By 2025, Avery Zweckform aims to ensure that all products, including production- and supply chains, meet our high sustainability requirements.

That's what we have already achieved

Sustainability has been a priority at Avery Zweckform for decades and encompasses all areas. Our commitment is worth it: **We have been climate neutral since 2020!**

Products & Packaging

Over 900 of our labels and form books already meet one of the following criteria:

- FSC® certification
- "Blauer Engel" certification
- CO₂ neutral product

They also have one thing in common: **All products are manufactured CO₂ neutrally at the site.** Almost every raw material we process, as well as the packaging materials, come from Germany or EU countries. When it comes to packaging, we use alternatives that are as sustainable as possible, with a high proportion of recycled material.

Production Site Bavaria

Since 2020, **Avery Zweckform has been awarded CO₂ neutral company**, certified by "Fokus Zukunft". The majority of our products is **produced in Bavaria**. The required raw materials are being procured as close to the production site as possible in order to also minimize transport routes.

We have been using **100% green electricity and clean natural gas** since 2014. We are continuously working on further reducing our energy consumption using the most modern devices and technologies.

We have been continuously reducing our production scrap year after year since the introduction of ISO management in 2012 (**ISO 14001 and ISO 45001**).

Logistic & Management

Since 2007, production and warehousing have been in the same place, enabling significantly reduced transport routes. In our logistics centre, we engage in **supply chain management at the highest level.**

Stock levels are continuously being adapted to the current market needs. This means that there are **no excess quantities** that would have to be disposed of in the event of changes in product or packaging.

THINK & CARE

These are our goals for the years to come

Each of our products should fulfil at least one of the following sustainability criteria by the end of 2025:

FSC® certified paper from responsibly managed forests. The purchase of this product helps to protect the forests

www.blauer-engel.de/uz14b

Certified with the eco-label „Blauer Engel“, made of 100 % recycled paper

Made of 100 % recycled paper.

Climate neutral company: CO₂ emissions of the product material and the manufacturing process compensated by climate projects

Climate neutral company: CO₂ emissions on site compensated by climate projects

100 % produced and processed in Germany

In addition, we are continuously working on **optimizing our product- and shipping-packaging** in regards to increasing the recycled material used here as well as the necessary sturdiness in regard to stability during transport.

The respective sustainability criteria of our products can be clearly seen on the product packaging.

(Example: criteria shown on two labels products and one form book product)

We support our customers in using Avery Zweckform products in a responsible and environmentally friendly way from start to end.

That's what we have already achieved

The use of sustainable raw materials together with an environmentally friendly production are the cornerstones of an environmentally conscious corporate management. We deliberately offer most of our **recycled products at the same price** as the congruent products made from virgin fibre paper. We want to encourage a rethink towards the more environmentally friendly variant. **Waste nothing, use the products optimally and dispose of them responsibly after use:** We pull out all the stops for a sustainable product use

Don't waste anything

	Big packs	Medium packs	Office&Home-Packs
For every need the right amount of labels			
Application	100 to 220 label sheets: for large companies and heavy users	20 to 40 label sheets: for medium sized companies	10 label sheets: for small and private offices

Recycle properly

Correct disposal of labels: That's how it works!

Labels are usually disposed of together with the product they are attached to.

Paper

Label on paper:
e.g. on letter or card

Waste

Label sheet
or single label

Glas

Label on glass:
e.g. on jam jar or bottle

Consumers can find comprehensive information on the disposal of labels and packaging at www.avery.eu/sustainability or alternatively they can contact the Avery Zweckform Consumer Service Centre.

These are our goals for the years to come

Inspire: We want to convince more and more of our consumers to choose the more ecological product

Customize: Exactly the right amount of exactly the right product – in order to avoid unnecessary excess that has to be disposed of. That's why we are working intensively on further customization options for all of our products.

Inform: There is still a lot of uncertainty among consumers: which product is really sustainable? What does environmentally friendly use look like? In order to provide more clarity, we want to provide further clarification and information on these and other topics.

THINK & CARE

We offer our employees modern and flexible working conditions that meet the ecological and social needs of a modern society.

That's what we have already achieved

From people for people: Our employees are head, heart and hands of the company and are committed every day anew, enabling our consumers to benefit from our innovative ideas and the highest quality.

Health program

The protection of employees is a top priority at Avery Zweckform. We are committed to high **health and occupational safety standards** beyond the legal requirements and have had them certified according to the international **standard ISO 45001**.

On the basis of annual employee surveys, the **health program offers for the employees** are re-evaluated and adapted. There is something for everybody from sports programs to health prevention.

Equal opportunity

Equal opportunities are specifically supported through funding measures and flexible working conditions / part-time models and have resulted in a high proportion of female managers (currently 32%) for decades.

E-Mobility

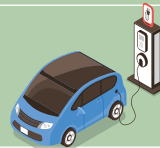

Eco-friendly commute: E-mobility at Avery Zweckform

Job-Bikes

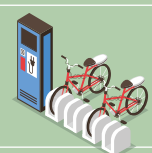

Leasing program for employees (normal and E-bikes)

Hybrid and E-company cars

45 % eco-friendly hybrid and fully electric cars

E-filling stations

For cars: 12 charging stations
For E-bikes: 14 charging stations

Integration

For more than 15 years, people with disabilities from the Oberland workshops have been fully involved in our company. For us, this is an essential component of a modern, responsible working culture.

There are currently around 25 employees of the Oberland Werkstätten working for us. They support us in production with order picking and shipping logistics as well as with facility management and equipping our meeting rooms with dishes and drinks..

These are our goals for the years to come

Flexible work – The concept of the mobile office combines the individual needs of employees with those of a modern company. The offer is also intended to help reduce commuter traffic and protect the environment.

Eco-friendly mobility will be one of our major goals in the years to come. Our company car fleet should be 100% equipped with hybrid or electric drives. There will be additional charging stations - also at employee parking spaces.

Provision is good, **tailored provision** is better. We will continue to expand our health program, taking a close look at the needs of a ever changing working environment. This will include, for example, offers for an aging workforce and stress management courses for the increasingly dynamic living environment

OUR BRAND AWARDS

GERMAN STANDARDS & BRANDS OF THE CENTURY:

German Standards: Brands of the Century

Once again, our brand and our products were able to convince the editorial team of "Deutsche Standards: Marken des Jahrhunderts 2022- German Standards: Brands of the Century 2022" of the German "ZEIT Verlag", led by Dr. Florian Langenscheidt.

This very special and important award makes us stand far out with our brand AVER ZWECKFORM, both for our innovative and long proven products as well as for our philosophy. This is an exclusive, by invitation-only award, thanks to the transparent and free of charge selection process, choosing only one brand per product category.

Superbrands®: Superbrand Germany

Superbrands® is the world's largest independent arbiter of branding with headquarters in London. For over 28 years, the jury of Superbrands® has honoured the best and strongest product- and corporate brands in over 90 countries. Attributes of a "superbrand": trust, prestige, intangible asset, distinction, reliability, quality, consumer assurance, credibility, market leader and exposure.

"Attaining Superbrands status strengthens a brands position, adds prestige and reassures consumer and supporters that they are buying the best brand in its category".

We were proudly chosen for the 6th time as **Superbrand Germany 2021/22**, competing with 1.300 nominated brands in Germany!

OUR PRODUCT AWARDS

GERMAN DESIGN AWARD & LIFESTYLE INNOVATION AWARD

German Design Council: German Design Award

We have been awarded the **"Special Mention Award 2020"** for **"Excellent Product Design"** by the **German Design Council** for our innovative ultragrip technology with which our current generation of labels is equipped. "A clever idea that ensures a smoother process and less waste when printing," was the reasoning of the top-notch international jury.

"The creative process and the high investments to develop this innovation in series production have paid off. For us, ultragrip is much more than just a three-dimensional tire profile on the back of a label sheet. It emphasizes our leadership in the label segment technology " says Thomas Amann, Head of Brand Management at Avery Zweckform and Product Designer of the ultragrip concept.

Lifestyle Innovation Award: "Special Award Innovation"

As part of the **Lifestyle Innovation Awards 2021/22** in the Living & Lifestyle sectors, we received the special jury award **"Special Award Innovation & Material Quality"** for our innovative **antimicrobial labels**.

Our **antimicrobial labels** were able to convince the jury of experts across the board: degree of innovation, design, material quality, functionality, product benefits as well as sustainability and ecology. The Lifestyle Innovation Award is presented for outstanding products in the Living & Lifestyle sectors. Our antimicrobial labels fit perfectly:

they are extremely practical for light switches, door handles, books and many more every-day living products.

The antimicrobial film labels offer effective and reliable protection against viruses, germs and bacteria. The innovative coating ensures a virus-free surface thanks to the self-sterilizing effect, activated by light and oxygen.

Design your labels quick and easy

Tips for the perfect label print

Use the right labels for your printer

- Our multipurpose and filing labels can be printed on all printers.
- When using special labels like shipping, textile or film labels, please print with the recommended printer technology. You will find the printer information on the front of the packaging as well as in the product description..

We recommend our template tool for precise print-outs

- When creating your labels, please note that text and design elements should have a gap to the label edge. Not every printer enables an ultra-precise print.
- Use our **free online tool Avery Design & Print** with exact templates as well as helpful functions like e.g. the mail merge option.

Check your printer settings

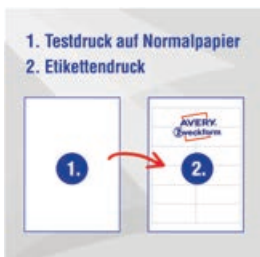

- Choose the setting "labels" in the printer menu. (Depending on the printer type you might find alternative wording like "cardboard" or "thick paper")
- With inkjet printers choose the setting "normal paper". Otherwise there might be too much ink applied.

Insert the label sheets correctly into the printer

- Insert the labels in the according tray. You will find tips and advice in the handbook of your printer.
- Visual indications show the right handling.

Make a test print on normal paper

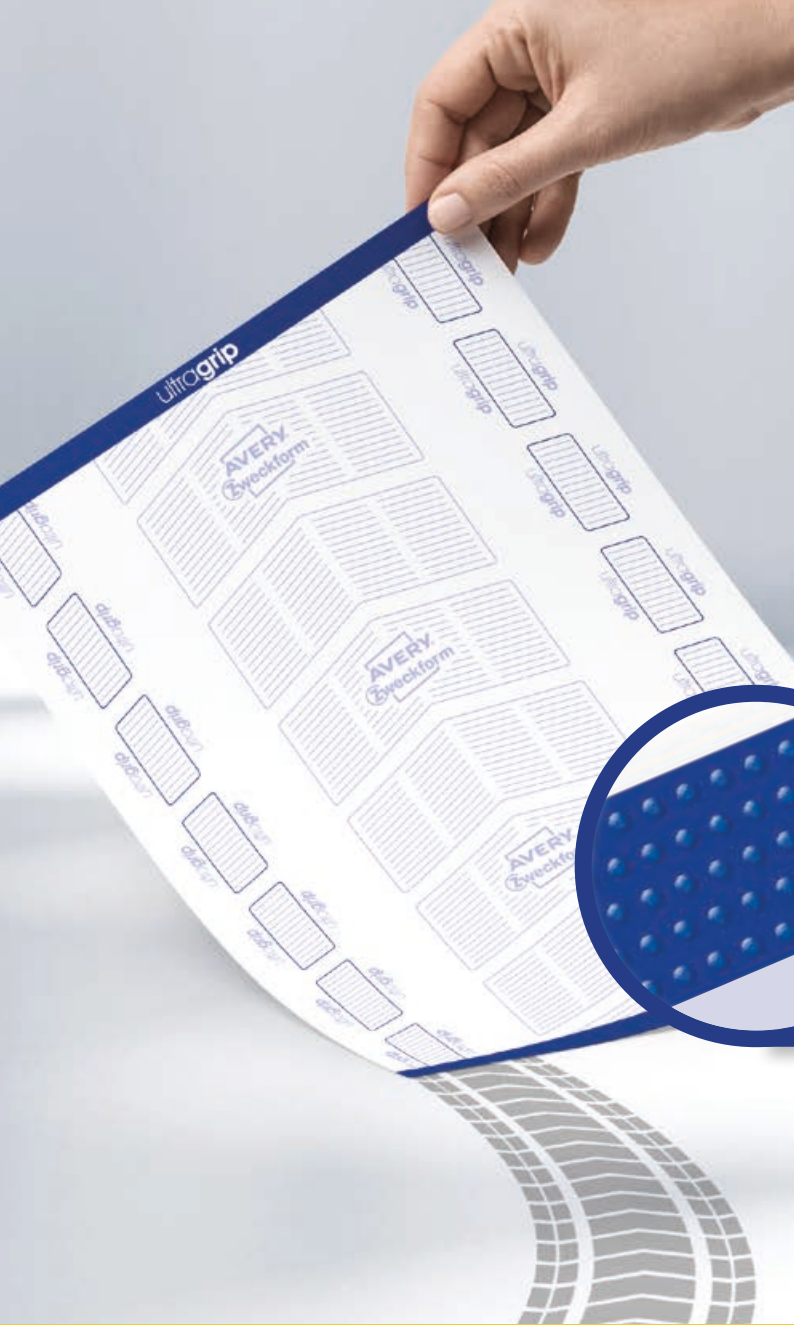

- We recommend a test print on normal paper, as your printer might print slightly different than shown in the print preview.
- Put the printed page against the label sheet and hold against light to see if all is in the exact place.

The label sheet must run through the printer only once

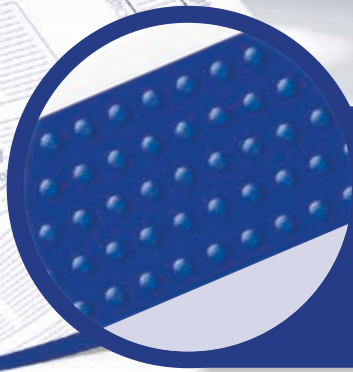

- We recommend not to re-use a label sheet that has been printed (partly) once in the printer.
- The reason: the backing paper will have lost some of the stiffness, when single labels will have been removed. This could lead to labels getting detached or sheets getting tangled up and potentially resulting in a printer jam.

The first labels with a grip.

For reliable printing without paper jams.

ultragrip

Perfect printer feed
Guaranteed jam-free printing

Noticeable better: ultragrip

Our labels with the unique ultragrip technology on the label sheet make printing easier than ever. You will notice the difference straight away with the perceptible better product quality that guarantees a precise printer feed and jam-free printing. See for yourself!

Ultra precision – for the best label quality

ultragrip

The technology:
Label refinement in its purest form.

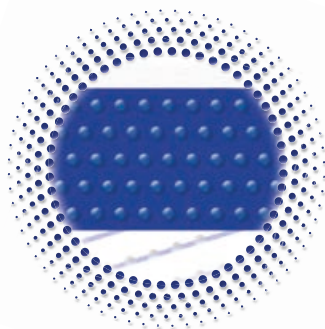

Illustration for
Multipurpose labels
Filing labels

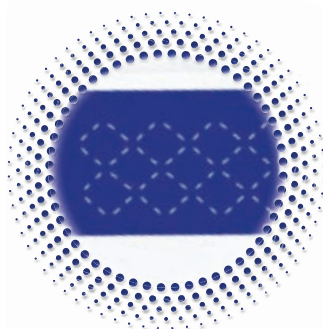

Illustration for
White address labels
White shipping labels

- The **3D pattern** on the label sheet ensures a precise **grip** of the printer roll.
- The printer roll can **grip, feed and guide** the label sheet **precisely** through the printer.
- **Jam-free printing guaranteed.**

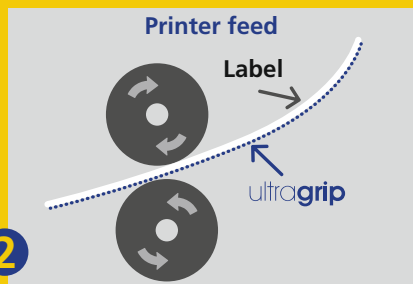

• Have you also experienced printing problems in the past?

We know that printers don't work perfectly all the time. Guide rails and printer rolls get dusty or worn off and lose their reliable grip. When this happens, the label sheet won't feed into the printer in a straight way resulting in shifted printing images. Worst case: printer jam. That's why we have done something to prevent this: we have developed the innovative, patented **ultragrip** technology.

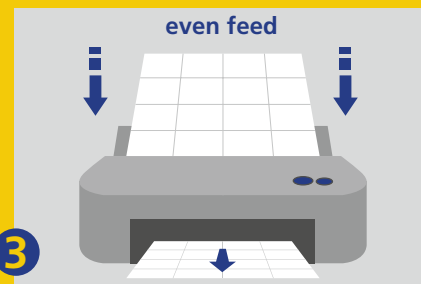

• How does this unique, with patent pending **ultragrip** technology work?*

1 We apply a 3-dimensional pattern on the backside header and footer areas as well as on the sheet side edges.

2 This grip area ensures that the printer rolls can grip, feed and guide the label sheet even better.

3 The label sheet runs "guided" through the printer. Jam-free and precise printing guaranteed.

* Example for multipurpose labels

LABEL REMOVER

- Easy removing of paper labels and adhesive residues
- Thanks to high effectiveness very economical in use
- Fine nozzle enables exact dosage without spreading
- The active ingredient evaporates quickly and without residues - easy and clean removing of the self-adhesive labels without leaving an unpleasant oil film

Art No	Description	Content
3590	For easy and adhesive-free removing of paper labels and adhesive residues on almost all materials	150 ml

Do you know our removable labels?

If you know already beforehand that you are likely to remove your labels later, we have another tip for you: in our range you will find a large selection of removable labels. They stick reliably and - if wanted - are removable without leaving any residues.

Curious? Discover our removable labels:

- Multipurpose labels
- Filing labels
- Multipurpose roll labels for label printers
- Weatherproof labels (perfectly suitable for tough uses in- and outdoor)
- Price labels
- Inspection labels
- Marking dots

LABELS

MULTIPURPOSE

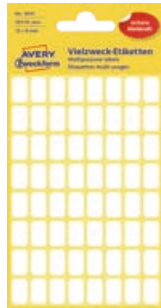

MULTIPURPOSE LABELS

for handwriting

- Ideal for labelling and marking
- Can be written on with all standard pens
- Some formats also available with removable adhesive

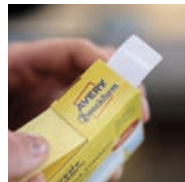

Choose between the following packing-variations

- Small pack**
- For smaller projects

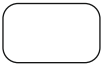

- Dispenser box**
- For medium sized projects
 - User-friendly self-dispensing function
 - Clean and sturdy storage for labels

- Flat pack**
- For large projects
 - Resealable packaging

SHIPPING LABELS FOR DIRECT THERMAL PRINTERS

- Labels suitable for franking printouts for DHL, Hermes, DPD, TNT, GLS
- In two different roll-core sizes for desktop- and industrial printers
- Compatible with most standard direct thermal printer models, e.g. Zebra, TSC, cba, Meto, Honeywell, Brother, Toshiba

Art No	Format mm (W x H)	Roll core mm/inch	Max. Outer-Ø/Roll	Colour	Labels/Roll	Roll/Pack
TD8050-25	102 x 152	25,4 / 1"	120	white	475	2
TD8060-25	103 x 199	25,4 / 1"	120	white	350	2
TD8060-76	103 x 199	76,2 / 3"	170	white	600	1

Printer compatibility of direct thermal labels

Our direct thermal labels for desktop and industrial printers are suitable for many models of different manufacturers like e.g. Zebra, TSC, cba, Meto and Honeywell, Brother, Toshiba. To check which labels are compatible with your direct thermal printer, please compare the details in the product table with the print media requirements in your printer handbook. Important parameters are suitability of the material, roll-core capacity, max. label width as well as max. outer diameter of the roll.

Should you have questions about our shipping labels for direct thermal printers, our customer service is happy to help you.

SHIPPING LABELS FOR DIRECT THERMAL PRINTERS

- Labels suitable for franking printouts for DHL, Hermes, DPD, TNT, GLS
- In 2 different roll-core sizes for desktop- and industrial printers
- Compatible with the most standard direct thermal printer models, e.g. Zebra, TSC, cba, Meto, Honeywell, Brother, Toshiba

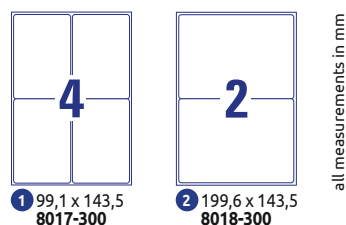

Art No	Format mm (WxH)	Roll core mm/Zoll	Max. Outer-Ø/Roll	Colour	Labels/Roll	Rolls/Pack
Thermodirektetiketten						
TD8050-25	102 x 152	25,4 / 1"	120	white	475	2
TD8060-25	103 x 199	25,4 / 1"	120	white	350	2
TD8060-76	103 x 199	76,2 / 3"	170	white	600	1

Printer compatibility of direct thermal labels

Our direct thermal labels for desktop and industrial printers are suitable for many models of different manufacturers like e.g. Zebra, TSC, cba, Meto and Honeywell. To check which labels are compatible with your direct thermal printer, please compare the details in the product table with the print media requirements in your printer handbook. Important parameters are suitability of the material, roll-core capacity, max. label width as well as max. outer diameter of the roll.

Should you have questions about our shipping labels for direct thermal printers, our customer service is happy to help you.

ATTENTION LABELS

pre-printed on roll

INSPECTION LABELS FROM AVERY ZWECKFORM

- Marking of months and years with marker or punch pliers
- In a practical dispenser bloc

Choose between the following materials:

Vinyl

- Extra hard-wearing
- Resistant to water, oil, cleaning- and disinfection agents and solvents
- Temperature resistant from -20°C to +80°C
- Strong, permanent adhesion on different surfaces

NoPeel™ Document Film

- NoPeel™ labels, manipulation safe
- Disintegrate into small parts when being removed, making a label transfer impossible.
- Resistant to water, oil, cleaning- and disinfection agents and solvents
- Temperature resistant from -20°C to +80°C
- Permanent adhesive with excellent adhesion, suitable for all kinds of surfaces

INSPECTION LABELS WITH YEAR for handwriting

- Ideal for the permanent inspection labelling of electronic devices and non-electronic items

Labels leaves no residues behind when being removed

ANTI TAMPER INSPECTION LABELS

for laser printers

- Made of tamper proof security film
- Label leaves behind a striking pattern when being removed
- Manipulation attempts are clearly visible
- Ideal for security labelling of inventory and property
- Resistant to water, oil, cleaning- and disinfection agents and solvents
- Temperature resistant from -40°C to +80°C
- Easy and quick labelling with free online templates: avery.eu/print

CO₂ NEUTRAL Eco-friendly: climate-neutral product

FREE Online templates: www.avery.eu/print

Protect yourself, your employees, customers, patients or guests from infections: with the new and innovative Antimicrobial Labels from Avery Zweckform!

Overview over your advantages:

99.9% antimicrobial

- Removes 99,9% of all viruses, bacteria and germs.
- Tested in acc. with ISO 22196 (mod.) by independent institutes.

All-round protection

- The antimicrobial effect is activated by visible light and oxygen.
- This ensures a quick, permanent and long-lasting self-sterilizing effect.

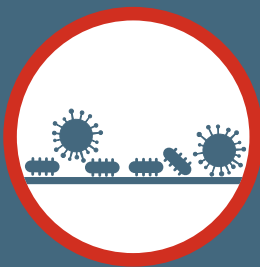

Long-lasting effectiveness

- Permanent effect for at least 1 year.
- Offers long-term and continuous protection, also when the film is cut to size.

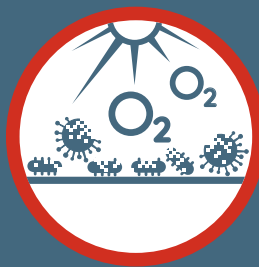

Hard-wearing

- Water and tear proof
- Resistant to oil, cleaning agents and disinfections. Temperature resistant from -20°C to +80°C (white to +60°C)
- This won't restrict the antimicrobial effect.

Contamination of surfaces with bacteria, viruses, fungus and spores

The effect of the antimicrobial film is activated by visible light and oxygen

Germs are quickly and effectively deactivated – for complete and permanent hygiene

Can you print on the label?

The labels can be printed with all standard b/w laser printers or colour laser printers. However: less is more! If possible, the label should not be printed full face. Otherwise, the toner of the laser printer would cover the antimicrobial surface of the label completely or to such an extent that the effectiveness is not given any more in that area.

You can find free design templates in our software Avery Design&Print under avery-zweckform.eu/print

ANTIMICROBIAL LABELS

for laser printers

- Film label with 99,9% antimicrobial effect: removes 99,9% of all viruses, bacteria and germs
- Permanent and long-lasting self-sterilizing effect, non-toxic, safe for health
- Permanent adhesion, suitable for doors, desks, books, light switches and many others
- Label can be partly printed or cut into different sizes without loss of effectiveness
- Antimicrobial effect clinically tested & proven by independent institutes

HEAVY DUTY LABELS, PERMANENT ADHESIVE

for laser printers or for inkjet printers

- Film labels: clearly more durable than standard paper labels
- Weatherproof labels for in- and outdoors
- Strong and permanent adhesion
- Oil-, dirt- and temperature resistant (-20°C to +80°C), water- and tear proof
- Ideal for reliable and permanent labelling, e.g. in warehouse, production and workshop

Convincing quality from the market leader:

- **Premium** ★★★★★ For professional printouts with high photo content, e.g. sales brochures
- **Superior** ★★★★★ For discerning printing, e.g. sales brochures and documents with high photo content

Avery Zweckform colour laser paper has been developed specially for applications on all standard colour laser printers.

For best printing results and toner adhesion please note:

- 1) Choose "cardboard" in the printer settings. Depending on the manufacturer you will find different wordings like thick paper or labels.
- 2) Always feed via single sheet feeder.

PREMIUM COLOUR LASER PAPER

For professional printouts with high photo content!

- Ideal for high quality documents with high photo-content e. g. brochures and sales documents
- Innovative high-tech coating for excellent toner adhesion
- Surface coated on both sides
- Extra strong paper quality for particular high quality printouts
- High temperature resistance for smooth, jam-free printing

Coated paper

Precision ink application

Uncoated paper

Uncontrolled ink application

Important to know when printing and processing

The coated side is always facing up in the pack – a note to this effect is on the pack. The coated side is also whiter – carefully bend over the front side and you can see the difference immediately. The coated side of most photo papers is also usually glossy.

Insert the paper in such a way that the coated side is printed on. That might vary depending on the different printer model. Select the correct material setting in the printer menu, depending on the manufacturer the wording might differ.

For photo paper:

- Glossy photo paper
- Premium glossy paper

For matt paper:

- Other inkjet papers
- High resolution paper
- Photo quality inkjet paper

Micro porous special coating

High tech paper

Porous cover layer
Image layer

PRINTER PAPER

- Very high whiteness for print images high in contrast
- ColorLok technology enables vibrant colours, intense black and a faster drying period
- FSC® certificate confirms the use of raw materials from sustainable and responsibly managed forests
- EU Ecolabel certified environmental sustainability – wood-free, elementary chlorine-free bleached and environmentally friendlier than other comparable papers.
- ISO 9706 tested ageing resistance of at least 200 years without bleaching or colouring of the printing image
- High bending stiffness and opacity make the paper also compatible for both-sided printing, the so-called duplex print
- Suitable for all printer types, copiers and fax machines

FOLD & SNAP FEATURE:

Design card at
www.avery-zweckform.eu/print

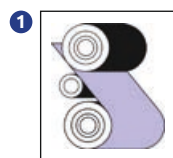

... print

... and fold to detach – result: cards with perfectly clean edges!

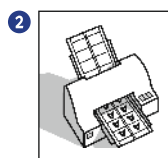

BIG PACK BUSINESS CARDS FOR PRE-PRINT SERVICE

That's how "Pre-Print" works: Combination with offset print and customisation at the desk

1 Creation of your corporate design per offset-print

Creation of the master in accordance with your corporate design. A larger print run of blank business card sheets (with clean edges) will be pre-printed with the corporate design only..

2 Customisation with your own printer

The employee or the responsible office will print the respective individual information on the pre-printed sheets with inkjet or laser printer.

TRANSPARENCIES COATING

Different printer technologies require different types of transparency coatings. For example, the inkjet transparency requires a coating to absorb ink.

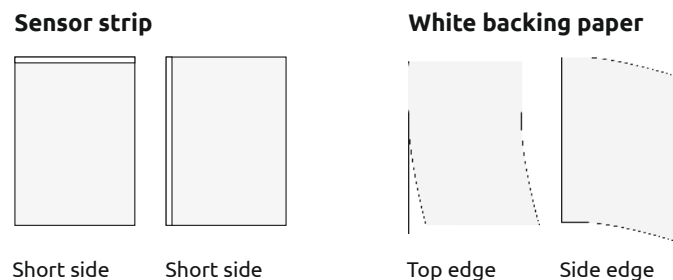

Laser and copier transparencies are either coated or uncoated. Whilst uncoated transparencies simply appear more transparent, coated transparencies are the better solution regarding feed, pass-through characteristics, antistatic capabilities, density and toner adherence. Laser printers and copiers apply and fix the toner with heat and pressure. Only by using coatings specially designed for inkjet or laser technology perfect results can be achieved - photo realistic visuals and pin-sharp images.

- Coated on one side:**
- All inkjet transparencies
 - All laser- and copier transparencies with sensor strip or backing paper
- Coated on both sides:**
- All laser- and copier transparencies without sensor strip or backing paper

OPTICAL PASS-THROUGH

Printer with an optical pass-through control only identify the printing material when it is not transparent. Transparent printing material can not be fed. That's why transparencies are equipped with a white sensor strip that can be removed after printing.

The sensor strip is either on the short side (particular for printers) or on the long side (particularly for copiers), depending on how the printer feeding is done.

OTHER SPECIAL FEATURES OF THE TRANSPARENCIES RANGE

- Batch processing:** Virtually all transparencies can be fed in a batch into the printer, i.e. they can be placed in the feed tray of your printer in one go and do not have to be inserted individually.
- Antistatic:** Transparency material can become statically charged. This can cause problems in laser printers and copiers because they also work with static charging when printing. The special coatings for laser and copier transparencies prevent any unwanted static charging of the transparencies.
- Heat resistant:** Laser printers and copiers fix the toner at about 180-210°C. The melting point of polyester is around 267°C. There are transparencies with a thickness between 0.1mm and 0.2 mm depending on application and printer. The general rule is "the thicker a transparency is, the higher its quality". Thicker transparencies are more suitable for printers that fix the toner at higher temperatures (such as HP printers).

TRANSPARENCIES

TRANSPARENCIES FOR LASER PRINTERS AND COPIERS

OVERHEAD TRANSPARENCIES: B/W LASER PRINTERS & COPIERS

- Special coating for pin-sharp printouts and excellent toner adhesion
- Batch processing via collective tray
- Available with (for optical pass-through) or without sensor strip / backing paper
- Quick and trouble-free creating of presentations
- Water-based coating

Art No	Format DIN	Description	Batch processable	Thickness transparency	Content/ Transp.	Printer I L K CL
1 3552	A4	coated	•	0,10 mm	100	• •

4 3557/3567
Coated transparencies glued top edge backing paper

5 3568
Coated transparencies glued side edge backing paper

6 3559
Coated transparencies, with removable sensor strip on the short side

7 3561/3566
Coated transparency, extremely heat-resistant

Printer: I = inkjet printer L = laser printer K = copier CL = colour laser printer

TRANSPARENCIES

TRANSPARENCIES FOR LASER PRINTERS AND COPIERS

SELF-ADHESIVE TRANSPARENCIES

- 10mm pre-printed grid on backside for easy cutting
- Easily removable due to lengthwise split on the backside
- Matt surface, excellent to write on, even by hand
- Ideal for the duplication of symbols, logos and graphics

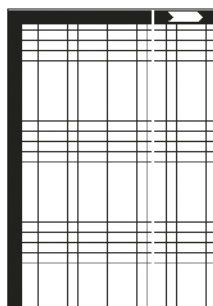

Art No	Format DIN	Description	Batch processable	Thickness transparency	Content/ Transp.	Printer I L K CL
3480	A4	coated, for b/w laser printers, b/w copiers and colour laser printers	•	0,14 mm	100	• • •
3482	A4	coated, for b/w laser printers, b/w copiers and colour laser printers	•	0,14 mm	25	• • •

Quattro Clean Technology

QCT means: no more adhesive residues in the printer and no more expensive cleaning of the device. The transparent, self-adhesive transparencies (3480/3482) are equipped with the QCT edge developed by Avery Zweckform. This 4-sided levelled edge prevents adhesive leaking in the printer.

Backside 3480/3482

The black edge ensures hassle-free printing in devices with optical pass-through control.

TRANSPARENCIES

TRANSPARENCIES FOR LASER PRINTERS AND COPIERS

WEATHERPROOF TRANSPARENCIES, WHITE

- Non-yellowing feature perfect for long term archiving
- For heavy-duty and hard-wearing documents
- Water resistant
- Temperature resistant
- Dust-free

Art No	Format DIN	Description	Batch processable	Thickness transparency	Content/ Transp.	Printer I L K CL
3487	A4	coated on both sides, for b/w laser printers, b/w copiers and colour laser printers	•	0,12 mm	100	• • •

FILMS FOR THE PRINT MASTER PRODUCTION

- Frosted-transparent for improved exposure
- For diverse applications, such as designing of greeting cards and flyers
- Simple, cost effective and quick creation of films for print master production, such as for flyers, menus...

Art No	Format DIN	Description	Batch processable	Thickness transparency	Content/ Transp.	Printer I L K CL
3491	A4	transparent, matt coating, for b/w laser printers	•	0,10 mm	100	•

That's how it works:

1 Design (text, image) with your own software on your PC

2 Insert the special matt coated transparency into the feed tray of the laser printer. Start printing - done!

3 Print shops can then assemble your film in a print master with which they can create the printing plate. Now the printing can start.

Printer: I = inkjet printer L = laser printer K = copier CL = colour laser printer

The Paper makes the Difference.

Improved readability

The white lines on the light grey background are more pleasing to the eye than black lines and do not distract.

Excellent writing sensation

The pen slides easily over the extra-smooth, colour fast 90 g paper

Invisible lines

Lines become almost invisible when copying or scanning.

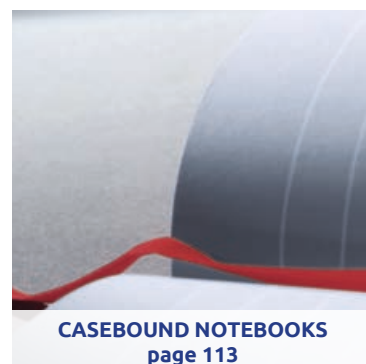

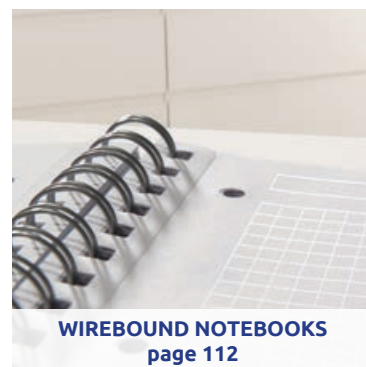

notizio.

WIREBOUND NOTEBOOKS 112

The wirebound notizio. notebooks are extra flexible and functional thanks to the re-positionable indexes and the micro perforation. Ideal for different project notes all in one book. Choose between soft PP material cover, sturdy hard-cover or thin cardboard cover. Also perfect on the road!.

CASEBOUND NOTEBOOKS 113

The casebound notizio. notebooks are ideal for projects and sequential notes, the high quality binding lies flat when the notebook is opened – for an extra comfortable writing sensation. Choose between smooth soft cover or sturdy hard cover.

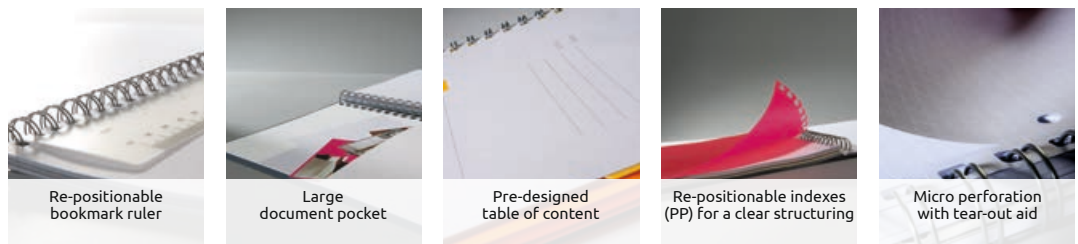

WIREBOUND NOTEBOOKS

- **Innovative** – white lines on light grey paper
- **Perfect readability** – no dark lines, non-tiring for the eyes!
- **Lines become almost invisible** – when copying or scanning
