## April Current Stock List

759 SPECIES AVAILABLE as of 28/03/2024

The following list are the species currently available in forestry tubes

Not all species are in our retail area

Availability subject to prior sale

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Acacia acuminata</b> Raspberry Jam Wattle	Large shrub/small tree 5m h x 3m w Flw:yellow ball Dec to feb Fol:green  Sand Coastal Salt Adaptable	Shade, Shelter, Posts, craft wood, Sandalwood host Acacia acuminata has edible seeds and an edible gum. Seeds, essence, add to icecream, bread and cakes.	160
<b>Acacia alata</b> var. alata	Shrub 2m h Flw:white-cream/yellow May to Dec Sand Loam Gravel Clay Adaptable		5
<b>Acacia binata</b>	Dense dome 1m h x 0.25-2m w Flw:Yellow Aug-Oct Fol:Green Loam Gravel Clay		18
<b>Acacia celastrifolia</b> Glowing Wattle	Round 1.5m h x 1.5m w Flw:yellow April - August Fol:Green Gravel Shade		9
<b>Acacia cochlearis</b> Coastal Wattle	Hardy erect to sprawling shrub 3m h x 1-2m w Flw:yellow July - October  Sand Coastal	Edible seeds, essence, add to icecream, bread and cakes.	9
<b>Acacia colletioides</b> Wait a while, Pin Bush	Mound 2m h x 2.5m w Flw:yellow July - Sept Fol:Prickly Green Salt Adaptable	Spreading Shrub	9
<b>Acacia cyclops</b> Western Coastal Wattle	dense shrub or tree (rarely) 4m h x 2-4m w Flw:yellow September - May	Good Windbreak Very high salt tolerance but sensitive to waterlogging Seeds can be ground to make flour when mixed with water and cooked as a bread. Gum from the stems can be eaten. Bardi grubs which can also be eaten can be found burrowing in the stems.	10
<b>Acacia denticulosa</b> Sandpaper Wattle	Tree 6m h x 4m w Flw:yellow July - August Fol:Phylodes - rough surface  Sand Loam Clay	DECLARED RARE FLORA Flowers look like large golden woolly caterpillars. Foliage rough like sandpaper.	35
<b>Acacia drummondii</b> ssp Candolleana	erect shrub 2m h Flw:yellow July - October Gravel		140

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Acacia drummondii ssp Elegans</b>	Shrub 2m h Flw:yellow July - October Fol:Fern like  Sand Gravel	Fast easy to grow	140
<b>Acacia extensa</b> Wiry Wattle	erect, slender shrub 2m h x 1-2m w Flw:yellow August - October  Sand Gravel Moist	Resistant to dieback Roasted seeds can be added to icecream, bread and cakes.	25
<b>Acacia glaucissima</b>	Shrub 1.5m h Flw:Yellow Winter-Spring Sand Clay Adaptable		20
<b>Acacia glaucoptera</b> Flat Wattle, Clay Wattle	prostrate or shrub 1.2m h x 2-3m w Flw:yellow Aug - Dec Gravel Clay		35
<b>Acacia hemiteles</b> Tan Wattle	dense, spreading shrub 2m h x 2-3m w Flw:yellow May - October Clay Adaptable		12
<b>Acacia heterochroa</b> ssp heterochroa	Dense, spreading 2m h Flw:Yellow Apr-Dec Gravel		6
<b>Acacia horridula</b>	Small, grass-like 0.6m h Flw:White May-Aug Fol:Prickly Sand Gravel	This is a priority 3 plant	50
<b>Acacia howittii</b> Dwarf Form	Weeping Flw:Yellow Spring Fol:Bright green Adaptable		100
<b>Acacia lanuginophylla</b>	Dense Low Shrub 1.2m h x 1.5m w Flw:yellow July - Oct Fol:Grey  Sand Gravel Clay	THREATENED SPECIES IN THE WILD (Declared Rare Flora — Extant) Furry foliage White/grey sand, clayey sand, gravelly soils. Flats, along drainage lines.	80
<b>Acacia lasiocalyx</b> Silver Wattle	Weeping 5m h x 6m w Flw:yellow July - October Fol:Green  Gravel	open, often weeping shrub or tree	125
<b>Acacia lasiocarpa</b> var lasiocarpa	Shrub 1.5m h Flw:Yellow Jun to Oct.  Gravel Clay Coastal Moist Adaptable	Sandy soils, sandy gravel, clay. Coastal dunes & flats, swamps.	75

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Acacia lateriticola</b>	Shrub 1.5m h x 1-2m w Flw:pale yellow, cream May - October Gravel		9
<b>Acacia leptospermoides</b> ssp leptospermoides	Dense, spreading 2m h x 2-3m w Flw:Yellow June - September Sand Loam Gravel Clay		12
<b>Acacia ligustrina</b>	Mound 2.5m h x 2m w Flw:yellow August - October Fol:Grey Loam Gravel Clay		30
<b>Acacia littorea</b>	dense, pungent shrubs 3m h Flw:pale yellow August - November Sand Coastal		7
<b>Acacia maxwellii</b>	Prostrate small shrub 0.4m h x 0.5m w Flw:Cream-yellow Sep to Oct Fol:Green  Sand Loam Gravel Clay Adaptable	White sand, sandy clay or loam, gravelly soils. Undulating plains, flats, along watercourses.	40
<b>Acacia merinthophora</b> Zig Zag Wattle	weeping shrub or tree 4m h x 3-4m w Flw:yellow May - September Sand Gravel		23
<b>Acacia microbotrya</b> Manna Wattle, Gum Wattle	Bushy shrub or tree 7m h x 2-5m w Flw:pale yellow March - July  Loam Clay	Weed in the Swan NRM Region - Refer to Florbase. It has an edible gum. The seeds can be roasted and added to icecream, bread and cakes.	50
<b>Acacia myrtifolia</b>	Shrub Flw:Yellow-cream May - Jan Sand Gravel		70
<b>Acacia oncinophylla</b>	shrub 3m h x 1-2m w Flw:yellow August - December Gravel		60
<b>Acacia pulchella</b> Prickly Moses	shrub 3m h x 1m w Flw:yellow May - Dec Fol:Prickly, fern like Sand Clay Coastal Moist		50
<b>Acacia pulviniformis</b> Cushion Wattle	Prostrate, cushion like 0.25m h Flw:Yellow Aug-Oct Sand Gravel Clay		80
<b>Acacia redolens low form</b> <b>SST</b>	shrub/tree 5m h Flw:Yellow Aug-Oct  Clay		200

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Acacia saligna</b> Golden Wreath Wattle, Orange Wattle	Erect 6m h x 6m w Flw:yellow July - November Fol:Green  Coastal Moist Salt Adaptable	Great plant to get some quick height with a weeping form in the garden as other trees get established. Live for 5 - 10years. Host for Sandalwood Edible seeds: Roast and added to icecream, bread and cakes. Black Cockatoo : Food Bush tucker	15
<b>Acacia semitrullata</b>	Slender, erect shrub 0.7m h Flw:Cream-White May - Oct Sand Clay Moist	PRIORITY 4	6
<b>Acacia spectabilis</b> Mudgee Wattle	Small tree 5m h x 3m w Flw:Yellow Late winter Fol:Light green  Sand Gravel	Fast growing , open screen Upright shrub or tree	200
<b>Acacia stenoptera</b> Narrow winged wattle	sprawling or erect tangled,shrub 0.7m h Flw:cream, yellow March - December Fol:prickly Sand Gravel Coastal Moist		200
<b>Acacia urophylla</b> Net leaved wattle	erect, slender, open shrub 4m h x 2-4m w Flw:pale yellow, cream, white May - October  Gravel	The seeds can be roasted and added to icecream, bread and cakes.	40
<b>Acacia verrucula</b>			15
<b>Actinodium cunninghamii</b>	Slender Shrub 1m h Flw:white & pink Aug-Nov  Sand Clay Moist	Sandy or clayey soils. Winter-wet depressions.	10
<b>Actinodium sp fitzgerald river</b>	Dwarf Shrub 1m h x 0.5m w Flw:Pink & White Aug-Oct Fol:Fine grey-green  Shade Adaptable	Grows in a range of light conditions from full sun to dappled shade. Lovely as a container plant. Good drainage is required.	60
<b>Adenanthos cuneatus low form</b>	Erect or spreading shrub 1m h x 3m w Flw:dark red, pink Aug-Nov  Sand Coastal		50

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Adenanthos cuneatus</b> Prostrate form	Spreading shrub 0.3m h x 3m w Flw:red-pink Aug-Nov  Sand Coastal		35
<b>Adenanthos cunninghamii</b> prostrate	Low growing spreading shrub 0.5m h x 2m w Flw:Small red March, Sept and Oct  Sand Coastal	Priority Four Suitable for sun or part shade	15
<b>Adenanthos cunninghamii</b>	Bushy shrub 2.5m h x 1.5-2.5m w Flw:Small red March, Sept and Oct Sand Coastal	Priority Four	90
<b>Adenanthos cygnorum</b> Pencil Pine Form			10
<b>Adenanthos cygnorum</b> Common Woollybush	non-lignotuberous shrub 4m h Flw:white, cream, pink, green July - January  Sand Loam Gravel Clay Shade	A rare native bee ( <i>Hylaeus globuliferus</i> – Priority 3) is associated with this plant.	30
<b>Adenanthos detmoldii</b> Scott River Jugflower	erect diffuse lignotuberous shrub 4m h x 2-3m w Flw:yellow, orange January/April - December  Sand Moist	Priority Four Swamps, Roadsides	50
<b>Adenanthos ellipticus</b> Oval Leaf Adenanthos	Upright 3m h x 3m w Flw:Orange/Red/Pink Apr-May/Aug-Nov Fol:Soft new growth  Sand Gravel	Conservation code Threatened (T). Found only to the Fitzgerald River National Park. Prune to maintain attractive appearance. Help to preserve by growing in our gardens.	70
<b>Adenanthos ileticos</b> Club-leaf Adenanthos	Mound 1.5m h x 2m w Flw:pale pink, March - Dec Fol:Grey Green  Sand	Priority Four Great bird attracting and shelter shrub for small birds	80
<b>Adenanthos labillardierei</b>	Erect shrub 1.5m h Flw:Red, cream, pink March - December Sand Gravel		45
<b>Adenanthos meisneri</b>	Mound 1.5m h x 1-2m w Flw:red, pink July - April Fol:Grey Green Sand Gravel		80

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Adenanthos obovatus</b> Basket Flower	Erect 1m h x 1m w Flw:red scarlet, orange, May - Dec Fol:Green Sand Loam Gravel Moist	A slender, many-stemmed shrub which grows to 1m and has narrow dark green leaves. The scarlet flowers appear in sprays throughout the winter months. Soil Types: White or grey sand, gravel, loam. Consolidated sand dunes, swamps, winter-wet depressions, hillsides.	30
<b>Adenanthos sericeus</b> Albany Woolybush	non-lignotuberous shrub or tree 5m h x 2-4m w Flw:red, orange June - April Sand Gravel Coastal Adaptable		100
<b>Adenanthos x pamela</b>	Erect small shrub. 1m h x 0.5m w Flw:orange,red May to Dec Fol:Green Sand Gravel	Priority Four Thought to be a natural hybrid between Adenanthos obovatus and Adenanthos detmoldii. First discovered in 1979.	35
<b>Allocasuarina fraseriana</b> Sheoak	Erect tree 15m h Flw:brown May - October Sand Gravel Coastal	Edible seeds.	35
<b>Allocasuarina humilis</b> Dwarf Sheoak	erect or spreading shrub 2m h x 1.5-2m w Flw:red, orange, brown May - November Sand Gravel Clay Coastal		5
<b>Alyogyne cuneiformis</b>	Evergreen shrub 5m h Flw:White/Cream May-Dec Fol:Green Sand Gravel Coastal		15
<b>Alyogyne hakeifolia</b> Yellow Flowers	Medium shrub Flw:creamy yellow Sept-Dec Fol:needle leaves Adaptable		11
<b>Alyogyne hakeifolia</b> Cream Flowers	Shrub 3m h Flw:Cream May to Feb Sand Loam Coastal		40
<b>Alyogyne huegelii</b> white form	medium spreading scrub,full sun 1.5m h x 0.8m w Flw:white summer/autumn Fol:bright green Adaptable		30
<b>Alyogyne huegelii</b> Blue Heeler (Ground cover)	Prostrate 0.5m h x 0.5-1m w Flw:Purple June-Jan Fol:Green Sand Loam Gravel Clay Coastal	Small shrub/ ground cover	60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Androcalva crispa</b> Small leaf form			50
<b>Androcalva crispa Large leaf form.</b>	Small Shrub 0.6m h x 0.6m w Flw:White, Pink Mar, July-Nov Fol:Deep Green.  Sand Gravel	This plant used to be known as Commersonia crispa.	35
<b>Anigozanthos humilis</b> Cat's Paw or Quoll's Paw	Tufted 0.1m h x 0.2m w Flw:yellow, orange July - October Fol:Green  Loam Gravel Clay Coastal Moist	Small annual Kangaroo paw Great for rockery like gardens	20
<b>Aotus gracillima</b>	shrub 2m h x 1m w Flw:yellow & red/brown Aug to Dec Fol:Green Sand Clay Moist	Erect slender shrub	120
<b>Aotus procumbens</b>	Small shrub 0.5m h x 0.5m w Flw:yellow / brown Aug to Sep Fol:Green Sand Moist	Spreading shrub	80
<b>Astartea aspera</b>	Small shrub 1.5m h Flw:Pink/white Loam Clay Adaptable		20
<b>Astartea clavulata x astarteoides</b>	Erect shrub 1m h x 1m w Flw:Pink Spring  Sand Loam	Astartea 'Winter Pink' is a hybrid of two species, Astartea astarteoides and A. clavulata, that arose in a Western Australian nursery in 1976. Both parents are Western Australian species.	120
<b>Astartea muricata</b>	Shrub 1m h Flw:Pink/white Oct-Nov Fol:Green  Sand Clay Moist Adaptable	Grey clay, deep yellow-grey sand. Seasonally-wet flats, river flats.	100
<b>Astartea scoparia</b>	Erect Shrub 1.8m h Flw:Pale Pink Summer Sand Loam Adaptable		60
<b>Astus tetragonus</b> Chingarrup			80
<b>Atriplex bunburyana</b>			300

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Atriplex semibaccata</b> Berry Saltbush/Creeping saltbush	Herb 0.5m h x 1.8m w  Sand Loam Clay Salt	Species of Atriplex have the common name of 'Salt Bush'. They are plants of the dry interior but a few are native to coastal districts. There are approximately 40 species in Australia and some have been boiled and used as a green vegetable. Some have been used in Chinese cooking to give a salty bitter taste.	60
<b>Atriplex vesicaria</b> Bladder Saltbush	erect shrub. 1m h x 1-2m w  Sand Gravel Clay Coastal Salt	Species of Atriplex have the common name of 'Salt Bush'. They are plants of the dry interior but a few are native to coastal districts. There are approximately 40 species in Australia and some have been boiled and used as a green vegetable. Some have been used in Chinese cooking to give a salty bitter taste.	80
<b>Austromyrtus dulcis</b> Midyim Berry	Small spreading shrub 0.4m h x 1.4m w Flw:White Spring-Summer Fol:Dark Green  Sand	If grown in shade, this plant will reach 2m high as it comes from a woodland/rainforest fringe.	60
<b>Austrostipa elegantissima</b> Elegant Spear Grass	Tufted 1m h x 1m w Flw:Silver heads Aug to Dec Fol:Green  Sand Loam Clay	Rhizomatous. tufted decumbent perennial. grass-like or herb	30
<b>Babingtonia camphorosmae</b> Bungendore	Low spreading shrub 0.5m h Flw:Pale pink May to Feb Loam Gravel Clay		50
<b>Babingtonia sp.</b> Northern Plain	Low spreading Shrub 0.3m h x 0.3m w Flw:Mauve/pink Winter		40
<b>Babingtonia sp.</b> Eurardy	Low spreading shrub., 0.3m h x 0.3m w Flw:Mauve/pink Winter		60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Balaustion grande</b>	Small shrub 1m h x 1m w Flw:White/Pink July-Sept Fol:Very fine Sand Gravel Adaptable	Priority Three	60
<b>Balaustion sp</b>			15
<b>Banksia ashbyi</b> subsp. Ashbyi	Small tree. 8m h Flw:Bright Orange Mainly in winter. Fol:Prickly  Coastal Adaptable	Prefers pH 6.0-7.5. Suits semi-arid areas and tolerates dry conditions. Has no lignotuber. Re-generates from seed after fire.	120
<b>Banksia ashbyi</b> ssp. Boreoscaia	Dome 1.5m h x 1.5m w Flw:Yellow Winter. Fol:Silver-grey  Sand Coastal	Flowers at any season but mainly in winter. Re-grows from a lignotuber after fire. Prickly	100
<b>Banksia attenuata</b> Coast Banksia,Slender Banksia	Tree 5m h x 3m w Flw:yellow Oct to Feb Fol:Light Green  Sand Loam Gravel Coastal	Chewing the new growth makes a gum. GOOD FOOD SOURCE FOR BLACK COCKATOOS Banksias rarely show deficiency symptoms except when the pH is too high.	120
<b>Banksia attenuata</b> Dwarf Form	Small tree 2m h Flw:Yellow Oct-Feb  Sand Loam Gravel Coastal	Black Cockatoo : Good food source Banksias rarely show deficiency symptoms except when the pH is too high.  Hylaeus globuliferus – Priority 3 This native bee is associated with Banksia attenuata	80
<b>Banksia baueri</b> Possum Banksia,Woolly Banksia	Bushy Shrub 5m h x 2-3m w Flw:brown & yellow/cream-other May to Oct  Sand Loam Gravel	Banksias rarely show deficiency symptoms except when the pH is too high.	60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Banksia benthamiana</b>	Shrub 4m h Flw:Yellow-orange brown Nov - Jan  Sand Loam Gravel Clay	Priority Four Banksias rarely show deficiency symptoms except when the pH is too high.	50
<b>Banksia blechnifolia</b> Creeping banksia	Tufted, Prostrate 0.3m h x 2m w Flw:Burgandy Sep to Nov Fol:Green  Sand Gravel	PROSTRATE upright form Banksias rarely show deficiency symptoms except when the pH is too high.	100
<b>Banksia brownii large shrub form</b>	Bushy non-lignotuberous shrub. 6m h Flw:pink yellow pistils  Loam Salt Adaptable	This is a threatened species in the wild.	10
<b>Banksia burdettii</b> Burdetta Banksia	Shrub 4m h Flw:orange/yellow Jan - May  Sand Gravel	Banksias rarely show deficiency symptoms except when the pH is too high.	60
<b>Banksia caleyi</b>	Mound 2m h x 1-2m w Flw:Red/pink & cream Spr-Sum Fol:Stiff, green.  Sand Gravel	Dense shrub Banksias rarely show deficiency symptoms except when the pH is too high.	40
<b>Banksia dryandroides</b>	Shrub 1m h x 1.5m w Flw:brown/orange-yellow Sep - Jan  Sand Loam Gravel	Banksias rarely show deficiency symptoms except when the pH is too high.	10
<b>Banksia epica</b> low shrub form			100
<b>Banksia gardneri var gardneri</b>	Prostrate shrub. 0.3m h x 1-1.5m w Flw:Orange-brown Sept-Nov Fol:Deep Green  Sand Gravel Coastal	Grey, yellow sand & lateritic gravel.	60
<b>Banksia gardneri var gardneri</b>	Prostrate shrub 0.3m h Flw:Orange - Brown Sept-Nov  Sand Gravel	Grey, yellow sand & lateritic gravel.	60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Banksia grandis</b> Low coastal shrub form.	Shrub 2m h x 1-2m w Flw:Large yellow Spring Fol:Large & green.  Adaptable	Bird and insect attracting. Drought tolerant.	70
<b>Banksia hookeriana</b> Hooker's or Acorn Banksia	Much-branched. non-lignotuberous shrub 3m h Flw:yellow-orange Apr - Oct  Sand	Black Cockatoo : Good Food Banksias rarely show deficiency symptoms except when the pH is too high.	100
<b>Banksia laevagata subsp fuscolutea</b>	Non-lignotuberous shrub Flw:Yellow Dec, Jan-Feb Fol:Green  Sand Gravel Clay		10
<b>Banksia laricina</b>	Non-lignotuberous shrub. 2m h Flw:Yellow April-July Sand Moist		30
<b>Banksia lemnniana</b>	Non-lignotuberous shrub 5m h Flw:yellow/green-yellow Sep to Dec or Jan to Mar  Loam Gravel	Banksias rarely show deficiency symptoms except when the pH is too high.	30
<b>Banksia leptophylla</b>	Shrub 3m h Flw:Yellow/orange  Sand Gravel Coastal	Black Cockatoo : Food Banksias rarely show deficiency symptoms except when the pH is too high.	70
<b>Banksia littoralis</b> Swamp Banksia	Tree or shrub 12m h Flw:yellow/orange-yellow Mar to Aug  Sand Coastal Moist	Black Cockatoo : Very good Food source Banksias rarely show deficiency symptoms except when the pH is too high.	80
<b>Banksia lullfitzii</b>	Lignotuberous shrub 2m h Flw:Yellow/orange Mar-May Fol:RARE Sand	RARE - PRIORITY 3	30

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Banksia media</b> Southern plains banksia,Golden Stalk	Spreading shrub or tree 4m h x 2m w Flw:large yellow Mar to Dec  Sand Loam Clay Coastal	An outstanding specimen shrub which can grow up to 6m. It has prominent creamy yellow flower spikes from February to October. It prefers light, well-drained soils in full sun or partial shade. Banksias rarely show deficiency symptoms except when the pH is too high.	120
<b>Banksia media dwarf form</b> Dwarf Golden Stalk Banksia			40
<b>Banksia menziesii</b> Menzies' Banksia	Tree or Shrub 7m h Flw:pink/red/yellow Feb to Oct  Sand	Black Cockatoo : Very good food source A small shrub or tree, It has long toothed leaves and striking silky pink to red flowers in autumn and winter. Requires a well drained soil A showy banksia for use as a feature or windbreak. Banksias rarely show deficiency symptoms except when the pH is too high.	140
<b>Banksia menziesii Dwarf form</b>	Mound 1.5m h x 1.5m w Flw:Burgundy Feb-Oct  Sand Coastal	Black Cockatoo : Very good food source Banksias rarely show deficiency symptoms except when the pH is too high.	100
<b>Banksia nivea syn. Dryandra nivea</b>	Shrub 1.5m h Flw:cream-yellow-orange-pink/red-brown Apr to Nov  Sand Gravel	Black Cockatoo : Very good food source Nectar, dip flowers in water to make a sweet drink. Banksias rarely show deficiency symptoms except when the pH is too high.	70

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Banksia nutans</b>	Shrub 1m h Flw: pink/purple - purple brown Jan Apr  Sand	Banksias rarely show deficiency symptoms except when the pH is too high.	20
<b>Banksia occidentalis var formosa</b>			100
<b>Banksia petiolaris</b>	Prostrate shrub 0.6m h x 2-4m w Flw: pink & yellow/red-cream-brown Sep to Dec  Sand	Banksias rarely show deficiency symptoms except when the pH is too high.	225
<b>Banksia praemorsa</b> yellow flowers			80
<b>Banksia praemorsa</b> Low Coastal Red Flowers	Shrub 1.5m h x 2m w Flw: Wine Red July-Oct Fol: Green Sand Coastal		40
<b>Banksia prionotes</b> Orange or Acorn Banksia	Tree: Erect 10m h Flw: cream & orange Feb to Aug Fol: Green  Sand Loam Gravel Clay	Black Cockatoo : Very good food source Non-lignotuberous tree or shrub Banksias rarely show deficiency symptoms except when the pH is too high.	230
<b>Banksia repens</b> Creeping Banksia	Prostrate, lignotuberous shrub 0.5m h x 2-4m w Flw: cream & pink/brown-orange-yellow Sep to Nov  Sand Gravel Coastal	Banksias rarely show deficiency symptoms except when the pH is too high.	45
<b>Banksia sceptrum</b>	Compact small shrub 1.5m h x 1.5m w Flw: Yellow Summer		50
<b>Banksia sceptrum low coastal</b>	Dome 1.5m h x 1.5m w Flw: Yellow Nov - Dec Fol: Green  Sand Coastal	Banksias rarely show deficiency symptoms except when the pH is too high.	50
<b>Banksia seminuda</b>			30

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Banksia speciosa</b>	Shrub or Tree 6m h Flw:Yellow-green-cream may - Jan  Sand Gravel Coastal	Black Cockatoo : Very good food source Banksias rarely show deficiency symptoms except when the pH is too high.	80
<b>Banksia speciosa</b> Low coastal form	Shrub 1m h x 1.5m w Flw:Green/cream April-June Fol:Stiff green.  Sand Gravel Coastal	Very showy. Good food source for Cockatoos.	35
<b>Banksia sphaerocarpa var. caesia</b> fruit Banksia	Shrub 4m h Flw:yellow-orange/red-brown/purple-brown Jan - Oct  Sand Loam Gravel	Banksias rarely show deficiency symptoms except when the pH is too high.	15
<b>Banksia telmatiaea</b>	Shrub 1.5m h x 2m w Flw:yellow-orange Apr - Oct Fol:Green  Sand Clay Moist	Banksias rarely show deficiency symptoms except when the pH is too high. Non-lignotuberous shrub	60
<b>Banksia undata</b> var splendens	Erect shrub 3m h Flw:yellow sept to Oct  Sand Loam Gravel	aka Dyrandra praemorsa var splendens Black Cockatoo : Very Good food source Banksias rarely show deficiency symptoms except when the pH is too high.	12
<b>Banksia undata ssp undata</b> Quary Gosnells			160
<b>Banksia undata var undata</b> Nettleton rd Jarrahdale			25
<b>Banksia victoriae</b>	Shrub or tree 7m h Flw:orange yellow Jan - Feb  Sand	Non-lignotuberous shrub or tree, Yellow or pale red-brown sand. Banksias rarely show deficiency symptoms except when the pH is too high.	60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Baumea rubiginosa</b> Soft Twig-rush	Tufted 2m h x 2m w Flw:purple-brown Jul to Dec Fol:Green  Moist	Waterlogged soils, swamps, river and lakes edges Rhizomatous. robust. colonising perennial. grass-like or herb (sedge)	100
<b>Beaufortia anisandra</b>	Densely branched shrub. 1.5-1.5m h x 1m w Flw:Dark red/purple Oct-May Fol:Olive-green  Sand Gravel	Grows in very well-drained sandy or gravelly heavy soils in part to full sun. This plant is reputed to have an unpleasant odour so plant in an area away from recreation and traffic areas.	45
<b>Beaufortia bracteosa</b>	Low Shrub 1m h x 0.5-1.5m w Flw:Dark Red Sept- Dec Fol:Green/Grey  Sand Adaptable	Grows in well-drained sandy soils in part to full sun.	35
<b>Beaufortia cyrtodonta</b> Stirling Range Bottlebrush	Shrub 1.5m h x 0.8-1.5m w Flw:Red Aug-Oct Fol:Fine light green  Sand Gravel Clay	Sand, often lateritic, stony clay. Hillslopes, outcrops, flats.	50
<b>Beaufortia incana</b>	Shrub 3m h x 1.5-2m w Flw:Red and green Sept to Dec  Sand Gravel Clay		40
<b>Beaufortia micrantha (Mt Holland)</b>	Dwarf 0.7m h x 0.7m w Flw:Globular Mauve Spr-Sum Fol:Stem clasping  Adaptable	Good rockery plant	60
<b>Beaufortia orbifolia</b> Ravensthorpe Bottlebrush	Erect 1.5m h x 0.75m w Flw:Red Ap-Aug, Dec-Jan Fol:Green  Sand Gravel Adaptable	Open shrub	80
<b>Beaufortia orbifolia</b> Mt Holland			12
<b>Beaufortia purpurea</b> Pink Bottlebrush	Mound 1m h x 1.5m w Flw:red-purple Jan to Feb Fol:Green  Gravel		40
<b>Beaufortia schaueri</b> Pink Bottle Brush	Shrub 1m h x 1-1.5m w Flw:pink Sept-Nov  Sand Gravel	Well drained soil. Dappled shade to full sun.	60

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Beaufortia sparsa</b> Swamp Bottlebrush	Shrub 3m h Flw:red-orange Jan to Apr or Sep to Nov Sand Moist		80
<b>Beaufortia sprengelioides</b>			60
<b>Beaufortia squarrosa</b> Red Flowering Form	Small-Medium Dense Shrub 2m h Flw:Red. Jan to May or Aug to Dec Fol:Egg shaped, Green.  Sand Gravel Coastal Moist Adaptable	This is a very ornamental shrub and can be used for screening, wind break, low maintenance gardens, courtyards, poolsides and coastal gardens.	100
<b>Beaufortia squarrosa</b> Orange Flowering Form	Small-Medium dense shrub. 2m h x 1.5m w Flw:Orange Jan-May Fol:Egg shaped, green.  Sand Gravel Coastal Moist Adaptable	This is a very ornamental shrub and can be used for screening, wind break, low maintenance gardens, courtyards, poolsides and coastal gardens.	35
<b>Boronia clavata</b>	Upright. slender shrub 1.5m h Flw:yellow-green Aug to Oct	Threatened Flora (Declared Rare Flora — Extant)	70
<b>Boronia dichotoma</b>	Erect 0.5m h x 0.3m w Flw:pink Aug to Dec Fol:Green Sand Clay Moist		45
<b>Boronia heterophylla</b> Red Boronia	Erect. slender shrub 3m h Flw:red/pink Sep to Nov Sand Moist		50
<b>Boronia heterophylla white</b> Ice Charlotte	Shrub 2m h x 1-1.2m w Flw:White with a touch of pink Spring Sand Shade Moist		40

Upright, broom-like Grows on sand, loams, lateritic in the Coolgardie, Eyre and Roe districts in WA. Will grow in well drained soils in dappled light but is stronger in full sunlight. Frost and drought tolerant. Pruning to aid bushier growth particularly if done early.	40
	Sand Gravel Clay Shade Adaptable		

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Eremophila denticulata</b>	Shrub 2.5m h x 1-3.5m w Flw:pink-orange-yellow-red Sep - Mar Fol:Dark green	Tolerates part shade.  Occurs in a very restricted area near Ravensthorpe, WA growing on loam beside rivers.  Widely grown in cultivation helping protect it from extinction. Very adaptable to soil and conditions, growing best in full sun, but will tolerate dappled shade. Tolerates dry periods and some frost. Leggy if left unpruned in early stages of growth. Attractive to honey-eating birds. Propagated easily from cuttings which strike readily.	60
	Loam Gravel Clay Shade Adaptable		
<b>Eremophila divaricata</b>	Shrub 1m h x 2m w Flw:Lilac to mauve Sept-Dec Fol:Dull green	Useful as a low screening plant or for use in large containers. Grows well in a wide range of soil and climatic conditions.	80
	Sand Loam Clay Adaptable		
<b>Eremophila drummondii</b>	Shrub 2m h x 0.5-1.5m w Flw:blue-purple Apr or Jul to Nov	Tolerates light frost and drought	10
	Gravel Clay Shade Adaptable		
<b>Eremophila drummondii</b> Low form	Low Shrub 0.5m h x 0.5-1.5m w Flw:blue-purple Apr or Jul to Nov	Tolerates light frost and drought	15
	Gravel Clay Shade Adaptable		
<b>Eremophila drummondii x nivea</b>	Erect 1.5m h x 1m w Flw:Purple Spring Fol:Green	Tolerates part shade	80

<b>Westringia sp</b> Shortcut	Flw: Pale Mauve Sand Loam		30
<b>Westringia sp</b> Number 2			4
<b>Westringia White Rambler</b>	Mound 1m h x 1.5m w Flw: White Spring-Summer Fol: Green Coastal Adaptable		40

Botanical Name Common Name	Habit and size Flowering colour and period Soil type and environment	Comments	Qty Avail
<b>Xanthorrhoea gracilis</b> Graceful grass tree or Mimidi		The flowers produce lots of nectar. Aboriginal people would soak the flowers in water to make a sweet drink. Once the flowering stalk has sprouted it can be pulled out of the plant and the succulent white base chewed and ground to obtain the sweet, juicy white pulp. One can continue chewing up the stem until it becomes too woody.	40
	Shade		
<b>Xanthorrhoea preissii</b> Grass Tree	Tree like monocot 5m h x 2m w Flw:white-cream on long spike June to Dec	Very slow growing - trunk 10+ years per cm Black Cockatoo : Good food source Gum from the flowering spikes can be made into cakes. The flowers can be dipped in water to make a sweet drink. Bhardi grubs can be collected from dying plants.	20
	Sand Loam Gravel Coastal Moist
