ANNA'S TIP!

Labelling filing trays.

Label your filing documents in a clearly structured way. To achieve this we recommend removable labels. The positive effect: you can try different ways until you have found the perfect system working best for you. You can also easily change or adapt categories and classifications any time you want.

Removable labels will help you with that.

ANNA'S TIP!

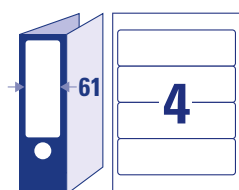

To have a particularly clear structure in your filing system, why not use our coloured filing labels? If you always choose the same colour for the same topic, you will have an even better overview over your files. You will be more organised and the office will be brighter, too! Alternatively choose always the same colour for each year.

By the way, the long-format, coloured filing labels offer more space for a clear and clean labelling without the disturbing producer logo.
