A board spill is not considered to be in the best interests of the Company or shareholders at this present time given that a number of changes have taken place in board composition and leadership since the Juukan Gorge destruction in May 2020. Disclosure also indicates that the Board engaged with shareholders regarding prior year shareholder concerns and detailed the following changes to its remuneration framework in response: " Establishing a Consequence Management Framework which comprises a series of questions to be considered by the Remuneration Committee in the context of exercising its discretion on future malus and clawback and adjustments to variable pay outcomes; and " Amending the rules of the EIP for future awards to presume that EIP awards lapse unless the remuneration committee determines that eligible leaver status should apply, which the Company explains will strengthen the Remuneration Committee's hand in the instances where it is appropriate, proportionate and fair to lapse all or part of unvested awards. Previously, the EIP rules made the presumption that eligible leaver treatment applied to all leavers except those leaving by resignation, dismissal for cause or any other reason as the Remuneration Committee decided).

Ramelius Resources Limited	RMS	Australia	25/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted as pay and performance are reasonably aligned at this time. In addition, the company's overall compensation program is not problematic and the CEO's FY21 total pay is comparable with peers.However, the following concerns are highlighted: * STI disclosure is incomplete given that targets are not provided to shareholders to independently assess performance against targets and investor requirements; and* For LTI, there is no positive TSR gateway for the relative TSR hurdle.
Ramelius Resources Limited	RMS	Australia	25/11/2021	Elect Director	Elect Robert Scott Vassie as Director	For	For	A qualified vote FOR the election of independent non-executive director Robert Scott Vassie (Item 2) is warranted as he is the board chair and gender diversity at the board level does not meet shareholder expectations with only 20-percent female representation on the board.A qualified vote FOR the re-election of independent non-executive director Michael Andrew Bohm (Item 3) is warranted because he is considered to be overboarded under Sustainability Advisory Services International Policy as he holds more than the equivalent of five non-executive director positions (where the chair position is equivalent to two normal non-executive director roles). However, it may be argued that Mr Bohm's role as a non-executive director/chair of non-operating resource/exploration companies would not necessarily warrant the same time commitment as a director of an operating publicly listed company. In addition, the board is majority independent and the key board committees are entirely independent.

The structure of the statutory remuneration seems biased as the methodology used to fix the base salary is inherently inflationist (indexed upward only on previous year results) and as the variable remuneration is nearly uncapped.

Resolute Mining Limited	RSG	Australia	20/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that no material misalignment between pay and performance has been identified for the period under review. Specifically, * Fixed remuneration and STI and LTI outcomes are not excessive and adequately aligned with shareholder interests. * STI disclosure reflects a market leading level of transparency to fully inform shareholders. * The FY21 LTI grant is sufficiently aligned with shareholder outcomes, including well-presented relative TSR performance conditions over a 3-year performance period. This recommendation is qualified to highlight the high degree of concern for misalignment identified in quantitative pay-for-performance analysis. This is attributed to prior one-off equity grant made to the previous CEO (John Welborn) and the additional FY21 LTI grant to the new CEO. The company has parted with the former CEO Welborn and vesting of the grants were at low levels if any, confirming appropriate alignment with performance. Additionally, given Gale's resignation shareholders may carefully scrutinize next year's remuneration report to confirm the alignment with shareholder interest of the appropriate treatment of LTIs previously granted to Stuart Gale.
Resolute Mining Limited	RSG	Australia	20/05/2022	Elect Director	Elect Martin Botha as Director	Against	Against	Votes AGAINST incumbent Nominating Committee chair Martinus (Martin) Botha are warranted for lack of diversity on the board. A qualified vote FOR the election of Simon Jackson is warranted because he is classified as independent and has relevant skills and experience. However, some concerns are noted that he holds a total of four non-executive appointment, with two as chairman and raising concerns for overboarding. In mitigating, the majority of Jackson's directorships are at small, non-operational exploration companies which are regarded as requiring a lesser time commitment compared to an operational publicly listed company. Votes FOR Adrian Reynolds are warranted.

RPMGlobal Holdings Limited	RUL	Australia	28/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. The proposed amendments include wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK]. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Reliance Worldwide Corporation Limited	RWC	Australia	28/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	Qualified support for the remuneration report is warranted considering the following: "The STI bonus was paid at close to maximum reflecting good result and strong shareholder returns in the year." The company disclosed a planned annual reduction of fixed remuneration over three years for those executives with above market fixed remuneration. Managing Director and CEO Heath Sharp will receive 20-percent downward adjustment to his fixed remuneration over the next three years; and "The company will be introducing both absolute and relative performance hurdle in FY22 LTI grant which is a step closer to better market practice (see Item 4 below). The qualification is to highlight a medium level of concern identified in the Sustainability Advisory Services quantitative pay for performance analysis. This stems primarily due to a high fixed remuneration and STI bonus, which the company is seeking to address over the next three years. The CEO's fixed remuneration is currently well above peers and the STI bonus is well above peers. The company did not grant the CEO an LTI award during the year (see 'Item 4' below for details of his proposed FY22 LTI grant). Some shareholders may find concern that the company did not adjust executive remuneration despite receiving government benefits as a result of the COVID-19 disruption. There is also a continued absence of disclosure of specific and quantified STI performance hurdle, which prevents shareholders from independently evaluating the rigor of targets and alignment with shareholder expectations.
Reliance Worldwide Corporation Limited	RWC	Australia	28/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Heath Sharp	Against	Against	A vote AGAINST the grant of performance rights to the CEO is warranted due to the following problematic pay provisions: " Excessive quantum in the LTI grant relative to Australian-listed peers;" The vesting provisions for the TSR metric (50-percent weighting) provides for excessive vesting at various levels of performance which is inconsistent with market cap and industry peers; and* The use of fair value in award allocation is inconsistent with better market practice.
Reliance Worldwide Corporation Limited	RWC	Australia	28/10/2021	Renew Partial Takeover Provision	Approve Renewal of Proportional Takeover Provisions	For	For	A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. This is superior to any potential disadvantages that may arise from such a constitutional inclusion.

Royal Bank of Canada	RY	Canada	7/04/2022	Sustainability Activities and Action	SP 1: Update the Bank's Criteria for Sustainable Finance to Preclude Fossil Fuel Activity and Projects Opposing Indigenous Peoples	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time based on the following considerations: " The bank is taking important steps in terms of commitment and disclosures regarding its financed emissions; " None of the six largest Canadian banks currently has fossil fuels as an exclusionary criterion; " The bank's joining of the Net-Zero Banking Alliance indicates its increased commitment in financing climate transition and the collaborative approach between the private and public sectors; " The importance of a just transition for the oil and gas sector and its impact on the Canadian economy and workforce; and " National financial regulator's increasing commitment to climate risk management in the financial sector including the expected OSFI guidelines for federally regulated financial institutions.
Royal Bank of Canada	RY	Canada	7/04/2022	Human Rights Risk Assessment	SP 2: Assess and Mitigate the Human Rights and Reputational Risks Involved in the Financialization of Housing	For	For	A vote FOR this proposal is warranted as it further strengthens the company's commitment in supporting affordable housing.
Royal Bank of Canada	RY	Canada	7/04/2022	Miscellaneous Proposal -- Environmental & Social	SP 3: Avoid Bank Participation in Pollution-Intensive Asset Privatizations	Against	Against	Vote AGAINST the shareholder proposal. The resolution clause defines pollution-intensive asset privatization as "...the sale of coal, oil or gas assets from public companies to private enterprises". While it can be argued that the bank should consider adverse environmental impacts in connection with the sale of coal, oil or gas assets from public companies to private enterprises, in this case, the blanket prohibition of all coal, oil and gas-related privatizations does not allow due diligence processes the opportunity to provide risk-adjusted assessments. Furthermore, in terms of the bank's drive towards net-zero by 2050, pursuant to global carbon accounting standards, such emissions are currently not included in the bank's financed emissions and are owned by other entities. As such, the shareholder request appears overly prescriptive and not in alignment with the bank's net-zero strategy.
Royal Bank of Canada	RY	Canada	7/04/2022	Company-Specific--Governance-Related	SP 4: Examine the Possibility of Becoming a Benefit Company	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The board argues that the bank's purpose and actions clearly demonstrate its commitment to operating responsibly and sustainably and creating value for all of its stakeholders without the need to modify the bank's articles of incorporation to become a benefit company. The bank provides comprehensive disclosure about actions it has taken that show a commitment to healthy communities and sustainable and fair operations. In addition, the bank has disclosed an oversight structure in place to ensure that it is operating in an ethical, socially responsible and environmentally conscious manner. There are many unknowns associated with the benefit corporation structure and it is not clear that a conversion would cause any change in its business practices. In addition, the bank indicates that "...it is also not possible for RBC to implement the change sought by this proposal as the Bank Act (Canada) does not allow the bank to amend its articles of incorporation to qualify as a benefit corporation." As such, the request for the board to take steps to change the form of company incorporation does not appear to be necessary and this proposal does not warrant support.
Royal Bank of Canada	RY	Canada	7/04/2022	Proposals Requesting Non-Binding Advisory Vote On Climate Action Plan	SP 5: Adopt an Annual Advisory Vote Policy on the Bank's Environmental and Climate Change Action Plan and Objectives	For	For	A vote FOR this proposal is warranted. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and it would allow shareholders to express their opinions on the climate risk management practices of the company.
Royal Bank of Canada	RY	Canada	7/04/2022	Company-Specific -- Miscellaneous	SP 6: Adopt French as the Official Language of the Bank	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank already noted that for its shareholder meetings, shareholders have access to simultaneous interpretation into French at all times. In addition, all shareholders at the meetings have an option to communicate with the bank and with the transfer agent, Computershare Trust Company of Canada, in French and they can elect to receive annual meeting materials and other communications in French. The bank emphasizes on its global presence and the fact that the vast majority of the bank's shareholders are located outside of Quebec and communicate in English, holding annual meetings entirely in French is not feasible. The board also noted that "the Bank Act (Canada) does not allow for banks to modify their articles of incorporation". Considering the above and the fact that the bank is already complying with all laws and regulations applicable to doing business Quebec, including those that pertain to the French language, the request of the proponent pertaining to amend bank's by-laws to include French as the official language of the bank appears to be overly prescriptive and hence a vote AGAINST this shareholder proposal is warranted at this time.

South32 Ltd.	S32	Australia	28/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. No material misalignment between pay and performance and shareholder outcomes is noted.* Fixed remuneration is consistent with peers.* STI bonuses in FY21 are consistent with improved results in the year (and include the application of some negative board discretion), and* There was no LTI vesting for the second consecutive year to reflect weak performance relative to peers.The board took steps in FY21 to realign executive remuneration with shareholder outcomes and expectations and company performance including:* No increases in fixed remuneration and director fees in FY21 and which will remain unchanged in FY22.* Board discretion to apply a negative modifier to the CEO's FY21 STI bonus in recognizing the fatality in South Africa, and* The CEO's FY22 LTI quantum has been reduced from 300 to 200 percent of fixed remuneration.However, shareholder concerns requiring scrutiny are as follows* The FY21 LTI award to the CEO as approved by shareholders at the 2020 AGM was excessive at 300 percent of fixed remuneration.* Inclusion of non-financial performance measures in the FY22 LTI grant relating to strategic portfolio transition targets (10 percent) and climate change measures (10 percent), are poorly disclosed while designed as the company's response in progressing emissions objectives, and* Granting retention and transition awards to KMP is not in line with market.

The vesting requirements under the relative TSR component have been made stricter and clearer with 50 percent vesting for 40th percentile ranking vs 33 percent vesting for 33rd percentile ranking, currently. " The board has introduced ESG-related metrics under the long-term incentive scheme, aligning with its practices with industry standards. However, this is not without the following concerns: " Long-term incentives only account for 36 percent of total variable pay, which makes the pay mix insufficiently long-term oriented." Albeit stricter, the relative TSR vesting schedule allows pay below median." The proposed policy, which maintains the same structure and quantum overall, may not fully address recurrent pay for performance concerns.

St. Barbara Limited	SBM	Australia	27/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST the proposed amendments to the company's constitution is warranted as there is a provision that will permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any changes to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. Constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders. Corporate governance concerns exist where entities convene virtual-only meetings, given that this may diminish transparency and accountability, including shareholder rights to ask questions and holding directors publicly accountable.

J Sainsbury Plc	SBRY	United Kingdom	9/07/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is considered warranted, although it is not without concern for shareholders.* The Remuneration Committee exercised discretion and adjusted the PBT outcome under the annual bonus and certain performance outcomes under the FY2019 LTIP awards to take into account the costs of managing COVID-19 and the repayment of business rates relief. The PBT element comprised 50% of the total bonus and the adjustment increased vesting under this element from nil to 50% (or 25% of the overall bonus opportunity). Following adjustment, vesting under the ROCE LTIP performance metric, comprising 25% of the award, was also increased.* The CFO's LTIP award is increased from 200% to 250% of salary for FY2022 and to 225% of salary from FY2023. The main reasons for support: " Part of the adjustment is based on the fact that the Company's repayment of business rates relief was not forecast at the time that the bonus targets were initially set. Moreover, COVID-19 costs were only adjusted for in part. Any future use of discretion, including on outstanding LTIP awards, will kept under strict review ahead of future AGMs." The CEO waived his entitlement to a bonus for FY2021 and the CFO elected to defer his FY2021 bonus in full.

Scentre Group	SCG	Australia	7/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the FY21 Remuneration Report is warranted, on the basis that the Group responded to shareholder concerns and the "first strike" at the 2021 AGM with changes to the remuneration arrangements to include: " more disclosure of performance targets, " amended Board discretion in relation to the annual incentive, " agreement not to grant retention awards, " increased weighting to financial measures in the long-term plan, and " revised vesting conditions for TSR. Nevertheless, inconsistencies remain with better governance practices including: " Persisting high concern for misalignment in the Sustainability Advisory Services pay for performance model which includes a substantial retention grant (noting this model includes the value of previous LTI grants, whereas recent vesting is at lower levels), " High level of remuneration for the CEO and Chairman being well above market median, " Awarding additional 25 percent performance rights upon reaching maximum hurdles, " Dividends on unvested shares, and " Rewarding below index TSR performance in the FY21 LTIV award.

Scentre Group	SCG	Australia	7/04/2022	Approve Share Plan Grant	Approve Grant of Performance Rights to Peter Allen	For	For	A qualified vote FOR the grant of performance rights to CEO Peter Allen is warranted. The Group amended the terms of the FY22 LTVR award to better align with shareholder interests and market practice by * reducing the weighting to strategic measures to 10 percent if the grant, * removing the upfront adjustment for estimated distributions, * adjusting the TSR targets such that below index performance vesting is no longer rewarded, and * removing the additional 25 percent award for maximum TSR achievement. Nevertheless, the qualification is to highlight the following inconsistencies and concerns: * The quantum of the LTI award has been pro-rated to 9 months up to the CEO's retirement in September 2022, however the annualised value of the award remains above the market median for CEOs of similar sized companies and peers, * The Group has not disclosed the RCCE maximum hurdle measure, which if achieved would still enable an additional 25 percent to be earned, and * The upfront adjustment for distributions has been replaced by a cash equivalent payment for dividends on any rights that ultimately vest. The opportunity of payment for dividends on unvested shares remains inconsistent with better market practice noting there is no entitlement to dividends during the performance period on such awards.
Scentre Group	SCG	Australia	7/04/2022	Approve the Spill Resolution	Approve the Spill Resolution	Against	Against	A vote AGAINST the resolution to spill the Board is warranted as no material governance concerns are highlighted at present to warrant a spill of the Board. Importantly, the Board has taken steps to respond reasonably to shareholder concerns after the "first strike" at the 2021 AGM to adjust the executive remuneration structure to provide additional disclosure and clarity on the STVR and LTVR plans. In particular, the Board has committed to no further grants of retention awards which were misaligned with results and shareholders as leading to the "first strike" at the 2021 AGM.

Shopping Centres Australasia Property Group	SCP	Australia	24/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted.* Quantitative pay-for-performance analysis indicates a low degree of concern for misalignment of pay and performance and shareholder outcomes for the year under review.* Financial performance improved over the prior year, and STI and LTI bonuses are higher, and sufficiently aligned with results.Concerns are highlighted for the following:" Poor and inferior STI disclosure given an absence of information of specific and quantified threshold, target and maximum hurdles for performance measures. This hinders securityholders' abilities to independently assess the rigor of targets and alignment with performance and bonuses." * 20 percent of the STI is based on a "personal" component (people, advocacy and operational performance) which is appear more in the nature "day job" duties of executives.
Shopping Centres Australasia Property Group	SCP	Australia	24/11/2021	Elect Director	Elect Mark Fleming as Director	For	For	A qualified vote FOR the re-election of Mark Fleming is warranted. He is the CFO and classified as a non-independent executive director. Local market governance standards do not support multiple executives on a board which has the effect of reduced the level of board independence. Support in this case is on the basis that the board is majority independent and all key board committees are entirely independent.

The FY21 LTI is structured sufficiently in line with shareholder interests with a three-year performance period and two performance measures (EPS growth in the range of 5-10 percent and relative TSR).A qualification is to highlight concerns for excessive quantum in the following:" High STI bonuses which appear "over-aligned", although consistent with strong 334% TSR since listing on the ASX, and strong NPAT and adjusted EPS growth of 15.2% over the prior year.* An increase in the STI opportunity for the CEO from 150 percent to 200 percent of fixed remuneration, representing a material increase in the total remuneration opportunity, which is already well above peers.* The CEO's total remuneration continues to be targeted at the 75th percentile of peers, which may be questioned as excessive relative to some Australian remuneration practices.

Seek Limited	SEK	Australia	17/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	Problematic pay practices have been identified in recent years regarding the company's executive remuneration framework as evidenced by shareholder votes against the annual remuneration report ranging from 15.9 to 25.7 percent over the last three years. Shareholder concerns have centered on excessive remuneration, inadequate performance conditions for equity grants and substantial sign-on grants. A qualified vote FOR the remuneration report is warranted.* There is little structural change from the prior year with improved results in FY21 and positive shareholder returns over the longer term.* It is arguable that remuneration outcomes are sufficiently aligned with performance and shareholder returns.* It is acknowledged that the excessive CEO remuneration has been addressed with the appointment of a new CEO in FY22, although the same concerning remuneration practices persist which have been mostly accepted by shareholders, evidenced in prior year voting. On this basis, the qualification highlights ongoing shareholder concerns which include: "The retiring CEO's total remuneration is excessive in FY21 as identified by a high concern in the quantitative Pay for Performance analysis;" "Equity rights granted annually in place of a typical STI award do not have substantive financial or non-financial performance conditions and vest subject only to one-year ongoing employment. This type of award is inconsistent with market practice where STI bonuses are expected to be awarded based on achievement of performance measures, whereas the equity rights represent a grant on highly certain deferred fixed remuneration near \$1.2 million to the CEO as set at 50 percent of an already high fixed remuneration;" "The rigor of performance hurdles in the LTI award is inadequate;" "The number of LTI rights granted is based on a discounted fair value rather than face value which is materially inconsistent with widely accepted market practice; and" "The company has granted excessive sign-on awards.

A qualified vote FOR the re-election of Michael Wachtel is warranted due to his role on the Independent Board Committee and concerns identified in relation to the new SEEK Growth Fund. A qualified vote FOR the re-election of Andrew Bassat is warranted. He is the co-founder and long-term CEO of SEEK. " There is no link and insufficient transparency between executive reward and performance and alignment with shareholder interests, and" Awarding a short-term incentive without performance conditions, which are the norm in the Australian market, is essentially additional deferred fixed remuneration with exposure to shorter term share price fluctuation. A qualified vote FOR the grant of LTI options and rights is warranted, although not without concern." " The quantum of the award is high compared to industry peers." Sandfire Resources Ltd.	SFR	Australia	26/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that sufficient mitigating factors have been identified in regards to the quantitative misalignment identified for the period under review. In particular, " Following a "first strike," the Board engaged with shareholders and made positive changes to the remuneration framework in response to shareholder feedback;" STI outcomes for the CEO at 90.6 percent of maximum is consistent with the company's improved financial performance in FY21 and the company's STI plan continued to be well disclosed which is consistent with good governance and shareholder expectations; and" FY19 LTI did not vest for not achieving performance condition which demonstrates the alignment of the LTI program with shareholder outcomes. The recommendation is qualified to highlight the quantum of the CEO's remuneration which is excessive when compared to market cap peers and the Sustainability Advisory Services-selected peer group." The Board has set the total remuneration opportunity for the CEO at the 85th percentile of the peer group. Concern is partially mitigated as the total fixed remuneration for the CEO has not changed since the FY14;" The structure of the CEO's FY21 front-loaded LTI grant is inconsistent with local market practice and the quantum is high relative to peers on an annualised basis. Some concern is mitigated, as the Board disclosed that it does not intend to issue further long-term incentives to the CEO until the completion of the four-year performance period and intends to transition back to an annual LTI grant at that time; and" There remains a high proportion of the STI award focused on individual KPI. The company explained that individual KPIs for the CEO relate directly to the company's Strategic Imperatives. However, many of the tasks and activities may be regarded as offering bonuses for core "day job" responsibilities and 50 percent weight on such measures is questioned given that fixed remuneration is designed to cover core day job tasks.

Sims Limited	SGM	Australia	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. No material misalignment between pay, performance and shareholder outcomes is observed in the period under review. Concerns are observed in the following: "The level of the CEO's total pay has triggered a high level of concern in quantitative pay for performance analysis mainly due to the excessive quantum of LTI grants, although noting the non-vesting of the FY19 grant providing some mitigation to concerns." The STI performance hurdles continue not to be disclosed, preventing shareholders from assessing the rigor to targets and alignment of STI bonuses with operating performance." The LTI maximum opportunities continue to be excessive relative to Australian peers, especially when noting that the CEO and CFO were relocated from the US to Australia (given that location of these executives in the US was a key reason given by the board for adopting higher US remuneration standards); and" A significant proportion of the LTI award is subject to strategic targets which are considered to be part of the CEO's "day job".
Sims Limited	SGM	Australia	10/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Alistair Field	For	For	A qualified vote FOR the LTI grant is warranted. The grant is essentially the same as in the prior year. In this case, there may be sufficient justification for waiving the traditional shareholder requirements of the LTI which require objective long term financial performance measures to justify alignment of LTI bonuses with shareholder outcomes. Here the company has a substantial strategic component, which remains subject to the board's discretion and heightened shareholder scrutiny of any vesting. In mitigating, the company has provided above market disclosure of the specific, quantified and measurable strategic targets being well presented in the notice of meeting and in disclosure already provided to the market of the strategic moves. The qualification is based on the potential for misalignment of executive bonuses with shareholder outcomes because of the following: " A significant proportion of the LTI (78 percent) continues to be subject to strategic targets, which are intermingled with the CEO's "day job" – from this." A 45 percent component has a 10-12 percent ROC requirement before any vesting on strategic achievements is available, representing a positive financial gateway;" A 33 percent component is subject to a short one-year performance period, which is not consistent with the long-term focus of investors; and" The quantum of the award continues to be significantly higher than the company's peers.

Stockland	SGP	Australia	19/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that remuneration outcomes are sufficiently aligned with company performance for the year under review. The recommendation is qualified to highlight concerns for the following: " Relatively large fixed remuneration increases to certain executives;" Absence of disclosure of specific and quantified financial targets in the STI, representing inferior disclosure; and" The award of retention securities to two executives which are conditioned solely on continued employment, especially noting the appointment of an external candidate as the new CEO.
Stockland	SGP	Australia	19/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Tarun Gupta	For	For	A vote FOR this resolution is warranted because the grant of performance rights sufficiently aligns the bonus to the CEO with improved shareholder results and financial performance. There is a three-year performance period (which is at the minimum accepted in this market, although increasingly seen as short amongst larger ASX-listed entities), with 50% subject to an additional 12-month vesting condition based on continuous service. Concerns are noted that " there is a single relative TSR measure which is linked to shareholder outcomes; however, this is assessed against a narrow and curated peer group;" the grant value of the LTI to the CEO is materially above industry and market cap peers.

No material misalignment of pay, performance and shareholder outcomes is noted for the period under review. Fixed remuneration was not increased for the executive KMP (apart from the CFO). " No increase in director fees. " No STI bonuses were paid as the financial gateway was not met, and" No LTI awards vested during FY21. The qualification is to highlight persisting concerns for: " The level of the CEO's total pay triggered a high level of concern for misalignment in quantitative pay for performance analysis. " There is poor disclosure in the STI with quantified and specific financial and non-financial targets (at threshold, target and maximum) not being disclosed." The EPS growth and ROIC hurdles in the LTI are not disclosed, preventing a shareholder assessment of the rigor of targets." Dividends on unvested shares in the LTI is inconsistent with better market practices of many ASX-listed entities.
The Star Entertainment Group Limited	SGR	Australia	28/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Matt Bekier	For	For	A qualified vote FOR the LTI grant to the CEO is warranted. The LTI structure is consistent with prior years and reasonably aligned with shareholder interests, including a 4-year performance period and vesting subject to relative TSR, EPS and ROIC performance measures. The qualification is based on persisting concerns for " quantum continues to be excessive," EPS and ROIC performance hurdles are not disclosed and pre shareholders from independently assessing the rigor of targets, and" the provision for dividends on unvested shares.
The Star Entertainment Group Limited	SGR	Australia	28/10/2021	Approve the Spill Resolution	Approve Conditional Spill Resolution	Against	Against	A vote AGAINST this resolution is warranted. This is not considered to be in the best interests of the company or its shareholders at this present time. The board has taken on feedback from shareholders following the "first strike" at the 202 AGM and responded appropriately. " There was no use of upward board discretion in regard to outcomes in FY21, which was identified as a key issue in FY20. " The company has reported improved performance, although still weak and impacted by the COVID-19 pandemic, and there were no fixed remuneration increased, no STI bonuses and no LTI vesting to the CEO and executives. Continued scrutiny will be required over remuneration matters and disclosure, use of discretion and corporate governance practices.

Select Harvests Limited	SHV	Australia	25/02/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. The remuneration framework is consistent with market and no material misalignment between pay and performance and shareholder outcomes has been identified for the period under review. Select Harvests Limited	SHV	Australia	25/02/2022	Approve Share Plan Grant	Approve Participation of Paul Thompson in the Long-Term Incentive Plan	For	For	A qualified vote FOR this resolution is warranted on the basis that the structure of the grant is broadly in line with market practice and shareholder expectations with appropriate performance vesting periods and objective financial targets comprising 80 percent of the award. The qualification is to highlight the concern for: " The quantum of the CEO's FY22 LTI grant is substantially higher compared to the prior year." The introduction of a strategic hurdle (comprising 20 percent of the award) with no clear disclosure of what the targets are or how they are objectively aligned with improved shareholder results and not just a bonus for the "day job"; " There is no hurdle linked to outperformance relative to peers for the FY22 LTI grant, which raises the possibility that executives are rewarded for factors resulting from market movements instead of significant outperformance against peers; and" There exists the potential for accelerated vesting provisions under a specific change of control event.

Sigma Healthcare Limited	SIG	Australia	12/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted given the alignment of poor financial results and weak shareholder returns with nil STI bonuses and nil LTI vesting. The following matters are highlighted: " High concern for misalignment is identified in the quantitative pay for performance analysis, pointing to excessive remuneration in prior years which was misaligned with company performance and shareholder returns. " Continued poor and absent disclosure of specific and quantified STI performance targets which does not allow shareholders to assess the rigor of performance measures and materially inconsistent with market. " There is "double-counting" of the ROIC performance measure in the STI and LTI suggesting that there is potential to receive bonuses twice for the same performance. " Discretion of the Board to adjust performance targets.
Sigma Healthcare Limited	SIG	Australia	12/05/2022	Elect Director	Elect David Manuel as Director	For	For	A qualified vote FOR the re-election of David Manuel is warranted on the basis that he is classified as a non-independent director who serves as member of the Audit and Risk Committee. A vote FOR the re-election of independent non-executive director Michael Sammelis is warranted as no material concerns have been identified regarding board and committee composition resulting from his nomination. Sigma Healthcare Limited	SIG	Australia	12/05/2022	Approve Share Plan Grant	Approve Grant of Shares to Vikesh Ramsunder under the 2022 Long Term Incentive Plan	For	For	A qualified vote FOR the grant of loan-funded shares to the CEO is warranted. The quantum of the award is broadly in line with market, and the terms and conditions of the grant are consistent with shareholder interests and market with a TSR and ROIC performance conditions over a three-year performance period which is at the minimum accepted vesting period in the local market. The qualification is to highlight concerns for " Cliff vesting and removal of a graduated vesting scale for the ROIC measure as typically required by local market investors, and " Non-disclosure of any quantified ROIC target.
Sigma Healthcare Limited	SIG	Australia	12/05/2022	Approve Share Plan Grant	Approve Grant of Sign-on Rights to Vikesh Ramsunder under the Sigma Rights Plan	For	For	A qualified vote FOR the grant of sign-on share rights to the CEO is warranted. This is a one-off award due to the CEO's exit arrangements with his previous employer. The qualification is to highlight the following concerns: " There is poor disclosure of information regarding the exit arrangements which the new CEO had with his previous employer. " Vesting is subject to continued service and does not relate to achievement of any superior financial performance in line with shareholder interests. " There is a "false choice" that if this resolution is not approved, a cash payment will be made to the value of the sign-on bonus rights, and thereby diminishing shareholder rights.
Sigma Healthcare Limited	SIG	Australia	12/05/2022	Approve Share Plan Grant	Approve Grant of Rights to Vikesh Ramsunder under the Short Term Incentive Plan	For	For	A qualified vote FOR the grant of deferred share rights to the CEO Vikesh Ramsunder under the STI Plan is warranted. This represents the deferred component of the CEO's future FY23 STI which will be made in equity rather than cash. While the deferral of a portion of the STI bonus into equity is consistent with better market practice and shareholder interests, the qualification is to highlight inconsistency with market that: " The board is seeking advance approval from shareholders of the maximum equity component of the future STI bonus for the next year which has not been completed or reported on. " Given non-disclosure of the STI performance targets as part of this resolution or in the company's prior disclosures in the remuneration report, it is impossible for shareholders to assess the rigor of performance measures and assessment of performance and bonuses.
Sigma Healthcare Limited	SIG	Australia	12/05/2022	Approve or Amend Severance Agreements/Change-in-Control Agreements	Approve Potential Retirement Benefits to Vikesh Ramsunder	For	For	A vote FOR this resolution is warranted. The overall termination benefits framework appears reasonable as STI and LTI will generally be forfeited upon resignation and any payment will be subject to actual performance and pro-rated upon a termination without cause.
Smartgroup Corporation Ltd.	SIQ	Australia	11/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. " No material misalignment between pay and performance and shareholder outcomes has been identified and quantitative pay for performance analysis indicates a low level of concern. " Financial performance improved over prior year and STI bonuses are consistent with results; " STI disclosure improved with information of specific and quantified target and maximum financial hurdles; and " The FY19 LTI grant lapsed as targets were not met over the performance period in line with shareholder returns. Particular concern is the low weighting of financial measures in the STI, being misaligned with shareholders' financial interests.

Smartgroup Corporation Ltd.	SIQ	Australia	11/05/2022	Approve Share Plan Grant	Approve Issuance of Shares to Timothy Looi	For	For	A vote FOR the grant of shares and limited-recourse loan to the CEO is warranted. Smartgroup Corporation Ltd.	SIQ	Australia	11/05/2022	Approve Omnibus Stock Plan	Approve Short Term Incentive Plan	For	For	A qualified vote FOR this resolution is warranted. The plan provides equity awards which aligns executive outcomes with shareholder interests. Additionally, the plan is not exclusive to executives and directors and establishes the broad framework for equity incentives to key employees. Concern is raised that all directors are entitled to participate in the plan. The grant of performance-linked instruments to non-executive director is not accepted under Australian investor guidelines as it may impair independent decision-making which is aligned with the long-term best interests of shareholders. Notwithstanding, shareholders will be able to assess any future grant proposed to a director as such will require shareholder approval. Added concern is for the level of discretion afforded to the board for the treatment of awards in the event of a change of control.
Smartgroup Corporation Ltd.	SIQ	Australia	11/05/2022	Approve Share Plan Grant	Approve Issuance of Performance Rights to Timothy Looi	For	For	A qualified vote FOR this resolution is warranted. The qualification is to highlight concerns that this is an 'advance' approval of the deferred equity component of the FY22 STI before the completion of the financial year, and any assessment of performance by the board having taken place. Such advance approval is inconsistent with market practice amongst the majority of ASX300 companies.
Smartgroup Corporation Ltd. Sealink Travel Group Limited	SLK	Australia	26/10/2021	Approve Pledging of Assets for Debt	Approve Financial Assistance in Relation to the Acquisition	For	For	A vote FOR this resolution is warranted as it is not contentious. The granting of financial assistance is a common practice where a company makes an acquisition (in this case, the acquisition of the GO West Tours business and associated property assets) and security over the acquired assets and undertakings is required to be given to the company's lenders which made loans to fund the acquisition.
Sealink Travel Group Limited	SLK	Australia	26/10/2021	Change Company Name	Approve the Change of Company Name to Kelsian Group Limited	For	For	A vote FOR this resolution is warranted on the basis that no corporate governance concerns have been identified.
Sealink Travel Group Limited	SLK	Australia	26/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve Modification to the Constitution	Against	Against	A vote AGAINST this resolution is warranted.* The proposed new constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.
Silver Lake Resources Limited	SLR	Australia	19/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted as pay and performance are reasonably aligned at this time and the overall compensation program is not problematic. However, some concerns are that:.* The STI bonus is mostly based on non-financial targets;.* STI disclosure remains incomplete as most targets are not disclosed, preventing shareholders from independently assessing performance against targets and investor requirements; and* There is no positive TSR gateway for the sole LTI hurdle – relative TSR.
Silver Lake Resources Limited	SLR	Australia	19/11/2021	Elect Director	Elect Rebecca Prain as Director	For	For	A vote FOR the election of independent non-executive director Rebecca Prain is warranted as no material concerns have been identified regarding board and committee composition resulting from her nomination.
Silver Lake Resources Limited	SLR	Australia	19/11/2021	Approve Omnibus Stock Plan	Approve Employee Incentive Plan	For	For	A vote FOR this resolution is warranted. The plan establishes the broader framework for equity-incentives to a wider range of the company's employees and shareholders will be able to vote on the LTI grant made under the plan to executive directors. The LTI performance rights in Item 4 will be granted under the plan and the overall terms of the awards are not considered contentious. However, shareholders should be aware of the following concerns:.* Awards will automatically vest in the event of a change in control; and* The board has discretion on the treatment of equity awards in the event of cessation of employment.
Silver Lake Resources Limited	SLR	Australia	19/11/2021	Approve Share Plan Grant	Approve Issuance of Performance Rights to Luke Tonkin	For	For	A vote FOR this resolution is warranted as the performance period and relative TSR hurdles are aligned with market practice and with improved shareholder outcomes. However, shareholders may note that the performance rights will be granted under the Employee Incentive Plan, which raises some concerns such as the automatic vesting of awards upon a change in control and the board has discretion on the treatment of awards upon cessation of employment. In addition, there is no positive TSR gateway for the sole performance measure. Shareholders may also raise concerns with providing advance approval for FY23 and FY24 LTIs as the common market practice is annual approval of LTIs to executive directors. Nonetheless, while the number of performance rights for FY23 and FY24 are not yet determined, this will be calculated using the same formula used for FY22, which uses face value methodology. The LTI opportunity for FY23 and FY24 as a percentage of fixed remuneration is also not expected to change at 100 percent. The performance rights will still be issued on an annual basis.

The main reasons for support are:.* The Company's performance during the year is considered to remain robust (based on its profitability despite Covid-19), with government furlough support repaid and dividends reinstated. It is also recognised that no bonuses were made in FY2019/20.* The performance targets for FY2021/22 LTIP awards were increased and the CFO's shareholding requirement was increased to align with the increased LTIP award level.

Washington H. Soul Pattinson and Company Limited	SOL	Australia	10/12/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted.* The proposed amendments to the constitution include wording that explicitly state that the company may conduct meetings by using virtual-only means.* While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language providing for a hybrid meeting format, which includes physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would reasonably reflect the preferences of shareholders.

Splunk Inc.	SPLK	USA	16/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	Following last year's failed say-on-pay vote, the committee demonstrated adequate responsiveness to shareholder concerns. However, although disclosed changes to next year's compensation program eliminate metric overlap in the incentive programs, concerns remain regarding the vesting structure for PSUs. FY22 awards are earned over a single annual performance period with a third of awarded shares vesting immediately, and changes for next year's awards continue to allow for annual payouts of fully vested shares, undermining the long-term nature of the program. Further concerns are raised by the structure and magnitude of new hire cash and equity awards granted to two NEOs, rendering them the highest and third-most highly compensated executives in the company for FY22. These awards include significant make-whole awards, paid in cash and subject to only limited repayment requirements, in addition to relatively large equity awards. Investors may question the necessity of paying multiple executives at the level of a CEO. Accordingly, a vote AGAINST this proposal is warranted.

Splitit Payments Limited	SPT	Australia	15/10/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted.The proposed constitutional amendment includes wording that could permit general meetings to be held by virtual-only means.While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022 [refer LINK].Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

Splitit Payments Limited	SPT	Australia	28/04/2022	Approve Omnibus Stock Plan	Approve Modifications to the 2018 Employee Incentive Plan Including the Australian, UK and US Sub-Plans	For	For	A qualified vote FOR this resolution is warranted given that the EIP and its sub-plan establish the broader framework for equity incentives to a wider range of the company's employees. However, governance concerns exist for the fact that non-executive directors may participate in the EIP. This aspect is inconsistent with shareholder expectations in the Australian market that NEDs do not receive incentive-based pay. Nevertheless, it is noted that any grant to a NED would require shareholder approval.

The change in pension value again constituted a large portion of the CEO's reported pay, though the committee also increased his long-term incentive opportunity without specific rationale. However, concerns regarding the pay-for-performance misalignment were mitigated for the year in review. The annual incentive program primarily relied on a financial metric with a target set above actual performance in the prior year, and while a portion of long-term incentives target merely median TSR, the closing cycle TSR-based awards were earned below target, consistent with underperformance. Lastly, while CEO pay increased again in FY21, investors may expect reported pay levels to decline as the CEO's SERP valuation stabilizes.

Standard Chartered Plc	STAN	United Kingdom	4/05/2022	Approve/Amend Conversion of Securities	Authorise Issue of Equity in Relation to Equity Convertible Additional Tier 1 Securities	For	For	A vote FOR these resolutions is warranted, although this is not without concern for shareholders: * If the Company were to issue Equity Convertible Additional Tier 1 (ECAT1) securities and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: * Such authorities are common proposals at UK banks and are intended to apply in extreme circumstances only; and * The conversion into ordinary shares would require the CET1 ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.

Standard Chartered Plc	STAN	United Kingdom	4/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this item is considered warranted: * Material concerns have been identified in respect of the Remuneration Committee's response to the significant reporting and governance failings identified by the PRA, which have resulted in a record fine being imposed on the Company. The Committee's response does not appear to adequately reflect the gravity of the failures identified by the PRA. Neither does the Committee appear to have fully utilised the available provisions to reduce awards in recognition of failures in risk management; financial reporting; and financial losses, due to a material breach of regulatory guidelines.

Standard Chartered Plc	STAN	United Kingdom	4/05/2022	Management Climate-Related Proposal	Approve Net Zero Pathway	Against	Against	A vote AGAINST this proposal is warranted given the apparent gaps in the company's climate reporting and lack of science-based target setting. The company has committed to a net-zero by 2050 ambition providing short-, medium- and long-term targets however, the reporting of scope 3 emissions remains underdeveloped and does not permit a full assessment of the interim targets nor does it allow transparency into its remaining scope 3 emissions related to the relevant category.
Standard Chartered Plc	STAN	United Kingdom	4/05/2022	Climate Change Action	Approve Shareholder Requisition Resolution	Against	Against	A vote AGAINST this resolution is considered warranted: * Although the Company will be expected to deliver on its stated climate ambitions in the future, its current climate reporting, which includes short, medium and long-term objectives and targets, is considered to be a sufficient and appropriate response to the matters raised in the resolution at this time. The Company's progress will continue to be kept under review.
Standard Chartered Plc	STAN	United Kingdom	4/05/2022	Approve Remuneration Policy	Approve Remuneration Policy	Against	Against	A vote AGAINST this item is considered warranted: * The policy continues to provide for disapplication of time pro-rating for outstanding LTIP awards if certain, defined criteria are met at the time of executive's departure. This is not in line with best market practice and may create an expectation that discretion in this respect will be used as a normal application of policy, rather than in response to genuinely exceptional circumstances. Sustainability Advisory Services Policy states that appropriate pro-rating should be applied to outstanding long-term share awards. A material concern is also noted in respect of the updated pension provisions - the calculation of the pension figure, which uses the cash and share element of the salary after salary and fixed pay being combined into "salary" in 2019 - results in a material pension figure for the CEO (GBP 243,400), which is the highest among major FTSE listed banks. Given the positive developments towards market practice since the approval of the 2019 remuneration policy, this matter is not being highlighted as a contributing factor to the negative voting recommendation.

On strict application of the ISS Policy, his mandates are considered to be overboarded. These responsibilities imply a significant set of time commitments which may compromise his ability to commit sufficient time to his role at the Company. The main reasons for support are: * One of his external appointments is an investment trust which is considered to represent a less onerous time commitment. St. James's Place Plc	STJ	United Kingdom	19/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this item is considered warranted, although it is not without concern for shareholders: " The FY2022 LTIP award utilises the maximum headroom available under the policy, increasing award levels from 200% to 250% of salary. " No changes to performance targets – notably EPS growth – have been made to acknowledge the increased award opportunity for the FY2022 LTIP award. The main reasons for support are: " EPS growth targets include the impact of inflation (measured by CPI) and therefore incorporate a degree of additional stretch given the current rate of inflation evident in the UK. " The increased 250% of salary award level remains within the approved policy limit. Future LTIP award levels will be kept under close review, given the Company's stated commitment to only use the increased headroom "on a prudent and restrained basis".

Item 10 A vote FOR the re-election of Paul Manduca is warranted, although it is not without concern for shareholders: " In addition to his Non-executive Chair position at the Company, he is the Board Chair of two other publicly listed companies. On strict application of the ISS Policy, his mandates are considered to be overboarded. These responsibilities imply a significant set of time commitments which may compromise his ability to commit sufficient time to his role at the Company. The main reasons for support are: * One of his external appointments is an investment trust which is considered to represent a less onerous time commitment. Future changes to his external board appointments will be kept under review.

Santos Limited	STO	Australia	3/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted due to the following shareholder concerns: " The CEO was granted a one-off incentive of A\$6.0 million in April 2021 which is excessive relative to market and is payable in addition to the CEO's other annual incentives. The one-off award, subject to shareholder approval in Item 6 below has created a misalignment of the CEO's pay with market identified in the Sustainability Advisory Services Pay for Performance analysis with his FY21 pay reaching a multiple of 2.94 median, " The performance conditions associated with the one-off award include delivery of various strategic growth projects, carbon capture and storage and emission reductions which shareholders consider to be part of the CEO's core "day job" responsibilities. Furthermore, the CEO's remuneration may potentially be duplicated as the current STI award includes growth and emissions initiatives (approximately 30 percent) and any improvements in financial performance are likely to flow through to LTI award outcomes, " Significant increases have been foreshadowed for director remuneration for FY22, " Awarding of dividends on unvested shares (i.e. a dividend-equivalent payment for dividends paid during the performance period in respect of rights that ultimately vest) is inconsistent with good governance expectations of many shareholder.
Santos Limited	STO	Australia	3/05/2022	Management Climate-Related Proposal	Approve Advisory Vote on Climate Change	Against	Against	A vote AGAINST this resolution is warranted. The absence of clear shorter-term scope 1 and 2 and tangible Scope 3 targets may be regarded by shareholders as a material deficiency, especially given that the company is proposing new oil and gas development. The company discloses Scope 1 and 2 targets to be net zero by 2040. On the positive front, the company's 2022 Climate Change Report is comprehensive and meets the TCFD requirements. The report includes detailed Transition Action Plans, improved Scope 1 and 2 emissions reduction targets over the medium term that are inclusive of the newly acquired Oil Search.
Santos Limited	STO	Australia	3/05/2022	Approve Share Plan Grant	Approve Grant of Share Acquisition Rights to Kevin Gallagher	For	For	A vote FOR this resolution is warranted because this is the proposed 2022 LTI grant which is broadly similar to the FY21 LTI grant, the quantum is aligned with market median now that the company is in the ASX 1-25 and the plan structure is consistent with market practice and shareholders' interests. Several aspects of the grant are of concern, including: " dividends on unvested shares in the performance period on rights that ultimately vest, given that there is no present entitlement to dividends on such shares during a performance period, " there is no absolute TSR gateway measure that applies to the relative TSR measures that account for half the award, and " the FCFBP targets are not considered to be sufficiently rigorous given FCF performance over the last four years has been better than the proposed stretch target.
Santos Limited	STO	Australia	3/05/2022	Approve Share Plan Grant	Approve Issuance of Shares to Satisfy Growth Projects Incentive Rights to Kevin Gallagher	Against	Against	A vote AGAINST this resolution is warranted due to the following concerns: " The one-off incentive to the CEO of A\$6.0 million is considered to be excessive and in addition to the CEO's annual incentives available in the STI and LTI. " Given this grant, quantitative pay for performance analysis identifies a misalignment of the CEO's pay with market. " Vesting is disclosed to be based on delivery of strategic growth projects, carbon capture and storage and emissions reductions. Targets are not disclosed in sufficient detail on the basis of commercial sensitivity. " These performance measures appear to represent extra strategic objectives in addition to strategic objectives which represented a substantial portion of the FY21 STI. Shareholders may consider these to be part of the day job responsibilities for which the STI and LTIs are sufficient and consistent with market. Success of the strategic objectives would be best aligned with shareholders and measured in conventional financial and shareholder return measures. " Performance is assessed annually, allowing the CEO to "lock in" achievement early during the performance period and leading to concern for multiple testing and re-testing. Shareholders are being given a "false choice" if this resolution is not approved, in which case the company intends to satisfy vesting with shares purchases on market or cash-settled.

Santos Limited	STO	Australia	3/05/2022	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve Increase of Non-Executive Director Fee Pool	For	For	A vote FOR this resolution is warranted given the disclosure that the increase will accommodate the additional directors following the acquisition of Oil Search and allow for an increase in fees effective from 1 January 2022.
Santos Limited	STO	Australia	3/05/2022	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board states that Santos regularly engages with its shareholders and wider stakeholder groups on the company's strategy, operations and activities, and performance and through this process, the company receives and takes into account feedback on its strategy, outlook and reporting to shareholders and other stakeholders.
Santos Limited	STO	Australia	3/05/2022	Report on Climate Change	Approve Capital Protection	For	For	A vote FOR this proposal is warranted given that shareholders are likely to benefit from a regular review and additional disclosure on how the company's capital expenditure and operations are managed in a manner consistent with the climate goals of the Paris Agreement.

State Street Corporation	STT	USA	18/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Annual incentive determinations are guided by a corporate performance assessment and individual performance modifier, but are ultimately determined discretionarily, which raises some concern. While this issue warrants continued monitoring, there are sufficient mitigating factors. Specifically, CEO pay and company performance are reasonably aligned for the year in review, and the increase in the CEO's incentive awards directionally aligns with generally improved company performance. Further, the CEO's incentives are delivered entirely in equity-based pay, and his long-term incentives are predominantly performance-conditioned with clearly disclosed multi-year goals. On balance of these factors, a vote FOR this proposal is warranted, with caution. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure and outcomes.

Super Retail Group Limited	SUL	Australia	20/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this item is warranted.* No material misalignment between pay, company performance and shareholder outcomes is identified.* During the year, the company withdrew the retention arrangement that was previously reported for the CEO Macpac and repaid the JobKeeper wage support received from the Australian government. The following concerns are noted: " STI deferral is only 30 percent and falls below market expectations of 50 percent." The FY21 LTI grant has a short performance period of two years and there is an absence of disclosure of any specific or quantified performance hurdles. This grant was intended to cover two periods (FY21 and FY22) and as such there is no LTI grant in FY22.* The chairman's fees are already well above market cap and industry peers, and the company has disclosed that the chairman's fee be increased in FY22 by a further 14.8 percent.

Suncorp Group Limited	SUN	Australia	23/09/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted.* No material misalignment between executive pay and performance has been identified.* The Company's remuneration structure is broadly in line with peers and shareholder interests.* The FY21 STI bonus is higher than the prior year, however, aligned with improved financial performance.* The continued lack of vesting for the LTI is aligned with poor shareholder returns over the longer term. The qualification is to highlight certain inconsistencies and concerns regarding the company's remuneration practices.* A high weighting allocated to non-financial measures allows executives to be rewarded in the STI for core day job responsibilities.* Non-disclosure of retrospective STI targets and prospective LTI ROE targets represents inferior disclosure and lacks transparency.* Payment of a dividend equivalent amount for vested LTI rights is inconsistent with better corporate governance practice given that executives have no present entitlement to the underlying shares or dividends during the performance.* The three-year LTI performance period is not aligned with peers and better governance practices where at least a four-year period is adopted.* Proposed remuneration increase for the CEO is well in excess of broader salary inflation and will have a flow on effect increasing his STI and LTI opportunity, and* Chairman and director remuneration is higher than market.
Suncorp Group Limited	SUN	Australia	23/09/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Steven Johnston	For	For	A qualified vote FOR this grant of performance rights to the CEO is warranted. The terms of the proposed equity grant are consistent with shareholder interest and the quantum of the grant is in line with market median.* There are three performance metrics.* The number of rights is determined using the prevailing share price.* There is a three-year performance period with an additional deferral period of one year, and* There are appropriate malus and clawback provisions.Persisting corporate governance concerns and inconsistencies with peers especially relates to the short performance period of 3 years (despite the extra one year deferral). Additionally, concerns exist for* Non-disclosure of the Cash ROTE target and stretch performance levels.* False choice offered to shareholders if the resolution is not approved.* Lack of a positive TSR gateway to ensure alignment of bonuses with a return to shareholders (not losing less than the majority of the peer group), and* Payment of dividends on unvested shares when there is no present entitlement until the relevant performance hurdles have been met.

A qualified vote FOR the remuneration report is warranted.* No material misalignment between pay, performance and shareholder outcomes is observed in qualitative pay for performance analysis.* STI bonuses were determined at 91 percent to the CEO and CFO and the FY19 LTI vested at near 60 percent, both adequately aligning with the company's results and financial position. However, the qualification is to highlight a material concern for poor corporate governance and inconsistency with market practice and shareholder expectations, is the absence of an LTI grant resolution for the CEO's LTI. Additionally,* There is poor and inferior disclosure in the STI, given an absence of transparency of specific and quantified STI thresholds and targets to allow shareholders to independently assess the rigor of the objectives against bonuses and their expectations.* The LTI is subject only to a single performance measure (relative TSR), and there is no positive TSR 'gateway' to ensure bonuses are not awarded when shareholder returns are negative.

Skyworks Solutions, Inc.	SWKS	USA	11/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR the proposal is warranted. Following a failed say-on-pay vote result, the compensation committee disclosed engagement efforts with shareholders as well as the feedback received in these engagements. The proxy also notes meaningful commitments and pay program changes that were made in response to these shareholder concerns. Additionally, pay and performance are sufficiently aligned for the year in review. Annual and long-term incentives are primarily performance-based, with half of the performance shares utilizing a multi-year performance period. While the annual incentives continue to rely on semi-annual periods, the committee indicates its intention to return to an annual period once market conditions stabilize. However, the relative TSR equity awards continue to lack a payout cap for negative absolute TSR results.

Seven West Media Limited	SWM	Australia	9/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to James Warburton under the FY22 Long Term Incentive Plan	For	For	A qualified vote FOR this resolution is warranted. The material terms of the LTI grant are in line with Australian investor expectations. LTI performance rights will be tested over a three-year performance period based on absolute TSR hurdle with no resting provisions. Shareholders, however, may be concerned that the award does not contain any objective market based relative performance measures, such as relative TSR, which can be directly linked to shareholder outcomes.

There is no material misalignment between pay and performance and shareholder outcomes for the period under review. FY21 STIs are not excessive following the board's decision to reduce bonuses. There was no LTI vesting occurred during FY21. The FY21 LTI is subject to a TSR hurdle over a three-year performance period. Concerns are raised regarding the following issues: "The LTI allows vesting to start at above 0 percent TSR, as the only performance metric." Fixed remuneration of the CEO is significant, but comparable with industry peers.
Southern Cross Media Group Limited	SXL	Australia	13/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Grant Blackley	For	For	A vote FOR this resolution is warranted. The terms of the grant are sufficiently aligned with shareholders' interests and expectations. Specifically, the performance rights, representing a portion of the award under the combined incentive plan, will only be granted to the extent the applicable performance conditions are met for FY22. From there, one-half of the performance rights (essentially the deferred portion of a traditional STI award) are subject to continued employment until the end of FY24. The remaining one-half of the performance rights are subject to EPS targets over three years (although disclosure of this target may raise questions from investors over sufficient rigor in the hurdle).

Following a failed say-on-pay vote result, the compensation committee disclosed engagement efforts with shareholders as well as the feedback received in these engagements. The proxy also notes commitments and pay program changes that were made in response to these shareholder concerns. In addition, although concerns are noted, pay and performance are aligned for the year in review. The annual and long-term incentives are primarily performance-based, with LTI utilizing multi-year performance periods. However, the CEO's salary is relatively large, and per values pertaining to life insurance are exceedingly high; shareholders should expect improved disclosure going forward as to the necessity and rationale for such costs.

Tabcorp Holdings Limited	TAH	Australia	19/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the resolution is warranted. The company's remuneration structure and practices are broadly in line with market and no material misalignment is identified between pay, performance and shareholder outcomes for FY21.* There was no increase in CEO, executive and NED remuneration in FY21.* While high and appearing to involve board discretion, STI bonuses for FY21 where disclosed to be reduced by the board to align with the company's access to government JobKeeper subsidies and having stood down employees, and* LTI vesting in FY21 was at 52 percent which sufficiently aligns with average shareholder returns over the performance period.THE qualification is to highlight primary concerns for persist poor and absence non-disclosure of STI performance targets and the weighting to each performance metric, which is inconsistent with market practice among larger ASX-listed entities. The inclusion of a large individual component in the STI further raises concerns for the discretionary nature of the STI bonus, given that the limited disclosure may indicate that this relates to 'day job' responsibilities.
Tabcorp Holdings Limited	TAH	Australia	19/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to David Attenborough	For	For	A qualified vote FOR the grant of performance rights to CEO David Attenborough is warranted.The qualification is to highlight concerns that "The quantum of the award of \$3 million is excessive compared to market median." The CEO has announced his intentions to retire upon completion of the demerger, which is expected to be completed in 2022.* This grant is inconsistent with local and global market practices, where LTI grants are not made to executives before their planned retirement.The primary reason for support is that the board has disclosed that if the demerger is completed in June 2022, between 75% and 80% of the performance rights will lapse and the CEO will retain between 20% to 25% of the performance rights.
Tabcorp Holdings Limited	TAH	Australia	12/05/2022	Approve Reduction in Share Capital	Approve Capital Reduction	For	For	A vote FOR this resolution is warranted, given that no material governance concerns have been identified in regard to this proposal. * The capital reduction will apply equally to all shares and necessitated by the demerger of the company's Lotteries and Keno business. * Shareholders will receive one new share in the demerged The Lottery Corporation (TLC) for each share held in Tabcorp.
Tabcorp Holdings Limited	TAH	Australia	12/05/2022	Approve Scheme of Arrangement	Approve Scheme of Arrangement in Relation to the Proposed Demerger of The Lottery Corporation from Tabcorp Holdings Limited	For	For	A vote FOR this resolution is warranted given that there is information that the board * examined strategic alternatives, * provided sufficient compelling strategic rationale to proceed with the demerger as a way of unlocking potential value for shareholders, and * considers that the demerger enables direct market valuations for each of TLC and Tabcorp to be established, and existing eligible shareholders are not adversely impacted by the demerger.

Transurban Group	TCL	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted on the basis that remuneration outcomes are excessive and misaligned with performance and shareholder outcomes. Quantitative pay for performance analysis indicates an elevated level of concern against peers.* The CEO's remuneration is high relative to peers and internal relativity to compared to other executives.* The CEO's STI award is considered to be excessive, and 2.3 times the FY20 bonus despite both key financial measures deteriorating compared to FY20 outcomes.* In the FY21 STI, EBITDA at target is lower than the two previous years and Proportional Costs at target are higher than in the two previous years, suggesting weaker targeted results for higher bonuses, which shareholders may consider as misaligned with their interests and expectations.* An excessive proportion of the STI award (50 percent) is assessed on individual objectives that appear "day job" responsibilities.* Use of a discounted face value for the LTI grant is inconsistent with good governance practice and results in a higher number of LTI securities.

Transurban Group	TCL	Australia	21/10/2021	Approve Share Plan Grant	Approve Grant of Performance Awards to Scott Charlton	For	For	A qualified vote FOR this resolution is warranted. The structure of the grant is in line with the prior year and aligned with shareholder interests including a relative TSR performance measures and assessed over a three and four year performance periods, as the company transitions to a 4 year term. Shareholder concerns include: "The use of only one performance measure, being relative TSR, with no positive TSR gateway to ensure absolute alignment with a positive return to shareholders," the use of a discounted face value methodology to calculate the number of LTI securities to be granted," the quantum of the CEO's LTI award is well above the Sustainability Advisory Services selected peer group median, and" the ongoing removal of the Free Cash Flow measure due to difficulty in predicting traffic volume.

The Toronto-Dominion Bank	TD	Canada	14/04/2022	Climate Change Action	SP 1: Adopt a Policy of Not Financing New Fossil Fuel Supply, Including Financing of Companies Exploring or Developing Undeveloped Oil and Gas Reserves	Against	Against	Vote AGAINST the shareholder proposal Canadian banks have accelerated their climate actions recently amid the increasing signals from the national regulator. Currently, none of the six major Canadian banks has modified its fossil fuel policy providing a blanket exclusion to all new fossil fuel transactions. All the banks have a similar fossil fuel policy and TD is at par with its direct peers. In addition, the proposal requests implementation by the end of 2022. Timewise, it is deemed too prescriptive.
The Toronto-Dominion Bank	TD	Canada	14/04/2022	Company-Specific--Governance-Related	SP 2: Analyze the Possibility of Becoming a Benefit Company	Against	Against	Vote AGAINST this shareholder proposal. The board argues that the bank already operates in a way that promotes the interests of its various stakeholders and its principled approach to corporate governance is the foundation that instills trust, protects the interests of shareholders, and maintains the confidence of its employees, customers and communities. The bank provides comprehensive disclosure about actions it has taken that show a commitment to healthy communities and sustainable and fair operations. In addition, the bank has disclosed an oversight structure in place to ensure that it is operating in an ethical, socially responsible and environmentally conscious manner. There are many unknowns associated with the benefit corporation structure and it is not clear that a conversion without management support would cause any change in its business practices. As such, the request for the board to take steps to change the form of company incorporation does not appear to be necessary and this proposal does not warrant support.

The Toronto-Dominion Bank	TD	Canada	14/04/2022	Company-Specific -- Miscellaneous	SP 4: Adopt French as the Official Language	Against	Against	A vote AGAINST this shareholder proposal is warranted at this time. The bank already noted that all of its shareholder meetings have been held in French and intends to continue to do so in future. In addition, all meeting materials are available in French and English and all shareholders at the meetings are encouraged to ask questions and vote in the language of their choice. Considering the above and the fact that the bank is already complying with all laws and regulations applicable to doing business Quebec, including those that pertain to the French language, the request of the proponent pertaining to amend bank's by-laws to include French as the official language of the bank appears to be overly prescriptive.

However, there are continued concerns under both the STI and LTI programs as follows: " The weightings of the STI plan are not disclosed and there is no disclosure regarding the targets and achievement levels of non-financial metrics; and" There is no disclosure regarding the actual results of the performance measures for LTI vesting although the percentage of vested and forfeited LTI is disclosed.

However, qualification is raised to highlight the following concerns: " The value of the CEO's LTI opportunity remained unchanged during a consecutive period of weak shareholder returns;" Although the award is based on financial measures, the board has again lowered the maximum hurdle for ROA compared to the prior year's grant; and" The performance hurdles do not include any objective market based relative performance measures.

TJX	USA	7/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST the proposal is warranted. A significant increase in reported CEO pay was driven by discretionary adjustments to multiple cycles of previously granted PSUs, and concerns regarding the \$9.4 million in incremental value attributed to the 2019-2021 PSU adjustment are compounded by the additional \$2.7 million in value related to the adjustment of the 2020-2022 PSUs. Investors generally do not view the modification of previously granted incentive awards to be an appropriate response to the pandemic and may be particularly concerned by consecutive adjustments that increased payouts. Further, annual incentive awards were earned near maximum and a significant portion of payouts were determined based on the compensation committee's subjective assessment of performance.

TJX	USA	7/06/2022	Human Rights Risk Assessment	Report on Risks from Company Vendors that Misclassify Employees as Independent Contractors	For	For	A vote FOR this resolution is warranted, as a report on misclassifying employees as independent contractors would provide shareholders with additional information on how the company is managing any risks associated with this kind of misclassification by companies in its supply chain.
The TJX Companies, Inc.	TJX	USA	7/06/2022	Prepare Report on Health Care Reform	Report on Risk Due to Restrictions on Reproductive Rights	For	For	A vote FOR this resolution is warranted, as additional information on the potential risks and costs associated with proposed or enacted state policies that restrict reproductive healthcare, would allow shareholders to assess how the company is managing such risks.
The TJX Companies, Inc.	TJX	USA	7/06/2022	Labor Issues - Discrimination and Miscellaneous	Adopt Paid Sick Leave Policy for All Associates	For	For	A vote FOR this resolution is warranted as it would provide shareholders with greater assurance that the company's workforce has reasonable access to sick leave, which would provide consistent expectations as concerns regarding societal health are on the rise. Additionally, the implementation of this proposal would allow shareholders to better assess whether the company is adhering to its stated commitment to colleague health and its management of related risks.

Telstra Corporation Limited	TLS	Australia	12/10/2021	Approve Share Plan Grant	Approve Grant of Restricted Shares to Andrew Penn	For	For	A vote FOR the grant of equity to the CEO in the form of restricted shares and performance rights is warranted. The terms of the proposed equity grants are consistent with prior year grants and aligned with shareholder interests. The grant of equity represents the deferred component of the company's FY21 Executive Variable Remuneration Plan (EVRP), which is a combined STI and LTI structure, with outcomes being assessed in FY21 at 63.8 percent of the CEO's maximum award opportunity.* Quantum is not misaligned with the company's performance.* Restricted shares are akin to the deferred component of a conventional STI, and subject to appropriate trading restrictions over one to four years, and* Performance rights are consistent with other LTI awards in this market, and subject to relative TSR performance with a graduated vesting scale and not cliff vesting. Concerns remain in relation to the payment of a dividend equalization amount on performance rights that vest. This is inconsistent with better market practice, given that executives have no present entitlement to the dividends or underlying shares prior to assessment of performance conditions at the end of the performance period and vesting.

Telstra Corporation Limited	TLS	Australia	12/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report resolution is warranted. No material misalignment of pay with performance and shareholder outcomes is observed in the period under review. The company's remuneration practices, and structure have improved in recent years noting the following: " Fixed remuneration and NED fees have remained unchanged for several years and are expected to remain unchanged for FY22." The remuneration structure which is a combined STI and LTI variable reward plan, not typically seen in this market, has delivered pay outcomes sufficiently aligned with shareholder interests, and" The company provides superior disclosure of specific and quantified FY21 and FY22 performance targets, together with a detailed explanation of current year bonus outcomes, and" Appropriate minimum shareholding requirements have been established. Nevertheless, several ongoing concerns persist, including: " The CEO's fixed remuneration and the Chairman's fees are well in excess of relevant market median," The inclusion of dividend equalisation payments for performance rights that vest is inconsistent with good corporate governance and better market practice, and" Termination provisions for senior executives appear to be overly generous with payment in lieu of notice and an additional termination payment.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the remuneration report is warranted. " Quantitative pay for performance analysis indicates a low degree of concern for any misalignment. " The CEO's fixed remuneration is not excessive relative to peers. " Bonus outcomes are not materially inconsistent with the group's performance. " There were no LTIs due to vest during the year. The following concerns are highlighted which represent inconsistency with market and shareholder interests: " Poor disclosure of the STI, with an absence of information of weighting of each performance measure and the specific and quantified targets. " Cliff vesting in the FY21 LTI grant.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Elect Director	Elect Jann Skinner as Director	For	For	A vote FOR the election of Jann Skinner and Tiffany Olson is warranted as no material concerns have been identified regarding these directors in respect of board and committee composition, nor any wider corporate governance issues.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Elect Director	Elect Tiffany Olson as Director	For	For	A vote FOR the election of Jann Skinner and Tiffany Olson is warranted as no material concerns have been identified regarding these directors in respect of board and committee composition, nor any wider corporate governance issues.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Approve Omnibus Stock Plan	Approve Telix Equity Incentive Plan	For	For	A qualified vote FOR the approval of this resolution is warranted. The plan is not exclusive to senior executives and establishes the broad framework for equity incentives for employees. Shareholders will be able to vote on the terms and conditions of equity grants made to directors (see Item 5 and 6). The overall terms of the award to executives and employees are not considered problematic. However, the recommendation is qualified to highlight the existence of governance concerns for the fact that non-executive directors may participate in the plan.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Approve Stock Option Plan Grants	Approve Issuance of Managing Director SARs to Christian Behrenbruch	For	For	A vote FOR this resolution is warranted. The LTI grant is linked to performance milestones (ie. marketing approvals for glioblastoma and renal cancer diagnostics) and is ETRD hybrid which is sufficiently aligned with shareholder interests. The quantum of the LTI grant is not excessive and scaled vesting has been introduced for a portion of this LTI grant.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Approve Stock Option Plan Grants	Approve Issuance of Non-Executive Director SARs to Tiffany Olson	Against	Against	A vote AGAINST this resolution is warranted. The grant of SARs to non-executive directors represents a corporate governance concern given that it is inconsistent with accepted market practice given that this may impact the independent judgment of non-executive directors. The SARs are issued in addition to the non-executive director fees. The market expects director fees paid in cash, while also typically supporting salary-sacrifice arrangements of NED cash fees into shares.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Ratify Past Issuance of Shares	Ratify Past Issuance of Shares to Sophisticated and Institutional Investors	For	For	A vote FOR this resolution is warranted after considering that this issuance was to fund the company's clinical trial pipeline and additional funds are to be applied to other therapeutic and diagnostic assets, including future pipeline and indication expansion. The level of dilution to non-participating shareholders is 7.9 percent does not raise any material concern.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Approve Stock Option Plan Grants	Approve Issuance of Employee SARs to Participating Employees	For	For	A vote FOR the issuance of Employee SARs to Participating Employees for the purposes of Listing Rule 7.4 is warranted. The vesting and performance hurdles are well disclosed and sufficiently aligned with shareholder interests.
Telix Pharmaceuticals Limited	TLX	Australia	18/05/2022	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted. " The proposed amendments to the constitution include wording that explicitly states that the company may conduct meetings by using virtual-only means. " Concerns are raised for any moves to completely eliminate any physical attendance at a meeting. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. " Constitutional language providing for a hybrid meeting format, which includes physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would reasonably reflect the preferences of shareholders.

T-Mobile US, Inc.	TMUS	USA	15/06/2022	Elect Director	Elect Director Marcelo Claure	Withhold	Withhold	WITHHOLD votes are warranted for non-independent director nominees Timotheus (Tim) Hoettges, G. Michael (Mike) Sievert, Marcelo Claure, Christian Illek, Raphael Kubler, Thorsten Langheim, Dominique Leroy, and Omar Tazi for failing to establish a board on which a majority of the directors are independent directors. WITHHOLD votes are warranted for Marcelo Claure, Christian Illek, Raphael Kubler, and Dominique Leroy for serving as non-independent members of key board committees. Significant risks to shareholders stemming from moderate to severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against, manage and mitigate material environmental, social and governance risks. In addition, the company does not have any public reports or information on its website about its sustainability strategy or communications regarding its environmental and social performance. WITHHOLD votes for board chair Timotheus (Tim) Hoettges are warranted given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm. Technology One Limited	TNE	Australia	23/02/2022	Approve the Spill Resolution	Approve Contingent Spill Resolution	Against	Against	A vote AGAINST this proposal is warranted. A board spill is not considered to be in the best interests of the company or shareholders at this present time. Disclosure indicates that the board engaged with key shareholders and proxy advisors to understand and address any ongoing concerns and the board provided its rationale for the use of discretion in the prior year which gave rise to the "first strike" against the remuneration report. The company emphasized that the use of discretion was an historic decision made for FY20 testing and was not repeated for the testing of the FY21 tranches. The company's FY21 results do not warrant any specific concerns in terms of misalignment of LTI vesting and company performance.
Tesseract Limited	TNT	Australia	19/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted due to the following: " Unsubstantiated substantial increase to an executive's fixed pay; and" The award of discretionary bonuses to the executives which appears at odds with the company's financial performance and position at year end; and" Unacceptable vesting period and absence of performance hurdles of the LTIs.

Tesseract Limited	TNT	Australia	19/11/2021	Ratify Past Issuance of Shares	Ratify Past Issuance of Shares to Various Parties	For	For	A qualified vote FOR this resolution is warranted because: " The issuance of securities to a vendor as consideration for an acquisition retains some alignment of the vendor with the business and shareholders." The issue of shares as consideration for the services provided assisted the company in conserving its available cash; and" The company has provided a compelling rationale for the Placement, with the proceeds to be allocated as consideration for the strategic acquisitions and deferred acquisition payments. The success of these undertakings may be value accretive to the company and shareholders. Nevertheless, shareholders may be concerned with the substantial dilutive impact of the Placement (i.e., 11.11 percent as at Oct. 3, 2021), and the significant discount of the issue price of shares.

Tesseract Limited	TNT	Australia	19/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve Changes to the Constitution - Virtual General Meetings and Notices to Shareholders	Against	Against	A vote AGAINST this resolution is warranted. The proposed amendments include wording that could permit general meetings to be held by virtual-only means. While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at meetings. Virtual-only meetings may impact shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic; however, this has been addressed by the temporary relief announced by the Australian Government on Aug. 10, 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and executive documents until March 31, 2022. Accordingly, there appears no benefit to shareholders from approving this provision at present. Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.
TPG Telecom Limited	TPG	Australia	3/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that there is no material misalignment between pay and performance in FY21 and there were some positive changes made to remuneration practices post-merger to better align with shareholder interests and market practices. The qualification is to highlight concern that quantitative pay for performance analysis indicates a high level of concern for misalignment of pay, performance and shareholder outcomes in FY21 which could be attributed to the legacy retention bonuses as part of the merger transition.

While this issue warrants continued monitoring, CEO pay and company performance are reasonably aligned for the year in review, as the increase in incentive awards directionally aligns with financial and stock price performance. A vote FOR this proposal is therefore warranted. However, a quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure and disclosure practices.

The Travelers Companies, Inc.	TRV	USA	25/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST the proposal is warranted. Although the pay program remains relatively unchanged, an unmitigated pay-for-performance misalignment exists for the year in review. The majority of long-term incentives are based on clearly disclosed multi-year goals; however, the value of the CEO's performance year equity award increased while long-term TSRs lagged the S&P 500. In addition, while the annual bonus payout is informed by certain financial metrics with disclosed targets, payouts are ultimately discretionarily determined. Further, the proxy does not disclose target or maximum STI opportunities, threshold or maximum goals, or per-metric weightings. Investors increasingly prefer an STI structure that emphasizes objective and transparent determinations, and the lack of such key disclosures limits transparency into pay decisions, which is particularly important in years in which a quantitative pay-for-performance misalignment is identified.

Tesla, Inc.	TSLA	USA	7/10/2021	Elect Director	Elect Director James Murdoch	Against	Against	Votes AGAINST directors James Murdoch and Kimbal Musk are warranted due to concerns regarding excessive compensation to named executive officers and to non-executive directors. A vote AGAINST Murdoch is further warranted, in his capacity as a member of the governance committee, given the board's insufficient responsiveness to last year's majority-supported shareholder proposal. A vote AGAINST Murdoch is further warranted, in his capacity as a member of the audit committee, given concerns about the board's risk oversight in light of the pledging of a significant amount of the company's stock by certain directors. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST James Murdoch and Kimbal Musk are warranted for the following reasons: " Given that board chair, Robyn Denholm, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.

A vote AGAINST Murdoch is further warranted, in his capacity as a member of the audit committee, given concerns about the board's risk oversight in light of the pledging of a significant amount of the company's stock by certain directors. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST James Murdoch and Kimbal Musk are warranted for the following reasons: " Given that board chair, Robyn Denholm, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.

Treasury Wine Estates Limited	TWE	Australia	15/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted given that there does not appear to be any material disconnect between pay and performance and shareholder outcomes. The company's remuneration structure is broadly unchanged from prior years. Executive fixed remuneration and director fees did not increase. CEO incentive awards are at lower levels than the previous CEO and there was nil LTI vesting to reflect the weaker shareholder outcomes.Concerns are observed including: " Bonus outcomes are difficult for shareholders to discern given the persisting absence of disclosure of specific and quantified STI hurdles, reflecting an inferior practice to many large ASX-listed entities and inconsistent with the good governance expectations of many shareholders." Adjustment by the company to STI targets mid-year exacerbated concerns for high STI bonuses in FY21 after nil STI bonuses in the prior year." The relative TSR measure in the LTI Plan has a lower weighting at 25 percent and may lead to a misalignment of executive reward with shareholder interests, and" A discretionary one-off LTI grant was awarded to the Chief Financial Officer with no disclosure provided of the board's rationale.

Treasury Wine Estates Limited	TWE	Australia	15/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Tim Ford	For	For	A vote FOR this grant of performance rights to the CEO is warranted. The structure of the award is consistent with prior year and in line with market, with a three-year performance period, no re-testing, no dividends on unvested shares and use of face value to determine the number of rights allocated. Concerns are noted that: "The quantum of the award is higher than median of peers." There is a lower weighting to the relative TSR measure with the vesting scale increased to permit higher vesting at threshold compared to prior grants at this company." ROCE growth hurdles have been reduced, and" The discretion afforded to the Board to adjust the ROCE performance conditions.

Twitter, Inc.	TWTR	USA	25/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted, due to disclosure and incentive program design concerns. The LTI program's financial component utilizes only a one-year measurement period and shares a metric with the STI program. The LTI program's relative TSR metric targets merely median performance and the proxy does not disclose a vesting cap for negative absolute TSR. Further, the new CEO received a large promotion award that lacks performance-vesting criteria. Some investors may question the magnitude and design of special one-time awards to NEOs, which carry significant stock appreciation targets but do not also require relative TSR outperformance. Finally, the STI program has poor disclosure around diversity targets and individual performance assessments.

The STI program was based entirely on pre-set objective metrics with a clearly disclosed payout formula and target goals. Further, the compensation committee used its discretion to lower the vesting percentage of a previously granted PSU award. However, continued monitoring of the company's goal-setting practices is warranted, as a financial metric target in the STI was set below the prior year's actual performance, while no forward-looking targets in the LTI are disclosed.

The following concerns are raised: "The CEO's FY21 fixed annual remuneration, which includes travel allowance, is high and the company benchmarks total remuneration between the 50th and 75th percentile of the comparator groups. Above median benchmarking has a ratcheting effect on executive compensation without a link to company performance; and" There is no performance measure in the LTI linked to outperformance relative to peers, raising the possibility that executives are rewarded for market movements rather than outperformance against peers.

UAA	USA	11/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted. Consents regarding the entirely time-based equity awards granted during the year in review are mitigated by the company's plan to return to its pre-pandemic practice of granting 50 percent time-based and 50 percent performance-based stock awards. Additionally, the CEO's target equity award will be reduced to \$7 million compared to the \$10 million award granted during FY2021. Finally, the majority of the CEO's annual incentive award is conditioned on objective financial performance metrics, and CEO pay and company performance are reasonably aligned during the year in review.

United Malt Group Limited	UMG	Australia	11/02/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. The CEO's fixed remuneration and bonus outcomes are not regarded as excessive or problematic, and the one-off award granted in the prior year will lapse given that performance targets are not met. This recommendation is qualified to highlight concerns that: "The CEO's total remuneration is higher than market cap peers;" The absence of appropriate disclosure of specific and/or qualified STI targets which is typically provided by many large ASX-listed entities as a matter of good corporate governance;" A portion of the LTI grant (25 percent) is subject to an undisclosed "strategic target", where strategy is part of the CEO's "day job" for which above median fixed remuneration is on offer; and "The FY22 STI is disclosed to be reweighted with an increase in non-financial individual performance measures further moving away from a nexus of award of the bonus based on the company's performance.

United Malt Group Limited	UMG	Australia	11/02/2022	Approve Share Plan Grant	Approve Grant of Performance Rights to Mark Palmquist	For	For	A qualified vote FOR the FY22 LTI grant is warranted. The structure of the LTI is broadly consistent with shareholder interests, incorporating a three-year performance period (being at the minimum accepted at this market) and subject to three performance targets (namely ROCE, absolute TSR and strategic executive measures). This recommendation is qualified to signal concerns regarding the undisclosed non-financial "strategic" targets. Concerns are exacerbated given that "Many shareholders may regard strategy as part of the CEO's "day job", the success of which would appear in improved accounting and shareholder return measures." Incorporating "strategic objectives" involves subjective board determination of performance and may lead to misalignment of bonuses with shareholder outcomes." Disclosure indicates that "partial achievement" of strategic measures would result on some LTI vesting, which would suggest a low bar for a bonus and misalignment with shareholder interests.

Unifi Group Limited	UWL	Australia	26/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted because pay appears to be reasonably aligned with the company's performance. In addition, no additional shares (or options) were granted to non-executive directors, a new LTI plan was introduced based on performance shares with equally weighted financial metrics (EPS and TSR) to be measured over a reasonable three-year period, and the board also introduced shareholding guidelines for its executives and non-executive directors. The qualification is due to the previous granting of share rights to the company's non-executive chairman and options granted to non-executive directors, not consistent with local market standards resulting in excessive NED remuneration when compared to the ASX 151-175 and Sustainability Advisory Services peers.

Visa Centres	VCX	Australia	10/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted as remuneration outcomes are not materially misaligned with securityholder results and company performance for the year under review. The board applied downward discretion to FY21 STI bonuses and there was nil vesting of the FY19 LTI grant, which is commensurate with financial and operational performance during the year. Qualification is based on the following: "Continued absence of disclosure of the specific and quantified targets for the STI financial targets which hinders securityholders' ability to assess overall rigor of the STI plan and determine if the STI outcomes are truly aligned with overall company performance and their expectations; and" The FY21 LTI grant included restricted rights for 33 percent of the award which is not an accepted market practice amongst Australian investors. Perhaps in mitigation, the company is reverting performance rights for the FY22 LTI grant.

Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders.* It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present.* Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

CEO pay increased in FY21, primarily driven by a larger equity grant. Long-term incentives are half performance based; however, one-third of performance equity can be earned after just a one-year performance period. Further, performance equity continues to target merely median TSR, a goal that is not considered to be particularly rigorous, and vesting is not capped if absolute TSR is negative. Lastly, investors are advised to monitor the new ESG modifiers in the long-term incentive program, which have resulted in maximum-level adjustments to both of the completed cycles where the modifiers have been applied.

Some concerns are noted as forward-looking performance targets for the long-term TSR modifier are not disclosed, and payout for the individual STI component is initially funded above the achievement of the financial component. However, annual incentives are contingent on pre-set financial metrics, and the committee applied negative discretion to payouts and reduced bonus opportunities following certain COVID-related changes. In addition, the committee increased the proportion of performance-based equity for most NEOs, and the total value of the CEO's equity awards was reduced significantly compared to the previous year. While the primary metrics used in the long-term incentive plan are measured over a series of one-year periods, final payouts are subject to an additional three-year TSR modifier, and the plan no longer uses metrics that overlap with the annual incentive program.

Although the annual bonus pool is funded formulaically, individual payouts are discretionarily determined, and the proxy lacks key disclosures, such as performance targets, the CEO's target opportunity, or per-metric weightings. The redesigned LTI program also raises structural and disclosure concerns. Half of performance awards are primarily earned based on relative TSR metrics that target merely the median, and the remaining half are primarily earned based on annual operational goals for which forward-looking targets are not entirely disclosed. Concerns over the use of an annual measurement period are not substantially mitigated by the existence of a three-year modifier, as the modifier may only reduce awards by up to 30 percent.

Ventas Inc.	VTR	USA	27/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted. There are structural concerns identified with the STI program changes for FY21, which were implemented due to the pandemic. The program appears largely discretionary, as half of awards were earned based on individual performance and the remainder was based on corporate goals that are mostly described in qualitative terms, with minimal disclosure of pre-set, quantified targets and results. The company's rationale for this structure is not considered compelling for FY21, and the structural concerns identified are not mitigated by discretionary reductions to STI payouts. LTI program concerns are also identified, as the relative TSR metrics target merely the index without a disclosed cap in the event of negative TSR and forward-looking goals for the remaining metrics are not disclosed. Lastly, NEOs received retention awards that lack performance-vesting criteria.

Walgreens Boots Alliance, Inc.	WBA	USA	27/01/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST the proposal is warranted. In response to last year's failed say-on-pay vote, the proxy included disclosure regarding feedback received from shareholders. However, disclosure of engagement efforts was incomplete and, more concerning, the pay program changes did not fully address the most prominent shareholder concern regarding the use of positive discretion to increase 2020 closing cycle LTI earnings. In addition, a mitigated pay-for-performance misalignment exists for the year in review. The annual bonus was based on pre-set objective metrics with clear disclosure regarding the payout structure, targets, and actual performance, though a concern is noted regarding the use of an individual performance modifier, particularly given shareholder feedback regarding the use of positive discretion. The long-term incentive program is half performance-conditioned equity, which utilizes a multi-year performance period. Though forward-looking targets were not disclosed, these goals are disclosed retroactively at the end of the performance period.

Westpac Banking Corp.	WBC	Australia	15/12/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the 2021 remuneration report is warranted. Performance improved in FY21 and there is no identified misalignment between pay and performance and shareholder outcomes. STVR awards were below target levels and the LTVR lapsed in full for the sixth year running. Nevertheless, the qualification is based on shareholder concerns including: " Disproportionate weighting to non-financial measures in the STVR to fix prior issues," Continuing payment of excessive sign-on bonuses," Generous contractual terms on executive termination, and" Narrow curated LTVR peer group for the relative TSR performance measures which does not incorporate a positive TSR gateway.
Westpac Banking Corp. The qualification is to highlight concerns for the small and curated number of companies in the peer group and the extent to which the board has overriding discretion in relation to vesting of performance hurdles if deemed appropriate. Importantly, there is no positive TSR gateway requirement to ensure that any bonus on vesting of rights is only paid where there is a positive return to shareholders.

Problematic pay practices are observed in connection with the excessive grant of options to the CEO and the grant of retention rights to executives (excluding the CEO), which are materially inconsistent with the position and business of the company and its performance and shareholder returns and interests.* A high level of concern is identified in the quantitative pay for performance analysis primarily triggered by the significant grant of options to the CEO.* The retention rights granted to executives are not subject to any performance conditions, being inconsistent with expected market practice for the vesting of long-term incentives to be subject to performance conditions which are aligned with improved shareholder interests.* The vesting of options does not incorporate any acceptable performance metric linked to improved performance of the company, whereas the inherent share price appreciation objective above the exercise price may be driven by market forces such as any broader market uptrend in the ASX Indices.* The vesting of the retention rights and options commences as early as one-year from the date of grant which is inconsistent with the long-term focus of investors.* The exercise price of the options granted to the CEO at \$3.08 was set at the time of a very low share price during COVID-19 uncertainty and significant uncertainty for the company. The share price and exercise price of the options is observed to be materially lower than the share price seen before February 2020, where the shares traded between \$7.30 and \$12.25 in the period between 1 July 2018 and 20 February 2020. The options are substantially in-the-money whereas considerable shareholder value has been lost and demonstrating a substantial level of misalignment between executive remuneration and shareholders.

Wesfarmers Limited	WES	Australia	21/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. No significant disconnect between pay and performance and shareholder outcomes has been observed for the period under review. Pay outcomes are significant and near maximum, with financial performance and share price appreciation increasing in FY21. The qualification is to highlight primary concerns for the following matters:* High weighting to non-financial measures in the KEEPP combined incentive plan.* Poor disclosure of certain non-financial targets making it difficult for shareholders to assess the rigor of targets and the true level of performance to justify the high bonuses.* Dividends on unvested shares when there is no present entitlement to dividends or share until vesting.* The proposed top-up of the KEEPP award in instances where the annual assessment is less than 100 percent of fixed remuneration provides a minimum bonus which appears misaligned with shareholders, and* Disclosed fixed remuneration increases certain executives in FY22 are well above general salary inflation.
Wesfarmers Limited	WES	Australia	21/10/2021	Approve Share Plan Grant	Approve Grant of KEEPP Deferred Shares and KEEPP Performance Shares to Robert Scott	For	For	A qualified vote FOR the grant of deferred shares and performance shares to CEO Rob Scott is warranted. The major concern for shareholders is that the KEEPP award for FY21 has been assessed at \$7,369,402 which is close to the maximum award opportunity. This is very high, which some shareholders may consider as excessive at this level. While it reflects the improved financial performance in FY21 it also includes a significant component (40 percent) based on achieving non-financial measures which appear to represent day-job duties and include many stay-in-business objectives. Nevertheless, financial and business objectives in FY21 were well achieved above stretch, which supports this recommendation.

Wells Fargo & Company	WFC	USA	26/04/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	Following last year's low support for say-on-pay, the committee engaged with shareholders, disclosed specific feedback received, and implemented pay program changes and incremental disclosure improvements. Accordingly, the committee has demonstrated sufficient responsiveness. While the increase in CEO performance year pay is directionally aligned with improved company performance, there are ongoing concerns regarding the impact of committee discretion in ultimately determining incentive payouts, and a lack of key disclosures under the total incentive assessment. Concerns around discretion are underscored by the fact that financial accomplishments highlighted for the FY21 performance year are not entirely consistent with those highlighted in the prior year without specific rationale provided. In addition, the proxy does not disclose quantified pre-set target or maximum goals, nor per-metric weightings, which inhibits investors' ability to assess the pay-for-performance linkage. Lastly, there are ongoing concerns regarding high base salaries for the CEO and other NEOs, and the target goal for the reintroduced relative metric under the LTI program is not considered particularly rigorous. Given these concerns, a vote AGAINST this proposal is warranted.

Westgold Resources Limited	WXG	Australia	26/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted in the absence of material disconnect between pay and performance and shareholder outcomes. The company's financial performance improved over prior year, fixed pay to the CEO is consistent with market peers and STI bonuses are not considered to be misaligned or excessive, LTI grants have a minimum market standard three-year performance period and are subject to both absolute and relative performance measures. Nevertheless, remaining concerns exist for the insufficient disclosure on STI performance hurdle and an excessive allocation to non-financials under the STI which appear as bonuses for the "day job".
Westgold Resources Limited	WXG	Australia	26/11/2021	Elect Director	Elect Gary Davison as Director	For	For	A vote FOR the election of Gary Davison (Item 2) is warranted as there are no material issues have been identified regarding board and committee composition resulting from his nomination, nor any wider corporate governance issues. A vote AGAINST the re-election of Chair Peter Cook (Item 3) is warranted. Concerns are noted that he is considered overboarded under Sustainability Advisory Services Australian guidelines; however, aside from Westgold Resources, the remainder of his boards are with small companies outside the ASX300 where complexity and workload would not be as great as in an ASX300 company. With that said, the board is not a majority independent board (only 40 percent independent) and female director representation on the board stands at 20 percent, not meeting the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger companies in the ASX300 Index to have at least 30 percent of each gender represented on the board. Given Cook is the board chair, he is responsible for corporate governance structure of the company.

Westgold Resources Limited	WXG	Australia	26/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Wayne Bramwell	For	For	A qualified vote FOR the approval of performance rights to Wayne Bramwell is warranted. The structure of the LTI is sufficiently aligned with shareholder interests with a performance period of three years being at the minimum accepted in the Australian market and both absolute and relative performance measure. The qualification is to highlight concerns that the allocation of the LTI awards is based on a discounted fair value which is inconsistent with good market practice. This fair value is broadly discredited in the Australian market context as producing excessive remuneration and obfuscating true remuneration disclosure. In this case, conversion to a face value of the grant does not indicate any material concern for excess.

Whitehaven Coal Limited	WHC	Australia	27/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	Against	Against	A vote AGAINST this resolution is warranted.* A high level of concern for misalignment is identified in the quantified Pay-for-Performance analysis, suggesting misalignment of pay relative to performance compared with peers.* STI bonuses increased by approximately 90 percent over prior year performance appearing to be inconsistent with the company's reported results and profitability.* The specific and quantified STI targets continue not to be undisclosed, representing inferior transparency compared with local market peers and making it impossible for shareholders to independently evaluate the rigor of targets and achievements and alignment with shareholder expectations.* CEO, executive KMP and director remuneration are all above the median of similar sized companies, primarily due to the material fall in market capitalisation moving the company down the peer group.* The company does not have a specified minimum shareholding requirement for executives or directors.
Whitehaven Coal Limited	WHC	Australia	27/10/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Paul Flynn	For	For	A qualified vote FOR this resolution is warranted.* The LTI grant is unchanged from the prior year with performance and post-vesting holding periods being in line with market and appropriate clawback and termination provisions apply.* The performance measures include relative TSR, a relative cost per tonne measure and a strategic project delivery objective for a lesser 15 percent component. The qualification reflects concerns for the following: "The quantum of the CEO's LTI award is high relative to market cap peers." "The cost targets are not disclosed and based on performance in the final year of the performance period and not the whole performance period" - the board links the assessment of performance to a Wood Mackenzie industry report on relative performance." "Setting and achieving strategic objectives is part of a CEO's (and executive's) "day job", where the success in executing that strategy should deliver longer term profitability, improved dividends and share price appreciation which would be more appropriately measured via an assessment of profitability or shareholder returns, rather than a separate performance measure dependent on subjective board assessment - in mitigating, there is a positive TSR gateway requirement for vesting against this measure, and" Dividends on unvested shares during the performance period are available for any rights that vest, representing a contrived contractual outcome, given that there is no present entitlement to shares or dividends prior to vesting of right.

Walmart Inc.	WMT	USA	1/06/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. Annual incentives are based entirely on financial metrics with pre-set, objective goals, and a majority of long-term incentives are sufficiently linked to established financial performance goals. Worley Limited	WOR	Australia	3/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. * Remuneration and bonus outcomes are not materially misaligned with performance measures and results with lower STI bonuses compared to the prior year and paid at 35 percent of maximum opportunity and there was nil vesting of the FY19 LTI aligning with the flatter longer term results; * There was no increase to the CEO's fixed remuneration which is not excessive relative to peers; * A substantial portion of the CEO's total remuneration continues to be variable (70 percent) with a substantial weighting to financial performance; * As an improvement to the prior year, the deferred equity rights granted under the DEP are now subject to achievement of strategic targets prior to vesting (previously tenure based); * The LTI is broadly unchanged from prior year, although it is now subject to a four-year performance period linked to two financial performance metrics; and * The company's minimum shareholding requirements are robust with the CEO. Concerns are again raised for the following: * continued absence of disclosure of specific and quantified "threshold", "target" and "stretch" performance hurdles in the STI, making it impossible for shareholders to evaluate the rigor of targets, and * non-disclosure of DEP targets, while also noting that bonus payments linked to execution of strategy are regarded as bonuses for the "day job" of a CEO and senior executives, pointing to greater certainty of achievement and vesting.
Worley Limited	WOR	Australia	3/11/2021	Approve Share Plan Grant	Approve Grant of Deferred Equity Rights to Robert Christopher Ashton	For	For	A qualified vote FOR the issuance of deferred equity rights to CEO Chris Ashton is warranted. There are no performance hurdles to be met prior to the grant being made; however, the board discloses that there are strategic targets that need to be achieved prior to vesting, although executing strategy is considered to be part of the "day job" of the CEO, and therefore likely to result in high or full vesting. The qualification is in high or full vesting. The specific and quantitative targets are not disclosed although the company states that the targets will be quantified and measurable. * The value of this award is 70 percent of his fixed remuneration (increased from 50 percent in the prior year) and equal to \$1,190,000, which is not insignificant. This has been accompanied by a reduced in the STI, which may be regarded as a trade-off for greater certainty of vesting of the DEP compared to the STI.
Worley Limited	WOR	Australia	3/11/2021	Approve Share Plan Grant	Approve Grant of Long-Term Performance Rights to Robert Christopher Ashton	For	For	A vote FOR the issuance of performance rights to CEO Chris Ashton is warranted. The features of this FY22 LTI grant remain well aligned with long term shareholder interests. This includes a 4-year performance period and relative TSR and EPS growth performance measures.

Woolworths Group Limited	WOW	Australia	27/10/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR the Remuneration Report is warranted. No material misalignment between pay, performance and shareholder outcomes has been observed for the period under review. Concerns for shareholders are in relation to the LTI: * Absence of disclosure for the ROFE and Sales per sqm targets in the FY21 LTI award, and * A 20 percent portion of the new FY22 LTI will be allocated to a non-financial performance measure, Reputation. This is considered to be problematic and misaligned with improved company performance and shareholder interests. It appears in the nature of a bonus for the "day job" responsibilities of the CEO and executives, or alternatively, a bonus for the company and executives "not doing the wrong thing" in regard to something which could damage reputation.
Woolworths Group Limited	WOW	Australia	27/10/2021	Approve Share Plan Grant	Approve Grant of Performance Share Rights to Brad Banducci	For	For	A qualified vote FOR the grant of rights to CEO is warranted. The structure of the grant mostly consistent with prior year grants. Concerns for shareholders include: * The high quantum of award above market median, * The award of dividends on unvested shares paid during the performance period in the form of additional shares allocated on any rights that vest, * Performance targets for the two internal performance measures representing 60 percent of the award (ie. in regard to the ROFE and Reputation performance measures) are not disclosed in advance, and preventing shareholders from assessing their rigor, * Inclusion of a new Reputation non-financial measure for 20 percent of the LTI award is problematic and inappropriate. Managing the company's reputation is part of the CEO's (and executives') core "day job" responsibilities. This performance measure appears to create a bonus "for not doing the wrong thing" rather than a bonus which is aligned with improved shareholder outcomes and an improvement in the company's performance, and * The TSR measure does not have a positive TSR gateway to ensure vesting of bonuses is aligned with a positive return to shareholders. Concerns are highlighted regarding the opaque and potentially discretionary reputational non-financial performance measure, which increase certainty of higher-level vesting. The case has not been made for any alignment with improved shareholder wealth outcomes. Shareholders may seek to express their concerns regarding the suitability, or otherwise, of the Reputation non-financial performance measure.

Woodside Petroleum Ltd.	WPL	Australia	19/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR the remuneration report is warranted. * There is reasonable alignment to pay and financial performance in FY21. * There is a higher weighting to financial metrics in FY21 and improved disclosure of performance targets. * The company's NPAT and EBITDA improved in FY21 although the share price declined, production was below FY20 levels and unit cost of production increased. * The quantitative pay for performance model indicates a medium level of concern for relativity of pay with performance over the last three years, being at least in part a function of significant remuneration to the former CEO and weak TSR impacted by covid impact global equities and oil markets. Some concerns warrant qualification including: * Continued high weighting in the EIS to individual and non-financial performance objectives that are assessed on a subjective basis and appear to be core "day job" responsibilities for senior executives, * EIS bonuses for FY21 are high and more aligned with improved NPAT and EBITDA, than productions and costs and shareholder returns, * Provision for dividends in the performance period on unvested shares in regard to the performance rights that vest, represents an inconsistency with the trend in the market for removal of such contingencies, noting that the shares are not owned nor is there any present entitlement to the shares or dividends, * Discretionary awards were granted to executives associated with the completion of the merger agreement with BHP, and * Board discretion was applied to accelerate the vesting of awards for the new CEO and retiring CEO. A portion of Meg O'Neill's sign-on award was accelerated on her appointment to the CEO's role and the FY22 performance rights granted to the retired CEO, Peter Coleman, have a shorter performance period of three year compared to the standard five years.
Woodside Petroleum Ltd.	WPL	Australia	19/05/2022	Approve Share Plan Grant	Approve Grant of Restricted Shares and Performance Rights to Meg O'Neill	For	For	A vote FOR the grant of restricted shares and performance rights to the CEO is warranted. * The quantum of the award is calculated on a pro-rata basis based on the new CEO's time in the role and is lower than market median. * The award structure has a high weighting to restricted shares (essentially equivalent to a traditional deferred STI) that are subject only to tenure and clawback/malus provisions over three and five-year deferral periods, and performance rights are subject to two relative TSR performance measures over five years. Concerns include: * the provision for "dividends on unvested shares", through a dividend equalization payment in respect of dividends paid during the performance period on the performance rights that ultimately vest, * the board's discretion to accelerate vesting in specific circumstances, and * the annual assessment includes a high portion based on achievement of non-financial and individual objectives.

WPP Plc	WPP	Jersey	24/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Compensation Committee Report	For	For	A vote FOR this item is considered warranted, although it is not without concerns: * The CEO's salary was increased by 6.7% and his EPS award level for FY2022 was increased from 350% of salary to 390% of salary. * The performance outcomes of the annual bonus raise concerns on whether the targets set were appropriately stretching. In addition, the level of bonus payout raises concerns relating to stakeholder alignment, given redundancies during the pandemic and receipt of government aid during the year under review. The main reasons for support are: * The Company's rationale for the increase in the CEO's compensation is recognized. * The increase in the 2022 EPS award level is accompanied by an increase in the stretch of the performance targets. * The bonus payout is considered broadly in line with the Company's relatively strong performance during the year under review.

Waypoint REIT	WPR	Australia	12/05/2022	Approve Share Plan Grant	Approve Grant of Performance Rights to Hadyn Stephens	For	For	A vote FOR the grant of performance rights to CEO Hadyn Stephens is warranted. The terms of the grant are not problematic. The Group has provided good disclosure, and the structure of the grant is in line with accepted market practice and securityholder interests with vesting of any LTI after a three-year performance period, no-retesting, no distribution entitlement prior to vesting, and two equally weighted performance measures, with clawback provision. If this resolution is not approved, a cash payment will be made to the CEO to the value of any vested rights in lieu of securities. The 'false choice' has the effect of diminishing securityholder rights.

Western Areas Ltd.	WSA	Australia	18/11/2021	Elect Director	Elect Richard Yeates as Director	For	For	A qualified vote FOR the re-election of Richard Yeates is warranted since he is a non-independent director serving on key board committees that are not fully independent, namely the Remuneration Committee (only 67-percent independent) and Nomination Committee (only 50-percent independent). However, the board is majority independent and no other governance concerns have been identified regarding his nomination at this time. Mr Yeates is classified as non-independent under ISS Australian Benchmark Policy due to excessive board tenure (>12 years).
Western Areas Ltd.	WSA	Australia	18/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A qualified vote FOR this resolution is warranted. Although the Sustainability Advisory Services pay for performance model shows a high level of concern for misalignment, there appears no material disconnect between pay and performance at this time, particularly the STI outcomes are lower and there is no LTI vesting for FY21. In addition, the CEO's total pay is not considered excessive. The overall terms of the LTI, which includes rigorous relative TSR goals over a three-year period, are also in line with local market practice. The following concerns are highlighted: " Poor STI disclosure as the complete specific and quantified goals, metric weightings, and actual results are not disclosed; and" Problematic features, including potential "takeover bonus" for two executives including the CEO upon a takeover or a merger; board discretion to accelerate vesting of performance rights for good leavers and in the event of a change in control; and the lack of a positive TSR gateway for the sole LTI metric, relative TSR.
Western Areas Ltd.	WSA	Australia	18/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A vote FOR this resolution is warranted as the current headroom may not be sufficient to provide future flexibility to appoint and retain directors, and the proposed increase is not considered excessive. Also, overall non-executive director fees are not considered excessive at this time.
Western Areas Ltd.	WSA	Australia	18/11/2021	Approve Share Plan Grant	Approve Grant of Performance Rights to Daniel Lougher	For	For	A vote FOR this resolution is warranted. The structure of the grant is the similar as in the prior year, namely assessed against rigorous relative TSR hurdles over a three-year performance period. However, the following concerns are highlighted: "The quantum of the grant remains relatively high; and" The company does not appear to include a positive TSR gateway for the relative TSR performance hurdle" The change of control and "good leaver" provisions are subject to board discretion and may therefore allow the accelerated vesting of awards without respect for time elapsed or the original performance conditions. The company previously announced that it was in preliminary discussions with IGO Limited in relation to a possible change of control proposal. Considering the current competitive labour market and as an incentive to assist the company to retain its key personnel, the board has determined that should a board recommended change of control proposal be agreed, it would exercise its discretion to vest any unvested performance rights (including those held by the CEO) if a change of control occurs because of that board recommended proposal.

Western Areas Ltd.	WSA	Australia	18/11/2021	Approve Scheme of Arrangement	Approve Scheme of Arrangement in Relation to the Proposed Acquisition of the Company by IGO Limited Through its Wholly-owned Subsidiary, IGO Nickel Holdings Pty Ltd	For	For	A vote FOR the proposal is warranted for the following reasons: " The all-cash Final Scheme consideration of \$3.87 per WSA share represents a premium of 56.0 percent above WSA's share price when initial discussions between WSA and IGO were announced in August 2021 and a premium of 19.4 percent above WSA's share price on 15 December 2021 prior to the first Scheme proposal. " The offer provides certainty of value for WSA investors at a time when there is significant global uncertainty following the invasion of Ukraine and the subsequent impact on nickel price volatility. " The offer is unanimously supported by the board in the absence of a superior proposal. " The market reaction post-announcement indicates broad acceptance of the transaction, and " There have been no superior offers. This recommendation is not without some concern noting that the Independent Expert concluded that the IGO offer was not fair but reasonable to Western Areas shareholders and therefore, on balance, in the best interests of Scheme shareholders in the absence of a superior proposal. The Independent Expert's final valuation of WSA shares was in the range of \$4.04 to \$5.23 per share, on a 100 percent controlling interest basis, however this includes values of residual resources and other mineral asset interests held by Western Areas not currently captured in Western Areas' production scenarios, and nickel prices based on the prevailing high and volatile spot prices.

There has been no indication that these sums will be repaid. It is also noted that the delayed bonuses for 2020/21 were voluntarily forgone. However, the concern with bonus payment against the background of significant government assistance remains. Wisetech Global Limited	WTC	Australia	19/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted. The CEO only receives a fixed remuneration of \$1,000,000 and does not participate in the STI or LTI plans. Total pay levels are not excessive and STI bonuses to the KMP are appropriately aligned with the company's good financial performance, including 100 percent of bonuses granted as equity to executives without significant shareholdings and the majority being deferred over a further three-year period. The company continues to disclose the performance measures in the STI plan (70 percent based on financial and operational targets which represents a reasonable weighting to objective measures), including the target range for revenue growth and EBITDA. STI awards were earned at maximum, which is aligned with the company's strong financial performance and shareholder returns.

Wisetech Global Limited	WTC	Australia	19/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR this resolution is warranted as the increase in the non-executive director fee cap will help facilitate a board refreshment and succession planning, taking into account that two directors have tenures of 15 years. In addition, non-executive director fees are not excessive when compared to capitalisation peers and the company indicated that additional directors is needed to broaden the board's diversity as it continues to grow. The qualification is to highlight the significant increases in individual director fees in FY22.
Wisetech Global Limited	WTC	Australia	19/11/2021	Amend Articles/Bylaws/Charter -- Non-Routine	Approve the Amendments to the Company's Constitution	Against	Against	A vote AGAINST this resolution is warranted because: " The proposed amended constitution includes wording that explicitly states that the company may conduct meetings by using virtual-only means." While there is recognition of the benefits of increased participation at shareholder meetings via electronic means, concerns are raised for any moves to completely eliminate any physical attendance at a meetings, and the wording proposed in the amendments explicitly allow for this. Virtual-only meetings may impact on shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders;" It is also recognised that there is a case for greater flexibility in meeting formats given the current global health pandemic. However, this has been addressed by the temporary relief announced by the Australian Government on 10 August 2021 which allows companies to hold virtual meetings and use electronic communications to send meeting materials and execute documents until 31 March 2022. Accordingly, there appears no benefit to shareholders in approving this provision at present; and " Going forward, constitutional language reflecting a hybrid meeting format, which provides for physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would represent the preferences of shareholders.

The company has demonstrated poor responsiveness to low vote support for the 2021 say-on-pay proposal. Specifically, disclosure regarding shareholder feedback is limited and it is not clear that the company has made meaningful changes to the pay program to address shareholders' concerns. In addition, a pay-for-performance misalignment is underscored by the former CEO's high base salary and target STI opportunity, and goal disclosure issues. Further, while annual equity awards were 50 percent performance-conditioned, the newly appointed CEO received a large equity grant that was entirely time-based. Finally, disclosure surrounding transition payments made to the former CEO is not sufficient.

Exxon Mobil Corporation	XOM	USA	25/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	A vote FOR this proposal is warranted, with caution. CEO Woods' pay increased year-over-year, in line with the company's financial recovery from the COVID-19 pandemic. Despite small improvements in disclosure, including providing accomplishments for each NEO and additional "focus areas" for compensation, concerns regarding the use of compensation committee discretion remain. Annual bonuses and equity award values continue to rely heavily on the committee's subjective assessment of performance, although the company provides certain considerations for executive pay decisions in the proxy. Further, equity awards do not carry performance vesting criteria, though awards use long time-vesting periods and maintain certain retention requirements. Nevertheless, for the year in review, these structural concerns were mitigated by rebounded financial performance and the alignment between pay and performance for the year in review. However, noted concerns around subjective pay determination and program structure warrant continued close monitoring, particularly should pay and performance not remain closely aligned going forward.

The qualification is to highlight that the quantum of the proposed increase in the directors' fee pool of approximately 23 percent, or \$500,000, is substantial and the proposed increases to the chairman and individual NED fees are excessive when compared to the average wage growth in Australia and New Zealand.

Yojee Limited	YOJ	Australia	30/11/2021	Approve Restricted Stock Plan	Approve Issuance of Performance Rights under Yojee Incentive Performance Rights Plan	For	For	A qualified vote FOR this resolution is warranted given that the Yojee Incentive Performance Rights Plan establishes the broader framework for equity-incentives to a wider range of the company's employees. However, governance concern exists for the fact that non-executive directors may participate in the plan. This aspect is inconsistent with shareholder expectations in this market that NEDs do not receive incentive-based pay. Nevertheless, it is noted that any grant to a NED would require shareholder approval.

YUM! Brands, Inc.	YUM	USA	19/05/2022	Advisory Vote to Ratify Named Executive Officers' Compensation	Advisory Vote to Ratify Named Executive Officers' Compensation	Against	Against	A vote AGAINST this proposal is warranted, due to significant concerns regarding pay program structure and one-time decisions. The STI payout formula allows for a large increase in total payouts based on the committee's subjective assessment of individual performance. The CEO also has a relatively high maximum STI opportunity that could allow for outsized bonuses. With respect to equity incentives, the entirety of the 2021-23 PSUs are based on a relative TSR metric that targets merely median performance. Moreover, the committee significantly increased the CEO's regular LTI grant value in the same year they awarded a sizable one-time equity award. The special award utilizes only a two-year measurement period and the metric is shared under the annual incentive program.
Zip Co Limited	ZIP	Australia	4/11/2021	Approve Increase in Aggregate Compensation Ceiling for Directors	Approve the Increase in Maximum Aggregate Remuneration of Non-Executive Directors	For	For	A qualified vote FOR this resolution is warranted. The company appears to have sufficient headroom for additional board appointments based on current director fees, but the proposed increase would support the company's efforts in adding non-executive director(s) based in the U.S. where director fees are higher. Director fees are also not considered excessive relative to peers.
Zip Co Limited	ZIP	Australia	4/11/2021	Advisory Vote to Ratify Named Executive Officers' Compensation	Approve Remuneration Report	For	For	A vote FOR this resolution is warranted on the basis that no material disconnect between pay and performance, and shareholder outcomes has been identified. Zip Co Limited	ZIP	Australia	4/11/2021	Ratify Past Issuance of Shares	Ratify Past Issuance of Placement Shares to New and Existing Institutional Investors	For	For	A vote FOR the ratification of the past issuance of shares under the placement is warranted given:* The dilution of 4.33 percent is relatively modest;* The shares were issued at a premium of 2.3 percent; and* The use of proceeds is primarily to fund global growth, while driving product expansion in Australia with the Zip business, which aligns with the company's strategy.
Zip Co Limited	ZIP	Australia	4/11/2021	Approve Omnibus Stock Plan	Approve Employee Incentive Plan	For	For	A vote qualified vote FOR this resolution is warranted. The plan establishes the broader framework for equity-incentives to a wider range of the company's employees and shareholders will be able to vote on the LTI grant made under the plan to executive directors. The LTI performance rights in Items 3a and 3b will be granted under the plan and the overall terms of the award are not considered contentious. However, shareholders should be aware of the following concerns:* Non-executive directors can participate in the plan;* The board can determine the treatment of equity awards upon a change in control;* The board may waive or amend vesting conditions; and* The associated dilution on all outstanding equity awards is excessive at 6.25 percent.

The LTE is considered part of fixed remuneration, which is not considered excessive in aggregate relative to peers at this time. LTE is not common in the Australian market, but its structure can be compared to a salary-sacrifice plan which further aligns the interests of executive directors with shareholders. A vote FOR Items 9a and 9b is warranted despite the concerns identified in the Employee Incentive Plan. The grant broadly conforms with market practice and shareholder requirements. The quantum is not excessive, performance period is at the minimum accepted in this market of three years, and the performance hurdles are sufficiently demanding.

In connection with a spinoff, performance equity granted in 2020 and 2021 was converted into time-vested equity, without disclosure of sufficient rationale. In addition, despite the 2020 performance equity tracking to not earn a payout due to underperformance, that grant was determined to vest at 50 percent of target, which undermines a pay-for-performance philosophy.
