

DICOTA

PRODUCT GUIDE

Protect your world

Protect your world

Dear customer,

There have been many positive developments since our takeover of DICOTA in 2013: steady growth, development of new markets, team expansion and delighted clients.

As a Swiss company, quality, sustainability and customer orientation are very important to us. What has remained, of course, is the legacy and heritage of our German roots since our foundation in 1992: maximum functionality and love of the smallest detail.

We love what we do and we always work with the aim to exceed your expectations.

Thank you very much for your loyalty to DICOTA and your trust over the years. We are equally pleased and motivated to perform to the best of our abilities every day.

Liebe Kundinnen und Kunden,

vieles hat sich seit unserer Übernahme von DICOTA im Jahr 2013 positiv entwickelt. Stetiges Wachstum, Erschliessung neuer Märkte, Vergrösserung des Teams, begeisterte Kundinnen und Kunden.

Als Schweizer Firma liegt uns Qualität, Nachhaltigkeit und Kundenorientierung sehr am Herzen. Geblieben sind natürlich das Vermächtnis und das Erbe unseres deutschen Ursprungs aus dem Gründungsjahr 1992: höchste Funktionalität und Liebe zum Detail.

Wir lieben, was wir tun. Immer mit dem Ziel, Ihre Erwartungen zu übertreffen.

Ein herzliches Dankeschön für Ihre langjährige Treue zu DICOTA und Ihr Vertrauen. Es freut und motiviert uns gleichermaßen, täglich Bestleistungen zu erbringen.

Chère cliente, cher client,

beaucoup de choses ont évolué de manière positive depuis que nous avons racheté DICOTA en 2013. Croissance continue, développement de nouveaux marchés, agrandissement de l'équipe, satisfaction client.

En tant qu'entreprise suisse, la qualité, la durabilité et l'attention accordée à nos clients sont essentielles pour nous. Naturellement, nous avons conservé l'héritage et la tradition de nos racines allemandes depuis la création de l'entreprise en 1992: fonctionnalité maximale et passion du détail.

Nous aimons ce que nous faisons. Toujours avec l'objectif de dépasser vos attentes.

Nous vous remercions pour votre confiance et votre fidélité envers DICOTA depuis toutes ces années. Nous sommes à la fois heureux et motivés de faire de notre mieux chaque jour.

54

sophisticated – capable – safe

ACCESSORIES

60

convenient – conducive – clever

RATING SYSTEM AND WARRANTIES

Transparency helps customers to come to a decision. The DICOTA rating provides a quick and simple overview of each product's protection level and functionality. To name but a few examples:

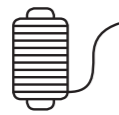

Protection

Various types of protective padding, frame and shell constructions, additional locking features or fixations, rain protection, water-repellent zips.

Functionality

Own developed systems and technologies, such as anti-slip technology, fit-all systems and EVA frame protection, as well as general product features such as the storage space, number of compartments, integrated trolley fastening belt, adjustable shoulder strap and hidden zip compartment for important documents.

Denier system

The numbering system for yarns and fibres is based on the old French weight unit "denier". The number indicates the robustness and the weight of the thread that is used. The entry 1680D indicates that a 9000 meter-long thread weighs 1680 grams. For a material with 900D, the thread weighs 900 grams. Articles with higher denier numbers consist of very robust materials, while others with lower values are attractive due to their lighter and finer fabrics.

Lifetime warranty

Our checks mean we can be sure of delivering quality products, and promise you the same certainty. Thanks to its stringent production guidelines and quality checks, DICOTA offers a lifelong* warranty for potential material and processing defects on notebook cases.

24-month warranty

Customers benefit from a 24-month warranty when they buy DICOTA accessories, tablet cases, notebook bags with wheels and electric components, hard-shell products or special solutions.

36/48-month warranty

Customers can choose purchase an extended warranty lasting 36 or 48 months when they buy any of the MOS products.

* Based on legal restrictions in Germany for a period of 30 years; no time limit in other countries

Transparenz hilft beim Entscheiden. Das DICOTA-Rating verschafft einfach und schnell einen Überblick über den Grad der Schutzfunktion und der Funktionalität der Produkte. Einige Beispiele:

Schutz

Unterschiedliche Schutzpolsterungen für Geräte, Rahmen- und Schalenkonstruktionen, zusätzliche Sicherungen oder Halterungen, Regenschutz, wasserabweisender Reißverschluss.

Funktionalität

Eigens entwickelte Systeme und Technologien wie Anti Slip Technology, Fitall System und EVA frame protection, aber auch allgemeine Produkteigenschaften wie Stauraum, Anzahl Fächer, integriertes Trolley-Befestigungsband, verstellbarer Schultergurt, verstecktes Reißverschlussfach für wichtige Dokumente.

Denier-System

Das Nummerierungssystem für Garne und Fasern geht auf die alte französische Gewichtseinheit Denier zurück. Die Zahl gibt Aufschluss über die Robustheit und das Gewicht des verwendeten Fadens. Die Angabe 1680D bedeutet, dass ein 9000 Meter langer Faden 1680 Gramm schwer ist. Bei einem Material mit 900D wiegt der Faden entsprechend 900 Gramm. Artikel mit höheren Denier-Zahlen bestehen aus sehr robusten Materialien, andere mit tieferen Werten überzeugen durch leichtere und feinere Stoffe.

Lebenslange Garantie

Wer kontrolliert, kann sicher sein und Sicherheit geben. Dank der strengen Produktionsrichtlinien und Qualitätskontrollen gewährt DICOTA eine lebenslange* Garantie auf mögliche Material- und Verarbeitungsfehler bei Notebooktaschen.

24 Monate Garantie

Beim Kauf von DICOTA Accessoires, Tablet Cases, Notebooktaschen mit Trolley-Funktion und elektronischen Bauteilen, Hartschalenprodukten und Sonderlösungen profitieren Kunden von der 24-monatigen Garantie.

36/48 Monate Garantie

Für MOS-Produkte können Sie als Kunde eine verlängerte Garantie von 36 oder 48 Monaten erwerben.

* Aufgrund gesetzlicher Beschränkungen in Deutschland für einen Zeitraum von 30 Jahren, in anderen Ländern ohne zeitliche Beschränkung

La transparence aide à la prise de décision. Le système de notation DICOTA donne un aperçu simple et rapide sur le degré de protection et de fonctionnalité des produits. Quelques exemples:

Protection

Rembourrages de protection, conception du cadre et des coques, dispositifs de sécurité complémentaires ou supports, protection contre la pluie, fermeture éclair hydrofuge.

Fonctionnalité

Des systèmes et des technologies uniques comme anti slip technology, fitall system et EVA frame protection, mais également des qualités de produits plus générales comme l'espace de rangement, le nombre de compartiments, la lanière de fixation intégrée pour le trolley, la bandoulière réglable, un compartiment à fermeture éclair dissimulé pour vos documents importants.

Système denier

Le système de numérotation des fils et des fibres repose sur le denier, une ancienne unité de poids française. Le nombre informe sur la solidité et le poids du fil utilisé. Le code 1680D indique qu'un fil de 9000 mètres pèse 1680 grammes. Pour un matériau classé 900D, la même longueur de fil pèse alors 900 grammes. Les articles présentant un nombre de deniers élevé sont fabriqués dans des matériaux très résistants, ceux avec des valeurs inférieures séduisent par des tissus plus légers et plus fins.

Garantie «lifetime»

Le contrôle donne au produit une garantie de fiabilité et au client la sécurité. Grâce à ses directives de production et à son système de contrôle qualité très stricts, DICOTA offre sur ses produits une garantie à vie* sur les éventuelles défaillances matérielles et de fabrication pour les sacs pour ordinateurs portables.

Garantie 24 mois

Toutes les sacs pour notebook avec fonction chariot, les composants électriques, les accessoires, les étuis pour tablettes, ainsi que les produits à coque dure et non-standard sont couverts par la garantie 24 mois de DICOTA.

Garantie 36/48 mois

Pour les produits de la gamme MOS, en tant que client vous pouvez bénéficier d'une extension de garantie de 36 à 48 mois.

* En raison de restrictions légales, elle est de 30 ans en Allemagne, et sans restriction de durée dans les autres pays

Sustainability and social responsibility are anchored in our corporate strategy and are consistently put into practice on a daily basis. Our passion is what drives us, while our mission is to develop innovative and sustainable products.

Amfori BSCI

As a member of amfori BSCI, DICOTA is deeply committed to improving working conditions in global supply chains.

Implementation at DICOTA

Our on-site team in Hong Kong ensures that, together with our suppliers, the extensive criteria for the certification are continuously implemented. Our partners undertake to fully comply with the Code of Conduct of the amfori BSCI Charter and thus stand up for fair and social working conditions.

Using resources with consideration

DICOTA is deeply committed to the environment and also honours this commitment during the materials selection process.

Implementation at DICOTA

In the production of our Eco series we use recycled PET, which helps protect the environment: used drinking bottles are recycled and cut into PET flakes instead of being burned. These flakes are then spun into yarn and later processed into fabric – the ecologically sound basis for our Eco series.

The number in the PET bottle indicates how many bottles have been reused for the production of the main material.

REACH / PVC

REACH is the European regulation for registration, evaluation, authorisation and restriction of chemicals. As part of the SVHC list (Substances of Very High Concern), the materials processed are inspected for 197 problematic elements. This involves in particular substances that are carcinogenic, mutagenic, toxic for reproduction and persistently organic. Additional substances are added to the list every six months.

Implementation at DICOTA

All products of the DICOTA brand have met the stringent requirements of REACH and SVHC since 2011. Compliance is ensured through ongoing, independent laboratory analyses.

Named third-party trademarks do not have a connection to DICOTA SCHWEIZ AG.

Nachhaltigkeit und soziale Verantwortung sind in unserer Unternehmensstrategie verankert und werden Tag für Tag konsequent gelebt. Leidenschaft ist unser Antrieb, die Entwicklung innovativer, nachhaltiger Produkte unsere Mission.

Amfori BSCI

Als Mitglied von amfori BSCI setzt sich DICOTA mit grossem Engagement dafür ein, die Arbeitsbedingungen in den globalen Lieferketten zu verbessern.

Die Umsetzung bei DICOTA

Unser Team in Hongkong stellt vor Ort sicher, dass gemeinschaftlich mit unseren Lieferanten die umfangreichen Kriterien für die Zertifizierung kontinuierlich umgesetzt werden. Unsere Partner verpflichten sich, den Code of Conduct von amfori BSCI vollumfänglich zu erfüllen und damit für faire und soziale Arbeitsbedingungen einzustehen.

Ressourcen bewusst nutzen

DICOTA fühlt sich der Umwelt in hohem Masse verpflichtet und lebt dieses Credo auch bei der Materialwahl.

Die Umsetzung bei DICOTA

Bei der Produktion der Eco-Serien setzen wir auf recyceltes PET, das die Umwelt entlastet: Anstatt gebrauchte Getränkeflaschen zu verbrennen, werden diese recycelt und zu PET-Flakes geschnitten. Diese Flocken werden danach zu Garn gesponnen und später zu Stoff verarbeitet – die ökologisch sinnvolle Basis für unsere Eco-Serien.

Die Zahl in der PET-Flasche zeigt Ihnen an, welche Anzahl Flaschen für die Produktion des Hauptmaterials verwendet worden sind.

REACH / PVC

REACH ist die Europäische Verordnung zur Registrierung, Bewertung, Zulassung und Beschränkung chemischer Stoffe. Im Rahmen der SVHC-Liste (Substances of Very High Concern) werden die verarbeiteten Materialien auf 197 bedenkliche Elemente untersucht. Dabei geht es insbesondere um krebserregende, mutagene, reproduktionstoxische und persistente organische Substanzen. Die Liste wird alle sechs Monate um weitere Stoffe erweitert.

Die Umsetzung bei DICOTA

Alle Produkte der Marke DICOTA erfüllen seit 2011 die strengen Auflagen von REACH resp. SVHC. Die Einhaltung wird mit laufenden, unabhängigen Labor-Analysen sichergestellt.

Genannte Marken von Drittanbietern weisen keine Verbindung zu DICOTA SCHWEIZ AG auf.

La durabilité et la responsabilité sociale sont ancrées dans notre stratégie et nous vivons de façon cohérente selon ces principes quotidiennement. La passion est notre moteur, le développement de produits innovants et toujours plus durables notre mission.

Amfori BSCI

En tant que membre du amfori BSCI, DICOTA s'engage activement à améliorer les conditions de travail dans notre chaîne d'approvisionnement à l'échelle globale.

La mise en œuvre chez DICOTA

Notre équipe sur place à Hong Kong s'assure que tous les critères pour la certification sont mis en œuvre continuellement et en commun avec nos fournisseurs. Nos partenaires s'engagent à satisfaire entièrement tous les points de la Charte du amfori BSCI et à promouvoir des conditions de travail justes et sociales.

L'utilisation consciente des ressources

DICOTA a développé un sens de responsabilité environnementale élevé et prolonge sa démarche éco-responsable également dans le choix de ces matériaux.

La mise en œuvre chez DICOTA

Nous utilisons du PET recyclé favorable à l'environnement dans la production des Eco série: Au lieu de brûler les bouteilles de boissons usées, celles-ci sont recyclées et réduites en flocons de PET. Ces flocons sont ensuite transformés en filaments et ensuite en étoffe, la matière de base de notre Eco série; elle est écologiquement raisonnable.

Le chiffre dans la bouteille PET indique combien de bouteilles ont été réutilisées pour la production du matériau principal.

REACH / PVC

REACH est la réglementation européenne pour l'enregistrement, l'évaluation et l'autorisation des produits chimiques au sein de l'Union Européenne. Dans le cadre de la liste SVHC (Substances of Very High Concern), les matériaux sont testés pour vérifier l'absence de 197 éléments à risques. Il s'agit de substances cancérigènes, mutagènes, toxiques pour la reproduction, et organiques persistantes. De nouvelles substances sont ajoutées tous les six mois.

La mise en œuvre chez DICOTA

Tous les produits de la marque DICOTA satisfont depuis 2011 les réglementations strictes de REACH et de SVHC. Nous assurons leurs conformités en réalisant des analyses de laboratoire continues et indépendantes.

Les marques tierces citées n'ont aucun lien avec DICOTA SCHWEIZ AG.

Currently, about 40% of the DICOTA core product range is made of recycled material and each product gives a new life to 6 – 16 PET bottles. In the past 8 years, DICOTA has produced over 380 000 carrying solutions out of recycled PET.

While doing so we have been able to purposefully reuse over 3.2 million PET bottles (0.5l). Step by step we are replacing the main material for all our textile products with recycled alternatives, aiming for a 100% eco-friendly assortment in the future.

Plastic pollution is a global problem that affects both the environment as well as our health. Worldwide around 1 million PET bottles are sold every minute and only about 20% of global plastic waste is recycled. Consistent recycling helps to conserve resources and prevents plastics from ending up in landfills or in the water cycle, where they need around 450 years to biodegrade.

As a leading brand for premium bag solutions, we are consciously aware of our social and ecological responsibility. Our product innovations made from regenerated plastic bottles are not only reliable and cost-effective, but at the same time they are friendly to the environment.

Aktuell besteht rund 40% des DICOTA-Kernsortiments aus recycelten Materialien, und jedes Produkt schenkt 6 bis 16 PET-Flaschen ein neues Leben. In den vergangenen 8 Jahren hat DICOTA über 380 000 Tragelösungen aus recyceltem PET hergestellt.

Dabei konnten wir über 3.2 Millionen PET Flaschen (0,5 l) sinnvoll wiederverwerten. Schritt für Schritt ersetzen wir das Hauptmaterial für all unsere Textilprodukte durch recycelte Alternativen mit dem Ziel, in Zukunft ein 100% nachhaltiges Produktportfolio anzubieten.

Plastikverschmutzung ist ein globales Problem, welches sowohl die Umwelt als auch unsere Gesundheit belastet. Jede Minute werden weltweit rund 1 Million PET-Flaschen verkauft und nur etwa 20% aller Kunststoffabfälle werden wiederverwertet. Ein konsistentes Recycling hilft, Ressourcen zu schonen, und verhindert, dass Kunststoffe in Deponien oder im Wasserkreislauf landen, wo sie rund 450 Jahre brauchen, um sich biologisch abzubauen.

Als führender Brand für erstklassige Taschenlösungen nehmen wir unsere soziale und ökologische Verantwortung bewusst wahr. Unsere Produktinnovationen aus wiederverwerteten Plastikflaschen sind nicht nur zuverlässig und kosteneffizient, sondern gleichzeitig auch schonend für die Umwelt.

Aujourd'hui, près de 40% de la gamme de produits de base de DICOTA est constituée de matière recyclée et chaque produit donne une nouvelle vie à 6 – 16 bouteilles en PET. Au cours de ces 8 dernières années, DICOTA a produit plus de 380 000 articles de bagagerie en PET recyclé.

Ce faisant, nous avons recyclé plus de 3.2 millions de bouteilles en PET (0,5 l). Petit à petit, nous remplaçons la matière première de tous nos produits textiles par des alternatives recyclées, avec l'objectif de proposer une gamme 100% écoresponsable à l'avenir.

La pollution plastique est un fléau mondial qui touche aussi bien l'environnement que notre santé. À travers le monde, près d'1 million de bouteilles en PET sont vendues chaque minute et seulement 20% environ de l'ensemble des déchets plastiques est recyclé. Un recyclage généralisé aide à préserver les ressources et empêche que les matières plastiques ne finissent dans des décharges ou dans le cycle de l'eau, où il leur faut environ 450 ans pour se biodégrader.

En tant que marque leader en bagagerie de qualité, nous avons pleinement conscience de notre responsabilité écologique et sociale. Nos produits innovants fabriqués à partir de bouteilles en plastique recyclées ne sont pas seulement robustes et économiques, ils sont aussi respectueux de l'environnement.

PET recycling process

Drinking bottles are sorted, washed and cut into PET flakes.

These flakes are heated to eliminate remaining impurities, then melted and pressed into dense pellets.

This raw material is further processed into Polyester fibre and later spun into yarn.

The yarn can be processed into various types of high-quality fabric – the ecologically sound basis for durable and stylish DICOTA bags.

STAY PRIVATE

fast – effective – risk-free

EN We are increasingly working away from our workplace, yet the risk of visual hacking is often underestimated. Possible perpetrators keep trying new ways of snooping out information, whether it be on a train, on a plane, on the road, in a cafe or in the office. It is, therefore, a matter of using a technical solution to prevent third parties from reading screen contents, or in the worst case, even photographing them. Protect your privacy with DICOTA. Learn more on page 66–67.

DE Wir arbeiten immer seltener an einem festen Arbeitsplatz. Dabei wird das Risiko durch visuelles Hacking oft unterschätzt. Potenzielle Täter finden immer wieder neue Mittel und Wege, um Informationen auszuspähen: im Zug, im Flugzeug, auf der Strasse, im Café oder im Büro. Daher müssen wir auf technische Methoden zurückgreifen, die verhindern, dass Dritte Inhalte auf dem Bildschirm mitlesen oder sie im schlimmsten Fall sogar fotografieren. Schützen Sie Ihre Privatsphäre mit DICOTA. Mehr dazu erfahren Sie auf Seite 66–67.

FR Nous travaillons de plus en plus en dehors de notre lieu de travail et augmentons ainsi le risque de piratage visuel. Ce danger est souvent sous-estimé. Les voleurs continuent d'essayer de nouvelles façons d'espionner et de récupérer de l'information, que ce soit dans le train, dans l'avion, dans un café ou au bureau. Il s'agit donc de prévenir, d'une manière technique, que les tiers ne puissent lire le contenu de l'écran ou dans le pire des cas le photographier. Protégez votre vie privée avec DICOTA. Pour en savoir plus, voir la page 66–67.

Privacy filters for iPhone and tablets

Stop visual data theft even on smaller mobile devices.

100% touch sensitivity – reduces blue light – scratch-resistant – anti-fingerprint – no residue when removed – easy to apply thanks to silicon layer – reusable

Art. No.	Privacy filter

quantities.

Laser engraving
or doming logo plate

Hanging laser engraving
or doming logo plate

Laser engraving

The laser burns your logo with millimetre accuracy onto the metal plate. An elegant and discreet way of presenting your brand.

Doming logo plate

Stand out from the crowd with these new, high-quality gel stickers. Give your logo a unique 3-D effect thanks to the curved coating with a cast resin layer.

Screen printing

Your logo design will be printed directly onto the main fabric. This technology gives you vibrant colours and shows the finest details.

Stitching

Your logo is sewn directly onto the main material of the bag using the most advanced embroidery machines. Shiny yarns create a very exclusive impression.

NEW

Eco-friendly. SCALE collection

Works on any commonly available touchscreen

Colour black Art. No. D31260

DOCKINGS

plug – connect – transfer

EN The design of notebooks has evolved steadily over the years. Always lighter, thinner and more agile. Comfortable to carry, comfortable to use. However, most trendsetters no longer offer enough USB ports to connect all peripheral devices. The new, practical DICOTA USB-C products are the solution.

DE Das Design der Notebooks hat sich im Laufe der Jahre stetig weiterentwickelt. Leichter, dünner und in einem reduzierten Design. Angenehm zu tragen, angenehm zu arbeiten. Allerdings bieten die Trendsetter meistens nicht mehr genügend USB-Ports, um alle Peripherie-Geräte anzuschliessen. Dafür gibt es die neuen, praktischen USB-C-Produkte von DICOTA.

FR Au fil des années, le design des ordinateurs portables n'a cessé d'évoluer. Toujours plus légers, plus fins et plus maniables. Confortables à transporter, confortables à utiliser. En revanche, la plupart des fabricants n'offrent plus assez de ports USB pour brancher tous les appareils périphériques. Nouveaux et pratiques, les produits DICOTA USB-C sont la solution idéale.

USB-C Portable Docking 9-in-1 with HDMI

Portable docking station, ideal for mobile work and business travel. Always plenty of connections.

D31731	57g	90 x 60 x 15.7 mm

With the new DICOTA Configurator you can easily find the suitable filter for your system with a simple mouse click.

FILTERS

protective – secure – custom-fit

EN Protect your private and business data from unwanted eyes. This prevents data theft and complies with applicable legal regulations. The DICOTA portfolio offers more than 200 filters for smartphones, tablets, notebooks and monitors. Very popular are the innovative magnetic privacy filters, which can be installed within only a fraction of a second. But also the classic plug-in filters continue to be in great demand. The self-adhesive filters, which are also available as an anti-reflective film for glossy displays, are practical to use.

DE Schützen Sie Ihre privaten und geschäftlichen Daten vor fremden Blicken. Sie beugen damit Diebstahl vor und befolgen geltende gesetzliche Richtlinien. Das DICOTA Portfolio bietet über 200 Filter, für Smartphone, Tablet, Notebook und Monitore. Besonders beliebt sind die innovativen Magnet-Blickschutzfilter, die innert Sekundenbruchteilen montiert werden. Aber auch die klassischen Steckfilter erfreuen sich weiterhin grosser Nachfrage. Praktisch in der Anwendung sind die selbstklebenden Filter, welche auch als Entspiegelungsfolien für glänzende Displays erhältlich sind.

EN Protégez vos données personnelles et professionnelles des regards indésirables. Conforme aux réglementations légales applicables, ce produit empêche le vol de données. La gamme DICOTA propose plus de 200 filtres pour smartphones, tablettes, ordinateurs portables et moniteurs. Les innovants filtres de confidentialité magnétiques sont particulièrement appréciés et peuvent être installés en une fraction de seconde. Mais les filtres classiques à insérer sont encore très demandés. Les filtres auto-adhésifs, également disponibles en tant que film antireflet pour les écrans brillants, sont pratiques à utiliser.

Tailored to your device

Are you looking for a tailor-made solution for your hardware? A custom-made film can be produced for you even from small quantities. We will be happy to advise you in detail at the e-mail address: tailor-made@dicota.com.

LOCKS

secure – reliable – versatile

EN A notebook can be stolen in an instant. Expensive hardware and important data are lost. This can involve a lot of work and great expense. A need to deal with police, insurance, data recovery etc. Targeted prevention is the answer – with a quality lock from DICOTA. Easy, convenient and effective. Ideal for use in the office, in cars or in hotels. Discover the wide range of lock solutions at www.dicota.com.

DE Ein Notebook ist schnell entwendet. Weg sind teure Hardware und wichtige Daten. Zudem entstehen grosser Aufwand und hohe Kosten. Polizei, Versicherung, Datenwiederherstellung und vieles mehr. Beugen Sie gezielt vor. Mit einem Qualitätsschloss von DICOTA. Einfach, bequem und effektiv. Ideal im Büro, im Auto oder Hotel. Entdecken Sie das umfangreiche Sortiment auf www.dicota.com.

FR Se faire voler un ordinateur portable, c'est vite arrivé. Vous perdez d'un seul coup du matériel coûteux et des données importantes. En plus, cela implique des désagréments et des frais élevés: police, assurance, récupération des données et bien plus encore. Avec un câble antivol de qualité DICOTA, vous prenez donc une précaution ciblée, simple et efficace. Idéal au bureau, dans la voiture ou à l'hôtel. Découvrez le vaste assortiment sur www.dicota.com.

The right lock for each device

Notebooks as well as projectors, monitors and printers can be secured effectively with the DICOTA locking systems. Currently, device manufacturers use three different formats for lock slots. You will find the right anti-theft protection for any device in the wide DICOTA portfolio.

If you have any questions or require technical advice, please do not hesitate to contact us. Contact us at info@dicota.com.

Good combination

Practical keys or a personal numeric code of 10 000 combinations. Both solutions offer maximum efficiency in daily work and the highest level of safety.

One for all. B2B – Masterkey

Each user gets an individual lock to which only their personal key matches. Nevertheless, the IT manager has control at all times and can open all locks with the masterkey if required. Available from 50 units.

Uncompromising protection

The high-quality DICOTA locking systems offer maximum protection without compromises. Designed with an integrated multi-strand steel cable of up to 5.2 mm diameter and solid closing heads with a perfect fit.

Flexible workplace design

The turning and swivelling closing heads adapt ideally to your device. Thanks to the push-to-lock function, the locks can also be secured without a key, using one hand only.
