Share from your notebook in 3 steps

1.

2.

3.

You connect the receiver to your TV/touch panel.

Connect the transmitter to your PC's USB and HDMI port. The transmitter and receiver automatically establish a connection.

Then press the connect button on the transmitter to start transmitting your screen contents.

Share content easily from your mobile device

iOS

Connect your smartphone/tablet with the receiver via Wi-Fi. Then open screen synchronization and select the receiver as output device. As long as the receiver and iOS device are connected to the same network beforehand, you can share your content directly via screen synchronization.

Android

With activated WLAN, access the Sharing/Cast/ Display Sync function (share screen) of your mobile device and then select the receiver as the output device in order to share your content.

Click & Present Pro - Wireless Collaboration System

Package content:

- 1x Receiver unit
- 2x HDMI transmitter
- 1x USB charging adapter (10W, 5V/2A)
- 1x Storage tray for HDMI transmitter
- 1x Micro USB cable, 1.5 m
- 1x HDMI cable, 1.15 m
- 1x USB adapter (USB-A, jack - USB-C™, plug)
- 1x User manual

Description

The Wireless Collaboration System from DIGITUS® brings together all your devices (notebook, tablet, smartphone) and offers a hardware-based presentation solution for wireless transfer of screen content for meeting and conference rooms.

Up to 30 participants can be connected with the receiver. Up to 4 participants can present/collaborate simultaneously in split screen. Notebooks can be connected with the HDMI transmitter, the set can be extended with additional transmitters (DS-55322). Share content conveniently from a tablet/smartphone using the sharing/cast func-tion (iOS, iPadOS/Android) of your mobile device, to do so first connect your mobile device with the receiver (SSID) via WLAN.

The configuration of the system has been optimally simplified here - no additional software/apps are required. Increase the efficiency of your meetings, save time and achieve optimal results. **Share - Present - Collaborate.**

Highlights of the Click & Present Mini System

High Security	Plug & Play	No app/software required

Full HD	Air Play & Miracast	Broad compatibility	max. distance 50 m

Share from your notebook in 3 steps

1.

2.

3.

You connect the receiver to the HDMI port of your screen. Optionally, you can also connect this via USB port (additional power supply).

Connect the transmitter to your PC's HDMI port. Optionally also with the USB port (additional power supply). The transmitter and receiver automatically establish a connection.

Then press the connect button on the transmitter to start transmitting your screen contents.

Share content easily from your mobile device

iOS

Connect your smartphone/tablet with the receiver via Wi-Fi. Then open screen synchronization and select the receiver as output device.

Android

With activated WLAN, access the Sharing/Cast/ Display Sync function (share screen) of your mobile device and then select the receiver as the output device in order to share your content.

Click & Present Mini - Wireless Presentation System

Package content:

- 1x Transmitter unit
- 1x Receiver unit
- 1x Wifi / Power cable (0,75 m) for RX
- 1x Micro USB cable (0.8 m) for TX
- 2x HDMI extension cable (0,15 m)
- 1x QIG

Description

With the **Wireless Presentation System**, you can wirelessly transmit HDMI video and audio signals in Full HD over a distance of up to 50 m with an unobstructed view. Operation and installation are super simple. Real **Plug & Play - Just plug in and get started**.

With additional transmitters (DS-55320), the set can be extended to up to **16 transmitter units** (total). Switch to the desired transmitter quickly and easily at the press of a button in order to reproduce your content. You can also share content directly from your **mobile device** (smartphone/table) using your device's OS directly, **no additional app required**.

Transmitter can be supplied with power via your device's HDMI connection (> 500 mAh required). To have a safe and stable operation, we recommend to use always the Micro USB cables for power supply of TX and RX.

Thanks to the **compact design** of the transmitter and receiver, installation is **easy, quick and can be customized** - the perfect solution for meeting and conference rooms.

DIGITUS Wireless HDMI®
Extender / Splitter Set, 80 m
Product number: DS-55314

Description

The Wireless HDMI® Extender / Splitter Set transmits your high-resolution HDMI® video and audio signals wirelessly to a distance of up to 80 m (1:1 connection, unobstructed view)

Key - Facts

✓ The set can be extended by up to 4 receiver units (DS-55315) and offers splitter functionality with additional receivers
✓ Supports point-to-point and multicast (point-to-multipoint) transmission
✓ Distribute your HDMI® signal on up to 4 TVs/monitors
✓ Wireless transmission of HDMI® signals over a distance of up to 80 m (1:1 connection, unobstructed view)
✓ IR input and output for forwarding the remote control signal to the source device

All information also in our online store.

DIGITUS Receiver unit for Wireless
HDMI® / Splitter Extender Set, 80 m
Product number: DS-55315

Description

The additional receiver unit for the Wireless HDMI® Extender / Splitter Set supplements this multicast system with up to 4 receiver modules and receives your high-resolution HDMI® video and audio signals wirelessly at a distance of up to 80 m (1:1 connection, unobstructed view).

Key - Facts

✓ Set extension for the Wireless HDMI® Extender Set (DS-55314) to up to 4 receivers
✓ Supports multicast (point-to-multipoint) transmission for up to 4 receiver units
✓ IR input for forwarding the remote control signal to the source device
✓ Distribute your HDMI® signal on up to 4 TVs/monitors
✓ Plug and Play - no software or drivers needed

All information also in our online store.

DIGITUS Wireless HDMI KVM Extender Set, 200 m
Product number: DS-55321

Description

The Wireless HDMI® KVM Extender Set transfers your HDMI® video and audio signals in Full HD without a cable over a distance of up to 200 m (unobstructed view).

Key - Facts

✓ Wireless HDMI signal transmission up to 200 m (with unobstructed view)
✓ Point-to-point connection
✓ Supports transmissions resolutions up to Full HD (1080p / 60 Hz)
✓ KVM functionality for connection to mouse and keyboard
✓ Touch Screen Back Control - Supports touch screen panels (via USB connection on the receiver)
✓ Supports input signals with up to 4K/60Hz
✓ HDMI loop-out for connection of a local monitor to the transmitter unit

All information also in our online store.

## DIGITUS Wireless HDMI Extender Set, 50 m
Product number: DS-55318

Description

With the Wireless HDMI Extender Set, you can wirelessly transmit HDMI video and audio signals in Full HD over a distance of up to 50 m with an unobstructed view.

Key - Facts

✓ Multimedia transmission
✓ No software installation required
✓ Range: The transmission distance is up to 50 m with unobstructed view
✓ Private and professional applications: The streaming solution is suitable for subsequent or last-minute video transmissions
✓ Device requirements: All devices with HDMI interface
