Data#3 Limited	DTL	Australia	28/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted as executive pay is reasonably aligned with company performance and shareholder outcomes. The quantum of the STI and LTI are reasonable when compared to peers of similar market capitalisation and industry. In addition, the structure of the STI and LTI programs are generally consistent with local market practice. However, concerns are raised with respect to the following aspects of the company's remuneration program: " There is a lack of transparency with respect to the STI and LTI thresholds, targets, and maximum performance hurdles;" The STI's financial metric includes a bonus value that is not defined in the annual report;" The LTI is based on a single metric and does not include a relative performance metrics; and" The company does not maintain stock ownership guidelines.
Data#3 Limited	DTL	Australia	28/10/2021	Elect Director	Elect Leanne Muller as Director	For	For	A vote FOR the re-election of independent director Leanne Muller (Item 3) is warranted as her presence supports the continued composition of a majority independent and gender diverse board. Data#3 Limited	DTL	Australia	28/10/2021	Approve Omnibus Stock Plan	Approve Data#3 Long Term Incentive Plan	For	For	A qualified vote FOR this resolution is warranted as the Long Term Incentive Plan is structured to be broad-based and will limit the number of performance rights that may be granted for the next three years to 750,000 rights, or a modest 0.49 percent of issued capital. However, it is not without concern as: Non-executive directors may participate under the plan, which provides for the grant of performance rights and options; and" The board retain discretion to waive performance, service, and vesting conditions.
Data#3 Limited	DTL	Australia	28/10/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Laurence Baynham	For	For	A qualified vote FOR the grant of performance rights to Managing Director and CEO Laurent Baynham is warranted on the basis that the quantum of the award is reasonable when compared to LTI awards to peers at companies of similar industry and size, and the cumulative EPS performance hurdle could incentivise improved medium or long-term performance. However, shareholders may have concerns with the following aspects of the grant: " The cumulative EPS target is not disclosed, making it virtually impossible for shareholders to assess whether performance hurdle is rigorous;" The board retains discretion to waive or amend the vesting conditions; and" The board has discretion to accelerate the vesting of awards upon a change in control or cessation of employment.

Dubber Corporation Limited	DUB	Australia	23/07/2021	Ratify Past Issuance of Shares	Ratify Past Issuance of Shares to Institutional and Professional Investors	For	For	A qualified vote FOR this resolution is warranted given that the company provides a compelling rationale for the Placement, with proceeds to be used to raise funds to pursue M&A opportunities and an acceleration of the company's development, brand awareness and go-to-market initiatives, and general working capital. The success of these undertakings has the potential to create further shareholder value. Qualified support is based on the substantial dilutive impact of the Placement as a whole (i.e., 14.51 percent as at July 29, 2021).

Dubber Corporation Limited	DUB	Australia	23/07/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the adoption of the remuneration report is warranted due to: "Unsubstantiated substantial increases to executives' fixed pay;" Payment of STI which appears at odds with the company's financial performance in FY21;" Ongoing lack of disclosure of the quantified performance measures (at threshold, target, and maximum) and actual achievement level under each STI metric, which hinders shareholders' abilities to assess performance alignment and goal rigor setting; and" Unacceptable vesting period and insufficiently demanding performance hurdle of incentive awards; and" Grant of equity incentives to non-executive directors.
Dubber Corporation Limited	DUB	Australia	23/07/2021	Elect Director	Elect Peter Pawlowsitch as Director	Against	Against	A vote AGAINST the reelection of Peter Pawlowsitch is warranted because he is one of two executive directors on a board that is not majority independent, and due to overboarding concerns. Votes AGAINST incumbent nominee Peter Pawlowsitch are also warranted for lack of gender diversity on the board.
Dubber Corporation Limited	DUB	Australia	23/07/2021	Approve Acquisition OR Issue Shares in Connection with Acquisition	Ratify Past Issuance of Shares to Certain Shareholders of Pinch Labs, Inc	For	For	A vote FOR this resolution is warranted. The issuance of shares to vendors as part consideration for an acquisition retains some alignment of the vendors with the business and shareholders.
Dubber Corporation Limited	DUB	Australia	24/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed amendments include wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The company's cash position as at the quarter ended Sept. 30, 2021 is \$6.06 million, which is estimated to be adequate for less than three quarters. The November Placement therefore assisted the company in meeting its short term funding requirements." Dexus	DXS	Australia	19/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted. A misalignment of pay, performance and shareholder outcomes is observed and certain problematic pay practices in connection with the grant of retention rights to executives (including the CEO) are inconsistent with shareholder interests and outcomes. " STI bonuses are materially higher than in the prior year and at maximum, LTI vesting is at maximum and the board has approved a grant of retention rights compounding misalignment with shareholder interests." The rigor of STI performance hurdles is questioned given threshold AFFO growth per security is negative 1 percent and target at 0 percent growth." Non-financial objectives in the FY21 STI are questioned in offering bonuses for the "day job", with disclosure indicating that these have been consistently achieved since FY14" The retention rights granted to the non-CEO executives are subject to employment and time-based vesting, with no performance conditions." The CEO's retention rights are subject to non-financial performance measures with unclear performance hurdles, raising concerns for increased certainty of vesting and misalignment of board discretion with shareholder outcomes." The vesting of the retention rights will commence within three years from the date of grant, which is inconsistent with the long-term focus of investors." The board introduced a below the range threshold for AFFO growth in the FY21 LTI, where 25 percent of the AFFO component would vest if the target was not achieved, whereas previously there was no bonus

Dexus	DXS	Australia	19/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve Amendments to the Constitutions	Against	Against	A vote AGAINST this resolution is warranted." The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means." While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders." It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present." Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Electronic Arts Inc.	EA	USA	12/08/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	Following last year's failed say-on-pay vote, the compensation committee demonstrated adequate responsiveness by disclosing shareholder engagement and feedback as well as certain improvements to the pay program. Most notably, in a supplemental filing, the committee made a commitment to not grant special equity awards to the NEOs at least through the end of FY26. However, there are unmitigated pay-for-performance concerns for the year in review. Specifically, the CEO's "enhanced" equity awards granted in FY21 on a one-time basis are outsized at \$30 million, which alone exceeded the median total pay for CEOs in the company-defined peer group. Further, a significant portion of the annual incentive program was based on qualitatively-disclosed strategic objectives, which makes it difficult for shareholders to assess the pay for performance linkage. In addition, concerns are heightened given that the CEO received a maximum annual incentive payout of \$5 million. Lastly, it is noted that the PSU is continue to utilize relatively short performance periods with additional vesting opportunities, which reduce the long-term nature of the program. In light of these concerns, a vote AGAINST this proposal is warranted.

ECL	USA	5/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	There are some concerns raised regarding the potential impact of individual performance adjustments on annual incentive payouts. Further, the majority of the CEO's LTI mix is time-based using Sustainability Advisory Services valuation, and the company granted a retention RSU award to one NEO that lacks performance-vesting criteria. However, there are mitigating factors for the year in review. Specifically, the committee positioned the new CEO's target short- and long-term incentives lower than his predecessor's in recognition of the shorter service. Further, the annual incentive is based on an objective financial criterion and the target goal was set higher than the prior year's achieved result. Further, performance equity utilizes multi-year measurement periods and discloses forward-looking targets. Finally, the LTI program caps the maximum vesting opportunity at 100 percent of target. On balance of these factors, a cautious vote FOR this proposal is warranted.

Eclixp Group Limited	ECX	Australia	18/02/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted on the basis that this year no material problematic pay practices have been observed and no misalignment has been identified between pay and performance and shareholder outcomes.Following a "first strike" at the prior year AGM, the board engaged with shareholders and implemented a number of changes to the remuneration framework in response to shareholder feedback, including: " An STI plan will be reintroduced in FY22 with six gateway and delivered in equity." The FY22 LTI grant is now subject to an EPS performance hurdle over a three-year period." The CEO LTI grant is being put to shareholder approval at this AGM, compared to no such approval being sought for an excessive options grant in the prior year;" The introduction of minimum shareholding requirements for the executive KMP; and" The outcome of the FY21 Variable Remuneration Options was retrospectively capped at a share price of \$2.20, to limit the windfall gains to executives from issuing options at a historically low share price.
Eclixp Group Limited	ECX	Australia	18/02/2022	Approve the Spill Resolution	Approve the Spill Resolution	Against	Against	A vote AGAINST this proposal is warranted. A board spill is not considered to be in the best interests of the company or shareholders at this present time. Disclosure indicates that the board engaged with key shareholders and provided a detailed explanation of the rationale in the annual report regarding prior year shareholder concerns and the changes to its remuneration framework in response, including:" Reintroduction of an STI plan in FY22 which appears to be better in line with market practice and shareholder interests;" FY22 LTI grant will be subject to an EPS performance hurdle over a three-year period;" The CEO's FY22 LTI grant is being put to shareholder approval at this AGM;" Introduction of minimum shareholding requirements for the executive KMP in line with market practice;" and" Retrospectively capping of the outcome of the FY21 Variable Remuneration Options to limit the windfall gains from the excessive grant of options, being a primary source of concern for misalignment with shareholder interests in the prior year.
Eclixp Group Limited	ECX	Australia	18/02/2022	Approve Omnibus Stock Plan	Approve Eclixp Group Limited Long-Term Incentive Plan	For	For	A vote FOR approval of the Plan is warranted on the basis that the terms are not problematic or inconsistent with market. The plan establishes a broad framework for grants to be made in the future, and it is expected that grants to the CEO would be subject to approval by shareholders. NEDs are not eligible to participate in the plan which is consistent with good corporate governance in this market. Some concerns are raised for the considerable level of board discretion in a change of control event.
Eclixp Group Limited	ECX	Australia	18/02/2022	Approve Share Plan Grant	Approve Grant of Rights to Julian Russell	Against	Against	A vote AGAINST the grant of rights to CEO Julian Russell is warranted.The structure of the LTI is consistent with market practice, with a three-year performance period which is the minimum accepted in this market, and the compound EPS growth performance measures in the range of 2.5 percent to 6.5 percent are reasonably aligned with improved performance in shareholder interests.The reason for the against recommendation is that the company has disclosed that the base year NPATA used for calculating EPS growth for bonus purposes over the performance period is normalized and materially reduced from that which is reported in FY21. This suggests for example that 2.5 percent compound EPS growth from the normalized base year NPATA for threshold vesting would result in lower NPATA than that reported in FY21, resulting in inconsistency between bonuses, company performance and shareholder interests.Other concerns included:" The substantial level of outstanding equity incentives (12.8 percent);" There is only one EPS growth performance hurdle; and" The change of control provision, under which all unvested awards will vest in full upon a change in control event, is inconsistent with better market practice.
Eclixp Group Limited	ECX	Australia	18/02/2022	Authorize Share Repurchase Program	Approve to Exceed 10/12 Buy-Back Limit	For	For	A vote FOR this resolution is warranted because no material corporate governance concerns have been identified regarding the buy-back proposal, and" Any buyback will not be selective, and all shareholders will have the ability to participate or not; and" It is not expected to result in any change in control, or materially impact shareholder rights and interests.

Endeavour Group Ltd. (Australia)	EDV	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. The company's remuneration structure is broadly in line with market and is similar to the Woolworths remuneration structure in terms of quantum, performance measures, deferral and vesting conditions. On the whole, disclosure is poor and inferior to similar sized companies, however, this is in the context that the company was separately listed on the ASX on 1 July 2021. Shareholders would expect a material improvement in the FY22 remuneration report. Initial shareholder concerns relate to the potential high fixed remuneration, non-disclosure of performance hurdles and high weighting to non-financial performance measures, including inclusion of a non-financial performance measure in the FY22 LTI which appears of questionable alignment with improved shareholder outcomes.
Endeavour Group Ltd. (Australia)	EDV	Australia	21/10/2021	Approve/Amend Stock-for-Salary/Bonus Plan	Approve Non-Executive Directors' Equity Plan	For	For	A vote FOR the proposed Non-Executive Directors' Equity Plan is warranted. This will allow non-executive director to participate in a NED Equity Plan through a "salary sacrifice" arrangement of up to 100 percent of NED fees into rights. This would increase their alignment with shareholders, however, of more interest to directors is that this provides some tax deferral benefits. The awards are not performance based and will not adversely impair independence of directors.
Endeavour Group Ltd. (Australia)	EDV	Australia	21/10/2021	Approve Share Plan Grant	Approve Grant of Performance Share Rights to Steve Donohue	For	For	A qualified vote FOR the grant of performance share rights to CEO Steve Donohue is warranted because the award structure is sufficiently consistent with market practice and is aligned with shareholder interests. However, concerns for shareholders include: " quantum of award is above market median," undisclosed performance targets for the ROPE performance measure, and " the introduction of a new and opaque non-financial measure described as "Leading in Responsibility" for 20% of the award. This is not well aligned with improved shareholder interests and improved company performance. Instead, this appears to offer a bonus for the "day job" or alternatively a bonus for "not doing the wrong thing" in the company's alcohol and gaming businesses.

Endeavour Mining Plc	EDV	United Kingdom	24/05/2022	Approve Remuneration Policy	Approve Remuneration Policy	For	For	A vote FOR this resolution is warranted, although it is not without concerns: * The maximum LTIP opportunity is set at 400% of salary for the executives, which has a potential 1.5x vesting multiplier to take the maximum vested opportunity to 600% of salary. This level is deemed to be excessive, given UK practices and the size of the company. * The maximum bonus opportunity of 250% of salary is competitive for a company of this size and the target bonus opportunity is at 60% of maximum which is a deviation from market practice. The main reasons for support are: * The Company recently listed on the London Stock Exchange and maintains a dual listing on the Toronto Stock Exchange. The CEO's overall remuneration reflects this context. Further alignment with UK norms will be expected in future. * The Company is proposing a number of changes to bring the policy in line with UK norms and expectations.
Endeavour Mining Plc	EDV	United Kingdom	24/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is considered warranted although it is not without concerns: * The CEO's overall package is not in line with UK norms. He received c. USD 22 million for FY2021 (which included a USD 10 million one-off award related to the UK listing). The main reason for support is: * It is noted that the award was announced in the prospectus prior to the Company's UK listing. * The Company's recent listing on the London Stock Exchange, continued listing on the Toronto Stock Exchange and pre-existing remuneration arrangements are noted. * Given quantum under the policy, the stretch of targets and use of discretion will be kept under strict review.

In addition, the structure of the LTI is generally in line with market practice and remuneration outcomes are reasonably aligned with the company's performance in FY21. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders;" There is a case for greater flexibility in meeting formats given the current global health pandemic; this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present; and" Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The plan establishes a broad framework for grants to be made in the future, and it is expected that grants to an executive director (namely the CEO at this company) would be subject to approval by shareholders. NEDs are not eligible to participate in the plan which is consistent with good corporate governance in this market. Some concerns are raised for the considerable level of board discretion in a change of control event.

The remuneration structure is broadly in line with market practice and no material disconnect between pay and performance has been identified. Fixed remuneration increases have been modest and LTI award outcomes are aligned with longer term performance. The company discloses the target measures for most of the key STI performance measures. Shareholder concerns include the following: "The fixed remuneration of the Executive Chairman and Finance Director is unusual including a director fee component that does not count toward variable incentive calculations," STI award outcomes have been assessed against lower targets and resulted in awards for lower levels of performance for cash flow and all in sustaining costs," A high weighting of the STI award is based on strategic and risk measures that typically are considered to be part of core day job responsibilities for senior executives, and" The disclosure of the LTI award is not sufficiently transparent.

No material misalignment has been identified in pay, performance, and shareholder outcomes for the period under review. However, the qualification is to highlight the following concerns: Quantified and specific goals and actual results for the STI performance measures are not disclosed; and Executive KMP were awarded recognition and retention incentives with a face value between \$530,000 to \$1.55 million. Without relevant and sufficient information regarding performance goals, it is not currently possible for shareholders to make an informed decision whether or not the executive will only be provided a reward for materially improved company performance; The performance period is only year (FY24), which is considered short for an LTI grant; The quantum is excessive relative to peers; and The board has discretion on vesting upon a change in control.

Annual incentives are primarily based on disclosed financial metrics, and a majority of regular-cycle equity awards are performance-based. However, concerns are noted with respect to the entirely-time-based Signing Equity Award to NEO Field, as the grant structure essentially guarantees a particular award value in each of four years, reducing the compensation committee's ability to make future adjustments due to individual or company performance. Although concerns are mitigated for the year in review by the fact that this award was intended to offset the value of forfeited compensation from his previous employer, the use of multi-year guaranteed equity awards is generally disfavored by shareholders, and this issue warrants continued monitoring.

Also, the design of the LTI program could have a more long-term focus. However, the annual incentive program is based entirely on objective financial metrics and all target goals were reasonably rigorous. Further, realized pay outcomes in recent years reasonably reflect performance and the company's use of rigorous goals. On balance of these factors, a cautionary vote FOR this proposal is warranted. Shareholders are advised to closely monitor LTI grant values and the long-term nature of the LTI program going forward.

Flight Centre Travel Group Limited	FLT	Australia	20/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. There is no disconnect between CEO pay and performance and shareholder outcomes for the period under review. Executive KMP elected to reduce their earnings during FY21 as part of the company's COVID-19 response plan. Further, no STI was set in FY21, resulting in executive KMP receiving 86.25 percent of their targeted remuneration packages. This is below the 90 percent floor that would normally have been guaranteed. However, the following concerns are raised: " Certain executives received substantial increases in their target fixed remuneration in the past year without disclosed rationale;" The LTRP and PCRPR plans are essentially a retention plan with no financial performance hurdles. Investors may question the size of the grants under the PCRPR plan, which had award values that exceed the LTI of CEOs at companies of similar industry and size;" There are no minimum shareholding requirements for executives and non-executive directors; and" The Business Ownership Scheme, while building executive shareholding, can reward at very high levels, especially for those in the BOS Multiplier program (although it was suspended in FY21).

Flight Centre Travel Group Limited	FLT	Australia	20/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted because: " The proposed new constitution includes wording that could permit general meetings to be held by virtual only means;" While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any changes that serve to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders;" It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present; and" Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The company has a history of periodic grants of excessive equity awards to the CEO, and the CEO's pay magnitude has been noted as a topic of shareholder feedback in the past. In addition, although annual and long-term incentives are sufficiently performance-based, annual LTI awards lack a long-term focus and disclosure of certain annual and LTI performance targets is lacking.

Fortescue Metals Group Ltd.	FMG	Australia	9/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. No material misalignment between pay, performance and shareholder outcomes has been identified for the period under review. The board took a harsh position in exercising discretion where, "the STI bonus to the CEO, CFO and other executives was reduced to nil, despite the stellar financial results of the company, and" the vesting of the FY19 LTI grant was significantly reduced, despite the Board's disclosure that 100 percent could have vested - the board took account of the significant increase in the price of iron over the period which was disclosed to be outside the control of management and which in turn had a significant impact of the company's profitability and shareholder returns. Nevertheless, certain concerns continue to be highlighted regarding the structure of remuneration, including: "Continued use of cliff vesting in the STI," Duplication of STI and LTI performance measures, namely the non-financial and strategic metrics, "Awarding STI rights at the beginning of the annual performance year allowing executives to receive additional benefit from share price growth over the course of the year." The use of a high percentage devoted to strategic objectives in the LTI in the absence of any clear disclosure to justify alignment with shareholder interests, and "The level of discretion afforded to the Board may not always be applied in alignment with shareholder interests.

Fortescue Metals Group Ltd.	FMG	Australia	9/11/2021	Community -Environment Impact	Approve Support for Improvement to Western Australian Cultural Heritage Protection Law	For	For	On balance, shareholder support FOR this resolution is warranted because: "The Interim Report and the Final report of the Senate Standing Committee on Northern Australia has recommended review and amendment of the Aboriginal Cultural Heritage Bill 2020 (WA) to address various concerns." The company states it is committed to the protection of Aboriginal heritage and the modernisation of Western Australia's Aboriginal Heritage protection legislation and an increase voice for aboriginal people, which appears to align with the recommendations in the Standing Committee's Final Report." The Standing Committee believes that in regard to the ACH Bill, the WA Government should investigate Commonwealth and State government approaches to Aboriginal heritage protection including proposed Commonwealth minimum standards.

Fox Corporation	FOXA	USA	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Incentive programs continue to be predominantly performance-based, with the short-term incentives based primarily on a pre-set objective financial metric and a long-term incentive program being half performance conditioned with multi-year goals. However, some concern remains regarding high base salaries for certain NEOs, high total pay for the board chair, and undisclosed PSU goals. Future shareholder monitoring is warranted with respect to these concerns.

Fox Corporation	FOXA	USA	10/11/2021	Company-Specific--Governance-Related	Amend Certificate of Incorporation to Become a Public Benefit Corporation	Against	Against	A vote AGAINST this proposal is warranted. Although the company is involved in numerous controversies, this is more likely a result of its multi-class capital structure, which leaves the management team unaccountable to unaffiliated shareholders, rather than its structure as a conventional corporation. Since the company already asserts that it is able to act in the broader interests of society, it is not clear that converting to a Public Benefit Corporation is necessary, nor would it necessarily be sufficient to change the company's current business practices.

Fisher & Paykel Healthcare Corporation Limited	FPH	New Zealand	18/08/2021	Authorize Board to Fix Remuneration of External Auditor(s)	Authorize Board to Fix Remuneration of the Auditors	For	For	A vote FOR this resolution is warranted. No material corporate governance concerns have been identified. Shareholders should be aware that the auditor issued a qualified opinion on the financial statements due to an inability to finalise product inventory counts and material cycle counts in FY20. PwC was unable to determine whether adjustments might have been necessary in respect of the profit for the year ended 31 March 2021 and the possible effect of this matter on the comparability of the current period's figures and the corresponding figures. Procedures were impacted by the COVID-19 pandemic and New Zealand government lockdown restrictions.
Fisher & Paykel Healthcare Corporation Limited	FPH	New Zealand	18/08/2021	Approve Share Plan Grant	Approve Issuance of Performance Share Rights to Lewis Gradon	For	For	A qualified vote FOR this resolution is warranted. The three-year performance period, performance hurdles, and vesting conditions (measured as outperformance of the company's gross TSR against the Dow Jones US Select Medical Equipment Index) are consistent with improved shareholder interests. However, concerns exist for re-testing provisions of the TSR hurdle for two years, which is inconsistent with the expectations of many shareholders and better corporate governance practice. Shareholders would expect the board to address this issue.
Fisher & Paykel Healthcare Corporation Limited	FPH	New Zealand	18/08/2021	Approve Stock Option Plan Grants	Approve Issuance of Options to Lewis Gradon	For	For	A qualified vote FOR this resolution is warranted. Vesting conditions are sufficiently demanding and incorporate an uplift in the exercise price for the company's cost of capital. The benefit to the managing director from the options is aligned with shareholder returns. Nevertheless, concerns exist that the vesting of options is effectively re-tested for a further two years after the end of the three-year performance period up to the fifth anniversary from the grant date. Such vesting structure is however more consistent with options, and less so with performance rights.

First Republic Bank	FRC	USA	17/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. There are some concerns regarding certain aspects of the annual incentive. Former CEO Herbert (now executive chair) continued to be eligible for a relatively large annual incentive opportunity and for 2021, the cap on maximum payouts was removed without rationale, which provided for significant award potential. In addition, goal rigor concerns remain for the annual incentive. However, the company disclosed in a supplemental filing that the maximum cap on Herbert's annual incentive will return for 2022, at \$7.0 million. In addition, annual equity awards were entirely performance-based and utilize a multi-year measurement period. Lastly, pay and performance were reasonably aligned for the year in review. Shareholders are advised to closely monitor compensation practices, with particular focus on the annual incentive and the executive chairman's award opportunities and pay outcomes.

Fortive Corporation	FTV	USA	7/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Certain factors have been identified that mitigate a pay-for-performance misalignment for the year under review. Although concern exists with respect to the fact that a significant portion of annual incentives are based on qualitative individual performance factors that lack disclosure, the compensation committee exercised negative discretion to reduce annual incentive payouts for FY21. In addition, the committee is moving in a positive direction on long-term incentives by increasing the proportion that is performance-based. Further, the three-year TSR metric is rigorous and below-target payout on the most recent completed PSU cycle indicates alignment with performance. Some concern is raised with respect to the magnitude of a sign-on equity award given to a new NEO; however, over a third of the award was tied to a rigorous multi-year performance goal and the committee responded to shareholder feedback by including enhanced disclosure around sign-on awards.

Family Zone Cyber Safety Limited	FZO	Australia	5/08/2021	Ratify Past Issuance of Shares	Ratify Past Issuance of Tranche 1 Shares to Professional and Sophisticated Investors	For	For	A qualified vote FOR this resolution is warranted because: " The company provided a compelling rationale for the Placement, with the proceeds to be used to fund the cash consideration for the acquisition of Custodio, to strengthen the company's balance sheet to support additional growth and corporate opportunities, and for working capital purposes to fund the company to cash flow break even. The success of this undertaking may be value accretive to the company and the shareholders. " The independent auditor's report for the half year ended Dec. 31, 2021 highlights the conditions (i.e., loss of \$31.28 million and net cash outflows from operating activities of \$18.79 million) which indicate that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern. As disclosed, the group is dependent upon its ability to generate positive cash flow from its business operations. " Based on the company's most recent quarterly cashflow report, the company appears to have an immediate need for short-term capital. The company's cash position as at the quarter ended March 31, 2022 is \$17.05 million, which is estimated to be adequate for only two full quarters. Funds raised from the Placement therefore assisted the company in meeting its short-term capital needs. Nevertheless, shareholders may be concerned with the significant dilutive impact of the Placement as a whole (i.e., 16.91 percent as of May 11, 2022) and the substantial discount of the issue price of the company's share price.

The tested LTI in FY21 did not meet the performance criteria; and therefore, no performance rights vested – an outcome consistent with weak shareholder returns over the same period; and" The company provided an adequate level of disclosure of STI and LTI measures, which are attached to appropriate deferral and vesting conditions. Nevertheless, the qualification is to highlight:" Absolute total return is used as a performance measure for both STI and LTI plan, which is concerning as executives are awarded twice for achieving same performance hurdle; and" The substantial STI payments appear to be the bonuses for "day job" responsibilities and not sufficiently aligned with the company's financial performance.

The compensation committee was sufficiently responsive to last year's failed say-on-pay vote by lowering the CEO's FY22 equity grant by \$10 million and making a commitment not to similarly adjust performance metrics for previously granted awards. However, pay-for-performance concerns are raised for the year in review. The committee made a sizable adjustment to free cash flow for FY21, which appears to affect the performance metrics for both the short- and long-term incentive awards, and the adjustment is not well-explained. In addition, long-term incentive awards shifted from a three-year performance period to a single, annual performance period for the two primary metrics.

G8 Education Limited	GEM	Australia	27/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. Pay and performance are sufficiently aligned with the shareholder interests and market standards in FY21. " Disclosure in the STI improved over the prior years, with information presented of the specific and quantified performance targets in the STI. " Fixed remuneration did not increase for the CEO. " The FY19 and FY19 LTI grants lapsed as performance condition were not achieved and aligned with poor results and negative shareholder returns in recent years. The qualification is to highlight concern that quantitative pay for performance analysis indicates a high level of concern for misalignment of pay, performance and shareholder outcomes in FY21, given a comparatively high STI bonus paid to the CEO for FY21, and inclusion of LTI grants. However, the LTI grants have not vested for several years mitigating concern, and the STI bonus is the first bonus in three years and aligned with improved statutory NPAT.

CGI Inc.	GIB.A	Canada	2/02/2022	Company-Specific--Governance-Related	SP 1: Increase Formal Employee Representation in Highly Strategic Decision-Making	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The company has taken various steps to increase employee participation in its decision-making process through member input in its strategic plans and a yearly online consultation which covers all of the company's strategic goals. Over 70% of the company's members participated in the consultation in F2021 and the company recorded an overall member satisfaction score of 8.39 out of 10 in F2020. In addition, as per regulatory requirements, employee directors are not considered independent and should not be members of the Audit, Nominating or Compensation Committees, thus restricting the role that a director appointed from the workforce can play in bringing about changes at the decision-making level.
CGI Inc.	GIB.A	Canada	2/02/2022	Company-Specific -- Miscellaneous	SP 2: Adopt French as the Official Language	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The company noted that its annual general meetings are conducted in both French and English. In addition, the company's clients, shareholders and members can communicate with the company, receive services or communications, and work, in French all over Québec. Considering the above and the fact that the company is already governed by the Québec Business Corporations Act and the Québec Securities Act and is subject to Québec French language legislation, the request of the proponent pertaining to amend company's by-laws to include French as the official language of the company appears to be overly prescriptive.

Globe Life Inc.	GL	USA	28/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	There is some concern surrounding above-median benchmarking at the company, which is heightened given the company's co-CEO structure. The potential impact of committee discretion in determining annual incentive awards also raises some concern. Many investors may prefer the use of a target grant value for equity awards rather than the company's practice of granting awards as a percentage of market capitalization. However, the annual incentive program is funded formulaically, initial payout determinations are based on pre-set disclosed goals, and the committee has used discretion to adjust payouts sparingly in practice. In addition, performance shares are earned based on clearly disclosed multi-year goals, and closing cycle awards were earned below target, which is directionally aligned with lagging three- and five-year TSR. On balance, a vote FOR this proposal is warranted, but with caution. Close continued monitoring of award sizes and pay determinations is warranted, given the concerns noted above.

Genworth Mortgage Insurance Australia Ltd.	GMA	Australia	12/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report (Item 1) is warranted. No material pay-for-performance disconnect is identified at this time, and the company's remuneration structure is broadly consistent with market. Proposed changes to both the STI and LTI in 2022 are positive steps taken by the company. In line with a return to profitability, STI bonuses were paid for FY21 (nil for FY20), and the Sustainability Advisory Services quantitative pay for performance model indicates a low level of concern for misalignment of pay and performance and shareholder outcomes. Persisting concerns with the company's remuneration policies remain with non-disclosure of specific and quantified STI targets, no positive TSR gateway and dividends on unvested shares in the LTI, and termination benefits are excessive.
Genworth Mortgage Insurance Australia Ltd.	GMA	Australia	12/05/2022	Approve Share Plan Grant	Approve Grant of Share Rights to Pauline Blight-Johnston	For	For	A vote FOR the rights grant to the CEO is warranted. * The STI rights grant is the deferred component of the FY21 STI bonus which is consistency with market practice and shareholder requirements. * The FY22 LTI rights grant is consistent with market practice and improved shareholder interests with a four-year performance period and relative TSR and underlying ROE growth targets. Persisting concerns in the LTI include, * provision for dividends on unvested shares (through notional accrual for dividends on shares during the performance period), and * the ROE performance measure is assessed on an "underlying" basis, which may involve some subjective judgement.
Genworth Mortgage Insurance Australia Ltd. Goodman Group	GMG	Australia	18/11/2021	Elect Director	Elect Rebecca McGrath as Director of Goodman Limited	Against	Against	A vote AGAINST the re-election of Rebecca McGrath and Danny Peeters is warranted on the basis of the following concerns: * Rebecca McGrath is a member of the Remuneration Committee and problematic pay practices and elevated votes against remuneration resolutions continue to be observed, and shareholder concerns appear to persist.* Danny Peeters one of three non-independent executive directors, which is inconsistent with good governance for multiple executive directors on a board, which has the impact of reducing the overall level of Board independence to 67 percent and contributes to gender diversity falling short of the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger companies in the ASX300 index to have at least 30 percent of each gender represented on the board.Shareholder support FOR the election of David Collins is warranted although there are independence concerns given his former role as a partner at KPMG, Hong Kong, which have been the company's long standing audit firm since 1993.

Goodman Group	GMG	Australia	18/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted. There are numerous inconsistencies regarding the remuneration practices which represent concerns for good corporate governance. Of note, a persisting high level of concern is identified in the quantitative Pay for Performance analysis pointing to the excessive nature of executive remuneration paid to the CEO and KMP executives.* The annual LTI grants are materially in excess of Australian market standards and the market cap peer group.* The realised value of the FY19 LTI was \$33.9 million for the CEO in relation to the initial grant of 1,600,000 performance rights with face value of about \$15.4 million. This was identified as excessive at the time and resulting a "strike" of 48 percent against the 2018 remuneration report. LTI grants as this company continue to increase and the basis of calculation of the number of performance rights and disclosure is problematic.* The quantum of the FY22 LTI grant is disclosed by the company to be based on an "economic value" of the company's securities, which the company states is \$6.10. This is compared to the company's traded security price on 29 October 2021, which was \$21.90. Such excessive discounting is materially inconsistent with the practices of ASX-listed entities and results in an excessive LTI grant. The methodology adopted by the company has resulted in a FY22 LTI grant to the CEO of near \$35 million based on the prevailing traded price of the company's securities, and correspondingly excessive LTI grants to other executive directors. For completeness, it is noted that a "fair value" or "economic value" in valuing LTI grants is an accounting requirement for the company's financial statements but discredited as a matter of poor corporate governance for granting LTI performance rights.
Goodman Group	GMG	Australia	18/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Greg Goodman	Against	Against	A vote AGAINST the resolutions to grant FY22 LTI performance rights to the CEO and other executive directors is warranted. The quantum is grossly excessive and well above the market for such grants among larger ASX-listed entities, despite marginally higher stretch targets, the rigor of which remains questionable and spread over a longer vesting period.Securityholder concerns include: * The CEO's grant is disclosed to be valued at \$9.5 million (based on a highly discounted fair value of the company's security price) compared with the value of the securities at the prevailing security price being \$35.0 million (face value). The value of this award is excessive by market standards.* The absolute EPS vesting range set at 6 to 10 percent annual growth is inadequate based on EPS growth in the past three years materially exceeding the maximum 10 percent target. This may be considered by shareholder to ensure partial and potentially full vesting of a grant with an excessive quantum.* The use of a heavily discounted fair value of the company's security price at \$6.10 to determine a greater number of rights to be granted is not in line with widely accepted market practice. Face value is the typical methodology used in this market for zero exercise price performance rights which would require the use of the prevailing security price nearer to \$21.90 as seen on 29 October 2021.

The CEO's fixed remuneration is consistent with an selected industry peer group;" STI bonus outcomes are sufficiently aligned with improved financial performance and shareholder outcomes; and" The FY20 one-off award (granted in the period of the United Malt Demerger) vested in full in line with targets and improved performance.Concerns continue to be highlighted that" There continues to be an absence of appropriate disclosure of the specific and/or quantified STI thresholds and targets which is the better governance practice amongst larger ASX-listed entities." The ROIC hurdles in the LTI grant are not disclosed to allow sufficient transparency to assess the rigor of longer-term targets in line with shareholder interests and expectations.

A 'false choice' is in place which has an impact of diminishing shareholder rights, given that if this resolution is not approved, equivalent cash payment will be provided to the CEO.

Gold Road Resources Limited	GOR	Australia	19/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted, given pay and company performance are sufficiently aligned. " The remuneration framework is broadly unchanged from the prior year; " There is a low level of concern identified in quantitative Pay-for-Performance analysis; " The threshold EPS hurdle in the FY21 LTI increased compared to the prior year to reflect the expansion in operations of the company; and " LTI vesting at near 45 percent in the FY21 grant is aligned with disclosed targets and reasonably aligned with shareholder outcomes. Some concerns are noted as follows: " STI performance measures are based on achievement of milestones rather than objective financial performance measures; " There is no clear disclosure of specific and quantified STI targets, matched with performance. " There appears some overlap and potential for board discretion and double counting of bonuses in the STI and LTI, and " Despite weaker financial results in FY21, the FY21 STI bonus was left materially unchanged from the prior year.
Gold Road Resources Limited	GOR	Australia	19/05/2022	Elect Director	Elect Brian Levett as Director	For	For	A vote FOR the re-election of Brian Levett is warranted. The board is majority independent, and no material concerns are identified regarding board and committee composition resulting from his nomination, nor wider corporate governance issues. A vote AGAINST the election of Denise McCornish is warranted, given she is the chair of the Audit Committee and disclosure indicates that she was a former partner of the company's audit firm, KPMG.

Gold Road Resources Limited	GOR	Australia	19/05/2022	Approve Share Plan Grant	Approve Grant of Long Term Incentive Performance Rights to Duncan Gibbs	For	For	Items 4 A qualified vote FOR the grant of FY22 LTI performance rights is warranted. The structure of the award is sufficiently aligned with long-term shareholder interests, with the minimum accepted three-year performance period, and relative TSR and EPS targets. The qualification is to highlight concerns for a significant proportion of the grant (50 percent) which continues to be linked to "strategic measures" which some shareholders may regard as being part of the 'day job' and success would be best objectively measured in improved specific financial performance measures and shareholder returns. Items 5 A qualified vote FOR the grant of FY22 STI performance rights is warranted. While no material disconnect is identified in prior years, and performance measures are broadly presented, this grant represents an 'advance' approval of the FY22 STI up to the maximum number of rights which can be awarded. This is inconsistent with market practice amongst larger companies given approval for this STI grant is sought before the completion of the financial year, assessment of performance by the board and presentation of annual and remuneration reports to shareholders. Additionally, the company does not present specific and quantified STI performance measures as part of this approval, nor in retrospect in the remuneration report, being inconsistent with appropriate transparency expected by shareholders and seen in ASX300 companies as better governance practice.

Gold Road Resources Limited	GOR	Australia	19/05/2022	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase the Maximum Aggregate Amount of Non-Executive Directors' Fees	For	For	A vote FOR the proposed increase to the non-executive director's fee cap is warranted. The headroom in the existing cap is presently insufficient to accommodate the appointment of an additional director if sought fit as part of the board refreshment or growth in the board. However, it is highlighted that the level of increase of 57 percent is high and appears to be materially more than needed, noting that chairman and NED fees are presently consistent with market.
Gold Road Resources Limited	GOR	Australia	19/05/2022	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	For	For	A qualified vote FOR this resolution is warranted. The proposed amendments to the constitution do not appear contentious. The company explicitly states in the Notice of Meeting that wholly "virtual" online meetings are not permitted, and that the amendments are to permit hybrid meetings which align with shareholder interests. The recommendation is qualified to highlight concern that the company has not made the constitution and amendments publicly available for inspection by shareholders, thereby representing a concern for appropriate corporate governance.
Gold Road Resources Limited	GOR	Australia	19/05/2022	Renew Partial Takeover Provision	Approve Proportional Takeover Provisions	For	For	A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. Growthpoint Properties Australia	GOZ	Australia	22/11/2021	Elect Director	Elect Deborah Page as Director	For	For	A vote FOR independent non-executive director Deborah Page (Item 3a) is warranted as no material issues have been identified regarding this director nominee in respect of board and committee composition. A qualified vote FOR independent non-executive director Geoffrey Tomlinson (Item 3b) is warranted as he is the board chair and there is only 25-percent female representation on the board, which does not meet the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger ASX-listed entities in the ASX300 index. A qualified vote FOR Estienne de Klerk (Item 3c) is warranted as he is a non-independent director serving on a board that is not majority independent (only 38-percent independent). Although Mr de Klerk is classified as non-independent due to his representation of Growthpoint Properties Ltd (the company's parent and substantial securityholder with a 62.19-percent stake), its proportional control over the board is consistent with its securityholdings.

The GPT Group	GPT	Australia	11/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted: * quantitative pay for performance analysis indicates a low degree of concern for any misalignment, * the CEO's fixed remuneration is not excessive relative to peers, * bonus outcomes do not appear materially inconsistent with the group's improved financial performance in FY21, and * the FY19 LTI lapsed as performance condition were not met and the board exercised discretion to withdraw the FY20 LTI grant. The recommendation is qualified to highlight the use of upward discretion by the board to allow for STI bonuses despite the group not meeting their FFO growth target, which typically acts as a gateway for STI to be awarded. This concern is perhaps mitigated given that the board has used downward discretion appropriately in the past, and the explanation for this discretion is reasonable in light of the stronger group performance during the year, and shareholder returns.

In mitigating, threshold vesting is at 10 percent.

The Goldman Sachs Group, Inc.	GS	USA	28/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	The increase in reported CEO pay is attributable to a large special award granted in FY21. The quantum and timing of the special award may raise concerns for some investors, particularly given the recent reduction in incentive pay. In addition, the annual incentive determination process continues to raise some concern, as awards are ultimately discretionarily determined. However, the value of the special of the award is more reasonable when annualized over the five-year performance period, and the award is 100 percent performance-based, with absolute TSR goals requiring significant share price appreciation. The increase in CEO performance year pay is directionally aligned with strong annual company performance and key financial metrics assessed are consistent with the prior year. In addition, following a significant increase in PSU weighting for certain NEOs, the LTI program for all NEOs is now entirely performance-conditioned, based on clearly disclosed multi-year goals. Lastly, neither the application of committee discretion nor the special award have resulted in a quantitative pay-for-performance misalignment for the year in review. On balance of these factors, a vote FOR this proposal is warranted, with caution. Close continued monitoring of pay decisions and outcomes is warranted, as the pay program's reliance on discretion and special award practices may be scrutinized, particularly if pay and performance are misaligned.

GlaxoSmithKline Plc	GSK	United Kingdom	4/05/2022	Approve Remuneration Policy	Approve Remuneration Policy	Against	Against	A vote AGAINST the remuneration policy is warranted because: * The Company is seeking to increase bonus opportunity from 2x to 3x salary. The amplified bonus opportunity would create the highest bonus potential, as a multiple of salary, for any company in the FTSE 10. It is acknowledged that the higher limit requires higher performance, only materializing on outperformance of the Company's new strategic targets. It is also noted that there would be lower pay for below target performance. In addition, the targets are firmly rooted in the new strategy and there is a clear link between the profit and sales objectives, as announced in June 2021, and new pay arrangements. However, these mitigating factors do not offset concerns with the quantum; the increased emphasis on short-term performance; or the precedent that this level of bonus opportunity would create. Further, the demerger will decrease the Company's market cap and the complexity of its operations. The proposed increase does not appear consistent with this background.

GUD Holdings Limited	GUD	Australia	29/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted on the basis that no material disconnect between pay and performance, and shareholder outcomes has been identified as evidenced by the following: * STI payments are not at odds with the company's financial performance and position; and * LTI hurdles appear to remain challenging and outcomes reasonably reflect longer-term company performance. Nevertheless, concerns remain given the continued absence of disclosure of a quantified CVA target, which is important because it is 100 percent of the STI weighting. Presently, the company's disclosure represents inferior transparency compared with shareholder expectations and the practices of other ASX200 companies. Executive fixed remuneration and director fees are also relatively high, and there is no apparent minimum shareholding guidelines and requirement for senior executives and directors, which is a widely accepted governance practice in ASX200 companies.

GWA Group Limited	GWA	Australia	29/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. While CEO pay and company performance appear to be reasonably aligned at this time given that the new CEO was not awarded an LTI while serving as Acting CEO. However, shareholders may be concerned with the following aspects of the remuneration program: * The new CEO's fixed pay and total opportunity is above the median of peers.; * Disclosure of targets is poor in the STI.; * Personal targets in the STI appear to be bonuses for the day job, for metrics like delivering a business plan and employee engagement.; * The board has approved a retention scheme for its non-CEO executive KMP which is not directly tied to performance hurdles, which is inconsistent with good market practice.; * STI outcomes appear misaligned with company performance and shareholder returns as the maximum bonus opportunity was earned despite a continued decline in financial performance and minimal shareholder returns.; * The TSR hurdle comparator group appears to be overly narrow; and * No apparent minimum shareholding guidelines for directors and senior executives.

GWA Group Limited	GWA	Australia	29/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Urs Meyerhans	For	For	A vote FOR this resolution is warranted as the three-year performance period is at the minimum accepted and the TSR performance hurdles are appropriate, which if achieved reasonably align securityholder and executive interests. Following last year's failed say-on-pay vote, the compensation committee has demonstrated only a limited degree of responsiveness to investor concerns. Further, for the year in review, ongoing concerns with respect to the long-term incentive program underscore a pay-for-performance misalignment. While acknowledging reporting challenges associated with the change in long-term incentive programs, the CEO's total target annual LTI award value has increased over the past two years without clear rationale, providing larger payout opportunities. The performance metrics also target merely median performance and have resulted in maximum payouts for several consecutive years, even resulting in maximum-level vesting when performance was negative in each of the last two cycles.

Although the annual incentive program is funded formulaically, the committee retains a significant degree of discretion to adjust payouts, which raises some concern. However, as in recent years, no upward discretion was applied to NEOs' awards, and actual payouts were determined based on the formulaic funding percentage. In addition, pay and performance are reasonably aligned for the year in review and the increase in CEO pay is directionally aligned with generally improved financial and share price performance. Further, the company targets half of long-term incentives as performance-based equity with clearly disclosed multi-year goals and the relative TSR metric targets outperformance. Continued monitoring of STI payout determinations is nevertheless warranted, given the degree in which discretionary determinations may affect payouts.

Hargreaves Lansdown Plc	HL	United Kingdom	15/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted although it is not without concern for shareholders. The CEO and CFO both received significant above-inflationary increases to their base salaries for FY2021/22, with a further increase for the CEO planned for FY2022/23. The salary increase, considered together with the increased bonus opportunity approved at the 2020 AGM (which the annual report states "will increase to 400% by the 2022/23 performance year") would materially increase total pay. Bonuses paid out at near maximum levels for FY2020/21, however, the Remuneration Committee has not provided clarity regarding the reasons for the lower net new business and PBT targets during the year. The main reason for support is: "No material disconnect between pay and performance has been identified for the year under review." The total remuneration opportunity is not considered to be out of line with market peers. No further overriding concerns have been identified.

Halma Plc	HLMA	United Kingdom	22/07/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is considered warranted, but is not without concerns for shareholders. The Company proposes consecutive salary increases of 16% in FY2021 and FY2022, the latter being subject to continued performance. Together with the variable pay increases proposed under the new policy (Item 4), these changes imply a significant uplift to the Executive Directors' total remuneration package. The main reasons for support are: Following the increases, salary levels will not be excessive relative to the Company's standing in the FTSE, assuming sustained performance; and Concern regarding the total quantum of pay may be more effectively targeted at Item 4, the binding vote on the remuneration policy, which will facilitate significant increases to variable pay.
Halma Plc	HLMA	United Kingdom	22/07/2021	Approve Remuneration Policy	Approve Remuneration Policy	Against	Against	A vote AGAINST this resolution is considered warranted. The maximum limits of the variable pay package are being significantly increased for all Executive Directors. In particular, it is highlighted that the CEO's annual bonus opportunity will increase from 150% to 200% of salary, and the LTIP from 200% to 300% of salary. Together with the salary increases covered under Item 3, this represents a material uplift to the total remuneration package.

Healius Limited	HLS	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted due to the following: There is low level of concern identified in the Sustainability Advisory Services quantitative pay for performance analysis given pay performance and shareholder outcomes are aligned for the period under review; STI bonuses paid to the CEO and other KMP were substantial in FY21, which is aligned with improved financial performance and strong shareholder returns during the year. In FY21, the company posted a record \$266.5 million in underlying EBIT, surpassing the target opportunity (\$178.6 million) and stretch opportunity (\$214.3 million), the primary basis for the CEO's bonus payout; and There is improved disclosure on the EBIT targets in the STI with threshold set above last year's actual results, which allows shareholders to assess the rigor of the EBIT target and results. Although the company disclosed engagement efforts, certain feedback received from shareholders, and addressed one area of concern expressed by shareholders through certain changes to the LTI program, feedback surrounding two other areas of concern – a special bonus and enhanced retirement benefits – is vague. Such vague feedback makes it difficult for investors to assess what actions would be responsive to shareholders concerns. Further, the company did not make any substantial changes or firm commitments in respect of these noted concerns.

While pay and performance were reasonably aligned for the year in review, significant concerns are raised by adjustments made to long-term incentive awards in two consecutive years. Following adjustments to the FY20 equity grants which reduced the performance period and were described as "one-time" actions taken in response to COVID-19, the committee used discretion to also adjust FY19-21 grants to increase closing-cycle equity vesting. Investors may question the decision to make consecutive adjustments to long-term incentive awards.

hipages Group Holdings Ltd.	HPG	Australia	11/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the adoption of the remuneration report is warranted because the company's existing Annual Incentive Plan, which is essentially a combined STI and LTI, has the potential to create a misalignment of bonuses to executives compared with the company's financial results and shareholder outcomes, principally arising from: ' the absence of long term performance metrics to align executive reward with shareholder wealth outcomes; and' a short-term assessment of performance given that the entire incentive (STI and LTI) will be assessed using a one-year performance scorecard similar to the previous STI metrics. The lack of a traditional LTI component with long-term performance metrics represents a material departure from incentive remuneration in the Australian market and continues to be opposed by many shareholders at AGMs.

Hansen Technologies Limited	HSN	Australia	25/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted on the basis that no material disconnect between pay and performance, and shareholder outcomes has been observed. The qualification is to highlight the following concerns: " The suspension of the FY21 LTI plan and replaced with a corresponding increase in the deferred equity component in the STI. It appears that the "FY21 Enhanced STI Plan" combined the STI and LTI plans into a single plan and removed all long-term performance hurdles, severing the link with long-term shareholder outcomes. While this pay structure is problematic, it only applied in FY21 and the company reverted to its previous remuneration structure of separate STI and LTI plans; and* There is no quantified or specific information provided for threshold, target or maximum STI hurdles to fully inform shareholders and justify bonuses.

HUB24 Limited	HUB	Australia	14/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted on the basis that the company's financial performance continued to improve over prior years and shareholder returns have been strong over the longer term* The CEO's fixed remuneration and STI bonus are not problematic or excessive, and the FY18 LTI grant will likely vest at 100 percent in line with performance hurdles and consistent with the strong shareholder returns over the performance period.* Although the quantitative screen indicates a high concern level for misalignment, this is due to a large special FY21 LTI grant which was in addition to annual FY21 LTI, both of which inflated total remuneration. Concern is mitigated that this special FY21 LTI grant incorporated rigorous performance hurdles to align the bonus with improved shareholder interests over a longer period. The company disclosed that will be no further special grants in FY22.Qualification is based on following concerns: "Inferior and absent disclosure of STI targets, given the absence of specific and quantified performance hurdles which prevents shareholders from independently assessing the rigor of targets." "The excessive one-off FY21 special LTI grant." "Questions over the rigor of the absolute TSR hurdles in the FY21 LTI grant which are lower than FY20 grant hurdles, re-testing provisions if the TSR hurdles are not achieved at the end of the three-year period, and the exercise price of the options is at a discount to the grant date share price.

The company improved its disclosure on STI targets, further aligning it with market practice, and STI outcomes appear aligned with financial performance during the year. There was no LTI vesting in FY21, reflecting poor shareholder returns.The following concerns are raised: "Sustainability Advisory Services quantitative pay for performance analysis identified a high degree of concern;" "As discussed in last year's report, the company cancelled the mega-grant of options previously determined by the board and replaced it with a new LTI during FY21, which is a problematic practice;" "Structural concerns are again raised regarding the new plan, which has a short vesting period and includes only one performance metric; and" "FY21 and FY22 options grants under the new LTI do not include any relative performance metric.Concerns are mitigated by the following:" "Company disclosure suggests the mega-grant had no prospect of having any incentive while the alternative options grant is linked to share price recovery in the interest of shareholders; and" "The company intends to add EPS as an additional performance metric and revert to a three-year performance period under the FY22 grant.

Harvey Norman Holdings Limited	HVN	Australia	24/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	On balance, a vote FOR this proposal is warranted, as total remuneration for the executive chairman, CEO and other executive directors was commensurate with financial and shareholder outcomes in FY21. In addition, the Remuneration Committee increased the weighting of financial measures to 80-percent of the STI, reducing the non-financial component from 50 percent to 20 percent. Fixed remuneration was restored to FY19 levels, and remains high relative to peers. Shareholders generally expect a significant portion of CEO pay to be 'at-risk', though the CEO maintains significant shareholdings, increasing the alignment with shareholder interests.

Though the new level is within the maximum opportunity under the remuneration policy, concerns are raised with the higher award level given the lower target for maximum vesting of the PBT measure. The main reasons for support are: * The Company was recently included in the FTSE 100, and the new award level of the CEO does not appear excessive for a company of this size; and * There are no further concerns with the Company's remuneration practices in the year under review.

HWM	USA	25/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted. Following last year's failed say-on-pay vote, the committee demonstrated only limited responsiveness. Although details of shareholder engagements and feedback are disclosed, the committee did not make changes to executive pay programs to address investor concerns. Further concerns are raised by the pay program for the year in review. CEO Plant received a significant special equity award for the third year in a row, despite the committee's previous statement that FY20 grants would cover three years. The award consists entirely of time-based RSUs with a relatively short vesting period and the committee's rationale for the grant is not viewed as compelling. Lastly, CEO Plant's recently amended letter agreement provides for excessive severance, which is viewed as a problematic pay practice by many investors.

Insurance Australia Group Ltd.	IAG	Australia	22/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted. An elevated level of concern is identified for misalignment of pay, performance and shareholder outcomes in quantitative pay-for-performance analysis. Bonus outcomes appear excessive and have been significantly increased from the prior year, being inconsistent with the reported loss and fixed financial performance and underperforming shareholder returns. Supporting reasons for this recommendation include: " A higher weighting to non-financial measures for the STI which are difficult to justify as a being worthy of a bonus given that the nature of these measures appear to be part of executives' day job duties." Non-disclosure of financial targets in the STI does not allow shareholders to independently assess the rigor of STI targets and justify bonuses, being inconsistent with good governance and shareholder expectations for transparency presented by other large Australian companies." Concerns have been previously raised regarding the rigor of the Absolute ROE performance measure in the LTI which is assessed against a multiple of WACC – this measure has consistently provided for vesting, even over recent years where the company has underperformed GICS and index peers." Awarding of additional fees to directors who chair the boards of wholly owned subsidiary companies represents concerning governance practice and creates the potential for conflict of interests, and* The fixed remuneration increase of 12.5 percent for the CEO in FY22 is well above general salary inflation and will lead to a significant uplift in variable award opportunity in the STI and LTI, being inconsistent with the company performance and shareholder outcomes.

These resolutions are the same as in prior years, including approval of the deferred STI and the FY22 LTI grant. Concerns are noted for the following: "The quantum of CEO's LTI award opportunity has risen significantly in FY22 following a generous increase in fixed remuneration after one year in the role. This LTI grant is now above the median of similar sized companies and peers." The rigor of the Cash ROE performance measure in the LTI grant continues to warrant increased scrutiny given that it has historically provided a high level of vesting despite weak performance and shareholder returns." The deferred STI may be regarded as excessive given the issues raised in regard to the remuneration report.

Following last year's failed say-on-pay vote the company engaged with shareholders and clearly disclosed the feedback received from shareholders regarding the prior year's one-time equity award to former NEO Whitehurst. No one-time awards were granted to NEOs during 2021, and the company states that it agrees that one-time grants should only occur in extraordinary circumstances, and that the company does not anticipate the need to provide one-time awards to its NEOs going forward. Additionally, the majority of CEO compensation remains conditioned on objective financial performance, resulting in an alignment between CEO pay and company performance. However, shareholders would benefit from improved incentive target disclosure going forward.

IDP Education Limited	IEL	Australia	19/10/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR this resolution is warranted despite the substantial level of increase in the fee cap. Based on a review, non-executive director fees are not considered contentious and over the last two fiscal years, with directors agreeing to take a reduction in fees in response to the impact of the COVID-19 lockdowns and restrictions. As a result of this, total director remuneration declined by 2.6 percent from FY20 to FY21 and declined by five percent from FY19 to FY20. Whilst some shareholders may consider the proposed fee cap increase to be excessive, the current fee cap would provide the board with scope to appoint one additional director, which may hinder further board refreshment and appointment of additional independent directors. Furthermore, the board discloses in the notice of meeting that for FY22, there are expected to be only minor director remuneration changes pertaining to committee fees for some non-executive directors.

The Sustainability Advisory Services quantitative pay-for-performance analysis indicates a low level of concern for misalignment of pay and performance and shareholder outcomes. No LTIs were due to vest in FY21 and all of the unvested LTI of former CFO Richard Leon lapsed upon cessation as KMP.Qualification is based on the following:* The absence of robust STI disclosure (no information on the qualified gateway and KPI targets) which makes it impossible for shareholders to independently evaluate the rigor of the targets set and determine whether these are in line with their expectations. This concern is particularly relevant in FY21 as the cash EBITDA measure was achieved at 99 percent of target when the FY21 cash EBITDA result was lower than the prior year. Some shareholders may question the rigor of the targets set.* Contrary to investor expectations for better corporate governance practice, the company does not require any deferral of the STI bonus and there continues to be no minimum shareholding guidelines for directors and executives.

IGO Ltd.	IGO	Australia	18/11/2021	Approve Share Plan Grant	Approve Issuance of Service Rights to Peter Bradford	For	For	A vote FOR this resolution (Item 5) is warranted given that the service rights represent the deferred portion of the already-earned incentive compensation award and the settlement of awards in equity will further align the executive's interest with those of shareholders. A qualified vote FOR this resolution (Item 6) is warranted because the grant broadly conform to market practice and shareholder requirements. The quantum is not excessive, performance period is at the minimum accepted in this market of three years, and the performance hurdles appear appropriate. Governance concerns exist for the 'false choice' essentially overriding the shareholder vote on this resolution, such that failure to approve the grant would not change the board awarding the LTI in cash.
IGO Ltd.	IGO	Australia	18/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Peter Bradford	For	For	A vote FOR this resolution (Item 5) is warranted given that the service rights represent the deferred portion of the already-earned incentive compensation award and the settlement of awards in equity will further align the executive's interest with those of shareholders. The quantum is not excessive, performance period is at the minimum accepted in this market of three years, and the performance hurdles appear appropriate. There was no increase to executives' fixed remuneration and directors' fees in FY21, and the bonus outcomes under the 2021 EIP are reasonably aligned with the company's performance during FY21 and the longer term. Some persisting concerns include: " Poor disclosure of bonus objectives which is inconsistent with good governance in the local market. Specific and quantified hurdles for the financial metric continue not to be disclosed at threshold, target and stretch performance. " The nature and quantum of the individual targets and non-disclosure of the hurdles, given the typically high level of vesting. These appear more in the nature of bonuses for "day job" divs. " Dividends on unvested shares are available to be paid at the end of the performance period on rights that ultimately vest. A look back to further top up bonuses in inconsistent with the better practices in the Australian market. " The 2018 EIP performance rights vested in full in FY21, based on the company's TSR rank of 68th percentile against peers at the end of the performance period, typically 100 percent vesting commences at the 75th percentile. " A medium level of concern identified in quantitative Pay-for-Performance analysis, when comparing the company to others in Sustainability Advisory Services' identified peer group, given the top up of rights after the Peterra merger.
Ilika Resources Limited	ILU	Australia	13/04/2022	Approve Share Plan Grant	Approve Grant of Share Rights and Performance Rights to Tom O'Leary	For	For	A vote FOR the grant of share rights and performance rights to CEO Tom O'Leary under the 2021 EIP is warranted. " The share rights represent the deferred portion of the earned bonus for the year under the 2021 EIP (essentially equivalent to an STI). Settlement is deferred in equity in equal tranches over a four-year period to further align the CEO with shareholders over that period; and " The performance rights vest four years after the date of grant with a five-year performance period and relative TSR hurdle. This is reasonably aligned with good market practice and long-term shareholder interests and returns. " Quantum is reasonable by market standards and in line with the company's performance in FY21 and over the past three- and five-year benchmarks. However, concerns continue to be notes as in prior years regarding: " The relative TSR measure is not subject to an absolute positive TSR gateway which would otherwise ensure executives are rewarded for positive shareholder returns; and " Dividends on unvested shares, through the payment of a dividend-equivalent amount on performance rights that vest at the end of the performance period, when there is no present entitlement to shares or associated dividends during the performance period

Imperial Oil Limited	IMO	Canada	3/05/2022	Sustainability Activities and Action	Adopt a Policy to Cease Oil and Gas Exploration and Developments	Against	Against	Vote AGAINST the proposal. Overall, Imperial Oil's climate strategy is very limited in itself and also lags behind its direct peers. The company has steps to take before its net-zero efforts are comparable to that of its direct peers and to align with the expectations of the IEA or the UN IPCC. The company and its Canadian peers are currently working with the Canadian Government under its commitment to "net zero" by 2050 to ensure that they are consistent "with the overall economic transition to a low carbon-economy", including competitiveness of their energy projects across global low-carbon transition and net-zero scenarios, and how they avoid supporting activities and assets that are at risk of becoming stranded from declining demand. However, the proposed capex policy cannot be implemented without a full review of the company's strategy to make it sustainable. In addition, none of the company's direct peers has adopted a capex policy ceasing all new investments in new oil and gas projects. As such, support is not warranted at this time

No material misalignment between pay and performance and shareholder outcomes is noted. The STI and LTI structures are generally consistent with good market practice. However, the following concerns are identified: " The company paid STI bonuses to its executives while at the same time receiving JobKeeper government subsidies;" There is an absence of disclosure of STI and LTI targets, making it difficult for shareholders to independently assess the rigor of performance hurdles;" There is a relatively high 60-percent weighting of the total STI towards non-financial measures, which are more akin to bonuses for the "day job" rather than measures of outperformance for which a bonus is appropriate;" The company pays dividends on unvested shares, representing a contractual contrivance where there is no present entitlement to any shares or dividends in any period prior to vesting; and" The LTI does not include a positive TSR gateway, which may result in rights being earned despite negative returns.

However, management received this grant.In this proposal, the terms of the FY20 TIP will revert back to the terms of the FY20 LTI which was approved by shareholders at the 2019 AGM, being consistent with market practice and shareholder interests, and including EPS and TSR performance hurdles.

Inghams Group Limited	ING	Australia	4/11/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST this resolution is warranted. A board spill is not considered to be in the best interests of the company or shareholders at this present time.* The board has responded appropriately and taken steps to address many of the concerns expressed by shareholders which gave rise to the "first strike" against the remuneration report at the 2020 AGM, some of which have already been implemented and others which will be implemented in FY22.* The board is seeking to amend the terms of the performance rights granted to management under the FY20 TIP, the terms of which were not aligned with shareholder interests or better market practice, to revert back to the terms of the FY20 LTI which was approved at the 2019 AGM, being consistent with market and shareholder expectation.* The company's FY21 results do not warrant any specific concerns.

Intel Corporation	INTC	USA	12/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	There are concerns regarding the compensation committee's limited degree of responsiveness to last year's failed say-on-pay vote. While the proxy discloses engagement efforts and shareholders' feedback, not all concerns are clearly fully addressed. Moreover, other pay program changes that were made following shareholder outreach are not all clearly positive. This falls short of the robust response that is expected following a failed vote. There are also unmitigated pay-for-performance concerns for the year in review. Annual incentive payouts were made well above target against goals that were lowered after their initial establishment due to a shift in company strategy. Further, NEO participation in a second bonus opportunity is questionable, when the primary program provides substantial pay opportunities (including the new CEO's relatively high target STI opportunity). Moreover, the company will reduce the proportion of performance-conditioned equity for non-CEO NEOs beginning with FY22 grants. Finally, some investors may find that the disclosed changes to both STI and LTI programs for next year do not clearly improve program rigor based on the current level of disclosure. In light of both responsiveness and unmitigated pay-for-performance concerns, a vote AGAINST this proposal is warranted.

Incitec Pivot Limited	IPL	Australia	17/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. There were no fixed remuneration increases in FY21. There have been nil STI bonuses in FY20 and FY19, and FY21 STI bonuses were near 50 percent of maximum, which aligns with disclosed achievements against STI performance measures and recognizing the weak performance at Wagga. FY20 and FY21 LTI vesting has also been at low levels of 10 percent and 15 percent of relevant prior period grants. All this supports reasonable alignment of remuneration with shareholder interests. Nevertheless, a qualification is raised to highlight certain concerns: " There is a high concern for misalignment in quantitative pay-for-performance analysis, attributed to the historically excessive LTI grants. " LTI vesting in FY20 and FY21 has been from partial vesting of the non-financial "strategy" performance measure, which involved board subjectivity in assessment and being inconsistent with the negative TSR and below threshold ROE targets which were not met. " The is a persisting potential for misalignment with shareholder interests in the FY21 LTI grant which includes a "long-term value" performance measures and continues to be assessed against undisclosed strategic priorities and potentially involving excessive board discretion and subjectivity. " There is persisting inferior transparency in the STI relative to market and peers, given the continued absence of disclosure of specific and quantified STI targets to allow shareholders to independently assess the rigor of targets and alignment of bonuses and results. " The FY22 STI and FY22 LTI grant are disclosed to include a new ESG performance measure amounting to a 10 percent opportunity in each case, which represents a bonus twice for achieving same outcome (GHG emissions reduction).
Incitec Pivot Limited	IPL	Australia	17/12/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Jeanne Johns	For	For	A qualified vote FOR this grant of performance rights to CEO Jeanne Johns is warranted. " The structure of the grant is similar to the FY21 LTI grant. " The performance period is in line with the minimum accepted in this market at three years, and relative TSR and ROIC performance measures are consistent with shareholder interests. Nevertheless, persisting concerns exist for the following: " The "Long-term Value" metric is subject to undisclosed strategic performance measures, which may be misaligned with shareholder returns as observed in the partial vesting of prior year grants. " Duplication of performance measures in the FY22 STI and FY22 LTI, indicating that bonuses are offered twice for achieving the same objectives in relation to the "Long-term Value" metric and ESG performance measures which appear in both the STI and LTI. " The quantum of the LTI continues to be excessive and above peers. " There is potential for LTI awards to be accelerated in the event of a change in control, which is inconsistent with better market practices.

Incitec Pivot Limited	IPL	Australia	17/12/2021	Report on Climate Change	Approve Paris-aligned Targets	For	For	A vote FOR the disclosure of carbon emission targets is warranted. " The company has set short- and medium-term targets (Scope 1 and 2) targets and has a net zero by 2050 ambition; however, these are not sufficiently robust and significantly rely on carbon offset technologies. " The company's Scope 1 and 2 targets are not aligned with the Paris Agreement goal of limiting global warming to 1.5 degrees Celsius above pre-industrial temperatures. " The company has not provided any Scope 3 targets, for which it could be taking action. Additional information regarding the company's efforts to reduce its carbon footprint and align its operations with Paris Agreement goals would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks.

IQVIA Holdings Inc.	IQV	USA	12/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Although target pay opportunities remain relatively high, the CEO's total pay increased only modestly in FY21, and incentive awards are reasonably performance-conditioned. While concerns are noted regarding goal disclosure for the short-term incentive program metrics that are evaluated using a scorecard approach, half of the target awards are tied to financial metrics with clearly disclosed threshold, target, and maximum goals, and the program provides limited committee discretion to increase payouts. The LTI program is also 50 percent based on multi-year performance goals with forward-looking targets disclosed, and while the relative TSR metric targets merely median performance, the majority of the PSUs are tied to an EPS growth goal which appears rigorous. In light of the concerns noted above, continued monitoring of the pay program is warranted.

IRESS Limited	IRE	Australia	5/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted. " Quantitative pay for performance analysis indicates a high level of concern for misalignment of pay and performance and shareholder returns relative to peers, " The annual grant of the maximum Equity Rights in advance is inconsistent with market and replaces a typical STI bonus, " Disclosure of the performance measures for vesting of the Equity Rights lacks transparency and is inconsistent with the expectations of many shareholders and the practice of larger ASX-listed entities, " Equity Rights which grant the annual bonus in advance also carry a dividend equivalent payment in the form of additional Equity Rights, being inconsistent with market, and " The FY22 LTI grant has a materially increased quantum up from \$1.0 million to \$4.1 million. Exacerbating concern is that the FY23 LTI grant is being brought forward and granted in FY22, making the combined value of the LTI grants of \$8.2 million, being inconsistent and well is excessive of market, and not well justified by strong shareholder outcomes over the last 5 years.
IRESS Limited	IRE	Australia	5/05/2022	Approve Share Plan Grant	Approve Grant of Equity Rights to Andrew Walsh	Against	Against	A vote AGAINST the grant of equity rights is warranted given concern for " the apparent guaranteed quantum of the advance grant of the rights being disclosed to be part of fixed remuneration in FY22 and " the move away from disclosing and linking the equity rights to achievement of specific and quantified performance targets. A vote AGAINST the grant of performance rights is warranted due to the significant increase in the quantum of the award being excessive and well above market median and the inclusion of the FY23 LTI grant one year earlier, i.e. being brought forward to FY22. " The grant includes performance conditions with a 10 percent CAGR absolute TSR gateway and reasonable EPS and ROIC vesting scales, with targets being disclosed for the benefit of shareholder assessment of rigor. " However, the inclusion of strategic platform delivery may be considered by shareholders to be part of the CEO's core day job responsibilities, the success of which would be measures in the conventional financial performance metrics. Concerns are raised for any board discretion is assessment and any potential misalignment with shareholder returns and the company's performance.

Integrated Research Limited	IRI	Australia	24/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. There does not appear to be a material misalignment between CEO pay and company performance and the STI and LTI structure appear to be sufficiently aligned with shareholder interests. However, shareholders may wish to engage the company with respect to the following matters: " There is no disclosure of STI targets, making it difficult for shareholders to objectively assess the rigor of the performance hurdles. This concern is mitigated given that the board deemed that none of the financial metrics were achieved, indicating some level of rigor. " The basis of STI payouts is solely on non-financial metrics, which was earned at or near target. Investors may view this outcome as misaligned with company performance and shareholder experience; and " The company lacks shareholder guidelines which can be used to better align executive and director interests with those of shareholders.
Integrated Research Limited	IRI	Australia	24/11/2021	Approve Stock Option Plan Grants	Approve Issuance of Options to John Rutvhn	Against	Against	A vote AGAINST the CEO's FY21 LTI options is warranted because the vesting conditions are not sufficiently rigorous as they only require continued service and good standing with the board, and will vest in full in less than three years. This is a step back from previous years' award where the LTI grant was in the form of performance rights and had a performance hurdle connected to relative TSR with a three-year performance period.

However, the following concerns are highlighted: * The fixed remuneration of the CEO remains substantially higher than the median of market cap and Sustainability Advisory Services identified peers. * STI deferral was reduced from 50 percent to 25 percent reducing alignment with shareholder interests and better market practice. * There continues to be poor disclosure of STI targets and actual outcomes, making it difficult for shareholders to independently assess the merit of bonuses and rigor of targets. * Dividends on unvested shares are available under the LTI plan for dividends paid on shares in respect of rights that vest, representing inconsistency with better market practices, when there is no present entitlement to shares or dividends until after vesting.

JD Sports Fashion Plc	JD	United Kingdom	1/07/2021	Elect Director	Elect Andrew Long as Director	For	For	Votes AGAINST incumbent Nominating Committee chair Peter Cowgill are warranted for lack of gender diversity on the board. A vote AGAINST the re-election of Peter Cowgill is further warranted because: " Peter Cowgill serves in the effective role of a combined Board Chair and CEO, which contradicts the provisions of the UK Corporate Governance Code." In addition to being Executive Chair at JD Sports, Peter Cowgill serves as board chair of Quiz Plc. He is also chair of a non-listed company, Roxor Group Limited. These are significant external time commitments, and may potentially undermine his effectiveness as the Executive Chair of the Company. A vote AGAINST the re-election of Andrew Leslie is warranted because: " Andrew Leslie is a non-independent NED on the Board, and is also Chair of the Remuneration Committee and a member of the Audit Committee. His membership on the Board has contributed to the composition of the Board and the key Committees failing to comply with the provisions of the UK Code." The remuneration report has consistently registered significant levels of dissent from shareholders since the 2014 AGM, during which time the director has chaired the Remuneration Committee. Given the continued level of dissent, along with ongoing concerns regarding the viability of the remuneration arrangements at the Company, the director's re-election cannot be supported. Further, cash awards will vest after a three-year period (share awards will vest five years after grant). Overall, the structure of the proposed LTIP is not considered fully in line with UK best practice." Johnson & Johnson	JNJ	USA	28/04/2022	Use GAAP for Executive Compensation Metrics	Adopt Policy to Include Legal and Compliance Costs in Incentive Compensation Metrics	For	For	A vote FOR this proposal is warranted in light of the significant shareholder concerns recently raised regarding the company's exclusion of certain litigation-related costs from the executive compensation program, along with the magnitude of recent litigation expenses and the continued exclusion of a similar expense from the 2021 incentive program. Given that the proposal would provide the board with flexibility to adjust the application of the policy in individual circumstances, with an explanation to shareholders, the request is not viewed as overly prescriptive.

Johnson & Johnson	JNJ	USA	28/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Following low support for the 2021 say-on-pay proposal, the company engaged with shareholders, disclosed their feedback in the proxy statement, and made improvements to 2022 proxy statement disclosure to address investors' concerns. In particular, the company provided greater disclosure of the factors considered by the compensation committee relating to non-GAAP adjustments and disclosed that the board has adopted new procedures for routinely evaluating such adjustments. In addition, incentive programs remain largely performance-conditioned, and CEO pay and company performance are reasonably aligned for the year in review. Further, although incentive metrics for 2021 were adjusted to exclude litigation-related expenses, the size of the adjustment was significantly lower than in 2019 and 2020, and the company affirms that the adjustments were not related to opioid litigation. However, greater details in the proxy regarding the reconciliation of GAAP and non-GAAP metrics would be beneficial to shareholders.

JPMorgan Chase & Co.	JPM	USA	17/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	The increase in reported CEO pay is primarily the result of a sizable, one-time award of stock appreciation rights. Although the CEO's annual LTI is entirely based on clearly disclosed multi-year goals, there are significant concerns regarding the structure of the one-time award, as the award lacks rigorous performance-vesting criteria, or even a premium exercise price. This structural concern is heightened given the substantial pay opportunities this off-cycle award provides. The executive pay program's reliance on discretion to determine annual incentives remains an ongoing concern, even when such discretion is guided by performance assessments against consistent metrics. While the company's recent improved performance may provide context to an increase in performance year pay, some investors may nonetheless question an increase in the CEO's annual-cycle award while long-term TSR lagged the S&P 500 and when the regular award was preceded by such a sizable one-time award. In light of these concerns, the quantitative pay-for-performance misalignment is not mitigated and a vote AGAINST this proposal is warranted.

Kingfisher Plc	KGF	United Kingdom	22/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted, although it is not without concern because: * Bonus targets were reduced versus the prior year, which partly contributed to the near maximum payouts during the year. Further, certain threshold targets reward negative growth performance. The main reasons for support are: * Executive pay appears broadly aligned with the Company's financial performance as well as the stakeholder experience during the year. There is also sufficient rationale and context for the target setting. * No overriding concerns have been identified.

The main reasons for support are: * A new LTIP is being proposed to replace the Alignment Shares and Delivering Value Incentive schemes, which will reduce the annual maximum LTIP opportunity from an aggregate 347%-373% of salary to 260%-275% of salary. The proposed terms will also bring the Company in line with current market practice in respect of granting LTIs. Furthermore, the revisions to the variable pay framework is supported by adequate rationale linked to the business strategy. * The policy includes improvements in its other features, including the mandatory bonus deferral and the enhanced shareholding requirements.

Kogan.com Limited	KGN	Australia	25/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this remuneration report is warranted. Quantitative pay for performance analysis indicates a high concern for misalignment of pay, performance and shareholder interests, particularly regarding the retention options grant to the CEO and CFO/COO. The board utilized a backward-looking exercise price methodology, rather than the prevailing market price, which resulted in a discounted exercise price of approximately 38.2 percent. The discounted retention options vest solely with the passage of time and are not conditioned upon any performance criteria, despite having a high quantum relative to industry and peers.

Kogan.com Limited	KGN	Australia	25/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Non-Executive Directors' Fee Pool	For	For	A qualified vote FOR this proposal is warranted given that the current NED fee expense is \$485,000 annually, leaving just \$15,000 under the current NED fee cap. Whilst the proposed increase in the NED feed cap of \$300,000 may be deemed excessive by some shareholders, the increase in the NED fee cap will provide the board with an ability to nominate additional non-executive directors. Moreover, there have been no significant increases in NED base fees in recent years and current NED fees are not considered excessive relative to the median of peers.
Kogan.com Limited	KGN	Australia	25/11/2021	Approve Omnibus Stock Plan	Approve Renewal of Equity Incentive Plan	For	For	A vote FOR this resolution is warranted at this time, notwithstanding concerns with the prior year excessive and problematic equity awards to executive directors. Support is in the basis that the EIP establishes a broader framework for equity incentives for a wider range of the company's employees, whereas any grants to executive directors would be expected to be presented to shareholders for approval.
Kogan.com Limited	KGN	Australia	25/11/2021	Approve the Spill Resolution	Approve the Spill Resolution	Against	Against	A vote AGAINST the spill resolution is recommended. Although remuneration arrangements raise significant concern for misalignment, there seems no benefit to shareholders at present to require a "spill" of the board. There are presently 4 non-executive directors, two of which have been recently appointed in 2021.

In addition, each executive's target bonus opportunity was relatively high. The company utilizes a co-CEO structure in addition to employing an Executive Chairman, whose total target pay opportunity is set above the pay of both CEOs. Lifestyle Communities Ltd.	LIC	Australia	16/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted as pay and performance are reasonably aligned at this time. The qualification is due to the continued use of a combined incentive program for senior executives that removed all long-term performance hurdles, which severs the link with long-term shareholder outcomes. The lack of a traditional LTI component with long-term performance metrics represents a material departure from incentive remuneration in the Australian market and continues to be opposed by many shareholders at AGMs. Despite such problematic pay structure, the value of awards eligible to vest under the plan does not appear excessive, partly mitigating the concern at this time. In addition, the managing director does not participate in any incentive plans, including the combined plan.

Lendlease Group	LLC	Australia	12/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted: "Following receipt of the 'first strike' on the 2020 Remuneration Report, the company engaged with investors to understand their concerns and made changes in response." "The new CEO's fixed remuneration has been reduced in line with peers compared to that of the former CEO;" STI bonuses are reduced in line with performance;" No prior period LTI grants vested during the year, reflecting alignment with weak longer term shareholder returns.The qualification is to highlight certain concerns which remain in the FY21 remuneration report:" The new CEO's fixed remuneration remains well above the median of cap and industry peers;" Only 50 percent of the FY21 STI is based on financial measures and specific and quantified financial targets remain undisclosed which represents inferior transparency compared to shareholder requirements and better practices of market cap peers;" The STI bonuses were awarded on non-financial measures, which appear more in the nature of a bonus for "day job" duties, while the board determined not to pay a bonus on the financial component;" The company awarded time-based RSUs which are not subject to performance, although noting this practice has ceased; and" Provision for dividends on unvested shares remains in the terms of the LTI, noting that there is no present entitlement to shares or dividends in the performance period.
Lendlease Group	LLC	Australia	12/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Anthony Lombardo	For	For	A qualified vote FOR this resolution is warranted. The terms and structure of the LTI is sufficiently aligned with shareholder interests and the company has made material changes based on feedback from shareholders including lowering the maximum LTI opportunity, removing tenure-only restricted securities awards from the LTI, and removing payment of distributions on the minimum award during the three-year vesting period.However, this recommendation is qualified to highlight the following concerns:" Despite the lowered LTI opportunity, the quantum of the LTI grant remain excessive being much higher than market median;" The ROE and FUM targets are not disclosed based on an assertion of commercial sensitivity, making it impossible for shareholders to determine if the targets are rigorous and aligned with shareholder interests; and" Dividends on unvested shares continues to be provided in the terms of the LTI grant, given that distributions accrue between the grant date and vesting date and will become payable on rights that vest – this is no present entitlement to shares or dividends in the performance period, such that shareholders may be concerned for any contrived structure to award such extra remuneration.

Lloyds Banking Group Plc	LLOY	United Kingdom	12/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this item is considered warranted, although it is not without concern for shareholders: " Failures have been identified during the year over the Company's home insurance renewals, which resulted in a FCA fine of GBP 91 million, and there is an ongoing investigation on the HBOS Reading matter, raising concerns over whether these matters have been sufficiently reflected in variable pay outcomes. This is particularly concerning in respect of the former CEO, who served during the period these failings were identified. The main reasons for support are: " The Remuneration Committee has adjusted the bonus pool downwards by GBP 83 million and, pending conclusion of independent reviews, froze former ED's variable remuneration awards and vestings for 2022. " The Company's actions towards the impacted individuals in response to the identified failures are recognised, including its plan to return capital to shareholders via a share buyback programme and the higher dividend declared in for FY2021.

While executives did not receive annual equity awards or payouts under the annual incentive program in 2021, the one-time awards granted to NEOs are problematic. The value of the awards, which were granted for retention purposes and in light of the lack of regular-cycle incentive awards for two consecutive years, is excessive, and vesting is subject to performance over a relatively short period. NEOs received additional one-time grants of RSUs in connection with new employment agreements; these awards are entirely time-vesting and lack a compelling rationale. Finally, the CEO and COO each received sizable gross-up payments on perquisites, which are provided by their employment agreements and are considered to be problematic.

However, shareholders may be concerned with the following aspects of the CEO's remuneration: "The quantum of LTI grant is high when compared to peers;" The relative TSR component of the LTI lacks a positive TSR gateway, which may result in a payout despite declining shareholder returns; and" The company lacks minimum shareholding guidelines.

Shareholder concerns include: "There is insufficient disclosure of STI financial hurdles which is inconsistent with market practice;" The performance period for performance rights is considered a little short for an LTI grant; and" Performance rights are allocated using a discounted face value considering dividends and distributions during the performance period. This practice is not in line with market and results in a higher number of rights being issued.

Mineral Resources Limited	MIN	Australia	18/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. No material misalignment between pay and performance and shareholder outcomes has been identified for the reporting period. FY21 results and shareholder returns are aligned with higher STI bonuses and LTI vesting reflects the strong shareholder returns and improved results over the shorter and longer term. Shareholder concerns in regard to the company's remuneration practices include: " Absent disclosure of STI target measures to provide shareholders with sufficient transparency to evaluation targets and alignment with performance, bonuses and shareholder expectations." A high weighting to non-financial measures in the STI represents a high component to bonuses for the "day job." The LTI ROIC target range of 12 to 18 percent lacks rigor given much higher reported ROIC in recent years," Awarding additional remuneration to KMP executives for their role on subsidiary/joint venture boards is not in line with market practice." Continued absence of an LTI resolution to allow shareholders to consider and approve the current year LTI grant." Dividends on unvested shares awarded on rights that vest in respect of dividends paid in the performance period.

Mineral Resources Limited	MIN	Australia	18/11/2021	Approve Share Plan Grant	Approve Grant of LTI Share Rights to Chris Ellison	For	For	A qualified vote FOR the grant of LTI share rights to the Managing Director is warranted. The structure of the grant is aligned with shareholder interests in that* the quantum of this FY21 grant made in July 2020 was consistent with peers,* there is a 12 percent to 18 percent ROIC target range,* a four year performance period,* the number of rights allocated is based on face value 5-day VWAP up to 20 June 2020) and not discounted a fair value, and* cliff vesting (all-or-nothing) and re-testing provisions have been removed.The qualification is to highlight that this resolution is materially inconsistent with shareholder expectations and market practice.* Given this is the first time this company has attempted to address prior year corporate governance concerns for an absence of an LTI resolution, the company is still not providing the terms of a FY22 LTI grant for approval, as seen in the overwhelming majority of ASX300 companies.* Instead, the company appears to be proposing to shareholders the FY21 LTI grant which has already been made and discussed in the FY21 remuneration report. This does not meet the minimum expectations in this market for the terms of the new LTI grant to be presented to shareholders for approval (for example, in this AGM, this would be the FY22 LTI grant with a 4 year performance period likely to end in July or August 2025). As a final matter of concern regarding the FY21 LTI grant, corporate governance concerns are noted for the following: "the rigor of ROIC target range of 12 percent to 18 percent given disclosure of ROIC of 29.1 percent over the last four years, and" the availability of dividends on unvested shares, give this company adds dividends paid on shares for rights that ultimately vest – given there is no present entitlement to the shares or dividends during the performance period, some shareholders may regard this as a contrivance.

Marley Spoon AG	MMM	Germany	31/05/2022	Approve Executive Share Option Plan	Approve Share Option Program 2022 and Issue of Securities Under that Program	For	For	A qualified vote FOR these resolutions is warranted as the Share Option Program is in accordance with German law. The plan is subject to performance conditions, does not provide for excessive dilution, and an exercise price is based on the market price of the company's shares. The recommendation is qualified to highlight the following features of the Share Option Program 2022 which are not well aligned with Australian market expectations: * The share options will be tested over a one- or two-year performance period only, being short for an LTI grant in Australia. * Although there is a waiting period of 4 years before the options can be exercised, the vesting period of incentive grants under the scheme is not in line with local market standards in Australia, which recommend substantial vesting only after at least three years.
Marley Spoon AG	MMM	Germany	31/05/2022	Approve Stock Option Plan Grants	Approve Grant of Share Options to Fabian Siegel	For	For	A qualified vote FOR this resolution is warranted. The material terms of the grant are in accordance with German law. As an improvement over the prior year, the company has introduced a graduated vesting scale to replace "cliff vesting" (an all or nothing approach). The recommendation is qualified to highlight the following concerns: * The performance period of the options will be tested in two years only, which is short for an LTI grant under Australian market conditions. * Vesting begins at Year 1 which is required under German law, as explained by the company previously during engagement. While this is acknowledged, the overall vesting regime of the option plan is not in line with local Australian market standards, which recommend substantial vesting only after at least three years. * The specific EBITDA and CM targets are not disclosed, which prevents shareholders from fully assessing whether the performance conditions are sufficiently challenging and in shareholder interests. The company states that its performance against the EBITDA and CM targets will be set out in the FY24 remuneration report.

Mcmillan Shakespeare Limited	MMS	Australia	22/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. The CEO's fixed remuneration is not considered excessive, there was no increase in CEO pay during the year, and the FY19 three-year and FY20 two-year LTIP lapsed given performance conditions were not met. The CEO's fixed remuneration portion of total pay decreased from 57.1 percent to 50.5 percent and the company transitioned from fair value to face value allocation methodology in LTIP awards. The qualification is based on following: "In the absence of a formal STI, the LTI includes a performance period that is less than the market-accepted, three-year term; and" Strategic targets accounted for 30 percent of FY21 LTIP. The company disclosed in the annual report that from FY22, strategic targets will account for 40 percent of the LTIP.

Mcmillan Shakespeare Limited	MMS	Australia	22/11/2021	Approve Omnibus Stock Plan	Approve Long Term Incentive Plan	For	For	A vote FOR this item is warranted because the terms of the proposed equity plan are not problematic and establish a broad framework for grants to be made in the future. Concern exists for the Indeterminate Rights clause that provides the company with flexibility to settle Incentive Plan grants in either shares or cash payment, which does not align with long-term shareholder interests.
Mcmillan Shakespeare Limited	MMS	Australia	22/11/2021	Approve Share Plan Grant	Approve Issuance of Indeterminate Rights to Michael Salisbury	For	For	A qualified vote FOR the grant of performance rights to the CEO is warranted. The award appears to be reasonably aligned with shareholder interests and the targeted EPS growth and ROCE are well disclosed. As an improvement over the prior year, a greater portion of the award has a performance period of three-year and the performance hurdle for average ROCE increased. However, the following concerns with the grant structure are raised: " Strategic objective component of the LTI increased from 30 percent to 35 percent with inadequate and poor disclosure, and the metrics appear a bonus for "day job" for the CEO;" The performance hurdle attached to underlying EPS CAGR decreased compared to the prior year;" A portion of the grant (47.5 percent) has a performance period of less than three-years, which is less than the minimum level of acceptable market practice; and" The quantum of the LTI grant is well above the market peers.

Monadelphous Group Limited	MND	Australia	23/11/2021	Approve Stock Option Plan Grants	Approve Grant of Options to Robert Velletri	For	For	A qualified vote FOR this resolution is warranted. These options are issued under the company's combined incentive structure, so there are some short-term aspects of the options which may concern some shareholders, although the remuneration structure on the whole is not excessive. Quantum of this award is not excessive, and the EPS growth performance measures is an appropriate metric. However, concerns are noted for the following: " The EPS CAGR targets do not appear realistic given that the company achieved EPS growth of 28 percent in FY21, which exceeded the EPS target of 8 percent by a wide margin;" The EPS threshold and target were reduced from the prior year;" 25 percent of options commence vesting after 1 year and another 25 percent may vest after 2 years and the remaining 50 percent may commence vesting after 3 years, indicating that 50 percent of the grant is below the minimum three-year vesting period accepted in this market;" The LTI allows for excessive re-testing of the options in the event the performance hurdles were not met in the initial performance period;" The quantum of the LTI exceeds the median of the capitalization peers; and" The performance metrics do not include a relative performance hurdle that would benchmark the company's performance against a group of selected peers.
Monadelphous Group Limited	MND	Australia	23/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted on the basis that pay and performance are reasonably aligned at this time. The board did not award any bonuses under the Combined Rewards Plan for the second year in a row in light of the company's financial performance. However, concerns are raised that " There is no disclosure of specific and quantified thresholds and targets in the STI, making it difficult for shareholders to assess the rigor of the performance hurdles;" A portion of the options granted to executives may vest in a period which is less than three years and less than the minimum accepted in this market. In light of this early vesting, there is also retesting if performance goals are not achieved during the first two window periods;" The EPS growth threshold and targets were lowered from the prior year and are not considered sufficiently rigorous given that the company achieved an EPS growth of 28.6 percent in FY21.

Megaport Ltd.	MP1	Australia	22/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report (Item 1) is warranted due to a high level of concern for misalignment in the quantitative Sustainability Advisory Services Pay-for-Performance model. The CEO' level of pay is excessive, especially when compared (3.57x) to the median CEO pay at companies of similar industry and size. Other concerns regarding the company's remuneration practices are as follows: " The CEO's bonus was paid at maximum despite the company posting an increase in net losses during the year;" The specific and quantified STI performance targets continue to be undisclosed, which makes it impossible for shareholders to independently evaluate whether the targets are sufficiently stretching and aligned with shareholder interests;" The company does not require any deferral of the STI bonus, representing a material departure from Australian investor expectations and better market practice; and" The terms of the CEO's LTI awards, including a short vesting period, cliff vesting and a lack rigorous performance criteria, and the board's discretion to accelerate vesting of LTI awards upon a change of control are inconsistent with acceptable market practice.
Megaport Ltd.	MP1	Australia	22/10/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR this resolution is warranted as the headroom in the current cap is insufficient to accommodate the appointment of a director(s) as part of board refreshment and board succession planning.However, the following concerns are raised: " Non-executive directors are allowed to participate in Employee Share Option Plan and Employee Share Plan which is not supported under Australian investor guidelines; and" The chair' and non-executive director's fees are high compare to the market. In addition, their total remuneration is also high as options inflated their total remuneration and as a result substantially higher than the median for similar-sized companies. The proposed increase might allow the board for future increases in fees.
Megaport Ltd.	MP1	Australia	22/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted as there is a provision that will permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any changes to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.Constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders. Corporate governance concerns exist where entities convene virtual-only meetings, given that this may diminish transparency and accountability, including shareholder rights to ask questions and holding directors publicly accountable.

It is also noted that non-executive directors have not previously participated in this plan.

Marathon Petroleum Corporation	MPC	USA	27/04/2022	Elect Director	Elect Director Kim K.W. Rucker	Against	Against	A vote AGAINST Sustainability and Public Policy Committee Chair Evan Bayh are warranted as a signal to the board that stronger independent oversight and board management of climate risks at the company are necessary. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST B. Evan Bayh III, Charles (Chuck) Bunch, Edward Galante and Kim Rucker are warranted for the following reasons: " Given that board chair, John Surma, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.

Marathon Petroleum Corporation	MPC	USA	27/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Pay and performance were reasonably aligned for the year in review and the company made substantial changes to incentive programs in response to investor feedback after last year's failed say-on-pay vote. While investors may have expected a more robust commitment regarding time-based equity awards to outgoing or new executives, the committee strengthened the long-term incentive program by increasing the portion of equity grants that are strongly performance based and lengthening the performance period. Nevertheless, investors are advised to continue to monitor pay at the company, particularly any additional off-cycle awards.

Marathon Petroleum Corporation	MPC	USA	27/04/2022	Clawback of Incentive Payments	Amend Compensation Clawback Policy	For	For	A vote FOR this proposal is warranted as the addition of reputational or other financial harm as a recoupment scenario would expand the board's ability to recoup incentive pay and the increased disclosure requirements would also better serve shareholders' informational needs.

Such information would allow shareholders to better assess the company's efforts to manage and mitigate those risks.

Medibank Private Limited	MPL	Australia	18/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted because: " No material misalignment has been identified in the quantitative Sustainability Advisory Services pay for performance analysis;" CEO fixed remuneration is consistent with market cap and selected industry peers;" The board exercised its discretion to reduce the Executive Leadership Team's STI incentive outcomes, resulting in STI awards averaging 70 percent of maximum opportunity STI bonuses (from previously an average of 80 percent of maximum STI opportunity); and" FY19 LTI vested at 32 percent, reflecting no vesting against the earnings per share compound annual growth rate measure, and partial vesting against the relative total shareholder return measure, with a performance rank at the 57th percentile against the company's comparator group.However, concerns remain regarding the absence of disclosure of specific and quantified STI performance targets, which prevents shareholders from independently assessing the rigor of performance measures in line with their expectations and extent of out- or under-performance.

Medibank Private Limited	MPL	Australia	18/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to David Koczkar	For	For	A qualified vote FOR the grant of performance rights to the CEO is warranted. The structure of the LTI is consistent with the prior years and there is a three-year performance period, EPS CAGR and TSR performance measures which are consistent with shareholder interests and market practice. However, there are concerns that 30 percent of the LTI is subject to a non-financial measure related to private health insurance market share growth. Whilst this may seem reasonable, market share growth is fundamental to all businesses, and questions are raised why this should be subject to a separate large bonus, given the objective NPAT or EPS targets in the STI and LTI would already adequately capture this performance. Further, market share growth measures appear to be already incorporated into the annual assessment of the STI award. Accordingly, this would be double-counting the same target in the STI and LTI, and the company's financial metrics more broadly. Growth in customers and revenue should translate into improved operating profit and health insurance premium revenue which are the financial measure in the STI and represent 65 percent of the total. Another concern is that the maximum target of the EPS growth metrics remains reduced, and does not appear sufficiently demanding in the context of the higher consensus market forecasts.

Macquarie Group Limited	MQG	Australia	29/07/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted because there are significant concerns around the quantum of remuneration payments enabled by the remuneration framework; however, the following positive features mitigate some concern at this time: " A significant portion of the CEO's profit share award is deferred for up to seven years, which enhances the link between shareholders and CEO outcomes;" The board has also adopted disclosure with regards to consequence management, which represents superior market practice, and malus provisions to both its profit share awards and LTI that further strengthen the board's risk management practices;" Although the APRA findings are concerning, the board has proactively imposed qualifying conditions on the retained profit share that are tied to resolving APRA's findings, in addition to reducing the PSU allocations for executive KMP;" The LTI plan's EPS compound annual growth rate hurdle was, for the first time in several years, not achieved in FY21, indicating that the EPS hurdle has some degree of rigor; and" The number of PSUs allocated in the LTI is based on a face value, in line with local market practice, removing the concerning practice of using a discounted fair value methodology. Whilst the disconnect between pay and performance is mitigated for the fiscal year under review, the following concerns support the qualified nature of this vote recommendation: " The total remuneration of the CEO and KMP is still high when compared to the median of both the top 25 Australian companies and the Sustainability Advisory Services-selected peer group;" There is no clear disclosure regarding how and to what extent, the board uses its discretion to adjust the size of the profit share pool up or down. Therefore, it is difficult to assess its at-risk nature and its pay-for-performance linkage. Whilst the company has cited record NPAT and successfully navigating the impact of the COVID-19 pandemic on its determination of the profit share pool in FY21, more robust discussion on the actual quantum that this had on the total profit pool would have been appropriate considering the quantum of the awards;" Because the profit share pool outcomes appears to reflect purely financial performance, shareholders would benefit from further disclosures regarding the determination of how the profit share arrangement is calculated and how the split or sharing between management and shareholders has been judged to be fair and equitable, particularly as basic EPS and dividends per share are well below FY19 levels; and" Non-executive director remuneration is above market due mainly to additional fees for service on the board of Macquarie Bank, a wholly-owned subsidiary of Macquarie Group.
Macquarie Group Limited	MQG	Australia	29/07/2021	Approve or Amend Severance Agreements/Change-in-Control Agreements	Approve Termination Benefits	For	For	A vote FOR this resolution is warranted, given that there has been no significant change in the potential termination benefits for Executives and benefits are generally reasonable and in line with the company's remuneration approach which weights Executive remuneration towards 'at risk' and includes a substantial deferred component.
Macquarie Group Limited	MQG	Australia	29/07/2021	Approve Share Plan Grant	Approve Participation of Shemara Wikramanayake in the Macquarie Group Employee Retained Equity Plan	For	For	A qualified vote FOR this resolution is warranted. The structure of the RSUs and the PSUs awards are in line with market practice, including an extended seven-year deferral period for RSUs with a four-year performance period for the PSUs combined with two performance measures - relative ROE and EPS CAGR, and malus provisions applicable to RSUs and PSUs. Notwithstanding, concerns that justify the qualified nature of the vote recommendation include the high quantum of the RSU awards, which are well in excess of median for similar sized companies in ASX 1-25 and an Sustainability Advisory Services-selected industry peer group.

However, the committee reduced the value of the CEO's target LTI opportunity for FY21 and closing cycle awards were earned below target, in line with performance.

Marvell Technology, Inc.	MRVL	USA	16/07/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted. CEO pay declined and pay-for-performance concerns for the year in review were sufficiently mitigated. Specifically, while performance was measured over two six-month periods, STI payouts for the CEO were based on pre-set financial goals. Further, equity awards were primarily performance-based with clearly disclosed multi-year goals. However, some concern does remain, as the relative TSR metric targets merely median performance, and payouts are not capped for negative TSR performance. Following last year's failed say-on-pay vote, the company engaged with shareholders to gather their feedback on executive compensation and other matters. In addition, a supplemental filing provides further details on the specific feedback received, all of which related to last year's special value creation awards, and an extended commitment to refrain from granting VCAs for a period of time. Specifically, the committee committed to not make additional VCA grants to the NEOs for at least five years from the date of the 2021 AGM, unless the awards are ratified or approved by shareholders. Further, the supplemental filing notes that if at any time similar awards are considered, the committee intends to incorporate shareholder feedback into the timing, structure, and performance targets of such grants. The additional disclosure of shareholder feedback and commitment provided in the supplemental filing represent a significant improvement from the disclosure and changes disclosed in the proxy statement.

Morgan Stanley	MS	USA	26/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Although guided by performance assessments, total NEO pay is ultimately discretionarily determined by the committee, which continues to raise some concern. Investors increasingly prefer a more formulaic structure for determining annual incentives, which emphasizes objective and transparent determinations through the use of quantified target goals and per-metric weightings. However, discretionary determinations have not resulted in a quantitative pay-for-performance misalignment for the year in review. In addition, the increase in CEO performance year pay is directionally aligned with strong financial and TSR performance, and key metrics assessed were consistent year-over-year. Further, although the relative TSR metric in the LTI program targets merely the median, the committee increased the weighting of the CEO's performance shares to 80 percent of total equity awards, which are earned based on clearly disclosed multi-year goals. On balance, a vote FOR this proposal is warranted, but with caution. Continued close monitoring of discretionary determinations and outcomes is warranted, as the pay program's reliance on discretion may be questioned should CEO pay and company performance demonstrate a misalignment going forward.

Mesoblast Ltd.	MSB	Australia	29/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted." The CEO's fixed remuneration is above market peers – however, this has remained static year on year and STI bonuses are not considered excessive." STI plan is primarily based on non-financial measures. It is acknowledged that the company is a clinical-stage biotechnology company with no product revenue, so the STI bonus is tied to key clinical, regulatory, and commercial KPIs, among other strategic areas rather than quantitative or financial measures." STI bonuses were reduced over the prior year which aligns somewhat with weaker financial results and share price fall.The qualification is to highlight the following concerns:" The quantitative pay-for-performance screen indicates a high degree of misalignment between remuneration and performance." The CEO's FY21 LTI remained pending as milestones were not achieved and 66.67 percent of FY20 LTI vested during the year is better aligned with achievement of milestones and three- and five-year shareholder outcomes." The LTI plan is based on milestone options, which can have a relatively short vesting period, being inconsistent with domestic market standards. In this regard, it is acknowledged that the success of the company is tied to clinical outcomes and regulatory approval of its drug products, and therefore reflected in the milestone objectives in the LTI.

In FY21, CEO Nadella's base salary remained well above the median reported base salary for the Sustainability Advisory Services-selected peer group, as well as for the company's peer group. Further, concerns are raised surrounding the magnitude and design of a new hire grant, which was not performance conditioned. While there are some concerns regarding the company's one-time move to semi-annual performance goals in the FY21 incentive program, LTI changes are reasonable and do not appear to have drastically altered payouts for the most recently completed performance cycle. The company did make several improvements to the pay program in FY21. Performance equity now constitutes 70 percent of the CEO's LTI pay mix, and his STI is predominantly based on pre-set financial metrics. Further, the company's financial performance has been very strong, and the quantitative incentive goals appear rigorous. Nevertheless, shareholders are advised to continue to closely monitor pay program decisions going forward.

Metcash Limited	MTS	Australia	1/09/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted because: "There is low concern identified in the Sustainability Advisory Services pay-for-performance model." There was no increase to the CEO's fixed remuneration. Disclosure in the STI have improved over prior years, where the company now discloses specific and quantified targets, allowing shareholders the ability to determine the rigor hurdles and alignment with shareholder interests and expectations. This recommendation is qualified to highlight that specific 'threshold' and 'target' performance hurdles in the LTI continue to be not disclosed.
Metcash Limited	MTS	Australia	1/09/2021	Approve Share Plan Grant	Approve Grant of FY21 Performance Rights to Jeffery Adams	For	For	A qualified vote FOR the approval of the FY21 LTI grant to the CEO (Item 4a) and the FY22 LTI grant to the CEO (Item 4b) is warranted. The performance period and performance measures are broadly consistent with market practice and shareholder interests. The qualification is raised to highlight persisting concern for inadequate disclosure of specific LTI performance hurdles at threshold and target for both TSR and ROFE. Only the maximum for 100 percent vesting is disclosed in providing shareholders an indication of what the Board considers to be outperformance. Some shareholders may find it difficult to understand the lower end of performance of ROFE or TSR. Further concerns are raised that the company has not disclosed threshold or targets in justifying vesting, which is typically presented by many ASX200 companies. Finally, the board retains considerable discretion upon a change of control event, compared with better market practice of pro-rating equity awards based on the time elapsed and performance.

Mayne Pharma Group Limited	MYX	Australia	23/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. Remuneration outcomes are not excessive, adequately structured and aligned with the company's results and performance and shareholder outcomes for the period under review. The CEO's remuneration is comprised of fixed remuneration and a substantial equity grant which amalgamates traditional STI and LTI structures. Presently, nearly all loan shares and options previously granted as the LTI are out-of-the-money and require a significant increase in the company's share price to realise value. This presently demonstrates reasonable alignment of executive and shareholders outcomes. Given there is no STI, and the LTI represents a significantly portion of the CEO's total remuneration, executive remuneration in this regard is appropriately aligned with shareholder interests. There have been enhancements to the vesting and performance conditions of the LTI compared to prior years, including: "an upward revision of TSR hurdles;" a reduction in the proportion that vest at the minimum performance hurdle; and "a reduction to the loan multiplier that applies to Executive Share Loan Scheme.
Mayne Pharma Group Limited	MYX	Australia	23/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Scott Richards	For	For	A qualified FOR the grant of performance rights to the CEO is warranted.* The board is responding to shareholder concerns to address dilution concerns by utilising 100 percent performance rights. Similar to the prior year, the LTI tranches have positive TSR hurdles which ensure alignment of executive remuneration with shareholder returns. Nevertheless, ongoing concerns remain in this grant of performance rights as follows: "the quantum of the award is excessive relative to market cap peers;" 50 percent of the award has vesting periods of less than the accepted market practice of three years; and "multiple re-testing opportunities are available over the five-year life of the award, although the vesting condition continues through years 4 and 5 which mitigates some concern.

National Bank of Canada	NA	Canada	22/04/2022	Company-Specific--Governance-Related	SP 1: Examine the Possibility of Becoming a Benefit Company	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank appears to have demonstrated its commitment to operating responsibly and sustainably and creating value for all of its stakeholders without the need to modify the bank's articles of incorporation to become a benefit company. The bank provides comprehensive disclosure about actions it has taken that show a commitment to healthy communities and sustainable and fair operations. In addition, the bank has disclosed an oversight structure in place to ensure that it is operating in an ethical, socially responsible and environmentally conscious manner. There are many unknowns associated with the benefit corporation structure and it is not clear that a conversion would cause any change in its business practices. In addition, the bank indicates that "the Board believes that becoming a benefit company would not significantly change how the Bank does business. Also, it would not change the substantial role already held by the Bank's stakeholders." As such, the request for the board to take steps to change the form of company incorporation does not appear to be necessary and this proposal does not warrant support.

Adoption of this proposal would also allow shareholders to express their opinions on the climate risk management practices of the company.
National Bank of Canada	NA	Canada	22/04/2022	Company-Specific -- Miscellaneous	SP 3: Adopt French as the Official Language of the Bank	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank has been applying the provisions of the Charter of the French Language and holds a Francization Certificate and has a Francization Committee. It is headquartered in Montreal and in Quebec, French is the official language. The bank has already noted that all its shareholder meetings held in Quebec are delivered in French with excerpts in another language. All meeting documents are also available in French. The bank emphasizes it is gradually developing its international operations and ensures that it is always able to serve and communicate with its stakeholders in French while not excluding the use of English and, where possible, other languages. Considering the above and the fact that the bank is already complying with all laws and regulations applicable to doing business Quebec, including those that pertain to the French language, the request of the proponent pertaining to amend bank's by-laws to include French as the official language of the bank appears to be overly prescriptive and hence a vote AGAINST this shareholder proposal is warranted at this time.

Nanosonics Limited	NAN	Australia	19/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted because remuneration policies and practices are not excessive, fixed remuneration and STI bonus are in line with market peers, and 100 percent of FY17 LTI vesting do not appear to be materially misaligned with company performance. However, shareholders should be concerned that: "There is a continued lack of disclosure of specific and quantified STI performance hurdles, diminishing shareholders' ability to adequately assess performance against pre-determined targets;" "The company disclosed that PBT exceeded the stretch hurdle. However, given that PBT decreased by 11.8 percent over the prior year, shareholders may question the rigor of this STI target; and" "The quantum of the LTI grant is higher than the market peers.

Norwegian Cruise Line Holdings Ltd.	NCLH	Bermuda	16/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted. The compensation committee has demonstrated only a limited degree of responsiveness to shareholders' concerns following a failed say-on-pay vote last year. While the committee made certain positive changes, shareholders may have expected an affirmative commitment to not repeat incentive program adjustments and one-time awards in connection with the impacts of the ongoing pandemic. In addition, although the CEO's pay declined year-over-year given that he did not receive any one-time awards or payouts, his total pay remained relatively high. Some shareholders may object to the company's continued comparing of pay to peers that reflect the company's pre-pandemic economic situation and not the current reality of severe negative impacts to the company's financial and operational performance as well as share price. The CEO's elevated pay level is not substantiated by long-term share price or financial performance.

Newcrest Mining Ltd.	NCM	Australia	10/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Sandeep Biswas	For	For	A vote FOR this resolution is warranted.* The grant is in line with market having a relevant mix of performance measures (including relative AISC, relative TSR and ROCE).** Vesting hurdles appear to be sufficiently rigorous, with the exception of the ROCE threshold. The three-year performance period is in line with market with a further one-year holding period.* There is no re-testing; and** The number of rights allocated is based on face value rather than a discounted fair value. Concerns for shareholders include the high quantum of the awards to the CEO relative to market median and the discretion afforded to the board to alter the final vesting outcome.
Newcrest Mining Ltd.	NCM	Australia	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given no material misalignment between pay and performance and shareholder outcomes is observed in the period under review. The STI and LTI plans have an appropriate mix and weighting to performance measures and STI and LTI outcomes are sufficient consistent with performance targets and results. However, the qualification exists due to ongoing concerns for shareholders that include:* The high quantum of the CEO's total remuneration.* The specific and quantified targets of the STI continue to be undisclosed.* Rigor and performance period of the LTI.* Awarding sign-on grants to incoming senior executives negates the intention of awarding such deferred incentives to achieve corporate objectives when prospective employers offer to either pay them out or offer a commencement bonus.
Newcrest Mining Ltd.	NCM	Australia	10/11/2021	Approve or Amend Severance Agreements/Change-in-Control Agreements	Approve Termination Benefits	For	For	A vote FOR this resolution is warranted because the potential termination benefits that may be paid are generally in accordance with the relevant employees' employment contracts or form part of the company's policies or incentive plan rules. The company has appropriate 'good leaver' provisions which are not considered to be extreme or out of sync with market practices. Shareholder concerns include the ability for the board to exercise its discretion to accelerate payment of a pro-rata incentive payment without appropriate achievement of performance conditions and the potential to adjust performance conditions.

Cloudfare, Inc.	NET	USA	2/06/2022	Approve Stock Option Plan Grants	Approve Stock Option Grants	Against	Against	The magnitude of the awards is excessively large at \$620 million in total. The performance goals appear rigorous given that they required 615.6 percent stock price appreciation as of the grant date for the full award to vest and now require 1,734.7 percent appreciation based on the most recent stock price, but they also can be achieved over a long period of 10 years. Additional concerns noted are the lack of an apparent clawback policy, no adjustments to the award size when the co-founders would transition to executive chair or another C-suite position, and there is no apparent commitment not to grant additional awards during the term of the performance awards. In light of these concerns, a vote AGAINST this proposal is warranted.

Despite several consecutive years of relatively low support for this proposal, the compensation committee has again failed to demonstrate meaningful responsiveness to shareholders' concerns. In addition, there are ongoing significant concerns regarding NEO pay structure. Pay almost entirely consists of base salaries and grants of fully-vested option awards, the specific allocation of which is at the individual's election, resulting in excessive base salaries for certain NEOs. Further, the lack of time- or performance-vesting incentives eliminates at-risk pay and diminishes the incentive value of compensation.

The STI plan has a mix of financial and non-financial measures and the LTI is based on relative TSR and EPS growth over a 4-year vesting period. STI and LTI outcomes are not inconsistent with the company's financial performance.Concerns for shareholders include the non-disclosure of specific and quantified targets in the STI plan preventing shareholders from objectively assessing the level of outperformance.

NIB Holdings Limited	NHF	Australia	4/11/2021	Approve Share Plan Grant	Approve Participation of Mark Fitzgibbon in the Long-Term Incentive Plan	For	For	A vote FOR the CEO's participation in the company's LTI plan is warranted. The grant of performance rights under the plan is consistent with market practice and prior year grants. The vesting period of four years is consistent with the move amongst larger companies for a performance period to be above the minimum of three years to better align with long-term shareholders, and the use of both relative TSR and absolute EPS as performance measures appear to align with shareholder interests.
NIB Holdings Limited	NHF	Australia	4/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted because:* The proposed amended constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present; and* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Nielsen Holdings Plc	NLSN	United Kingdom	17/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR the proposal is warranted, with caution. The annual bonus was based entirely on pre-set financial metrics with rigorous performance targets. The long-term incentive program utilizes a multi-year performance period and discloses forward-looking targets. Additionally, though the company granted one-time performance option grant, the value of the award was modest and requires significant share price appreciation in order to vest. Finally, closing-cycle performance equity vested below target, which aligns with recent company performance. However, there are concerns regarding the increase in the CEO's LTI grant value amid sustained negative TSR. The one-time performance option grant also utilizes only a 21 consecutive trading day stock price hurdle, which could reward executives for a short-term peak in performance. Continued close monitoring of equity award practices is warranted.

The remuneration practices of the company on balance are in line with local market standards. It is also noted that there were no cash bonuses paid to executives, which is in line with company performance during the year. The proposed amendment includes wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK]. NEOs received sizable one-time option awards in FY21 in addition to their regular annual LTI awards. While the options maintain performance vesting conditions, the magnitude of the grants is excessive, particularly for the CEO at approximately \$200 million. The CEO's regular incentive opportunities were also increased in FY21, further compounding pay magnitude concerns. In addition, while the annual and long-term incentives are primarily performance-based for FY21, certain concerns remain regarding the lack of disclosure of performance metric achievement and the continued over-reliance on a single performance measurement period for both programs. Further, while the company provided disclosure about the rationale, the continued use of primarily one-year performance periods under the LTI program is concerning, particularly as shareholders have expressed a desire for long-term performance metrics under the program and a new three-year relative TSR metric only applies to a fraction of the annual LTI awards.

National Storage REIT	NSR	Australia	27/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. Although the following concerns are noted below, pay and performance and shareholder outcomes appear reasonably aligned at this time: "The insufficient disclosure in the STI plan;" The absence of a positive TSR requirement for the relative TSR measure and the use of cliff vesting for the EPS measure in LTI; STI and LTI maximum opportunities increased to \$1.1 million each in aggregate for all KMP in FY21 from \$750,000 in FY20. These opportunities will be further increased in FY22 to \$1.6 million; and" The quantum of the managing director's total pay is more than twice the CEO pay at companies of similar industry and size, mainly driven by the increase in STI and LTI opportunities. This may result in a pay-for-performance misalignment in the future.

Northern Star Resources Limited	NST	Australia	18/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the FY21 remuneration report is warranted." The quantitative pay for performance analysis indicates a low degree of concern." A new CEO fixed, and variable remuneration amounts have been adjusted to better align with market." In FY21, STI bonuses are not materially misaligned with performance and shareholder interests, and there were no prior year LTI grant which were capable of vesting.The qualification is based on concerns including," the high level of remuneration paid in FY21 to the CEO and leadership group, including retention payments, and there are significant fixed remuneration increases (including for the Chairman and Non-Executive Directors) going forward into FY22." The FY21 LTI grants were above market median and operational performance measures were incorporated for a substantial portion of the LTI which were poorly disclosed, overlap with similar measures in the STI and are regarded as operational "day job" duties raising questions why a separate bonus opportunity is offered.
Northern Star Resources Limited	NST	Australia	18/11/2021	Elect Director	Elect Sharon Warburton as Director	For	For	A vote FOR the election of all nominees (except for the nomination of John Fitzgerald) is warranted as no material corporate governance issues have been identified.A qualified vote for the election of John Fitzgerald in warranted given that he has substantial board commitment where he is chairman of two entities and a non-executive director of two entities. It is recognized in this recommendation that several of these companies are small, non-operational entities outside the ASX300 index. Nevertheless, a reduction in this director's commitments is expected by some shareholders.
Northern Star Resources Limited	NST	Australia	18/11/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST this resolution to spill the Board is warranted.The company has now merged with ASX-listed Saracen Minerals and there have been several changes to the Board structure, including appointment of a new independent Chairman and merger of the two boards. Additionally, a number of changes have been implemented to the quantum, structure and performance measures in the STI and LTI awards, including a focus on company-wide metrics and a longer term LTI performance period.These steps to be implemented in FY22 will bring the company's remuneration practices more in line with market standards and shareholder expectations.
Northern Star Resources Limited	NST	Australia	18/11/2021	Approve Share Plan Grant	Approve Issuance of 329,776 LTI-1 Performance Rights to Stuart Tonkin	For	For	A qualified vote FOR the annual LTI grant (Item 3) is warranted." The quantum of the award has been reduced to 200 percent of fixed remuneration (from 300 percent to the former Executive Chairman) to better aligned with market" The performance period has now been extended to a four-year performance period." The performance measures have also been modified to include a higher weighting to relative TSR with a positive gateway to require a positive return to shareholders for 50 percent of this component, and operational targets duplicated in the STI have been removed.A vote AGAINST the one-off grant of LTI performance rights (Item 4) is warranted. This grant represents an excessive additional LTI grant and does not align with better market practices of splitting an LTI grant into two tranches when a performance period is extended – in this case, from a three-year performance period to four years.Concerns identified in Item 3 and Item 4 include the new ESG measures, the cliff vesting associated with these measures, and provision of a dividend equalization payment. Of greater concerns is the excessive allocation of 30 percent of each LTI grant to the ESG measures. Whilst this is a positive move, many ASX-listed entities are already progressing on such initiatives as part of the required "day job" duties and significant bonuses are not offered. Concerns are exacerbated, given that the STI bonus also appears to include certain ESG measures for 30 percent of that bonus opportunity. In this case, the 30 percent FY22 LTI grant opportunity to the CEO equates to a potential bonus of \$1,020,000, plus an additional \$765,000 for the one-off LTI grant, both of which are excessive and inconsistent with market and shareholder interests.A qualified vote FOR the STI grant of performance rights (Item 5) is warranted. The quantum of the award and the revised performance measures are aligned with market and shareholder expectations.Concerns are noted that this is an "in-advance" grant of the maximum STI rights which would be granted upon determination of the FY22 STI bonus. This practice is inconsistent with market.

Nitro Software Limited	NTO	Australia	26/05/2022	Ratify Past Issuance of Shares	Ratify Past Issuance of Placement Shares to Certain Institutional Investors	For	For	A qualified vote FOR this resolution is warranted because: * The company provided a compelling rationale for the Placement, with the proceeds to be used to fund the Acquisition. The success of this undertaking may potentially be value accretive to the company and shareholders. * Existing eligible shareholders were given the opportunity to participate in the capital raising via the Entitlement Offer. This somewhat mitigates the dilutive impact of the institutional placement. * The discount associated with the issue price is not excessive. Nevertheless, shareholders may be concerned with the substantial dilutive impact of the Placement (i.e., 11.70 percent as at Nov. 18, 2021).

Nufarm Limited	NUF	Australia	17/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the approval of the remuneration report is warranted. No material disconnect between pay and performance and shareholder outcomes has been observed in the period under review. * The company's financial performance improved over the prior year, and higher STI bonuses appear to reflect the improved financial performance. * There were no increases in fixed remuneration fees for non-executive directors. * There was nil vesting of the FY19 LTI grant given that performance hurdles were not met and aligned with the negative shareholder returns over the period. The recommendation is qualified to highlight the following concerns with respect to remuneration structure and practices: * Disclosure is poor given the absence of disclosure of specific and quantified targets in the STI and specific ROFE targets in the LTI; * No 'positive TSR' gateway for the relative TSR measure in the LTI plan to ensure alignment of bonuses with positive shareholder returns; and * The company's failure to submit a LTI resolution for the grant of performance shares to the CEO at theAGM.

NOVONIX Limited	NVX	Australia	24/09/2021	Ratify Past Issuance of Shares	Ratify Past Issuance of Placement Shares to Sophisticated and Institutional Investors	For	For	A qualified vote FOR this resolution is warranted because: " Proceeds were used to fund the expansion capex and working capital to scale NOVONIX Anode Materials production which included new manufacturing site expansion along with infrastructure and equipment being commissioned, as well as working capital associated with increased production levels. In addition, net proceeds will fund a Research and Development (R&D) program for NOVONIX Cathode Materials, and also support the company's global growth initiatives including organic expansion, partnerships and licensing. The success of these undertakings will potentially be value accretive to the company and the shareholders." The company's financial position is also considered. The independent auditor's report for the financial year ended June 30, 2021 highlights conditions (net loss of \$18.08 million and net operating cash outflows of \$8.17 million) which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern. As disclosed in the financial statements, the ability of the company to continue as a going concern is principally dependent upon the ability to successfully raise capital and the successful and profitable growth of the battery materials and battery technology businesses. Qualified support is based on the substantial dilutive impact of the Placement (i.e., 11.29 percent as of March 2, 2021).

NOVONIX Limited	NVX	Australia	24/09/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the adoption of the remuneration report is warranted on the basis that there is reasonable alignment between executive remuneration and shareholder outcomes. STI bonuses appear to reasonably align with company performance, which was fair, and results of the business and shareholder performance in FY21. However, going down into the specifics, concerns may be evident in the following: " Unsubstantiated significant increases in the executives' fixed remuneration;" The lack of disclosure of quantified STI performance measures (at threshold, target, and maximum), which hinders shareholders' abilities to assess performance alignment and goal rigor setting; and " Unacceptable vesting period and absence of performance hurdles attached to the LTIs.

NOVONIX Limited	NVX	Australia	30/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Non-Executive Directors' Fee Pool	For	For	A qualified vote FOR this resolution is warranted because: " The company has provided sound rationale for the proposed fee cap increase, specifically considering the company's activities to being an industry leader in the battery development and material technology industry." The proposed NED fee cap will remunerate NEDs proactively in light of the increased responsibilities given the company has expanded its scale and scope of operations." NatWest Group Plc	NWG	United Kingdom	28/04/2022	Approve Remuneration Policy	Approve Remuneration Policy	For	For	A vote FOR this item is considered warranted, although it is not without concern for shareholders: " The proposed remuneration arrangements will facilitate a significant increase in total pay opportunity available to the Executive team. " In contravention to accepted market practice, the Company has not applied a minimum 50% discount to the original LTI's opportunity when determining the RSP level. " De-risked long-term incentives up to 150% of salary are made possible under the RSP and may be regarded as an increase to fixed pay. " The total award opportunity delivered in shares and subject to deferral, is lower than under the existing policy. " Proportion of at-risk award under the policy is lower than the existing policy. " The RSP's use of a pre-grant performance assessment and a pre-vest test may be considered overly complex. The main reasons for support are: " The Company's executive remuneration package is positioned at the lower end relative to UK sector peers. The revised remuneration package remains less than that available to Executives before the introduction of CRD IV in 2014. " Bonus and RSP targets and underpins are aligned with the Company's ESG performances and targets set are in line with the Company's strategy. " Pre-grant assessment and the pre-vest tests utilised by the RSP are simpler than those operated under the existing LTI-only variable pay structure. " The Company's rationale in support of the revised remuneration arrangements provided is considered compelling. " The proposed remuneration arrangements seek to acknowledge the Company's atypical situation, including its ownership structure, which has contributed to the Company maintaining the 1:1 fixed:variable pay ratio, rather than adopting a 2:1 ratio which is utilised by many other UK banks, as permitted under CRD IV, if shareholder approval is acquired.

NatWest Group Plc	NWG	United Kingdom	28/04/2022	Approve/Amend Conversion of Securities	Authorise Issue of Equity without Pre-emptive Rights in Connection with Equity Convertible Notes	For	For	A vote FOR these resolutions is warranted, although this is not without concern for shareholders: " If the Company were to issue Equity Convertible Notes and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: " Such authorities are common proposals at UK banks and are intended to apply in extreme circumstances only; and " The conversion into ordinary shares would require the CET1 ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.

NRW Holdings Limited	NWH	Australia	25/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. After a review of the company's remuneration framework and practices, pay is reasonably aligned with performance for the period under review. The board has taken steps to respond to the "first strike" at the 2020 AGM and improved disclosure, particularly in the STI plan, and disclosed additional actions meant to further address shareholder concerns. The qualification is to highlight concerns regarding the granting of an additional one-off LTI award to the CEO for the successful completion of the Primero acquisition. One-off equity awards are inconsistent with Australian market practice, particularly for successfully completing transactions that would normally be ascribed as the CEO executing the strategic vision and in doing so, the CEO's "day job" responsibilities. In this case, however, the quantum of the additional award is not considered excessive.
NRW Holdings Limited	NWH	Australia	25/11/2021	Approve Share Plan Grant	Approve Grant of FY21 Performance Rights to Julian Pemberton under the NRW Holdings Limited Performance Rights Plan	For	For	A qualified vote FOR the grant of FY21 and FY22 performance rights to CEO is warranted. NRW Holdings Limited	NWH	Australia	25/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	Against	Against	A vote AGAINST this resolution is warranted. While the board argues an increase in the NED fee cap will provide more flexibility for possible board expansion and succession planning, the proposed increase is excessive, and it is two times the current NED fee cap. The current NED fee cap provides for sufficient headroom for board expansion and refreshment, and the board has not provided a complete case for the high quantum of the increase, but rather suggesting that the board may increase the board size "in the future".
NRW Holdings Limited	NWH	Australia	25/11/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST the spill resolution is warranted at this time. The company and board have taken steps to address shareholder concerns regarding remuneration practices. In particular, disclosure and framework of the STI plan have improved, and modest adjustments under the LTI plan were made to enhance the alignment with shareholders and the CEO. The source of concern also appears to be the large one-off LTI granted in FY20, and reflected as such at the 2020 AGM. However, shareholders may have regard for continued scrutiny of the company's remuneration practices and any subsequent one-off LTI grants going forward.
Netwealth Group Limited	NWL	Australia	27/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted as there is no material disconnect between pay and performance and shareholder interests. Some key factors are as follows: " Fixed remuneration is not excessive, consistent with peers, and there was no increase from the prior year; " STIs are not excessive or misaligned with performance, however, disclosure continues to be poor and inferior to market standards; and " No LTI grant in FY21.
Netwealth Group Limited	NWL	Australia	27/10/2021	Approve Share Plan Grant	Approve Grant of Options and Performance Rights to Matthew Heine	For	For	A vote FOR this item is warranted on the basis that the awards largely adhere to acceptable market practice and shareholder interests, with a three-year performance period and relative TSR and EPS CAGR performance measures. Concern is raised that a portion of the award is linked to non-financial measures.
Netwealth Group Limited	NWL	Australia	27/10/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A vote FOR this resolution is warranted because there is insufficient headroom in the non-executive director fee pool to appoint another director which may be needed for board refreshment purposes.

Nuix Ltd.	NXL	Australia	30/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	On balance a qualified vote FOR the remuneration report is warranted.* The company's remuneration structure is in line with market having fixed and variable remuneration, STI awards based on achieving financial metrics and LTI awards in the form of options with a three-year performance period.* The CEO's remuneration appears to be in line with market median and the Board exercised discretion to reduce STI bonuses for the post-IPO period is aligned with weak performance and shareholder interests. The qualification is to highlight concerns for the following: "Significant sign-on award granted to the incoming CEO of \$2.0 million is excessive and is subject to time and service-based conditions." The STI and LTI awards have common revenue and EBITDA performance measures that are not disclosed, however, such duplications may result in executives receiving duplicated bonuses over the short term and longer term for achieving the same underlying performance." The treatment of pre-IPO grants of options to non-executive directors and KMP executives appears to be excessively generous in light of poor FY21 results and declining share price since IPO.* The is no minimum shareholding requirement for Directors and KMPs.

CEO pay and company performance are reasonably aligned during the year in review and the majority of CEO pay is conditioned on objective financial performance metrics. Nevertheless, shareholders should continue to closely monitor the company's compensation practices, as the company's say-on-pay has received relatively low support for two consecutive years.
NextDC Ltd.	NXT	Australia	19/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. Bonus outcomes are generous and somewhat excessive; however, pay and performance and shareholder outcomes are not considered to be materially misaligned over the current year and longer-term performance periods. The qualification is to highlight concerns that "The CEO's total remuneration now 2.3 times the median of industry peers, being objectively excessive, and" While fixed remuneration remained unchanged in FY21, the STI opportunity increased to 100 percent of fixed remuneration (from 75 percent in FY20), and the LTI opportunity has increased in the FY22 grant to 150 percent of fixed remuneration (from 100 percent in the FY21 grant) as the company undertakes a transition to a three year and four year performance period in the LTI.

NextDC Ltd.	NXT	Australia	19/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Craig Scroggie	For	For	A vote FOR the grant of performance right to CEO Craig Scroggie is warranted.* The grant of rights is structured in line with current market standards and aligned with improved shareholder outcomes, and* There is a single relative TSR performance measure, however, the absolute positive TSR requirement over the measurement period, ensures superior alignment with shareholder interests. The primary concern in this grant, as in prior years, is that the company offers "dividends on unvested shares" to be paid at the end of the performance period. Specifically, a dividend equivalent payment will be made on rights that vest, representing an inconsistency with good governance over remuneration practices in the Australian market. There is no assertion of any present entitlement to shares during the performance period for any look-back to compensate for dividends to be justified.

Omni Bridgeway Limited	OBL	Australia	30/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. There were no STI bonuses paid during the year. Two of the executive directors elected to receive 100 percent of their variable remuneration as an LTI which is well aligned with long term shareholder interests. The CEO's FY21 STI is significantly higher than the median of ASX 226-250 and ISS-selected peers. In mitigating this concern, the performance conditions attached, which include relative TSR hurdles with a positive TSR gate and growth of funds deployed, appear consistent with shareholder interests. Qualification is based on the following: " A medium concern for compensation has been identified given that the managing director/CEO's total pay is 2.5 times the CEO pay at companies of similar size and industry; and" The managing director/CEO received a 16.4-percent increase to his fixed remuneration which is substantial and puts his fixed remuneration at 2.2x the median of the ASX 226-250 peer group and 3.2x the median of the Sustainability Advisory Services-selected peer group.

Omni Bridgeway Limited	OBL	Australia	30/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution Re: Virtual Meetings	Against	Against	A vote AGAINST this resolution is warranted. * The proposed amendments to the constitution include wording that explicitly states that the company may conduct meetings by using virtual-only means. * While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. * It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present. * Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.
Omni Bridgeway Limited	OBL	Australia	30/11/2021	Amend Restricted Stock Plan	Approve the Amendments of the Long Term Incentive Plan	For	For	A vote FOR this resolution is warranted. The LTI plan remains in line with market practice and the proposed amendments to the plan (definition of roles, LTI award value and introduction of malus and clawback provisions) are not considered problematic. The introduction of malus and clawback provisions in particular brings the company in line with better market practice.

The success of this undertaking will potentially be value accretive to the company and the securityholders in the long run." The company's financial position is also considered. The independent auditor's report for the half-year ended June 30, 2021 indicates that a material uncertainty exists which may cast significant doubt about the group's ability to continue as a going concern. As disclosed, the group is expected to continue to have negative cashflows from its operating activities. Funds raised from the Placement assisted the company in meeting its short-term capital requirements.* Based on its estimated cash flow for the quarter ending Sept. 30, 2021, the company does not have sufficient funds available. Funds raised from the placement will therefore assist the company in meeting its short-term capital requirements.* Existing securityholders were given the opportunity to participate in the capital raising via the SPP, which somehow mitigates the dilutive impact of the institutional placement. Qualified support is based on the substantial overall dilutive impact of the Placement (i.e., 17.09 percent as at Nov. 21, 2021), the significant discount of the issue price of the CUFs, and that the Tranche 2 Placement was made to one investor, being Fidelity Investment Management (Hong Kong) Ltd.

Orora Limited	ORA	Australia	21/10/2021	Approve Share Plan Grant	Approve Grant of Deferred Share Rights to Brian Lowe	For	For	A vote FOR the issuance of rights to the CEO is warranted.* The deferred share rights (Item 3a) represent deferral into equity of a portion of the STI and sufficiently aligned with shareholder interests.* The LTI grant (Item 3b) is consistent with shareholder interests and good market practice, including clear disclosure of performance metrics (relative TSR and EPS growth of 4-8 percent) and gateway hurdles. The quantum of 70 percent of the CEO's fixed remuneration is consistent with peers.However, concerns are noted that the approval of the deferred rights represents an advance approval of rights which would be issues as part of the FY22 STI bonus, where the fiscal year has not been completed and performance is not known. Concerns are exacerbated given that performance hurdles are not disclosure for the performance measures being used, which would typically be necessary to fully inform shareholders of the extent of rigor performance targets. Orora Limited	ORA	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted. No material misalignment between pay and performance and shareholder interests is observed. STI bonuses were achieved at maximum to reflect the achievement of performance targets and there was no LTI vesting given that EPS and relative TSR performance hurdles were not achieved. A qualified vote FOR the grant of FY22 LTI performance rights to the CEO (Item 9) is warranted. Origin Energy Limited	ORG	Australia	20/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the Remuneration Report is warranted.* STI bonuses have been substantially reduced in line with weaker reported operating results.* There has been partial vesting of the FY17 LTI grant for the first time in nine years, based on achievement of a ROCE target, the terms of which were previously approved by shareholders.* STI and LTI disclosure is clear and concise to allow shareholders the ability to independently assess the rigor of targeted performance in line with their expectations, which is used by the company to justify bonus outcomes in the context of declining year on year performance targets.Concerns regarding the remuneration structure and the extent of downward discretion which should have been applied by the board supports qualification for potential misalignment with market and shareholder interests.* The decline in market capitalization of Origin Energy over recent years, now places fixed remuneration for the CEO and Chairman well above market median for similar sized companies* FY21 STI award outcomes, despite being reduced for the CEO by 25 percent pursuant to board discretion, are at a high level compared to the weaker and declining year-on-year performance of the company, and based on lower targets for key STI financial performance measures.* The company uses underlying financial performance measures in assessing STI bonuses, which raises concerns for shareholders that executive bonuses are not fully linked to shareholder outcomes.* The FY21 LTI grant has a lower opportunity, however this has been exchanged for more certainty of vesting given that 50 percent of the LTI award is now subject to time-based vesting and a board assessment of performance against non-financial objectives.

The company has appropriate 'good leaver' provisions which are not considered to be extreme or out of sync with market practices.Shareholder concerns include the ability for the board to exercise discretion to accelerate payment of a pro-rata incentive payment without appropriate achievement of performance conditions and the potential to adjust performance conditions. The board's use of its discretion in executive termination benefits in FY21 demonstrates no inappropriate upward discretion.

Palo Alto Networks, Inc.	PANW	USA	14/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Following last year's failed say-on-pay vote result, the compensation committee increased its engagement efforts with shareholders and made several improvements in response to shareholders' concerns. Notably, FY21 and FY22 equity awards are 100 percent performance based, while the company improved disclosure of its target STI goals. In addition, for FY22, the company eliminated duplicate performance metrics in the STI and LTI programs, adopted a multi-year LTI performance period, and decreased each NEO's equity award values for FY21 and more so for FY22, in light of investor feedback in recent years. Based on the enhanced degree of shareholder outreach, disclosure of feedback, and responsive actions, the compensation committee has demonstrated adequate responsiveness. Some concerns are raised regarding duplicate metrics in the STI and LTI program, in addition to the magnitude of the CEO's equity awards, although these concerns are being addressed by the board in compensation design and size going forward. There is also concern raised by the relatively high security costs, which significantly exceeds the security costs of most CEOs in the Russell 3000 Index. On balance, cautious support for the say on pay proposal is warranted, given significant improvements to the pay program in FY22. Close continued monitoring of pay program changes and CEO pay levels is warranted.

Annual incentives were linked primarily to financial goals, however, there are concerns regarding significant COVID-19 related modifications to incentive awards. The modifications to closing-cycle LTI awards increased the payouts significantly, and the compensation committee also chose to award only time-based equity for FY21 due to the committee's difficulty in setting performance goals as a result of the pandemic. A shift from performance-based to entirely time-based equity awards and changes to closing-cycle awards are viewed as a problematic response to COVID-19 related market disruption by many investors.

PointsBet Holdings Limited	PBH	Australia	5/10/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Non-Executive Directors' Fee Cap	For	For	A qualified vote FOR this resolution is warranted. The headroom in the existing cap, based on FY21 remuneration, will be insufficient to accommodate another director as part of board refreshment. This recommendation is qualified to highlight the significant 100 percent increase in the fee cap which is proposed.
PointsBet Holdings Limited	PBH	Australia	5/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. No material misalignment has been identified in pay, performance, and shareholder outcomes for the period under review. The recommendation is qualified however to highlight the following concerns: " An absence of sufficient disclosure of any quantified and specific performance hurdles for the financial and non-financial performance measures (at threshold, target and maximum) which would inform shareholders of targets, justification of bonuses and alignment with shareholder expectations." " An absence of sufficient disclosure of any quantified and specific performance hurdles in the LTI plan, and accompanied by a short performance period of one year, and short vesting period of two years for 50 percent of the grant, which does not meet the minimum accepted standard expected by investors in the Australian market of three years.
PointsBet Holdings Limited	PBH	Australia	5/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted: " The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means." " While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders." It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present." " Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Pendal Group Limited	PDL	Australia	10/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. Although the quantitative pay-for-performance screen indicates a medium degree of misalignment between remuneration and performance, there are a number of mitigating factors in the present year which warrant support: The new CEO's fixed remuneration is lower than prior CEO and market peers, with a higher weighting to variable remuneration being consistent with the investment management industry. The prior CEO and new CEO received substantial bonuses which reflect the improved financial performance and shareholder outcomes in FY21. The FY18 LTI lapsed in full as performance condition were not met, which aligns with the weaker longer term shareholder returns. Nevertheless, persisting concerns remain for the poor and absent disclosure of any specific or quantified STI targets, the availability of dividends on unvested shares in the LTI.

Petroleo Brasileiro SA	PETRA	Brazil	27/08/2021	Elect Directors (Bundled)	Elect Directors	For	For	ISS recommends a vote against the proposed management slate to allow shareholders to cumulate their votes on the election of independent nominees presented under the cumulative voting items. However, voting execution requirements established by third parties mandate a vote FOR this slate election for votes to be processed automatically under a potential cumulative voting scenario. As such, a contentious vote FOR is recommended for this item. In the event the election is carried out under cumulative voting, which requires the support of 5 percent of the company's shares up to 48 hours prior to the shareholder meeting, the voting instructions for this bundled election will be disregarded by the company and the votes to be counted will be the ones submitted under the cumulative election.

A vote FOR the remuneration report is warranted given that no material disconnect between pay and performance and shareholder outcomes has been identified at this time. However, STI disclosure is remains poor and incomplete given that thresholds, targets, and maximum goals are not provided to shareholders to independently assess performance against targets and their expectations. The CEO received a \$1.15 million STI bonus for FY21 which is consistent with the improvement in EBIT, being the company's primary performance measures, however, this is excessive and well above market cap peers. There was nil LTI vesting which is well aligned with the negative TSR over the performance period, however, concerns are that there is no positive TSR gateway for the single relative TSR performance measure.

Koninklijke Philips NV	PHIA	Netherlands	10/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST is warranted. Although the remuneration report disclosure is in line with market practice, significant concerns are raised with respect to the adjustment of the STI and LTI outcomes, especially in light of the product recall (see company update section). The board decided – for remuneration purposes only, not accounting - to partially recognize unrealized revenues (STI) and profit (LTI) because of the supply chain challenges that would have otherwise been realized. The actual performance on comparable sales growth was below threshold whereas the adjustment ensures there is partial payout, and hence is a significant decision to adjust. Concerns are raised with respect to the absence of a compelling rationale for the need to adjust the outcome. Philips' performance is heavily impacted by the product recall, including on share price performance, which further raises the question whether it is fully appropriate to adjust outcomes, particularly because in the absence of the recall the STI and LTI would pay out. Additional concerns are raised with the limited background on the recognition of the EUR 498 million in revenues and how this translates into target setting for next year..

However, it is also recognized that no specific member of the company's management board thus far has been found guilty of misconduct or negligence nor are the FDA observations a final determination. Moreover, it appears that the Philips management board has responded since it became aware of potential issues in Q1 2021. Lastly, Philips has undertaken remedial actions and is performing further investigations into its products. A vote FOR the discharge of the supervisory board is considered warranted. Although we raise significant concerns in connection with the product recall, there is no information about significant and compelling controversies that the board is not fulfilling its fiduciary duties.

Prologis, Inc.	PLD	USA	4/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Following last year's low say-on-pay vote result, the compensation committee engaged with shareholders, disclosed specific feedback received, and implemented positive pay program changes and disclosure improvements. Accordingly, the committee has demonstrated adequate responsiveness. There continue to be some concerns regarding the complex nature of the company's multiple equity incentive programs, particularly with respect to the PPP program, and the rigor of LTI goals. However, these concerns have not resulted in a quantitative pay-for-performance misalignment for the year in review. In addition, the annual LTI and outperformance programs are entirely performance-based, and the value of the CEO's PPP awards decreased significantly year-over-year. Further, the committee increased the rigor of the annual LTI goals for future award cycles and eliminated the committee's ability to provide discretionary payouts when threshold goals are not achieved. Lastly, the annual program for all NEOs is now predominantly based on pre-set, quantified goals with all targets clear disclosed, following an increase in the weighting of the corporate performance component for non-CEO NEOs and disclosure enhancements made in response to shareholder feedback. On balance of these factors, a vote FOR this proposal is warranted, with caution. Close continued monitoring of grant practices and pay outcomes under the long-term and outperformance programs is warranted given the concerns identified above.

Pilbara Minerals Limited	PLS	Australia	29/09/2021	Adopt New Articles of Association/Charter	Adopt New Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until 31 March 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The headroom in the existing cap, based on FY21 remuneration, will be insufficient to accommodate another director, which may be necessary as part of board refreshment. Pilbara Minerals Limited	PLS	Australia	29/09/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. There is no material misalignment between pay and performance and shareholder outcomes for the period under review. However, the following concerns are raised: STIs are mainly based on non-financial and operational metrics, although disclosure has improved;* The company deferred setting specific STI targets until the start of second half of FY21, which may raise concerns on the rigor of the targets; The LTI in the form of performance rights is linked solely to strategic targets; and* With respect to the vesting of FY19 LTI subject to strategic objective related to participation in a downstream processing opportunity, the board deferred its determination for the vesting of this target until November 2021.

In addition, the value of the CEO's long-term incentive award increased substantially from the previous year and was greater than 2.5 times the median total pay for CEOs in the company-defined peer group. This is of particular concern given that a significant majority of the equity awards remained time-vesting.

Pro Medicus Limited	PME	Australia	23/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted. The remuneration of the company's co-founder, managing director and CEO is not deemed excessive as it is solely composed of a fixed pay component, which is not excessive. In addition, the STI and LTI framework for the other executives appears sufficiently aligned with shareholder interests, with some level of disclosure of performance metrics, weightings, targets, and achievement levels. Furthermore, the LTI is subject to a four-year vesting period and STI and LTI outcomes appear sufficiently aligned with company performance and shareholder returns.

Premier Investments Limited	PMV	Australia	2/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted despite the company achieving compound EBIT growth of over 18 percent p.a. over 10 years and TSR of 14.7 percent over five years being aligned with shareholders' interests, because the former CEO's remuneration and termination arrangements are considered to be excessive. In response to the negative vote against adoption of the FY20 remuneration report the company has amended the disclosure of annual STI awards to correspond with the year the award was earned. The new CEO's fixed remuneration and annual STI award have been set at lower levels than the previous CEO to more closely approach market cap and other relevant peers. Other concerns that warrant the qualification of this recommendation include: " The former CEO's remuneration has been excessive compared to similar size and peer companies; " The former CEO's restraint payments are excessive, and he remains eligible to participate in the FY22 STI award until the end of his notice period in January 2022 despite being on gardening leave for most of that period; " STI targets based on achieving 5 to 10 percent EBIT growth appear to be less than challenging in light of the past 10 years compound EBIT growth of 18.1 percent p.a., and" The LTI comparator group lacks comparable retail companies.

Premier Investments Limited	PMV	Australia	2/12/2021	Approve Restricted Stock Plan	Approve Performance Rights Plan	For	For	A vote FOR the Performance Rights Plan is warranted given the structure is broadly consistent with shareholder expectations and the broader framework of the plan is in line with market practice. However, shareholders may be concerned that sign-on and retention awards granted are subject to time-based tenure conditions over short periods.
Premier Investments Limited	PMV	Australia	2/12/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Richard Murray	Against	Against	A vote AGAINST this proposal is warranted due to the excessive quantum of both the sign-on retention award and the LTI award. The quantum of the sign-on retention award is almost three times the CEO's fixed remuneration, which itself is well above market median. This award is subject to ongoing tenure over one to four years. The quantum of each tranche of the LTI award is also high at three times the median of a selected peer group. While the vesting period and TSR performance requirements are sufficiently aligned with shareholder interests and expectations, however, the up-front structure of several years' grants is inconsistent with market practice and vesting may result in excessive amounts in longer dated tranches for achieving the same outcome as earlier tranches.
Premier Investments Limited	PMV	Australia	2/12/2021	Approve the Spill Resolution	Approve the Spill Resolution	Against	Against	A qualified vote AGAINST this conditional spill resolution is warranted. It is recognized that the company has performed well in a difficult COVID-impacted market and progress has been made to address shareholder concerns regarding improved disclosure to meet shareholder expectations and reduced CEO remuneration to bring it closer in line with peers. However, several concerns remain that may cause some shareholders to support the spill resolution including the non-independence of the Board and the Remuneration and Nomination Committee and remaining inconsistencies with CEO remuneration including the excessive nature of the sign-on retention grant and the up-front LTI grant of rights of the four future annual LTI grants to the new CEO.

Pinnacle Investment Management Group Limited	PNI	Australia	26/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted given the low level of concern between pay and performance and shareholder outcomes for the year under review. The CEO's fixed pay remained unchanged from the prior year and is not considered excessive relative to Australian-listed peers. Furthermore the STI bonus payment at 100 percent of maximum is not inconsistent with company performance while the LTI awards granted to the new executive KMP are performance-based and not subject to cliff vesting. However, the qualification primarily exists due to the following concerns: " The specific and quantified targets linked to the STI plan are not disclosed. The weighting of each KPI is not disclosed. There also continues to be no disclosure on clawback and the treatment of awards upon cessation of employment. The lack of such overall disclosure makes it difficult for shareholder to determine whether the plan's terms are appropriate and the targets are sufficiently stretching ." STI bonuses are paid in the form of cash only which is inconsistent with better market practice for similar sized companies where deferral arrangements are in place for approximately 50 percent of the total STI bonus. " There is no disclosure of the LTI award levels for the KMP, which appears to be discretionary and uncapped.

Praemium Limited	PPS	Australia	17/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the adoption of the company's remuneration report is warranted. The company's remuneration structure is in line with market, and pay is reasonably aligned with performance for the year under review. Nevertheless, shareholders may be concerned with: "Excessive termination payments to former CEO and Managing Director Michael Charnesian;" Unacceptable vesting and short performance period of LTIs; and "Ongoing lack of disclosure of specific and quantified STI and LTI targets, which hinders shareholders' abilities to assess performance alignment and goal rigor setting. Shareholders may seek to express their concerns and require improved disclosure.

Perpetual Limited	PPT	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. The remuneration structure is unchanged from the combined incentive structure seen in the prior period and bonus outcomes are not excessive and sufficiently aligned with the revenue and profit in FY21. A reduction in fixed pay and base director fees for the first six months of FY21 was applied to the CEO, KMP, Chairman and Directors. Concerns with the company's remuneration practices include: "The combined variable plan focuses executive bonuses on current year performance, which results in a determination of the combined award representing a split between cash, share rights and performance rights, although the performance rights component is now subject to meeting absolute TSR hurdles for vesting which aligns better with the long term performance." Net promoter scores, employee engagement and HR performance measures do not merit bonus payments to executives as these are part of the "day job" responsibilities." No board discretion was applied to reduce the vesting of share rights granted in FY18 which were hurdled at the time, given weak financial results in prior years. The company explains that the value on vesting was reduced given the company's lower share price over the two-year vesting period and that the award is subject to an additional two-year restriction period, and "Non-executive director fees in FY22 will include an overseas travel allowance for time long-haul flights which represent a concern for poor corporate governance given this is the time directors spend travelling to fulfill their directors duties for which they are handsomely remunerated.

Perpetual Limited	PPT	Australia	21/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Rob Adams	For	For	A vote FOR this resolution is warranted.* The grant of share rights and performance rights represents the board's assessment of the bonus to the CEO in respect of performance under the company's balanced scorecard for FY21.* The performance rights are aligned with long term shareholder interests being performance tested after a 3-year performance period and subject to 7-10 percent cumulative annual growth in absolute TSR.* The share rights are equivalent to a deferred STI bonus and not considered to be problematic.
Perpetual Limited	PPT	Australia	21/10/2021	Renew Partial Takeover Provision	Approve Renewal of the Proportional Takeover Provisions	For	For	A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. This is superior to any potential disadvantages that may arise from such a constitutional inclusion.
Perenti Global Limited	PRN	Australia	8/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted.* The trajectory of executive remuneration is inconsistent with the company's recent performance and shareholder returns which are underperforming market cap and GICS peers.* There have been substantial increases in the managing director's fixed remuneration for two consecutive years bringing fixed pay to be well above the median of market cap and certain industry peers.* STI bonuses are inconsistent with reported results and shareholder returns. The company justified the significant fixed remuneration increases after having regard to the size, geographic reach (over 50 percent of the company's revenue comes from international sources) and the increased complexity of Perenti, and the need to keep the managing director's remuneration competitive for retention purposes.

Perseus Mining Limited	PRU	Australia	25/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted because no material disconnect between pay-for-performance has been identified during the year. The company's financial performance improved over prior year, fixed remuneration is in line with market peers, with STI bonus not considered to be misaligned or excessive, LTI granted in FY21 have a minimum market standard of three-year performance period and is subject to relative TSR goals. Nevertheless, the insufficient disclosure on STI performance hurdle, and the lack of positive TSR gateway for the LTI hurdle remain concerning.

Perseus Mining Limited	PRU	Australia	25/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Jeffrey Quartermaine	For	For	A qualified vote FOR this proposal is warranted. The grant of STI rights represents the deferral of 40 percent of the FY21 STI as determined under the STI performance metrics which is generally consistent with market practice. LTI grant largely conforms to market standards and the performance measurement period is three years, which is consistent with minimum market practice. However, concerns are raised regarding the potential for payouts during periods of negative shareholder outcome, the change of control provisions that allow for accelerated vesting and the 'false choice' that the LTI will be settled in cash if the rights are not approved.
Perseus Mining Limited	PRU	Australia	25/11/2021	Adopt New Articles of Association/Charter	Adopt New Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments may allow this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Item 8 A vote FOR the re-election of Tope Lawani is warranted, although it is not without concern because: " Apart from his role as NED of the Company, he also serves in various roles at other publicly listed companies, which could compromise his ability to commit sufficient time to his role in the Company. Mitigating, the main reason for support is: " The other companies where he serves as director are closely connected to each other; and " PSH is an investment company; as such, a degree of flexibility is considered appropriate. This will be kept under review.

" The incoming CFO will be entitled to a maximum bonus opportunity of 175% of salary (normal Policy maximum of 150% of salary). The main reasons for support are: " The former CFO's salary should be viewed in the context of a significant shareholding in the Company. The incoming CFO's fixed pay has been set lower than at his previous employer. " Pay outcomes and performance for the year under review appear broadly aligned. " The total variable remuneration awarded to the incoming CFO falls within the limit under the approved Recruitment Policy of 450% of salary. In response to a low say-on-pay vote result, the company engaged with shareholders, disclosed their feedback in the proxy statement, and connected shareholder concerns to positive changes made within the pay program. In addition, the pay-for-performance misalignment for the year in review was sufficiently mitigated. While a concern regarding the target setting for some metrics was noted, a large portion of the annual bonus was based on pre-set objective metrics, with negative discretion utilized to lower a portion of the payout. Furthermore, the company removed a relatively large potential upward modifier based on individual performance in FY21 based on shareholder feedback. The company also made positive changes to the LTI program, adding a cap on relative TSR payout if absolute TSR is negative and increasing the relative TSR target for FY22. Additionally, a prior grant vested below target, which was largely in line with recent company underperformance.

The STI program was entirely based on pre-set financial metrics, while 50 percent of the LTI grant is in performance-conditioned equity. Some concerns about the LTI program are noted, including that 100 percent of the FY21 grant and 50 percent of the FY22 grant will be based on annualized performance periods. This structure lacks strong performance conditions, and the proxy did not indicate that the company expects to incorporate performance-conditioned equity in the near future. While stock options only deliver value if the stock price increases, shareholder generally prefer for at least a portion of executive equity awards to require the achievement of pre-set performance goals in order to vest.

Qantas Airways Limited	QAN	Australia	5/11/2021	Approve Share Plan Grant	Approve Participation of Alan Joyce in the Long Term Incentive Plan	For	For	A qualified vote FOR the grant of performance rights to CEO is warranted. The structure of the LTI is broadly in line with market having a three-year performance period, rights granted on face value and vesting based solely on relative TSR performance assessed against the ASX100 index and a narrower global airline peer group. The qualification is to raise concerns that, " Despite a reduction in the award opportunity from the FY21 grant the quantum of the CEO's LTI remains well above the market medians and is considered excessive," There is no positive TSR gateway applied to the relative TSR test which, in the absence of downward board discretion, has potential to award executives in cases of a negative TSR outcome.
Qantas Airways Limited	QAN	Australia	5/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted.* High remuneration awards such as the significant increase in FY21 LTI have contributed to the identification of a high concern for misalignment in quantitative pay-for-performance analysis.* LTI vesting in the last two years is materially misaligned with the affairs of the company, employees and shareholders.* The LTI structure does not have a positive TSR gateway which in the absence of exercise of downward board discretion, as seen with the FY18 and FY19 LTI grants, can lead to vesting of awards against the narrow airline peer group based on relative performance despite underlying weak and/or negative shareholder.* The company reduced STI opportunity for the CEO from a maximum in FY20 of 200 percent of fixed remuneration to 90 percent in FY21 and accompanied by a significant increase in the FY21 LTI opportunity to 235 percent of fixed remuneration from 185 percent in FY20. This may be considered by shareholders as an inappropriate discretionary shift towards a greater potential remuneration benefit at a future date compared to the current period. It is noted that the FY22 LTI grant has been reduced, whereas any changes to the FY22 STI have not been disclosed in the remuneration report.* NEDs receive post-employment benefits, which have been eliminated for ASX300 companies in recognition of poor corporate governance.
Qantas Airways Limited	QAN	Australia	5/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	For	For	A vote FOR the adoption of the amended constitution, as revised on 15 October 2021, is warranted. This is a bundled resolution that includes a number of administrative, governance and legislative amendments. The company announced on 15 October 2021 that the Board determined to withdraw the proposed amendments to the Constitution relating to virtual meetings. The amendments include proportional takeover provisions which warrant support on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. This is superior to any potential disadvantages that may arise from such a constitutional inclusion.
QBE Insurance Group Limited	QBE	Australia	5/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted, despite improved financial performance in FY21, because of the following shareholder concerns: * Poor disclosure of specific and quantified targets for non-financial STI measures, * Vesting outcomes of prior year EIP rights, granted subject to service and behavioural conditions, are misaligned with the company's poor financial performance, * Excessive sign-on bonuses were paid to new KMPs, including the Group CEO, which are not appropriately linked to performance, and * Fees paid to the Chairman and Directors are above market median, despite the temporary suspension of generous travel allowances.
QBE Insurance Group Limited	QBE	Australia	5/05/2022	Approve Share Plan Grant	Approve Grant of Conditional Rights to Andrew Horton	For	For	A vote FOR this resolution is warranted because the terms of the grant of rights are in line with accepted local market practice with a three-year performance period, and appropriate performance measures that are adequately aligned with improved shareholder interests over the longer term. Shareholder concerns include the quantum of the award being above market, accrual of notional dividends on rights prior to vesting and the absence of a positive TSR gateway.
QBE Insurance Group Limited	QBE	Australia	5/05/2022	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Fees of Non-Executive Directors	Against	Against	A vote AGAINST this resolution is warranted because the quantum of the increase is considered to be excessive. It is noted that sufficient headroom is available within the existing fee cap to accommodate any temporary increase in directors for board renewal/transition, existing fees are above market and the payment of travel allowances is not in line with good governance and shareholder expectations.

QBE Insurance Group Limited	QBE	Australia	5/05/2022	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board has confirmed its willingness to consult with shareholders and address their requirements through its comprehensive investor relations engagement program, institutional shareholder engagements and allowing shareholders to raise questions at company meetings.
QBE Insurance Group Limited	QBE	Australia	5/05/2022	Report on Climate Change	Approve Climate Risk Management	For	For	A vote FOR this resolution is warranted, as adoption of reduction targets aimed to limit the company's exposure to fossil fuels as requested, would enable shareholders to better understand how the company is managing climate change related-risks and assess the effectiveness of the company's related efforts.

Kaplan is the chairman of the audit committee and considered as non-independent as a founder of the company. The qualification is based on concerns regarding the structure of the audit committee as it does not comprise entirely independent non-executive directors. A vote FOR the re-election of independent director Ross Burney is warranted, as no material issues have been identified regarding his nomination in respect of board and committee composition as a result of his nomination.

Qube Holdings Limited	QUB	Australia	11/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted given that:* STI bonuses were higher than FY21 and in a range between 72 to 83 percent of maximum to align with improved financial performance in FY21.* FY18 LTI vesting of SARs in FY21 was at 58 percent to align with the average shareholder returns over the period.* In response to the 'first strike' received at the 2020 AGM, the company implemented some changes to its remuneration structure in FY21, with other changes planned for introduction in FY22 and FY23. The primary corporate governance concern relates to the persisting and inferior transparency in the STI, given the absence of any disclosure of specific and quantified hurdles for both the financial and non-financial measures. Such disclosure is readily provided by many large ASX-listed entities to provide shareholders sufficient transparency on targets to assess performance and bonuses.
Qube Holdings Limited	QUB	Australia	11/11/2021	Approve Stock Option Plan Grants	Approve Grant of Share Appreciation Rights to Paul Digney	For	For	A vote FOR the grant of SARs to the CEO is warranted on the basis that the bonus is linked to the share price performance experienced by shareholders over a three-year performance period. However, given the company has taken benchmarking advice from remuneration consultants, it will also be clear that larger ASX-listed entities with longer term assets and decision-making are moving to, or have incorporated, performance periods of 4 years or more. Accordingly, the 3 year performance period in this case is identified to now be inferior, especially in the context of the company's justification for this incentive structure that it is linked to the longer-term growth of the investments in Patrick Terminals and the Moorebank Logistics Park.
Qube Holdings Limited	QUB	Australia	11/11/2021	Approve Executive Share Option Plan	Approve Qube Long Term Incentive (SAR) Plan	For	For	On balance, a vote FOR this resolution is warranted. The plan is presently designed to measure performance of the company through value created in development phase projects. This is intended to be assessed executive remuneration purposes by appreciation in the share price through Share Appreciation Rights. In this way, executive outcomes are intended to be linked with investor returns.
Qube Holdings Limited	QUB	Australia	11/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve Increase of Non-Executive Director Fee Pool	For	For	A vote FOR this resolution is warranted on the basis that there is insufficient headroom available under the current cap to appoint an additional director which may be necessary as part of board refreshment. The chairman's and NED fees are presently below the median of market cap peers.
Qube Holdings Limited	QUB	Australia	11/11/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST this proposal is warranted. A board spill is not considered to be in the best interests of the company or shareholders at this present time given that:* The board has responded and taken steps to address the concerns expressed by shareholders which gave rise to the 'first strike' against the remuneration report at the 2020 AGM; and* The company's FY21 results do not warrant any specific concerns.

However, it is not without concerns: * The disclosure surrounding actual targets on an ex-post basis, as well as regarding a comparison with the previous year, remain underdeveloped compared to market practice. When combined with the absence of a specific cap for variable compensation, it is difficult to assess the appropriateness and rigor of the realized payouts. * No meaningful information is provided regarding the average remuneration of employees of the company in a manner which permits comparison with directors' remuneration.

Redbubble Limited	RBL	Australia	26/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted due to the following concerns: * Base equity awards are guaranteed and are granted annually. And unlike a typical STI award, they do not have any performance conditions but only require continued employment during the one-year vesting period. The structure of these awards is similar to a deferred remuneration plan and inconsistent with local market standards: * The updated LTI plan is based on a single performance hurdle of TSR growth. While this metric is generally aligned with shareholder interests, it is not strictly linked to company performance as share price can be affected by movements in the market. The LTI also includes a retesting feature that would allow awards to vest up to two years after the initial vesting period.* The new CEO's fixed remuneration and the chair's new base fee is excessive when compared to capitalisation and industry peers; and * The former interim CEO received a discretionary cash bonus. Investors generally expect disclosure of the performance hurdles and how the bonus outcome was determined.

This is superior to any potential disadvantages that may arise from such a constitutional inclusion.
Redbubble Limited	RBL	Australia	26/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve Alteration of Constitution	Against	Against	A vote AGAINST this resolution is warranted because: " The proposed new constitution includes wording that could permit general meetings to be held by virtual only means;" While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any changes that serve to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders;" It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present; and" Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

While target incentive awards are largely based on objective performance criteria, certain NEOs received excessive one-time equity awards. Royal Dutch Shell Plc	RDSA	United Kingdom	10/12/2021	Adopt New Articles of Association/Charter	Adopt New Articles of Association	For	For	A vote FOR this resolution is warranted, although it is not without concern for shareholders:" As noted within the meeting materials, a bill has been submitted to the Dutch Parliament introducing a DWT exit tax. If enacted in its present form, the proposed bill would impose a DWT exit tax charge on any company that moves its tax residence to a country that does not levy dividend withholding tax, such as the UK, on or after the date on which the proposed bill comes into force. The Board has determined that there is "considerable uncertainty" as to whether the proposed bill will be enacted. If this tax materializes, then this may form a significant cost if it were to be incurred. The main reason for support is: " The Company expects that it will ultimately not incur any DWT exit tax cost and believes that the benefits of the simplification outweigh the potential costs, including any DWT exit tax charge, when assessed on a risked basis." The Company has provided rationale on why it is seeking to simplify its share structure, which would entail (i) establishing a single line of shares to eliminate the Group's A/B share structure; (ii) aligning the tax residence with its country of incorporation in the UK by relocating Board and Executive Committee meetings, and the CEO and CFO to the UK; and (iii) changing the Company's name from "Royal Dutch Shell plc" to "Shell plc".

REA Group Ltd	REA	Australia	11/11/2021	Approve Share Plan Grant	Approve Issuance of 2,660 Additional Performance Rights to Owen Wilson under the 2023 REA Group Long-Term Incentive Plan	Against	Against	Item 4aA vote AGAINST the grant of additional performance rights under the LTI Plan 2023 is warranted. Concerns are noted for the following: "The discretionary nature of the additional grant;" Performance period for performance rights is less than three years, which is inconsistent with market cap and industry peers, where companies of this size are increasingly moving to performance periods of 4 years or more; and" The vesting provisions provide for excessive vesting at various levels of performance which is also inconsistent with market cap and industry peers. Item 4bA vote AGAINST the grant of performance rights to the CEO under LTI Plan 2024 is warranted. There is a three year performance period which is at the minimum accepted in this market (although larger companies have periods of 4 years or more) and revenue, EPS and relative TSR performance measures are consistent with market. However, there is Excessive vesting, where for example 200 percent vests at the 75th percentile of relative TSR, compared with market expectations of 100 percent; similarly, with the EPS and revenue performance measures where 200 percent vests at the maximum and 60 percent vests at the threshold which is inconsistent with better practice where 50 percent or less vests at threshold." As per prior years practice, the specific and quantified targets for the EPS and revenue growth metrics are undisclosed due to the company's assertions of commercial sensitivity, making it impossible for shareholders to evaluate the rigor of targets.

REA Group Ltd	REA	Australia	11/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve General Amendments to the Company's Constitution	For	For	A qualified vote FOR these proposed bundled amendments to the constitution is warranted. The proposed amendments to the constitutional appear to be otherwise non-contentious. However, the qualification is raised that one of the proposed amendments grants the chairman the authority to remove shareholders from the meeting due to the use of cell phone and/or other devices and any person who the chairperson "has reasonable grounds to believe may behave" in a dangerous, offensive or disruptive way. Some shareholders may consider this to provide broad discretion for the chairman to potentially remove dissident minority shareholder from the general meeting, which would negatively impact the rights of unaffiliated shareholders.
REA Group Ltd	REA	Australia	11/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve Technology Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. "The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means." While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders." It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The change in the actuarial present value of pension benefits continues to make up a large portion of the CEO's reported pay. There are some goal rigor and disclosure concerns identified in the LTI program, as the relative metric targets merely the median and forward-looking goals for the absolute metric are not disclosed. However, goal rigor concerns have not translated to questionable payouts for the most recently completed performance cycle and performance targets for the absolute metric are disclosed retroactively. Moreover, the majority of LTI awards are earned based on multi-year performance, while the annual program is predominantly based on pre-set, financial performance goals. Lastly, pay and performance are reasonably aligned for the year in review.
Ramsay Health Care Limited	RHC	Australia	24/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted.* There were no fixed remuneration increases and the only variable remuneration came in the form of STI bonuses, which are somewhat aligned with improved NPAT and EBIT.* LTI performance measures were not met, such that LTI vesting in FY21 was again nil for the re-tested FY17 and FY18 LTI grants, and the FY19 LTI grant was also tested with nil vesting. The qualification is to highlight persisting concerns.* Inferior disclosure in the STI with an absence of disclosure of specific and quantified STI threshold, target and maximum levels of performance, which is expected market practice to allow shareholders to independently assess the rigor of targets and alignment of bonuses with performance and shareholder expectations.* There is a high weighting in the STI plan to non-financial performance measures, many of which appear to offer bonuses for "day job" duties.

Disclosure also indicates that the Board engaged with shareholders regarding prior year shareholder concerns and detailed the following changes to its remuneration framework in response: * Establishing a Consequence Management Framework which comprises a series of questions to be considered by the Remuneration Committee in the context of exercising its discretion on future malus and clawback and adjustments to variable pay outcomes; and * Amending the rules of the EIP for future awards to presume that EIP awards lapse unless the remuneration committee determines that eligible leaver status should apply, which the Company explains will strengthen the Remuneration Committee's hand in the instances where it is appropriate, proportionate and fair to lapse all or part of unvested awards. Previously, the EIP rules made the presumption that eligible leaver treatment applied to all leavers except those leaving by resignation, dismissal for cause or any other reason as the Remuneration Committee decided).
