

Pioneer

ALWAYS CONNECTED

Car Entertainment Guide 2013

Stay connected on the road

With Pioneer in your car, you don't have to make any compromises on entertainment or connectivity while you're on the road. Accurate navigation solutions and easy access to your smartphone apps add to both convenience and enjoyment. Superior playback from your portable sources is combined with outstanding audio and video quality. Our extensive range has options to suit every car, every taste and every driver. Wherever you're going, we'll help you stay connected.

MODE

SPH-DA110
APP-RADIO FOR iPhone 5/4/4S, iPod AND ANDROID PHONES

An in-dash iPhone and Android compatible car receiver with 7" capacitive multi-touch screen, built-in Bluetooth for hands-free calling and music streaming, and on-screen access to compatible smartphone apps.

MIXTRAX

Discover MIXTRAX – an exciting new way of listening to your music from Pioneer. It uses your music library to create a smooth, non-stop playlist for the perfect soundtrack to your drive. You can use the MIXTRAX App with AppRadio Mode on our compatible products. To find out more, visit www.mixtrax-global.com

Smartphone connectivity

To check the connectivity of your smartphone with your Pioneer equipment, scan this QR code or navigate to www.pioneer.eu/connectivity. This page will be continually updated with the latest solutions for your smartphone.

MirrorLink

Stay connected to your music, navigation and smartphone apps with MirrorLink (available on the SPH-DA110). Access your phone from behind the wheel without touching or even looking at the phone itself. MirrorLink uses standard internet technologies to ensure compatibility with a wide range of devices.

Navigation

Our new 2013 NavGate range combines advanced route guidance, multimedia entertainment and smartphone connectivity functions. They include iPhone 5 compatibility as well as high resolution WVGA touch screen displays ranging from 6.1-inch to 7-inch, a new mapping interface with built-in real-time traffic information, accident black spot warning, AppRadio Mode, built-in Bluetooth functionality, USB connectivity, DAB+ technology and more.

NEW ★

AppRadio MODE

Pioneer's innovative AppRadio Mode technology allows you to control various apps on your iPhone 5/4/4S or compatible Android phones directly from the touch screen. You can enjoy music, photos, videos, live traffic information, parking finder, web browsing and internet radio straight from your smartphone apps (see www.pioneer.eu/appradiomode). They're all right where you need them, on a bright, clear screen.

Car AV Receivers

Pioneer takes smartphone integration to a whole new level. AppRadio Mode lets you control an ever-growing number of iPhone or Android compatible apps directly from your car dashboard. Parrot Bluetooth allows A2DP audio streaming as well as easy call handling. Enjoy digital audio from a DAB+ tuner or high-quality playback from a multitude of sources including iPhone/iPod, other smartphones, USB, CD, DVD and video (DivX) sources. Control is easy with large WVGA touch screens, customisable illumination and personalised menus.

Bluetooth freedom*

Parrot Bluetooth technology enables hands-free call handling and audio streaming from your mobile device. An external microphone and voice control for iPhone are included.

*Available wherever you see the Parrot logo.

Bluetooth audio streaming and iPhone voice control

All 2013 CD Receivers and Digital Media Centres with Bluetooth also feature Bluetooth audio streaming so you can stream your music from your mobile device. Voice control for iPhone is also integrated. An external microphone is included.

iPod and iPhone direct control*

You can search and select artists, albums and playlists on your iPod or iPhone directly from your Pioneer media centre, as well as charging them on the go.

*Available wherever you see the "iPod/iPhone" logos.

Colour customisation

Change your CD receiver's screen or button colours to match your dashboard illumination. Choose from 210,000 colours with two front-panel zones to create your own personal colour combination.

Android media access*

All units with a USB connection allow you to scroll through your Android device's SD card content and play music. Your smartphone battery will charge as you drive.

*Available wherever you see the Android logo.

Smartphone compatible

The DEH-X8500BT, DEH-X8500DAB and DEH-X9500BT are compatible with the Pioneer CarMediaPlayer app.

Accessories

Add a rear view camera or choose from our range of connectivity kits to create the drive you want. Pioneer connectivity kits allow you to directly connect a compatible smartphone. As well as charging your phone, this means you can control various apps on compatible AppRadio Mode touch screens.

Audio

The ultimate balance between power and perfection.

High-end Pioneer Reference Series

Crafted by specialist engineers using only the highest quality materials, the Pioneer Reference Series (PRS) incorporates the most advanced technologies for a full, natural sound across the range of frequencies. If you're a fan of pure, powerful sound that leads its category every time, this series is for you.

Amplifiers

Our renowned amplifier range caters to every type of listener. The PRS-D amps are SPL record-breakers with Multi-Amplifier Synchronisation System (MASS) technology. GM amplifiers deliver competition-grade sound while offering complete installation flexibility. And if you need a compact, energy efficient amp that doesn't compromise on performance, our digital (GM-D) models are ideal.
