pens & Felt Tips

Felt Tips - by Faber-Castell

A premium quality long-lasting fibre-tip pen. The strong tip retains its shape and withstands up to 3kg pressure. The colours are very bright and can be washed out of most fabrics. The ink is based on food colourings. Connector felt tip pens colour bright and strong. They have a playful benefit - connecting the caps provides many possibilities for games, crafts, and cleanup.

Hybrid Gel Grip Pen - by Pentel

Pentel gel pens have a rubber finger grip for optimum control and a crystal-style barrel for easy viewing of the ink level. The gel ink is a hybrid, made from water and a binder with wax pigments which prevent the ink bleeding into the paper, and help ensure the ink flows smoothly, preventing unsightly blobs. Ideal for dark or light paper and the 0.8mm tip gives a 0.4mm fine line width.

Uni Chalk Markers

The Uni Chalk Marker is a non-permanent marker pen which writes on and is easily removed from chalkboards, windows and other non-porous surfaces including metal and plastic. Available in 8 colours, the Uni Chalk Marker overcomes the shortcomings of normal chalkboard markers and creates writing which is weather resistant, but can be easily cleaned off with a damp cloth. The Uni Chalk Marker produces vividly-coloured writing using water-based paint.

Lumocolor Permanent Pen - by Staedtler

Lumocolor pens are universal for use on almost all surfaces with excellent smudge-proof and waterproof qualities. The ink dries in seconds, therefore ideal for left-handed users and is permanent, low-odour and lightfast. These pens are dry safe – can be left uncapped for days without drying up. Xylene and toluene-free ink. Ideal for writing on overhead projection film when doing presentations.

ArtPen Ink - by Rotring

Pack of 6 black cartridges, water-resistant, medium lightfastness.

Product code	Description	MOQ	PQ	RRP
FSBR298217	ArtPen Cartridges - Black	1x6	12x6	£2.34

Calligraphy Rule - by Manuscript

Manuscript's Calligraphy Rule provides accurate and precise results. The clear perspex rule is 220mm X 48mm X 3mm and makes it easy to rule lines for spacing correctly for the following range of nibs, medium, broad, 2B, 3B, 4B, scroll 4 and scroll 6. The rule is marked in cm's/mm's from a centre point, with 7cm either side.

Product code	Description	MOQ	PQ	RRP
FMECR	Manuscript Calligraphy Rule	1	10	£2.49

Calligraphy Markers

Metallic Calligraphy Marker - by Manuscript

The unique design of Manuscript's metallic markers ensures that the ink flows freely and consistently through the italic fibre tip without the need to pump the metallic pigment through the pen.

- Available in broad and fine.
- Simple but effective italic markers.
- Add traditional and exciting colour to enhance scrapbooks, card designs and letters.

Calligraphy Markers

Metallic Calligraphy Marker - by Artline

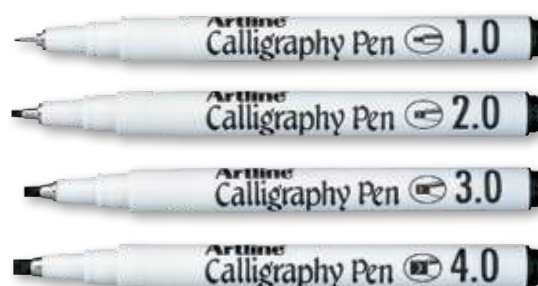

Artline gold and silver calligraphy pens have a metallic ink which makes writing sparkle. They have a strong aluminium barrel and valve action to ensure a constant ink flow. The ink is Xylene-free, fast-drying as well as being highly water and fade-resistant. Square-cut polyester nibs write a 2.5mm line. Ideal for decorative lettering or illustration and can be used on card, plastic, glass, metal and pottery.

Humbrol Tinlets - see page 302-304
Revell Enamel Tinlets - see page 307

Glue

UHU All Purpose

For everyday use all round the house. Dries quickly and holds fast. Sticks wood, china, fabrics, paper, leather, metal and much more. It's adhesive bond remains temporarily correctable and it does not wrinkle paper. The special, soft, pliable plastic tube is clean, non-drip, easy to handle, ergonomic and durable.

Product code	Description	MOQ	PQ	RRP
BEAUHU7	UHU - 7ml Tube	1	30	£1.06
BEAUHU20	UHU - 20ml Tube	1	20	£1.90
BEAUHU35	UHU - 35ml Tube	1	10	£2.64
BEAUHU125	UHU - 125ml Tube	1	5	£4.75

UHU All Purpose Solvent Free

This is a solvent free, liquid universal adhesive with high initial tack. It sticks as firmly as the All Purpose and is ideal for kindergarten, school, household and office. Can be washed out at 40°C. The low odour formula is fast drying, crystal-clear and glues many materials of daily use including Styrofoam and especially PVC.

Product code	Description	MOQ	PQ	RRP
BEAUHU32SF	UHU All Purpose Solvent Free 32ml Tube	1	10	£2.54

UHU Power All Purpose

This is a transparent, fast and powerful universal adhesive with exceptional bonding strength. Particularly suitable for visible and transparent assemblies. The adhesive film remains elastic, is U.V. resistant, and does not become brittle. Suitable for use with both rigid and flexible materials (particularly flexible PVC such as pond liners). Can also be used under water. Resistant to water, oil, grease, dilute acids, alkalis and alcohol.

Product code	Description	MOQ	PQ	RRP
BEAUHUP33	UHU Power All Purpose 33ml Tube	1	12	£2.99

UHU Extra All Purpose Gel Adhesive

The non-drip, crystal-clear universal adhesive for clean assemblies. In the form of a gel, ideal for use on vertical surfaces. Adhesive film remains elastic. Does not crinkle paper. Suitable for most surfaces - paper, wood, metal, glass, ceramic, leather, felt, cork, fabrics and cardboard.

Product code	Description	MOQ	PQ	RRP
BEAUHUG20	UHU Extra Gel Adhesive 20ml	1	10	£1.90

Glue

UHU Twist n Glue

The proven, crystal-clear universal adhesive in a handy bottle. Unique 3-position twist-applicator for gluing of dots, lines and surfaces. Sticks quickly and durably. Does not crinkle paper. Can be washed out using detergent at 60°C.

Product code	Description	MOQ	PQ	RRP
BEATNG35	Twist 'n' Glue - 35ml	1	12	£3.05

UHU Fabric Glue

UHU for fabrics, felt and ribbons, the ideal adhesive for making dolls, fabric animals, puppets, silk flowers, clothes, bags, greeting cards, book bindings, table and room decorations, collages, ribbon ornaments. Fast-setting, solvent free and resistant to washing and dry-cleaning.

Product code	Description	MOQ	PQ	RRP
BEAUHUF	Fabric Glue - 19ml	1	6	£4.26

UHU Glue Varnish

This product glues, seals and finishes. Dries clear with satin-glossy effect and is easy to use. Lightfast, wipe and weather-proof. Ideal for gluing jigsaws, stiffening fabrics, decorating with sand and sealing photos.

Product code	Description	MOQ	PQ	RRP
BEAUHUGV	Glue Varnish - (Jigsaw glue)	1	6	£6.68

UHU Por Glue

UHU por is a quick-setting special adhesive for bonding expanded polystyrene in combination with other materials. It forms an elastic adhesive film which is highly resistant to age, colourless and waterproof.

Product code	Description	MOQ	PQ	RRP
BEAO45901	Por Glue - 40g	1	12	£4.25

Glue

Zig Memory System 2 Way Glue

These dual action permanent and semi-permanent 2 Way glue pens are ideal for all paper crafting projects. Their acid free quality makes them great for working with precious photographs!

For permanent use, use immediately after applying the adhesive to paper and photographs - when the glue is blue.

For semi-permanent use, use when the adhesive becomes tacky - when the glue is clear. Paper and photographs can be repositioned.

2 Way Glue can also be used when applying glitter to paper, glass, foil and plastic surfaces, embossing, gift wrapping and in photo albums.

Product code	Description	MOQ	PQ	RRP
BKEMSB10M	Zig Glue Pen - MSB 10M Fine Ball	1	12	£2.85

Aerosol Spray Adhesives

Display Mount - by 3M

A maximum strength spray adhesive for permanent print, photo and picture mounting / bonding. Display Mount adhesive provides instant hold combined with rapid strength build-up to form a strong, secure, and permanent bond for mounts. Display Mount adhesive is ideal for working with 3D models, coated papers, exhibition boards, and point-of-display boards.

Product code	Description	MOQ	PQ	RRP
BMBDM400	Display Mount - 400ml	1	12	£18.56

Aerosol Spray Adhesives

Spray Mount - by 3M

Fast, reliable and convenient, Spray Mount adhesive is the choice of the Art and Design Market. The key benefits of the Spray Mount adhesive is that it allows repositioning for up to 12 hours when sprayed on one surface, and for up to 2 hours when applied to both surfaces. Once the Spray Mount Adhesive sets, it provides a secure, long term bond that will not become brittle with age. Spray Mount adhesive is ideal for creating and mounting mock ups, mounting designs, photos and illustrations, picture displays, working with exhibition boards, lightweight materials, and theatre sets.

Product code	Description	MOQ	PQ	RRP
BMBSM200	Spray Mount - 200ml	1	12	£11.15
BMBSM400	Spray Mount - 400ml	1	12	£19.27

Photo Mount - by 3M

A high strength spray adhesive, which provides an instant and permanent hold, so you can mount your own photo, map and picture. Photo Mount adhesive is a pH neutral, non-yellowing, professional grade spray adhesive with a good resistance to both high temperatures and UV light. It is ideal for archiving, mounting photographs, illustrations, prints and mounting maps. There is a small window of time after spraying adhesive onto surface for repositioning of work.

Product code	Description	MOQ	PQ	RRP
BMBPM200	Photo Mount - 200ml	1	12	£11.04
BMBPM400	Photo Mount - 400ml	1	12	£18.56

Re Mount - by 3M

A repositionable spray adhesive that allows you to lift and mount items time and time again without respraying. Clear, non-staining and non-wrinkling. A light bonding and non-transferable adhesive ideal for stencilling, collages and pattern formations.

Product code	Description	MOQ	PQ	RRP
BMBRM400	Re Mount - 400ml	1	12	£24.96

Velcro® Adhesives

Velcro® Adhesives

Velcro products are easy-to-use alternatives to nails, screws, glues and tapes. Keep lightweight items tidy and secure. A mixture of stick-on-tapes, stick-on-coins and stick-on-squares. Heavy duty products hold items up to 7kg.

Glamour Dust Glitter Paint

Deco Art Glamour Dust Paint is a premium all-purpose, ultra-fine glitter paint that adds subtle sparkle and shimmer.

Painting Surfaces:

Wood • Canvas • Paper • Terra cotta • Unglazed Ceramic • Styrofoam • Most porous surfaces

Features and Advantages:

Ultrafine elegant appearance
 Easy to brush and apply
 Great sparkle and shimmer
 Eliminates sprinkle-on glitter mess
 Base dries clear
 Safe and non-toxic
 Waterbased
 Soap and water clean-up while wet

Helpful Hints:

Easy to use brush-on formula. Shake well. Apply 2-3 thin even coats as desired - allow to dry between coats. Apply over a similar Americana colour for a more intense shimmer. Shorten dry time by using a fan or hairdryer on low setting.

Encaustic Art

* Included in Art Set - HAM5320

Encaustic Art

Encaustic Art uses a wax based paint (made with beeswax, resin and pigment), which can be kept molten on a heated palette. It can be applied to an absorbent surface and then reheated in order to fuse the paint. Since the wax can be reheated and worked with, it is extremely versatile.

It can be polished to a high gloss, carved, scraped, layered, collaged, dipped, cast, modeled, sculpted, textured, and combined with oil. Since it cools immediately, there is no drying time. Encaustic Art paintings do not have to be varnished or protected by glass because encaustic wax is its own protector.

Product code	Description	MOQ	PQ	RRP
HAM5320	Art Set	1	1	£46.00
Contains: 16 wax blocks, metal scribing tool, 32 x A6 cards, 32 x A5 cards, 8 x A4 cards, 24 page booklet.

Lino Printing Materials

Quickprint Foam

Quickprint foam sheets offer a safer alternative to traditional lino blocks. Designs can be created using blunt objects and cut with scissors. Suitable for children learning about lino printing and also used extensively in model making.

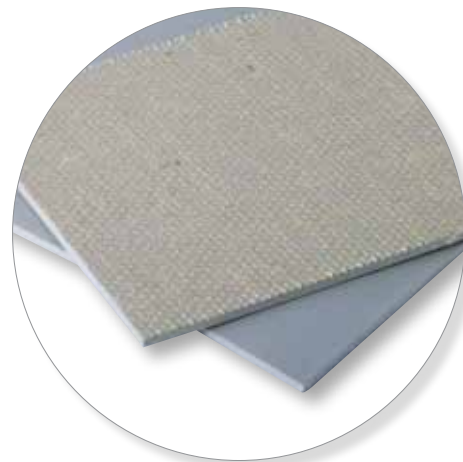

Product code	Description	MOQ	PQ	RRP
QLS300	30cm x 30cm - 25 Sheets	1	1	£23.99
QLS4	A4 - 25 Sheets	1	1	£15.99

Lino Printing Materials

Lino Block

High-quality traditional lino blocks specially made for block printing. These 3.2mm thick blocks are especially soft, allowing for easier carving. Hessian backed. Designs are cut into the lino blocks using different shaped tools, block printing ink is then spread over the design using a lino roller and the design then transferred to paper, fabric or other suitable surface.

Product code	Description	MOQ	PQ	RRP
QEBLB64	Lino Block - 3.2mm 6" x 4" (150 x 100mm)	1	10	£1.30
QEBLB86	Lino Block - 3.2mm 8" x 6" (200 x 150mm)	1	10	£2.40
QEBLB128	Lino Block - 3.2mm 12" x 8" (300 x 200mm)	1	10	£4.75
QEBLB1212	Lino Block - 3.2mm 12" x 12" (150 x 100mm)	1	10	£8.99
QEBLB1612	Lino Block - 3.2mm 16" x 12" (400 x 300mm)	1	10	£9.75

Soft Cut Lino Block

A soft, easy to cut, flexible and durable printmaking material. Soft Cut is the new material for use in block cutting and printing. The super-smooth surface makes cutting so easy, the cutter glides through with minimum effort. The finished block can be displayed as a work of art in its own right.

Soft Cut prints well on most papers, card and fabric. Soft Cut blocks are flexible which allows printing on curved surfaces. Soft Cut can be used for stamping when suitably mounted.

When used in conjunction with our safety cutter and hand guard, young children can be encouraged to make their own prints, greeting cards and calendars.

Product code	Description	MOQ	PQ	RRP
QEBLBS33	Lino Block - 3mm 3" x 3" (75 x 75mm)	1	10	£1.99
QEBLBS64	Lino Block - 3mm 6" x 4" (150 x 100mm)	1	10	£2.95
QEBLBS86	Lino Block - 3mm 8" x 6" (200 x 150mm)	1	10	£4.95
QEBLBS128	Lino Block - 3mm 12" x 8" (300 x 200mm)	1	10	£7.95

- Inked blocks are easily cleaned.
- Crisp, sharp lines.
- Long life, flexible blocks.
- No crumbling under pressure.
- Cut both sides.
- Suitable for the younger user.

Lino Printing Materials

Lino Handle - by Creative House

Made from red polypropylene, these handles give complete rigidity while cutting. They can be also used with a variety of craft knife blades, with the universal clutch action and ergonomic design.

Product code	Description	MOQ	PQ	RRP
QSQLH12	Lino Handle	1	12	£1.95

Abig Lino Roller (Metal Handle)

Premium quality ink rollers with nickel plated handles. The rubber of this ink roller is water and (limited) oil resistant. The roller is easily removable from the handle and enables easy and quick cleaning. Wooden handle ink rollers for professionals. An aluminium centre rotates through plastic bearings and reliably produces a consistent, quality finish. Each roller has a stand to prevent wet ink being spread whilst working.

Product code	Description	MOQ	PQ	RRP
QAQMLR60	Lino Roller (Metal Handle) 60 x 20mm	1	1	£8.50
QAQMLR90	Lino Roller (Metal Handle) 90 x 30mm	1	1	£10.99

Decoupage Auxillaries

Prism Clear Glaze

A perfectly clear, non-yellowing glaze specially formulated for paper, giving a high gloss 'porcelain' finish. Also ideal for plaster coatings and concrete. Drying time is 2-3 hours.

Product code	Description	MOQ	PQ	RRP
HCHPCG60	Prism Clear Glaze 60ml Jar	1	10	£5.50
HCHPCG250	Prism Clear Glaze 250ml Tin	1	6	£12.95
HCHPCG150	Prism Clear Glaze 150ml Aerosol	1	6	£7.80

Decoupage Finish - by Applicraft

- A water-based, fast drying all-in-one glue and build up varnish. Ideal for decoupage projects in paper and fabric. Also ideal for jigsaws.
- Apply cut out images to almost any surface.
- An opaque medium, which on drying becomes transparent.
- Seals the project with a smooth protective finish.

Product code	Description	MOQ	PQ	RRP
HAEDFG125	Decoupage Finish Gloss - 100ml	1	3	£6.99
HAEDFM125	Decoupage Finish Matt - 100ml	1	3	£6.99

Candle Making by Creative House

Stearin (for Candle Wax)

Stearin makes candles more opaque and raises the melting point of wax so that candles do not bend or sag. It also improves the burning time and quality of finished candles. Add to wax using ratio of approximately 1:10.

Product code	Description	MOQ	PQ	RRP
HMPCWS225	Stearin - 225g	1	1	£7.50
HMPCWS500	Stearin - 500g	1	1	£12.25
HMPCWS1	Stearin - 1kg	1	1	£18.99

Candle Making by Creative House

Beeswax Pellets

Added to our paraffin wax, this beeswax will improve your candle's colour and the burning time. Why not combine with rustic items, such as hessian and leaves for beautiful, decorative candles.

Product code	Description	MOQ	PQ	RRP
HMPBW500	Bees Wax Pellets - 500g	1	1	£15.99
HMPBW1	Bees Wax Pellets - 1kg	1	1	£25.99
HMPBW5	Bees Wax Pellets - 5kg	1	1	£89.99

Prepared Candle Wax (with Stearin)

Specially formulated with the correct amount of stearin and ready to use. Prepared with the finest quality raw materials so this wax will produce candles of outstanding quality and reduce shrinkage. Melting point 58-60°C.

Product code	Description	MOQ	PQ	RRP
HHACW	Prepared Candle Wax (with Stearin) - 1kg	1	1	£12.99

Paraffin Candle Wax Beads (without Stearin)

Creative House paraffin wax pellets are pure and refined and suitable for all kinds of candles and rubber moulds. The advantages of using these pellets are specially formulated for use with all types of moulds and to produce clean rigid candles.

Pellets allow for easy measuring. They are clear when melted allowing for over-dip for surface decorations. Good burning and scent throwing properties. Melting point is between 57-60°C.

Product code	Description	MOQ	PQ	RRP
HMPCWB1	Paraffin Candle Wax Beads - 1kg Tub	1	1	£9.99
HMPCWB5	Paraffin Candle Wax Beads - 5kg Tub	1	1	£30.99
HMPCWB25	Paraffin Candle Wax Beads - 25kg Bag	1	1	£118.00

Candle Making by Creative House

Candle Mould Tray

These plastic candle moulds are high quality and sturdy, allowing for use over and over again. The dimensions of the moulds are Sphere - 75mm/3" internal diameter. Rocket shaped - 235mm/9 1/2" long. Tapers from 25mm/7/8" at top to 10mm/3/8" at bottom. Cylinder shaped- 105mm/4 1/2" high and 50mm/2" diameter.

Product code	Description	MOQ	PQ	RRP

HHJCM3	Candle Mould Cylinder (C)	1	3	£5.99
HHJCM1	Candle Mould Tapered (D)	1	3	£6.99

Candle Wicks

Creative House candle wicks are of the finest quality produced in the UK. The wicks are made from cotton which is doubled, braided, treated and enhanced to suit many candle types. Our candlewicks facilitate capillary action, a process by which fuel, typically melted candle wax, is transported to the flame. When the liquid fuel reaches the flame it then vaporises and burns.

All wicks are treated to avoid being destroyed or consumed too quickly by the candle flame. 5m length.

Product code	Description	MOQ	PQ	RRP
HHACR0001	Candle Wicks - Thin	1	12	£2.99
HHACR0002	Candle Wicks - Medium	1	12	£3.95

ISQWCMS	Wood Carving Tool Set Master set of 12	1	12	£8.99

For Crafter's Acrylic - see page 254

Modelling Materials

Modelling Clay - by Das

A moist ready-to-use modelling clay, air dries to a hard, durable matt finish without the need for firing. Das dries to a tougher and smoother finish than standard air drying clay and is soft and pliable. Poster paint and acrylic paints can be used once the clay is dry. Suitable for children.

Product code	Description	MOQ	PQ	RRP
QDED500W	Modelling Clay - White 500g	1	24	£3.99
QDED500T	Modelling Clay - Terracotta 500g	1	24	£3.99
QDED1W	Modelling Clay - White 1kg	1	12	£6.99
QDED1T	Modelling Clay - Terracotta 1kg	1	12	£6.99

Newclay

An off-white clay which is nylon reinforced to increase strength and reduce brittleness. Can be used by small children up to adults for modelling and crafts. Air hardening – but also fires well in the range of 1000°C to 1250°C. Newclay is characterised by being non-sticky and having low shrinkage during drying. It is malleable and can be used with pottery tools. As it is nylon reinforced, it will not go brittle. While it's reinforced finish makes it exceptionally strong, Newclay Hardeners (H1 or H2) can be applied to improve durability of the final article. For best results, finished pieces should be decorated with a good quality ceramic or acrylic paint and finished with Newclay Gloss or Newclay Satin.

Product code	Description	MOQ	PQ	RRP
QNANC1	Newclay - 1kg	1	12	£4.95
QNANC4.5	Newclay - 4.5kg	1	3	£12.25
QNANC12.5	Newclay - 12.5kg	1	1	£22.95

Modelling Materials

Varnish - by Newclay

Newclay Gloss varnish provides the final transparent gloss finish to your Newclay or Claydium article. It can be applied over, or mixed with, any water-bound or powder colour, and will also act as an adhesive for dry Newclay or Claydium pieces.

Product code	Description	MOQ	PQ	RRP
QNANCV	Varnish - Gloss (4oz)	1	1	£6.99

Hardener - by Newclay

Newclay produce two hardeners to improve the durability of the clay.

Hardener H1 is dissolved in hot water and the solution applied onto Newclay or Claydium models once they are dry to give the articles a surface or "case" hardness. Additional coats can be applied, if desired, depending on the importance of the work.

Hardener H2 is mixed directly with Newclay or Claydium by kneading to provide all-through additional hardness and strength to the finished article. Between 1% and 5% of Hardener H2 can be used, depending on the importance of the work.

Product code	Description	MOQ	PQ	RRP
QNANCH1	Hardener - H1 125g For coating finished work to increase surface hardness.	1	1	£5.99
QNANCH2	Hardener - H2 226g Mix with Newclay to strengthen model.	1	1	£8.99

Claydium

Claydium is a reinforced air-drying modelling clay. It is similar to Newclay but smoother in use and, while still malleable, will yield a stronger and harder final dried material. Claydium articles should be finished in the same way as objects made from Newclay, i.e. decorated with a good quality ceramic or acrylic paint and finished with Newclay Gloss varnish.

Product code	Description	MOQ	PQ	RRP
QNACLAYW	Claydium - White 500g	1	25	£3.95
QNACLAYT	Claydium - Terracotta 500g	1	25	£3.95

Modelling Materials

Newplast (Single Colour Packs)

Newplast is a non-drying, reusable modelling material. Still available in the traditional layered bar, it is sufficiently pliable to make a wide variety of models, but firm enough to retain its shape indefinitely. Newplast is the material specified by many animators as being the best product of its type available. Waterproof and oil based.

Product code	Description	MOQ	PQ	RRP

Modelling Materials

Fimo Soft & Fimo Effect

Fimo Soft is an oven-hardening 'soft' modelling clay, which can be easily kneaded. Models are very durable and strong after baking. Each block is ready to use and blending is made easy by being divided into 8 portions. 24 brilliant colours.

Fimo Effect has some amazing colours and effects - Nightglow, Glitter, Stone and many more.

FIMO® Kids Form & Play – Creativity and fun, all in one!

Form & play is a combination of modelling and playing. Clear shapes and well-structured, child-friendly instructions graded according to level of difficulty combined with a modelling clay developed specifically for children's use round this concept off.

The background scene included on the inside of the box not only increases the fun factor but also provides inspiration for more new modelling ideas.

Modelling Materials

Mix Quick (Kneading Medium for Fimo)

Mix Quick is a kneading aid which makes softening harder FIMO quick and easy. Can also be used to reconstitute crumbly or hard Fimo. This, however, will work only before the compound is thoroughly hardened.

Product code	Description	MOQ	PQ	RRP
QSL8016	Mix Quick	1	10	£4.00

Fimo Air Basic

Fimo Air Basic is an excellent air-drying modelling clay, similar to china clay. Ready to use, it has a pleasant feel and does not stick to your hands. It is reworkable - filing, grinding, drilling, painting, varnishing. Especially suited for crafts, arts, leisure time and educational purposes in schools, kindergarten and other similar facilities.

Product code	Description	MOQ	PQ	RRP
QSL81000	Fimo Air Basic 500gm (White)	1	12	£5.35
QSL810043	Fimo Air Basic 500gm (Flesh)	1	12	£5.35

Fimo Air Natural

Similar to wood, break-proof, can be treated as wood. For string and hand puppets.

Product code	Description	MOQ	PQ	RRP
QSL81507	Fimo Air Natural Sandstone	1	6	£7.75

Fimo Air Light

This is an incredible product which is extremely lightweight and pliable. Dries in the air, or in only 10 minutes in a microwave. It is ready to use and comes in a resealable foil package which prevents the clay drying out. Can be modified - glued, painted, varnished.

Product code	Description	MOQ	PQ	RRP
QSL8131	Fimo Air Light (White)	1	6	£7.75

Modelling Materials

Papier Mache - by Claycrete

Pure white and dries white. It is easy to prepare, easy to model, very economical and exceptionally white when dried at room temperature. Finished projects are very lightweight. Furnished in dry form, it mixes with water and is ready to use immediately. Claycrete will start to set in about 30 minutes, at which time fine modelling and smoothing of the surface is easily achieved. Claycrete will not stick to your hands or tools, making it exceptionally easy to work with. Claycrete must be thoroughly dry before painting or decorating.

Product code	Description	MOQ	PQ	RRP
QWACLAY	Claycrete Papier Mache	1	6	£10.99

Milliput

Two-part, cold setting, epoxy putty for porcelain restoration, modelling, sculpting, crafts, architectural models and much more.

Why Milliput? The most versatile material available. It is:

- Self hardening
- Non shrinking
- Tough and durable
- Sets underwater
- Electrically insulating
- Water, heat and chemical resistant
- Highly adhesive to most materials
- Moulds like putty - sets like rock.

Product code	Description	MOQ	PQ	RRP
QMKMB	Milliput Black	1	10	£5.99
QMKMSYG	Milliput Standard Yellow Grey	1	10	£3.45
QMKMSG	Milliput Silver Grey	1	10	£5.25
QMKMT	Milliput Terracotta	1	10	£4.25
QMKMSW	Milliput Superfine White (for porcelain)	1	10	£5.99

Moulding & Casting Materials

Step 1 Prepare the model

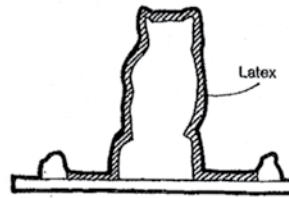

Wash the model with warm, soapy water to degrease. Let it dry. Place in the centre of a piece of plywood. With Newplast, create a ring 2" from the model base to form a well for excess Latex.

Step 2 Paint with Latex

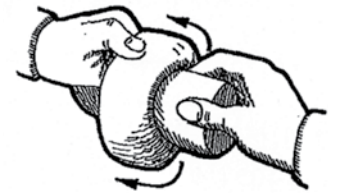

Wash a paint brush in warm soapy water, squeeze out excess. Apply the Latex in small downward strokes starting at the top in a spiral motion. Allow the first layer to dry before applying the second and so on. Try to build up an even thickness around the model with each layer of Latex applied.

Step 3 Allow to dry

Drying time can be decreased by placing in a warmer environment e.g. near a fan heater or use a hairdryer to work over the model. When the Latex is thoroughly dry, it will have changed from opaque white to semi-transparent.

Step 4 Removal of mould

Coat the mould with diluted washing-up liquid. Peel the mould from the base of the model then firmly pull the Latex mould back onto itself. Revert mould to correct side and wash in warm soapy water and dry.

Latex - by Creative House

Latex liquid rubber is an emulsion which will air-dry on the surface of a master pattern to form a thin, peelable mould. Moulds made of latex have a comparatively long life, are easily made and will give good definition and accuracy of reproduction. Masters can be made from a variety of materials including plaster, clay, wood, and some non-porous materials. Thickener can be added to increase the viscosity of the latex, to help a mould form on non-porous surfaces, and reduce running.

Product code	Description	MOQ	PQ	RRP
QSJLAT	Latex - 1 Litre	1	3	£18.99

For production of moulds for plaster and concrete. Full instructions included.

QSJLATT	Latex Thickener - 100ml	1	6	£3.55
---------	-------------------------	---	---	-------

This can be added to Latex to thicken it, making application easier.

Latex - by Gedeo

Concentrated formula based on a natural rubber. It can be used to mould simple and complicated shapes, small and large thinner items and masks. Clean brushes immediately with soapy water or allow to soak in solvent. Professional adult use.

Product code	Description	MOQ	PQ	RRP
QPA331	Gedeo Latex - 250ml	1	1	£8.00
QPA335	Gedeo Latex - 1litre			£27.00

Moulding & Casting Materials

Plaster - by Gedeo

Low density plaster recommended for casting hanging decorations. Very easy to work with and the finished castings are easy to paint.

Product code	Description	MOQ	PQ	RRP
QPA330	Gedeo Light Plaster - 1kg (Low Density Plaster)	1	20	£3.85
QPA314	Gedeo Hard Plaster - 1kg	1	20	£6.65
QPA316	Gedeo Glueing Plaster	1	20	£8.50

Stone Plaster - by Creative House

This is a very hard 'alpha' plaster, ideal for pattern and model making, chess pieces etc. It is an off-white colour due to its high density.

Product code	Description	MOQ	PQ	RRP
QSJSP1	Stone Plaster - 1kg	1	18	£6.99
QSJSP2.5	Stone Plaster - 2.5kg	1	8	£12.99
QSJSP5	Stone Plaster - 5kg	1	1	£22.99

Sculptamold

Models like clay and sets plaster-hard in 30 minutes. Like papier-mâché in that it is lightweight and does not shrink, it can also be modelled and cast with ease. Mixes easily and quickly with water for immediate use. Adheres to most clean surfaces and can be oven-dried at 200°F (93°C). When dry it can be sanded, sawn, carved or nailed without chipping. Full instructions on packet.

Product code	Description	MOQ	PQ	RRP
QWASCU	Sculptamold - 3lb/1.36kg	1	6	£10.99

Moulding & Casting Materials

Plaster of Paris - by Creative House

Moulding powder for model making and plaster casting in strong plastic containers with a snap-tight lid. Add plaster to clean water, stirring to a creamy consistency. Set time is between 10 - 15 minutes.

Product code	Description	MOQ	PQ	RRP
QSJPOP1	Plaster of Paris - 1kg	1	18	£5.99
QSJPOP2.5	Plaster of Paris - 2.5kg	1	8	£9.99
QSJPOP5	Plaster of Paris - 5kg	1	1	£18.99
QSJPOP25	Plaster of Paris - 25kg	1	1	£59.99

Alginate - by Creative House

Creative House Alginate is a flexible mould and impression-making material. A gel is formed by mixing the alginate powder with water and is widely used in reproducing small to medium-size objects and patterns or mouldings in plaster and timber, particularly in restoration work. Alginate is completely safe in direct contact with skin and sets very rapidly, making it the preferred material for making moulds of the face, body, feet and hands.

Alginate is supplied in a 500g foil sachet and is manufactured from kelp - a variety of seaweed. Like latex and silicone, it reproduces an extremely accurate impression - capturing such detail as the pores of the skin. Advantages over silicone and latex are that it sets very quickly and can be separated from the subject within 3 to 4 minutes of application. It is also clean, economic, easy to apply and needs no release agent to detach from non-porous surfaces - the mould detaches from the original as it sets.

Product code	Description	MOQ	PQ	RRP
QSJALG500	Alginate - 500g	1	10	£14.05

Moulding & Casting Materials

Mod Roc - by Creative House

Modroc is a plaster-impregnated bandage for making masks, moulds and forming contours for model railways etc. When used as a medium for Sculptors, modroc is extremely versatile and can be used to create 3D models of large objects, when used in conjunction with an armature.

Soak the modroc roll in room temperature water for about 5 seconds until it is saturated or the bubbles stop rising. Gently squeeze out excess water from the bandage and then gently wrap (not tightly) or drape the bandage over and around the frame or object, layer upon layer.

Use your hands to shape the bandage during wrapping in order to make it adhere and to remove bubbles and cavities. When it begins to harden the shaping process should stop.

Normal setting time is 2-5 minutes but can be accelerated slightly by using warmer water or after layering, a hair dryer or heater. You can also slow down setting by around 4 minutes by using cooler water.

Tip

Add Creative House PVA to the water (approximately 1 part PVA to 3 parts water) to increase the strength of the structure and make the finished article more receptive to paint.

Product code	Description	MOQ	PQ	RRP
QSQMR2	Mod Roc - 2 Roll Pack (15cm x 275cm)	1	4	£6.50

Full instructions included in every pack

Moulding & Casting Materials

Resin Plaster - by Gedeo

Top quality alpha plaster. Due to its exceptional hardness after drying, it is similar to polyester resins. Specially recommended for objects requiring fine detail, strength and whiteness.

Product code	Description	MOQ	PQ	RRP
QPA313	Gedeo Resin Plaster - 1kg Top Quality Alpha Plaster	1	6	£9.95

Modelling Paste - by Gedeo

A wax based paste. Infinitely reuseable to model objects or figurines you want to mould. It can also be used to take the imprint of an object to make a plaster cast.

Product code	Description	MOQ	PQ	RRP
QPA304	Gedeo Modelling Paste - 500g	1	6	£5.75

Moulding Alginate - by Gedeo

Suitable for moulding complete items, soft or delicate objects and the human body.

Product code	Description	MOQ	PQ	RRP
QPA310	Gedeo Alginate - 500g Natural Seaweed Based Powder	1	6	£16.95

Casting Resin - by Creative House

Pour Casting Resin into any mould to make a sculpture or paperweight. Clear casting resin is a crystal clear, low viscosity liquid that requires mixing with a catalyst to become rock hard - catalyst available separately. It cures to a smooth glossy transparency at room temperature. General Purpose resin dries to a cloudy finish and is used for laminating, repair and construction applications. The use of a mould release is not necessary for flexible plastic or rubber moulds.

Product code	Description	MOQ	PQ	RRP
QSJCCR	Casting Resin - 1kg Clear (For crystal clear casting and embedding)	1	1	£29.99
QSJGPCR	Casting Resin - Opaque - 1kg General Purpose (For laminating and casting)	1	1	£27.99
QSJCAT	Casting Resin - Catalyst - 20ml (For use with above resins)	1	1	£4.99

Moulding & Casting Materials

Siligum - by Gedeo

A fast setting, two-component silicone moulding paste. Easy to mould small objects and flat decorations. Provides exceptional imprint accuracy. Can be used to produce casts in plaster, resin, low melting point metal or wax. The working time is 3-4 minutes and setting time about 5 minutes. To have more time for application, cool the mixture a few minutes in the refrigerator.

Product code	Description	MOQ	PQ	RRP
QPA309	Gedeo Siligum - 100g	1	6	£13.95
QPA329	Gedeo Siligum - 300g	1	6	£27.95

Crystal Resin - by Gedeo

A two-component epoxy resin system. Perfect imitation of glass paste. It can be used to produce mouldings and coloured with Pebeo Vitrail. It will also encapsulate items up to 5cm thick.

Product code	Description	MOQ	PQ	RRP
QPA334	Gedeo Crystal Resin	1	6	£25.00

Kit Contains: 300ml Resin, 2 protective gloves, 2 measures & 2 mixers.

Glazing Resin - by Gedeo

With its enamelled effect, glazing resin adds relief and shine to flat surfaces. Creates perfect rounded edges.

Product code	Description	MOQ	PQ	RRP
QPA170	Gedeo Glazing Resin - 150ml	1	6	£17.95

Plaster Strips - by Gedeo

Plaster impregnated gauze for modelling and craft. Can be used to cover all types of objects, produce masks by applying directly on the skin, make supporting shells for the Siligum, alginate or latex moulds.

Product code	Description	MOQ	PQ	RRP
QPA312	Gedeo Plaster Strips 4 Strips (8cm x 300cm)	1	6	£5.15

Modelling Wire

Soft Aluminium Modelling Wire - by Creative House

A modelling rod which is soft and malleable enough for shaping and bending by hand, whilst still being rigid enough to maintain its shape. Perfect for use with large armatures as well as a stand-alone modelling material.

Product code	Description	MOQ	PQ	RRP
QSRAMW130	Soft Aluminium Wire 1mm x 30m	1	3	£7.75
QSRAMW220	Soft Aluminium Wire 2mm x 20m	1	3	£10.50
QSRAMW3210	Soft Aluminium Wire 3.2mm x 10m	1	3	£12.99
QSRAMW455	Soft Aluminium Wire 4.5mm x 5m	1	3	£14.25

Pliers - by Creative House

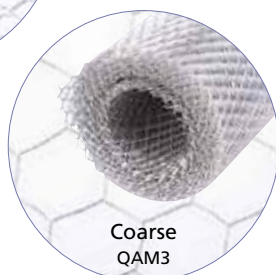

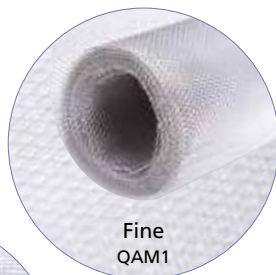

Pliers designed specifically for jewellery wires & modelling meshes.

Product code	Description	MOQ	PQ	RRP
QP03	Soft Aluminium Wire 3.2mm x 10m	1	3	£7.99

Aluminium Mesh Rolls

The mesh has a low density and an ability to resist corrosion. It is a soft, durable, lightweight, ductile and malleable metal. Roll dimensions are 3m x 0.5m

Product code	Description	MOQ	PQ	RRP
QAM1	Fine (1mm x 2mm holes)	1	1	£25.99
QAM2	Medium (2.5mm x 4.5mm holes)	1	1	£26.99

1. ORDERING

Our minimum order is £50 NETT ex VAT (UK mainland). We reserve the right to charge a handling fee on bulky items, on orders despatched to some offshore islands and on special delivery requests.

Unless otherwise stated, prices shown are for single items INCLUSIVE OF VAT at the prevailing rate. We operate a back-order system unless instructed otherwise. New and replacement products will be added during the currency of this guide, so please contact us if you are looking for a particular item not listed. We are always ready to help in giving product information and trade advice.

No responsibility can be accepted by Artstat for errors or omissions in this catalogue.

2. DAMAGE OR LOSS OF GOODS

Our liability is limited to the replacement or repair cost of the goods at our discretion. Damaged goods or shortages must be notified within two days of delivery.

3. SUITABILITY

It is the user's responsibility to ensure that the goods purchased are suitable for his or her requirements.

4. TERMS AND CONDITIONS

Purchase of goods from ARTSTAT is an unqualified acceptance of all our terms and conditions. Prices are subject to change without notice, the current retail price being shown on each delivery note. Every effort has been made to ensure the accuracy of the information in this list. However, this information constitutes an invitation to trade and does not form any part of any contract. We reserve the right to withhold supplies at our discretion. These terms and conditions and all contracts shall be governed by English Law and subject to English Courts.

5. RISK AND PROPERTY

5.1 Goods supplied to the Buyer will remain the property of ARTSTAT until full payment in cash or cleared funds has been received by ARTSTAT for those goods and for all other goods delivered or services supplied by ARTSTAT to the

Buyer in respect of which payment is outstanding.

5.2 Until title to the goods passes to the Buyer:

5.2:1 The Buyer will hold those goods as Seller's bailee.

5.2:2 The Buyer will protect, store and identify the goods by reasonable means so that they can be recognised as the property of the Seller.

5.2:3 The Buyer may use the goods or sell them in the ordinary course of its business.

5.2:4 If the Buyer is in breach of any of its obligations to the Seller, or the order or the contract for the supply of goods is cancelled under Clause 6 below, and provided the goods are still in existence and have not been resold, the Seller may (a) by notice to the Buyer require delivery to it of the goods: and/or (b) with or without previous notice, retake possession of the goods and sell the goods. For the purpose of this clause the Buyer irrevocably authorises the Seller's representatives to enter the premises on which the goods are situated and remove the goods at the Buyer's expense.

5.3 Risk in all goods supplied to the Buyer will pass to the Buyer on delivery.

6. TERMINATION

Should the Buyer enter into liquidation or a Receiver, Administrator or Administrative Receiver of the Buyer's property or assets or any part of them is appointed, or a court order is made or a resolution is passed for the winding up of the Buyer (except for the purpose of amalgamation or reconstruction) or if the Buyer commits any act of bankruptcy, or any bankruptcy petition is presented against the Buyer (or any analogous proceedings under the law of any country outside the United Kingdom are commenced), the Seller may by notice in writing to the Buyer cancel all orders or any part of them remaining unfulfilled.

7. JURISDICTION

All contracts between the Seller and the Buyer where the goods are shipped to or services are provided in the Republic of Ireland, shall be governed and construed

in accordance to the Laws of the Republic of Ireland, and the Buyer agrees to submit to the jurisdiction of the Courts of Law in the Republic of Ireland in respect of them.

Except as provided above, all contracts between the Seller and the Buyer shall be governed and construed in accordance with the Laws of England, and the Buyer agrees to submit to the jurisdiction of the Courts of Law in England in respect of them.

8. RETURN OF GOODS

Items correctly supplied which are returned with the approval of our sales office will be subject to a 25% handling charge. The goods must be in re-saleable condition, within three days of invoice date and the invoice/delivery note number and date must be quoted on all claims and returned goods.

9. PAYMENT TERMS & CREDIT FACILITIES

We offer credit terms at our discretion upon receipt of two satisfactory trade references and a bank reference. Please ask for a credit application form. Payment is due by the end of the month following month of delivery. We reserve the right to add interest to overdue balances at the rate of 2% per month calculated daily. Processing of orders may be delayed without notice if accounts become overdue. An administration fee of £10 is charged to re-present an uncleared cheque.
