51411604	Dilevalol	<p>This classification denotes a vasodilating agent and adrenergic antagonist with the molecular formula C₁₉H₂₄N₂O₃, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier P6629XE33T, chemically known as (r,r)-labetalol but more generally known as dilevalol, which bears U.S. National Institutes of Health Compound Identifier 134044. The European Medicines Agency schedules Dilevalol in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB07145MIG. The term DILEVALOL is an International Non-Proprietary Name. DILEVALOL is scheduled in the U.S. International Trade Commission's Harmonized Tariff System (HTS) Pharmaceutical Appendix. SMILES: <chem>OC(CNC(CCc1cccc1)C)c1cc(c(O)cc1)C(=O)N</chem></p>	<p>dilevalol; дилевалол; dilévalol; dilevalol; διλεβαλόλη; dilevalol; dilevalolo; dilewalol; dilevalol; dilevalol; 地来洛尔</p>
51411605	Nitroglycerin	<p>This classification denotes a vasodilating agent, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier G59M7S0WS3. The European Medicines Agency schedules Glonoinum in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB49804. Nitroglycerin generally arises in the molecular formula C₃H₅N₃O₉. The term 'nitroglycerin' is a United States Homeopathic Pharmacopoeia Name designation. SMILES: <chem>O([N](=O)O)C(CO[N](=O)O)CO[N](=O)O.</chem></p>

51422301	Alclometasone	<p>This classification denotes a therapeutic glucocorticoid, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier 136H45TB7B. The European Medicines Agency schedules Alclometasone in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB05300MIG. Alclometasone generally arises in the molecular formula C₂₂H₂₉ClO₅. The term ALCLOMETASONE is an International Non-Proprietary Name or INN (see World Health Organization INN reference publication, volume 33, no. 10 1979, list 19.) ALCLOMETASONE is scheduled in the U.S. International Trade Commission's Harmonized Tariff System (HTS) Pharmaceutical Appendix. SMILES: <chem>CLC1C2C3C(C(OC(=O)CC)(C(C3)C)C(=O)CO C(=O)CC)(CC(O)C2C2(C(=CC(=O)C=C2)C1)C)C.</chem></p>	<p>alclometasone; αλκλομεταζονη; alclométasone; alclometazon; αλκλομεταζόνη; alklometazon; alclometasone; alklometazon; alclometasona; alclometasona; 阿氯米松</p>

51422320	Halometasone	<p>This classification denotes a betamethasone analog, anti-asthmatic agent, anti-inflammatory agent, and glucocorticoid with the molecular formula C₂₂H₂₇ClF₂O₅, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier J69Z9UU41Z, chemically known as 2-chloro-6alpha,9-difluoro-11beta,17,21-trihydroxy-16alpha-methylpregna-1,4-diene-3,20-dione but more generally known as halometasone, which bears U.S. National Institutes of Health Compound Identifier 39745. The European Medicines Agency schedules Halometasone in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB08001MIG. The World Health Organization schedules halometasone in its Anatomical Therapeutic Chemical (ATC) Classification. HALOMETASONE is scheduled in the U.S. International Trade Commission's Harmonized Tariff System (HTS) Pharmaceutical Appendix. SMILES: <chem>CLC1=CC2(C3(F)C(C4C(C(O)(C(C4)C)C(=O)C O)(CC3O)C)CC(F)C2=CC1=O)C.</chem></p>	<p>halometasone; αλομεταζόνη; halometasoni; alometasone; halometason; χαλομετασον; and 卤米松</p>

51434948	Hydrochlorothiazide/reserpine	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.
51434949	Hydrochlorothiazide/telmisartan	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.
51434950	Hydrochlorothiazide/timolol	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.
51434951	Hydroflumethiazide/reserpine	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.
51434952	Methyclothiazide/pargyline	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.

51434953	Methyclothiazide/reserpine	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.	
51434954	Polythiazide/prazosin	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.	
51434955	Polythiazide/reserpine	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.	
51434956	Quinethazone/reserpine	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.	
51434957	Reserpine/trichlormethiazide	This classification denotes a combination drug defined by the U.S. Department of Veterans Affairs in its (VA's) National Drug File (NDF), which falls under VA Drug Class CV400. This VA Drug Class (CV400) classifies this compound as belonging to the group ANTIHYPERTENSIVE COMBINATIONS.

51441539	Metrizoic acid	<p>This classification denotes a contrast agent with the molecular formula C₁₂H₁₁I₃N₂O₄, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier CM1N99QR1M, chemically known as 3-(acetylamino)-5-(acetyl(methyl)amino)-2,4,6-triodobenzoic acid but more generally known as metrizoic acid, which bears U.S. National Institutes of Health Compound Identifier 2528. The European Medicines Agency schedules Metrizoic acid in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB03276MIG. The World Health Organization schedules metrizoic acid in its Anatomical Therapeutic Chemical (ATC) Classification.</p>
51441540	Perflenapent or perfluoropentane	<p>This classification denotes a contrast agent, generally used in radiography, with the molecular structure C₅F₁₂, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier, 483AU1Y5CZ chemically known as pentane, dodecafluoro-, but more commonly known as dodecafluoropentane, which bears U.S. National Institutes of Health Compound Identifier 12675. The European Medicines Agency schedules Dodecafluoropentane in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12493MIG. SMILES: FC(F)(C(F)(F)C(F)(F)C(F)(F)C(F)(F)F.</p>

51441601	Aminohippurate sodium or Aminohippuric acid	This classification denotes a diagnostic reagent, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier Y79XT83BJ9. The European Medicines Agency schedules Aminohippuric acid in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12852MIG. Aminohippuric acid generally arises in the molecular formula C9H10N2O3. The term 'aminohippuric acid' is a U.S. Pharmacopeial Convention designation. SMILES: C1=CC(=CC=C1C(=O)NCC(=O)O)N.

51441603	Fluorescein	<p>This classification denotes a contrast agent, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier TPY09G7XIR. The European Medicines Agency schedules Fluorescein sodium in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB13905MIG. Fluorescein generally arises in the molecular formula C₂₀H₁₂O₅. The term 'fluorescein' is an International Nomenclature of Cosmetic Ingredients designation. SMILES: <chem>O1C2C(C(C3C1CC(=O)CC3)C1C(CCCC1)C(=O)O)CCC(O)C2.</chem></p>
51441604	Indigotindisulfonate sodium	<p>This classification denotes a dye with the molecular formula C₁₆H₈N₂O₈S₂.2Na, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier D3741U8K7L, chemically known as 2-(1,3-dihydro-3-oxo-5-sulfo-2h-indol-2-ylidene)-2,3-dihydro-3-oxo-1h-indole-5-sulfonic acid, disodium salt but more generally known as acid blue 74, which bears U.S. National Institutes of Health Compound Identifier 5282429. The European Medicines Agency schedules Indigo carmine in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12518MIG. The World Health Organization schedules acid blue 74 in its Anatomical Therapeutic Chemical (ATC) Classification. SMILES: <chem>S(=O)(=O)(O)C1CC2C(N/C(=C3/NC4C(C3=O)CC(S(=O)(=O)O)CC4)C2=O)CC1.[NA].[NA].</chem></p>

51441611	Etanidazole	<p>This classification denotes a radiosensitizing agent with the molecular formula C7H10N4O4, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier 30DKA3Q1HL, chemically known as 2-nitroimidazole-1-acetamide, n-(2-hydroxyethyl)- but more generally known as etanidazole, which bears U.S. National Institutes of Health Compound Identifier 3276. The European Medicines Agency schedules Etanidazole in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB07261MIG. The term ETANIDAZOLE is an International Non-Proprietary Name or INN (see World Health Organization INN reference publication, Volume 1, No. 4, 1987, List 27). ETANIDAZOLE is scheduled in the U.S. International Trade Commission's Harmonized Tariff System (HTS) Pharmaceutical Appendix. SMILES: O=C(NCCO)CN1C(NCC1)[N](=O)O.</p>	<p>etanidazole; ετανιδαζόλη; etanidatsoli; etanidazolo; etanidazol; етанидазол; and 依他硝唑</p>
51441612	Ibritumomab tiuxetan 90y	<p>This classification denotes an immunoconjugate, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier 4Q52C550XK. The European Medicines Agency schedules Ibritumomab tiuxetan in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB20031. Ibritumomab tiuxetan generally arises in the molecular formula C23H32N5O10S. The term IBRITUMOMAB TIUXETAN is an International Non-Proprietary Name or INN (see World Health Organization INN reference publication, volume 14, no. 1, 2000, list 43.) SMILES: none.</p>	<p>ibritumomab tiuxetan; ιβριτουμομάμπη τιουξετάνη; ibritumomabitiuksetaani ; ibritumomab tiuxetan; ibritumomabtiuxetan; and ибритумомаб тиуксетан</p>

51461520	Arnica	<p>This classification denotes a natural product which US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier MUE8Y11327, which the Integrated Taxonomic Information System classifies under Taxonomic Serial Number 36554 as a member of Kingdom Plantae, Subkingdom Viridiaeplantae, Infrakingdom Streptophyta, Division Tracheophyta, Subdivision Spermatophytina, Infradivision Angiospermae, Class Magnoliopsida, Superorder Asteranae, Order Asterales, Family Asteraceae, Genus Arnica L., more commonly known as ARNICA or the SUNFLOWER genus. The US FDA additionally recognizes many varieties of arnica as active ingredients or moieties under Unique Ingredient Identifiers F8YB51A2HV, JB1W7X8DQ6, JCG1OSZ7A8, K181IYA8PH, K75056Q7TX, MFH47KBD23, MO43N06ZEN, NG0U89QRD8, O80TY208ZW, OZ0E5Y15PZ, U664526L2A, U7L2JP51PR, W6150S0KM6, 82CNE9JKJI, and 88WK5I8R3L. Arnica bears the USDA PLANTS Database Identifier ARNIC, and USDA classifies an additional 43 arnica varieties. Most arnica-based preparations aim to exploit the molecular structure C₁₅H₁₈O₄, known to US FDA as an active ingredient or moiety under Unique Ingredient Identifier 4GUY9L896T, more commonly known as HELENALIN, or chemically known as 6.alpha.,8.beta.-dihydroxy-4-oxoambrosia-2,11(13)-dien-12-oic acid 12,8-lactone, which the US National Library of Medicine characterizes as having anti-inflammatory action. The European Medicines Agency schedules the most commonly-used arnica varieties [in medicine] in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Indices SUB11719MIG,</p>

Class 51471500 Antiseptic alkenes and amidines and amines and ammonia-based compounds

Commodity	Commodity Title	Definition	Synonyms
51471501	Ammoniated mercury	This classification denotes a local anti-infective agent with the molecular formula Cl.Hg.H2N, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier JD546Z56F0, chemically known as mercury, ammonobasic (hgnh2cl) but more generally known as ammoniated mercury, which bears U.S. National Institutes of Health Compound Identifier 3032553. The European Medicines Agency schedules Ammoniated mercury in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12868MIG. SMILES: [NH2-].[Cl-].[Hg+2].

51471502	Povidone	<p>This classification denotes a synthetic polymer with the molecular formula (C₆H₉NO)_n, a preparation that US FDA recognizes as an active ingredient or moiety under Unique Ingredient Identifier FZ989GH94E, chemically known as 2-pyrrolidinone, 1-vinyl-, polymers, compd. with aluminum acetate but more generally known as povidone, which bears U.S. National Institutes of Health Compound Identifier 6917. The European Medicines Agency schedules Povidone in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12238MIG. The term POVIDONE is an International Non-Proprietary Name or INN (see World Health Organization INN reference publication, Volume 10, No. 3, 1996, List 36). POVIDONE is scheduled in the U.S. International Trade Commission's Harmonized Tariff System (HTS) Pharmaceutical Appendix. SMILES: C=CN1CCCC1=O.II.</p>	<p>povidone; κροσποβιδον; crosprovidone; crosprovidon; κροσπροβιδόνη; krospovidon; crosprovidone; krospowidon; crosprovidona; crosprovidona; 聚维酮; povidone.</p>

51472402	Anthranilic acid	<p>This classification is a chemical compound and an ortho-aminobenzoate (which evinces anticonvulsant activity and properties, see US MeSH Unique Identifier C031385) with the molecular formula C7H7NO2, a compound which US FDA recognizes as an active or moiety under Unique Ingredient Identifier OYS975XI6W, chemically known as 2-aminobenzoic acid, which bears US National Library of Medicine Compound Identifier 227 and European Inventory of Existing Commercial Chemical Substances number 204-287-5. The European Medicines Agency schedules Safrole in its eXtended EudraVigilance Medicinal Product Dictionary or XEVMPD under Index SUB12908MIG. Under the World Customs Organization Harmonised System, anthranilic acid is scheduled in 29224300, and anthranilic acid bears US Drug Enforcement Administration Number 8530. The United Nations International Drug Control Programme's Technical Services Branch, in accordance with and support of the 1988 Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, and Article 12 thereof, in conjunction with scientific findings Clandestine Manufacture of Substances under International Control (ST/NAR/10), has determined that this commodity (anthranilic acid) is a precursor in manufacture of Methaqualone (See Scientific and Technical Note SCITEC/11). Under EU regulations, anthranilic acid is governed by Regulation (EC) No 273/2004 (rules for the monitoring of trade between the Community and third countries in drug precursors) and Official Journal L 022, 26/01/2005 P. 0001-0010. Under US regulations, anthranilic acid is governed by Title 21 Code of Federal</p>	<p>Антранилова киселина; ácido antranílico; anthranilsäure; Ανθρανιλικό οξύ; acide anthranilique; antranilsav; antraniilihappo.</p>

52161540	Video switchers		
52161541	Audio switchers		
52161542	Plasma screens		
52161543	MP3 players or recorders	MP3 Players/Recorders are mainstream portable audio equipment that records digital music for playback.	
52161544	Video or audio cassette erasers	This commodity produced by consumer electronics manufacturers and contains single multifunctional device or multiple devices that are used for the purposes of removing content (picture and/or sound) from video and audio cassettes.	
52161545	Digital video recorders	This type of device uses a hard drive (like the one in the computer) to record and store television content.	
52161546	Television tuners	External TV tuners that are intended to be used with plasma panels or multimedia projectors (LCD or DLP). This commodity does not include PC TV tuners.	
52161547	Audio amplifier	A type of consumer electronic device used to amplify low power sound from audio cassette decks, audio CD players etc.	
52161548	Audio turntable	A type of consumer electronic device used to play vinyl recordings.	
52161549	Digital picture frame	A framed TFT display designed to display preloaded digital images (jpeg or any digital image format). Has slots for flash memory cards and/or an interface for digital photo camera connection. The frame looks like casual photo frame.	
52161550	Personal video recorder PVR	One of several types of devices that record video in a digital format to a disk drive or other medium.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

52161551	Wireless microphone and instrument amplification system	A wireless (usually radio) method of transmitting microphone signals, or signals from an electronic instrument such as a guitar, to an amplifier or audio mixer.	
52161552	Light receiver	An electronic device that converts a light signal from a transmitter into useful information.	
52161553	Blu ray video disc player or recorder	This disc player uses Blu-ray technology for video playback.	
52161554	Earphone	A small device that converts the electric signal into the sound signal. It is placed or closely inserted near to the ears to use for enjoying radio, television or music appreciation by the user alone.	
52161555	Portable video multimedia combined set	A small type multimedia player that is possible for portable use as integrated for video player and monitor or television and radio within the chassis.	
52161556	Video distributor	Equipment that is designed to monitor the transmitted image from a camera to the multiple monitors as the same image. This is the equipment to monitor the video signal in several places for appropriate distribution and amplification to meet the monitor quantity.	
52161557	Fixed computer gaming console	Fixed computer consoles that are plugged into the mains and are therefore not portable, generally found plugged in to televisions. These are distinct from smaller handheld portable games consoles.	
52161558	Portable computer gaming console	Portable computer gaming consoles that are hand held and do not have to be plugged into the mains. These are distinct from non portable games consoles.

60104301	Astronomy models		
60104302	Astronomy charts		
60104303	Astronomy study kits		
60104304	Sun compass	Devices used to identify the solar altitude and seasonal chances through detecting the solar movement. It consists of dumb compass and the transparent hemisphere.	
60104305	Solar simulator	Pseudo sun light systems designed to simulate the solar energy by creating light intensity, spectrum and parallelism by replicating the sun.	
60104306	Planetarium	Devices used to observe the celestial movements by making pin hole on the globe in shape of stars according to the stellar magnitude, and projecting the light through the hole, thus showing the constellation onto the dome-style screen.	
60104307	Planetary model	An astronomy model in which models of earth and moon are arranged with the sun in the center, and can explain phenomenon of rotation of earth on its axis and around the sun, day and night, solar eclipse and lunar eclipse, and changes in seasons.	
60104308	Celestial globe	A device with constellation and ecliptic on celestial sphere in the form of terrestrial globe. It can explain circumnavigation of celestial globe, location of stars, changes in constellation according to seasons.	
60104309	Manual star chart	A manual-type of astronomical study material that enables the accurate observation of location and diurnal motion of stars.

60104406	Geology tools or field		
60104407	Stream tables		
60104408	Geology study kits		
60104409	Cloud apparatus	Instruments designed to detect or demonstrate the formation of clouds through the adiabatic change in the airtight spaces.	
60104410	Moon observation apparatus	Devices used to monitor and records the location, the altitude and the formation change of the moon.	
60104411	Weather simulator	Devices which reproduce a few types of atmospheric phenomena including the cloud movement, the change of atmospheric pressure and the path of the typhoon which are invisible to the naked eye.	
60104412	Soil accumulation apparatus	A device used to show the accumulation of the soil. It can show the change of the sedimentation velocity by the particle size.	
60104413	Coriolis force apparatus	Apparatuses used to experiment the Corioli force which is virtual energy and appears from the spinning thing	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104414	Terrestrial globe	Auxiliary material for earth science-related education in order for user to recognize earth as a globe by expressing the status of earth surface without modification in mutual spatial relationship, and to understand location and relation of each location on the globe, as well as movement of earth and relationship between day and night and seasons.	
60104415	Mineral model	A model of mineral under the ground with same shape and size for educational or exhibition purposes.	
60104416	Rotating cylinder	A device that is used to observe the air current changes in the atmosphere. This is the electric motor type rotating table for multi-purpose experiments for the centrifugal force and deflecting force experiments.

Class 60104600 Mechanical physics materials

Commodity	Commodity Title	Definition	Synonyms
60104601	Force tables		
60104602	Gravity models or model sets		
60104604	Inclined planes		
60104605	Friction apparatus		
60104606	Physic cars		
60104607	Pendulum apparatus		
60104608	Torque apparatus		
60104609	Projectile apparatus		
60104610	Air tables		
60104611	Air apparatus		
60104612	Light or photo apparatus		
60104613	Magdeburg hemisphere	Devices used to pull apart two hemispheres after attaching two hemisphere and make them vacuumized. The devices can demonstrate the existence of air pressure.	
60104614	Newtons ring apparatus	Devices used to demonstrate the phenomena of Newton's ring, the interference phenomena of the light between two thin films.	
60104615	Air track	Air tracks with low friction on which high-pressued air is pumped through a hollow track with fine holes all along the track that allows cars to glide relatively friction-free.	
60104616	Centripetal force apparatus	Devices used to study the centripetal force when an object has a circulation movement.	
60104617	Tensile modulus apparatus	Devices to experiment Young's modulus, the ratio of extension and transformation of an object when it is extended under tension.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104618	Newtonian demonstrator	An experimental device in which steel wire is dually arranged in V shape with steel ball attached to its end. It is used to verify the Law of conservation of momentum and static inertia, etc.	
60104619	Recording timer	It is used in measurement of acceleration and deceleration of moving objects, and records in dotting format by oscillating at uniform speed.	
60104620	Physics lesson kit	Educational material used to teach physics	

Class 60104700 Energy and power physics materials

Commodity	Commodity Title	Definition	Synonyms
60104701	Solar collecting devices		
60104702	Solar kits		
60104703	Energy demonstration kits		
60104704	Energy class kits		
60104705	Matter demonstration kits		
60104706	Matter class kits		
60104707	Monometers		
60104708	Gas diffusion apparatus		
60104709	Heat conduction apparatus	Devices to study heat conduction from high to low degree without the movement of an object.	
60104710	Thermal radiation and convection apparatus	Devices used to demonstrate convection, an indirect transmission of the heat and radiation, and direct transmission of the heat.	
60104711	Hookes law apparatus	An apparatus used to demonstrate Hooke's law that states that the extension of a spring is in direct proportion with the load added to it as long as this load does not exceed the elastic limit.	
60104712	Frank hertz apparatus	An experimental apparatus used to demonstrate the existence of the energy level through the drop of the electron in the atom by colliding the electron with the atom.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104713	Liquid expansion apparatus	An experimental device used to test the expansion of liquid by temperature. It can calculate the coefficient of liquid expansion by measuring the liquid volume which expands as the temperature increase.	
60104714	Boyles law apparatus	An apparatus used to experiment Boyle's law that states that in constant temperature the pressure and volume of the gas is inversely proportional.	
60104715	Pascals principle apparatus	A device used to demonstrate Pascal's principle that states that the pressure of an enclosed incompressible fluid is conveyed undiminished to every part of the fluid and to the surfaces of its container.	
60104716	Archimedes principle apparatus	A device used to demonstrate Archimedes' principle that states that any object immersed in a fluid is buoyed up by a force equal to the weight of the fluid displaced by the object.	
60104717	Bernoullis theorem apparatus	An apparatus used to demonstrate Bernoulli's theorem that states that the sum of potential and kinetic energy is conserved.	
60104718	Centrifugal pump apparatus	A device used to test the principle of operation of centrifugal pump by centrifugal force which is produced when liquid is revolved by an impeller.	
60104719	Ventury tube apparatus	A device used to know the principle and operation of the venturi tube which is used to measure the flow velocity and its pressure.	
60104720	Reynolds number measuring apparatus	An apparatus used to measure Reynolds number, the flow regime such as turbulent flow and laminar flow when the object is placed on the fluid or when the fluid flows in the pipe.	
60104721	Inertia moment apparatus	A device used to experiment the inertia moment which refers to the measure of an object's resistance to changes in its rotation.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104722	Gravitational force apparatus	A device used to experiment the universal gravitational constant and the principle of gravitation force that states that the force is directly proportional to the product of the two masses and inversely proportional to the square of the distance between the point masses.
60104723	Torsion balance	Devices used to monitor and measure the moment operating at the same time including gravitation forces and repulsive forces by measuring torsion angles of the thin fiber.
60104724	Refrigeration system analyzer	Equipment that can perform experiments on principle of refrigeration, refrigeration cycle, understanding of Morier diagram, verification of flow and changes in status of refrigerant, leakage test for refrigeration drainage section, operation of refrigeration, and causes for and measures against defectiveness.
60104726	Toricellis law apparatus	Equipment that is designed to experiment the Law of E. Torricelli on the velocity released by the inner liquid from the small hole in the wall of the vessel in the event that the viscosity of liquid is small and the influence is neglected.

60104813	Color charts or samples		
60104814	Radiometer		
60104815	Reflection or refraction apparatus		
60104816	Optics sets or kits		
60104817	Ripple tank apparatus	A device used to experiment general features of water wave, such as reflection, refraction, diffraction, interference and phased array.	
60104818	Planck constant apparatus	A device used to measure the Plank constant, the proportionality constant between energy of a photon and the frequency of its associated electromagnetic wave.	
60104819	Balmer lamp	A gas discharge tube with vapor filled inside. It can monitor Balmer series line spectrum in the field of visible ray domain of 1H.	
60104820	Kundt apparatus	An apparatus for experiment in which a bar is vibrated vertically and its wave length is measured through resonance in the glass tube with a view to measuring the velocity of sound in the solid, liquid and air.	
60104821	Photoelectric effect apparatus	A device used to test the photoelectric effect through the process when electrons are emitted from the surface of matter via the photoelectric effect from phototubes, the current that emits from the opposite side is measured.	
60104822	Elementary optical bench set	A device for observing the shadow using the light, distance and direction. It can also be used to observe the size, brightness and location of an object by moving the source of the light, object and the screen.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104823	Simple harmonic oscillator	A device used to experiment the simple harmonic motion, the most basic motion. This motion can be detected by uniform motion and constant motion under the central axis.	
60104824	Wave optics apparatus	A device used to experiment phenomena, such as interference, diffraction, dispersion and polarization of the light caused by undulation.	
60104825	Holography apparatus	Recording of interference fringe pattern of light with 2 channels induced from a single 1-color light source onto dry photosensitized plate is referred to as Hologram, and the photographic technique of reproducing this image is referred to as Holography. This is equipment that tests such holography.	
60104826	Optical magic mirror	A device that is composed of 2 parabolic mirrors at the upper and lower parts. The ceiling part of the upper parabolic mirror is open that the device may observe the phases of object for observations through this part.	
60104827	Focal distance measuring equipment	Equipment used in measuring the distance to the center and focal point of lens or spherical mirror by moving the distance movement equipment (career) to which lens is attached to its optical bench.

60104908	Electromagnetic apparatus		
60104909	Magnetism apparatus		
60104910	Electromagnets		
60104911	Electric bells or accessories		
60104912	Electric lead wires or cables		
60104913	Ohms law apparatus	A device used to experiment Ohm's law that states that the current through a conductor between two points is directly proportional to the potential difference, and inversely proportional to the resistance between them.	
60104914	Discharge tube	Devices used to study an arrangement of electrodes in a gas within an insulating, temperature-resistant envelope. They are used for experiments of electric discharge including glow discharge, corona discharge and arc discharge and gas spectrum.	
60104915	Transformer experiment apparatus	A device used to experiment the principle of a transformer that changes current and voltage using electromagnetic induction.	
60104916	Thermoelectric effect apparatus	An apparatus experimenting seebeck effect, a phenomenon in which a temperature difference between two dissimilar electrical conductors or semiconductors produces a voltage difference between the two substances and Peltier effect, the inversed effect to Seebeck effect.	
60104917	Electric equipotential apparatus	A device for measuring and experimenting same potential points in the electromagnetic fields. It is used to experiment equipotential in which the current is sent to the conductor line making the direction of electromagnetic fields, and to experiment the differences of equipotential among the fields caused by electrodes.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104918	Photoelectric apparatus	A device which can demonstrate the photo electric effect and the Planck constant by using the photo electric tube. It can identify the wave length of the light, and it consists of a photo electric tube, the amperemeter, the light source, and the current amplifier.	
60104919	Leyden jar	A condenser made with an insulated glass bottle with tin foil inside and outside of the glass. It stores static electricity and is used for the discharge experiment.	
60104920	Cloud chamber	A experimental device which enables the observation of the path of radial rays in which the air is infused into the chamber and expanded adiabatically, then water vapor is made. When the light is radiated, the radiation can be detected in path.	
60104921	Zeeman effect apparatus	A device used to experiment Zeeman effect, the splitting of a spectral line into several components in the presence of a static magnetic field caused by the electric spin.	
60104922	Coulombs law apparatus	Equipment to experiment the Coulomb's Law that force acting between 2 small electrified bodies is proportional to 2-times the quantity of electric charges, and reversely proportional to the square of distance between these 2 bodies.	
60104923	Discharger	A device that is used to attach at the tip of the ebonite handle by bending the metal bar and it is used in the discharge experiment of different electrified bodies.	
60104924	Faradays law apparatus	Equipment that is used to experiment the Law of Electronic Induction of M. Faraday, which induces the voltage with the magnetic field within the coil changed by moving the magnet in the coil wrapped with the conducting wire.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60104925	Flemings law apparatus	Equipment that is used to experiment the J.A. Flemings Rule, which is to display the relationship with the direction of the magnetic field and the force working on the conducting wire flowing of the current placed within magnetic field.	
60104926	Hall effect apparatus	Equipment that is used to experiment the phenomenon in generating the displacement difference between the place with the electric charge and place without the electric charge due to the skewing of electric charge in one side.	
60104927	Armature test system	A type of experimental equipment that is used to experiment the characteristics and the operation principle of power generator and armature of motor by igniting the luminescent diode following the penetration of the bar magnet on the coil center.	
60104928	Crookes tube	A discharge tube with level of vacuum of less than 0.1mmHg of pressure, and is also referred to as vacuum discharge tube.	
60104929	Rotating magnetic field generator	Equipment that is used to experiment the rotating magnetic field that seems to make the rotation of magnetic field changing in time.	
60104930	Fluorescent light demonstration device	Equipment that is used to experiment the principle of fluorescent light discharged with light which is obtained by applying the fluorescent material on the interior wall of the discharge tube that radiates the ultraviolet ray.

1/27/2014

60131310	Gayageum	One of Korean traditional zither-type musical instruments. There are two types: Jeong-ak Gayageum and Sanjo Gayageum. It is made up of 12 silk thread-woven strings placed on the 1500 mm long and 300 mm wide wooden resonance board made out of paulownia or chestnut trees supported by 12 geese's foot-shaped frets. It is played with the fingers and has 2.5 octave ranges.	
60131311	Geomungo	One of Korean traditional musical instruments. There are two kinds: Jeong-ak Geomungo and Sanjo Geomungo. It is 1500mm long and 200mm wide and made up of 6 silk-thread woven strings placed on the wooden resonance board made of paulownia or chestnut tress. It is played by a plectrum, and has 3 octave ranges.	
60131312	Ajaeng	The Korean traditional 7-stringed wind instrument which can be divided into Jeong-ak Ajaeng and Sanjo Ajaeng with a 1300-1800 long and 370mm wide resonance board which is made of paulownia at the front and paulownia chestnut tree at the back, supported by 7 goose's foot-shaped frets. It is a low tone instrument with one octave range, and played by a bow.	
60131313	Geum	A traditional Korean stringed instrument which also called a Chilhyeongeum or Hwigeum. It is made up of a resonance board 900~1200mm long, 1500~2000mm wide made of paulownia tree or chestnut tree. It has 13 white pearls, 'Whi,' inlaid on the front board to make left hand fingering easier. Each of the 7 silk thread strings is placed on goose foot-shaped frets or Gwae on the board.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60131314	Dangbipa	A Korean traditional string instrument which is also called Gokkyeongbipa. Its resonance board is made of hazel wood or mulberry and is 1000mm long by 300~400mm wide. Its strings are comprised of 4 silk-woven threads. It is played with a 'Bal', an ax-shaped wooden stick, or a finger covered with a thimble.
60131315	Daejaeng	A Korean traditional string instrument which is made up of a resonance board of 1700mm long and 200~300mm wide made of paulownia wood. It has 15 silk-woven thread strings. Each string is supported by a goose leg-shaped fret. The left hand presses down on the fret and the right hand plays Daejaeng. The sound is low and magnificent.
60131316	Seul	A traditional string instrument with a resonance board 1800mm long and 320mm wide. It is made of paulownia wood or thorny ash. It has 25 silk-woven thread strings supported by goose leg-shaped frets. Its sound range is 2 octaves.
60131317	Wagonghu	A traditional string instrument which is also called a Bongsugonghu. It is made up of a 900mm long, 700~900mm wide resonance board made of Chinese quince wood or zelkova. Its 13 strings are usually made of silk-woven threads and are tied diagonally to the board. It is played by the finger.
60131318	Hyangbipa	A traditional Korean string instrument which is also called Jikgyeongbipa. Its zither-shaped resonance board is made of 900~1000mm long, 300~350mm wide paulownia wood or chestnut. In general, its 5 strings are made of silk-woven threads. It is played by a plectrum or finger along with the left hand pressing the strings down on the fret.

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

60131319	Haegeum	A traditional Korean string instrument whose resonance board is made of 600~700mm long, 90~100mm wide bamboo or paulownia wood. Its 2 strings are made of silk-woven threads and played with a horsehair string stick. Its sound tone is not settled, but depends on the place the hand is put on and the degree of strength of the stick.
60131320	Sogonghu	A traditional Korean string instrument with a length of 900mm and width of 450mm made of willow tree and zelkova tree. It is composed of 13 silk-thread strings and played by fingers.
60131321	Sugonghu	A Korean traditional string instrument which is 900 to 1000mm long, 400 to 450mm wide consisting of resonance board made of willow tree and zelkova tree. 21 silk-thread strings are set on the board, and played by fingers.
60131322	Yangkum	A Korean traditional string instrument with the length of 1000 to 1100mm and width of 300 to 330mm. It is made up of wood board with 14 steel strings on the front side, and played by the bamboo stick.
60131323	Wolgeum	A traditional Korean string instrument with the length of 1000 to 1200mm and width of 350 to 400mm, consisting of a resonance board, hollow body, made of paulownia tree with long thin wooden neck attached on the body and 13 frets set on it. 4 strings are set lengthwise on the board and played.
60131324	Ukelele	A small stringed instrument of the lute family. It consists of 4 strings which are made from gut or nylon tied on a wooden resonance board. It has a narrow pitch, so it is generally played to accompany a song rather than play the melody itself.

UNSPSC v16_0901

1/27/2014

71112001	Cased hole formation sampling testing services	Services to acquire data that provides samples of the formation used to predict solids properties, such as asphaltenes, wax and hydrates, which need specific facility handling, separation and disposal through a cased hole.	
71112002	Casing thickness measurement services	Includes mechanical casing inside diameter measurement, electromagnetic casing thickness measurement.	
71112003	Chemical cutters services	Services to use chemical cutters to cut coiled-tubing, tubing, casing, and drill-pipe and other tubulars.	
71112004	Electromagnetic pipe recovery services	Services to run on wireline into the wellbore and inside the fishing string and fish to locate the area where a fish is stuck by analyzing the difference between the electromagnetic fields of free pipe and stuck pipe to locate the free-point indicator.	
71112005	Well flow measurement services	Services to measure the well production or injection rate.	
71112006	Well fluid density measurement services	Services to measure the density or changes in density in production or injection wells.	
71112007	Well fluid temperature measurement services	Measurements of temperature of well fluids.	
71112008	Free point tool services	Services to free stuck drill pipe, drill collars, tubing or casing using a free point tool.	
71112009	Gamma ray services	Services used to measure the amount of gamma rays produced in an area.	
71112010	Jet cutter services	Services to sever downhole coiled-tubing, tubing, drill pipe, or casing.	
71112011	Measurement while perforating services	Services used to evaluate formation or production while performing perforating services	
71112012	Neutron porosity services	The measurement of either thermal or epithermal neutron detection to determine the porosity in a borehole.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71112013	Nuclear spectroscopy services	Services to acquire data through the use of nuclear spectrometers to determine downhole conditions.	
71112014	Well packer services	Permanent and removable packers mechanical, hydraulic, wireline, multistring and feed through sealbore.	
71112015	Permanent magnets pipe recovery services	Services using permanent magnetic treatment used for coping with complications caused by emulsion formation, salt precipitation and asphalt and paraffin precipitation.	
71112017	Well pressure measurement control services	Downhole pressure monitoring while drilling, pressure management including pore pressure prediction, wellbore stability, ECD management, vibration monitoring and control.	
71112018	Production logging borehole fluid measurement services	The recording of pressure, temperature and fluid-flow parameters.	
71112019	Production logging density measurement services	The recording of fluid density.	
71112020	Production logging downhole video services	Services to provide video cameras to assist in production logging and diagnosing problems.	
71112021	Production logging flow measurement services	Measurements that describe the nature and behavior of fluids in or around the borehole during production or injection.	
71112022	Production logging pressure measurement services	Measurements that describe the pressure in or around the borehole during production or injection.	
71112023	Other production logging services	General production logging services.	
71112024	Production logging temperature measurement services	Measurements that describe the temperature in or around the borehole during production or injection.	
71112025	Severing colliding services	Use of an explosive tool to cut the outer casing or sea riser casing, to recover the remaining part of the casing in the water column .	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71112026	Well logging acoustic services	Services to measure pore pressure, seismic time-depth correlation, bit wear predictions and shear wave.	
71112027	Stuck point tool services	Services to remove drill stem, tubing, or casing which is stuck.	
71112028	Thermal decay well logging services	Services to measure the rate of thermal neutron absorption.	
71112029	Well tubular corrosion evaluation services	Evaluation and analysis of tubular corrosion.	
71112030	Well performance services	Services to optimize performance of a well which may include: electronic memory and mechanical instrumentation services production logging tools, slickline detonating systems, and tubing/casing calipers.	
71112031	Well tubular services	Includes repair of tubular services.	

Class

Commodity	Commodity Title	Definition	Synonyms
71112101	Digital acoustic logging services	Services to determine formation lithology, porosity and fluid characteristics using acoustic methods.	
71112102	Borehole geometry logging services	Logging to measure the geometry of a borehole.	
71112103	Density lithology nuclear logging services	Measurements of the macroscopic content of minerals.	
71112105	Dipole acoustic logging services	Using two poles of opposite polarity to generate a field, for excitation and detection of shear waves.	
71112106	Directional logging services	Services for directional logging.	
71112107	Directional survey services	Measurements while drilling used to update the map and reduce the risk of collision with existing wells.	
71112108	Electromagnetic propagation logging services	Using electromagnetic propagation to measure formation resistivity.	
71112109	Formation testing sampling services	Services to collect formation-fluid samples.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71112110	Fracture identification logging services	Service to identify the location of fractures.	
71112111	Gamma ray logging services	Measurement of the natural, or in some cases introduced, radioactivity in a well.	
71112112	Gamma ray spectroscopy logging services	Measuring the spectrum, or number and energy, of gamma rays emitted as natural radioactivity by the formation.	
71112113	Geochemical nuclear logging services	Natural and induced-gamma spectrometry methods are used to measure elemental abundances.	
71112114	Well imaging services	Service to acquire high-resolution resistivity images.	
71112115	Magnetic resonance logging services	Measurements of porosity, fractional volumes of bound and moveable fluids, and formation permeability.	
71112116	Microresistivity logging services	Measuring the differences in resistivity of the formation at the borehole face and presenting vertical and lateral resolution information as computer-processed pseudo-images.	
71112117	Neutron porosity logging services	Use of neutron porosity logging to identify zones of porosity.	
71112119	Resistivity logging services	Use of neutron porosity logging to identify zones of porosity.	
71112120	Slim access acoustic logging services	Acoustic logging through slim hole.	
71112121	Acoustic cement bond ratio logging services	Acoustic logging to provide representation of the integrity of the cement job.	
71112122	Well acoustic imaging services	Acoustic data imaging services for geological evaluation services.	
71112123	Formation dip direction and angle logging services	Services to determine the direction and angle of formation dip in relation to the borehole

Commodity	Commodity Title	Definition	Synonyms
71112301	2d/ 3d/ 4d land seismic acquisition services	Services to acquire 2/d, 3/d, 4d land seismic data, includes speculative seismic data.	
71112302	2d/ 3d/ 4d marine seismic acquisition services	Services to acquire 2/d, 3/d, 4d marine seismic data, includes speculative seismic data.	
71112303	2d/ 3d/ 4d seismic data processing services	Services to process 2/d, 3/d, 4d seismic data.	
71112322	2d / 3d/ 4d seismic data interpretation	Services to provide reports, reservoir attributes, visualization theatre, and workstations.	
71112323	Well velocity survey services	Measurements used to determine average velocity of a well including using a check shot survey, modeling, vertical, walkaway, geological, slim hole	
71112324	Other seismic services	Quality control, gravity surveys, magnetics, data management, data recovery, data transcription, navigation data processing, data brokerage.	
71112325	Borehole seismic land acquisition services	Includes checkshot, cross well, deviated and slim hole, rig source, offset source, walkaway, salt proximity, microseismic fracture monitoring, 3d, 4dvsp	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71112326	Borehole seismic marine acquisition services	Includes checkshot, cross well, deviated and slim hole, rig source, offset source, walkaway, salt proximity, microseismic fracture monitoring, 3d, 4dvsp.	
71112327	Borehole seismic processing services	Services to design and process borehole seismic data. Includes survey design and integration of borehole and surface seismic data.	
71112328	Borehole seismic monitoring acquisition services	Permanent or semi-permanent receiver placement borehole seismic services for long term reservoir monitoring of microseismic data.	
71112329	Borehole seismic while drilling acquisition services		
71112330	Simultaneous borehole and surface seismic acquisition services	Services to acquire 2d, 3d, 4d surface seismic and borehole seismic data simultaneously. Land or marine. Includes checkshot, cross well, deviated and slim hole, rig source, offset source, walkaway, salt proximity, microseismic fracture monitoring, 3d, 4dv	

Family Well drilling and construction services

Class Cement pumping services

Commodity	Commodity Title	Definition	Synonyms
71121001	Oilfield casing hardware services	Services related to installing equipment attached to, and run with, the casing string.	
71121002	Oilfield cement lab testing services		
71121008	Oilwell lost circulation services	A service performed to control a loss of drilling fluid to a formation, usually caused when the hydrostatic head pressure of the column of drilling fluid exceeds the formation pressure.	
71121009	Oilfield mud removal services	A service performed to remove unwanted drilling-fluids as prerequisite for primary cementing success. Mud left in the wellbore can prevent development of a hydraulic seal.	
71121010	Plug cement services	Plug cement services.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121011	Well site pressure pumping services	Well site pressure services using cement services equipment.	
71121012	Oilfield pressure testing services	Pressure testing services using cementing service equipment.	
71121016	Squeeze well cementing services	Services to perform squeeze cement operations.	
71121017	Well water control services	A treatment conducted within a reservoir or perforated interval to reduce water production.	
71121018	Well cement evaluation services	Cement evaluation service to measure the bond between the casing and the cement placed in the wellbore annulus between casing and wellbore. The measurement is made with acoustic sonic or ultrasonic tools.	
71121024	Casing cement services	Cementing services performed through casing	
71121025	Other cementing services	Other cementing services including engineering, equipment rental, material sales, cementing personnel, grouting, pressure testing,	

Class

Commodity	Commodity Title	Definition	Synonyms
71121101	Acidizing through coiled tubing services	The pumping of acid into the wellbore through coiled tubing.	
71121102	Cable installation through coiled tubing services	Installation of cable through coiled tubing.	
71121103	Cementing through coiled tubing services	Service that pumps cement into the wellbore through coiled tubing.	
71121104	Chemical cutting through coiled tubing services	Service that makes a chemical cut through coiled tubing.	
71121105	Clean out through coiled tubing services	The removal of wellbore-fill material through coiled tubing.	
71121106	Completion through coiled tubing services	The use of oilfield hardware through coiled tubing.	
71121107	Conveying inflatables through coiled tubing services	The use of coiled tubing to convey inflatable packers.	

UNSPSC Codeset

1/27/2014

71121108	Coring through coiled tubing services	Obtaining a core sample through coiled tubing.	
71121109	Extended reach well services	Performing extended reach well service through coiled tubing.	
71121110	Fishing through coiled tubing services	The removal of junk, or unwanted debris from a wellbore through coiled tubing.	
71121111	Fracturing through coiled tubing services	Fracturing through coiled tubing services.	
71121112	High pressure coiled tubing services	Applying high well treatments through coiled tubing.	
71121113	Horizontal isolation oilfield services	Performing of horizontal isolation services through coiled tubing.	
71121114	Logging with coiled tubing services	To record a measurement versus depth or time, or both, of one or more physical quantities in or around a well through coiled tubing.	
71121115	Milling through coiled tubing services	The use of a mill or similar downhole tool to cut and remove material from equipment or tools located in the wellbore through coiled tubing. .	
71121116	Nitrogen related applications through coiled tubing	The use of nitrogen gas applications through coiled tubing.	
71121117	Perforating through coiled tubing services	Performing perforating services through coiled tubing.	
71121118	Pipeline or flow line laying services	Laying of pipeline or flowline with coiled tubing.	
71121119	Pipeline intervention services	Performing pipeline intervention services through coiled tubing.	
71121120	Sand control through coiled tubing services	Perform sand control through coiled tubing.	
71121121	Abrasive tubular cleaning services	Performing abrasive tubular cleaning services.	
71121122	Well kill through coiled tubing services	Performing well kill procedures through coiled tubing.	
71121123	Casing exit with coiled tubing services	Services to create a casing exit/window with coiled tubing services.

UNSPSC v16_0901

1/27/2014

71121201	Conventional coring services	Services to remove core sample from the wellbore.	
71121202	Core isolation services	Services to isolate the core in order to bring to it the surface.	
71121203	Core preservation services	Services to keep the core in the same state as when it was brought to the surface.	
71121204	Horizontal coring services	Coring directionally, generally from length rather than depth of a well.	
71121205	Oriented coring services	Services to record the core orientation in relation to its original position in the wellbore.	
71121206	Core analysis service	Core analysis performed by provider at supplier location or on the job site.	
71121207	Sponge coring services	Services to expel fluids in the surrounding sponge material for analysis.	
71121208	Wireline retrievable coring services	Coring samples that can be retrieved by a wireline.	
71121209	Anti jamming system services	Services to reduces trips for core jamming, to improved coring efficiency	
71121210	Motor coring services	Services to improve rate of penetration	
71121211	Full closure systems services	Services to insure maximum core recovery in unconsolidated formation	

Class

Commodity	Commodity Title	Definition	Synonyms
71121301	Downhole drilling vibration control services	Services to suppress drill string vibration - drilling dynamics services.	
71121302	Downhole drilling borehole enlargement services	Services to increase the size of the borehole part of directional or performance drilling services.	
71121303	Downhole drilling reaming and gauge protection services	Services to increase the size of the wellbore part of directional or performance drilling services.	
71121304	Downhole drilling torque or drag reduction services	Services to minimize torque or drag.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121305	Downhole drilling stuck pipe alleviation services	Services to relieve drilling pipe stuck downhole.	
71121307	Downhole drilling tool repair services	Repair services for drilling tools	
71121309	Downhole drilling stabilization services	Use of stabilizers such as roller reamers, hole openers, keyseat wipers, our proprietary design fixed blade hole opener, float valves, crossovers, non magnetic tools of all types, steerable tools, to keep flow rate and well pressures constant	
71121310	Blow out preventer BOP rental	Service to rent or lease blow out preventers and associated equipment	

Class

Commodity	Commodity Title	Definition	Synonyms
71121401	Oilfield drilling bit design services	Bit engineering/design services.	
71121402	Oilfield drilling bit hydraulic optimization services	Services to aid in the selection of the proper bit nozzle size to maximize hydraulic impact force or maximize hydraulic horsepower.	
71121403	Oilfield drilling bit planning services	Services for pre-well and future well bit planning.	
71121404	Oilfield drilling bit recording services	Services to record seismic data through the drill bit.	
71121405	Oilfield drilling bit repair services	Maintenance and repair of drill bits.	
71121406	Oilfield drilling bit footage contracts		
71121407	Well site drilling optimization assistance service	Services to advise customers on procedures used to make a system or design used for drilling as effective or functional as possible.	
71121408	Drill bit hydraulic lifting system services	Maintenance and repair of drill bit hydraulic lifting services	

Class

Commodity	Commodity Title	Definition	Synonyms
71121501	Acoustic measurement when drilling services	Using sound waves for measurement when drilling.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121502	Acoustic telemetry when drilling services	Converting sound waves for transmission when drilling.	
71121503	Caliper measurement when drilling services	Use of caliper for measuring diameter of wellbore.	
71121504	Density measurement when drilling services	Measurement of the bulk density of the formation when drilling.	
71121505	Oilfield drilling performance services	Services to identify opportunities and implement plans for improved drilling performance.	
71121506	Electromagnetic telemetry when drilling services	Remote measurement and transmission of electromagnetic data.	
71121507	Formation dip measurement when drilling services		
71121508	Formation pressure measurement when drilling services	Measurement of the bulk density of the formation when drilling.	
71121509	Geologically steered wells	The use of geological information to guide a well to its target, especially when the geology turns out to be different from that expected.	
71121510	Geostopping services	Bit resistivity measurement services.	
71121511	Mud logging services	Services for the analysis of materials brought to the surface during the drilling of an oil or gas well, and the analysis of certain mechanical and fluid parameters relating to the drilling process.	
71121512	Nuclear magnetic resonance services	Use of nmr to provide formation evaluation petrophysical data including porosity, irreducible water saturation, permeability, and grain-size and pore-size distribution.	
71121513	Porosity measurement when drilling services	Services to measure the openings in a rock, openings in which petroleum can exist.	
71121514	Resistivity measurement when drilling services	The recording of the resistance of formation water to natural or induced electrical current.	
71121515	Well surveying management services	Services to provide surveillance of well data while drilling.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121516	Surveying wireline services	Services for measurement of formation properties with electrically powered instruments to infer properties and make decisions about drilling and production operations.	
----------	-----------------------------	---	--

Class

Commodity	Commodity Title	Definition	Synonyms
71121601	Well casing crew service	Personnel services to run casing into the wellbore.	
71121602	Well casing planning services	Pre-well and future well casing requirements planning services.	
71121603	Well casing milling services	Services to cut casing while in the wellbore.	
71121604	Coiled tubing drilling services	Services using coiled tubing with downhole mud motors to turn the bit to deepen a wellbore.	
71121605	Well completion planning services	Services to plan how to optimize the production of hydrocarbons from the well. Ranges from packer on tubing services above an openhole completion to a systems of mechanical filtering elements outside of perforated pipe, to intelligent well completion.	
71121606	Conventional well directional drilling services	Services to utilizing existing vertical wellbores from which to perform directional drilling.	
71121607	Well directional drilling services	Services to create a network of separate, interconnected wellbores to enable drainage of multiple target zones.	
71121608	Well drilling contract development services	Services to help develop and structure a contracts for drilling a well.	
71121610	Well drilling engineering services	Includes bit supervision, and evaluation or advise on bit application, mud engineering, directional drilling, mwd, wireline and surface logging advise, drilling performance optimization , planning, training, implementation (drilling), or knowledge capture.	
71121611	Well drilling mud or fluid services	Services to include cleaning, filtration, mixing of mud or fluids.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121612	Well drilling of water intake well services		
71121613	Well drilling rig monitor services	Services to monitor any of the following: performance, conditions, pressure, density, rate and concentration, communications, data.	
71121614	Well drilling solids control		
71121615	Well drilling stabilizing or hole opening services	Services to stabilize the drill string while enlarging the borehole.	
71121616	Well drilling supervision	Labor to oversee drilling procedures.	
71121617	Well drilling control services		
71121618	Well drilling other general services	Includes h2s services.	
71121619	Extended reach directional well drilling services	Using a single platform or drilling pad to drill multiple wells in different directions or to different depths.	
71121620	Multilateral directional well drilling services	Services to drill secondary wellbores away from the original hole.	
71121621	Oil country tubular modification or testing services	Services for hard banding, recutting, rethreading or refurbishment or testing for pressure or leaks in OCTG.	
71121622	Well drilling pickup or laydown service	Services to pickup and/or laydown casing and/or drill pipe at the rig site.	
71121623	Well drilling pipe storage	Storing of drilling pipe.	
71121624	Well drilling pipe threading	Creating threads on drill pipe ends.	
71121625	Rat hole well drilling service	Services to drill an extra hole drilled at the bottom of the hole.	
71121626	Short radius directional well drilling services	Drilling wells which typically have a curvature radius of 20 to 45 feet, usually dug outwards from a previously drilled vertical well.	
71121627	Steerable underreaming while well drilling services	Services using steerable tools to enlarge a wellbore past its original drilled size.	
71121628	Ultra short radius directional well drilling services	Drilling wells which typically have a curvature radius of less than 20 feet, usually dug outwards from a previously drilled vertical well.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121629	Underbalanced well drilling services	Services to minimize formation damage by using one of the following techniques (1) lightweight drilling fluids, (2) gas injection down the drill pipe, (3) gas injection through a parasite string, and (4) foam injection; can include the use air, nitrogen.	
71121630	Well planning services	Modeling, data and computer services used for well planning.	
71121631	Well redrilling or reworking services	Deepening of an existing oil well or otherwise drilling beyond the extremities (to the side) of the existing well casing or services to perform routine work performed on a well after its completion in order to secure production.	
71121632	Well drilling deviation control	Services to help maintain a true vertical well path.	
71121633	Oilfield gravel packing services	Services to provide a steel screen in the wellbore and the surrounding annulus packed with gravel designed to prevent the passage of formation sand for stabilization purposes.	
71121634	Oilfield hull systems services		
71121635	Rig well pulling crew services		
71121636	Wellhead equipment services	Services for installation or maintenance of wellhead equipment.	
71121637	Sidetracking with whipstock services	Services to place a wedge in a wellbore to force the drill bit to start drilling in a direction away from the wellbore axis.	
71121638	Well drilling pipe cleaning service	Cleaning service to remove rust, scale, cement and drilling fluids. This can be achieved via air rattling, outside and inside diameter brushing or by a hydro blasting system	
71121639	Downhole drilling tubular rental service	Rental of tubular goods such as casing or tubing or drill pipe	
71121640	Tubular running service	Service to run tubulars such as casing or tubing or drill pipe into the wellbore.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71121641	Rotary steerable directional drilling service	Service that includes the use of specialized downhole equipment designed to drill directionally with continuous rotation from the surface, eliminating the need to slide a steerable motor	
----------	---	--	--

Class

Commodity	Commodity Title	Definition	Synonyms
71121701	Oilfield fishing service design services	Services to retrieve equipment through cased hole.	
71121702	Oilfield fishing service economic evaluation services	Services to retrieve equipment through open hole.	
71121703	Oilfield fishing service operation services	Services to retrieve pipe.	
71121704	Oilfield junk recovery services	Services to remove junk or grind casing downhole.	
71121705	Oilfield pipe recovery service	Services to bypass or drill a section parallel to the original well.	
71121706	Oilfield fishing or drilling services		

Class

Commodity	Commodity Title	Definition	Synonyms
71121805	Plunger lift services	Services to install or service plunger lifts	
71121806	Reciprocating rod lift services	Services to install or service reciprocating rod lift services	
71121807	Hydraulic lifting services	Installation or service of hydraulic pumps used for improved well production	
71121808	Progressive cavity lift CVX services	Installation or service progressive cavity pumps	
71121809	Well site optimization and automation services	Installation or service of systems used to gather data for wellsite monitoring and control of production	
71121810	Electronic submersible pump lifting services	Installation or service of downhole pump that is electrically driven	
71121811	Other lift systems	Any other lifting systems used to improve well production	

UNSPSC Codeset

UNSPSC v16_0901

Commodity	Commodity Title	Definition	Synonyms
71121901	Downhole fluid evaluation services	Services to assess which are the appropriate downhole fluids to use.	
71121902	Downhole fluid laboratory services	Services to test and analyze downhole fluids.	
71121903	Downhole fluid sampling services	Services to analyze downhole fluid samples.	
71121904	Downhole fluid engineering services	Engineering services for drilling and completion fluids	
71121905	Fluid waste management service	Service and associated equipment for the treatment or disposal of fluids utilized in the drilling process	

Class

Commodity	Commodity Title	Definition	Synonyms
71122001	Coiled tubing well perforating services	To create holes in the casing or liner to achieve efficient communication between the reservoir and the wellbore through coiled tubing.	
71122002	Slickline well perforating services	The communication tunnel created from the casing or liner into the reservoir formation, performed on slickline.	
71122003	Through tubing well perforation services	To create holes in the casing or liner to achieve efficient communication between the reservoir and the wellbore through tubing.	
71122004	Tubing conveyed well perforating services	Services using perforating guns that are run on tubing.	
71122005	Wireline well perforating services	Services using perforating guns that are run on wirelines.	
71122006	Well tubing puncher services	Services using a special perforating gun, or charge, that is designed for limited penetration to allow an inner tubing or casing string to be perforated without damaging a surrounding outer string.

UNSPSC v16_0901

1/27/2014

Class 71122100 Oilfield sand control services

Commodity	Commodity Title	Definition	Synonyms
71122101	Acid sand control pumping services	Typically before a sand control treatment, the formation near the wellbore is acidized to remove any damage caused during drilling or preparatory work on the well.	
71122102	Sand control blending services		
71122103	Cleaning fluid sand control services		
71122104	Completion fluid sand control services		
71122105	Well consolidation services	The pumping of chemical systems that create a bond between sand grains to increase the unconfined compressive strength ucs of the rock matrix and therefore extend the life of the well by inhibiting sand production.	
71122107	Fracturing fluid sand control services	Placing sand in the wellbore and formation with above fracturing pressure.	
71122108	Fracturing pre frac design testing services	To pump fluids into the formation for determining properties beneficial to the design process. The properties gained or inferred from this analysis include rock compressive strength, youngs modulus, poissons ratio, fluid leak-off rate, and fracture geometry.	
71122109	General /miscellaneous sand control services		
71122110	Gravel carrier fluid sand control services	This is a broad category which could include any type of fluid designed specifically to provide the necessary viscosity or carrying capacity for transporting resieved gravel or proppant down the well and into the annulus.	
71122111	Sand control lab testing services	Testing prior to pumping a sand control treatment would include fluid suitability tests, formation sand analysis to determine proper gravel sizing, compatibility testing between carrying fluid and formation fluids, carrying fluid quality control tests, etc.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122112	Multizone sand control services	It is common practice to design a well completion in such a way as to combine more than one operation together to improve economics of the over well completion. This involves design of a bottom hole assembly.	
71122113	Sand control monitoring services	Refers to treatment monitoring services consisting of the recording and displaying of critical treatment parameters during pumping to ensure that proper execution is provided.	
71122114	Sand control temporary isolation services	Any service or tool that will allow isolation of one productive zone while another zone is being treated. This is typical for multi-zone completions.	
71122115	Well tool redressing services		
71122116	Non fracturing sand control pumping services	Placing sand in the wellbore between the sand control screen and the casing at a rate which prevents the bottom hole pressure from exceeding the fracture initiation pressure of the formation.	

Class

Commodity	Commodity Title	Definition	Synonyms
71122201	Slickline fishing services	Use of slickline to retrieve junk objects from downhole.	
71122202	Slickline lifting services	Use of slickline for installation of gas lift equipment.	
71122203	Slickline manipulation services	Services to reset or operate the slickline.	
71122204	Slickline completion services	Services installing a thin nonelectric cable used for selective placement and retrieval of wellbore hardware, such as plugs, gauges and valves located in sidepocket mandrels.	
71122205	Slickline logging services	Services to provide logging via slickline	
71122206	Slickline mechanical services	Services using slickline to run mechanical tools downhole	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122207	Slickline pipe recovery services	Services using a slickline to recover pipe from downhole	
----------	----------------------------------	--	--

Class

Commodity	Commodity Title	Definition	Synonyms
71122301	Subsea well diving services	Diving services including air, hardsuits, intervention, mixed gas, saturation, surface.	
71122302	Subsea well remote operation vehicle rovs services	Services to provide and operate and repair remote operated vehicles.	
71122303	Subsea well fixturing or test equipment services	Test bases, jigs, temporary and dummy fixtures simulating wellhead and hub interfaces for the purpose of landing, locking, sealing and testing subsea equipment prior to installation.	
71122304	Subsea well intervention or completion services	Services to convey mechanical tools or logging equipment to perform operational objectives downhole or to perform activities in the final stages of well construction to prepare a well for production.	
71122305	Subsea well safety test tree services	Services for installation, operation and repair of test trees.	
71122306	Subsea well equipment maintenance services	Maintenance and repair of subsea well equipment.	
71122307	Subsea dredging trenching and excavation services	Services to dig and remove material in waterways	
71122308	Subsea pipe laying and cable laying services	Services to perform various types of pipe/cable laying activities such as carousel, conventional, deepwater, fiber optic, flexible, j-lay, lay barge, reel, power, umbilical	
71122309	Subsea well production equipment monitoring and inspection service	Subsea production operations service including equipment inspection, monitoring, trouble shooting, etc.	
71122310	Subsea well project management and engineering service	Service for oil and gas exploration, development, and production facilities. Service can include from initial evaluation of producing formations to drilling, completion, stimulation, and well maintenance for a single well	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122311	Subsea well project front end engineering design service FEED	Includes front end engineering design FEED and pre front end engineering design PreFEED projects leading to follow on detailed engineering and construction projects for subsea production systems. FEED and preFEED projects typically include feasibility studies, screening of project ideas and definition of the basic scope, parameters, and economic impacts of the follow on major project. It involves analysis of the capital investment required sufficient to enable management to make a final decision using eco	
71122312	Subsea equipment installation and intervention tool service	Services to rent, lease and provided support for use of Intervention Workover Control System (IWOCS) surface equipment, IWOCS umbilical terminations, Pod retrieval Tools	

Class Well testing services

Commodity	Commodity Title	Definition	Synonyms
71122407	Drill stem testing services	Tests for reservoir pressure, permeability, skin, or productivity, downhole pressure measurements to determine reservoir characterization.	
71122408	Periodic well testing services	Services to provided reoccurring tests on the wells equipment such as bop, drill rig, electrical, paint, rotating equipment, structural, tubulars.	
71122409	Surface well testing services	Services to include exploration well testing, clean up or flow backs and inline testing of existing wells. Includes flowing the well through temporary production facilities while pressure, temperature and flow rate measurements are made.	
71122410	Underbalanced testing while drilling services	Testing borehole conditions while underbalance drilling.	

Class Water or gas control services

Commodity	Commodity Title	Definition	Synonyms
-----------	-----------------	------------	----------

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122501	Water or gas control design services	Design of water or gas control services.	
71122502	Water or gas control evaluation services	Services to evaluate the water or gas control method.	
71122503	Water or gas control isolation services	Services to isolate water or gas in a well.	
71122504	Water or gas control testing services	Services to test the effectiveness of the water or gas control method.	
71122505	Water or gas testing services	Sample testing of water or gas.	
71122506	Flare services	Services to burn off waste gases in a controlled manner	

Class

Commodity	Commodity Title	Definition	Synonyms
71122601	Cased hole well completion services	Installation of production equipment in a cased hole.	
71122602	Well completion fluids services	Use of completion fluids and filtration services for well completion.	
71122605	Gas lift well completion services	Services to inject gas to increase well productivity.	
71122606	Intelligent well completion services	Service which provide monitoring devices which can adjust well production.	
71122608	Multilateral well completion services	Installation of production equipment in a well with multiple branches.	
71122610	Sand control well completion services	Using gravel packing or sand consolidation during completion of a well.	
71122614	Liner running services	Services to suspend on string of casing from inside the previous casing string	
71122615	Open hole completion services	Installation of production equipment in an open hole	
71122616	Expandable pipe/screen well completion services	Use of expandable pipe/screen for sand control during well completion	

Class

Commodity	Commodity Title	Definition	Synonyms
71122701	Oil well platform maintenance services	Maintenance of platforms.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122702	Oilfield pumping unit maintenance services	Maintenance of oilfield pumping units.	
71122703	Oilfield rod pump repair services	Maintenance on artificial lift systems.	
71122704	Oilfield snubbing service	Services to put drillpipe into the wellbore when the blowout preventers (bops) are closed and pressure is contained in the well.	
71122705	Oilfield sucker rod maintenance services	Maintenance of the steel rod that is used to make up the mechanical assembly between the surface and downhole components of a rod pumping system.	
71122706	Well swabbing services	Services to reduce pressure in a wellbore by moving pipe, wireline tools or rubber-cupped seals up the wellbore.	
71122707	Oilfield tubing anchor services	Services to anchor and stabilize the bottom hole assembly for the duration of the intended application.	
71122708	Oilfield pump mechanic services	Repairs services to the pumping machinery.	
71122709	Downhole tool maintenance services	Repairs to downhole tools	
71122710	Oilfield tubular maintenance services	Repairs to tubulars	
71122711	Well workover service	Service for repair or stimulation of an existing production well for the purpose of restoring, prolonging or enhancing the production of hydrocarbons.	
71122712	Well workover lift boat service	Vessel service to conduct workovers, for example vessels such as Self Elevating Workover Platforms or SEWOPS often used in shallow waters.	

Class

Commodity	Commodity Title	Definition	Synonyms
71122801	Downhole recording services	Services to record conditions downhole.	
71122802	Well flow monitoring services	Services to monitor flow rates.	
71122803	Oil or gas well monitoring services	Services to monitor temperature, pressure, and fluid flow as well as other conditions.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71122804	Well site phase monitoring services	Services to monitor and make comparisons of periodic waves such as seismic waves.	
71122805	Well site pump monitoring services	Services to monitor pump conditions.	
71122806	Well site surface data acquisition services	Services to acquire data related to the surface of the earth around the well site.	
71122807	Well site surface readout services	Services to provide downhole measurements and conditions with the ability to readout or store data at the surface.	
71122808	Well site surface recording services	Downhole well site conditions electrically recorded at the surface.	
71122810	Subsurface well testing services	Testing, sampling or monitoring of subsurface conditions at the well site.	

Class

Commodity	Commodity Title	Definition	Synonyms
71122901	Deepwater oilfield rig services	Services for rigs located in offshore areas where water depths exceed approximately 600 feet.	
71122902	Jackup oilfield rig services	Rig services for a self-contained combination drilling rig and floating barge, fitted with long support legs that can be raised or lowered independently of each other.	
71122903	Barge oilfield rig services	Services for pipelaying or derrick services located on a barge.	
71122904	Land oilfield rig services	Services for rigs used to drill onshore.	
71122905	Platform oilfield rig services	Services for the platforms (large structures used to house workers and machinery needed to drill and then produce oil).	

Class

Commodity	Commodity Title	Definition	Synonyms
71123001	Management and provision of all facilities engineering modification and maintenance services for a site or platform	Services for oil and gas exploration, development, and production facilities. UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71131001	Acid based fluid well fracturing services	Services for a well-stimulation operation in which acid, usually hydrochloric acid hcl, is injected into a carbonate formation at a pressure above the formation-fracturing pressure.	
71131002	Emulsion based fluid well fracturing services	Services using emulsion mud for well fracturing.	
71131003	Foam based fluid well fracturing services	Services using foam for well fracturing services.	
71131004	Oil well fracturing services	General well fracturing services.	
71131005	Oil well scale control services	Services to control the mineral deposit that can occur in the tubing, the gravel pack, the perforations or the formation.	
71131006	Well fracture testing services	Services to pump into a closed wellbore with hydraulic pumps to create enough downhole pressure to crack or fracture the formation.	
71131007	Well fracturing downhole evaluation services	Services for evaluation of a well that passes through a natural fracture or that has been hydraulically fractured.	
71131008	Well fracturing height control services	Services to evaluate and control the height of the fracture.	
71131009	Well fracturing monitoring services	Services using either permanent and semi-permanent tools to monitor, control, record and report all types of fracturing treatments.	
71131010	Well fracturing service design services	Analysis and design of the fracture fluids and procedures to be used.	
71131011	Well fracturing service evaluation services	Services to evaluate the fracture procedures to be used.	
71131012	Well fracturing surface evaluation services	Evaluations of conditions at the surface level during fracturing.	
71131013	Well fracturing treatment quality control services	Services to monitor and measure the quality control services for fracturing treatments.	
71131014	Oil based fluid well fracturing services	An invert-emulsion mud, or an emulsion whose continuous phase is oil used in fracturing.	
71131015	Other well fracturing services	Other general fracturing services.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71131016	Well fracturing stress management services	Services used to calculate and control stress in the fracture.	
71131018	Water based linear fluid well fracturing services	Services using fluid without clay for stimulation	
71131019	Water based cross linked fluid well fracturing services	Services to use a compound, typically a metallic salt, mixed with a base-gel fluid for stimulation	

Class

Commodity	Commodity Title	Definition	Synonyms
71131101	Acid based matrix stimulation services	Services for the treatment of a reservoir formation with a stimulation fluid containing a reactive acid.	
71131102	Formation sealer matrix stimulation services	Services using a matrix used in acidizing, fracturing and other stimulation treatments as means of selectively sealing perforations in the casing and effectively diverting stimulation fluids to other sections of the formation.	
71131103	Matrix organic cleanup services	Services using organic clay acid stimulation fluid to stimulate the matrix.	
71131104	Matrix organic inhibition services	Services using organic clay acid for matrix inhibition.	
71131105	Matrix scale cleanup services	Services to cleanup matrix scale deposition.	
71131106	Matrix scale inhibition services	Services using a type of inhibition treatment used to control or prevent matrix scale deposition.	
71131107	Matrix treatment design services	Services to analyze and design proper matrix treatments.	
71131108	Matrix treatment diversion services	Services to administer matrix stimulation injection treatments to ensure a uniform distribution of treatment fluid across the treatment interval.	
71131109	Matrix treatment evaluation services	Analysis and evaluation of the results of matrix treatment.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71131110	Matrix treatment quality control services	Services to provide measure the quality and effects of the matrix treatment.	
71131111	Non acid based matrix stimulation services	Services for the treatment of a reservoir formation with a non-acid based stimulation fluid.	

Class

	71131312	Electronic submersible pump services	Services to install an electronic submersible pump for artificial lift purposes	
	71131313	Conventional pumping services	Pumping services using conventional pumps	
Class	71131400	Well production services		
	Commodity	Commodity Title	Definition	Synonyms
	71131401	Oilfield flare system services	Service to dispose of unwanted combustible vapors through a flare.	
	71131402	Oilfield hot oil or water service	Services for heating and delivering of hot oil or hot water on location.	
	71131403	Oilfield steaming services	Services for production of steam used on location.	
	71131404	Sulfide scavenging services	Scavenge and remove hydrogen sulfide from oil, water and gas phases	
	71131405	Flow line hydrate formation control services	Control formation of hydrates in production flowlines and equipment	
	71131406	Iron sulfide deposit removal services	Remove iron sulfide deposits in wells and equipment	
	71131407	Squeeze modeling services	Modeling services to design chemical squeeze and prediction of return	
	71131408	Hydrate formation modeling services	Modeling services to predict and identify conditions for hydrate formation	
	71131409	Chemical treatment monitoring services	Equipment for monitoring chemical treatments.	
	71131410	Pipeline cleaning services	Services for pipeline cleaning	
	71131411	Pipeline flow enhancement services	Enhance pipeline flow	
	71131412	Well restoration and enhancement services	Enhance and restore well production	
	71131413	Corrosion inhibiting services	Inhibit corrosion	
	71131414	Scale inhibiting services	Inhibit scale formation	
	71131415	Pipeline flow assurance services	Flow assurance	
	71131416	Impurity removal services	Remove crude oil impurities	
	71131417	Organic fouling control services	Control organic fouling of pipelines and wells

71131418	Bacterial and fungus control services	Control the growth of bacteria, fungus	
71131419	Gas gathering service	Service that collects gas from wells and pipes it to compression stations.	
71131420	Well flowback filtration service	Includes filtration service and associated equipment leasing of DE filter units, cartridge filter units, shear devices, skids, pod filters.	

Family Oil and gas restoration and reclamation services

Class Emergency well control services

Commodity	Commodity Title	Definition	Synonyms
71141001	Well pressure control services	Services to control well pressure which may include installation bop stack, drilling manifolds, wellheads, gate valves and chokes and other pressure control equipment.	
71141002	Well capping services	To regain control of a blowout well by installing and closing a valve on the wellhead.	
71141003	Well fire fighting services	Services for extinguishing a well fire.	
71141004	Wild well control services	Services to manage the pressure control resolution.	
71141005	Dead well workover	Well workover services to restart flow	
71141006	Well freeze operations	Technique used to isolate wellheads, valves and circulating equipment from subsurface or upstream pressure by forming an ice plug	
71141007	Relief well design and implementation	Hazard assessment; drilling, engineering and planning; directional drilling and intercept; and well kill / plug and abandonment	
71141008	Well control engineering services	Includes well modeling, relief well design, emergency response planning	

Class Well plugging and abandonment services

Commodity	Commodity Title	Definition	Synonyms
71141101	Well abandonment services	Services performed to abandon a well.	
71141102	Well plugging services	Services performed to plug a well.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71141103	Well abandonment platform removal services	Services to remove a platform for abandonment purposes	
71141104	Well plugging and abandonment tubular cutting services	Services used to cut tubing including using abrasive water jet, diamond wire cutting tools, charges and explosives, hydraulic shears, thermic lance boring	

Class

Commodity	Commodity Title	Definition	Synonyms
71141201	Well cleaning or swabbing services	Services to remove liquids from the production tubing to initiate flow from the reservoir.	
71141202	Well site restoration services	Services for the restoration of abandoned well sites and associated facilities.	

Family

Class

Commodity	Commodity Title	Definition	Synonyms
71151001	Oilfield data and message transmission services	Services to transmit recorded well data and messages.	
71151002	Oilfield graphics transmission services	Services to transmit recorded well graphics.	
71151003	Oilfield real time well data monitoring services	Services to communicate data to the surface shortly after being recorded.	
71151004	Oilfield satellite well data transmission services	Services using satellites to transmit well data.	
71151005	Oilfield well data transmission services	Other well data services.	
71151007	Computer based simulation training program services	Simulation services and training services for oil and gas drilling and completion projects	

Class

Commodity	Commodity Title	Definition	Synonyms
71151101	Oilfield asset data management services	Services that manage the acquisition and interpretation of well log data for evaluation and analysis.	
71151102	Oilfield data mining services	Services to aggregate or interpret data for statistical or analytical purposes.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71151103	Oilfield log data management services	Services to manage data log including search/find, access/buy, process/correct, transfer/load, usage and storage functions.	
71151104	Oilfield mapping data management services	Services to produce oilfield charts and maps.	
71151105	Seismic data management services	Services to manage seismic data including search/find, access/buy, process/correct, transfer/load, usage and storage functions.	
71151106	Data storage and backup	Services to archive or store archived data	

Class 71151200 Oilfield economic and risk model services

Commodity	Commodity Title	Definition	Synonyms
71151201	Oilfield budgeting services	Services to create and manage budgets for oilfield projects.	
71151202	Oilfield capital planning services	Financial services to plan capital expenditures, cost reductions or analysis for return on capital.	
71151203	Oilfield decision tree services	Services that provide analysis visually mapping out the problem using the decision tree model to produce calculation to determine risk analysis.	

Class 71151300 Oilfield interpretation services

Commodity	Commodity Title	Definition	Synonyms
71151301	Oilfield bubble map services	Services that create map using bubbles to display data.	
71151302	Oilfield case studies	Services to produce case studies for oilfield exploration and production projects.	
71151303	Oilfield decline analysis	Services using decline analysis to estimate reserves and predict production using either curve fitting and type curve matching methods.	
71151304	Oilfield field studies	Services to provide studies of oilfield geological, geophysical, geomechanical or petrophysical conditions.	
71151305	Oilfield fracturing interpretation services	Interpretation of data produced by the analysis of a well that passes through a natural fracture or that has been hydraulically fractured.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71151306	Geology services	Services which include interpretation for 3d modeling, biostratigraphy, diagenesis, flooding, log interpretation, organic chemistry, petrology, volumetrics.	
71151307	Geophysics services	Interpretation services 2d, 3d, 4d, attributes, amplitude versus offset (avo), inversion, OBC.	
71151308	Gravel pack interpretation services	Services to interpret the changes in gravel pack region.	
71151309	Oilfield grid mapping services	Services to develop and/or determine values for grid elements on a map.	
71151310	Oilfield mapping or visualization services		
71151311	Petrophysics services	Services to interpret or build a model using petrophysical information such as data from cased hole logs, core analysis, lwd, open hole logs.	
71151315	Rock mechanics services	Services to interpret the rock mechanical properties.	
71151316	Reservoir services	Services to include modeling, simulation, engineering economics, enhanced oil recover, fluid characterization, monitoring and tracers	
71151317	General formation evaluation	Services to evaluate the volume of rock seen by a measurement made in the borehole, as in a log or a well test.	
71151318	Acoustic waveform processing services	Services to process the acoustic waves into images	
71151319	Geomechanical services processing	Services to provide evaluation, testing, simulation and analysis of geomechanical conditions	
71151320	Nuclear magnetic resonance processing and interpretation services	Processing and interpretation of the measurements of porosity, fractional volumes of bound and moveable fluids, and formation permeability	
71151321	Resistivity processing and interpretation services	Processing and interpretation of the measurements resistivity through the uncased hole	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71151322	Dip angle and direction processing	Services to process the data to determine the direction and angle of formation dip in relation to the borehole	
71151323	Borehole image processing	Processing the data of the borehole image	
71151324	Logging while drilling processing	Processing the well seismic data that is recorded during the excavation of the hole, or shortly thereafter, through the use of tools integrated into the bottomhole assembly	
71151325	Pulsed neutron processing and interpretation services	Processing and interpreting the measurements of the rate of thermal neutron absorption	
71151326	General cased hole and production log processing	Processing and interpreting the measurements of the production logs from cased holes	
71151327	Casing inspection analysis services processing	Services to interpret the data from electronic inspection of casing to detect defects	

Class

Commodity	Commodity Title	Definition	Synonyms
71151401	Well cementing job design services	Services to plan projects to permanently seal annular spaces between casing and borehole walls using cement.	
71151402	Coiled tubing job design services	Services to plan projects using coiled tubing services.	
71151403	Well drilling job design services	Services to plan projects for directional drilling and lwd services.	
71151404	Well fracturing job design services	Services to plan well fracturing stimulation projects.	
71151405	Matrix stimulation job design services	Services to plan treatments near-wellbore reservoir formation to enhance the productivity of a well.	
71151406	Well sand control job design services	Services to plan the installation of equipment or application of techniques to prevent migration of reservoir sand into the wellbore or near-wellbore area.

Class 71161000 Oilfield modeling services

Commodity	Commodity Title	Definition	Synonyms
71161001	Oilfield completion models	Creation of models of the assembly of downhole tubulars and equipment required to enable safe and efficient production from an oil or gas well.	
71161002	Oilfield drilling models	Creation of models for constructing the wellbore.	
71161003	Oilfield economic models	Creation of model for determination of possible economic results.	
71161004	Oilfield field development models	Creation of models to represent field development.	
71161005	Oilfield production models	Creation of models for the phase that occurs after successful exploration and development.	
71161006	Oilfield risk management services	Creation of models to identify and evaluate hazards.	
71161007	Geological or geophysical models	Creation of models representing geological or geophysical information	
71161008	Reservoir models	Creation of models of reservoirs. The model could include any of the geological, fluid or other characteristics of the reservoir.	

Class 71161100 Oilfield production engineering management

Commodity	Commodity Title	Definition	Synonyms
71161101	Oilfield artificial lift services	Evaluation and design of system to add energy to the fluid column in a wellbore with the objective of initiating and improving production from the well.	
71161102	Enhanced oil recovery services	Evaluation or design services to restore formation pressure and to improve oil displacement or fluid flow in the reservoir.	
71161103	Well injection services	Evaluation, design or testing of services to inject fluid into the reservoir with the primary objective typically being to maintain reservoir pressure.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71161104	Oilfield production system analysis services	Evaluation, design or testing to forecast the performance of the various elements comprising the completion and production system.	
71161105	Well perforation services	Evaluation, design or testing of the process to create holes in the casing or liner to achieve efficient communication between the reservoir and the wellbore.	
71161106	Oilfield production chemistry services	Evaluation or design of chemistry to increase well production.	
71161107	Oilfield production monitoring services	Evaluation, design or testing of monitoring equipment used for production.	
71161109	Well stimulation services	Evaluation, design or testing of services for treatment performed to restore or enhance the productivity of a well.	
71161110	Underground gas storage services	Evaluation, design or testing of gas storage devices used underground.	
71161111	Oilfield water management services	Evaluation, design or testing to monitor the volume, treatment and disposal of produced water associated with oil production.	

Class

Commodity	Commodity Title	Definition	Synonyms
71161201	Oilfield hot oiling service	Management of services for heating and delivering of hot oil on location.	
71161202	Oilfield lease operations	Management of the area of surface land on which exploration or production activity occurs.	
71161203	Oilfield logging services	Management of measurement and evaluation of the recording of one or more physical quantities in or around a well.	
71161204	Oilfield paraffin cutting service	Management of services to remove paraffin and soft wax deposits from the internal wall of production tubulars and completion equipment.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

71161205	Oilfield planning services	Planning from initial appraisal through operational procedures and optimization of the well.	
71161206	Oilfield processing services	Management of the services for alteration of seismic data to suppress noise, enhance signal and migrate seismic events to the appropriate location in space. Processing steps typically include analysis of velocities and frequencies, static corrections, etc.	

Class

Commodity	Commodity Title	Definition	Synonyms
71161301	Oilfield audits or inspection services	Oilfield audits or inspection services.	
71161302	Oilfield emergency response planning services	Oversee oilfield emergency response planning.	
71161303	Oilfield field development services	Oversee the phase of petroleum operations that occurs after exploration has proven successful, and before full-scale production.	
71161304	Oilfield performance monitoring services	Oversee the services to acquire data to monitor well integrity and maximize production and recovery.	
71161305	Oilfield reporting services	Oversee oilfield reporting services for creation, generation and interpretation of report.	
71161306	Oilfield succession plan or handover services	Oversee the planning of services for handing over the well drilling and completion services teams to operation and maintenance services of the well.	
71161307	Oilfield training matrix services	Oversee the development and management of required training for a particular oilfield.	
71161308	Well site logistics or procurement services	Oversee the purchasing, scheduling, expediting and delivery of people, products and services to a well site.

71161402	Well completion engineering services	Evaluation and design or testing of the assembly of downhole tubulars and equipment required to enable safe and efficient production from an oil or gas well.	
71161403	Deadman anchor services	Mooring services using strong buried anchors for holding the vessel in place.	
71161405	Well site pit lining services	Services to design monitor and dispose of linings used in the pit area during drilling.	
71161407	Well pulling unit services	Services to use a slickline or coiled tubing tool used to retrieve temporary devices, such as plugs and flow-control equipment, from the wellbore.	
71161408	Shorebased services	Services to support the transport of people and products to and from an offshore platform using sea vessels; includes docking facilities for the support vessels, lay-down and marshaling areas, warehousing, materials handling equipment, etc.	
71161409	Test pit lining services	Services to construct a test pit or drill in a test pit.	
71161410	Well site vacuum truck services	Services using vacuum trucks to clean out oil pits, oil/water separators at the well site.	
71161411	Underbalanced applications engineering services	Evaluation, design and monitoring of applications to obtain underbalanced condition.	
71161413	Well fabrication or construction services	Services for manufacturing and/or assembling a well components.	

Class Well site operations services

Commodity	Commodity Title	Definition	Synonyms
71161503	Well site inspection or equipment testing services	Services to inspect or test equipment at the well site.	

Class Other oilfield support services

Commodity	Commodity Title	Definition	Synonyms
71161601	Oilfield drafting services	Drafting services to include: autocad, cad, cap, gis, intergraph, pdms, specifications.	

UNSPSC Codeset

Family 72100000 Building and facility maintenance and repair services

Class 72101500 Building maintenance and repair services

Commodity	Commodity Title	Definition	Synonyms
72101501	Handyman services		
72101504	Disaster proofing or contingency services		
72101505	Locksmith services		
72101506	Elevator maintenance services		
72101507	Building maintenance service	Building Maintenance Services	
72101508	Floor cleaning services		
72101509	Fire protection system and equipment maintenance or repair service	Maintenance and repair of fire protection systems and related equipment	
72101510	Plumbing system maintenance or repair		
72101511	Air conditioning installation or maintenance or repair service		
72101512	Hoist construction service	Surface to mineface lift construction service used for underground mining	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72101513	Offsite construction service	For contractors working on locations peripheral to a project location	
72101514	Refuse area construction service	Construction services for refuse area used by mining companies	
72101515	Subsidence service work	Repair work done to structures damaged or threatened by sinking soil.	
72101516	Fire extinguisher inspection maintenance and repair service	Service that includes inspection, testing, certification, repair and replacement	
72101517	Portable generator maintenance and or repair service	Service to maintain and or repair portable generators	
72101518	Portable generator rental service	Service to provide rental of portable generator equipment	
72101519	Gas fitting installation service		
72101520	Roof framing service		
72101521	Building framing service		

Class 72102100 Pest control

Commodity	Commodity Title	Definition	Synonyms
72102101	Bird proofing services		
72102102	Termite control services		
72102103	Extermination or fumigation services		
72102104	Structural pest control		
72102105	Animal trapping		
72102106	Rodent control		

Class 72102900 Facility maintenance and repair services

Commodity	Commodity Title	Definition	Synonyms
72102902	Landscaping services		
72102903	Snow removal services		
72102905	Exterior grounds maintenance		
72102906	Landscape architecture service	Service involving the design and development of landscapes

Class 72103100 Conveyance systems installation and repair

Commodity	Commodity Title	Definition	Synonyms
72103101	Material conveyance system installation	Installation of mechanical systems for material conveyance.	
72103102	Material conveyance system repair	Repair of mechanical systems for material conveyance.	
72103103	Aboveground conveyor service	Service work to conveyor structure and belt located aboveground.	
72103104	Underground conveyor service	Service work on conveyor structure and belt located underground.	

Class 72103300 Infrastructure maintenance and repair services

Commodity	Commodity Title	Definition	Synonyms
72103301	Parking lot or road maintenance or repairs or services		
72103302	Telecom equipment maintenance or support		
72103304	Parking lot or road sweeping services		
72103305	Drain laying service		

Family 72110000 Residential building construction services

Class 72111000 Single family dwelling construction services

Commodity	Commodity Title	Definition	Synonyms
72111001	Single family home remodeling addition and repair service	the remodeling and repair of residential buildings for individuals or single families owned by others	
72111002	Single family home general remodeling service	The general remodeling of residential buildings for individuals and single families owned by others	
72111003	On site mobile home repair service	The repair of mobile homes owned by others on site	
72111004	Patio and deck construction and repair service	The building and repair of patios and decks owned by others	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72111005	Single family home fire damage repair service	The remodeling and repair due to fire, of various types for residential buildings for individuals and single families owned by others	
72111006	Single family home new construction service	Construction of new residential buildings for individuals and single families of various types owned by others	
72111007	Single family prefabricated home erection service	The building of new prefabricated homes for individuals and single families owned by others	
72111008	Single family new town home or garden home construction service	The building of new townhome or garden homes owned by others	

Class

Commodity	Commodity Title	Definition	Synonyms
72111101	New apartment building construction service	The building of new apartment buildings owned by others	
72111102	New cooperative construction service	The building of new cooperative apartment buildings owned by others	
72111103	New condominium construction service	The building of new condominium buildings owned by others	
72111104	New dormitory construction service	The building of new dormitories owned by others	
72111105	New hotel or motel construction service	The building of new hotel or motel owned by others	
72111106	Apartment remodeling service	The remodeling of apartment buildings owned by other	
72111107	Cooperative apartment remodeling service	The remodeling of cooperative apartment buildings owned by other	
72111108	Condominium remodeling service	The remodeling of condominiums buildings owned by other	
72111109	Dormitory remodeling service	The remodeling of dormitories owned by other	
72111110	Hotel or motel remodeling service	The remodeling of hotels or motels owned by other	
72111111	General residential construction contractor service	The provision of general contracting services to individuals wishing to build their own homes

1/27/2014

Class 72121200 Agricultural building construction services

Commodity	Commodity Title	Definition	Synonyms
72121201	Farm building construction service	The building of farm buildings owned by others	
72121202	Greenhouse construction service	The building of greenhouses owned by others	
72121203	Silo and agricultural service building construction service	The building of silos and agricultural service buildings owned by others	

Class 72121300 Automotive garage and service station construction services

Commodity	Commodity Title	Definition	Synonyms
72121301	Automotive garage construction service	The building of garages owned by others	
72121302	Automotive service station construction service	The building of service stations owned by others	

Class 72121400 Specialized public building construction services

Commodity	Commodity Title	Definition	Synonyms
72121401	Bank building construction service	The building of banks owned by others	
72121402	Fire station construction service	The building of fire stations owned by others	
72121403	Hospital construction service	The building of hospitals owned by others	
72121404	Post office construction service	The building of post offices owned by others	
72121405	Religious building construction service	The building of religious buildings owned by others	
72121406	School building construction service	The building of school buildings owned by others	
72121407	Mausoleum construction service	The building of mausoleums owned by others	
72121408	Stadium construction service	The building of stadiums owned by others	
72121409	Public library construction	The building of public libraries owned by others	
72121410	Airport terminal and hanger construction	The building of airport terminals and hangars owned by others	

Class 72121500 Industrial plant construction services

Commodity	Commodity Title	Definition	Synonyms
72121501	Chemical plant construction service	The building of chemical plants owned by others	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72121502	Mine loading and discharging station construction service	The building of mine loading and discharging stations, owned by others	
72121503	Oil refinery construction service	The building of oil refineries owned by others	
72121504	Waste disposal plant construction service	The building of waste disposal plants owned by others	
72121505	Waste water and sewage treatment plant construction service	The building of water and sewage treatment plants owned by others	
72121506	Power plant construction service	The building of power plants owned by others	
72121507	Tank construction and servicing	The construction and servicing of tanks owned by others.	
72121508	Preparation plant construction service	Construction of plants used to clean coal prior to shipment.	
72121509	Underground Electrical Services	Electrical service work conducted underground.	
72121510	Floating oil and gas production storage and offloading system construction service	Service to build Floating Production Storage and Offloading Facilities aka FPSOs, a moored ship shaped facility capable of producing oil from subsea wells and storing and offloading the oil into shuttle tankers	
72121511	Offshore oil and gas production facility hookup and commissioning service	Service to prepare and commission an offshore oil and gas facility for operation, commencing immediately after the facility is mechanically installed through handover to production operations	
72121512	Offshore oil and gas production facility equipment installation and integration service	Service to mechanically install offshore oil and gas production facilities including piles, anchors, gravity based structures, mooring systems, jackets, towers, hulls, production or storage vessels, topsides, well head platforms, living quarter modules, bridges, and flare booms. Includes quayside integration of top sides to a hull.	
72121513	Oil and gas plant modular fabrication service	Service to fabricate process modules for onshore oil and gas plants. Excludes procurement of single process skids and equipment packages	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72121514	Oil and gas production platform and topside fabrication service	Service to fabricate offshore oil and gas production topsides, well head platforms, living quarters modules and associated structures including flare booms and bridges	
72121515	Floating oil and gas production system hull fabrication service	Service to convert and re purpose existing hulls, or fabricate new hulls, for use in building Floating Production Storage and Offloading FPSO vessels, including both ship shaped and non ship shaped hulls, and floating oil and gas production systems FPS, including semi submersible, tension leg platform, spar and mindoc configurations	
72121516	Fixed oil and gas offshore production facilities fabrication service	Service to fabricate or construct jackets, compliant towers and gravity based structures for use in fixed platform oil and gas production facilities. Includes fabrication of piles	
72121517	Liquid natural gas LNG plant construction service	The building of liquid natural gas LNG plants owned by others	

Family **72140000** Heavy construction services

Class **72141000** Highway and road construction services

Commodity	Commodity Title	Definition	Synonyms
72141001	Highway and road new construction service	The building of new highways and roads owned by others	
72141002	Highway and road sign or guardrail construction and repair service	The building and repair of highway and road guardrails and signs owned by others	
72141003	Highway and road maintenance service	The repair of highways and streets owned by others	
72141004	Highway reflector installation service	The installation and maintenance of highway reflectors	

Class **72141100** Infrastructure building and surfacing and paving services

Commodity	Commodity Title	Definition	Synonyms
72141101	Airport runway construction service	The building and repair of airport runways, owned by others	
72141102	Land grading service	The grading of land for construction projects	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72141103	Highway and road paving service	The paving of highways and roads owned by others	
72141104	Highway and road resurfacing service	The resurfacing of highways and roads owned by others	
72141105	Sidewalk construction and repair service	The building and repair of sidewalks	
72141106	Gravel or dirt road construction service	The building and repair of gravel or dirt roads owned by others	
72141107	Bridge construction and repair service	The building and repair of bridges owned by others	
72141108	Tunnel construction and repair service	The building and repair of tunnels owned by others	
72141109	Viaduct construction and repair service	The building and repair of viaducts owned by others	
72141110	Oil and gas branch line construction service	The building of oil and gas branch lines owned by others	
72141111	Gas main construction service	The building of gas main lines owned by others	
72141112	Natural gas compressor station construction service	The building of natural gas compression stations owned by others	
72141113	Oil and gas pipeline construction service	The building of oil and gas pipelines owned by others	
72141114	Pipeline wrapping service	The wrapping of oil and gas pipelines owned by others	
72141115	Electrical cable laying service	The laying of cable owned by others	
72141116	Television cable laying service	The laying of television cable owned by others	
72141117	Telephone and communication cable laying service	The laying of telecommunication cable owned by others	
72141118	Telecommunication transmission tower construction service	The building of telecom transmitting towers owned by others	
72141119	Aqueduct construction service	The building of aqueducts owned by others	
72141120	Sewer line construction service	The building of sewer lines owned by others	
72141121	Water main construction service	The building of water main lines owned by others	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72141122	Electric power line construction service	The building of electric power lines owned by others	
72141123	Manhole construction service	The building of manhole access stations owned by others	
72141124	Pipe laying service	The laying of pipe owned by others	
72141125	Pumping station construction service	The building of pumping stations owned by others	
72141126	Underground utilities construction service	The building of underground utility stations owned by others	
72141127	Seal coating of roads, highways and parking lots	Service involving seal coating of roads, highways and parking lots	
72141128	Public square construction and or remodelling service	Construction and or remodelling of squares as public beautification	
72141129	Park and garden construction and or remodelling service	Construction and or remodelling of parks and gardens as public beautification	
72141130	Ornamental fountain construction and or remodelling service	Construction and or remodelling of ornamental fountain for public visit	

Class

Commodity	Commodity Title	Definition	Synonyms
72141201	Caisson drilling service	The building of caissons owned by others	
72141202	Canal construction service	The building of canals owned by others	
72141203	Dam construction service	The building of dams owned by others	
72141204	Dock construction service	The building and repair of docks owned by others	
72141205	Drainage system construction service	The building drainage systems owned by others	
72141206	Dredging service	The dredging of waterways owned by others	
72141207	Harbor construction service	The building of harbors owned by others	
72141208	Irrigation system construction service	The building of irrigation systems owned by others	
72141209	Levee construction service	The building of levees owned by others	
72141210	Marina construction service	The building of marinas owned by others

72154053	Broadcasting station repair service	The repair of broadcasting stations owned by others	
72154054	Catalyst loading or removal service	Loading and removing of catalyst from equipment or vessels	
72154055	Tank cleaning service	Service to clean industrial commercial tanks, above or below ground	
72154056	Tank maintenance or repair service	Includes repair or maintenance of storage tanks owned by company; above ground or under ground, and associated equipment	
72154057	Storage tank rental service	Service associated with rental of storage tanks which includes transportation, installation, maintenance, removal as well as supply of associated equipment such as spill guards, valves, lines, connectors, etc.	
72154058	Tank and line testing service	Hydrostatic testing of tanks and associated lines and connectors	
72154059	Leak detection sealing and repair service	Service to locate and seal leaks on valves, flanges, pipes using drilling, machining and sealant compounds	
72154060	Degassing service	Service for the removal of organic gases or vapors and their displacement with air or nitrogen. Portable vapor combustion or recovery units are used to degas tanks, pipelines and other equipment	
72154061	Air filtration service	Service to provide rental and maintenance of filtration and supported equipment and materials to remove dust and particulates from air	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

72154062	Hot tapping service	Also known as pressure tapping, is the service to tap into a connection to existing piping or pressure vessel without the interruption of emptying that section of pipe or vessel. This means that a pipe or tank can continue to be in operation whilst maintenance or modifications are being done to it. The process is also used to drain off pressurized casing fluids	
72154063	Stopples or line stopping service	Service to isolate a piping system to provide a shut off where none exists. This process involves installation of a control, plug, or temporary valve, that can be removed after alterations or valve replacements have been made. With a hot tap previously made on a line, a line stopper is attached to a temporary valve, and the valve is opened. The line stopper is hydraulically or mechanically pushed into the line to seal the pipe. There are various types of line stopping heads equipment used for such services	
72154064	Portable lighting equipment rental service	Rental of portable equipment that provides lighting to the job or worksite. Includes installation and maintenance services.	
72154065	Electrical copying equipment maintenance	Service related to the maintenance of electrical copying equipment.	
72154066	General office equipment maintenance	Service associated with the maintenance of electrical office equipment.	
72154067	Temporary theatrical stage and platform rental and installation	Rental and installation of temporary theatrical stages and platforms and associated rigging	
72154068	Graffiti removal and treatment service	A combined set of activities to remove graffiti from public property. This is done as soon as possible after the fact, particularly if offensive language is used. Activities may include painting over graffiti on wooden and painted surfaces, water blasting and sand blasting on hard surfaces. Also treating surface so that graffiti paint will not adhere.

80101508	Business intelligence consulting services	This represents the services provided by independent business (company, market and industry info, competitive intelligence, etc.) information researchers and analysts. It is similar to market research, but broader in scope, encompassing all the myriad intelligence (information) needs that a company may have from time to time.	
80101509	Government affairs and community relations consultation service	Services associated with consultation regarding government and community relations	
80101510	Risk management consultation service	Services associated with mitigating various business risks	
80101511	Human resources consulting service	Service to provide consultation on HR related matters such as HR policy development, benefits, and employee hiring and termination	
80101512	Actuarial consulting services		

Class 80101600 Project management

Commodity	Commodity Title	Definition	Synonyms
80101601	Feasibility studies or screening of project ideas		
80101602	Regional or location studies for projects		
80101603	Economic or financial evaluation of projects		
80101604	Project administration or planning		
80101605	Temporary drafting service	Services that engage in the systematic and dimensional representation of building projects	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

80101606	Project monitoring and evaluation	Monitoring and evaluation are complementary, monitoring is the process of collecting information on a routine basis for use in decision-making and evaluation of projects, is a process by which we determine the impact or effects generated by a project from the comparison between the current state and the state planning provisions. That is, it tries to know how much a project has failed to meet its objectives or how much it possesses the capacity to meet them	
80101607	Project impact assessment	The impact assessment is to determine if the project had the desired effects and whether these effects are attributable to the implementation of the project or if it has public value

81101515	Plant or facility infrastructure engineering	Engineering services for design, calculation for the following plant or facility applications: earth movements, roads, sewer systems	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

81101516	Energy or utility consulting service	Contract consulting related to utilities and other energy producing companies	
81101517	Landscape architecture and design service	Consultancy related to landscape architecture and design	
81101518	Lighting engineering service	Lighting engineering design is the design of lighting to use light to achieve a practical or aesthetic effect. Lighting includes the use of both artificial light sources like lamps and light fixtures, as well as natural illumination by capturing daylight. Day lighting --using windows, skylights, or light shelves-- is sometimes used as the main source of light during daytime in buildings. This can save energy in place of using artificial lighting, which represents a major component of energy consumption in buildings.	
81101519	Subdivision planning service	Subdivision means the division of a lot, tract, or parcel of land into two or more lots, plats, sites, or other divisions of land for the purpose, whether immediate or future, of sale or of building development. It includes re-subdivision and, when appropriate to the context, relates to the process of subdividing or to the land or territory subdivided	
81101520	Hydrology assessment service	Rainfall basis for stormwater calculations	
81101521	Hydrogeology assessment service	Ground water, water table, water pressure in the ground	
81101522	Earthworks engineering	Earthworks are land grading to reconfigure the topography of a site, or to stabilize slopes. Includes roads, railway beds, causeways, dams, levees, canals, and berms.	
81101523	Urban design and engineering service	Urban design is a technical process to design and engineer green field or brown field areas to incorporate public open space, built form and view corridors.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

81101524	City development planning service	Urban planning --urban, city, and town planning-- is a technical and political process concerned with the control of the use of land and design of the urban environment, including transportation networks, to guide and ensure the orderly development of settlements and communities. It concerns itself with research and analysis, strategic thinking, urban design, public consultation, policy recommendations, implementation and management	
81101525	Sediment control engineering	Sediment control engineering is used to design solutions to prevent and decrease damages from sedimentation disasters as well as to maintain fundamental conditions of fluvial ecosystem, consisting of water, sediment and aquatic lives.	
81101526	Quantity surveying service	A type of service involving management of all costs related to building and civil engineering projects, from the initial calculations to the final figures. Surveyors seek to minimise the costs of a project and enhance value for money, while still achieving the required standards and quality. Many of these are specified by statutory building regulations, which the surveyor needs to understand and adhere to.	
81101527	Wastewater engineering	The design of wastewater systems -sanitary sewer and grey water- is the design of a closed network of pipes, buffer chambers, pumping stations and sewage treatment plants. These are used to remove wastewater from human activity and treat the wastewater to minimize environmental impact.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

81101528	Stormwater engineering	The design of stormwater systems for removal of surface water to prevent flooding. Urban areas have many impermeable surfaces which tend to concentrate water. The stormwater systems collect water via channels, culverts, pipes, drainage reserves, settling ponds. For the most part these are gravity fed systems. The stormwater outflows into rivers, lakes, tidal creeks, estuaries, coastal water and the ocean.	
81101529	Acoustic engineering	Engineering design for building noise attenuation and various other noise sources attenuation. Involves use of computer modelling.	

Class

Commodity	Commodity Title	Definition	Synonyms
81101601	Mechanical drawing		
81101602	Mechanical product enclosures design		
81101603	Machine tool design		
81101604	Power transmission design		
81101605	Electromechanical services		
81101606	Marine engineering	Encompasses shipbuilding engineering functions including creative project floating ship, applied research, technical development in the fields of design and construction and management of the production centers of buoyancy material (yards). As well as the maintenance and repair of these. The marine engineer is concerned with the design, planning, design and construction of ships, boats and floating structures, including oil platforms and offshore wind farms

Commodity	Commodity Title	Definition	Synonyms
-----------	-----------------	------------	----------

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

81171501	Marine biology consultation service	Consulting, advisory, information and research services from tertiary qualified professionals to advise on marine organisms and ecosystem dynamics; ocean currents, waves, and geophysical fluid dynamics; plate tectonics and the geology of the sea floor; and fluxes of various chemical substances and physical properties within the ocean and across its boundaries.	
----------	-------------------------------------	--	--

Class **81171600** Ecological science services

Commodity	Commodity Title	Definition	Synonyms
81171601	Aquatic ecology service	Consulting, advisory, information and research services from tertiary qualified professionals that perform biological assessment studies on water bodies, including sampling, identification, and analysis of phytoplankton, zooplankton, periphyton, aquatic macrophyte, benthic macroinvertebrate, and fish communities.	

Class **81171700** Botanical science services

Commodity	Commodity Title	Definition	Synonyms
81171701	Horticultural science service	Science and technologies that underpin horticulture, such as plant pathology, soil science, entomology, weed science, and other disciplines. It also includes healthcare and therapies that enhance horticultures contribution to society. Horticultural scientists focus on the research that underpins horticultural knowledge, skills, technologies, education and commerce.	

UNSPSC Codeset

UNSPSC v16_0901

1/27/2014

81171702	Arboricultural science service	Consulting, advisory, information and research services from tertiary qualified professionals to advise on how individual trees, shrubs, vines, and other perennial woody plants grow and respond to cultural practices and to their environment. The practice of arboriculture includes cultural techniques such as selection, planting, training, fertilization, pest and pathogen control, pruning, shaping, and removal.	
----------	--------------------------------	--	--

Class **81171800** Agricultural science services

Commodity	Commodity Title	Definition	Synonyms
81171801	Agricultural science consultation service	Includes research and development on production techniques e.g., irrigation management, recommended nitrogen inputs, etc., improving agricultural productivity in terms of quantity and quality e.g., selection of drought-resistant crops and animals, development of new pesticides, yield-sensing technologies, simulation models of crop growth, in-vitro cell culture techniques, transformation of primary products into end-consumer products e.g., production, preservation, and packaging of dairy products	

Class **81171900** Aerobiological science services

Commodity	Commodity Title	Definition	Synonyms
81171901	Air quality science service	Consulting, advisory, information and research services from tertiary qualified professionals to advise on the contamination of the air by impurities (called pollutants) which can occur naturally or can be produced by human activities
