BULB LECTURES

Presented by Mike Smedley

- Three-Headed Dogs, Greedy Drunks and Leper Bells – Weird Stories Behind Great Bulbs
- Right Bulb, Right Place – Planting for Wet, Dry, Sun, Shade or any Condition
- They're Not Just for Spring! Bulbs for 8 Months of Outrageous Color
- Just Starting Out? Really Easy Bulb Basics
- "Stump the Chump" – One-on-One Free Consult for Your Bulb Planting

Mike Smedley has been ruthlessly gardening in Durango's fickle climate for 20 years, managing to plant more plants than he has killed. His lawn is a Xeric buffalo grass with 10,000 species of crocus and tulips, blooming from early March to mid-May. The rest of the garden features a couple thousand other bulbs; about 40 species or cultivars. Smedley is also an obsessive rock gardener. He is the chief deposit officer for Bank of the San Juans, a community bank in Durango with offices across Colorado, and he writes a weekly humor column for the local newspaper called "Action Line." In the 12 years he has been writing the column, he can count on one hand the number of times that "action" actually was taken.

- Garlic as a cash crop – growing for yourself, for retail outlets or wholesale

The Garlic Store offers 50-70 varieties of primarily Premium Label (no pesticide, non-GMO) garlic each season along with a variety of jarred garlic spices, sauces, pickled products and garlic-related kitchen gadgets.
