## Silky smooth hair without split ends

Get great-looking hair without a trip to the salon: with the split end trimmer, you can remove split ends easily and effectively. The HT 22 removes fraying, broken hair at the tips without damaging healthy hair, revealing smooth, shiny hair without losing length.

How it works – safe and easy:

1. Gently glide the split end trimmer through the hair affected by splitting
2. Fine, fraying hair is precisely trimmed
3. The cut hair is collected in the in-built catch tray
