2021 NEW VARIETIES

2021

HELLO!

Welcome to the 2020-2021 Gulley Greenhouse Young Plant Catalog

At Gulley Greenhouse we specialize in custom growing plugs and liners of perennials, herbs, ornamental grasses, and specialty annuals.

Our passion is to provide finished growers with a wide selection of high quality young plants to choose from. Having been established as a family business for over 40 years, we're proud to consider ourselves connected to the industry. We do our best to stay at the forefront of the new technology and variety advancements that are being made every year (and every day!)

THANK YOU

Thanks to all of our customers for your continued support! We sincerely appreciate your orders and the confidence you've shown in our products and company. As always, we strive to produce quality plants perfectly suited for easy production and successful sales to the end consumer.

We're looking forward to another great season, with lots of new varieties to offer and the same quality you've come to expect.

PLEASE SEE GENERAL INFORMATION ON PAGE 2.

LEGEND

 Camera icon denotes that an image is displayed of the selected variety

HEIGHT / WIDTH

Indicates the height or width of the mature plant.

BLOOM SEASON

The time of year to expect blooming: SP: Spring, SU: Summer, F: Fall, E: Early, L: Late (EF = Early Fall)

LIGHT

○ = Full Sun ● = Part Shade ● = Full Shade

ZONE

Indicates the general USDA hardiness zone.

TRAY SIZE / LEAD TIME

Will generally be noted as: ●96 (8 weeks)

GENERAL INFORMATION

WHERE IS GULLEY GREENHOUSE?

Our greenhouse is located in Fort Collins, Colorado which is about 60 miles (1 hour) north of Denver. Denver International Airport is the closest major airport to our facility. Please see aerial photo overview on page 5.

PRICES:

Our young plants are sold exclusively through our horticultural broker network, so please contact the broker of your choice for current pricing. Our complete broker listing can be found on page 4.

Many varieties are patent protected and have associated patent fees, royalties, and required tags. Your broker can also provide this information.

DISCOUNTS:

- **2% Early Order Discount:** All orders placed before Friday October 16, 2020 will automatically receive an Early Order Discount of 2%. The EOD will be applied in addition to any applicable volume discount, up to 7%. Several specific items are not eligible for the EOD, please check with your broker.
- **Volume Discounts:**
Volume discounts are available on a per-order basis. Orders can span multiple ship weeks but must be placed at the same time. Specialty Annuals and Fairy Flowers® are not eligible for volume discounts.
 - **Perennial Volume Discount:** Applies to all sizes of Perennials, Herbs, and Grasses
 - 50+ trays: 3% discount**
 - 100+ trays: 5% discount**
 - 150+ trays: 7% discount.**
- We are happy to offer a custom quote on orders larger than 200 trays.

ORDERS / LEAD TIMES:

To ship your order complete, we need it at least 1 week prior to the longest lead time for each variety (listed by each plant in the catalog).

- Except when ordering off availability, all orders are custom grown to the lead time listed in the catalog. Any cancellations or changes to custom grown orders will not be accepted after plants have been sown or stuck, according to their specific lead time.
- Custom 32cell and 50cell vernalized liner orders must be placed by August 1, 2020. Due to vernalization and growing space requirements, we will not be able to add to our 32cell production after this date. Please see page 18 for more information.
- Plants noted as 'availability only' are in short supply or have a very long lead time, so we may not be able to guarantee a specific ship date. But, we'll put you on the list and call when plants are available!

MINIMUMS:

- Our minimum for 196, 96, 50, and 72 tray sizes is one standard 4-tray box (22"x12.5"x18"). Tray sizes can be combined to fill a box. Pull & Pack may be available for larger Cordyline and Anigozanthos orders, please call for options.
- 25cell Fairy Flower® trays are packed 12 to a box, three per level. Please order in increments of 3 trays. See page 9 for more information regarding the Fairy Flowers® program.
- The 32cell minimum is 1 box, most often packed 3 trays to a box with dimensions of 22"x12.5"x18". Please see page 18 for more information on our 32cell program.

TAGS:

- Picture tags are available to ship with all varieties but most will not automatically ship; please ask your broker for specific tag pricing.
- Several patent protected varieties require a tag to be purchased with the plants; your broker will have prices and a list of these varieties as well.
- **There are many companies that have removed the requirement for tags to be shipped with plants.** All varieties licensed by Darwin Perennials, Dummer Orange, GreenFuse, Must Have Perennials, Plant Select and TerraNova still require tags, but tags are no longer mandatory to ship with plants. Growers are now able to provide their own tags in accordance with the licensor's guidelines and with licensor's approval. Please keep this in mind when ordering tags that they will no longer automatically be added to orders for those varieties.
- Don't forget to order tags...tag orders not accompanying the liners will be assessed a \$10.00 handling charge.

SHIPPING:

Please tell us how you want your plants to be shipped! You are the best judge of shipping methods to your area, so please inform your broker. All shipping is FOB Gulley Greenhouse, Fort Collins CO.

- Boxes, inserts, packing, racking, handling, transportation to airports, and transfer fees will be included into one simple flat fee per tray, regardless of size or how many trays are on the order.
- Shipments can be scheduled via air, FedEx, FedEx Freight, and UPS (at customer risk and request). Please let us know if you would like to ship on your company's account.
- Large orders may be palletized if applicable; we want to get you the best option on freight!
- We will not ship when the temp. is below 25°
- We will not ship later than Wednesday to ensure the plants arrive before the weekend.
- We offer local delivery in our company truck to customers within a 150-mile radius of Fort Collins; charges vary by mileage.
- Pick-up orders can also be scheduled in advance between 8am and 3pm Wednesday - Friday.

CLAIMS:

Gulley Greenhouse must be notified within 72 hours upon receipt of plants if you have shipping or quality concerns. No claims will be honored unless notification is made within this time limit and accompanied by a picture. Please notify your broker IMMEDIATELY with any problems.

THANK YOU...

We sincerely thank you for choosing Gulley Greenhouse. If you do not see what you are looking for in this catalog or have any other questions, please don't hesitate to call us. We look forward to the opportunity to work with customers like you in the business we love...plants!

RESPONSIBLY GROWN NEONICOTINOID FREE!

ALL of our young plants are grown responsibly, without using chemicals that contain neonicotinoids. In fact, our growers are employing the help of many beneficial insects in our greenhouses these days!

Join us in the cause to protect bees and our environment!

A SIZE FOR EVERY NEED

TRAY SIZES:

Since every grower is unique, we offer multiple tray sizes to give you options based on your specific needs and preference. Almost every variety on our list is grown in a 98-cell tray, with many perennials having the option of 200-cell, 72-cell, 50-cell, and 32-cell trays as well. Specialty annuals are most likely grown in larger 72-cell or 50-cell liners.

We are happy to custom grow in any size tray at your specific request with enough lead time.

WHAT TRAY SIZE IS RIGHT FOR YOU?

• Savings on Freight

For our customers that regularly purchase 72-cell trays, the 98-cell liner is very close to the same size but contains 26 more plants per tray. This will add up to a huge savings on freight!

• Mass Production Potential

For our customers that regularly purchase 128-cell trays, we offer a comparable 200-cell tray. This makes major economical sense for growers that are producing larger quantities of 2.5" to 4" finished containers.

Almost all groundcover varieties we list will be offered in the 200-cell size, perfect for planting into cell packs with a quick turn-around time.

• Rapid Finish Option

Consider a 50-cell or 32-cell liner if you are looking to finish a gallon or 2-gallon pot quickly without as much growing time. Our large liners have been bulked and cooled and will finish a gallon in 4-8 weeks depending on growing conditions.

• Increased Plant Health

Compared to a 128-cell tray, our 98-cell size has better airflow and more soil volume per cell, offering the benefits of a larger plant with a more vigorous root system.

As finished growers ourselves, we have been experimenting with different sized trays throughout the years. We think this assortment of sizes spans the many needs that you, the finished grower, encounters every season.

We appreciate any feedback you might have about our sizes!

**Images are not to scale*

200-cell (sold as 196)

98-cell (sold as 96)

72-cell (sold as 72)

50-cell (sold as 50)

32-cell (sold as 32)

Our 98-cell tray (sold as 96) is very deep with large cells. Many of our grower customers have compared them with standard 72-cell trays and found them to finish the same container just as quickly.

Comparison picture below (72-cell tray on left, 98-cell tray on right).

MINIATURE PLANTS... HUGE PERSONALITY!

WHAT ARE FAIRY FLOWERS®?

The plants in the Fairy Flowers® line have been selected because they naturally stay small or can be easily trimmed to stay tiny. These foliage plants and flowers thrive as outdoor plants in the height of the growing season, and as indoor plants the remainder of the year. With proper pruning and care, Fairy Flowers® are designed to flourish in small spaces indefinitely.

There are three series within the Fairy Flowers® line; Original Fairy Flowers®, Gargoyle™ Succulent Fairy Flowers® and Terrarium Fairy Flowers®.

- **Original Fairy Flowers®:** A collection designed to be planted inside or outside. Full of beautiful flowers, foliage colors and textures.
- **Gargoyle™ Gardening Succulent Fairy Flowers®:** Unique succulent varieties add a prehistoric touch, perfect in warm dry spots.
- **Terrarium Fairy Flowers®:** Plants selected to thrive in heat and humidity, shade and indoor tropical environments.

Each plant comes with a beautiful tag that introduces gardeners to both the fairy and the flower he or she has created. With custom artwork and unique stories for every plant, customer's will want to get to know each and every one!

AVAILABILITY, SIZES AND VARIETIES

All varieties can be custom grown for lead time (listed for each tray size on the following pages). Select 25 & 96 cell trays will be on availability at certain times of the year. Availability is not guaranteed however, so it is recommended to place orders as early as possible. The 196 tray size must be custom grown for lead time

Pictured here is an assortment of 25cell strip trays; perfect for the grower that wants a large assortment of different varieties.

PRICES

Please contact your broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale. Fairy Flowers® are not eligible for volume or early order discounts.

TAGS, POTS AND TRAYS

The Fairy Flowers® tag is required for every Fairy Flower ordered, tags will automatically be added to every order. Growers may select the pots and trays which best suit their growing operation and sales venue.

MINIMUMS AND PACKING

- 25cell tray: 3 tray minimum. Must order in increments of 3 (packed 3 in a single box, 12 in a full box)
- 96cell tray: 4 tray minimum, (packed 4 to a box).
- 196: 4 tray minimum, (packed 4 or 6 to a box).

QUESTIONS?

Please call our main wholesale office at 1.800.642.8028, send us an email at gulleygh@gulleygreenhouse.com, or visit our website at www.fairyflowers.com.

ALSTROEMERIA
'Indian Summer'
HilverdaFlorist

PROGRAM DETAILS

SIZES:

The majority of our specialty annuals are available in the 72-cell size, with selected varieties available in 96-cell, 50-cell and 32-cell liners. Not all varieties are produced year-round, in fact most are based on pre-booked speculation. Please check with us for availability and potential ship date windows.

PRICES:

Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

Specialty annual orders are not eligible for the Early Order discount or volume discounts, but we are happy to provide a custom quote for large quantities. Please talk to your broker.

NEW VARIETIES:

We have added several interesting new varieties to our 2021 line-up! Look for the 'New' icon throughout the catalog to find these new 2021 additions.

NEW
2021

PULL & PACK SHIPPING OPTION:

Select Cordyline and Anigozanthos varieties have the option to be shipped out of their trays (pull & pack) to fit more trays in a single box. Our growers will determine if the crop is well-rooted enough to be eligible for this method of shipping. Please let our sales office know if pull & pack is an option that you would like to pursue.

QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.

NEW
2021

ALSTROEMERIA PERUVIAN LILY

ALSTROEMERIA 'Inca' Series Beautiful, exotic-looking flowers bloom in clusters on each stem of these compact and tough garden plants. Rarely fragrant, these blooms make long-lasting cut flowers and are lovely in cottage gardens, decorative containers or along sloping banks. Tender perennial (zone 7).

Height: Varies Width: Varies Light: ○-●

-  **'Inca Bandit®'** Valentine red blooms with black whiskers will steal your heart! 10-14" tall, 14-16" wide. • 50 (Avail only)
-  **'Inca Gold Rush®'** Shiny golden flowers bloom profusely above compact plants for a stunning display of color! 8-12" tall, 14-16" wide. • 50 (Avail only)
-  **'Inca Lolly®'** Vibrant cherry/magenta flowers with speckled throats are sweet as sugar. Compact grower, great in pots or the landscape. 8-12" tall, 14-16" wide. • 50 (Avail only)

ALSTROEMERIA 'Inca' Series (continued):

Height: Varies Width: Varies Light: ○-●

-  **'Inca Lucky®'** Tropical looking flowers have salmon-pink throats with creamy white outer petals. This one will have you feeling lucky you planted it! 10-14" tall, 14-16" wide. • 50 (Avail only)
-  **'Inca Replay®'** Speckled rose pink flowers have a white band and showy white stamens. Excellent when planted in mass. 10-14" tall, 14-16" wide. • 50 (Avail only)
-  **NEW! ALSTROEMERIA 'Indian Summer'** Tall and vigorous plants produce a display of flowers from May through September. Potentially hardy to zone 5; plants have overwintered at Colorado State University successfully! Sell initially as a pot crop, then size increases in the landscape once planted. *HilverdaFlorist.* • 50 (Avail only)
Height: 24"-48" Width: 36"-48" Light: ○-●

PERENNIALS

RUDBECKIA 'American Gold Rush'
Intrinsic; 2020 AAS Winner.

PROGRAM DETAILS

SIZES:

Perennials are available in 200-cell (sold as 196), 98-cell (sold as 96), or 72-cell sizes, depending on the variety. A majority of varieties are also available in a vernalized 50 or 32-cell large liner (varieties listed on page 19).

PRICES:

Please contact your horticultural broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker; our complete broker listing is on page 4. Additional patent fees, royalties, and tag & marketing fees may apply and will also be available from your broker. Also please see Volume and Early Order Discount information on page 2.

NEW VARIETIES:

We have added tons of interesting new varieties to our 2021 line-up! Look for the 'New' icon throughout the catalog to find these hot new 2021 additions.

NEW
2021

AFFILIATIONS:

We are closely affiliated with several brands and plant breeders; please see page 5-7 for variety listings.

VERNALIZATION:

Most of our perennials are first-year blooming and do not require vernalization. If you have questions about which varieties will need to be vernalized for spring flowering, please give us a call and we can help you put together a program. All of our 50-cell and 32-cell liners are vernalized and ready to pop into a gallon for spring sales.

QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.

 Camera icon denotes that an image is displayed of the selected variety

LARGE LINERS, LARGE IMPACT

VERNALIZED 50'S and 32's

Our 50-cell and 32-cell programs include a wide selection of perennials that are bulked, cooled, and are bursting with stored energy come spring! You will receive a nicely rooted pre-finished liner ready to move up into a larger pot size. This treatment dramatically reduces overall crop time in the finished container.

AVAILABILITY AND VARIETIES

All of the varieties on the following list will be grown on availability, ready to ship in January 2021 through April 2021 (week 2 - week 17). Orders will be taken on a first-come, first-serve basis.

Please submit 32cell orders on their own separate PO, as we have a different process for pulling and packing that size.

If you see a variety within the main catalog that is not offered as a 50-cell or 32-cell (on these pages), we may be able to custom grow it for you. Please check with us for a custom quote! Order minimums and lead times will apply. Custom grow orders will not be accepted after August 1, 2020 due to production, space & vernalization requirements.

PRICES

Please contact your broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

DISCOUNTS

- 32-cell orders can be combined with other perennial sizes towards the perennial volume discount (see page 2 for more info).
- We offer a 2% Early Order Discount for all orders placed before October 16, 2020.

TAGS

Some varieties require tags, please contact your broker for required tag and royalty information. For plants that do not require tags, picture tags are available to add to your order. Please let us know if you want to add tags!

SHIPPING

32-cell trays are shipped 3 trays per box. Each tray weighs 8-10 pounds, (approximately 24-30 lbs per box). 50-cell trays are shipped 4 trays per box, with a full box weight of 25 lbs per box. Box dimensions are 22"x12.5"x18" for both sizes.

These plants have been maintained in cold conditions, so they can be shipped by ground freight at customer's risk. Other methods can be used if preferred, please let us know. Please be advised that UPS will not honor claims for any reason!

All boxing, packing and handling costs will be included in one flat fee per tray, regardless of size or how many trays are on the order. We ship on Monday or Tuesday of each week to ensure that plants arrive before the weekend. Please see page 2 for more shipping information.

MINIMUM

32-cell: 1 case per shipment (3 trays of 32).
50-cell: 1 case per shipment (4 trays of 50).

CLAIMS

Please see page 2 for claim protocol.

32-cell GAILLARDIA 'Sunset Celebration'

50-cell MONARDA 'Balmy Purple'

**Images are not to scale*

32-cell HEUCHERA
'Carnival Watermelon'

THE BENEFIT OF LARGER LINERS

Let us do some of the work for you! Each 50-cell and 32-cell liner is given at least 10 weeks to root (and receive a cold treatment if necessary per that variety).

Planting from larger liners will reduce your finish times in the spring. Plan on 4-6* weeks to finish a gallon, and 2-3* weeks to finish a quart. (*Finish times may vary depending on your specific size selected, growing environment and temperatures).

LUPINUS LUPINE *continued*

LUPINUS polyphyllus 'Westcountry' Series: This spectacular series features extra-strong plants from tissue culture that produce an incredible show of flower spikes in very unique colors. Unlike regular lupine, these stunning plants are large and should be featured in a premium large container (2gal or larger). Limited availability through fall 2020, with vernalized options in spring 2021. Please see additional grower and cultural information on page 86. *Must Have Perennials.*

Zone: 4-8 Height: 30"-36" Light: ☉-☾ Bloom Season: SP/ESU

'Westcountry Blacksmith' Bicolor blossoms feature deep, dark purple blossoms highlighted by crisp white caps. Flower spikes are dense and stunning! *Must Have Perennials PP#29943.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Desert Sun' Incredibly tall flower spikes mature from tight white buds to lemon yellow, then finally into pure sunny yellow when flowers are fully open. *Must Have Perennials PP#23073.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Magic Lantern' Just like its name, Magic Lantern has a bit of mystery behind each flower. Yellow and gold inner petals blend and swirl into deep, dark purple outer petals. *Must Have Perennials PP#29860.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Manhattan Lights' The lights are sparkling in this outrageous combination of true purple and bright yellow bi-color blooms. *Must Have Perennials PP#18868.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Masterpiece' A profusion of rich, wine-violet colored flower spikes in spring. A color very unique to this series not found in other lupine. *Must Have Perennials PP#19739.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Persian Slipper' Dusty periwinkle blue petals alternate with creamy white. Buds emerge lighter and flowers darken as the spikes grow taller for a glowing effect. *Must Have Perennials PP#18733.* • 72 (Avail only) • 32 (Avail only)

NEW! 'Westcountry Polar Princess' Perfectly snow white flowers form tall, regal spikes above dark green foliage. Multiple flowers per plant create a stunning display in late spring / early summer. *Must Have Perennials PPAF.* • 72 (Avail only) • 32 (Avail only)

LUPINUS polyphyllus 'Westcountry' Series (continued):

Zone: 4-8 Height: 30"-36" Light: ☉-☾ Bloom Season: SP/ESU

'Westcountry Rachel de Thame' Named in the honor of Rachel de Thame, a charming British gardener and television presenter, this lupine features a brilliant combination of candy pink and bright white. Plants are packed with flowers creating a TV-worthy display! *Must Have Perennials PP#29833.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Red Rum' Tall, iridescent blood red flower spikes bloom in late May through early June. Finished plants have been seen to have up to 7 spikes on one plant! *Must Have Perennials PP#18709.* • 72 (Avail only) • 32 (Avail only)

NEW! 'Westcountry Salmon Star' Salmon petals seem to shimmer along tall stems. Flowers fade to a darker salmon color creating a gorgeous multi-hued display on each flower stem. *Must Have Perennials PPAF.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Tequila Flame' Rightly named, Tequila Flame is on fire! Bright true-red petals alternate with soft yellow on extra tall spikes, creating a fiery display. Darker red-tinted foliage. *Must Have Perennials PP#23047.* • 72 (Avail only) • 32 (Avail only)

'Westcountry Terracotta' Outer petals open a dark, rusty peach color and lighten with age, while yellow petals closer to the stem make the large flower spikes glow from within. Because of the color change this variety has an extremely unique look when flowers are opening through the season. *Must Have Perennials PP#23044.* • 72 (Avail only) • 32 (Avail only)

NEW! 'Westcountry Towering Inferno' Large flower spikes feature hot salmon-orange petals alternating with bright yellow inner petals tucked along the flower stem. Truly a flower you have to see to believe! *Must Have Perennials PPAF.* • 72 (Avail only) • 32 (Avail only)

GRASSES

PROGRAM DETAILS

SIZES:

Perennial ornamental grasses are available in the 96 or 72-cell size, with selected varieties available in 32-cell large liners. The majority of Annual grasses are available in the 98-cell size (sold as 96). Not all varieties are produced year-round, so please check with us for availability.

PRICES:

Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

Grass orders can be combined with herb and perennial orders to achieve the maximum perennial volume discount. We also offer an Early Order Discount of 2% for orders placed before October 16, 2020...talk to your broker!

QUESTIONS?

Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.

 Camera icon denotes that an image is displayed of the selected variety

CALAMAGROSTIS x acutiflora 'Avalanche'

CORYNEPHORUS 'Spiky Blue™'

CYPERUS alternifolius 'Gracilis'

CALAMAGROSTIS x acutiflora 'Karl Foerster'

CORTADERIA 'Pink Pampas Grass'

CYNODON 'PWIN04S' DOG TUFF™ Grass

CALAMAGROSTIS FEATHER REED GRASS

CALAMAGROSTIS x acutiflora 'Avalanche' Feather Reed Grass An improvement on 'Overdam' with much better variegation and striking plumes. • 72 (Avail only)
• 32 (Avail only)

Zone: 4-9 Height: 36"-48" Light: ○-●

CALAMAGROSTIS x acutiflora 'Karl Foerster' Feather Reed Grass Deep green foliage forms upright clumps topped by very vertical plumes. • 72 (Avail only)
• 32 (Avail only)

Zone: 4-9 Height: 36"-48" Light: ○-●

CORTADERIA PAMPAS GRASS

CORTADERIA Pink Pampas Grass Large tropical grass with very showy pink-plumed seed heads. • 96 (8 weeks)
• 72 (10 weeks)

Zone: 8-11 Height: 8'-10' Light: ○-●

CORTADERIA White Pampas Grass Same as pink but with white seed heads. • 96 (8 weeks)
• 72 (10 weeks)

Zone: 8-11 Height: 8'-10' Light: ○-●

CORYNEPHORUS

CORYNEPHORUS 'Spiky Blue™' Spiky blue-green leaves form a dense tuft. One of the best blue-colored grasses; good alternative to Fescue. • 96 (10 weeks)

Zone: 6-10 Height: 8" Light: ○

CYNODON

CYNODON 'PWIN04S' DOG TUFF™ Grass A xeric alternative to lawn grass that spreads by runners. Once established it is highly weed resistant and deep rooted, and soft to walk on! Visit www.plantselect.org for more information on installation, care, and maintenance. *Plant Select 2016.* • 72 (7 weeks)

Zone: 5-10 Height: 2" Light: ○

CYPERUS

CYPERUS alternifolius 'Gracilis' Miniature Umbrella Plant. Whorls of thin, blade-like leaves emerge on top of strong tubular stems. Great for use in aquatic environments and terrariums. • 96 (8 weeks)

Zone: 9-11 Height: 20"-24" Light: ○

ERIANTHUS ravennae Hardy Pampas Grass

FESTUCA 'Festina'™

MELINIS nervigulumis 'PINK CRYSTALS Ruby Grass'

STIPA 'Pony Tails'

KOELERIA 'Coolio'™

ISOLEPIS cernua 'WiFi'

ERIANTHUS HARDY PAMPAS GRASS

- ERIANTHUS ravennae** Fast growing, large-bladed grass to 10' tall. Keep moist for best growth. Magnificent plumes bloom in late summer; hardy alternative to Cortaderia species. • 72 (14 weeks)
 Zone: 4-10 Height: 8'-10' Light: ○

MELINIS RUBY GRASS

- MELINIS nervigulumis 'PINK CRYSTALS Ruby Grass'** Feathery, dark purple flowers fade to pink. Silver/iridescent green leaves. *Plant Select 1998.* • 96 (8 weeks)
 Zone: 6-9 Height: 12"-24" Light: ○-●

FESTUCA FESCUE

- FESTUCA 'Festina'™** Fine textured blue foliage forms upright clumps. Vertical flowers in summer. • 96 (8 weeks)
 Zone: 4-8 Height: 6" Light: ○-●

STIPA MEXICAN FEATHER GRASS

- STIPA 'Pony Tails'** Thin, hair-like leaves have a narrow, vase-shaped habit. Silvery flowers create great winter texture. • 96 (6 weeks)
 Zone: 5-9 Height: 20" Light: ○

ISOLEPIS FIBER OPTIC GRASS

- ISOLEPIS cernua 'WiFi'** Thin blades of bright green are topped with small white flowers giving an effect resembling fiber optic threads. • 96 (8 weeks)
 Zone: 8-11 Height: 6"-8" Light: ○-●

KOELERIA

- KOELERIA 'Coolio'™** Lush, wide, greenish-blue foliage forms airy tufts. Gorgeous color! • 96 (10 weeks)
 Zone: 4-8 Height: 6" Light: ○-●

LEMON GRASS

Please see the Herb section on page 83.

CHIVES Regular

BASIL OCIMUM BASILICUM

Basil is great for flavoring tomato dishes, soups, sauces, meats, herb butters, and vinegars. Use as a garden border plant.

-  **BASIL 'Aristotle'** Compact, topiary habit is great for pots. Easy to pick, classic basil aroma and taste. • 96 (4 weeks)
Zone: 10 Height: 8"-10" Light: ○
-  **BASIL 'Bush'** Similar to spicy globe; tight growth habit. • 96 (4 weeks)
Zone: 10 Height: 24" Light: ○
-  **BASIL 'Genovese'** Intensely scented strain of Sweet Basil. Popular with gourmet markets. • 96 (4 weeks)
Zone: 10 Height: 24" Light: ○
-  **BASIL 'Genovese Red Freddy'** Marvelous dark red leaved version of Genovese. Smooth broad leaves with the same wonderful flavor, a culinary eye catcher! • 96 (4 weeks)
Zone: 10 Height: 24" Light: ○
-  **BASIL 'Greek Columnar'** Upright/columnar growth habit makes this one ideal for small gardens. • 96 (4 weeks)
Zone: 10 Height: 18"-36" Light: ○
-  **BASIL 'Pesto Perpetuo'** Beautiful variegated green/white foliage. Great basil taste; produces all season. *Sunny Border Nursery PP#16260.* • 96 (4 weeks)
Zone: 10 Height: 18"-24" Light: ○
-  **BASIL 'Purple Ruffle'** Deep purple leaves with ruffled edges. Great accent for fresh cuisine. • 96 (4 weeks)
Zone: 10 Height: 24" Light: ○
-  **BASIL 'Red Rubin'** Improved, large, purple-leaf variety, sweet scented foliage. • 96 (4 weeks)
Zone: 10 Height: 18" Light: ○
-  **BASIL 'Siam Queen'** Thai style basil, long harvest period. *1997 All-America-Selection winner.* • 96 (4 weeks)
Zone: 10 Height: 18" Light: ○
-  **BASIL 'Spicy Globe'** Compact growth habit, spicy basil flavor. Great to use in patio pots or small gardens. • 96 (4 weeks)
Zone: 10 Height: 24" Light: ○

-  **BASIL 'Sweet'** Smooth, bright green leaves. Great basil to use for flavoring pesto. • 96 (4 weeks)
Zone: 10 Height: 18"-24" Light: ○

CATNIP NEPETA CATARIA

Attracts cats, use dried leaves as stuffing for cat toy. Sprinkle crumbled leaves to deter ants.

-  **CATNIP** Lemony-mint scented leaves with white/lavender flowers mid-summer. • 196 (4 weeks) • 96 (5 weeks)
Zone: 4-7 Height: 36" Light: ○

CHAMOMILE

-  **CHAMOMILE 'German'** (*Matricaria recutita*) Erect habit, small white daisy flowers. • 96 (6 weeks)
Zone: 7-10 Height: 24" Light: ○
-  **CHAMOMILE 'Roman'** (*Anthemis nobilis*) White, daisy flower on 10" stalk. Feathery groundcover. • 96 (6 weeks)
Zone: 4-8 Height: 4" Light: ○

CHIVES ALLIUM SP.

Add mild onion or garlic flavor to soups, salads, sauces, butters, vinegars, meat, and cheese dishes.

-  **CHIVES 'Garlic'** (*Allium tuberosum*) Delicious mild garlic flavored. Lime-green/white flowers in summer. • 196 (8 weeks) • 96 (10 weeks)
Zone: 3 Height: 12" Light: ○
-  **CHIVES 'Regular'** (*Allium schoenoprasum*) Leaves add fresh and mild onion flavoring to dishes. Rose pink flowers. • 196 (8 weeks) • 96 (10 weeks)
Zone: 3 Height: 12" Light: ○

CORIANDER (Cilantro)

DIGITALIS purpurea 'Foxy'

HYSSOP

LAVANDIN 'Provence'

DILL 'Fern Leaf'

LAVENDER angust. 'Blue Cushion'

LAVENDER angust. 'Ellagance Ice'

LAVENDER angustifolia 'Ellagance Pink'

DILL 'Regular'

FENNEL 'Bronze'

LAVENDER angustifolia 'Ellagance Purple'

LAVENDER angust. 'Hidcote Blue'

LAVENDER angust. 'Munstead'

CORIANDER CILANTRO

Also known as coriander or Chinese Parsley, the fern-like leaves are used for flavoring Mexican and Oriental dishes. Especially tasty in salsas and soups.

- CORIANDER (Cilantro) 'Regular'** Wide, bright green foliage that is highly fragrant and slow to bolt. • 96 (4 weeks)
Zone: 7 Height: 18"-20" Light: ○

DIGITALIS FOXGLOVE

Please see additional ornamental varieties on page 36.

- DIGITALIS purpurea 'Foxy'** Biennial. Mixed colors of tubular flowers on spikes. Extract from leaves is used in powerful cardiac medicines. Leaves are poisonous if ingested. • 96 (6 weeks)
Zone: 5-9 Height: 24"-36" Light: ○

DILL ANETHUM GRAVEOLENS

Leaves and seeds used for pickling, in vinegars, soups, and salads.

- DILL 'Fern Leaf'** Dark, finely divided foliage on basal-branching plants; excellent flavor. All-America-Selections Winner 1992. • 196 (4 weeks) • 96 (5 weeks)
Zone: 7-9 Height: 18" Light: ○
- DILL 'Regular'** Feathery foliage with yellowish/green flowers. Use dried and fresh leaves for savory dishes. • 96 (5 weeks)
Zone: 7-9 Height: 36" Light: ○

FENNEL FOENICULUM VULGARE

Fennel bulbs and seeds are used in vegetable combinations, breads, meat & cheese dishes.

- FENNEL 'Bronze'** Delicately cut foliage, deep smoky bronze color. Vigorous grower, tender perennial. • 96 (6 weeks)
Zone: 5-9 Height: 48" Light: ○

HYSSOP HYSSOPUS OFFICINALIS

Leaves have bitter, minty flavor, and are used in teas, perfumes, and liqueurs.

- HYSSOP** Semi-evergreen with deep blue-violet flowers. • 96 (6 weeks)
Zone: 4-8 Height: 24" Light: ○

LAVANDIN LAVANDULA HYBRID

A hybrid between English and spike lavender, Lavandin produces an essential oil used to heal.

- LAVANDIN 'Provence'** Taller, rot-resistant variety. Lavender-blue flowers bloom throughout summer. • 96 (7 weeks)
Zone: 5 Height: 30" Light: ○

LAVENDER LAVANDULA SP.

Aromatic foliage used for aromatherapy, in potpourris, and sachets. Essential oil used to heal ailments.

- LAVENDER (L. angustifolia) 'Blue Cushion'** Free flowering dwarf habit, heavily aromatic. • 96 (7 weeks)
Zone: 5 Height: 16" Light: ○
- LAVENDER (L. angustifolia) 'Ellagance' Series:** First year flowering with large flower spikes on well-branched, bushy plants.
Zone: 5-7 Height: 12"-14" Light: ○
- 'Ellagance Ice'** Silver white flowers on spikes. • 96 (8 weeks)
- 'Ellagance Pink'** Rose pink flowers on spikes. • 96 (8 weeks)
- 'Ellagance Purple'** Dense, deep purple flower spikes. • 96 (8 weeks) • 50V (Avail only)
- LAVENDER (L. angustifolia) 'Hidcote Blue'** Similar to 'Munstead' but with dark, violet-blue flowers. Extremely fragrant. • 196 (7 weeks) • 96 (9 weeks) • 32 (Avail only)
Zone: 5 Height: 18" Light: ○
- LAVENDER (L. angustifolia) 'Munstead'** True English lavender. Delicate, lacy green foliage. Blue flowers. • 196 (6 weeks) • 96 (8 weeks) • 32 (Avail only)
Zone: 4-9 Height: 12"-18" Light: ○

LEMON BALM *MELISSA OFFICINALIS*

LEMON BALM Attractive, light green leaves. Plant serves as fragrant background to the perennial border. • 96 (6 weeks)
Zone: 4-9 Height: 36" Light: ○

LEMON GRASS *CYMBOPOGON CITRATUS*

LEMON GRASS (West Indian) Blades are packed with strong lemon-citrus flavor, used in Asian cooking. Clumping. • 96 (8 weeks)
Zone: 9-11 Height: 24"-48" Light: ○

LEMON VERBENA *LIPPIA CITRIDORA*

LEMON VERBENA Semi-evergreen leaves have a strong lemon scent. Grows best in a container with bright light. • 96 (8 weeks)
Zone: 8 Height: 24" Light: ○

MARJORAM *ORIGANUM MAJORANA*

MARJORAM 'Sweet' (Green) Leaves with a spicy scent flavor meats, poultry, fish, stuffing and sauces. • 196 (4 weeks)
• 96 (5 weeks)
Zone: 7-10 Height: 12" Light: ○

MINT *MENTHA SP.*

A popular herb known for its cool, fresh taste and fragrance. Use to flavor sweet dishes and drinks.

MINT 'Apple' (*M. rotundifolia*) Large, woolly green leaves, sweet apple mint scent. White flowers. • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Chocolate' (*M. spp.*) Bronzy-green leaves have a mint-chocolate fragrance. A hit with children! • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Corsican' (*M. requienii*) 'Mini Mint' Tiny green leaves on low-growing matted groundcover. • 196 (5 weeks)
• 96 (7 weeks)
Zone: 6 Height: 1"-2" Light: ○-●

MINT 'Lime' (*M. spp.*) Wonderful lime scent and flavor. Great for flavoring summer drinks! • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Orange' (*M. piperata citrata*) Bronzy-green foliage with strong, citrus-mint scent. • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Peppermint' (*Mentha piperata*) Strong 'true mint' flavor. Drought tolerant plant, good in borders. • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Pineapple' (*Mentha suav. variegata*) Leaves have white variegation and faint fragrance of pineapple. • 96 (5 weeks)
Zone: 5-10 Height: 12"-24" Light: ○-●

MINT 'Spearmint' (*Mentha spicata*) Cool 'green' mint flavor, classic ingredient of mint juleps and mojitos. • 96 (4 weeks)
Zone: 4 Height: 12"-24" Light: ○-●

MINT 'Strawberry' (*M. spp.*) Strawberry scent and taste; adds refreshing flavor to cool dishes and drinks. Kids will love this one! • 96 (5 weeks)
Zone: 4 Height: 10"-12" Light: ○-●

OREGANO *ORIGANUM SP.*

Spicy seasoning commonly used in Italian and Spanish dishes. See ornamental varieties on page 57.

OREGANO 'Common' (*Origanum vulgare*) Creeping, dark green foliage with pink flowers July-Sept. • 196 (4 weeks)
• 96 (6 weeks)
Zone: 4 Height: 12" Light: ○

OREGANO 'Golden' (*Origanum vulgare aureum*) White flowers with creeping yellow/green foliage. Great accent. • 96 (6 weeks)
Zone: 4 Height: 12" Light: ○

OREGANO ORIGANUM SP. *continued*

-  **OREGANO 'Greek' (*Origanum vulgare* 'Greek')** Large, dark green, pungent leaves. More upright in growth habit. • 196 (4 weeks)
 Zone: 4 Height: 16"-24" Light: ○ • 96 (6 weeks)
-  **OREGANO 'Hot & Spicy' (*Origanum vulgare*)** One of the best tasting oreganos! The hot and spicy flavor makes this a great addition to any herb garden. • 96 (6 weeks)
 Zone: 4 Height: 12"-18" Light: ○
-  **OREGANO 'Italian' (*Origanum onites*)** Small, light green leaves. Has a sweeter flavor than other oreganos. • 196 (4 weeks)
 Zone: 4 Height: 24" Light: ○ • 96 (6 weeks)
-  **OREGANO 'Mexican' (*Lippia graveolens*)** Most commonly used herb for commercial dried oregano. • 96 (7 weeks)
 Zone: 7 Height: 12"-24" Light: ○

PARSLEY PETROSELINUM SP.

Leaves with celery scent are commonly used as a garnish to meat dishes. Also used to flavor potatoes, soup, and fish dishes.

-  **PARSLEY 'Curled' (*P. crispum*)** Curled, dark green leaves have celery flavor. Use leave ms. • 96 (6 weeks)
 Zone: 5 Height: 12" Light: ○
-  **PARSLEY 'Italian/Flat' (*P. neapolitanum*)** Flat leaves with stronger flavor, superior in cooked dishes. • 96 (6 weeks)
 Zone: 5 Height: 18" Light: ○

ROSEMARY ROSEMARINUS SP.

Evergreen plant with pale blue-lavender flowers; tolerates poor soil. Sharp pine-scented leaves flavor meats, vegetables, poultry, stuffing, bread, tea, vinegar, and butters. Flowers and leaves used in potpourri and soaps.

-  **ROSEMARY 'Arp' (*R. officinalis*)** Tender perennial, but more hardy than other officinalis varieties. • 96 (8 weeks)
 Zone: 6-10 Height: 12"-36" Light: ○
-  **ROSEMARY 'Barbecue' (*R. officinalis*)** Upright grower with stiff stems that make it ideal for skewers. • 96 (8 weeks)
 Zone: 8-10 Height: 36"-48" Light: ○
-  **ROSEMARY 'Regular' (*R. officinalis*)** Used as a fragrant hedging plant; light blue flowers. • 96 (8 weeks)
 Zone: 7-10 Height: 24" Light: ○
-  **ROSEMARY 'Tuscan Blue' (*R. officinalis*)** Upright habit can be trained as a hedge. Bright lavender-blue flowers. • 96 (8 weeks)
 Zone: 8-10 Height: 36" Light: ○
-  **ROSEMARY 'Weeping' (*R. officinalis* 'Prostrata')** Trailing dark green foliage with pale blue-lavender flowers. • 96 (8 weeks)
 Zone: 8-10 Height: 6" Light: ○

RUE RUTA GRAVEOLENS

-  **RUE** Shrubby evergreen with blue-green, fern-like foliage. Bitter leaves are used to make disinfectants. Yellow flowers bloom June through August. Don't plant near other vegetables as it makes the soil bitter too! • 96 (7 weeks)
 Zone: 4-10 Height: 36" Light: ○

THYMUS vulgaris Upright 'French'

SAGE SALVIA SP.

Spicy scented leaves that gourmets love! Peppery spice flavors poultry, pork, sausage, tea, and cheese. Please see ornamental Salvia varieties in the perennial section on page 64.

- SAGE 'Berggarten' (S. officinalis)** Large, round, gray-green leaves. Good as landscape plant also. • 96 (6 weeks)
 Zone: 6 Height: 24" Light: ○
- SAGE 'Garden' (S. officinalis)** Violet flowers in June; woolly gray leaves look good in landscape. • 96 (6 weeks)
 Zone: 6 Height: 24" Light: ○
- SAGE 'Golden Icterina' (S. officinalis)** Golden variegated leaves; ornamental AND edible! • 96 (6 weeks)
 Zone: 6 Height: 24" Light: ○
- SAGE 'Pineapple' (S. rutinifolia)** Scarlet flowers with pineapple-scented leaves. Use in salads or butters. • 96 (4 weeks)
 Zone: 8 Height: 36" Light: ○
- SAGE 'Purple' (S. officinalis purpurea)** Same wonderful sage flavor as straight officinalis, but with deep blueish-purple foliage. Stunning in the landscape! • 96 (6 weeks)
 Zone: 6 Height: 18" Light: ○
- SAGE 'Tricolor' (S. officinalis)** Showy variegated maroon, green, & white foliage. Flavor is similar to garden sage. • 96 (6 weeks)
 Zone: 6 Height: 24" Light: ○

SAVORY SATUREJA SP.

Spicy, peppery leaves flavor meat, fish, poultry, potatoes, and vegetables.

- SAVORY 'Winter' (S. montana)** Semi-evergreen, white flowers. Sharper flavor than summer savory. • 96 (8 weeks)
 Zone: 3-8 Height: 12" Light: ○

STEVIA REBAUDIANA

- STEVIA** A tropical plant with bright green leaves and small clusters of white flowers. Sometimes called the 'sugar herb', leaves are much sweeter than table sugar. A natural sweetener with no calories! • 196 (4 weeks)
 Zone: 10-11 Height: 5"-8" Light: ○

TARRAGON ARTIMISA DRANCULUS

Commonly used in French cooking, leaves flavor steaks, seafood, poultry, sauces, marinades, and vinegars.

- TARRAGON 'French'** Fine-textured, dark green foliage that rarely flowers. Prefers poor, dry soil. • 96 (7 weeks)
 Zone: 4-9 Height: 24" Light: ○

THYME THYMUS SP.

Aromatic leaves are used in potpourris, herbal remedies, and cuisine depending on the variety. Please see the perennial section on page 72 for additional Thyme varieties.

- THYME, Creeping 'Mother of Thyme' (T. serpyllum)** Purple flowers on dark green, aromatic leaves. Can handle light foot traffic. Use in potpourris and sachets for aromatherapy. • 196 (4 weeks)
 Zone: 5-9 Height: 2"-6" Light: ○
- THYME, Upright 'English' (T. vulgaris)** Tiny, lavender flowers June-July. Fragrant, gray-green leaves; culinary variety. • 196 (5 weeks)
 Zone: 5-9 Height: 8"-10" Light: ○
- THYME, Upright 'French' (T. vulgaris)** Similar to English but with smaller leaves and a sweeter flavor. A "must-have" for French cooking. • 196 (5 weeks)
 Zone: 5-9 Height: 10"-12" Light: ○

WESTCOUNTRY LUPINES

GENERAL INFORMATION

- Production: Excellent for larger 2 to 3 gallon containers; large flower spikes closely packed with individual bells, strong and unique colors. Although they are a hardy perennial to zone 4, this series will shine as a pot crop with a huge impact on display at retail. The massive display of flowers will also support a much higher price point than normal lupine varieties.
- Hardiness: Tested to USDA Zone 4
- Foliage: Soft green to grayish-red, the finger like leaves make whirls at the top of the leaf stems.
- Flower Color: 13 color assortment of solids and bi-colors; see images of all varieties on page 88.
- Flowering Time: Late April to Early June.
- Flowering Height: 24-36" spikes of single flowers.
- Use for: Cottage/landscape garden effect in borders, premium patio/container centerpiece.
- Landscape Culture: Sun, partial shade; moderately fertile light soils that are slightly acidic (Lupines dislike limey soils).
- Protected: Must Have Perennials EU and USA; the breeder asserts ownership of all rights in this plant.
- **Availability:** 72cell liners will be available starting in wk34, 2020. 32cell liners available starting in wk2, 2021. Please contact your broker sales rep for pricing information.

GROWER INFORMATION

PLANTING AND CROP TIMING

- With an overall width of 24" to 30", this series should be treated as a large and premium crop due to their size and price point.
- We recommend that growers plant (1) 72cell liner in a 2-gallon pot in late summer to early fall. Westcountry lupine create the biggest display when bulked through the fall and winter months and allowed to bloom with the natural spring season of the location they're grown at. The more time given to bulk at cool temperatures, the more impressive the flower display.
- The Westcountry lupine can also be planted into finished containers from cooled/vernalized liners in the spring, but the key is bulking. The larger the root system and the more crowns above the soil, the more flower spikes that will bloom in the spring.

TEMPERATURE AND LIGHT

- When actively growing or bulking, maintain night temperatures of 45°F or higher. When the plants are well-rooted and the foliage reaches the edge of the finished container, cool the temperatures down to 30-40°F nights. Lupine love cold!! But it is also best to keep the crop above 25°F to avoid complete dormancy.
- Vernalization is beneficial; the more time given to bulk at temperatures below 40°F, the more flower spikes will emerge. The Westcountry are not day-length neutral so will bloom in spring as days become longer.
- The Westcountry series will do best grown in full sun to part-shade conditions.

PINCHING AND PGR'S

- Do not pinch the new growth (crown) at the center of the plant. It is best to control plant growth with temperature. Cool them down to slow them down, warm them up to speed them up! Lupines respond very quickly to increases or decreases in temperature.
- A paclobutrazol PGR drench can also be applied to help maintain desired height, especially as temperatures increase in spring.

MEDIA, IRRIGATION AND FERTILIZATION

- Soil media in the finished pot needs to be porous, with excellent drainage. Maintain a pH on the acidic side, but not lower than 5.8.
- Liquid feed at 100ppm nitrogen during the bulking stage, but make sure the fertilizer used is low in phosphorus.
- Plants can be grown evenly moist but not wet. Be very careful about watering if the plants are kept on the colder side; though the plants will require some supplemental water, avoid over-watering as crown rot is possible.

PESTS AND DISEASES

- After potting into the final container, apply a preventative fungicide drench.
- Other diseases that could be an issue such as Anthracnose and Powdery Mildew can easily be controlled with a fungicide spray.
- Clean up any dead leaves to prevent rot and disease issues.
- Insects that affect lupines include Aphids and Leaf Miner. Scouting for any issues along with a preventative drench and spray program should help prevent most pest infestations and diseases.

'Manhattan Lights'

'Persian Slipper'

'Masterpiece'

'Red Rum'

'Terracotta'

TRANSPLANT: 2 gallon finished production; one 72cell liner planted into each pot.

BULKING: Plants are well rooted and filling the container; 12 weeks after transplant.

SHIPPING: The first large blooms occur within a very uniform window for each color. Pictured here is 'Red Rum'.

UNIFORMITY AND VIGOR

- Because they are from tissue culture, the Westcountry Lupine series is extremely stable, uniform and vigorous.
- Growers are recommended to plant one 72cell liner directly into a finished container, 2 gallon or larger.
- Under the right conditions, plants will fill out the finished container within 8 - 10 weeks. But keep in mind, they need cold to set flowers so cool down once the pots are filled to the edges.

- It is important to keep the dense crowns clean from debris during the cooling and bulking period.
- Varieties bloom very uniformly across each color, sending up one large bloom first. Secondary blooms will begin to form shortly after which gives these plants a very long shipping window.

WESTCOUNTRY LUPINES

AVAILABILITY

- 13 colors are available for the 2020-21 season.
- Please contact your broker sales rep for pricing and shipping information.
- 72cell liners will be available in August, 2020.
32cell liners available in January, 2021.
