# WHY BABIES TOUCH OUR HEART

Top 10 reasons

## Because ...

- ... their first smile feels like a birthday and Christmas all rolled into one.
- ... they turn our days, and most of all our nights, upside down.
- ... they smell so unbelievably good that we just can't get enough.
- ... they have the cutest little fingers and toes in the whole wide world.
- ... they can yawn like little lions.
- ... with them around, life will never, ever, ever be boring again.
- ... they laugh at all the silly faces we pull.
- ... suddenly, we would rather go shopping for our little darling than for ourselves.
- ... they can get so much fun out of their tiny feet.
- ... no two babies are the same.

# Our philosophy

## FIRST CLASS : BECAUSE THE SMALLEST PASSENGERS HAVE HIGHEST DEMANDS

First Class is, and always will be, the most comfortable way to travel from A to B - with a relaxing reclining position, lots of leg room and the reassuring feeling of being safe and cared for. Your baby can enjoy this experience, too.

A teutonia stroller makes premium quality and a feel-good factor part of your everyday life together. In our factory, high-quality German engineering produces first-class stroller and accessories that you can rely on at all times. Not only does your teutonia fit your lifestyle, it reflects your personal style.

The "Made for You" concept allows you to design your preferred pram/stroller model, carry-cot and accessories to suit your taste – just follow the step-by-step guide in this catalogue. It's easy, as mothers and their babies will tell you. When put to the test in everyday situations, the teutonia proves that good design and first-class comfort go hand in hand. The latest addition to your family will glide smoothly over pavements – tucked up snugly in his or her firstclass carriage.

*Welcome on board little passengeres!*

# Our standards

Every day your baby grows and develops, and every day our engineers make new discoveries and advances. All our new ideas and materials are subjected to stringent testing by independent institutes (e.g. by the TÜV, German certification body, for the GS safety symbol), since for us "Made in Germany quality" means the highest standards for our materials, design and workmanship. All of the materials used in our teutonia prams, pushchairs and accessories are free from harmful substances. We take the greatest care to ensure a high-quality finish and we perform extensive load tests. This is why we grant you an extended three-year warranty on each model.

## Our promise to you

**3 YEARS

# Step by Step to your desired

## FIVE STEPS TO YOUR CUSTOMISED TEUTONIA MODEL

First Class also means a choice of seats. To make sure that your child's new favourite place is as personalised and comfortable as possible, you can create your own customised teutonia in a few simple steps.

**Step 01**  
Choose your personal favourite from our eight models.

**Step 02**  
Select a carry-cot.

**Step 03**  
Step 03: choose one of our beautiful dessins or use your own imagination to combine one of your favourite colours of the Made for You dessins

**Step 04**  
Decide on your preferred wheel/rim combination.

**Step 05**  
Choose your personalised package of accessories.

**STEP 01**  
Choose your model

**STEP 02**  
Choose a carry-cot

**STEP 03**  
Choose the Dessin

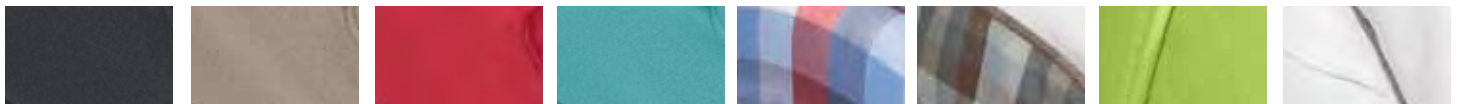

**STEP 04**  
Choose the wheels

**STEP 05**  
Choose the accessories

# Stroller

teutonia

The pictures show just a selection of the available accessories and designs.

teutonia and our *BeYou!*

*“You can make the BeYou! very compact in size, but when it comes to cosiness it’s a big hit: Amelie snuggles up on the soft padding and we’re all set for a long walk.”*

Karen (36) and Amelie (10 months) from London

**2 VERSIONS**  
Stroller  
available in  
black and silver

When it comes to maximum comfort combined with a compact design, Karen and Amelie agree: the BeYou! is perfect for all parents looking for a flexible all-rounder for everyday use. Its easy handling, smooth-running chassis and practical

features make any trip into town a breeze. But don't be surprised if your little passenger sleeps through it all – the spacious interior and comfortable padding are simply too inviting.

# BeYou!

## PREMIUM COMFORT AND PRECISION IN EVERY DETAIL

2 VERSIONS  
Stroller  
available in  
black and silver

Base model  
with seat  
0 months to 3 years

- BeYou is the most compact teutonia aluminium frame, available in high scratch resistant anodized Silver or unique Noir color finish that further sets your stroller apart from the rest.

- agile steering in the city, thanks to the lockable front swivel wheels
- independent front & rear wheel suspension with ball bearing construction for a smooth ride
- hole-cambre EVA tires for maintenance free strolling
- optional Deceleration brake available
- teutonia seat unit suitable from birth
- forward and rearward facing seat option for changing child's viewing direction
- comes with a clear rain cover
- accepts teutonia insert & chassis carry cots as well as car seat group 0+ adapters

# WHAT MAKES A GOOD STROLLER?

**Soft carry-cot**  
as an additional option  
0 to 6 months

**Comfort Plus carry-cot**  
as an additional option  
0 to 6 months

**Tario car seat**  
as an additional option\*\*  
& travel system, 0 to 12 kg

\*\* Adapter available for teutonia Tario, Maxi-Cosi (Modele Citi, Cabrio and Pebble) and Römer (Model Baby Safe Plus)

**Chassis folded**  
compact and easy to manoeuvre  
selfstand feature

When it comes to your baby's first pram, you should accept no compromises. After all, it will be your little one's constant companion for the next two years or longer. A stylish external appearance is not enough, what's inside is equally important.

The main criteria to consider include:

- Have all the materials been tested?
- Has the workmanship been quality tested?
- Is the reclining area comfortable enough (space and cushioning) for your baby?
- Can you adjust the handlebar to your height?
- Is the pram easy to steer?
- Can you change your child's angle of vision?

Out and about with our **Cosmo**

*“The Cosmo handles all the tight turns in town with the greatest of ease - and Noah is so comfortable that he doesn't notice a thing.”*

Nina (28) and Noah (14 months) from Birmingham

**NEW  
3 VERSIONS**  
Stroller  
available in  
black, silver  
and white

Two 360° individual swivel wheels, which can also be locked, make the Cosmo a nimble companion for day-to-day outings. Nina and Noah appreciate its practical features every

day in the city. From a shopping trip to a walk in the park, not only is the Cosmo easy to steer, its stylish aluminium chassis folds up to a compact size for easy carrying.

# Cosmo

& travel system, 0 to 12 kg

\* Adapter available for teutonia Tario, Maxi-Cosi (Modele Citi, Cabrio and Pebble) and Römer (Model Baby Safe Plus)

On tour with *Mistral S*

*„Mistral S offers for David his personal relax area even when outside it storms.“*

Julia (31) with David (4 months) from Cardiff

If you like to get out and about as much as Julia and David do, you're sure to love the Mistral S. A few simple adjustments turn this comfortable city stroller into a fully-fledged off-road vehicle.

Simply swivel the pivoting handlebar and you're ready to go. For little passengers who are eager to discover the world, the seat can also be reversed.

# Mistral S

## THE FLEXIBLE ALL-ROUNDER FOR THE TOWN AND COUNTRY

0 to 6 months

**Vario Plus-Carry-cot**  
as an additional option  
0 to 6 months

**Tario Carseat\***  
Travelsystem, 0 to 13 kg

\* Adapter available for teutonia Tario, Maxi-Cosi (Modele Citi, Cabrio and Pebble) and Römer (Model Baby Safe Plus)

**Mistral S the test winner 2011**  
Category result of the test model  
teutonia Mistral S model 2011:

**Handling : good**  
**Child : very good**  
**Stability : very good**  
**Real-life testing : very good**  
**Other remarks : good**

Overall results for all strollers :  
1x good, 2x satisfactory, 4 x sufficient, 3x insufficient

Smooth glide regardless of the terrain, with our *Mistral P*

*“Even on bumpy country tracks, in our super comfortable Mistral P, Max can count sheep instead of potholes.”*

Eva (32) and Max (6 months) from Liverpool

The Mistral P takes uneven terrain in its stride, since its stable, lightweight oval tube chassis and sturdy wheels cope easily with sticks and stones. It is also allows intrepid explorers like Max to

discover the world in comfort, thanks to its spacious interior, cushioned seat and the smooth ball bearings provided as standard in the chassis.

# Mistral P

## THE RELIABLE ALL-TERRAIN PUSHCHAIR

**Basis model**  
with seat  
0 months to 3 years

- Mistral P is the reliable, multifunctional & comfortable 4 wheeler
- the handle bar can be conveniently switched to the front for quick change of the child's viewing direction
- extra high adjustable handle bar for improved steering for taller parents
- the large front and rear wheels offer premium driving comfort on any off road terrain
- variety of air wheels available for the smoothest ride possible
- NEW edition teutonia seat unit suitable from birth
- forward and rearward facing seat option for changing child's viewing direction
- large shopping basket
- comes with a clear rain cover
- accepts teutonia insert & chassis carry cots as well as car seat group 0+

# CHECKLIST FOR BUYING A STROLLER

It may sound like a simple request: "We need a pram!" But how do you go about finding the perfect first pram for you and your baby?

Our checklist makes it easy for you:

**Comfort Plus Carry-cot**  
as an additional option  
0 to 6 months

**Vario Plus-Carry-cot**  
as an additional option  
0 to 6 months

**Tario Autositz\***  
Travelsystem, 0 to 13 kg

\* Adapter available for teutonia Tario, Maxi-Cosi (Modele Citi, Cabrio and Pebble) and Römer (Model Baby Safe Plus)

- First thing to consider: do we need a pram for the city or the countryside – or perhaps both?
- How much space for the pram is there in our car boot? If in doubt: try it out!
- What special features does the pram need to have?
  - A generously-sized seat for when your child gets bigger, enough leg room
  - Height-adjustable 5-point harness
  - As easy as possible to push
  - Spacious shopping basket
  - Can all the fabric parts be removed and washed?
- What colour combinations are available?
- Which matching accessories are available?
- Visit a shop and ask for advice, preferably on a weekday (so that it's not too busy), and try the pram for yourself. For example, see how it feels to push and how the chassis folds up with and without the seat.
- Don't rush your decision.
- Ask friends and parents for advice.

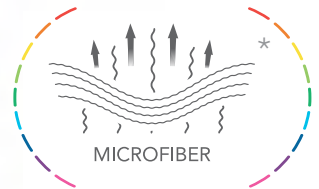

Ready for anything with our *Spirit*

“Lily can come with me wherever I go in her Spirit. She doesn’t even notice that she isn’t in her beloved cot any more.”

Anne (29) with Lily (6 months) from London

Conquering the world on three wheels is a breeze. Thanks to the Spirit’s swivelling front wheel which takes every turn in its stride. Anne and Lily can vouch for this, because in a busy city you need a

comfortable stroller that you can rely on 100%. It is equipped with a hand brake as standard, allowing you to quickly reduce the speed of the stroller at any time.

\*Seat area and parts of accessories (uni-colours) equipped with microfiber for the dessin-lines: “Made for You (uni)” and “Active & Dynamic”

# Spirit

## THE ENJOYABLE ALL TERRAIN RIDE ON 3 WHEELS

**Basis model**

- the Spirit offers superb maneuvering performance on 3 wheels and more enjoyable ride in everyday life.
- the dynamic design of the frame is available in Silver or modern Noir color finish
- easy pull and push down folding mechanism
- automatic transport lock activates when folded
- amazing driving performance on 3 wheels thanks to the large front and rear wheels, perfect for any off road terrain
- the front swivel makes it an ideal choice for steering in the urban areas
- independent front & rear wheel suspension in combination with the air rear wheels for a more enjoyable ride
- NEW edition teutonia seat unit suitable from birth
- reversible canopy, to allow to place the soft and Vario Carry cot
- comes with a clear rain cover
- accepts teutonia insert & chassis carry cots as well as car seat group 0+

## SPORT DURING PREGNANCY

For each woman pregnancy is a sportly challenge for the body. Heart, blood-circulation and respiration are changing and becoming more and more exposed. To keep the body fit it's important to exercise frequently.

A general rule of thumb is that an unborn baby will only benefit from its mothers' exercise if she doesn't start at a sudden new sports as the body would need to adapt additionally to these.

A general rule of thumb is that an unborn baby will only benefit from its mothers' exercise if she doesn't start at a sudden new sports as the body would need to adapt additionally to these.

Also the blood-circulation, which will require extra efforts in the first month, needs extra stimulation.

Why is sport during the pregnancy important?

- Less sleeping problems due to a good fitness level.
- The posture will be strengthened during pregnancy
- Less pain during giving birth - means less need for pain-killers.
- Better oxygen supply for the whole body
- Positive feeling of well-being

**Vario Plus-Carry-cot**

Our style. Our *Élégance*

*“The Éléance wins every beauty contest hands down! Classically chic on the outside, snug and cosy on the inside.”*

Rachel (30) and William (3 months) from Edinburgh

When it comes to looking elegant, Rachel and William set a high standard thanks to their pram's sleek and classic design. However, their experience with the Éléance has made them appreciate

that it's not only looks that matter, a comfortable interior and practical details such as a stylish, removable shopping bag are equally important.

# Élégance

## THE ELEGANT TRAVELLER IN COMFORT AND STYLE

as an additional option  
0 to 6 months

Chassis carry-cot  
Dessin 4995  
as an additional option  
0 to 6 months

Exploring the city with our *fun System*

*“While I rummage through all the latest fashions, Ben lies back quite happily in his Fun System.”*

Miriam (24) and Ben (10 months) from Belfast

The city is packed with exciting people and things – it’s no wonder that Miriam and Ben have so much fun when they’re out. The extremely nimble teutonia Fun System with its individual swivel wheels is the ideal companion.

Slender and lightweight, with a compact folded size, it is also perfect for a trip to the shops thanks to its large string shopping bag. And if Ben feels tired, the seat can easily be folded to a comfortable reclining position.

# fun System

## THE LIGHT CRUISER FOR THE URBAN JUNGLE

Base model  
with seat  
0 months to 3 years

- Fun System is the lightest and most slender teutonia frame, allowing you to explore the narrow shopping streets in confidence
- extra slender profile to pass through even the narrowest shopping lanes with ease
- compact folded size with easy folding mechanism
- integrated transport lock
- easy steering, thanks to its two individual swivel wheels with double spring system
- independent front & rear wheel suspension with ball bearing construction for a smooth ride
- no-flat tires for maintenance free strolling
- NEW edition teutonia seat unit suitable from birth
- forward and rearward facing seat option for changing child's viewing direction
- large and easily accessible shopping basket
- comes with a clear rain cover
- accepts teutonia insert & chassis carry cots as well as car seat group 0+

# SLEEP, LITTLE ONE, SLEEP!

## 1. THE RIGHT TIME

In the beginning, your baby will need a lot of sleep. You will soon find that gently rocking the pram is a great way to help your little one doze off.

## 2. COMFORTABLE PADDING

A cold foam mattress, that is not too hard, is an ideal sleeping surface for your baby. Depending on the weather, you may also need a light summer blanket or a warm foot muff to keep him or her snug and warm.

## 3. WIND AND WEATHER

When your little one is in the pram or pushchair, make sure that he or she is protected from the sun, rain, wind and draughts. When it comes to clothing, always dress your baby in one more layer than you are wearing yourself.

## 4. GOOD VIEWS

During the first few weeks, when the world still feels big and strange, a baby should be facing its mother. A little mobile or pram chain to look at also has a soothing effect.

## 5. CUSSLY-TOY

For some it's their first teddy, for others it's a blanket that has mum's scent. Your baby can quite happily cuddle his or her favourite toy in the pram, just make sure that the size doesn't present a suffocation risk.

teutonia tip

## TRAVELLING SAFETY WITH BABY

Your first family holiday is very special. You suddenly realise that you need more than a flight ticket, a tube of sun cream and a bikini. If you're travelling with a baby, you need to plan in advance. When your little one is at least three months old you can set off on holiday together, but remember that not all destinations are suitable for babies and young children.

High temperatures are hard for little ones to cope with. If travelling by plane or train, enquire in advance about special mother-child seats or compartments where you can breastfeed without disturbance.

You can take your buggy on the plane with you as hand luggage, as well as infant car seats and carry-cots.

When it comes to choosing where to stay, child-friendly hotels are often the best option. They generally have all the essential equipment, such as a travel bed, high chair, changing facilities and bottle warmers. They sometimes even offer a babysitting service to give mum and dad the chance to enjoy a few hours on their own together. Making sure that your first holiday for three is a relaxing break for everyone!

# Carry-cots

## WELCOME TO THE SLEEPER CARRIAGE

An optional carry-cot allows you to transform each teutonia model into a fully-fledged pram for newborns and babies up to around 6 months. This will allow your baby to discover the world tucked up snugly and protected from the weather. From the parent's point of view, you have the benefit of a customised pram that keeps pace with your baby's development.

### Comfort Plus Carry-cot

- A spacious lying area with premium cold foam mattress and added safety foam in the head area make the Comfort Plus our most comfortable carry-cot for your baby
- The air-permeable base and breathable mattress allow optimized air-circulation and a healthy climate inside
- Comforting temperatures in every season through the well-padded canopy with optional air ventilation
- Soft, breathable microfiber inside all Made for You and Active & Dynamic designs
- Fabrics are Oeko-Tex tested and washable at 30°
- Mattress cover made of very soft, anti-bacterial and antiallergic material that can be washed at 60°
- Carry-cot can easily be carried with the sturdy and soft handle
- Safe and simple attachment of the carry-cot to the stroller
- Extra padded wind shield which can be used later on the seat; the top part of the wind shield can be attached to the canopy for additional weather protection
- Available in all designs

### Made For You Carry-cot

- Made for You: Choose your favorite designs from our Made for You range and select cot, inner lining and canopy with wind shield to design your personal carry-cot
- Summerly design with viewing windows on the sides
- Contains soft, breathable and easy to clean microfiber inside
- Spacious lying area with premium cold foam mattress and added safety foam in the head area
- The air-permeable base and breathable mattress allow optimized air-circulation and a healthy climate inside
- Mattress cover made of very soft, anti-bacterial and anti-allergic material that can be washed at 60°
- All other fabrics are washable up to 30°
- Carry-cot can easily be carried with the sturdy but comfortable handle
- Safe and simple attachment of the carry-cot to the stroller
- Carry-cot can be folded for space-saving transport when not in use
- Available in all Made for You designs

### Vario-Plus Carry-cot

- Spacious lying area with premium cold foam mattress and added safety foam in the head area
- The air-permeable base and breathable mattress allow optimized air-circulation and a healthy climate inside
- Soft, breathable microfiber inside all Made for You and Active & Dynamic designs
- The Vario Plus carry-cot is fixed safely onto the seat
- For safe and comfortable carrying the attached handles are extra padded in the middle
- If the handles are not in use, they can be stored in practical pockets on each side of the carry-cot
- After use as carry-cot the wind shield can be used on the seat or forms a footmuff together with the seat pad (delivered with the carry-cot)
- Oeko-Tex certified
- All fabrics are washable up to 30°, the mattress cover up to 60°
- Available in all designs

### Soft Carry-cot

- Lightweight, soft carry-cot with spacious lying area
- Can be fixed safely onto the seat
- Air-permeable base allows optimized air-circulation and a healthy climate inside
- Soft, breathable microfiber inside all Made for You and Active & Dynamic designs
- Contains soft, flexible handles for easy carrying
- Wind shield contains a zipper to quickly attach or de-attach it from the carry-cot
- For additional weather protection the wind shield can be attached to the canopy
- Carry-cot can be converted into a cosy footmuff with just a few adjustments
- All fabrics are washable up to 30°
- Available in all designs
- Premium cold foam mattress with soft, anti-bacterial and anti-allergic mattress cover

## THE WONDERFUL WORLD OF DIAPER BAG

*I pack my bag, and I take with me ...*

... the sound of a familiar memory game. And so begins to pack a diaper bag, too. You must think for all important items for a relaxing day with your baby.

This process starts with the selection of the right bag. This should be spacious enough to accommodate changing pad, diapers and wipes. Depending on your needs and your baby's age you must think of bottles and jars still in his pocket (spoons and bibs not forget!). Then it is nice to have a toy, too.

Particularly practical are diaper bags, the standard is to have an integrated changing mat, a bottle warmer and a lot of storage pockets and compartments.

# Confidence in Textiles

## TEUTONIA IS OEKO-TEX® STANDARD 100 CERTIFIED

teutonia delivers a true first class experience through superior quality, comfort and design.

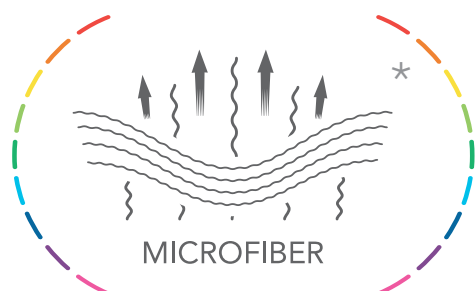

We feel responsible to only use textiles certified by Oeko-Tex Standard 100 (Class 1 baby for babies and toddlers up to the age of three).

This year we have again tested our products\* for harmful substances with regard to Oeko-Tex® Standard 100 and can proudly confirm to only offer human ecologic premium quality for baby's sensitive skin we only offer best quality.

\*stroller accessories are tested and certified

[www.oeko-tex.com](http://www.oeko-tex.com)

## TEUTONIA USES MICROFIBER TEXTILES

As of now our seats and parts of the accessories of our design lines Made for You as well as Active & Dynamic are equipped with very fine and smooth microfiber.

The soft microfiber material is very snug on baby's skin, thus making it even more cozy.

Due to its water vapor-permeable characteristic and its breathability it offers an optimized climate, additionally enhancing the comfort for your child.

\*Seat area and parts of accessories (uni-colours) equipped with microfiber

# Our five Dessin-lines

Each of our consumers is different, has a different taste and pursues its own style. To allow us to approach and to facilitate the choice of each of you, we have elected to divide our collection in five different dessin lines that offer something for every taste and style. With these five dessin lines we are offering you the latest trend colours as well as prints. Decide for your own which dessin line suits you and your teutonia best!

*Made for You*

*Chic & Smart*

*Cool & Classic*

*Active & Dynamic*

*Élégance*

The accessories available for the four dessin lines Chic & Smart, Cool & Classic, Active & Dynamic and Élégance are perfectly matching the stroller dessin.

# Made for You colourconcept

- Simply choose your favourite colours for the canopy with wind shield, the cot and inner lining
- Another 4 patterns are available for the inner lining
- As well as accessories to create an even more personalised look

---

# The NEW Made for You Dessins

---

A fantastic selection of classical and fashionable colours as well as trendy prints for all those, who would like to express their own style.

With the Made for You dessins teutonia allows you to mix and match different fabrics for your stroller's seat unit, canopy and carry cot. Give your stroller a personal touch that ties in perfectly with the artisan quality of teutonia.

This dessin line consists of six classical colours and four seasonable fashionable colours inspired by the latest trends of the catwalks. In addition you have the option of selecting one of four prints for your seat pad and inner lining of the carrycot, providing a unique character to your stroller. For the collection 2013 we have selected four different checked patterns for you, that are classic but super trendy at the same time.

4990 White Blossom

4995 Black Diamand

# Wheels

## TRAVELLING COMFORTABLY OVER STICKS AND STONES, GRAVEL AND GRASS, AND MORE

Sporty drop-centre rim or classy chrome? Traditional pneumatic tyres or a modern, maintenance-free air chamber solution? Whatever wheel and rim combination you choose, our wheels allow you to make your teutonia that bit more personalised and comfortable. All wheels are fitted with ball bearings as standard to reduce the effort needed for pushing.

### PROTECTIVE WHEEL COVERS

You don't want dirt picked up outside to be left in the stairwell or boot of the car? No problem. Just use these practical protective covers that fit over all the wheels. Available as accessories.

Not for wheel 47.

# Footmuffs

## Winterfootmuff

- Blood-circulation is improved, metabolism stimulated and it helps the muscles to relax.
- Due to the wind resistant upper material the cold stays outside
- Versatile footmuff with many great functions
- Footmuff grows with the child: Length can be adjusted with zipper in foot area
- For occasions with very dirty shoes (or to cool down fast) the bottom part of the footmuff can be taken apart
- Can be secured to the seat with 5-point harness system in three different positions, so your child is safe in any body height
- For additional warmth protection the upper part contains press buttons to reduce the opening size
- Practical: Upper part of the footmuff can be attached to the bumper bar and opened completely
- Additional dirt-repellent material in the foot area help to keep the inside of the footmuff clean
- Washable: Easy washable at 30°
- Upper material available in all dessins

## Summerfootmuff

- **NEW:** Inner side made from microfiber material in Made for You and Active & Dynamic dessins!
- Microfiber is especially soft to the skin and breathable, can be easily washed and dries quickly
- An additional soft rim in the head area of the footmuff makes it even more comfortable for your child
- Practical: Upper part of the footmuff can be attached to the bumper bar and opened completely
- With the removable lid the footmuff becomes an ideal, colorful seat pad to be used on hotter days
- Can be secured to the seat with 5-point harness system in three different positions, so your child is safe in any body height
- Washable: Easily washable at 30°
- Available in all dessins

## Lambskinfootmuff

- Our footmuff made from genuine lambskin is especially designed for very cold winter days
- It offers ideal warmth isolation but does get too warm as the temperature is being regulated naturally
- The lambskin fur we use consists of only ecologically compatible skins tanned using a gentle vegetable-based process
- High quality Meríno lambskin is free of harmful substances
- All footmuffs are only treated in Germany and underlie high quality standards
- The workmanship comes exclusively from Germany and is subject to stringent quality controls
- The upper part is completely removable, so that the lower part can be used as seat pad
- Can be secured to the seat with 5-point harness system in three different positions, so your child is safe in any size
- The footmuff fits your individual stroller design - top material is available in all teutonia dessins

## Allround-Combi-Footmuff

- The clever reversible option makes this the perfect all-season footmuff
- According to your baby's need the inner part can be tightened or removed completely
- Additional air ventilation through zippers in foot area
- The upper part is completely removable, so that the lower part can be used as seat pad
- An additional soft rim in the head area of the footmuff makes it even more comfortable for your child
- Can be secured to the seat with 5-point harness system in three different positions, so your child is safe in any body height
- Two additional fixation locks prevent the footmuff from getting out of place
- Washable at 30°
- Available in black, blue and beige

# Accessories

## Mini Nest

- Can be used in all carry-cots for extra cosiness
- NEW: Soft inner lining made from microfiber material in Made for You and Active & Dynamic designs!
- Microfiber is especially soft to the skin and breathable, can be easily washed and dries quickly
- The Mini Nest can be used as footmuff in the Tario
- When your child has outgrown the Mini Nest, the upper part can be used as comfortable and supportive head cushion in the stroller - ideal for children who have just learned to sit up
- Available in all designs

## Bed linen

- Bed your baby with style - get the bed linen that perfectly matches your stroller or carry-cot; you can choose from all designs
- Size 80 x 80 cm with practical zipper (delivery without bedtick)

## Inner lining MfY

- Re-design your Made for You carry-cot: select your favorite design from our fashionable Made for You range
- Comes with breathable mattress to allow optimized air-circulation and a healthy climate inside
- Easy removal of stains, washable at 30°
- Mattress cover made of very soft, anti-bacterial and anti-allergic material that can be washed at 60°

## Mattress

- Point-elastic cold foam mattress enhances the lying comfort of your baby
- With air-channels for an optimal temperature control in the carry cot
- Including special soft and anti-bacterial mattress cover
- The mattress cover is washable at liner and mattress foam at 30°C washable

## Parasol UVP 50+

- Parasol protects your child from the sun with UV protection UVP 50+ in compliance with Australian standards
- For surrounding protection you can move the parasol in every direction thanks to a 360° joint
- Easy click - attachment into patented armrest holders
- You choose the look - parasol is available in all designs

## Sunset UVP 50+

- Maximum all-round protection from the sun with UV protection UVP 50+ in compliance with Australian standards
- Easily attachable to the canopy with two clips
- Available in all Made for You designs

## Seat-Cover-MfY

- Match the look of your stroller to your style
- Our fashionable and colorful seat covers are available in all Made for You designs
- High quality fabric wave for extra cushioning and breathability
- Simply attachment by pulling it over seat surface and backrest
- Easy removal of stains, washable at 30°

## Mosquito net

- Enjoy your time outside with reliable protection against mosquitos and other insects
- The mosquito net can be easily attached and fits all teutonia strollers as well as Comfort Plus and Made for You carry-cots

#### Reclining surface extension

- Convert your seat into a pram with a flat surface in only a few simple steps
- The extension can be quickly and easily pushed into the holders of the safety bar
- Available in all dessins (except for Elegance and Team Cosmo)

#### Wind shield

- The wind shield protects your child against wind and cold
- Can be easily attached to the teutonia stroller or the Comfort Plus carry-cot
- Enables you to put your child in or take it out quickly
- Available in all dessins

#### Weather protector

- Being outside with in any weather condition while keeping your child safe and snug - that is possible with our weather protection made from water-repelling material
- Added reflector strips provide safety
- Ventilation flaps ensure a pleasant temperature and the see-through cap allows eye-contact to your child
- The front section can be opened to place your child in or out of the pram
- Suitable for pivoting handles
- Available in black, blue and red

#### Polarbear

- Keeps your hands warm while pushing the stroller
- Fluffy fur on the inside - durable and chic leather-look material on the outside
- Practical muff to be attached on the handle bar
- Fits all teutonia strollers
- Washable at 30°

#### Handlebarcover Letherlook

- Upgrade the look and feel of your stroller with classy leather-look handle covers
- The perfect fit guarantees comfortable grip
- Easy to slip on with zip attachment
- Available for all teutonia models; also models with hand brake and Team Cosmo

#### Protective wheel covers

- Simply avoid dirt in the car or house with protective wheel covers
- The black covers are made from water repellent material and can be easily attached
- Available for all wheels (except wheel 47 - only fit up to size 12')

#### Pick up

- The older sibling comes along! Especially on longer rides legs can become tired; with our Pick up board that is no longer a problem
- Board can be folded up when not in use
- Can be attached quickly and easily
- Available with air tyres and plastic wheels
- Fits BeYou!, Mistral S, Mistral P and Élégance (only non-hand brake version)

#### Changing bag

- Get the look - get the bag that perfectly matches your stroller; you can choose from all dessins
- Lots of storage space and many extras: bottle warmer, changing mat, additional bag for accessories, two compartments with zipper for wet clothes
- Comfortable, large shoulder strap
- Available in all dessins
