

CognitiveTPG A799 THERMAL RECEIPT PRINTER

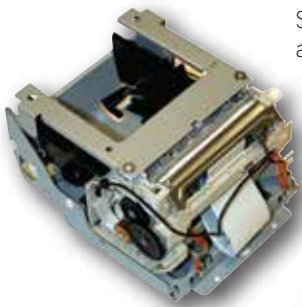

High Performance, Full Featured Receipt Printing for Retail, Hospitality, and Banking

“Exceed Your Expectations!”

The A799 is a true leader when it comes to combined reliability, features, and performance. With the industry’s only auto sharpening ceramic knife rated at 3 million cuts and a 4 year warranty, the A799 is a long lasting investment. Its fast print speeds, two-color printing, and ReceiptWare marketing software make it the ideal printer for advanced applications and greater customization.

- Fast print speeds at 250 mm/sec
- Steel frame and modular design
- Longest knife life in the industry
- Unmatched reliability
- Multiple interface options
- Standard 4 year warranty
- Available with Spill Guard option for ultra-harsh environments and a MaxStick reusable label version
- 4 MB Flash Memory
- Crisp two-color printing (two-color DT paper required)
- ReceiptWare software for customizable receipts

Steel frame, metal components,
and self-sharpening ceramic knife

ReceiptWare software and
crisp two-color printing turn
your printer into a powerful
marketing vehicle

A799 THERMAL RECEIPT PRINTER

PRODUCT HIGHLIGHTS

Optimal Print Speeds

With 250 mm/sec printing at sharp 203 dpi, transaction time is remarkably fast, even for longer receipts loaded with graphics and logos.

Rugged and Reliable Design

A modular steel frame built around our legendary rugged print mechanism adds strength and stability, extending component life. Combined with CognitiveTPG's exclusive self-sharpening ceramic knife, the A799 offers the best combination of printhead and auto cutter reliability.

Versatile Modular Configuration

Modular design means faster delivery and compatibility with earlier models and many competitor printers.

Increased Spill Resistance

The A799 was designed with liquid dams and unique drainage features to provide uninterrupted printing in normal retail and hospitality environments where damage can occur. For harsher environments, an optional Spill Guard accessory is available for added protection against accidental spills and environmental dust.

Ease of Use and Versatility

The A799 offers monochrome and two-color printing, a small footprint, easy paper loading, and sizeable flash memory for stored logos, graphics, or barcodes. An installation CD is also available for more advanced settings.

Expanded Marketing and Customer Loyalty

CognitiveTPG's ReceiptWare marketing software turns every receipt into a promotional opportunity. Add logos and watermarks, offer promotions, highlight sales and savings, run contests, promote your Facebook page...the options are endless.
