# DSC Top Spender Award for 2024

## Introducing THE 'TOP SEA TUSKER'

Since 2009, Convention bidders have been awarded a special pin each time they spent \$10,000 during live auction. These exclusive, specially made pins were only given out during Convention and not available for purchase. Traditionally, the overall Top Spender was recognized at close of the Saturday night live auction and received a very special prize.

In keeping with this great tradition, DSC is pleased to introduce the 'Top Sea Tusker' high spender pin for the 42nd Annual Convention & Sporting Expo. Designed and underwritten by DSC exhibitor and donor Gunderson's Jewelers, Booth #468, this exquisite pin was produced in a limited quantity and can only be obtained through live auction purchases of \$10k+. Additionally, the overall 'Top Sea Tusker' will receive the following outstanding package graciously donated by EuroOptic LTD., Trijicon, Stone Glacier, Inc. and Montana Knife Company.

TOP SPENDER

**THU-23 LOCHOW RANCH POND & LAKE MANAGEMENT**

**4,000 Pure Florida Strain Largemouth Bass Fingerlings**

Largemouth bass are the most sought after recreational sport fish in the southeastern United States and often the focal species in private lake management. There are many aspects of a fishery that help promote the development of trophy bass: water quality, habitat, abundance/diversity of forage fish and bass genetics. Not all these factors are controllable, so focusing efforts on what can be manipulated (such as bass genetics) will provide the best opportunity for your fishery to be elite. In Texas, both northern and Florida strain largemouth bass are found in private lakes with hybrid of the two being the norm. As a rule, Florida bass will grow more quickly and will attain a much larger maximum size than their native counterparts. With proper management and input, 100% pure Florida strain largemouth bass are expected to grow up to four pounds in one year and reach ten pounds in as little as three years from the date of stocking. Available in Texas only late spring 2024. **DALLAS SAFARI CLUB THANKS LOCHOW RANCH POND & LAKE MANAGEMENT FOR THIS 100% DONATION.** Cash Conrad, 979-703-7988, 979-587-5289, PO Box 5130, Bryan, TX 77805, [wconrad@lochowranch.com](mailto:wconrad@lochowranch.com), [LochowRanch.Com](http://LochowRanch.Com). **BOOTH #3123 Valued at \$10,000**

***"Excellent Mother" - Original Oil Painting on Belgian Linen by Cory Carlson***

"Excellent Mother" - Original oil painting on Belgian linen by Cory Carlson, measures 37"x49" framed. "By traveling the world, capturing rare moments in wild places, I strive to infuse a sense of life into every painting, bringing you closer to nature's extraordinary beauty. I could watch a cheetah family for hours and that is exactly what happened on a recent safari in the Masai Mara in Kenya. These four cubs were honing their skills, chasing each other, pouncing and playing. They will watch their mother closely over the next two years learning everything they need to know to survive and coexist with lions and other large predators. Using the termite mound (about 20 feet tall) as a watchtower, this mother can keep a close lookout for possible danger, prey, or just watch the sunrise" - Cory Carlson. **Cory Carlson, 817-492-0915, 318-243-1014, 376 Shadow Rd., Ruston, LA 71270, [carlsonfineart@gmail.com](mailto:carlsonfineart@gmail.com), [CarlsonFineArtStudio.Com](http://CarlsonFineArtStudio.Com).**

***Silencer Central Multi-Caliber Banish 30 Rifle Silencer and Multi-Caliber Banish 45 Pistol Silencer***

Silencer Central multi-caliber Banish 30 rifle and Banish 45 HD pistol silencers are constructed from strong titanium for unmatched durability at an extremely light weight. The Banish 30 rifle silencer is the most versatile suppressor in the Banish line and works with rifles from .22 to 30 caliber magnums. The Banish 30 was designed for unmatched sound suppression with tests showing it to reduce a .308 rifle by a whopping 34+ decibels! The Banish 30 comes as a 9-inch suppressor holding eight Stifle™ baffles, yet for tighter shooting platforms or blinds, can easily break down and be assembled into a 7-inch configuration. The Banish 45 HD pistol silencer was specifically designed to fit handguns calibers from .45 ACP to rimfire. Testing shows the Banish 45 able to suppress a 9mm pistol by an amazing 36 decibels, far more sound reduction than the competition. The Banish 45 is the lightest in its class at a mere 11 ounces. Ideal for 3-gun or target shooting, the Banish 45 will help protect the hearing of the shooter and others in a shooting competition and reduce recoil for quicker second shot target acquisition. Package includes silencer covers, NFA gun trust documentation and NFA tax stamps. Fingerprints, passport photo and paperwork will all be managed during the 2024 Convention. **DALLAS SAFARI CLUB THANKS SILENCER CENTRAL FOR THIS 100% DONATION.** Kelsey Hanson, 888-781-8778 Ext. 80, 605-370-4517, 7511 S Louise Ave., Ste 101, Sioux Falls, SD 57108, [kelsey.hanson@silencercentral.com](mailto:kelsey.hanson@silencercentral.com), [SilencerCentral.Com](http://SilencerCentral.Com).

***Vintage Men's Bolo Tie with Jasper Gemstones***

A bolo tie is a fascinating fusion of vintage and western styles. In recent years, the bolo has infiltrated outside of its normal genre making its way into mainstream world pop culture. This striking vintage bolo tie includes a medallion slide with a natural flatback Jasper gemstone that secures the tie when worn in a traditional manner. Its antique genuine leather braided cord has patinated to a rich dark brown. In place of traditional tapered cone shaped tips at the end of the braided leather cord, this item has two more of the natural Jasper gemstones to highlight the beginning and end of such a beautiful piece of not only jewelry, but also art. This unique design choice highlights the craftsmanship and artistry behind the piece. If only this circa 1940s article could tell us the volumes of history it has lived through. **"The Boss" - Original Oil on Canvas by Wildlife Artist Pat Pauley**

"The Boss" - Original oil on canvas by renowned wildlife artist, Pat Pauley - measures 37"x40" framed. In the vast African Savannah, a mesmerizing painting captures the essence of the wild. In stark contrast to these rugged creatures, the vibrant red beak and beauty of the oxpecker as they pluck insects from the buffalo's ears and hide, creating a harmonious relationship between two species. "Intrigued" - #1/1 S/N giclée on canvas by Sherry Steele; measures 48"x38" framed. What's out there...is it friend, or foe, or dinner? Whiskers flared and eyes focused, he searches for the answer in the lowering light. "I call this magnificent leopard 'Stan's Leopard'. After his first safari to Africa in the 1980's, Stan returned with us in 2015 still hoping to see a leopard such as this. Secretive and rarely relaxed in the presence of spectators, it is always a high priority to sight a leopard, any leopard, from any distance when on safari. This magnificent male had casually walked within feet of our truck and stared directly at us before resting in the shade of a nearby acacia tree. It was as if Stan's long-held wish had finally been granted." - Sherry Steele. **DALLAS SAFARI CLUB THANKS SHERRY STEELE UNLIMITED FOR THIS 100% DONATION.** Sherry Steele, 512-626-0119, 5335 Magdalena Drive, Austin, TX 78735, steeleart19@gmail.com, [SherrySteele.Net](http://SherrySteele.Net).

**LMB-14 FIONA CAPSTICK**  
**Seven Original Waterbuck Lithographs and Privately Published**  
**Rare Book with Map**

Two of the most highly prized and scarce works in illustrated African hunting literature are represented here today through seven hand-coloured lithographs of waterbuck. The seven framed illustrations accompany a very scarce, privately published book and map recounting the African expeditions and hunting adventures of the noted American industrialist and big game hunter, William Northrop MacMillan and his wife Lucie. The book was a personal gift to Peter Hathaway CAPSTICK in 1992 by the legendary Harry Tension of Fort Worth, Texas, founder of Game Conservation International and inaugural recipient of the Peter Hathaway CAPSTICK Hunting Heritage Award in 2005. The book bears Peter's bookplate. The six identically framed, hand-coloured chromolithographic plates of waterbuck were removed at an unknown date in the last 124 years from a set of the rare, majestic four-volume work entitled *The Book of Antelopes (1894-1900)*, by Philip Lutely Sclater and Oldfield Thomas, published by R.H. Porter of London. The plates, depicting some of the known antelope of the world at the time, are in remarkably good condition. They feature on the leaflets, as follows: the Common Waterbuck, Mrs. Gray's Waterbuck (Peter's favourite), the Sing-Sing, Crawshay's Waterbuck, the Defassa Waterbuck and Penrice's Waterbuck. Peter acquired these lithographic treasures on auction in 1984. All these items are authenticated on the rear as having belonged to Peter. The large, framed, hand-coloured lithograph of the Common Waterbuck was removed at some stage since the publication in 1840 of the rare, *PORTRAITS OF THE GAME AND WILD ANIMALS OF SOUTHERN AFRICA* by Major (later Sir) William Cornwallis Harris, published in London by W. Pickering. This is among the most highly prized illustrated works on Southern African game animals and recounts the author's hunting adventures in South Africa from 1836 to 1837. A copy of the full-colour painting of the author has been affixed to the rear of the framed lithograph as well as a copy of the author's notes on the waterbuck. Authentication of provenance is also on the rear. Peter acquired this plate on auction in the early 1970s. The heavy book and rare map accompanying the lithographs is entitled *W.N. Mc Millan's Expeditions and Big Game Hunting in Southern Sudan, Abyssinia and East Africa*, written by the Norwegian-born B.H. Jessen who accompanied the McMillan's. The book was published strictly for private distribution in London in 1906 by M. Singer & Co. The McMillan's, members of a vastly wealthy, noted family, were from St. Louis, Missouri and undertook four extensive hunting expeditions, as shown in the map accompanying the title page of the book. McMillan's wife, Lucie, also hunted big game. The McMillan's were so taken with the African wilderness that they settled in Kenya. The late President Theodore Roosevelt was the honoured guest on several occasions of the McMillan's during his historic 1909 African hunting expedition, as recounted in Roosevelt's classic *AFRICAN GAME TRAILS*.

***"Maximus" - Original Oil Painting by International Wildlife Artist Stephan Alsac***

"Maximus" - Original oil painting on linen by international wildlife artist Stephan Alsac, measures 59"Hx40"W. The portrait of a Lion. "I firmly believe that we all carry within us the memory of our ancestors, a survival instinct, a hunter's instinct, which makes us have this ancestral fear of the predator. And that's exactly what I want to convey in this painting. I want to create a silent dialogue between man and beast. I want to give my representation of the lion in all its majesty and savagery, the image of the ultimate predator." Stephan Alsac is a self-taught French artist who acquired this amazing technique by taking inspiration from master French portrait artists and quickly became one of the leading wildlife painters in France and throughout Europe. For inspiration, Alsac travels regularly to the heart of Africa to study the dramaturgy and raw beauty of the wild continent to forever capture the wildlife that moves him on large canvases. **DALLAS SAFARI CLUB THANKS STEPHAN ALSAC FINE ART FOR THIS 100% DONATION.** Stephan Alsac, 011 33 63 031 0470, 38 Avenue Leo Lagrange, Le Bouscat, Nouvelle Aquitaine 33110, FRANCE, [stephane.alsac@gmail.com](mailto:stephane.alsac@gmail.com), [Stephane-Alsac.Com](http://Stephane-Alsac.Com).

**2024 DSC Convention Rifle - Heym USA Big Five Lion Bolt Action in .416 Rigby**

Commissioned exclusively for DSC's 2024 Convention & Sporting Expo, this one-of-a-kind bolt action rifle is chambered in the venerable .416 Rigby and represents the pinnacle of the gunmaker's craft. Made entirely

in-house by HEYM in Germany, it is the second in a series of the finest rifles ever auctioned by DSC and embodies almost 160 years of HEYM's gun-making experience. The magnum Mauser action is machined from a solid billet of steel and provides the ultimate in strength and reliability. The feed rails and magazine box are designed with perfect geometry to hold five rounds (4+1) of .416 and ensure 100 percent feeding and reliability. The three-position safety allows for safe loading and unloading of the rifle and is designed to accommodate the low mounting of the included Swarovski Z8i 1.8x42 scope. With the action's integral scope bases machined into the double square bridges, the scope is easily removed and allows quick access to the Barrel-banded front and rear sights, providing the ultimate combination for dangerous game. Engraved entirely by hand, the gold inlaid lion on the magazine is the focal point of the rifle and contrasts beautifully with the bone-and-charcoal case colors and matching exhibition-grade Turkish walnut stock. Fine English scroll and gold wire inlay complete the ensemble with accents on the action, barrel and grip cap.

**SIL-606 SCHNEE'S**

***Schnee's Men's Hunter/Outfitter Pull-On Boot and Timberline Boot***

Schnee's men's Hunter/Outfitter Pull-On boot and Timberline boot. For years, customers asked for a pull-on cold weather boot and after much design work and testing, we created the Hunter/Outfitter Pull-On. We included most of the features included in the Outfitter II pac boot, but in an easy pull-on design. Uppers are made from the finest American oil tanned leathers and our hand-made removable quilted liners provide ample warmth. We import only the world's finest hand-laid vulcanized bottoms for unsurpassed strength, durability and comfort. Possibly the best cold weather chore boot around, and we think you'll agree. The Timberline was built to dominate light & fast adventures in the early season. When we set out to build the Timberline, we started with many of the core features of our Beartooth boot, but dialed back the rigidity for a smoother and more flexible ride. This made for a very comfortable boot that some folks say feels as comfortable as running shoes. But make no mistake, the Timberline is an extremely

capable boot. From desert coues deer to backcountry bulls, the Timberline will handle whatever you throw at it. Both are available in men's sizes 7-14.

***Silencer Central Multi-Caliber Banish 30 Rifle Silencer and Multi-Caliber Banish 45 Pistol Silencer***

Silencer Central multi-caliber Banish 30 rifle and Banish 45 HD pistol silencers are constructed from strong titanium for unmatched durability at an extremely light weight. The Banish 30 rifle silencer is the most versatile suppressor in the Banish line and works with rifles from .22 to 30 caliber magnums. The Banish 30 was designed for unmatched sound suppression with tests showing it to reduce a .308 rifle by a whopping 34+ decibels! The Banish 30 comes as a 9-inch suppressor holding eight Stifle™ baffles, yet for tighter shooting platforms or blinds, can easily break down and be assembled into a 7-inch configuration. The Banish 45 HD pistol silencer was specifically designed to fit handguns calibers from .45 ACP to rimfire. Testing shows the Banish 45 able to suppress a 9mm pistol by an amazing 36 decibels, far more sound reduction than the competition. The Banish 45 is the lightest in its class at a mere 11 ounces. Ideal for 3-gun or target shooting, the Banish 45 will help protect the hearing of the shooter and others in a shooting competition and reduce recoil for quicker second shot target acquisition. Package includes silencer covers, NFA gun trust documentation and NFA tax stamps. Fingerprints, passport photo and paperwork will all be managed during the 2024 Convention.

What's both unique and compelling about Greystone is that it can be so many things to so many different sportsmen. To the upland gunner, large fields of sorghum, millet and switch grass bring memories of great gun dogs, flushing pheasants, bobwhite covey rises, and days in the field with friends. For the big game hunter, it's 6,000 acres that offer some of the best whitetail hunting in the country and over 30 species of exotic game. For the clay shooter, it's the great sporting clays, wobble deck and pyramid 5-stand courses that will test the best of shooters. And for the avid angler, their trophy bass lakes present

year-round opportunities for tight lines on largemouth and hybrid stripers. What appeals to all visitors at Greystone are its top-of-the-line accommodations and gourmet meals. There are five elegantly decorated suites capable of hosting more than 30 guests, a dining room complete with a full-time executive chef, spacious conference facilities, a swimming pool with hot tub, and just outside the castle walls, a scenic lookout affords a breathtaking vista of the entire estate. **4 1/2-Day Peacock Bass Fishing Trip for Two Anglers in Manaus, Brazil**

4 1/2-day 2x1 Peacock bass fishing trip for two anglers in Brazil aboard River Plate Outfitter's 'Fly-In Floating Cabins'. These unique floating suites are the ultimate solution for optimizing shallow drafting mobility, while allowing anglers to fish the wild and exotic Amazon River in style, comfort and luxury. These land-locked lodges are unable to move far enough away from their central location to seek out optimal water levels or to reach unfished waters. However, River Plate's "River Train" of floating suites can move on a daily basis to access unfished river segments and stay overnight along Caribbean-like white sand beaches. This trip is available November 2024-February 2025 or during the same period the following year and may be upgraded to include additional anglers at \$4,990. **4 1/2-Day Peacock Bass Fishing Trip for Two Anglers in Manaus, Brazil**

4 1/2-day 2x1 Peacock bass fishing trip for two anglers in Brazil aboard River Plate Outfitter's 'Fly-In Floating Cabins'. Undependable water levels and over-fishing are chronic problems for fixed-base operations. These land-locked lodges are unable to move far enough away from their central location to seek out optimal water levels or to reach unfished waters. However, River Plate's "River Train" of floating suites can move on a daily basis to access unfished river segments and stay overnight along Caribbean-like white sand beaches. This trip is available November 2024-February 2025 or during the same period the following year and may be upgraded to include

### AUCTION RECOMMENDATIONS:

1. Read the description of each item carefully from the auction list prior to the auction. The auctioneer will not read or review the full description for each item.
2. Ask questions ahead of time, talk to the donor, and visit the Professional Hunter Association booths located in KBHCC. DSC STRONGLY encourages bidders to buy trips from donors who are members in good standing with their local, regional, or national professional hunting association.
3. Donated hunts/trips may include additional expenses not listed in the description including, but not limited to: Travel expenses to/from the destination, alcoholic beverages, trophy dipping/packaging/shipping, gratuities, govt.-imposed value added tax (VAT) and hotel/meals before/after the hunt.

### PAYMENT TERMS

1. After the winning bidder has been confirmed, a DSC "runner" will immediately deliver a winner/buyer form to the winner for processing payment. The form must be filled out in its entirety and signed by the bidder.
2. Payment will be required immediately, unless prior arrangements have been made. Acceptable forms of payment are cash, credit card (MasterCard, Visa, Diners, Discover and American Express), or check (only if prior arrangements have been made) and will be collected by the DSC "runner."
3. All bidders must be current from any previous year's auction.
4. Any variances from the payment guidelines stated above must be approved in writing by the DSC President or Chief Executive Officer.
5. DSC Foundation (DSCF) and DSC Frontline (FRONTLINE) have separate credit card capabilities.
