Life360, Inc.	360	USA	20/05/2022	Elect Director	Elect Chris Hulls as Director	For	For	ABSTAIN votes for incumbent nomination committee member John Coghlan are warranted for lack of diversity on the board. An ABSTAIN vote on the re-election of John Coghlan is warranted because he is reclassified as non-independent given excessive tenure on the board which is not majority independent (only 44 percent independent). An ABSTAIN vote on the election of CJ Prober is warranted as he is an executive director on the board in addition to the CEO which is not majority independent. A vote FOR the re-election of Chris Hulls is warranted. He is the CEO, co-founder and integral to this company.
Life360, Inc.	360	USA	20/05/2022	Approve Outside Director Stock Awards/Options in Lieu of Cash	Approve Grant of RSUs and Options to Randi Zuckerberg	Against	Against	A vote AGAINST these resolutions is warranted. While recognising that directors are paid in cash, RSUs and options, the grant of options to non-executive directors is inconsistent with local market corporate governance guidelines and practices, given that performance-based remuneration may impact the independent judgment of non-executive directors. The market expects director fees paid in cash, while typically supporting salary-sacrifice arrangements of NED cash fees into shares.

Life360, Inc.	360	USA	20/05/2022	Approve Share Plan Grant	Approve Grant of RSUs and Options to Charles (CJ) Prober	Against	Against	A vote AGAINST these resolutions is warranted because the material terms of the proposed grants of RSUs and options to the executive directors are not in line with local market best practice: * The only vesting condition for all awards is continued service which is misaligned with local market and shareholder interests for the vesting of long-term incentives to be subject to challenging performance conditions linked to improved company performance and shareholder outcomes. * The vesting period for some of the awards (options to be granted to Hulls and RSUs to be granted to Prober) does not meet the minimum accepted standard in the Australian market of three years.
Life360, Inc.	360	USA	20/05/2022	Approve Acquisition OR Issue Shares in Connection with Acquisition	Ratify Past Issuance of Shares and Notes to Shareholders of Jio, Inc.	For	For	A vote FOR the ratification of the past issue of shares to shareholders of Jio, Inc. is warranted on the basis that: * The dilutive impact associated with the issuance of shares is not significant; * The issue price is at a premium to the company's share price prior to the announcement; and * The issuance is to the vendors in connection with the acquisition of JioBit and well aligned with existing shareholders of the company. It is noted that the market reaction following the announcement may indicate some concerns.
Life360, Inc.	360	USA	20/05/2022	Ratify Past Issuance of Shares	Ratify Past Issuance of CDs to New and Existing Institutional Investors	For	For	A qualified vote FOR this resolution is warranted given that the funds raised in the placement were put towards the acquisition of Tile, Inc. and balance sheet strength. The capital raising also included an entitlement offer to existing investors. The recommendation is qualified to highlight the high 8.56 percent dilutive impact and high 10.6 percent discount on the issue of the placement shares. The company's share price has trended downward since the announcement, and based on the company's closing price on 29 April 2022, the issue price represents a 198 percent premium to the prevailing share price on this date.

However, the market reaction following the announcement may indicate some concerns.

4DS Memory Limited	4DS	Australia	29/11/2021	Adopt New Articles of Association/Charter	Approve Replacement of Constitution	Against	Against	A vote AGAINST this resolution is warranted.The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means.While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until 31 March 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present.Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Advance Auto Parts, Inc.	AAP	USA	19/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	There are concerns raised by the company's disclosure around pay program decisions. Specifically, disclosure needs improvement regarding the company's STI goal setting and equity pay mix decisions. However, there are mitigating factors for the year in review. The STI remained based on objective financial measures, and the new qualitative modifier has appropriate adjustment guardrails. Further, LTI was at least half performance-vesting and the entirety of PSUs targeted above-median performance. The company also discloses a vesting cap in the event of negative absolute TSR. On balance of these factors, a vote FOR this proposal is warranted, with caution. However, going forward, shareholders should expect more robust disclosure around pay program decisions.

Apple Inc.	AAPL	USA	4/03/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted, due to concerns around equity award design and pay magnitude. While the CEO's FY21 equity award marks his first LTI award since his mega award 10 years ago, half of the \$75 million award is purely time-based, and the award would continue to vest in full in the event of his retirement. Further, the company does not disclose that the award is intended to cover multiple years of future awards, despite its large size, and CEO Cook received another sizable grant of equity after the end of the fiscal year. In addition, notwithstanding that Apple is the largest company in its peer group, other NEOs consistently receive equity awards with values that approach the median total CEO pay of peers, and CEO Cook's relatively high base salary contributes to significant STI payout opportunities.

Rather than utilise the original EPS performance targets, awards have been informed by a highly subjective performance framework, with the final vesting level of awards determined by the ultimate discretion of the Remuneration Committee. This has resulted in 40% of the shares originally awarded vesting, valued at GBP 752,000 for the CEO and GBP 495,000 for the CFO.

Airbnb, Inc.	ABNB	USA	1/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. The CEO's pay decreased significantly from the prior year and the other NEOs' compensation primarily consists of long-term equity awards. However, the primarily subjective nature of the annual incentive plan and lack of performance criteria in the long-term incentive plan warrant further monitoring.
Abacus Property Group	ABP	Australia	17/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given the structure is unchanged from the prior years. The remuneration structure is unorthodox in not having true "long-term" targets. Other factors include: "STI bonus paid the managing director was substantial in FY21 but aligned with financial performance as the company's funds from operations (FFO) exceeded the target opportunity by 12.8 percent which is the primary basis for the managing director's bonus payout. However, the company's target FFO (\$120.9 million) is lower than prior year FFO (\$124.6 million); and" The company is moving from the Deferred Variable Incentive Plan to a long-term incentive award in FY22 and will introduce deferral of a portion of short-term incentive outcomes for KMP executives, which is a step forward to better governance practice and align with long-term shareholder interests. The qualification is to highlight the high level of concern identified in the quantitative pay-for-performance analysis. The managing director's fixed remuneration increased by 16.5 percent during the year and the STI bonus exceeds 2.67 times the median of market cap. Securityholders will seek an improvement in transparency as there is a continued absence of disclosure on quantified and specific hurdles (threshold, target and maximum) for most of the performance measures to make the link between pay and performance more apparent.

Abacus Property Group	ABP	Australia	17/11/2021	Approve Share Plan Grant	Approve Grant of Security Acquisition Rights to Steven Sewell	For	For	A vote FOR the grant of rights to the managing director is warranted. The company moved from a Deferred Variable Incentive Plan to a LTI award, which appears to be reasonably aligned with shareholder interests with a well disclosed and rigorous target. Concerns are raised on the provision of a dividend equalisation payment at the end of the performance period in respect of LTI awards that ultimately vest, which is inconsistent with good governance and market expectations. In addition, the board's discretion to provide securities or a cash equivalent payment to the managing director is not aligned with long-term shareholder interests.
Abacus Property Group	ABP	Australia	17/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Constitution of Each Company	Against	Against	A vote AGAINST these resolutions is warranted due to the following: " The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means;" While there is recognition of the benefits of increased participation at securityholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments may allow this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and securityholders;" It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to securityholders in approving this provision at present; and" Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of securityholders.

Audinate Group Limited	ADB	Australia	20/10/2021	Elect Director	Elect Alison Ledger as Director	For	For	A qualified vote FOR the re-election of independent director Alison Ledger (Item 1) is warranted. Although disclosure shows that the company is committed to achieving several objectives to support fostering a diverse and inclusive workplace, gender diversity currently stands at 17-percent female director representation at the board level. This does not meet the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger companies in the ASX300 Index to have at least 30 percent of each gender represented on the board. In this case, the board states its intention to achieve 30-percent directors of each gender when a current director no longer seeks re-election. Whilst she is the chair of Nomination Committee, Ms Ledger's removal from the board would result in no female representation considering she is the sole female director.A vote FOR the re-election of independent director Tim Finlayson (Item 2) is warranted as no material concerns have been identified regarding board and committee composition resulting from his nomination.

Analog Devices, Inc.	ADI	USA	9/03/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. A large increase in CEO pay was due to a sizable special grant of performance options in FY21. While there is some concern regarding the large value of the award, it is entirely contingent on achievement of pre-set share price hurdles. The proxy also includes a robust description of the compensation committee's rationale as well as a statement that they do not intend to grant the CEO an additional special award during the performance period of this award. Additionally, although there are some goal rigor concerns, annual incentives are entirely based on pre-set financial metrics. Further, half of regular annual equity grants include performance conditions, which utilize a multi-year performance period. Although the overall pay program is sufficiently performance-based, ongoing monitoring of pay outcomes and practices are warranted.

AGL Energy Limited	AGL	Australia	22/09/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST this resolution to spill the Board is warranted.Despite ongoing poor financial performance in FY21, no material governance concerns are highlighted at present. The company has taken steps to address shareholder concerns including improving disclosure of STI targets, applying restraint in remuneration increases and amending the LTI incentive award structure to increase the weighting on shareholder return, by removing the ROE metric and reducing to 25 percent the climate measures. These steps have brought the company's remuneration practices more in line with market.
AGL Energy Limited	AGL	Australia	22/09/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals.
AGL Energy Limited	AGL	Australia	22/09/2021	Report on Climate Change	Approve Paris Goals and Targets	For	For	A vote FOR this proposal is warranted, as additional information on the company's efforts to reduce its carbon footprint and align its operations with Paris Agreement goals would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks, especially as the company seeks to split its operations into two companies via the proposed demerger.
Advanced Human Imaging Ltd. The remuneration practices of the company on balance are in line with local market standards. It is also noted that there were no cash bonuses paid to executives in FY21, which is in line with company performance during the year. Nevertheless, shareholders may be concerned with the following: * unacceptable vesting period and insufficiently demanding performance hurdles of LTI awards; and* high potential dilution of all outstanding incentive securities.

Advanced Human Imaging Ltd.	AHI	Australia	31/01/2022	Adopt New Articles of Association/Charter	Approve Replacement of Constitution	Against	Against	A vote AGAINST this resolution is warranted.The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means.While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present.Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Nonetheless, it is noted that any grant to a NED would require shareholder approval.

" There is a good link between executive remuneration, the company's financial performance and shareholder outcomes, supported by a low level of concern for misalignment in the Sustainability Advisory Services quantitative P4P model. " The low level of LTI vesting is sufficiently aligned with performance and shareholder outcomes. Nevertheless, the following concerns are identified: " A full year bonus was offered to the new Group CFO even though he served half of the year. " The continued poor disclosure of STI and LTI targets is inconsistent with superior market practices where similarly larger ASX-listed entities provide disclosure of specific and quantified targets to allow shareholders to independently assess alignment of targets, performance and bonuses in line with their expectations. " Members of the Executive KMP continued to receive the last components under the previously announced retention bonuses. Retention awards are not well accepted in the Australian market given they are not aligned with performance conditions or shareholder interests.

The LTI structure is consistent with prior year grants at this company, market practice for long-term incentives and is sufficiently aligned with improved shareholder returns and company performance. There is a three-year performance period, and relative TSR and ROCE performance measures. Concerns are raised for the following: " the quantum of the award is high, " a discounted share price to reflect the dividends paid during the performance period is used to determine the number of rights to be allocated, and " there is no disclosure of the ROCE targets to allow shareholders to independently assess the rigor of targets.

Ardent Leisure Group Limited	ALG	Australia	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted because: "The company paid significant bonuses (e.g. 150 percent of target for the CEO US and 80 percent of target for the CEO AU) despite the net losses reported during FY21." Whilst some divisional EBITDA targets were strong, the board did not apply any discretion to reduce the STI bonuses in an attempt to align with weak group performance and operational outcomes in FY21 or in consideration of the substantial \$69.9 million financial assistance the company received from the Queensland Government in FY21." There continues to be no disclosure of the specific and qualified financial targets in the STI which makes it impossible for shareholders to independently assess the rigor of STI targets and justify bonuses. This lack of transparency is inconsistent with better corporate governance practices and shareholder expectations presented by other large Australian companies.

Executive pay in the summary compensation tables overreported actual pay due to CARES Act limits on executive compensation. These limits compelled the company to clawback a portion of the annual equity grant, to remain compliant. In the LTI program, half of the annual equity grant is performance-conditioned equity with a multi-year performance period. Investors are advised to continue monitoring pay levels at the company, as CARES Act restrictions are expected to lapse in 2023 and the company indicates it may take steps to address what the proxy calls "executives' lost compensation."

The Allstate Corporation	ALL	USA	24/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	There is some concern regarding STI structure and goal rigor. Although the STI pool is funded formulaically, individual payouts are ultimately discretionary. In addition, the company does not disclose forward-looking goals for one LTI metric or a cap on relative TSR vesting if absolute TSR is negative. However, the CEO received an STI payout at the formulaic funding level, consistent with past practice, and the committee provides a reasonable rationale for setting certain targets below 2020 results. In addition, the company targets a majority of equity awards as multi-year performance shares, the LTI metric for which goals are not disclosed is growth-based, and the relative TSR metric targets outperformance. On balance of these factors, a vote FOR this proposal is warranted, with caution. Continued close monitoring of STI goal rigor and discretionary payout determinations is warranted.

There is a satisfactory level of disclosure and alignment between executive remuneration outcomes, company performance and shareholder interests. Although there is some concern that the FY21 STI bonus targets were set half-way through the year and the gateway target was lowered, these are not unreasonable in light of the uncertainty in the first half of the year in 2020 due to the COVID-19 pandemic. The company's performance in FY21 supports the bonuses achieved in the year, and the company will revert to its traditional STI structure in FY22.

Altium Limited	ALU	Australia	18/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve Increase in Non-Executive Directors' Fee Pool	Against	Against	A vote AGAINST this resolution is warranted.* The case has not been made in support of the significant quantum of the proposed increase being an additional 50 percent of the current fee cap.* There is sufficient headroom in the current fee cap given there are currently three NEDs, including the chairman, and total NED fees paid in FY21 amounted to \$635,000. This leaves sufficient headroom to pay an additional \$865,000 in fees, which would allow the company to take on up to four new NEDs.* Given that NED fees currently exceed the median of market cap (ASX 101-125) and selected industry peers, it would not appear that an increase in the fee cap could reasonably be required for a substantial increase in NED fees.
Altium Limited	ALU	Australia	18/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until 31 March 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Atlas Arteria	ALX	Australia	10/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve the Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted given: * Significant increase in executive remuneration in FY20 and director remuneration in FY22. * Reduced weighting to financial metrics in the FY22 STI award, * FY22 LTI has 50 percent allocated to poorly disclosed strategic measures that are part of the day job and appearing to be also partially captured in existing STI performance measures – the achievement of the strategic measures would be expected to flow into improved performance and securityholder returns. * The three-year LTI performance period does not reflect the long-term nature of the Group's business model, compared with similar companies, such as Transurban, and the better practices of other large ASX-listed entities. * The LTI allows for 'dividends on unvested shares' for distributions paid in the performance period on rights that vesting, noting no entitlement to the dividends until the underlying securities have vested, and * Despite being temporarily suspended, non-executive directors are entitled to receive travel fees in addition to their directors' fees which is not aligned with market practice or expectation.

Quantitative pay for performance analysis has identified a high level of concern for misalignment of pay and performance and shareholder outcomes, and there are additional concerns regarding the company's remuneration arrangements which are inconsistent with market practices as follows: * Excessive weighting to discretionary non-financial/strategic initiatives in the STI with only 30 percent weighting to financial results, * Financial performance measures were disclosed as significantly below target and significant STI bonuses were awarded on the non-financial performance measures (such as gender diversity, inclusion index, green risk scorecard) being materially misaligned with the company's results and shareholder returns over the period and longer periods, * There is limited disclosure of any specific and quantified targets for each performance measure confirming poor justification of bonuses which appear in the nature of excessive bonuses for the "day job".

The qualification is based on the following shareholder concerns: * The quantum is high and well above market median, * There is no positive TSR gateway to ensure a positive shareholder return, * Short performance period, noting many financials and large ASX-listed entities have performance periods of four years or more to better align with longer term shareholder interests, * Potential Board discretion in relation to the relative TSR calculation, especially noting company's recent divestments of the AMP Capital (Collimate Capital) businesses, and * Shareholders have been given a false choice given the Board will consider alternative incentive arrangements if this resolution is not approved.

Australia and New Zealand Banking Group Limited	ANZ	Australia	16/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the 2021 Remuneration Report is warranted. No material misalignment between pay and performance is identified for the period under review. STI bonuses were higher than FY20 mainly reflecting a rebound in economic activity and in light of Board discretion to reduce FY20 bonuses by 50 percent. Nevertheless, concerns continue to be observed for: "Ongoing poor and inferior disclosure of specific STI targets and outcomes," High weighting to non-financial performance measures at 65 percent is little more than bonuses for the "day job", and " There is a lack of a positive TSR gateway for performance rights to ensure that any vesting under a relative TSR component is only made in circumstances when shareholder returns have been positive, noting that LTI vesting in FY21 appears to have occurred when there was a negative TSR over the four-year period to November 2020.

The quantum of the CEO's LTI is in line with market median and the absolute TSR growth target is aligned with shareholder outcomes and market practice. However, the qualification is to highlight concerns that the relative TSR component of the LTI does not include a positive TSR gateway to prevent misalignment of executive outcomes with shareholder returns, in the event that there is a negative TSR outcome which outperforms the median of the narrow comparator group, as observed in the assessment of performance against the FY18 LTI grant in FY21.

APA Group	APA	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted as pay does not appear to be materially misaligned with company performance nor securityholder outcomes for the period under review. * The remuneration of the CEO and non-executive director are not excessive relative to market cap peers; * The CEO's fixed pay did not increase in FY21 with only a moderate increase for the next financial year; and* There is improved transparency in the STI plan.However, concerns are raised for the one-off project award of \$750,000 granted to the President North American Development. Payments of project-related bonuses on top of an executive's STI bonus entitlements are inconsistent with securityholder requirements in this market and simply adds to excess.

While the complexity of the annual incentive plan has been somewhat reduced, the program continues to use a large number of metrics and several metrics lack clear disclosure of pre-set performance targets and corresponding pay outcomes. Further, in the long-term program, TSR shares target effectively median performance while the other financial target is not disclosed. Although the proxy states the committee will reduce the CEO's 2022 equity awards to maintain alignment with the market, the number of shares underlying long-term incentive grants significantly increased in FY21, creating a potential windfall opportunity in the event of a stock price rebound.

Concerns are highlighted for: * Poor disclosure of non-financial STI performance targets and achievements. * The FY21 LTI grant was not put as a resolution at the prior AGM for shareholder consideration and approval as is expected practice in ASX300 companies. * There is double counting of the EPS CAGR and interest cover performance measures in the STI and LTI, with concerns for the rigor of the EPS targets in the STI and that executives would be rewarded twice for the same performance. * There is no disclosure to explain the issuance of shares to the CEO and CFO under the legacy LTI plan.

Remuneration outcomes are reasonably aligned with the company's financial results and shareholder wealth outcomes. There were no fixed remuneration increases, no LTI vesting and reduced STI bonuses given that the financial gateway was not met. This recommendation is qualified to highlight the following concerns: * Poor and absent STI disclosure which lacks sufficient transparency given the absence of specific and quantified thresholds and targets. * While the financial component of the STI bonus was not awarded given that the financial gateway was not achieved, the non-financial performance measures provided for STI bonuses after the board adjusted the group financial performance gateway for one-off and non-recurring costs. * The specific ROE and EPS growth targets in the LTI grant were not disclosed, which prevented shareholders from independently assessing the rigor of the targets in line with shareholder expectations.

Australian Pharmaceutical Industries Limited	API	Australia	20/01/2022	Approve Share Plan Grant	Approve Grant of Performance Rights to Richard Vincent	Against	Against	A vote AGAINST the grant of performance rights to the CEO is warranted.* Persisting issues identified in prior years remain unaddressed.* There is persisting non-disclosure of the ROE and EPS growth performance targets.* The board has absolute discretion to vary performance hurdles during the performance period.* There continues to be provision for dividends on unvested shares.* The change of control provision allows for automatic waiving of performance conditions, being especially problematic given the Woolworths and Woolworths bids would result in a near terms change in control and accelerated vesting of this FY20 LTI grant.* Discounting of the valuation of the performance rights to a value in July 2021 and not at the prevailing value of the company's shares; and* The 'false choice' has the impact of diminishing shareholder rights, given that if this resolution is not approved, disclosure indicates that it is intended that payment of the LTI will be by way of cash.

" The three-year performance period is in line with the minimum accepted market practice for LTIs. Activision Blizzard, Inc.	ATVI	USA	28/04/2022	Approve Merger Agreement	Approve Merger Agreement	For	For	While it is possible that the merger will not receive regulatory approval, shareholders face a potential downside risk of non-approval given ATVI's outperformance against the market, recent disappointing financial results, and ongoing investigations by federal, state, and securities authorities. Additionally, the merger consideration delivers a premium, appears fair from a valuation standpoint, and provides liquidity and certainty of value for shareholders. On balance, a vote FOR the proposed transaction is warranted.
Activision Blizzard, Inc.	ATVI	USA	28/04/2022	Advisory Vote on Golden Parachutes	Advisory Vote on Golden Parachutes	For	For	While there are some concerns regarding recent increases to the double-trigger severance entitlements for NEOs other than the CEO, the resulting amounts are not considered excessive, and no excise tax gross-ups are expected. Further, the entirety of outstanding equity awards are subject to double trigger vesting. Lastly, any additional incentive compensation that may be received by the CEO following the merger will require the board's assessment of sufficient progress on related goals. In balancing these factors, and given that the vast majority of NEOs' golden parachute payments are double-triggered, a vote FOR this proposal is warranted.

The committee was sufficiently responsive to last year's low say-on-pay vote result. CEO Kotick's total compensation was significantly reduced, as he did not receive a bonus nor stock award for the year. The proxy also notes his pay will not increase until the company has made "appropriate progress" toward the achievement of certain gender-related transformational goals. However, continued monitoring is warranted of pay levels and structures, given the subjective nature of the transformational goals as well as the expected Microsoft merger.

The qualification is to highlight concerns that: "Half of the STI is based on non-financial metrics with broad parameters, which may give the board excessive discretion to determine STI bonuses which may result in some misalignment with company performance and shareholder returns." A portion of the FY19 LTI is subject to retesting at the end of FY22.* The FY21 LTI is no longer subject to a holding lock, such that vested and exercised performance options are unrestricted.

Auto Trader Group Plc	AUTO	United Kingdom	17/09/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is considered warranted, although it is not without concern for shareholders.* PSP awards made to the Executive Directors for FY2021 have been made at 250% of salary, representing a material increase on the normal award levels (200% of salary for the CEO and 150% of salary for both the CFO and COO). Furthermore, the awards are subject to vest based on a single relative TSR performance measure.* The Company continues to use the operating profit measure across the majority of the variable remuneration structure, increasing the risk that executives could be rewarded twice for the same performance outcomes. The main reasons for support are: "The increased PSP levels for FY2021 were awarded following shareholder consultation and had been communicated in the Company's FY2020 annual report." The Company's response to COVID-19 in regard to Executive remuneration is positively acknowledged (temporary salary reductions, repaying furlough support, suspension of the FY2021 bonus, waiving the FY2020 bonus, etc).* The Remuneration Committee retains discretion to adjust formulaic outcomes under the PSP when outcomes are not considered appropriate.* The FY2022 PSP award will revert to the previous 'normal' maximum levels, and utilise a more diverse array of performance metrics.* No other material issues have been identified.

Broadcom Inc.	AVGO	USA	4/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. While STI awards are predominantly based on pre-set financial goals, the program's design incorporates a significant degree of discretion for the individual performance multiplier. CEO Tan received his first equity grant following three years of no grants after he received a multi-year equity award in 2017. The equity grant is entirely performance-based, but the target goal is not viewed as particularly rigorous. In addition, CEO Tan received another sizable equity award in FY22, including a one-time award. Besides, three NEOs received sizable promotion grants, half of which are performance-based, but also with a goal that is not particularly rigorous. Nevertheless, high incentive awards are substantiated by strong performance and long-term CEO pay is reasonably aligned with long-term performance at this time. The above noted concerns warrant continued close monitoring.

The primary concerns is the absence of a positive TSR gateway, the absence of which allowed partial vesting of the FY18 LTI grant when shareholder returns were negative over the performance period. Additionally, concern is noted that the Board has discretion to waive the vesting/performance conditions.

Bank of America Corporation	BAC	USA	26/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Annual incentive pay determinations were guided by a wide-ranging performance assessment, but they are ultimately determined discretionally, which raises concern. Further, for consecutive years, financial factors used to assess the CEO's performance scorecard have changed without specific rationale provided. While these issues warrant continued close monitoring, there are sufficient mitigating factors. Specifically, CEO pay and company performance are aligned for the year in review, and the increase in the CEO's incentive awards directionally aligns with the company's improved financial and stock price performance. Further, the CEO's long-term equity incentives are predominantly performance-conditioned with clearly disclosed multi-year goals and a vesting design that has no upside potential. On balance of these factors, a cautious vote FOR this proposal is warranted. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure.

There is no material misalignment between remuneration outcomes, company performance and shareholder interests. While STI bonuses to executives are substantially higher than the prior year, there was nil LTI vesting which is aligned with longer term targets and shareholder outcomes. Bapcor Limited	BAP	Australia	19/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted.* The proposed new constitution includes wording that could permit general meetings to be held by virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments may allow this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.
Bapcor Limited	BAP	Australia	19/10/2021	Approve the Spill Resolution	Approve the Spill Resolution	Against	Against	A vote AGAINST this resolution is warranted. Barclays Plc	BARC	United Kingdom	4/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this item is considered warranted, although it is not without concern for shareholders: * The new CEO's fixed pay level is set at a 12.5% premium to that of his predecessor and is competitively positioned relative to industry peers. * A further 3% increase to the CEO's fixed pay has materially increased his total pay opportunity for FY2022, which now ranks highest against industry peers as a ratio of each companies' median UK workforce. * The termination arrangements in respect of Jes Staley's unvested awards have yet to be finalised. The main reasons for support are: * The circumstances surrounding CS Venkatakrishnan's appointment as CEO are acknowledged, notably that the Company has enacted its succession plan, appointing an internal candidate, whose fixed pay is positioned lower than his fixed pay in his previous role, as Head of Global Markets and Co-President of Barclays Bank plc. * CS Venkatakrishnan's FY2022 fixed pay increase was below the increase granted to UK employees. * Jes Staley's outstanding awards have been suspended by the Remuneration Committee pending an ongoing FCA and PRA investigation. Nevertheless, this was only introduced in May 2021, leading to concerns that management (and by extension the supervisory board) was too slow in addressing the Monsanto fallout head on and too focused on the litigation rather than allaying the legitimate concerns of its shareholders and of stakeholders worldwide. " The supervisory board made discretionary adjustments to the management board's annual bonus in the year under review, leading to large bonus payouts for management despite ongoing and significant litigation against the company, which may raise legitimate concerns for shareholders.

However, it remains unclear from this disclosure what may be considered as an exceptional circumstance, or how frequently the committee would consider making one-time awards, and continued close monitoring of equity grant practices is warranted.

Bega Cheese Limited	BGA	Australia	26/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this proposal is warranted. No material disconnect between pay and performance and shareholder outcomes has been observed.* Quantitative pay for performance analysis indicates a low level of concern for misalignment, and* CEO fixed remuneration, STI bonuses, LTIs and NED fees are not excessive or problematic at this time. There are concerns regarding "large fixed remuneration increases to the CEO and executive chairman in FY21 and as announced for the CEO and CFO to take place in 2022," "poor and inferior disclosure of targets in the STI, being inconsistent with better practices in the local market and shareholder expectations for transparency to evaluate targets, performance and bonuses, and" the structure of the LTI includes only one performance measure – EPS with 20-24 percent growth targets. This appears to be an overly narrow range. Disclosure indicates an ability for the board to retain discretion to adjust the calculation of the EPS performance measure raising concerns for the discretionary nature of the reward. Normalized EPS growth is disclosed to have been materially lower than statutory EPS growth, raising questions over the rigor of the EPS performance measure given that it is unclear which measures the board intends to adopt and what adjustments will be made.

Bega Cheese Limited	BGA	Australia	26/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted.* The proposed new constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Structural issues remain with the significant weighting of personal objectives and the high on-target opportunity.* Due to the significant recovery in the Company's share price since the start of the performance period, there was a substantial increase in the value of the CEO's 2016 LTIP award which vested in full in August 2021. The main reasons for support are:* There is no clear disconnect between pay and performance and no further material concerns have been identified.* Additionally, the Remuneration Committee exercised discretion and reduced the HSEC outcome under the annual bonus by 10% as the Committee determined that there is scope for improvement in work streams and integrated planning in this area.* With regard to the LTIP vesting in FY2021, it is taken account that the awards were reduced at grant and the Committee undertook a further review to ensure that TSR performance was not inappropriately enhanced by the lower share price in the starting position of the performance period.

While pay and performance were reasonably aligned for the year in review, the compensation committee did not demonstrate sufficient responsiveness to last year's low say-on-pay vote. Although the proxy describes meetings with shareholders, cites their feedback, and made positive changes to the 2022 pay program, the committee did not disclose a robust commitment not to repeat an action that investors found concerning. Separately, shareholders are advised to monitor goal disclosure, which needs improvement.

Although the annual program is funded formulaically, payouts are determined primarily based on compensation committee discretion and performance factors considered by the committee appear to be highly subjective, a concern which is magnified by the CEO's high target award as a multiple of base salary. In addition, performance for the 2021 PSUs, which had larger values in light of retention concerns, are based on annually set goals and the metrics and measurement period for the first tranche were identical to the metrics and measurement period for the 2021 annual incentive awards. These concerns follow the discretionary adjustment of payouts for 2018 and 2019 PSUs, including the above-target payout of 2018 PSUs.

Brickworks Limited	BKW	Australia	23/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted, given no material concerns for misalignment of pay and performance and shareholder outcomes.* No increases to the fixed remuneration of CEO and CFO during the year,* No increases to the FY22 fixed remuneration of the CEO and CFO except for an increase in superannuation guaranteed levy,* No increases to the chair and director base or committee fees during the year,* A 3.5 percent increase to directors' fees in FY22 is not considered excessive,* STI bonuses paid at maximum are not inconsistent with improved company performance during the year, and* Historical LTI grants that were tested during the year vested in full, is consistent with the company's performance over the performance period. The qualification is based on the following:* Lack of disclosure of the specific and quantified financial targets in the STI which makes it impossible for shareholder to independently evaluate the rigor of targets and alignment with their expectations, and* Provision for dividends on unvested shares, through a notional dividend adjustment on rights that vest is inconsistent with good governance practices of many ASX-listed entities, given there is no present entitlement to the shares or dividends.
Brickworks Limited	BKW	Australia	23/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Lindsay Partridge	For	For	A qualified vote FOR the grant of performance rights to the CEO is warranted. There is no change from prior year grants at that* There is a three-year performance period which is consistent with the minimum accepted in the market for an LTI.* Performance targets are two equally weighted relative TSR and absolute TSR performance conditions and considered as appropriate. The qualification is to highlight concerns for the following inconsistencies with good governance expectations:* Full vesting of the relative TSR performance measure is permitted at the 60th percentile which offers a much high bonus for lower performance, compared with the higher 75th percentile benchmark which is widely accepted in the market as a reasonable measure of outperformance.* The quantum of the LTI grant is higher than the prior year.* The number of rights eventually vested is adjusted upwards to account for dividends during the performance period - this is commonly known as dividends on unvested shares and represents an inconsistency with better corporate governance practice in the Australian market, and* Generous vesting arrangements apply on termination of employment and change of control.
Brickworks Limited	BKW	Australia	23/11/2021	Elect Director	Elect Robert D. Milner as Director	For	For	A qualified vote FOR the re-election of chairman Robert Milner is warranted. Although not without concern. The qualification is to highlight that Robert Milner is a non-independent chairman, who is over-tenured and overboarded. Nevertheless, there seems no benefit for shareholder in voting against his nomination given low prospect of success due to his affiliation with the substantial shareholder, Washington H. Soul Pattinson and Company Ltd (WHSP), which holds 43.3 percent of the company's shares. Milner represents the interests of the Milner family and WHSP on many boards in which it holds substantial investments.
Brickworks Limited	BKW	Australia	23/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted.* The proposed amendments to the constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Boral Limited	BLD	Australia	28/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted because:* No STI bonuses were paid in FY21, given the structure of remuneration set for this newly appointed CEO was designed to achieve longer term performance and shareholder value, and* LTI performance based and shareholder interests and ROFE are in line with shareholder interests and market practice. Nevertheless, some shareholders may be concerned with the quantum of the recently appointed CEO's fixed remuneration, which is lower than that of his predecessor but significantly higher than market capitalization peers.
Boral Limited	BLD	Australia	28/10/2021	Approve Share Plan Grant	Approve Grant of LTI Rights to Zlatko Todorovski	For	For	A vote FOR this item is warranted because the terms of the proposed equity grants are not problematic.* Quantum is 120 percent of fixed remuneration (reverting back from the previous one-off structure which had a larger LTI but no STI), and* There is only one performance measure of relative TSR is sufficiently aligned with shareholder interest, although shareholders typically expect an additional performance hurdle to be used. Some concerns exist for the use of only one relative TSR performance measures which does not have an absolute TSR gateway to ensure alignment with a positive return to shareholders. Some shareholders may also question why the ROFE performance measure was removed from this grant, whereas it was considered appropriate in the FY21 LTI grant.

BlackRock, Inc.	BLK	USA	25/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. There is some continuing concern surrounding the impact of committee discretion in determining total incentive pay. Although guided by performance assessments in three weighted categories, incentive pay determinations are ultimately discretionary, and the proxy lacks disclosure of per-metric weightings or quantified pre-set targets. However, there are mitigating factors identified. In particular, the application of discretion has not resulted in a quantitative pay-for-performance misalignment for the year in review. In addition, the increase in CEO performance year pay is directionally aligned with improved performance under key financial metrics that were generally consistent with the prior year, and long-term TSR outperformance. Incentives are also capped at 125 percent of the prior year's incentives, which provides some limitation on pay increases. Lastly, the large majority of equity awards are earned based on clearly disclosed multi-year goals. Continued close monitoring of the incentive program structure and pay outcomes is warranted, as a quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of the pay program structure.

Bank of Montreal	BMO	Canada	13/04/2022	Company-Specific--Governance-Related	SP 1: Explore the Possibility of Becoming a Benefit Company	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank appears to have demonstrated its commitment to operating responsibly and sustainably and creating value for all of its stakeholders without the need to modify the bank's articles of incorporation to become a benefit company. The bank provides comprehensive disclosure about actions it has taken that show a commitment to healthy communities and sustainable and fair operations. In addition, the bank has disclosed an oversight structure in place to ensure that it is operating in an ethical, socially responsible and environmentally conscious manner. There are many unknowns associated with the benefit corporation structure and it is not clear that a conversion would cause any change in its business practices. In addition, the bank indicates that "it is not legally possible for a federally chartered bank to convert to a benefit corporation" As such, the request for the board to take steps to change the form of company incorporation does not appear to be necessary and this proposal does not warrant support.

Additional information on the company's plans to reduce its GHG emissions would enable investors to better understand how the company is managing its climate change related risks and allow shareholders to express their opinions on the climate risk management practices of the company.
Bank of Montreal	BMO	Canada	13/04/2022	Company-Specific -- Miscellaneous	SP 3: Adopt French as the Official Language of the Bank	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank already noted that its shareholder meetings are delivered in both English and French, with shareholders able to speak and to hear the proceedings in the official language of their choice, with simultaneous interpretation available. The bank emphasizes its global presence and the fact that the vast majority of the bank's shareholders are located outside of Quebec and its employees and customers are diverse, it serves its customers in their language of choice in the communities in which bank's branches are located. The board also noted that "French is already the language of work in Quebec at the bank and it is not legally possible to amend the bank's charter." Considering the above and the fact that the bank is already complying with all laws and regulations applicable to doing business Quebec, including those that pertain to the French language, the request of the proponent pertaining to amend bank's by-laws to include French as the official language of the bank appears to be overly prescriptive and hence a vote AGAINST this shareholder proposal is warranted at this time.
Bank of Montreal	BMO	Canada	13/04/2022	Sustainability Activities and Action	SP 4: Adopt a Policy to Ensure the Bank's Financing is Consistent with IEA's Net Zero Emissions by 2050 Scenario	Against	Against	Vote AGAINST the proposal. Canadian banks have accelerated their climate actions recently amid the increasing signals from the national regulator. Currently, none of the six major Canadian banks has modified its fossil fuel policy providing a blanket exclusion to all new fossil fuel transactions. All the banks have similar fossil fuel policy and BMO is at par with its direct peers. In addition, the proposal requests implementation by the end of 2022. Timewise, this is deemed too prescriptive. As such, the shareholder proposal is not supported.

The Bank of Nova Scotia	BNS	Canada	5/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote on Executive Compensation Approach	For	For	Vote FOR this non-binding advisory vote. The high concern level identified through the quantitative pay-for-performance screen, based on RDA, has been reduced to medium based on the bank's enhanced disclosure regarding CEO's incentive compensation program, its shareholder engagement efforts and overall improved performance. In addition, the bank made several downward adjustments to determine the performance factor of incentive compensation to offset the favourable impacts on performance from lower-than-expected provisions for credit losses as well as pandemic-related costs and from the restructuring and other provisions. Furthermore, the bank extensively engaged with its shareholders and has taken various actions to address shareholder concerns following last year's low say-on-pay vote support level.

The Bank of Nova Scotia	BNS	Canada	5/04/2022	Company-Specific--Governance-Related	SP 1: Explore the Possibility of Becoming a Benefit Company	Against	Against	Vote AGAINST this shareholder proposal. The board argues that the bank already operates in a way that promotes the interests of its various stakeholders and its principled approach to corporate governance is the foundation that instills trust, protects the interests of shareholders, and maintains the confidence of its employees, customers and communities. The bank provides comprehensive disclosure about actions it has taken that show a commitment to healthy communities and sustainable and fair operations. In addition, the bank has disclosed an oversight structure in place to ensure that it is operating in an ethical, socially responsible and environmentally conscious manner. There are many unknowns associated with the benefit corporation structure and it is not clear that a conversion without management support would cause any change in its business practices. As such, the request for the board to take steps to change the form of company incorporation does not appear to be necessary and this proposal does not warrant support.
The Bank of Nova Scotia	BNS	Canada	5/04/2022	Proposals Requesting Non-Binding Advisory Vote On Climate Action Plan	SP 2: Adopt an Annual Advisory Vote Policy on the Bank's Environmental and Climate Change Action Plan	For	For	A vote FOR this proposal is warranted. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and it would allow shareholders to express their opinions on the climate risk management practices of the company.
The Bank of Nova Scotia	BNS	Canada	5/04/2022	Establish Environmental/Social Issue Board Committee	SP 3: Set Up a Climate Change and Environment Committee	For	For	By establishing a dedicated Climate Change and Environment Committee, the company will have a centralized device to continue, ensure, and promote its environmental policies and initiatives. The adoption of this resolution will also solidify the company's position among its peers as an industry leader in this area of environmental sustainability. As such, support FOR this proposal is warranted.
The Bank of Nova Scotia	BNS	Canada	5/04/2022	Company-Specific -- Miscellaneous	SP 4: Adopt French as the Official Language of the Bank	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank already noted that all of its shareholder meetings have been held in French and intends to continue to do so in future. In addition, all meeting materials are available in French and English and all shareholders at the meetings are encouraged to ask questions and vote in the language of their choice. Considering the above and the fact that the bank is already complying with all laws and regulations applicable to its banking business in Quebec, including those that pertain to the French language, the request of the proponent pertaining to amend bank's by-laws to include French as the official language of the bank appears to be overly prescriptive.

Bank of Queensland Ltd.	BOQ	Australia	7/12/2021	Approve Share Plan Grant	Approve Grant of Performance Shares and Premium Priced Options to George Frazis	For	For	A vote FOR the grant of performance shares and premium priced options to the CEO is warranted.* These represent the short-term and long-term components of the CEO's variable remuneration, delivered in the form of equity grants at values that are in line with market.* Vesting is subject to financial and non-financial measures and in the case of options there is an absolute share price hurdle.* The awards have appropriate performance periods and trading restrictions consistent with regulatory requirements for remuneration of banking executives and corporate governance expectations of shareholders in the Australian market. However, shareholder concerns include: "Shareholders are being requested to give upfront approval for a maximum grant of performance shares, where the performance and ultimate vesting will be assessed at the end of the FY22. No rationale has been provided why approval is sought in advance, given that such advance approval represents a material deviate from widely accepted market practice in this market where companies assess performance and make their STI grants at the completion of the performance period.* The is no disclosure of any specific and quantified performance measures for the performance shares, which limits shareholder transparency of the award, especially given that the company is asking shareholder approval for grants in respect of which limited information is provided.

Breville Group Limited	BRG	Australia	11/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. Although concerns are noted as follows, pay and performance and shareholder outcomes appear reasonably aligned for the year under review: "The CEO's total pay is more than twice the CEO pay at companies of similar industry and size, which may result in a pay-for-performance misalignment in the future;" "The grant of deferred share rights to the CEO as part of fixed pay appears to be made in advance for FY25. This has the advantage to receive any share price appreciation before actually becoming entitled to the fixed remuneration beyond the first year.;" "While the CEO's FY21 total fixed pay (including deferred share rights) is not considered excessive at this time, it warrants continued monitoring as it is expected to increase substantially to \$2.2 million in FY22 and by \$350,000 in FY23;" "The specific and quantified targets and weightings used to determine STI are not disclosed, making it difficult to evaluate whether the performance measures are sufficiently challenging.;" "The FY21 LTI awards were not put to shareholder vote before the grant, representing a non-conformance with accepted market practice and shareholder interests. While there is an ASX listing rule exemption, many companies and shareholders acknowledged that good governance practice is to put LTI awards to shareholders for approval.;" "The CEO's LTI is also substantially higher compared to peers; and" "The LTI performance hurdles are undisclosed and LTI is no longer subject to a relative performance metric.

Breville Group Limited	BRG	Australia	11/11/2021	Elect Director	Elect Lawrence Myers as Director	For	For	A vote FOR independent non-executive directors Peter Cowan (Item 3) and Lawrence Myers (Item 4) is warranted as no material issues have been identified regarding board and committee composition resulting from their nomination.
Breville Group Limited	BRG	Australia	11/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights and Deferred Share Rights to Jim Clayton	Against	Against	A vote AGAINST the grant of performance rights and deferred share rights to Mr Clayton is warranted because: "The performance rights are not subject to any relative performance measure as in the FY21 LTI. Rather, the proposed LTI is equally based on absolute CAGR in EBIT and sales growth CAGR.;" Cliff vesting (all or nothing approach) appears to apply to the CAGR in EBIT metric. Such vesting schedules are not in line with market practice as alignment with investor interests is better served with a graduated scale for vesting, providing for a higher bonus at a corresponding higher level of performance. Under an all-or-nothing approach, once the target is achieved there is no incentive for higher levels of achievement.;" The performance hurdles for performance rights are not disclosed, which makes it currently impossible for shareholders to make an informed decision whether or not the executive will only be provided a reward for materially improved company performance.;" The quantum (\$2.1 million) of performance rights is excessive compared to peers.;" The deferred share rights represent a part of the fixed remuneration component of the CEO's pay package for FY23, FY24, FY25 and FY26, and will be granted in three separate tranches of 12,077 rights (additional deferred share rights for FY23 to FY25) and one tranche of 29,330 rights for FY26. Advance grant of deferred share rights enables the executive to receive the upside of any share price appreciation prior to becoming entitled to the award; and" In the event of a change in control, unvested performance rights and deferred share rights will vest in full.
Breville Group Limited	BRG	Australia	11/11/2021	Approve or Amend Severance Agreements/Change-in-Control Agreements	Approve Potential Termination Benefits	For	For	A vote FOR this resolution is warranted. Breville Group Limited	BRG	Australia	11/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve Increase of Non-Executive Director Fee Pool	For	For	A vote FOR this resolution is warranted as the current headroom may not be sufficient to provide future flexibility to attract and retain directors considering the recent increase in director fees, and the proposed increase is not considered excessive. Also, overall non-executive director fees are not considered excessive at this time.

BrainChip Holdings Ltd.	BRN	USA	24/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report (Item 11) is warranted. * Quantitative pay for performance analysis indicates a low degree of concern for any misalignment. * The CEO's fixed remuneration is broadly consistent with peer groups. * Bonus outcomes do not appear materially inconsistent with the company's results, and * There were no LTIs due to vest during the year. The recommendation is qualified to highlight the following concerns: * The grant of long-term equity incentives to non-executives in addition to the director fees is inconsistent with good governance and market practice amongst ASX300 companies given that these may impact independent judgment and decision making. * Poor disclosure of STI targets, with no information on weightings and specific and quantified targets, denying shareholders transparency to independently assess the targets and performance. * Excessive termination payments (equivalent of 24 months of fixed pay) for some members of the KMP in their service contacts. * Absence of minimum shareholding guidelines for executives and directors.

Constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preference of many shareholders.

Bluescope Steel Limited	BSL	Australia	18/11/2021	Approve Share Plan Grant	Approve Grant of Share Rights to Mark Vassella	For	For	A vote FOR the grant of share rights representing the deferred STI (Item 4) and alignment rights representing a conventional LTI (Item 5) is warranted because the terms of the proposed grants are not overly problematic and consistent with prior years. However, concerns are noted for the request for shareholder approval of the maximum FY22 STI when the year has not concluded and may allow executives to receive a much higher STI if the share price appreciates substantially. This is inconsistent with market practice where the STI is a dollar amount and offered at the end of the year. Added concerns are noted in the LTI given an absence of a relative performance measure and the use of cliff vesting may represent a source of concern in engaging with the board.

Bluescope Steel Limited	BSL	Australia	18/11/2021	Approve or Amend Severance Agreements/Change-in-Control Agreements	Approve Potential Termination Benefits	For	For	A vote FOR Approval of the Potential Termination Benefits is warranted on the basis that this resolution does not seek to increase or change the company's existing policy and practices, and approval does not guarantee that a relevant person will receive termination benefits, but rather preserves the discretion of the board to determine the most appropriate termination package. However, shareholders may note the following concerns: " Upon termination of CEO/KMP employment by notice without cause, a termination payment of additional 12 months annual base pay may apply." In the case of retirement, redundancy or agreed resignation, rights under the equity incentive plans do not automatically lapse, but rather, vesting ultimately remains at the discretion of the board. Any accelerated vesting of awards without respect for time elapsed or performance conditions is not consistent with best practice or market expectations.
Bluescope Steel Limited	BSL	Australia	18/11/2021	Approve Increase in Size of Board	Approve the Increase in the Maximum Number of Directors from 10 to 12	For	For	A vote FOR this proposal is warranted as it will help to facilitate a board succession, and an overlap in directors to facilitate knowledge transfer. Shareholders may question why there is any limitation placed on how many directors that shareholders may appoint to the board, given appointment of directors is a shareholder right, which should not be limited. Such limitation represents a corporate governance concern.

Bravura Solutions Limited	BVS	Australia	24/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted. The remuneration framework is unchanged from the prior year and presented in the remuneration report in a clear and transparent manner and disclosure is above par. The remuneration outcomes in FY21 are reasonably aligned with the company's performance. Other positive factors are as follows: " The entire FY21 STI was focused on group NPAT, and targets were not achieved which resulted in nil bonuses were paid during the year. This outcomes is not misaligned with company performance during the year; " No LTI vesting in FY21 as the targets that was measured for the three-year period were not achieved; and " The new CEO's fixed remuneration is set approximately 15 percent less than his predecessor's fixed remuneration (not including retirement benefits) and is better aligned with the median of market cap and industry peers. However, the following concerns are identified: " A high level of concern identified in the Sustainability Advisory Services quantitative pay for performance analysis, stemming primarily from the substantial LTI grant, while noting that there was no LTI vesting in the year; " There currently is no requirement for any deferral of the STI bonus which represents a material departure from Australian market investor expectations and widely accepted local market practice; and " There is no minimum shareholding guidelines for executives and directors. It is increasingly expected by shareholders that companies establish a requirement for directors and executives to have a minimum holding of shares to better align the interest of shareholders and directors and executives.

Brambles Limited	BXB	Australia	19/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted as no material misalignment between pay and performance and shareholder outcomes has been identified for the period under review. Quantitative pay for performance analysis also indicates a low degree of concern for misalignment of outcomes. There were no increases in fixed remuneration in FY21, being deferred to FY22; the remuneration structure is broadly consistent with market; there is good disclosure of the current year STI performance hurdles, and performance measures adopted for use in the LTI award are aligned with shareholder interests. Concerns include the extent of the Board's discretion to amend any LTI performance measures, if they do not achieve their original purpose.

Concerns include: "the ability of the Board to make amendments to performance conditions if they will not achieve their original purpose, even though any amendments will be no less difficult to satisfy, and" the lack of disclosure of vesting scale for the relative TSR performance measures which is unusual for this type and size of company and inconsistent with shareholder expectations.

Citigroup Inc.	C	USA	26/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	There is concern raised by annual incentive pay determinations which, although guided by wide-ranging performance assessments, are ultimately determined discretely. Moreover, investors may question the need for additional award opportunities in furtherance of goals to address problems around risk and control, when related performance assessments resulted in incentive pay reductions in the prior year. While these issues warrant continued close monitoring, there are sufficient mitigating factors. Specifically, CEO pay and company performance are aligned for the year in review, and the increase in the CEO's incentive awards for the 2021 performance year directionally aligns with the company's modestly improved financial performance. Further, the CEO's long-term incentives are predominantly performance-conditioned with clearly disclosed multi-year goals that were recently increased. Lastly, in a supplemental filing the board has elaborated on the proxy's disclosure regarding the rationale and mechanics of the one-time awards. While the additional disclosure does not fully mitigate concerns, it does address several deficiencies in disclosure in the proxy statement. On balance of these factors, a cautionary vote FOR this proposal is warranted. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure and one-time pay decisions.

Carsales.Com Limited	CAR	Australia	29/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this remuneration report is warranted.* The structure has changed to be more in line with market practice.* STI bonus outcomes reflect improved financial performance of the company in FY21.* 70 percent of a prior LTI grant relating to TSR and EPS did not vest in FY21, reflecting alignment with longer term returns.* There is good disclosure of the financial objectives in the STI which indicate higher targets compared to the prior year.* Specific concerns for shareholders that warrant the qualification include:* Excessive STI bonus in FY21.* Poor disclosure of the non-financial (strategic) targets in the STI and LTI awards.* The non-financial strategic measures incorporated into both the STI and LTI awards can lead to a double counting of bonuses for achieving the same objectives.* non-financial measures typically include objectives that are part of the CEO's (and senior executives') core day job responsibilities which should not be included in long term award structures as they are difficult to assess and rely on board discretion, and* Lack of minimum shareholding requirements for the CEO and KMPS.

The primary concern is that the deferral portion falls short of the 50 percent typically expected amongst larger companies in the ASX100 index.A qualified vote FOR the FY22 LTI grant of performance rights is warranted. The grant has 70 percent of its performance measures linked to financial measures which are generally accepted in the local market, including relative TSR and EPS growth over a three year performance period.The qualification is to highlight several concerns including:* The quantum of the award has increased and considered excessive, being well above the median of LTI awards at similar sized and industry peer companies.* Strategic performance measures accounting for 30 percent of the award have undisclosed performance targets and misaligned with objective financial and shareholder outcomes. Such metrics typically involve subjective Board assessment of performance, which include core day job responsibilities for the CEO and appear to involve duplication of strategy objectives within the STI.

Commonwealth Bank of Australia	CBA	Australia	13/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that no significant misalignment between pay and performance and shareholder returns has been identified in the period under review. Specific concerns for shareholders include: * Fixed remuneration increases for the CEO and KMPs are in excess of general salary inflation, * A high bias to non-financial outcomes in the STVR with a weighting of 70 percent is problematic, with many of the non-financial objectives appearing little more than bonuses for day job responsibilities, * Lack of disclosure of non-financial targets to justify the board's assessment of performance, * Introduction of a Long Term Alignment award, which has tenure-based service conditions rather than testing of disclosed and rigorous performance hurdles.
Commonwealth Bank of Australia	CBA	Australia	13/10/2021	Approve Share Plan Grant	Approve Grant of Restricted Share Units and Performance Rights to Matt Cornyn	Against	Against	A vote AGAINST this resolution is warranted. While the grant of performance rights is aligned with shareholder interests of a four-year performance period with additional deferral and vesting subject to relative TSR compared to two disclosed peer groups, concerns are raised for the inconsistency of the RSUs with shareholder interests: * The quantum of the long-term award has increased substantially due to an 8.7 percent increase in the CEO's fixed remuneration which is well above general salary inflation. * The grant of RSUs is valued at \$1.75 million and subject only to ongoing service and board discretion to apply malus and clawback provisions. Without disclosure of substantive performance conditions, this component of the award essentially represents deferred fixed remuneration issued as equity. The case has not been made by the bank to support the grant of RSUs which are considered to represent a problematic pay practice in the Australian market and inconsistent with shareholder interests and expectations for long term equity grants. Concern is also raised how the board has made the case to shareholders that the APRA regulatory standard on remuneration (CPS 511) has been satisfied through the grant of RSUs given the absence of appropriate disclosure of rigorous non-financial performance measures.
Commonwealth Bank of Australia	CBA	Australia	13/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board has confirmed its willingness to consult with the shareholder proponents with a view to addressing shareholder requirements.

Additionally, the majority of CEO pay remains conditioned on objective performance metrics, and the CEO agreed to reduce his pay during the year in review in light of the ongoing challenges presented by the COVID-19 pandemic.

Despite poor company performance and a lack of disclosure of goals, the annual bonus paid out at maximum. Furthermore, the company made a change to FY21 equity grants, which are now entirely in time-vested equity. It is incumbent upon a compensation committee to utilize pre-set performance metrics when setting executive compensation, and many investors view a shift from performance-based to entirely time-based or discretionary incentive awards as a problematic response to COVID-19 related market disruption.

Credit Corp. Group Limited	CCP	Australia	4/11/2021	Elect Director	Elect Eric Dodd as Director	For	For	A qualified vote FOR the re-election of Eric Dodd (Item 2a) and Richard Thomas (Item 2b) is warranted as they are classified as non-independent directors under ISS Australian Benchmark Policy due to excessive tenure on the board (> 12 years). The qualification serves to also highlight three out of six non-executive directors with excessive tenure are classified as non-independent by ISS, resulting in a board that is not majority independent (only 50-percent independent). A vote FOR the election of independent director Phillip Aris (Item 2c) is warranted as no material concerns have been identified regarding board and committee composition resulting from his nomination.

Credit Corp. Group Limited	CCP	Australia	4/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR this resolution is warranted. The headroom in the existing cap, based on FY22 remuneration, will be insufficient to accommodate more than one additional director, which may be necessary as part of a board increase and refreshment – noting that half the board is considered non-independent due to excessive tenure. This recommendation is qualified to highlight the significant level of increase in the fee cap (36.4 percent) and the significant increases to director fees in FY22 (+12.5-15.8%)
Credit Corp. Group Limited	CCP	Australia	4/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted as the company's financial and share performance and the remuneration outcomes appear sufficiently aligned at this time. While it is expected for both STI and LTI to be earned at their maximum opportunity, this is not misaligned with shareholder outcomes. However, this qualification is to highlight the following: "The STI plan remains highly subjective with limited disclosure of metrics and goals;" Only 30 percent of the STI bonus is based on financial performance; and" The size of the LTI grants is not clearly disclosed, making it difficult for investors to determine its level dilution and whether grants were excessive.
Codan Limited	CDA	Australia	27/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given no material misalignment between pay and performance and shareholder outcomes has been identified in the period under review. However, this recommendation is qualified due to the following issues: "The STI bonus pool structure is somewhat problematic given that a bonus may still be earned even if there is a decline in company performance and shareholder outcome;" The basis of the STI pool is a percentage of EBIT, which is uncapped, although individual STI bonuses are capped at 100 percent of fixed salaries;" There is no disclosure of how the bonus pool is divided among executives, nor how the bonuses were determined;" The threshold under LTI is not challenging, as it only requires the company to achieve the same EPS over the three-year performance period; and" The increase to Paul Sangster's fixed remuneration exceeds the market average and the company did not disclose a reason for the increase.

Mr Simmons is classified as non-independent by Sustainability Advisory Services due to excessive tenure on the board (>12 years).

Ceridian HCM Holding Inc.	CDAY	USA	3/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	While pay and performance appear reasonably aligned at this time, some concerns are raised regarding incentive program actions and structures in FY21 and for FY22. While performance shares were introduced in FY21, performance is measured over a one-year period with the same metrics and goal as the annual incentive program. The compensation program therefore lacks a true long-term performance aspect and risks providing significant payouts for short-term performance. Continued monitoring of pay outcomes in FY22 is also warranted as the company implements a co-CEO leadership structure. Moreover, the compensation committee has demonstrated only limited responsiveness to last year's failed say-on-pay vote. While the company has committed to certain additional compensation program changes in FY22, some of the responsive actions were known to shareholders prior to the 2021 annual meeting and do not meaningfully address all of shareholders' concerns. Given this insufficient responsiveness, a vote AGAINST this proposal is warranted.

CFG	USA	28/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. Concerns continue to be raised by the heavy reliance on compensation committee discretion in determining total executive pay. In addition, the forward-looking goals for the performance shares remain undisclosed and the committee granted retention awards to senior executives, including NEOs. While these issues warrant continued shareholder monitoring going forward, there are mitigating factors. Notably, the use of discretion has not resulted in a quantitative pay-for-performance misalignment and the increase in performance year pay is directionally aligned with overall company performance. Moreover, equity awards, including the retention awards, are largely performance based and utilize a multi-year measurement period, and the goals are disclosed retroactively. Shareholders are advised to monitor the company's incentive pay structure, particularly should CEO pay and company performance become misaligned going forward.

Nevertheless, ongoing issues that remain of concern to warrant this qualification include: The re-weighting of the STI bonus away from quantitative financial performance measures in the STI with 60 percent based on an assessment of non-financial measures which appear more like "day job" duties of the CEO and executives.* The high level of Chairman fees well above median.* The LTI award allows for re-testing one year after the initial four-year performance period and there is no positive TSR gateway requirement.

Charter Hall Group	CHC	Australia	11/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted. Quantitative analysis indicates a medium level of concern of misalignment of pay, performance and shareholder outcomes. While financial performance and investor returns have been good, the CEO's total remuneration is well above the median of market cap and industry peers. The remuneration framework continues to be well structured, with CEO fixed remuneration being in line with market peers, while bonuses are also consistent with targets and results, however, somewhat outsized. The primary reason for this recommendation is the proposal to offer the CEO a near \$16 million retention grant as proposed in Item 6 of the agenda. This is in addition to the STI and LTI opportunities which are disclosed to be increasing in FY22 and the maximum STI and LTI vesting outcomes in FY21. While the board proposes certain performance measures (include TSR CAGR in the range of 12-15 percent) in the retention grant, these are not considered to involve sufficient rigor especially noting the disclosure as part of the FY19 LTI vesting outcomes that TSR over the performance period was 36.8 percent per annum. Concerns in the FY21 remuneration report are also noted in regard to the following: " The CEO's STI bonus and LTI grant which are well above the median of market cap and industry peers. In FY22, the CEO's target STI opportunity will also increase from 100 percent to 150 percent of fixed remuneration and the target LTI opportunity will increase from 150 percent to 200 percent of fixed remuneration, representing a material increase in the CEO's total remuneration opportunity moving further above many market cap and industry peers.* There is a continued absence of appropriate transparency of specific and quantified STI targets which represents inferior disclosure compared with the better practices amongst market cap and industry peers;" The allocation of LTI awards is based on fair value which is inconsistent with good governance expectations and practices of the vast majority of market cap and industry peers. The fair value methodology is an accounting requirement however is broadly discredited for the purposes of determining LTI grants given this results in obfuscating excessive remuneration.* The TSR comparator group in the LTI is overly narrow; and" The relative TSR hurdle lacks a positive TSR gateway to ensure vesting of bonuses for positive investor returns.
Charter Hall Group	CHC	Australia	11/11/2021	Approve Share Plan Grant	Approve Issuance of Service Rights to David Harrison	For	For	A vote FOR the resolutions to approve the grant of service rights (Item 4) representing the deferred FY21 STI bonus and the FY22 LTI grant of performance rights (Item 5) is warranted.* The FY21 STI bonus deferral is consistent with market practice and no material misalignment with performance has been observed in relation to the FY21 STI, and* The FY22 LTI grant has relative TSR and Operating EPS growth targets which are aligned with improved performance and shareholder returns. However, concerns are raised for " the high quantum of the STI and LTI awards," the narrow TSR comparator group in the LTI," the lack of a positive TSR gateway in the LTI grant,* allocation of the service rights and performance rights using a discounted "fair value" of securities, and* OEPS growth targets in the LTI of 5 percent to 7 percent appearing to be less than rigorous having regard to the recent strong results.
Charter Hall Group	CHC	Australia	11/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to David Harrison	For	For	A vote FOR the resolutions to approve the grant of service rights (Item 4) representing the deferred FY21 STI bonus and the FY22 LTI grant of performance rights (Item 5) is warranted.* The FY21 STI bonus deferral is consistent with market practice and no material misalignment with performance has been observed in relation to the FY21 STI, and* The FY22 LTI grant has relative TSR and Operating EPS growth targets which are aligned with improved performance and shareholder returns. However, concerns are raised for " the high quantum of the STI and LTI awards," the narrow TSR comparator group in the LTI," the lack of a positive TSR gateway in the LTI grant,* allocation of the service rights and performance rights using a discounted "fair value" of securities, and* OEPS growth targets in the LTI of 5 percent to 7 percent appearing to be less than rigorous having regard to the recent strong results.
Charter Hall Group	CHC	Australia	11/11/2021	Approve Share Plan Grant	Approve Issuance of ROP Performance Rights to David Harrison	Against	Against	A vote AGAINST the issuance of ROP performance rights to the CEO is warranted. This represents a grant of approximately \$16 million at the prevailing share price which is materially in excess of accepted standards in this market. It is noted that the CEO's existing STIs and LTIs have vested at maximum levels in FY21 and disclosure indicates that STI and LTI opportunities will be increased from FY22. Quantitative pay for performance analysis indicates a medium level of concern for misalignment of remuneration, and this grant exacerbates concerns. Additional concerns are noted that: " The ROP appears to be intended as a one-off retention mechanism, however, this is in addition to annual STI and LTI opportunities, and the quantum is grossly in excess of what shareholders in this market typically accept as reasonable.* The TSR growth in the range of 12 percent to 15 percent per annum is not considered to represent sufficient outperformance to warrant a \$16 million bonus at prevailing face value, having regard for the fact that three-year OEPS disclosed in the vesting of the FY19 LTI was 22.5 percent and TSR growth over that period was 36.8 percent.* Disclosure indicates that the calculation of performance against the performance conditions and the vesting outcomes will be determined by the Board in its absolute discretion which raises material concern for an excessive and misaligned remuneration opportunity and the nature and extent of board discretion.

Chalice Mining Ltd.	CHN	Australia	24/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A vote FOR this resolution is warranted. The company appears to have sufficient headroom to provide future flexibility to retain the current directors, but the proposed increase may be needed to create the capacity to appoint additional non-executive directors when determined appropriate. In addition, the proposed increase of \$200,000, or 30.8 percent is not unreasonable, particularly when the proposed new fee cap is compared to other companies in the S&P/ASX 200. Without the option grants, non-executive director fees are also not considered excessive relative to peers.

Champion Iron Limited	CIA	Canada	26/08/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted. Problematic pay practices continue to be observed, which fall below better market standards in the Australian market, namely: " Absence of cogent information on vesting and achievement of targets, or otherwise, in prior LTI grants." Substantial vesting under the PSU for below median results;" A substantial component of the LTI (40 percent) allows for time-based vesting only through use of RSUs, which vesting beginning at year one which is inconsistent with the long-term focus of investors;" The company persists in failing to provide shareholders with the opportunity to consider and express their views on the terms of the LTI grant for FY22 given the absence of an LTI resolution." Quantitative Pay-for-Performance analysis suggests that under the multiple of peer median test, pay outcomes have not been well aligned to peers.

It is expected that any future grants to the executive directors will be submitted to a shareholder vote.

CIMIC Group Limited	CIM	Australia	6/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST the remuneration report is warranted due to the following: * Continued absence of disclosure of the specific and quantified STI targets preventing shareholders from independently evaluating the rigor of targets and alignment of bonuses with targets and performance. * The company discloses bonuses on a lagging basis (i.e. the STI bonus disclosed in the 2021 annual report is the bonus paid in respect of FY20 performance) which is inconsistent with ASX-listed entities and prevents shareholders from understanding any link between company performance and STI outcomes. * Rigor of the performance measures is questioned given that the bonuses paid in FY21 for FY20 performance are substantial when the company's FY20 operating cash flow was materially lower than FY19 and there was a fatality recorded in January 2020. * The CEO/Executive Chairman and the former CFO received a substantial "special cash payment" in addition to their STI which appears discretionary in nature and without disclosure of justification for such payments. * Disclosure indicates that FY21 STI bonus payments are subject to review in Q1 2022 being inconsistent with the transparency afforded to shareholders by ASX-listed entities.

Collins Foods Limited	CKF	Australia	27/08/2021	Approve Restricted Stock Plan	Approve Collins Foods Limited Executive and Employee Incentive Plan	For	For	A vote FOR approval of the Executive and Employee Incentive Plan is warranted. The plan, which is not exclusive to senior executives, establishes the broad framework for equity incentives to be made to employees. It is expected that any future grants to the executive directors will continue to be submitted to a shareholder vote. Based on the company's disclosure regarding EPS growth and TSR targets in the FY22 LTIP grant (see Item 5), there appears no cause for corporate governance concerns.
Collins Foods Limited	CKF	Australia	27/08/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Drew O'Malley	For	For	A vote FOR the grant of performance rights and options to Managing Director and CEO Drew O'Malley is warranted. The grant is made under the terms of the company's LTI plan, which is broadly in line with accepted market practice, namely: "The performance period is three years which is the minimum accepted period in this market." "Quantum is not excessive at \$858,825." "The FY22 LTI grant introduces a second performance metric, being relative TSR, which will align executive reward with outperformance against peers." "The company also uses EPS growth as the second performance measure with cumulative growth in the range of 5.5 percent to 16.5 percent, being unchanged from the prior year and considered to be reasonably aligned with improved shareholder interests." "The targets are well disclosed, which is in line with investor expectations for better transparency."

" There is a low degree of concern for misalignment of executive remuneration with results and shareholder outcomes in the quantitative pay-for-performance model." "The specific and quantified STI and LTI performance hurdles are well disclosed, which is in line with investor expectations for appropriate transparency." "STI and LTI outcomes are not inconsistent with company performance and achievement of targets." "The level of the CEO's LTI is in line with the median of the ASX176-200 and vesting of prior period grants in not unreasonable having regard to results." "There was no exercise of any upward board discretion over outcomes."

The remuneration practices of the company on balance are in line with local market standards. "The material terms of the LTI grant is in line with local market standards, particularly the vesting and performance hurdles attached to the grant. The financial performance measures appear reasonably aligned with shareholder interests. Nevertheless, shareholders may be concerned with the non-disclosure of the specific targets in respect of the LTI grant and the absence of any objective market based relative performance measures, such as TSR, which can be directly linked to shareholder outcomes."

Class Ltd. (Australia)	CL1	Australia	18/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed constitutional amendment includes wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Canadian Imperial Bank of Commerce	CM	Canada	7/04/2022	Company-Specific -- Miscellaneous	SP 3: Approve French as an Official Language	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank has noted that it publishes all annual shareholder meeting materials in both French and English, provides simultaneous translation of meeting proceedings, including the ability for shareholders to present their proposals live in French with simultaneous translation to English, and ensures that questions that can be asked in both languages. In addition, the company's clients, shareholders and members can communicate with the company, receive services or communications, and work, in French all over Quebec. Considering the above and the fact that the bank is already complying with all laws and regulations applicable to doing business in Quebec, including those that pertain to the French language, the request of the proponent to amend the bank's by-laws to include French as the official language of the bank appears to be overly prescriptive and hence a vote AGAINST this shareholder proposal is warranted at this time.

While annual and long-term incentives were primarily based on pre-set, financial performance targets, the committee will again increase the maximum opportunity under the short-term program after lowering it for FY21. In addition, the committee made a sizable retention grant to the CEO which is entirely time-based. The grant will also vest after a relatively short period of time, with 40 percent of the award vesting less than 18 months after the grant date. While the proxy discussed the committee's justification regarding a need to retain the CEO, the grant was outsized compared to annual compensation and the rationale in omitting performance criteria was not viewed as compelling.

Capital One Financial Corporation	COF	USA	5/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Annual incentive pay determinations, while guided by wide-ranging performance assessments, are ultimately determined discretely. Investors increasingly prefer an incentive program design that emphasizes objective and formula-driven determinations, which may incorporate discretion to a limited degree. While these issues warrant continued close monitoring, there are sufficient mitigating factors for the year in review. Specifically, the discretionary pay determinations have not resulted in a quantitative pay-for-performance misalignment. The increase in CEO incentive awards directionally aligns with the company's improved financial and stock price performance. Moreover, the CEO's long-term equity incentives are predominantly performance-conditioned with clearly disclosed multi-year goals. On balance of these factors, a cautionary vote FOR this proposal is warranted. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of discretionary pay decisions.

Cochlear Limited	COH	Australia	19/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the Remuneration Report is warranted, given the company's improved performance in FY21 which seems correlated with STI bonuses, while LTI vesting in FY21 relating to the FY19 grant was at 25 percent and regarded as a fair outcome. Further, in FY20 no STI bonuses were paid due to weaker results and LTI vesting was reduced at 46 percent. The following concerns warranted qualification and explanation by the board:" FY21 STI bonuses were significant and at an average of 80 percent of maximum, which is high given an absence of disclosure which would typically represent appropriate justification for bonuses;" The company adjusted the FY21 STI performance measures mid-year to reduce the weighting of financial metrics and increase the emphasis on strategic measures;" There was no disclosure of the STI performance targets for the NPAT gateway, Sales growth or strategic objectives;" Persistently high weighting to strategic performance measures represents bonuses for "day job" of a CEO and executives, given that success would be rewarded in conventional accounting metrics and shareholder returns;" The increase in weighting of strategic objectives from 40 to 60 percent in FY21, accompanied by limited disclosure of achievements, leads to concerns that this has become an increasingly discretionary bonus based on the Board's assessment of "strategy"; " Use of a discounted value to determine the number of performance rights is inconsistent with good corporate governance, market practice and shareholder expectations, where face value (prevailing undiscounted share price) is used in determining the number of rights to be granted.

While acknowledging the company's strong financial and share price performance for the year in review, a quantitative pay-for-performance misalignment is identified and underscored by several concerns regarding incentive programs. First, annual incentives, while based on an objective scorecard, lack clear disclosure of threshold and maximum goals for many metrics. This limits investor ability to assess payouts and goal rigor from year to year. The committee also used discretion to increase payouts in FY21. Long-term incentives, while mostly performance-based, target merely median performance and lack a cap on vesting for negative TSR. This is particularly concerning as PSUs have been earned above target for the last four performance cycles.

Following a low say-on-pay vote result, the company disclosed some engagement efforts with shareholders. The proxy also listed specific feedback heard from shareholders, and the company made changes to the pay program to address these concerns. In particular, in a supplemental filing, the company discloses that it recently amended the CEO's June 2020 grant to include a requirement that its unvested options may not be exercised unless a stock price hurdle is achieved and sustained for at least 20 consecutive days prior to exercise. The company also recently amended other NEOs' grants to include a 20 consecutive trading day requirement, in addition to the stock price hurdle.

Computershare Limited	CPU	Australia	11/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. Excluding margin income, which was impacted by historically low global interest rates, the company's FY21 operational results were positive and share prices have recovered from the prior year. This is aligned with STI outcomes which were paid above target. In addition, no LTI vested in FY21, which is aligned with flat shareholder returns over the three-year performance period. However, changes to the STI and LTI and other perennial practices have raised structural concerns. The key concerns are as follows:" The level of the CEO's total pay triggered a high level of concern for misalignment in the Sustainability Advisory Services quantitative pay for performance analysis;" The board replaced the STI's EPS component with a more subject measure of strategic objectives;" While STI weightings were disclosed this year, it revealed that a majority of the STI is weighted on non-financial metrics;" Non-disclosure of STI targets and the EBITDA budget prevents shareholders from assessing if targets have been set at sufficiently challenging levels." Many of the non-financial measures in the STI are considered part of the CEO's core job responsibilities for which fixed remuneration is paid;" STI bonuses were earned above target despite declining statutory NPAT and EPS;" Half of the FY21 LTI is in the form of SARs which is based on share price appreciation with no further performance hurdle, which is not sufficiently challenging;" The relative TSR performance hurdle in the LTI lacks a positive TSR gateway which could result in shares being earned despite negative shareholder returns;" The quantum of the STI outcomes and LTI grants are excessive when compared to the peer group median; and" The absence of minimum shareholding requirement hinders alignment of senior executives and directors with shareholder interests.
Computershare Limited	CPU	Australia	11/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Stuart Irving	For	For	A qualified FOR this resolution is warranted because the terms of the LTI are broadly in line with market expectations having appropriate performance criteria (e.g. relative TSR, EPS and ROIC growth), three-year performance period and vesting should generally align with shareholders' outcomes.However, this qualification is due to the excessive value of the award having increased significantly in recent years and being more than twice the value of LTI awards at similar size companies and 3.5 times the median of the peer group.
Computershare Limited	CPU	Australia	11/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR the proposed increase in the non-executive directors' aggregate fee pool is warranted. Non-executive director fees are presently lower than the median of ASX-listed market cap peers and an industry peer group. The company discloses that given that the US component of its business will increase significantly, there is a requirement to appointment additional US-based directors. Additionally, the company intends to undertake a chair succession which will also result in an adjustment of the chair's fees.Accordingly, support for this proposal is on the basis of the intention to undertake board refreshment, appointment of additional offshore directors predominantly from the US, a potential overlap of directors as part of orderly succession and an increase in individual directors' fees, which are presently below the median of peers.Concerns are highlighted that the proposed increase of 30 percent in the non-executive director fee pool is significant.

However, support is warranted because: * The opportunities are within the scope of the approved remuneration policy (both old and new). * Pay and performance were convergent this year. * Bonuses were reduced, despite outperformance, and bonus and LTIP targets were revised upwards mid-bonus-cycle.

Furthermore, though a concern is noted regarding non-CEO NEO grants consisting of majority time-vested equity, the majority of the grant for the full year CEO was in performance-conditioned equity with a rigorous performance target measured over a multi-year period. Continued monitoring of the pay program is warranted, however, as the company has entered into a co-CEO structure that will compensate two executives at CEO levels, and shareholders should ensure that relatively large pay packages are commensurate with sustained outperformance.

CSL Limited	CSL	Australia	12/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report (Item 3) is recommended.* The company has again reported steady growth and improved financial performance in FY21.* STI bonuses and LTI vesting are in line with the company's financial performance and shareholder returns, however, the quantum is very high.* There is improved disclosure of the remuneration structure and STI targets and restraint in executive fixed remuneration increases were implemented in FY21.* Further enhancements are disclosed to be scheduled for FY22. The qualification is to highlight persisting concerns that: "The quantum of remuneration paid to the CEO has raised a high level concern in the quantitative Pay for Performance analysis, 2.2 times the median of the Australian market peers," Chairman and NEDS fees are well above the median of similar sized Australian companies and peers,* STI bonuses have been reweighted away from financial performance measures with 40 percent based on non-financial measures which are considered to be 'day job' responsibilities,* The LTI is excessive by Australian standards, and the FY21 LTI grant had two tranches with short vesting periods of one and two-years, and the remaining two tranches with vesting periods of three and four years, and" The ROIC hurdle in the LTI is inconsistent with Australian market practices, as it is tested on a rolling seven-year basis which includes the prior four-year results in the seven year performance period, with the next three years' results being the unknown – this is regarded as increasing certainty of achievement and vesting.
CSL Limited	CSL	Australia	12/10/2021	Approve Share Plan Grant	Approve Grant of Performance Share Units to Paul Perreault	Against	Against	A vote AGAINST the grant of PSUs to CEO Paul Perreault is warranted.* The quantum of the award is excessive.* The seven-year performance period for the ROIC performance measure includes four prior years' performance outcomes that already known and achieved and may allow the performance targets to be achieved with lower performance over three prospective years – this structure may provide for greater certainty of vesting, with the potential of smoothing or diluting the executive reward for performance that has already been achieved.* The maximum ROIC hurdle have been reduced from 23 percent in the FY21 LTI grant to 21.4 percent, whereas the threshold ROIC remains unchanged at 20 percent – this also represents a very narrow range of performance.* The Investment Hurdle Rate (IHR) gateway measure continues not to be disclosed, and* The Earnings Per Share growth targets have been set at an insufficiently challenging level with a threshold set at 5 percent.
CSL Limited	CSL	Australia	12/10/2021	Renew Partial Takeover Provision	Approve Renewal of Proportional Takeover Approval Provisions in Constitution	For	For	A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. CSR Limited	CSR	Australia	30/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. * There is low concern for misalignment in the quantitative pay-for-performance analysis. * Executive pay is not excessive relative to peers, and * The STI and LTI structures are unchanged from the prior year and remain consistent with market practice and shareholder interests. Concern is highlighted for the continuing poor and inferior transparency in the STI, with the absence of disclosure of specific and quantified STI targets, particularly the EBIT targets, noting that actual EBIT achieved in FY22 is readily ascertainable from the Annual Report.
CSR Limited	CSR	Australia	30/06/2022	Approve Share Plan Grant	Approve Grant of Performance Rights to Julie Coates	For	For	A vote FOR the grant of performance rights to CEO and Managing Director Julie Coates is warranted. * The performance period of three years aligns with the minimum accepted practice and the company has introduced a holding lock of one year; * There are two performance hurdles (5-10% EPS growth and relative TSR) which are well aligned with improved shareholder outcomes. The relative TSR performance metric includes a positive TSR gateway requirement, which represents superior practice to ensure a positive return to shareholders; and * Treatment of awards on termination and change in control do not automatically accelerate vesting.
CSR Limited	CSR	Australia	30/06/2022	Adopt New Articles of Association/Charter	Approve Replacement of Constitution	For	For	A vote FOR this resolution is warranted. * The proposed amendments to the constitution do not appear contentious. * The company states in relation to provisions for the use of virtual meeting technologies, that the proposed new constitution allows for the holding of physical and hybrid general meetings. The company also explicitly stated in the notice of meeting that it will not be able to hold a fully virtual meeting unless ASIC provides express relief under the Corporations Act 2001.

The committee used discretion for the second consecutive year to increase the CEO's annual incentive payout. While the FY20 adjustment was clearly explained and related to the COVID-19 pandemic, this year's proxy provided limited rationale regarding the committee's decision to use discretion to increase payouts. Further, FY20 bonuses remained below target opportunities, while the FY21 adjustment increased the payout to maximum-level. This also came in the same year as an increase to the CEO's salary and bonus target. Many investors may question the decision to use discretion to adjust payouts in consecutive years, particularly with limited rationale.

Corporate Travel Management Limited	CTD	Australia	28/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve the Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. Overall pay is not materially misaligned with the company's financial performance and shareholder outcomes. There was no payout under the STI and FY19 LTI as the performance hurdles were not met. However, the following LTI concerns are highlighted: * Two-thirds is subject to sufficiently demanding EPS growth hurdles, but the performance period is only two years which is considered short for LTI; * One-third was in the form of retention SARs and was only subject to conduct hurdles, including a 12-month service condition. These SARs already vested and were able to be exercised by participants. While there is a denial restriction of 12 months, the service requirement of one year is insufficient; and* The company also provided retention SARs to key Travel and Transport senior leaders subject service and conduct conditions until 30 June 2022.

The SARs, subject to Item 3b, are also subject to a three-year performance period. However, the SARs, subject to Item 3a, are only subject to a two-year performance period. Clinuvel Pharmaceuticals Limited	CUV	Australia	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted given the remuneration outcomes are not materially misaligned with company performance during the year. The company also provided additional transparency and disclosure in its remuneration report: "STI outcomes for the CEO at 70 percent of maximum is not inconsistent with the company's improved financial performance in FY21. The STI outcomes of other executives is marginally lower in FY21 compared to the prior year, which again is not misaligned with company performance." In terms of LTI outcomes, six percent of the CEO's FY20 LTI have so far vested with 29 months left to achieve any further vesting. No business generation incentives (BGIs) were achieved by the CFO during the year." There is improved transparency in the STI plan with the company. The recommendation is qualified to highlight the quantum of the CEO's remuneration which is excessive when compared to market cap peers and the Sustainability Advisory Services-selected peer group." The CEO's FY21 fixed remuneration is more than double and triple the medians of market cap peers (ASX 176-200) and the ISS-selected peers, respectively." The CEO's total remuneration in FY21 has resulted in a high level of concern for misalignment identified in the Sustainability Advisory Services pay-for-performance analysis, mainly resulting from the FY20 LTI grant (granted during FY21) with a face value of approximately \$35 million." In addition, whilst disclosure of the STI has improved over the prior year, the specific and quantified targets continue to be undisclosed, which makes it difficult for shareholders to independently evaluate whether the targets are sufficiently rigorous and consistent with their expectations.

The 2021 STI financial metric target was set lower than the prior year's results. However, the target was set higher than the prior year's results after excluding the incremental positive impact of the pandemic that resulted in discretionary reductions in 2020. However, the STI program is predominantly based on an objective financial metric, and 75 percent of long-term incentives are delivered in performance shares earned based on clearly disclosed multi-year goals. A pay-for-performance misalignment persisted for the year under review and sufficient mitigating factors were not identified. Annual incentive payouts are heavily impacted by individual performance factors, for which the committee provides limited disclosure of the considerations made when determining payouts. In addition, while the company added certain targets to the annual incentive plan scorecard, threshold and maximum goals are lacking, and disclosure of qualitative goals and achievements is also limited. Lack of such disclosure limits transparency into the pay-for-performance alignment of the program, impeding investors' ability to assess payouts and goal rigor from year to year. Lastly, in the LTI program, performance for the new ROCE metric targets merely the median of peers and, as the peer group is relatively small, a portion of the award will vest for any performance level that is not the bottom of the peer group. The TSR-based performance awards also continue to allow for above-target vesting for negative returns.

Dicker Data Ltd.	DDR	Australia	20/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. There is reasonable alignment of executive pay, with continued good financial performance and shareholder returns. * The company's remuneration structure is based primarily on a profit share based on varying percentages of net operating profit before tax for each executive, with modest fixed remuneration no LTI award. * In response to the prior year strike on the remuneration report, the board introduced a minimum shareholding requirement of 300 percent of fixed remuneration accumulated through after-tax own funds to ensure executives hold shares in the company. Of note, Chairman and CEO David Dicker has a significant shareholding of 33 percent of the company's equity and receives no fixed or bonus remuneration, and other executives have substantial shareholdings in the company. * While concerns continue to exist for excessive remuneration, such structures involving founders and long-serving executives are seen in other ASX-listed companies (including ASX200 IT services provider, Technology One, and especially in the financial services sector, such as Macquarie Group).

The recommendation is qualified to highlight concern that the company has not made the constitution and amendments publicly available for inspection by shareholders. * Such failure represents a material concern for appropriate corporate governance. * Without this document, shareholders are unable to verify the specific wording that will be changed in the constitution and noting that any move to completely eliminate any physical attendance at a meeting (i.e. permitting 'virtual-only' meetings) may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.

" The board introduced a minimum shareholding policy for executive and non-executive directors, although noting the Chairman and CEO, other Executive Directors and Non-Executive Directors have large shareholdings in the company; and " There continues to be reasonable alignment between executive pay under the profit share bonus structure with company performance and shareholder returns.

De Grey Mining Ltd	DEG	Australia	29/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted due to the following concerns: " Executive/Technical Director Andrew Beckwith and Company Secretary Craig Nelmes received significant increases to their respective fixed remuneration, and the company did not appear to disclose the rationale for the increase;" STI disclosure is inferior as the weightings, actual results, and some targets are undisclosed. In addition, executives received bonuses despite continued losses. However, the quantum is not problematic at this stage and considering good share price performance during FY21;" The LTIs granted may vest in less than three years from the date of grant, will fully vest upon a change in control, do not include a relative performance metric, and are not subject to a sliding vesting scale;" The STI measures are also utilised in the ZEP0s indicating that executives have the potential to be rewarded twice for the same objectives. Specifically, one third of the ZEP0s are evaluated annually in June against the STI scorecard. In addition, if the executive does not achieve the score of 65 percent or more on the STI scorecard, 50 percent of the ZEP0s under the applicable tranche will be cancelled, while the balance will vest solely subject to achieving the operating milestones. The award potentially allows for retesting in the event the original performance condition is not met;" Performance rights will vest based on share price appreciation targets and service condition only, which are not deemed acceptable against standards of corporate governance in Australia;" ZEP0s were also issued to directors with no vesting conditions, including Mr Beckwith, and vested in less than one month. The vesting period is not in line with local market standards and lack of any performance hurdles does not satisfy accepted standards of corporate governance in Australia; and" ZEP0s were also issued to non-executive directors, which is not considered acceptable under Australian investor guidelines.

Nevertheless, any grant to directors would require shareholder approval.

The Walt Disney Company	DIS	USA	9/03/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR the proposal is warranted, with caution. Meaningful improvements were made to address shareholders' concerns following last year's low say-on-pay vote, including the elimination of duplicate performance metrics in the STI and LTI programs in FY21 and an increased emphasis on performance-conditioned equity awards for NEOs in FY22. Additionally, highly paid Executive Chairman Iger retired at the end of FY21, alleviating concerns regarding duplicative high pay levels for the CEO and executive chairman roles. For the year in review, pay and performance were reasonably aligned, with CEO Chapek's pay levels generally set below his predecessor's compensation. Nevertheless, certain concerns are raised regarding goal-setting that warrant continued monitoring. In the annual incentive program, two financial targets were set well below actual performance in the prior year, without corresponding reductions to payout opportunities. In addition, improved disclosure would benefit shareholders, as a portion of long-term incentives also use undisclosed annual ROIC targets.

A qualified vote FOR the grant of LTI net-settled options to the CEO is warranted.* The EPS growth targets have increased from the FY21 grant to reflect recent improved performance. The options that vest will be net-settled, which means that only the value above the face value exercise price is provided to participants in the form of shares.* Concerns are noted for the significantly higher value of the proposed grant.

However, concerns are that a compelling case has not been well presented to shareholders in support of the increase, given there appears to be sufficient headroom (currently approximately \$320,000) to appoint two additional directors where current NED fees appear to be \$140,000 per annum.

Downer EDI Limited	DOW	Australia	4/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted given that the structure of remuneration policies and practices are reasonable and consistent with shareholders' expectations. Whilst remuneration outcomes are on the high side, bonuses have followed the trajectory of the company's financial performance in FY21. The company increased the base year earnings in setting the EPS component of LTI plan which represents a good governance. In addition, the Sustainability Advisory Services quantitative pay for performance analysis indicates a low level of concern for shareholders. The qualification is to highlight that the CEO's fixed remuneration and STI bonuses are higher than that of industry and index peers; the apparent lack of discretion to reduce STI bonuses in light of COVID-19-related support received from the New Zealand government; and the continued lack of disclosure of the quantifiable targets in terms of the STI financial hurdles.
