### Overview

#### What's New

- Support for HP 2650W Platinum Hot Plug Power Supply
- HP BladeSystem c7000 Platinum Enclosure
  - Increased mid-plane bandwidth
  - Intelligent Infrastructure
    - 2400W or 2650W Platinum Hot Plug Power Supply (80 Plus certified)
    - Intelligent Power Module for Power Discovery Services
    - Location Discovery Services
- Support for HP Insight Control 7.2 and higher releases

**NOTE:** HP BladeSystem c7000 Platinum enclosures are compatible with existing c-Class infrastructures. HP c-Class enclosures are backwards compatible. For more information on interconnects please go to c-Class Interconnects.

---

#### At A Glance

This document covers the HP BladeSystem c7000 Enclosure. For more information on HP ProLiant Server Blades and HP BladeSystem c-Class Interconnect Components please see the following QuickSpecs:

HP BladeSystem c-Class Server Blades:

[http://h18000.www1.hp.com/products/quickspecs/north\\_america/12534.html](http://h18000.www1.hp.com/products/quickspecs/north_america/12534.html)

HP BladeSystem c3000 Enclosure QuickSpecs:

[http://h18000.www1.hp.com/products/quickspecs/12790\\_na/12790\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12790_na/12790_na.html)

HP BladeSystem solutions start with a BladeSystem c7000 Enclosure, optional c7000 hot-plug power supplies, HP Active Cool Fans, and an optional redundant BladeSystem Onboard Administrator module. Once the enclosure has been selected, the following components can be added: networking interconnect modules, HP ProLiant and Integrity Server Blades, and Insight Control management software. Reference the QuickSpecs listed above.

- **Warranty** - This product is covered by a global limited warranty and supported by HP Services and a worldwide network of HP Authorized Channel Partners. Hardware diagnostic support and repair is available for three years from date of purchase. Support for software and initial setup is available for 90 days from date of purchase. Additional support may be covered under the warranty or available for an additional fee. Enhancements to warranty services are available through HP Care Pack services or customized service agreements.
  - Enclosure: Three-year parts and labor, on-site limited global warranty. Certain restrictions and exclusions apply
  - Enclosure options: Fans, Power Supplies, BladeSystem Onboard Administrator, 1 Year parts only or enclosure warranty
  - HP BladeSystem Interconnects: 1 Year parts and labor, on-site regardless of the warranty period for the system in which they are installed
  - HP Storage Fibre Channel switches have a maximum warranty period of one (1) year regardless of the warranty period for the system in which they are installed
  - Hard drives have either a one year or three year warranty; refer to specific hard drive QuickSpecs for details.

**NOTE:** All c7000 BTO enclosures will ship with 15 server blanks. CTO enclosures will ship with the required number of server blanks.

**NOTE:** c7000 Platinum enclosure (PNs 681840-B21 and 681842-B21) comes standard with increased mid-plane bandwidth, intelligent infrastructure (2400W Platinum Hot Plug Power Supply's, Intelligent Power Module for Power Discovery Services, and Location Discovery Services), and a BladeSystem Onboard Administrator with KVM.

**NOTE:** c7000 enclosure (PNs 5070xx-B21) come as standard with the HP 2400W Gold Power Supply and BladeSystem Onboard Administrator with KVM. HP 2650W Platinum Power Supplies are optional via CTO and located in the Configuration Information Factory Integration Process section below.

### HP BladeSystem c-Class Overview

#### HP BladeSystem c-Class c7000 Enclosure

A BladeSystem c7000 enclosure holds up to 16 server and/or storage blades plus redundant network and storage switches. It includes a shared, multi-terabit high-speed mid-plane for wire-once connectivity of server blades to network and shared storage. Power is delivered through a pooled power backplane that ensures the full capacity of the redundant hot-plug power supplies is available to all blades.

Each c7000 enclosure is built with the following functions:

- Up to 16 half-height and/or up to 8 full-height server blades and/or storage blades per enclosure.
- Up to 4 different interconnect fabrics (Ethernet, FC, IB, iSCSI, SAS, etc.) supported simultaneously within the enclosure.
- Choice of a single-phase, three-phase or a -48V DC power subsystem for flexibility in connecting to datacenter power.
- HP Thermal Logic technology for lower power consumption and airflow.
- Four (4) or Ten (10) Active Cool 200 fans as standard. For redundancy and improved power consumption and acoustics; additional Active Cool 200 Fan kits can be added for a maximum of 10 fans.
- Redundant hot-plug cooling, redundant hot-plug power supplies, redundant connections, redundant interconnect modules, optional redundant BladeSystem Onboard Administrator management modules.
- Lowest cost of ownership.
- Full AC redundancy - with no power zones.

An BladeSystem Onboard Administrator management module is built in to the enclosure with the following functions:

- Robust, multiple enclosure setup and control.
- Reports asset and inventory information for the devices in the enclosure.
- Reports thermal and power information, including real-time actual power usage per server and per enclosure.
- Front-mounted Insight Display for easy management within the datacenter.
- Integrated access to all server blade iLOs from a single cable.
- Provides integrated access to interconnect bay device management ports from the single BladeSystem Onboard Administrator cable.
- Single sign-on capability for all devices in the enclosure
- Role-based security locally and/or with LDAP directory services.
- Provides a wizard-based initial setup process for easy configuration.

A BladeSystem c7000 enclosure provides the following benefits:

- With local and remote hardware management integrated across the solution, one full enclosure can be managed as easily as one server.
- Scalable: Management and network interconnects extend scalability beyond a single enclosure, allowing resources to be pooled and shared across multiple enclosures.
- Investment protection: Accommodates multiple server and network designs in one enclosure.
- Lower costs per server, in comparison to rack-mounted servers
- Lower power consumption, in comparison to rack-mounted servers.
- Lower airflow requirements, in comparison to rack-mounted servers

### HP BladeSystem c-Class Overview

#### HP c3000 Enclosure

For customers that need a smaller system the c3000 is the perfect solution. Supporting up to 8 blades and 4 interconnects the c3000 enclosure provides an ideal solution for Small and Medium businesses and remote sites for more information refer to the c3000 QuickSpecs at:

[http://h18000.www1.hp.com/products/quickspecs/12790\\_na/12790\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12790_na/12790_na.html)

#### HP ProLiant & Integrity Server Blades

Delivering best-in-class performance, choice and reliability on AMD Opteron™, Intel® Xeon® and Intel® Itanium® processors for Windows, Linux, Solaris, OpenVMS or HP-UX based servers; the HP portfolio of server blades supports a variety of application requirements for scale-out architectures. HP offers one-, two-, four-, or eight processor server blades, with the widest range of performance, and form factors. For more information please see:

[http://h18000.www1.hp.com/products/quickspecs/north\\_america/12534.html](http://h18000.www1.hp.com/products/quickspecs/north_america/12534.html)

**NOTE:** The length of HP ProLiant Gen8 server blades is longer than previous generations, and these server blades protrude slightly from the edge of the enclosure.

#### HP D2200sb Storage Blade

Do you need a direct attached or shared storage solution within your BladeSystem enclosure?

##### Direct attached storage

The D2220sb Storage Blade delivers direct attached storage for c-Class Gen8 blade servers, with support for up to twelve hot plug small form factor (SFF) SAS or SATA Midline hard disk drives or SAS/SATA SSDs. The enclosure backplane provides a PCI Express connection to the adjacent c-Class server blade and enables high performance storage access without any additional cables. The D2220sb Storage Blade features an onboard Smart Array P420i controller with 2GB flash-backed write cache, for increased performance and data protection. Up to eight D2220sb storage devices can be supported off a single BladeSystem c7000 enclosure for up to 115.2 TB of capacity.

##### Two ways to create shared storage with the D2220sbs

Use HP StoreVirtual VSA software to turn the D2220sb into an iSCSI SAN for use by all servers in the enclosure and any server on the network. HP VSA software is installed in a virtual machine on a VMware ESX host server adjacent to the D2220sb. HP StoreVirtual VSA turns the D2220sb into a scalable and robust iSCSI SAN, featuring storage clustering for scalability, Network RAID for storage failover, thin provisioning, snapshots, remote replication, and cloning. Expand capacity within the same enclosure or to other BladeSystem enclosures by adding additional D2220sb Storage Blades and HP VSA licenses. A cost effective bundle of the D2220sb Storage Blade and a HP StoreVirtual VSA license makes purchasing convenient. If storage needs increase, add HP P4300 or P4500 systems externally and manage everything via a single pane of glass.

The HP StoreEasy 3830 Gateway Storage Blade is a flexible storage server solution for BladeSystem environments. Combine the StoreEasy 3830 with the D2220sb Storage Blade to enable file serving and iSCSI shared storage inside the BladeSystem enclosure.

**NOTE:** c7000 requires 10 fans, storage blade is not supported with 8 fan configuration.

For more information, please visit:

[http://h18004.www1.hp.com/products/quickspecs/14507\\_na/14507\\_na.html](http://h18004.www1.hp.com/products/quickspecs/14507_na/14507_na.html)

### HP BladeSystem c-Class Overview

**HP Ultrium Tape Blades** The HP SB1760c is an LTO-4 Ultrium, 1.6 TB capacity on a single cartridge (2:1 compression), 576 GB/hr performance (2:1 compression), 128 MB buffer size, WORM capability, AES 256-bit hardware data encryption capability.

Tape blades are ideal for HP BladeSystem c-Class customers who need a data protection solution but are not connected into a Storage Area Network (SAN). They provide direct attach data protection for the adjacent server and network backup protection for all other data within the enclosure. The HP tape blades are the industry's first bladed tape drives and are developed exclusively for the BladeSystem c-Class enclosures.

For more information, please visit:

[http://h18000.www1.hp.com/products/quickspecs/12729\\_na/12729\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12729_na/12729_na.html)

---

### HP Network Storage Servers

#### HP X1800sb Network Storage Blade

HP X1800sb Network Storage Blade is a flexible storage server solution for BladeSystem environments. Combine the X1800sb with the D2200sb Storage Blade to enable file serving and iSCSI shared storage inside the BladeSystem enclosure. The flexibility of the X1800sb extends to external storage as well. The X1800sb can also be used as a low cost SAN gateway to provide consolidated file-serving access to FC, SAS, or iSCSI SANs.

**NOTE:** See the QuickSpecs for Technical Specifications and additional information:

[http://h18000.www1.hp.com/products/quickspecs/12786\\_na/12786\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12786_na/12786_na.html)

#### HP X3800sb Network Storage Gateway

The X3800sb Network Storage Gateway Blade is used to access FC, SAS, or iSCSI SAN storage, translating file data from the server into blocks for storage to provide consolidated file, print, and management hosting services in a cluster-able package.

Built on the HP ProLiant BL460c Server Blade, the HP X3800sb Network Storage Gateway Blade is a ready to deploy SAN gateway solution, with Microsoft Storage Server 2008, Enterprise x64 Edition pre-installed. The HP Rapid Start-up Wizard accelerates new deployments by walking you through basic system settings step-by-step. The X3800sb also includes a Microsoft Cluster Server (MSCS) license and Microsoft iSCSI Software Target.

**NOTE:** See the QuickSpecs for Technical Specifications and additional information:

[http://h18006.www1.hp.com/products/quickspecs/13334\\_na/13334\\_na.html](http://h18006.www1.hp.com/products/quickspecs/13334_na/13334_na.html)

---

### Dynamic Power Capping

HP Dynamic Power Capping is the industry's first and only power capping solution that lets you reclaim trapped power and cooling capacity without putting electrical infrastructure or server performance at risk. The enclosure Dynamic Power Cap will be shared amongst all of the installed devices and individual server caps will be changed to match the server load. This will optimize the performance of the servers while ensuring that the enclosure stays below the cap value.

### HP BladeSystem c-Class Overview

#### Rack Airflow Requirements

#### Rack 10000 G2 series cabinets

The increasing power of new high-performance processor technology requires increased cooling efficiency for rack-mounted servers. The G2 10000 Series Racks provide enhanced airflow for maximum cooling, allowing these racks to be fully loaded with servers using the latest processors.

**NOTE:** For operation with the DC Input Module the G2 1000 Series Rack Extension is required to allow DC Power Cabling to be installed.

**CAUTION:** If a third-party rack is used, observe the following additional requirements to ensure adequate airflow and to prevent damage to the equipment:

- Front and rear doors: If your 42U server rack includes closing front and rear doors, you must allow 830 square inches (5,350 sq cm) of hole evenly distributed from top to bottom to permit adequate airflow (equivalent to the required 64 percent open area for ventilation).
- The clearance from face of rack to inside of the front door needs to be 1.75" minimum.
- Side: The clearance between the installed rack component and the side panels of the rack must be a minimum of 2.75 inches (7 cm).
- Depth: Minimum 39.4 inches (1000mm) for AC power, 47 inches (1200mm) for DC Power Input
- Adjustable rack rails are shipped with each enclosure:
  - Minimum rail length: 25 inches (635mm)
  - Maximum rail length: 34 inches (864mm)

**CAUTION:** Always use blanking panels to fill all remaining empty front panel U-spaces in the rack. This arrangement ensures proper airflow. Using a rack without blanking panels results in improper cooling that can lead to thermal damage.

#### Factory Express Portfolio for Servers and Storage

HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Customers can choose how their factory solutions are built, tested, integrated, shipped and deployed.

Factory Express offers service packages for simple configuration, racking, installation, complex configuration and design services as well as individual factory services, such as image loading, asset tagging and custom packaging. HP products supported through Factory Express include: a wide array of servers and storage: HP Integrity, HP ProLiant & HP ProLiant & Integrity Server Blades, HP BladeSystem, HP 9000 servers as well as the MSAxxxx, VA7xxx, EVA, XP, rackable tape libraries and configurable network switches.

For more information on Factory Express services for your specific server model please contact your sales representative or go to: <http://www.hp.com/go/factory-express>

#### HP Simple Configurator

SCE is a guided self service tool to help sales and non technical people provide customers with initial configurations in 3 to 5 minutes. You may then send the configuration on for configuration help, or use in your existing ordering processes. If you require "custom" rack configuration or configuration for products not available in SCE, please contact HP's Customer Business Center or an Authorized Partner for assistance. <http://www.hp.com/products/configurator>

#### HP Insight management software

#### Insight Management

Managing the growing number of servers can be complex and expensive for your organization. IT managers need to address changing business needs with tools that meet the challenges of managing today's complex Datacenters.

HP Insight Management lowers the cost of running your HP ProLiant servers

### HP BladeSystem c-Class Overview

by providing you with best-in-class management tools, including HP Insight Control, HP Virtual Connect Enterprise Manager (VCEM), and HP Insight Dynamics / Matrix Operating Environment. Insight Management increases your productivity and reduces your operating costs to get you higher value from your HP ProLiant servers.

Electronic download of Insight Management Media  
Insight Management software media is available for free download (not including license entitlement certificates) at this website:  
<http://www.hp.com/go/insightupdates>.

Software media available for download includes:

- HP Insight Control
- HP Insight Control for Microsoft® System Center
- HP Insight Control for VMware vCenter Server
- HP Virtual Connect Enterprise Manager (VCEM)
- HP Insight Dynamics / Matrix Operating Environment

Customers will receive an Insight Control or Insight Dynamics license entitlement certificate via physical shipment or email. The license entitlement certificate must be redeemed online or via fax in order to obtain the license activation key(s).

One year of 24x7 Software Technical Support and Updates are included with your purchased licenses.

HP provides a complete range of installation and support services to ensure the successful deployment and operations of your server infrastructure. For more information about support services and licensing options, see the following website:  
<http://www.hp.com/go/insightssoftware>

#### Insight Software Media Kit (DVDs)

Physical media (DVDs) are also available for purchase from HP or from your authorized reseller

#### Service Pack for ProLiant

Customers should use the HP Service Pack for ProLiant (SPP) to perform firmware, driver, and related software updates

- SPP main webpage: [www.hp.com/go/spp](http://www.hp.com/go/spp)
- SPP downloads webpage: [www.hp.com/go/spp/download](http://www.hp.com/go/spp/download)

#### HP Integrated Lights-Out (iLO)

HP Integrated Lights-Out (iLO) simplifies server setup, health monitoring, power and thermal control, and lights-out remote administration of ProLiant ML, DL, and BL servers. HP iLO functions without additional software and can be accessed from any location via a web browser. HP iLO works hand-in-hand with HP Systems Insight Manager, Insight Control and Insight Dynamics for ProLiant, helping customers unleash the value of the ProLiant platform and deliver the highest possible quality of IT service. For more information, visit: [www.hp.com/go/iLO](http://www.hp.com/go/iLO)

#### HP Insight Control

HP Insight Control, a product option, delivers essential infrastructure management that can help save time and money by making it easy to deploy,

### HP BladeSystem c-Class Overview

#### HP Matrix Operating Environment

monitor, remote control, and optimize your IT infrastructure through a single, simple management console. For more information, see <http://www.hp.com/go/insightcontrol>.

HP Insight Control includes one year of 24 x 7 HP Software Technical Support and Update Service ensuring rapid access to HP support staff and proactive delivery of software updates. For more information about this service, please visit: <http://www.hp.com/services/insight>.

The HP Matrix Operating Environment (Matrix OE) for ProLiant and Integrity servers is an integrated command center that helps you instantly adjust to dynamic business demands. This advanced infrastructure management software lets you reduce the cost of common data center tasks by up to 40 percent while keeping pace with your changing business.

The HP Matrix OE includes the automated provisioning, optimization, and recovery management capabilities for HP CloudSystem Matrix, the ideal platform for private cloud and Infrastructure as a Service (IaaS).

**NOTE:** For more information, visit: <http://www.hp.com/go/matrixoe>

---

#### HP Power Advisor

The HP Power Advisor is a tool provided by Hewlett-Packard to assist in the estimation of power consumption and proper selection of components including power supplies at a system, rack, and multi-rack level. A variety of additional features are also provided including a condensed bill of materials, a cost of ownership calculator, and a power report. The HP Power Advisor allows for the mixing of rack, tower, blade, and other products in a single environment.

Available at: [www.hp.com/go/hppoweradvisor](http://www.hp.com/go/hppoweradvisor)

### Service and Support

#### Service and Support

##### **HP Technology Services for Industry Standard Servers and BladeSystem**

Capitalizing on HP ProLiant server and HP BladeSystem capabilities requires a service partner who understands your increasingly complex business technology environment. That's why it makes sense to team up with the people who know HP infrastructure hardware and software best - the experienced professionals at HP Services.

##### **Protect your business beyond warranty with HP Care Pack Services**

HP Care Pack services offer complete care and support expertise with committed response choices designed to meet your IT and business needs.

HP Foundation Care services offer scalable reactive support-packages for HP servers and software. You can choose the type and level of service that is most suitable for your IT and business needs. HP Proactive Care delivers high levels of system availability through proactive service management and advanced technical response. HP Datacenter Care provides highly flexible environmental support to address unique customer business needs.

Choose a recommended service appropriate to your ISS or Integrity product or contact your HP sales representative or authorized HP ServiceOne partner for additional HP Care Pack services information.

#### **Recommended HP Care Pack Services for your HP product**

##### **Optimized Care**

##### **3-Year HP 6 hour Call to Repair Response, Proactive Care**

Combined reactive and proactive support for hardware and software helping optimize your systems and delivering high levels of availability through proactive service management and advanced technical response. Hardware problem resolution to return the hardware in operating condition within 6 hours of the initial service request. A Technical Account Manager, as your single point of contact, will own your call or issue end to end until resolved.

<http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855EEE.pdf>

##### **HP Installation and Startup Service for HP BladeSystem c-Class Infrastructure for c7000 enclosure**

Provides for hardware installation (c-Class ProLiant and Integrity server blades, storage blades, Ethernet Interconnects and Virtual Connect) and software installation and startup of a BladeSystem c7000 Infrastructure in a single enclosure including deployment of OS (two servers), HP Insight Control and Server Deployment (formerly RDP).

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4AA0-5964ENW.pdf>

##### **HP Installation and Startup Service for HP BladeSystem c-Class Enhanced Network**

HP Provides for the configuration and testing of BladeSystem Ethernet interconnect switches and Virtual Connect to facilitate proper implementation of network protocols and access to advanced features.

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4aa0-5969ENW.pdf>

##### **Standard Care**

##### **3-Year HP 24x7 4 hour response, Proactive Care Service**

This service gives you combined reactive and proactive support including rapid access to our Advanced Solution Center to manage and prevent problems and a Technical Support Specialist with a broad level of technical knowledge that will engage with additional technical expertise as needed from HP's vast global resources.

<http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855EEE.pdf>

##### **HP Installation and Startup Service for HP BladeSystem c-Class Infrastructure for c7000 enclosure**

Provides for hardware installation (c-Class ProLiant and Integrity server blades, storage blades, Ethernet Interconnects and Virtual Connect) and software installation and startup of a BladeSystem c7000 Infrastructure in a single enclosure including deployment of OS (two servers), HP Insight Control and Server

### Service and Support

Deployment (formerly RDP).

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4AA0-5964ENW.pdf>

#### **HP Installation and Startup Service for HP BladeSystem c-Class Enhanced Network**

HP Provides for the configuration and testing of BladeSystem Ethernet interconnect switches and Virtual Connect to facilitate proper implementation of network protocols and access to advanced features.

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4aa0-5969ENW.pdf>

### Related Services

#### **HP Proactive Care Personalized Support - Environmental Option**

The Personalized Support option provides an assigned Account Support Manager who can bring best practices from across the industry plus extra technical skills to your IT team. This option is only available as an add-on to HP Proactive Care Support.

#### **HP Proactive Select Service**

Provides a flexible way to purchase HP best-in-class consultancy and technical services. You can buy Proactive Select Service Credits when you purchase your hardware and then use the credits over the next 12 months. <http://h20195.www2.hp.com/V2/GetPDF.aspx/4AA2-3842ENN.pdf>

Additional HP Care Pack services can be found at: <http://www.hp.com/go/cpc>

### Recommended HP Care Pack Services for your HP Integrity product

#### Optimized Care

##### **3- Year HP Critical Service**

This service offers high performance reactive services and proactive components designed to minimize planned and unplanned downtime. The key feature of this service is an assigned support team including an Account Support Manager (ASM), Remote Support Account Advocate, Mission Critical Hardware Specialist and access to HP's Global Mission Critical Solution Center to help resolve complex issues faster. Reactive support components of this service include 24x7 HW and SW coverage, 6-hour Call-to-Repair commitment, enhanced parts inventory and accelerated escalation management.

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4AA0-1613ENW.pdf>

##### **HP Integrity C7000 Enclosure Startup Service**

This service provides efficient and effective HP Integrity Blade infrastructure setup for the server infrastructure including all hardware and networking components.

<http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA1-1651ENW.pdf>

##### **HP Installation and Startup Service for HP BladeSystem c-Class Enhanced Network**

HP Provides for the configuration and testing of BladeSystem Ethernet interconnect switches and Virtual Connect to facilitate proper implementation of network protocols and access to advanced features.

<http://h20195.www2.hp.com/V2/GetPDF.aspx/4aa0-5969ENW.pdf>

#### Standard Care

##### **3-Year HP Proactive 24**

This service offers improved stability, availability, and operational effectiveness through integrated hardware and software support services that combine industry-leading reactive technical assistance with proactive account services delivered by an ASM, giving you IT management support with a team of service specialists. <http://h20195.www2.hp.com/V2/GetPDF.aspx/4AA0-1614ENW.pdf>

##### **HP Integrity C7000 Enclosure Startup Service**

This service provides efficient and effective HP Integrity Blade infrastructure setup for the server infrastructure including all hardware and networking components.

<http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA1-1651ENW.pdf>

##### **HP Installation and Startup Service for HP BladeSystem c-Class Enhanced Network**

HP Provides for the configuration and testing of BladeSystem Ethernet interconnect switches and Virtual Connect to facilitate proper implementation of network protocols and access to advanced features.

### Service and Support

#### Related Services

##### HP Factory Express

When you add additional enclosures to your environment, consider HP Factory Express. HP Factory Express provides customization and deployment services along with your storage and server purchases. You can customize hardware to your exact specifications in the factory—helping speed deployment.

<http://hp.com/go/factoryexpress>

#### Insight Online/Insight Remote Support

HP Insight Remote Support provides 24 X 7 remote monitoring, proactive notifications, and problem resolution. This comes at no additional cost with your HP solution. Learn more about Insight Remote Support <http://www.hp.com/go/insightremotesupport> and Insight Online

<http://www.hp.com/go/insightonline>

**NOTE:** Insight Remote Support is a prerequisite for Proactive Care. All blades within a single HP BladeSystem enclosure must be at the same service level.

#### HP Support Center

Personalized online support portal with access to information, tools and experts to support HP business products. Submit support cases online, chat with HP experts, access support resources or collaborate with peers. Learn more <http://www.hp.com/go/hpsc>

HP's Support Center Mobile App allows you to resolve issues yourself or quickly connect to an agent for live support. Now, you can get access to personalized IT support anywhere, anytime.

HP Insight Remote Support and HP Support Center are available at no additional cost with a HP warranty, HP Care Pack or HP contractual support agreement.

**NOTE:** HP Support Center Mobile App is subject to local availability.

#### Parts and Materials

HP will provide HP-supported replacement parts and materials necessary to maintain the covered hardware product in operating condition, including parts and materials for available and recommended engineering improvements.

Parts and components that have reached their maximum supported lifetime and/or the maximum usage limitations as set forth in the manufacturer's operating manual, product quick-specs, or the technical product data sheet will not be provided, repaired, or replaced as part of these services.

The defective media retention service feature option applies only to Disk or eligible SSD/Flash Drives replaced by HP due to malfunction.

#### For more information

### Smart Buys

#### Smart Buy Models

HP c7000 2xVC-10D 6P10F 16xIC Encl/S-Buy	714683-S21
Includes: c7000 Platinum enclosure with 2 Virtual Connect Flex-10/10D modules, 2 On Board Administrator modules, 6 Platinum Power supplies, Single Phase Intelligent Power Module, 10 fans and 16 Insight Control Licenses	
HP c7000 2xVCCF 6P10F 16xIC Encl/S-Buy	714684-S21
Includes: c7000 Platinum enclosure with 2 Virtual Connect FlexFabric modules, 2 On Board Administrator modules, 6 Platinum Power supplies, Single Phase Intelligent Power Module, 10 fans and 16 Insight Control Licenses	

### Configuration Information Factory Integrated Models

For a complete configuration of the HP BladeSystem, please do the following:

#### Step 1: Select desired model, configuration and quantity of HP ProLiant server and Storage blades

**NOTE:** HP BladeSystem c3000 and c7000 enclosures support mixing of G1 through Gen8, and Integrity server blades in the same enclosure

**NOTE:** For server blade information, please visit:

[http://h18000.www1.hp.com/products/quickspecs/north\\_america/12534.html](http://h18000.www1.hp.com/products/quickspecs/north_america/12534.html)

**NOTE:** For Storage Blade information, please visit:

[http://h18000.www1.hp.com/products/quickspecs/12587\\_na/12587\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12587_na/12587_na.html)

#### Step 2: Determine quantity of HP BladeSystem c-Class Enclosures to purchase and choose Required Options (One of the following from each list unless otherwise noted):

**NOTE:** Each HP BladeSystem c-Class Server Blade Enclosure holds up to 16 half-height blades. Server blanks will be shipped in all empty bays.

#### Base Server Blade Enclosure Configuration

<b>HP BladeSystem BLc7000 c-Class Server Blade Enclosures</b>	HP BLc7000 Configure-to-order Enclosure with ROHS Trial Insight Control License	681844-B21
	HP BLc7000 Configure-to-order 3 In LCD ROHS Enclosure	507019-B21
	HP Integrity BLc7000 CTO Enclosure	AD361D

**NOTE:** CTO models include 1x BladeSystem Onboard Administrator with KVM, 4x Active Cool 200 Fans and 0x power supplies.

**NOTE:** All c-Class enclosures support HP ProLiant, Integrity and blades in either mixed or homogenous configurations. The AD361D enclosure is suggested for configurations primarily used with Integrity blades.

#### Required Options (one of the following from each category unless otherwise noted)

<b>HP Power Supplies</b>	<b>c-Class Power Modules</b> (1 per enclosure)	
	HP Single Phase FIO Intelligent Power Module for c-Class BladeSystem	677595-B21
	<b>NOTE:</b> Option for Power Discovery Services.	
	HP BLc7000 1 PH FIO Power Module Option	413379-B21
	HP BLc7000 3 PH NA/JP FIO Power Module Option	413380-B21
	HP BLc7000 -48V DC Power Input Module	AH331A
	<b>c-Class Power Supply</b> (Up to 6)	
	HP 6X 2650W Platinum Hot Plug Power Supply Kit	733460-B21
	<b>NOTE:</b> OA FW 3.73 minimum requirement	
	<b>NOTE:</b> The bundle includes a quantity of 6 HP 2650W Platinum 94% PSU so a full enclosure can be configured with a single part number.	
	<b>NOTE:</b> HP BladeSystem Power supplies meet multiple Energy Efficiency Initiatives: 2400W, 94%: Climate Savers Computing Initiative PLATINUM and ECOS Consulting 80 Plus Platinum.	

### Configuration Information Factory Integrated Models

<p>HP 2650W Platinum Hot Plug Power Supply Kit</p> <p><b>NOTE:</b> OA FW 3.73 minimum requirement</p> <p><b>NOTE:</b> HP BladeSystem Power supplies meet multiple Energy Efficiency Initiatives: 2650W, 94%: Climate Savers Computing Initiative Platinum and ECOS Consulting 80 Plus Platinum</p>	<p>733459-B21</p>
<p>HP 6X 2400W Platinum Hot Plug Factory Integrated Power Supply Kit</p> <p><b>NOTE:</b> The bundle includes a quantity of 6 HP 2400W Platinum 94% PSU so a full enclosure can be configured with a single part number.</p> <p><b>NOTE:</b> HP BladeSystem Power supplies meet multiple Energy Efficiency Initiatives: 2400W, 94%: Climate Savers Computing Initiative Platinum and ECOS Consulting 80 Plus Platinum.</p>	<p>517521-B22</p>
<p>HP 2400W Platinum Hot Plug Power Supply Kit</p> <p><b>NOTE:</b> HP BladeSystem Power supplies meet multiple Energy Efficiency Initiatives: 2400W, 94%: Climate Savers Computing Initiative Platinum and ECOS Consulting 80 Plus Platinum.</p>	<p>588603-B21</p>

<p>HP 2400W Gold Hot Plug Power Supply Kit</p> <p>HP 2250W -48VDC Hot Plug Power Supply Kit</p> <p><b>NOTE:</b> Only compatible with -48V DC Power Input Module.</p> <p><b>NOTE:</b> Mixing of power supplies in the same enclosure is Not SUPPORTED. All power supplies must be of the same type. All HP 2400W Platinum, 2400W HE, HP2250W, or -48V DC must be homogeneous.</p> <p><b>NOTE:</b> If Three Phase Power Module selected, a minimum of 3 Power Supply Option Kits are needed. For full redundancy 6 Power Supply Option Kits are required.</p>	<p>499243-B21</p> <p>AH332A</p>
<p><b>HP Cooling Options</b></p> <p><b>c-Class Active Cool Fan (Up to 6)</b></p> <p>HP BLc 6X Active Cool 200 Factory Integrated Fan Option</p> <p><b>NOTE:</b> The bundle includes a quantity of 6 HP Active Cool 200 Fans so a full enclosure can be configured with a single part number.</p> <p>HP BLc7000 Enclosure HP Single Active Cool Fan Option Kit</p> <p><b>NOTE:</b> A minimum of 4 Active Cool 200 Fans is required, 8 Active Cool 200 Fans can support a full blade enclosure, 10 Active Cool 200 Fans should be ordered for reduced power consumption and noise reduction.</p> <p><b>NOTE:</b> Single-Phase models may require additional power supplies. Fans should be added to provide redundancy, reduce power consumption and reduce noise.</p> <p><b>NOTE:</b> Three-Phase models require a minimum of 6 Active Cool 200 Fans.</p> <p><b>NOTE:</b> Some Blade configurations require 10 fans.</p>	<p>517520-B21</p> <p>412140-B21</p>

### Configuration Information Factory Integrated Models

#### Step 3: Select optional software bundle (if nothing is selected system will ship with 16 Insight Control Trial Licenses):

HP Insight Software	Enclosure Options	
	HP Insight Control Encl FIO Bundle 8 Lic <b>NOTE:</b> This license supports HP ProLiant c-Class blade servers. <b>NOTE:</b> Must be purchased as an option to an HP BladeSystem enclosure. FIO can only be ordered as part of a factory-configured platform. Customer will receive a printed license entitlement certificate via physical shipment.	C6N32A
	HP Insight Control Enc FIO Bundle 16 Lic <b>NOTE:</b> This license supports HP ProLiant c-Class blade servers. <b>NOTE:</b> Must be purchased as an option to an HP BladeSystem enclosure. FIO can only be ordered as part of a factory-configured platform. Customer will receive a printed license entitlement certificate via physical shipment.	C6N33A
HP BladeSystem c-Class Ethernet Interconnects	HP Virtual Connect Flex-10/10D Module for c-Class BladeSystem	638526-B21
	HP Virtual Connect Flex-10/10D Module Enterprise Edition for BLc7000 Option	662048-B21

#### Step 4: Select optional Redundant BladeSystem Onboard Administrator Capability

HP c-Class Enclosure Options	HP BLc7000 Onboard Administrator with KVM Option <b>NOTE:</b> With 1 Gb/s Adapters. <b>NOTE:</b> The HP c7000 OA supports the mixing with the HP c7000 OA with KVM. The HP c7000 OA with KVM must be the active OA to provide the Enclosure KVM feature. The KVM menu has an OA CLI button at the bottom, which allows an OA administrator to log into the OA and be able to force a takeover so the OA with KVM will become the standby OA. The OA Firmware Sync feature cannot be used to update mismatched OA modules. Mismatched OA firmware versions between the original c7000 OA and c7000 OA with KVM require the administrator to use the GUI or CLI to update the OA from a file (http, ftp, tftp, local client file using the GUI or USB key containing the OA firmware file). <b>NOTE:</b> Models of the c7000 enclosure (part numbers 681844-B21 and AD361D) come with a BladeSystem Onboard Administrator with KVM as standard. Order this part number (456204-B21) when a second redundant BladeSystem Onboard Administrator is desired for a c7000 enclosure.	456204-B21
------------------------------	--	------------

#### Step 5: Select 1 or more interconnect modules for each enclosure

The following is a list of various HP BladeSystem c-Class interconnect modules (Virtual Connect, Ethernet, Fibre Channel, InfiniBand, and SAS interconnects). For detailed interconnect options consult the specific interconnect QuickSpecs:

<http://h18004.www1.hp.com/products/blades/components/c-class-interconnects.html>

A pair of interconnects must be ordered if redundancy is required.

**NOTE:** Options for specific c-Class interconnects are NOT included in the list below. Consult the individual interconnect QuickSpecs to obtain part numbers for interconnect options such as cables, SFPs, etc.

HP BladeSystem	HP Virtual Connect Flex-10 10Gb Ethernet Module for c-Class BladeSystem	455880-B21
----------------	---	------------

### Configuration Information Factory Integrated Models

<b>c-Class Network Interconnects</b>	HP Virtual Connect Flex-10 Ethernet Module Enterprise Edition for BLc7000 Option	591973-B21
	<b>NOTE:</b> Includes two HP Virtual Connect Flex-10 10Gb Ethernet modules plus one BL-c7000 enclosure license for HP Virtual Connect Enterprise Manager software. The license entitlement certificate must be redeemed online or via fax to obtain the VCEM license activation key.	
	HP Virtual Connect FlexFabric 10/24 Enterprise Edition BLc7000 Option	605865-B21
	<b>NOTE:</b> Includes 2 x HP Virtual Connect FlexFabric 10Gb/24-port modules plus 1 x VCEM BL-c7000 enclosure license. Customer will receive a printed license entitlement certificate and 2 Virtual Connect modules as a single deliverable. The license entitlement certificate must be redeemed online or via fax to obtain the VCEM license activation key.	
	HP Virtual Connect FlexFabric 10Gb/24-port Module for c-Class BladeSystem	571956-B21

HP MDS 8/12c BladeSystem Fabric Switch	AW563A	
HP MDS 8/24c BladeSystem Fabric Switch	AW564A	
Cisco MDS 9124e Switch for c-Class BladeSystem 12-port Upgrade LTU	T5169A	
<b>NOTE:</b> The HP BladeSystem c-Class Network Interconnects ship as single units. The above interconnects must be ordered in quantities of two for redundancy support.		
<b>HP BladeSystem c-Class SAN Interconnects</b>	HP Virtual Connect 8Gb 24-port Fibre Channel Module for c-Class BladeSystem	466482-B21
	HP Virtual Connect 8Gb 20-port Fibre Channel Module for c-Class BladeSystem	572018-B21
	HP 4GB Fibre Channel Pass-thru Module for c-Class BladeSystem	403626-B21
	HP B-series 8/12c SAN Switch for BladeSystem c-Class	AJ820B
	HP B-series 8/24c SAN Switch for BladeSystem c-Class	AJ821B
	HP B-series 8/24c Power Pack+ SAN Switch for BladeSystem c-Class	AJ822B
	HP B-series 8/12c SAN Switch for BladeSystem c-Class 12-port Upgrade LTU	T5517A
<b>HP SAS Switch</b>	HP 3Gb 8-port SAS 2.0 BL-c Switch Module for BladeSystem c-Class Enclosure	AJ864A
<b>HP BladeSystem InfiniBand Interconnects</b>	HP 4X QDR QLogic InfiniBand Switch Module for c-Class BladeSystem	505958-B21
	QLogic InfiniBand 4X QDR Management Module for c-Class BladeSystem	505959-B21

### Configuration Information Factory Integrated Models

HP 4X QDR InfiniBand Switch Module for c-Class BladeSystem	489184-B21
<b>NOTE:</b> Quad Data Rate (QDR) InfiniBand Switch Modules are only supported in the RoHS 6 of 6 compliant enclosures (part numbers starting with 507) and G6 Blades.	
HP 4X FDR InfiniBand Managed Switch Module for c-Class BladeSystem	648311-B21
HP 4X FDR InfiniBand Switch Module for c-Class BladeSystem	648312-B21

### Step 6: Select rack power distribution for single-phase models

**NOTE:** A pair of PDUs must be ordered for AC Feed redundancy.

#### HP Power Distribution Units

##### HP Monitored Power Distribution Unit

HP 17.3kVA 48A Single Input Three Phase Monitored Power Distribution Unit AF916A

**NOTE:** Please see the QuickSpecs for Technical Specifications and additional information:

[http://h18000.www1.hp.com/products/quickspecs/12118\\_na/12118\\_na.html](http://h18000.www1.hp.com/products/quickspecs/12118_na/12118_na.html)

##### HP Modular Power Distribution Units

HP 17.3kVA 48A Three Phase Modular Power Distribution Unit AF511A

HP 14.4kVA 40A Three Phase NA/JP Modular Power Distribution Unit AF519A

HP 8.6kVA 24A Three Phase Modular Power Distribution Unit AF512A

HP 8.3kVA 40A High Voltage Core Modular Power Distribution Unit 252663-D75

HP 4.9kVA 24A High Voltage Core Modular Power Distribution Unit 252663-D74

**NOTE:** Please see the QuickSpecs for Technical Specifications and additional information:

[http://h18000.www1.hp.com/products/quickspecs/11041\\_na/11041\\_na.html](http://h18000.www1.hp.com/products/quickspecs/11041_na/11041_na.html)

**NOTE:** The Core Only Modular Power Distribution Unit Kits excludes the extension bars as they are not required with the HP BladeSystem

HP Two C13 PDU Extension Bar AF500A

**NOTE:** Each extension bar has a C19 input and 7 C13 receptacles. The option is ideal for model S348, and, model S332, which both have only C19 outlets (12) and for all Core Only Modular PDUs.

### Step 7: Select optional Power Cords for Single Phase Model (power cords are listed under options)

**NOTE:** Default power cord is a 6ft IEC C19 - C20 cord

### Configuration Information Factory Integrated Models

<b>HP Intelligent Power Distribution Units Power cords</b> (HP C19 to C20)	<b>NOTE:</b> Order with <a href="#">HP Single Phase FIO Intelligent Power Module for c-Class BladeSystem (P/N 677595-B21)</a> .

	HP Insight Control Server Provisioning Media Kit	BD883A
	<b>NOTE:</b> HP Insight Control 7.2 introduces Insight Control server provisioning, a new capability ideal for multi-server OS and firmware provisioning to ProLiant and BladeSystem servers. Insight Control server provisioning is included and licensed as part of HP Insight Control. A media kit, "HP Insight Control server provisioning USB media kit" (# BD883A), including a USB, is available for customers who require a physical copy of the media loaded with Insight Control server provisioning software. Please note that this media kit is separate and in addition to the "HP Insight Management DVD media kit" (#C6N31A).	
	HP Insight Management Media Kit	C6N31A

### Related Options

**NOTE:** HP Insight Management Media Kit contains DVDs without licenses. Contains HP Systems Insight Manager, HP Insight Control, HP Matrix Operating Environment, and Virtual Connect Enterprise Manager software. Uses an integrated installer to perform quick and accurate software installation and updates.

**NOTE:** Licenses ship without media. The Insight Management Media Kit can be ordered separately, or can be downloaded at: <http://www.hp.com/go/insightupdates>.

**NOTE:** The "for bundling with an enclosure" license kits can only be ordered together with a BladeSystem c3000 or c7000 enclosure on the same order.

**NOTE:** Customer will receive a license entitlement certificate, which must be redeemed online or via fax in order to obtain the license activation key(s). Includes one year of 24 x 7 HP Software Technical Support Service.

**NOTE:** For additional license kits, please see the QuickSpecs at:

### Storage

**Figure 1** Installing a tape blade adjacent to a half-height server blade.

**Figure 2** Installing a tape blade adjacent to a full-height server blade.

#### Installing Tape or Storage Blade

Description	Quantity Supported	Position Supported	Comments
Connecting a tape or storage blade to an adjacent half-height server blade (Figure 1)	Up to 8 per HP BladeSystem c-Class c7000 Enclosure	Odd or Even slots next to partner server blade	<ul style="list-style-type: none"> <li>A tape or storage blade supports one partner server blade, and one partner server blade supports one tape or storage blade.</li> <li>Identify the partner server blade to be installed with the tape or storage. The two blades always occupy a pair of slots, as follows: 1 &amp; 2, 3 &amp; 4, 5 &amp; 6, 7 &amp; 8, 9 &amp; 10, 11 &amp; 12, 13 &amp; 14, 15 &amp; 16.</li> <li>If the partner server blade is installed in an odd-numbered bay, the tape or storage blade is installed in the adjacent even-numbered bay to the right.</li> <li>If the partner server blade is installed in an even-numbered bay, the tape or storage blade is installed in the adjacent odd-numbered bay to the left.</li> </ul>
Connecting a tape or storage blade to an adjacent full-height server blade (Figure 2)	Up to 4 per HP BladeSystem c-Class c7000 Enclosure	Slots 10, 12, 14, or 16 (lower bays only)	<ul style="list-style-type: none"> <li>A tape or storage blade supports one partner server blade, and one partner server blade supports one tape or storage blade.</li> <li>When partnering a tape or storage blade with a full height server blade, an HP PCI Express Mezzanine Pass-Thru Card for BladeSystem c-Class (431643-B21) is required. This card is installed in mezzanine 3 connector in the server blade.</li> <li>Identify the partner server blade to be installed with the tape or storage blade. The two blades always occupy a pair of slots, as follows: 9 &amp; 10, 11 &amp; 12, 13 &amp; 14, 15 &amp; 16.</li> <li>The partner server blade is installed in an odd-numbered bay.</li> </ul>

### Storage

The tape or storage blade is installed in the adjacent even-numbered bay to the right.

- The tape or storage blade is always located on the lower row of the enclosure in an even-numbered bay (slots 10, 12, 14 or 16)

### Technical Specifications

### Server Blade and Fan Population Guidelines

#### Fan bay numbering

Fans must be placed in the following bays

Number of Fans	Fan Bays Used
4	4, 5, 9, 10
6	3, 4, 5, 8, 9, 10
8	1, 2, 4, 5, 6, 7, 9, 10
10	1, 2, 3, 4, 5, 6, 7, 8, 9, 10

**NOTE:** For correct operation fans and server blades must be installed in the correct bays. The BladeSystem Onboard Administrator will ensure that fans and blades are correctly placed before allowing systems to power on.

### Technical Specifications

#### Half-height server blade bay numbering

- 1. Device Bay 1
- 2. Device Bay 2
- 3. Device Bay 3
- 4. Device Bay 4
- 5. Device Bay 5
- 6. Device Bay 6
- 7. Device Bay 7
- 8. Device Bay 8

- 9. Device Bay 9
- 10. Device Bay 10
- 11. Device Bay 11
- 12. Device Bay 12
- 13. Device Bay 13
- 14. Device Bay 14
- 15. Device Bay 15
- 16. Device Bay 16

**NOTE:** Half-height servers should be populated from top and bottom from left to right from the front of the enclosure. So the first two half-height servers would be placed in bays 1 & 9 the second two half-height servers would be placed in bays 2 & 10 and so on until the enclosure is full.

#### Full-height server blade bay numbering

- 1. Device Bay 1
- 2. Device Bay 2
- 3. Device Bay 3

- 5. Device Bay 5
- 6. Device Bay 6
- 7. Device Bay 7

### Technical Specifications

4. Device Bay 4

8. Device Bay 8

**NOTE:** Full-height servers should be populated from left to right.

#### Mixed Configuration - Full Height and Half-Height Population rules

The c7000 enclosure is divided into 4 quadrants by the vertical support metalwork. Within each quadrant a removable divider is used to support half height devices. To install a full-height blade in any quadrant this divider must be removed. As a consequence a quadrant can only contain either full-height server blades or half-height server blades.

**NOTE:** Storage blades and Tape blades can be installed in the same quadrant as both full-height and half-height blades, a bracket ships with each D2200sb/Tape Blade that allows a half-height blade to be mounted on top of the storage blade.

**NOTE:** The lower tape or storage blade cannot be removed without first removing the upper half height blade.

<b>HP BladeSystem c7000 Server Blade Enclosure</b>	<b>Dimensions</b>	Height	17.4 in (442 mm)
		Width	17.6 in (447.04 mm)
		Depth	32 in (813 mm)
	<b>Shipping Dimensions</b>	Height	29.88 in (759 mm)
		Width	23.88 in (607 mm)

<b>Output Specifications (per power supply)</b>	HP 2400W High Efficiency Hot-Plug Power Supply	200 - 240 VAC 2400 W 92% Efficiency
	HP 2250W -48V DC Hot-Plug Power Supply	2250W
<b>Acoustic Noise</b>	Listed are the declared A-Weighted sound power levels (LWAd) and declared average bystander position A-Weighted sound pressure levels (LpAm) when the product is operating in a 23°C ambient environment. Noise emissions were measured in accordance with ISO 7779 (ECMA 74) and declared in accordance with ISO 9296 (ECMA 109).	
	Idle	
	LWAd	7.1 Bels
	LpAm	54 dBA
	Operating	
	LWAd	7.2 Bels
	LpAm	54 dBA

<b>Option Kits</b>	<b>Power Supply Option Shipping Dimensions</b>	Height	8.75 in (223 mm)
		Width	8.63 in (219 mm)
		Depth	35.13 in (892 mm)
		Weight	8.5 lbs (3.85 kg)
	<b>Fan Option Shipping Dimensions</b>	Height	8.75 in (223 mm)
		Width	9.75 in (248 mm)
		Depth	15.88 in (403 mm)
		Weight	4.0 lbs (1.8 kg)
	<b>BladeSystem Onboard Administrator Option Shipping Dimensions</b>	Height	2.50 in (63.5 mm)
		Width	9.88 in (251 mm)
		Depth	13.50 in (343 mm)
		Weight	4.0 lbs (1.8 kg)

**Environmental-friendly Products and Approach**    **End-of-life Management and Recycling**    Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to <http://www.hp.com/go/green>. To recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
