Xerox Supplies Product Portfolio

Quality, Reliability, Variety and Performance –

In the world of digital printing, Xerox Supplies is committed to bringing you the widest portfolio of Digitally Optimized Paper and Specialty Media to improve your document quality, your output and your bottom line.

Xerox supplies are engineered to bring out the best in digital printing. Whether you need to create a high-end customer brochure, a captivating proposal or presentation, an eye-catching business card, poster, pamphlet or window decal, you get results with Xerox Digitally Optimized Paper and Specialty Media. All of our products have been designed, extensively tested and qualified by Xerox engineers to ensure optimum performance and outstanding productivity.

There's never been a better time to take advantage of the explosive growth of digital print. No matter what kind of business you are in, we have innovative, money-making or money-saving solutions that get results:

- Shorter run lengths
 - Faster turnaround times
- Personalized content
 - Performance Guaranteed

Business 4200 Punched Paper

Xerox offers punched paper to fit all popular binder styles including GBC (19 HD), VeloBind (11 HD) and Spiral (44 HD). Our quality-controlled punch eliminates paper deformation around the holes and loose punches in the ream, keeping the pages flowing smoothly. Specifically designed to increase machine uptime and productivity.

Digital Color Window Decal

Here's a creative way to communicate "instant" messages. Low tack cling window decals are engineered to accept brightly colored graphics and sharp text for color copiers or laser printers. Because these decals don't use a permanent adhesive, they can be repositioned easily without losing their cling.

Size	Color	Order #	Sht/Box

Presentation Supplies

Your folders should maintain the same level of professionalism as the document you place inside of them. Create an impression by digitally printing vibrant color graphics and sharp, crisp text on our heavyweight white coated or uncoated folders. They can be easily tailored to hold presentations, sales collaterals, real estate materials, or seminar agenda information. Easy to assemble, they come with pre-cut slits on the inside pocket to securely hold business cards.

Xerox Wide Format Supplies (Consumables)

Xerox toners are image-makers. They produce high-quality copies that in turn help create high-quality business images. Xerox toners are unlike any others because they are specially formulated to work with the unique qualities of Xerox equipment. Xerox developers provide crisp, clean copies and optimum machine performance. They also provide an “insurance policy.”

Presentation Papers

Matte Presentation Paper 90 g/m²

An economical, general purpose, matte coated presentation paper designed for lower ink density printing with dye inks. Gives sharp line definition to GIS/CAD line width specifications and lower-density color fills or everyday output. Is not suitable for high-density graphic imaging.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity
90	115	132	95%

Order #	Width	Length		m ²
023R02076	1067 mm	42"	46 m 150 ft.	49
023R02077	914 mm	36"	46 m 150 ft.	42
023R02078	610 mm	24"	46 m 150 ft.	28

*Is not recommended for use in the Xerox 8142/8160

Presentation Papers

Matte Presentation Paper 120 g/m²

An economical, general-purpose, matte presentation paper for lower density printing with either dye or pigmented inks. Gives sharp line definition to GIS/CAD line width specifications, and lower-density color fills. Ideal for high-quality presentation drawings, or as a low-cost proofing paper. Is not suitable for high-density graphic imaging.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity
120	160	132	96%

Order #	Width	Length		m ²

*Is not recommended for use in the Xerox 8142/8160

Presentation Papers

Matte Presentation Paper 160 g/m²

A universally compatible high-white, heavyweight matte presentation paper designed for CAD/GIS and low coverage color graphic applications. Gives good image density and gamut with lower ink limits and therefore excellent ink economy. The heavyweight base gives this paper good stiffness and bulk, and dimensional stability makes this paper suitable for multi-panel display. Dries quickly and is suitable for both dye and pigment inks.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity
160	198	132	96%

Presentation Papers

Premium Presentation Paper 120 g/m²

High-quality, but economical, poster paper with a smooth surface. Perfect for general-purpose graphics printing: instant drying, and universally compatible for both dye and pigment ink systems. Designed for high-density photo-quality graphic imaging, and reproduction of bright colors.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity
120	155	143	95%

Order #	Width	Length	m ²
023R02173	1524 mm 60"	46 m 150 ft.	70
023R02174	1067 mm 42"	46 m 150 ft.	49
023R02175	914 mm 36"	46 m 150 ft.	42

Presentation Papers

Premium Presentation Paper 170 g/m²

High-quality, heavyweight poster paper with a smooth, matte coated surface. For photo-quality, bright colored graphic imaging, this is effectively a no-glare alternative to photo-paper. The base of this media provides excellent stiffness and bulk, and full opacity. Instant dry and universally compatible with dye or pigment ink systems.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity

023R02178	914 mm 36"	31 m 100 ft.	28

Photo Papers

Universal Photo Paper Satin 170 g/m²

High-quality bright white photo paper with a film coating on both sides and a micro-porous coating for instant drying with either dye or pigment inks. Base weight gives good stiffness and opacity but at the lighter end of the photo-paper scale to give a cost-effective basis for everyday photographic reproductions.

Satin

Weight (g/m ²)	Caliper (mil)	Whiteness (CIE)	Opacity	Gloss

Specialty Application Papers

Outdoor Poster Paper – Blue Back 120 g/m²

Water-resistant poster paper suitable for indoor and outdoor graphics. Blue backing reinforces the paper's high opacity, to minimize show-through when pasted over other images. The blue back also gives this paper the required properties for backlit display applications, providing an economical alternative to film based backlit media.

Banner Media

Banner Polyester 290 mic

A premium flexible polyester media with the necessary water-resistance, opacity and ability to resist edge curl for indoor and outdoor banner and display systems. Media can be sewn or punched but not welded. Complies with the requirements for classification as M2 flame retardant making this an ideal banner material for fire-sensitive environments. Works well with both dye and pigment inks.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity
290	290	157	96%

Banner Media

Outdoor Weatherproof Banner 280 mic – A Tyvek Solution

A highly tear-resistant material for producing vivid full color images, this white spun Tyvek has a water resistant coating for indoor and short-term outdoor banners. Printing with pigment inks is recommended to give image durability, but may also be suitable for dye inks.

Specifications

Weight (g/m ²)	Caliper (mic)	Whiteness (CIE)	Opacity

Banner Media

Matte Polypropylene Banner 185 & 320 mic

A tough water-resistant material which offers an effective, lower cost alternative to polyester in traditional polyester applications. The heavier weight 320 mic has excellent mechanical strength for durability in the most demanding applications with full opacity. The lighter weight 185 mic material offers a lower cost option with similar properties. Both media lay flat and resist edge curl which is essential for display systems such as roll-up or hanging banners. Its matte print surface is ideal for high resolution, punchy color reproduction and solid blacks using either dye or pigment inks.

Photo Papers

Photo Gloss Paper 230 g/m²*

Heavyweight, glossy surfaced photo based paper with PE barrier coating, to produce extraordinary vibrant color, uniform finish and rapid drying. The coating is splash proof and UV stable, for durable prints without finishing, although over-laminates can be used for extra protection. Ideally suited for indoor applications, such as photo images and high grade presentation graphics.

Outdoor Papers

Standard Satin Outdoor Papers 140 g/m²*

Barrier coated white paper with an attractive semi-gloss finish, suitable for photo-like graphics in both indoor and outdoor applications. Gives impressive color brilliance and color density with excellent edge definition. Paper remains strong in wet or humid conditions, and has a life expectancy outdoors of 3 months, unlaminated. This general purpose paper is perfect for advertising, photo presentation print-outs, advertising, signs, posters, billboards and other indoor or outdoor graphics.

Canvas, Polyester, 360 dpi

A 12 mil, polyester weave designed as a direct-write fabric for Xerox color inkjet printers in 360 dpi mode. Poly Canvas has been "fireproofed" to meet NFPA 701 standards. It is a functional, flexible substrate that will withstand the process of stretching onto a wood frame. The free-flowing nature of the product and its ability to conform makes Poly Canvas suitable for fine art reproductions, cloth banners, tradeshow or theater backdrops, flags, window decorations, table fronts and partition dividers. Useful in place of vinyl for most banner applications.

Specifications

optimum *performance*
outstanding
productivity

For the many ways you create documents.

A good working relationship between copying/printing technology and supplies is crucial to consistently producing superior documents. Xerox Equipment Supplies are unsurpassed in the industry because so much of our research and planning goes into developing toner, developer, cartridges and fuser oils.

Xerox Equipment Supplies and technology are made for each other. Literally.

Xerox designs a new machine and develops its equipment supplies, simultaneously. Joint development ensures all the different pieces work compatibly with your equipment – and with each other – mechanically, electrically, physically and chemically. No one makes equipment supplies that harmonize better with our technology than we do.

quality,
reliability

Xerox passes with flying colors (and our black & white is good too).

We perform exhaustive testing on equipment supplies to assure reliable, high-quality performance. Over one million copies are produced using our supplies before they pass our stringent qualification process. This painstaking scrutiny ensures that you will see improved productivity, fewer paper jams, and impressive documents with vibrant color and solid, clear text.

Xerox Toners

Xerox Toner is as important as the paper it adheres to. The right toner ensures clear, crisp text and images; the wrong toner can cause streaks, smears and paper jams. Xerox researchers account for chemical, electrical and temperature requirements when developing Xerox Toner, so your equipment will run at peak efficiency and produce high-quality images time and again.

Xerox Toner...

- Meets your printer's unique specifications, including operating temperature
- Reduces machine contamination, decreasing the number of service calls
- Improves productivity and generates higher quality documents
- Adheres to the page in just the proper amount, virtually eliminating toner waste

Xerox Developer

Our technologically-advanced Xerox Developer eliminates spots, washed out areas, and hazy backgrounds, leaving you with clear, highly detailed documents. This meticulous care in the engineering of Xerox Developer ensures your documents accurately represent the quality of your company.

Xerox Developer is...

- Tested to ensure developer conductivity remains at a high level
- Engineered to work in unison with other Xerox supplies as well as Xerox equipment

Xerox Copy/Print Cartridges

Get high performance from your copier or printer time after time, after time, after time. Thanks to the superior design and streamlined technology of Xerox Cartridges, all your documents will exceed your standards for quality and productivity. And Xerox Cartridges are easy to install and replace!

Xerox Cartridges provide...

- Outstanding reliability that lowers your maintenance costs and helps reduce service calls
- Copy/print technology that alerts you when it's time to reorder... before critical components wear out
- Recycled cartridges that maintain the high quality for which Xerox is known while protecting our environment

Additional product detail available at www.xerox.com

Xerox Environmental Program

Xerox makes recycling easy... and rewarding! Xerox Environmental Return Programs lead the industry with a broad array of returnable cartridges. And it's so easy to participate: repack the item, attach the prepaid, pre-addressed mailing label provided in the carton, and send it back.* In addition, most of our toner products can be recycled locally. Visit our Web site at www.xerox.com/gwa to find out more about how to recycle or dispose of used supplies in the most environmentally friendly way.

Recycle with Xerox Environmental Supplies...

- Each Xerox toner or cartridge meets the same stringent quality standards and has the same warranties as new Xerox supplies
- The Environmental Partnership Cartridge Return Program provides a discount on many copy/print cartridges at the time of purchase. View a list of products with cartridges on this program at www.xerox.com/gwa
- Xerox toner and cartridge returns prevent millions of cartridges from going to landfill yearly.

*Return labels can also be printed from our website at www.xerox.com/gwa

Xerox Fuser Oil

Xerox Fuser Oil helps your documents flow smoothly... from your mind to your machine to the printed page. Xerox Fuser Oil keeps your machines running at optimum levels to deliver incredibly high-quality documents.

Xerox Fuser Oil...

- Eliminates document waste caused by poor fusing
- Undergoes thorough testing before qualification
- Is designed to be compatible with a full range of Xerox products

Xerox Facsimile Supplies

Xerox Facsimile Supplies ensure all your faxes are legible by preventing blurs, streaks and other clutter. In fact, Xerox Facsimile Supplies, which encompass genuine Xerox Toner, print cartridges, imaging supplies and facsimile papers, are so advanced, you'll have a tough time telling the difference between faxes and documents straight from your printer.

Xerox Facsimile Supplies benefits include...

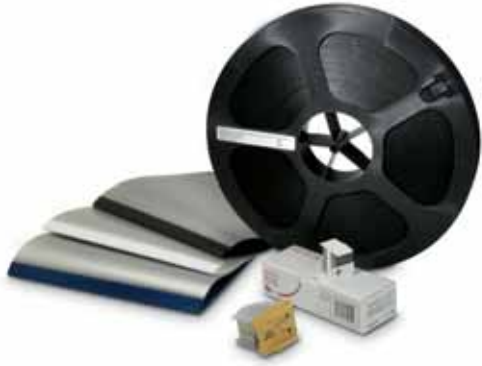

- Comprehensive testing performed on Xerox facsimile supplies to assure high-quality documents
- Decreased jams and increased machine uptime, as Xerox paper is designed to pass through Xerox technology

Xerox Staplers/Binder Tape

Need New Image

Customers judge your completed documents based on what's on the pages and how the pages are put together. Whether you need large groups of support documents stapled for a trade show, or the professional look of binder tape for a major presentation, Xerox combines elegance with efficiency to add the finishing touches to all your documents.

Xerox Staplers and Binder Tape provide for...

- Automatic stapling for high-volume jobs and built-in manual stapler for low-volume jobs
- In-house binding to easily create professional-looking reports, proposals, handbooks, and catalogs
- Heavy-duty thermal adhesive binder tape that comes in black, white, gray, blue or red, with 445 binds per reel
- Availability for the Xerox 5090F, 5390, 5690, Xerox DocuTech 61xx and DT135 machines

Xerox Cleaning Agents and Miscellaneous Supplies

Keeping your equipment clean helps it run at peak levels. Regular cleaning with Xerox Cleaning Agents prevents downtime caused by dust and contamination by outside elements, keeping you working at maximum performance.

supplies that
harmonize
with technology

Toner/Cartridges/Developer/Fuser/Staples/Cleaning

Xerox equipment and supplies make great documents...even better. A good working relationship between copying/printing technology and equipment supplies is crucial to consistently producing superior documents. A lot of research and planning goes into the development of toner, developer, cartridges and fuser oils so they work compatibly with your printer/copier as well as with each other. That's why it's not surprising that Xerox Equipment Supplies are unsurpassed in the industry.

- ◆ = Excellent Performance
- = Good Performance
- ▲ = Not Recommended or Supported (May work, but not to Xerox Standards)

1. N/A
2. Use manual by-pass or single sheet feed only for this media.
3. Feed may be improved with use of backing sheet.
4. Printer with stackers must be attended during film use.
5. Extreme high humidity may result in wrinkled prints.
6. Bow wave may occur on some machines.
7. Use manual by-pass only with this media.
